here the other day, while standing un-der the dome of the national capital, from whence volumes of thick, black moke, rising from the burning debria mode, rising from the burning centra of a scanty Negro village was plainly visible; a Negro village that some southern gentlemen fidn't quite ap-prove of; that the Negro who went to military camps abould have done most prove of; that the Negro who went to military camps should have done most of their training for the Huns in Ken-tucky and-Mississippi than any that were reported to have been overseas.

suppose that this speaker was thinking of the 18 lynchings last year in this country; of the two Negroes lynched in three days' time in Florida Just recently; or maybe he was think. Ingled the fact, that in spite of the life lynchiugs in 1925, in spite of the already large number of acts of mobiling large number of acts of mobiling that have taken place this measure a law. ing of the fact, that in spite of the

lynching and enti-violence bills been lost, bills, that an enormous amount of time, money and Thought were used in fortering, but also there has been defeat in other lines of aspiration for freedom.

Segregation has stalked into the national capital: it is now against the law for an elegantly attired colored lady or gentleman of Washington to go bathing on any other heach than the one especially assigned to them by the district of Columbia police officials

the one especially assigned to by the district of Columbia police officials.

Just this week the supreme court of the U. S. has handed down a decision in a case involving the buying of real estate in the D. C. in which the court disclaims any right to interfere in any little plan that the citizens of a white community get together and contract to never sell any property to a person of Nogro blood.

this time, and have come out on strike along with all other workers.

In the words of one of the colored strike loaders, it has been Jim Crow learned conditions, low pay, long hours, to gether with the fact that Negro work, such as working in damp places where they are forced to cadure acid tumes that is very injurious to their health. That has placed them on strike. All rough and heavy work is at all times allotted to colored workers. Systematic investigation has proven that Negro workers who earn from 40 to 42 cents per hour are dored to work 60 hours and more a week to be able to receive a weekly

week to be able to receive a weekly wage of \$24.

Therefore, it is but natural that our race workers should finally revolt against such conditions and they have responded in large numbers to the strike call, and they intend to re-main out until the strike is won. The American Negro Labor Congress is giving these militant class conscious workers of our race its wholehearted -William Pickens of the support. William Pickens of the R. A. A. C. P. has spoken before these workers and was given a hearty welcome. He ure workers workers to fight on for a square deal in the textile industry. It is understood that textile industry. It is understood that this fearlessly fought battle by the colored textile workers will gain for them and for all the colored workers who are in the mills, the same consi-deration that all other workers re-

**HAITIANS** RIOT WHEN ELECTION IS FORCED BY U.S.

How the recent election of Luis Borno as president of Halti, to suc ceed himself, was consummated, has been set forth in a document which arrived yesterday by private courier over a circulous route from Percival Thoby, former Haltian charge duf-Thoby, for faires here.

Thoby left New York early last Thoby left New York early last month and arrived in Port on Prince, the Haitian capitol, on April 13, the day following the elections, after visiting Cape Haitian, Porte de Paix, Jeremio and St. Marc. In each place he reported great excitement concerning the naming of Borno by a council of state chosen by himself, five of its twelve members being his relatives.

"In Port an Prince," he said, "peo-ple of all classes protested against the so-called election of Mr. Borno. They came from all parts of Haitl. The city came from all pairs of hatt. The city was crowded. All streets around the legislative building were guarded on the control of the election was an nounced by armed constables. No one was allowed to enter the building without a cass.

"Thousands of citizens, women and children, filled the streets, crying, Down with Borno, the traitor. One moment the crowd, dense and excited tried to force their way thru the tried to force their way thru the armed constables and reach the legis-lative building. American officers or-dered the constables to drive the pec-

ple back and fire on them.
"The constables, being Haitlar
raised their guns and fired in the air
Panic ensued, but subsided followin Hairlan Panic ensued, but subsided following public announcement of Borno's election. Then began wholesale arrests of citizens, some of them accured of having fired shots, when in reality the constables fired by direction of American officers.

"My brother-in-law, Albert Carrie, was arrested and thrown in a small

was arrested and thrown in a small cell with eighteen other citizens. They were nearly naphyxiated. He was not armed at all, and was released by the armed at all, and was released by the American chief of police, after seven hours' confinement, but again arrested under the same charge by direct or ders of Mr. Boron. He bemained in arreson twenty-four hours, and was re-

(Continued on page 4)

of the big South African empire for a few pennies a ...

Prime Minister J. B. M. Hertzog has given out a statement saying that the Color Bill most stand, as it is the only way to keep South Africa for the White race.

It is reported that the I. C. U., the Industrial and Commercial. Union, an organization of 30,000 native workers is busy laying plans to combat this imperialist encroachment upon their rights. EDITOR'S NOTE:—The following address or editorial is taken from the "Workers' Herald," a native labor paper, that is published in Cape Town by Clements Kadalle, organizer of the I. C. U. of South Africa. Mr. Kadalle is also a contributing editor to the Negro Champion. We think this ringing declaration of militant spirit and independence with which the native workers of South Africa. of South Africa meet the challenge of bondage and ensignment which the British imperialist have nurled at them, should be of splendid encouragement to the great masses of Negro workers in America, to organize themselves 100 per cent strong. We also think that this fighting spirit of the South African workers ought to put to shame many of the boot-licking "Uncle Tom's" both black and white who infest the ranks of the workers, and who, whonever they are slapped good and hard, by the master class, are all too ready to say, "Thank you sir, we'll try and do better next time."

