3 dates 1843-1883  
concentrate  
1914-1924  
1953-1957,  
breakthrough name it Marxist-Humanism

The greatness of each with Hegel and where they stopped  
2 ways in which Lenin stops 1. when he dismisses last  
~~part~~ half paragraph. The reason it is important is that we can  
point to it. When the particular historic barrier has been  
transcended and when new buds have sprung from below  
But not limited in time and space. The fact that I can  
show it as a trail to the 1980s

Retgression was to P -- we need a word as meaning-  
full for us. Do we have to wait for such a force on American  
scene and would it run for us.

-----  
I would want to consider the current scene 1953-57 but  
what was discovered anew in trail from Marx.  
continuity and discontinuity -- some people want to make it

you can get to revolution without philosophy. It meant there had to be a break.

3 moments in Marx

43-47

50 --when revolutions failed

57-58--return to Hegel, but this time not

-----  
Ourselves-

before and after M&F

before and after P&R

before and after RLWKKM

and what is reaching for the future?

The question of the new book.

You have to begin where you will end, but the end has to show that the beginning lead to it, which would be economic situation. Maybe we would start on nuclear threat

Classes all the unaccounted for in the classes which shows philosophy is still missing

1st class inadequacy in vicissitudes of state-capitalism

and the philosophic of P&Ls is completely left out

2nd class Black consciousness--why does it start in '75,
