Prob. 5/15

Dear Saul:

Voila! It is done. The whole MARKISM AND FREEDOM. I believe we have made it and neither the capitalists nor Communists nor labor bureaucrats nor Trotskyists, not to mention those miserable Johnsonites, will recover from the blow this delivers to them. The battle will be to the finish when this is published.

Please note in the enclosed for M & E to finish typing, there is a page 352 which asks you to insert a footnote on all these human relations in industry projects; I believe you also have all those production conferences in the 1945-7 period listed in your pamphlet index; could you please get them, and make a rather comprehensive paragraph of the footnote. I can divide the human relations ftn. and the one on the production conferences (if you still have them) would go a few pages later. Also do not give them p. 392 to type until you have added a piece on the Hungarian Workers Council from my TW and perhaps that Britisher's book if you have it. All the rest I hope is self-explanatory-- provided they have by now learned to read my criss-crossings; please check.

It is good to be done. You will be glad to know that the Appendices you definitely do not have to read or do anything about. I checked and realized it would be impossible for one "to correct English" where the language from which it is translated is "foreign", so forget about that aspect, and that means you have "only" 365 pages to read.

Yrs,

*Raya*

I will want everything done Sunday so that I can have the night to work it over before Mr. Sales & Theor's departure -