The People's Charter for Freedom and no Surrender.

While we endorse whole-heartedly the Bill of Rights as re-affirmed at the recent Bloemfontein Convention, we desire to appeal to all African leaders, moderates and extremists, to sink all their differences, and thus reason together and steam off African their differences, and thus reason together and steam off African political revolution. A national assembly in place of the present African National Congress for the Aboriginals must be created forthwith. This must take place in the form of a political alliance to which all the existing organizations of the African people must be affiliated. We trust that there shall be no delay on the part of the leaders to act. The way is quite open, the government has unconsciously given us a "grand send-off," and the impetus thus created will be seen in unanimous resolutions which are being adopted throughout the country. Our leaders must boldly step forward and initiate the proposed program. The elements of evilmust be attacked en masse. While we also appreciate the courage of the Cape Native Voters' Association, who in a conference demust be attacked en masse. While we also appreciate the courage of the Cape Native Voters' Association, who in a conference decided to petition parliament for the continuation of the Cape franchise, we totally disapprove of sectional or provincial non-party discussion of the native problem, much more is it desired. for us to defend ourselves en masse. Let old fears and tribal prejudices be set aside. We must marshal our forces during the pres-

udices be set aside. We must marchal our forces during the present year so as to be ready for the fray in 1927.

Our motto must be LIFE OR DEATH.

We do not propose to discuss the constitution of the proposed National Assembly. This can be left in abeyance until the leaders meet. It is an indisputable fact that there are many of our leaders who would not join the African National Congress for one reason or another. We cannot afford to lose them; they must be brought into the line of battle. Let our imperialist rulers and exploiters according legislating against our own will, our minds must be concontributed in creating against our own will, our minds must be concentrated in creating a new political atmosphere throughout the country. It is time that we change the line of agitation. As we are debarred from entering into parliament, we cannot accept anything infector. We must create our own parliament as suggested above.

Shall we consider it our duty tamely to submit to any nev Shall we consider it our duty tarnely to submit to any new laws which may be made to check our progress to prosperity and social happiness? Let the imperialist dupes make laws for them selves, if they are so fond of legislating. If they fondly believe in taxation, let them tax one another; but let them first ask dur considerable of the dispersion of the considerable of the considerab

selves, it they are so into taxation, let them first ask our content to the sent before they prescribe pills for our disease—of which we selves better know the cure.

No! The immediate consequences of any attempt to content the African proletariat at this present juncture, must be a more resolute determination on the part of the people so affacted to litheir forces together, thereby to bring about the dawn of political forces together, thereby to bring about the dawn of political proletariat.

SEMBLY. To your tents, O African proletariat.

# GARVEY'S LEADERSHIP IMPERILS USEFULNESS OF U. N. I. A.

Detroit Convention of the U. N. I. A. An Attempt of Garvey Leaders to Hypnotize Masses of Negro People with Wild Dreams of Fantastic Empires and Mythical Steamship Lines. No Practical Businesslike Plans or Policy Adopted.

The much heralded international convention of the U. N. I.
A. has ended in Detroit. The A. N. L. C. was represented at this meeting by fraternal delegates, but there was very little opportunity for fraternal delegates or any other class of delegates, who were not already committed to Carveyism in its most rabid and fantastical form to get a hearing. Vital and important questions pertaining to the industries, economic and labor conditions among the toiling masses of the Negro people were almost ignored, or were second-rate questions, or pushed aside, that Mr. Carvey might be praised and Mr. Sherrill condemned. The A. N. L. C. had hoped that the convention would adopt a working class L. C. had hoped that the convention would adopt a working class program for the people.

During the World War the claim of leading statesmen thruout the world that the war was being fought in the interest of democracy. The bantering about of democracy. The bantering about of democratic phrases euch as, "The right of self determination of the weaker races of people," "the right of self government," etc. coupled with the universal chiffing of social relationship and the great masses of backward people down into the great macistrom had its peculiar effect upon the Negroes of America as well as all other oppressed and exploited racial groups of the world. The unrest had developed among the Negro people of America as a sort of back-fire to president Wilson's Fourteen Points presented at the peace conference and inconsistancy of the Negro people being called upon to fight for a government that does not protect them from lynching, Jimerowism, political disfranchisement and countless other social During the World War the claim of ing, Jimerowism, political disfranchise-ment and countless other social abuses, was suparent to the most inchward and unlettered Negro. This unrest among the great mass of Negroes in America was at once seized upon and criticised by Mr. Mar-cus Garvey who came to America in 1916 under the influence of these dem-ocratic slegans which everybody was monthly.

Ideal proposition of a free and inde-pendent Africa for the Negro peopler, and course, no, one should have, any

ore, etc., are the chief products and constitute the source of wealth of these states. Negro labor is the means employed to extract this wealth; could it be imagined for one moment that the legislatures of these states would the legislatures of these states would give the slightest consideration to any proposition that meant the drawing away of the labor supply upon which the employing class in these states and their respective governments depend for profits and revenue? Only the most child-like and uninformed mind could believe so.

The African continent has been in competition among the great European powers. Negroes like to say that at least there yet remains two free and independent Negro States in Africa but even this is not true. Liheria is not free; neither is Abyssinia. Any man who knows anything whatsoever about present day international politics knows that the same state of the world, even though they have a government of their own are but normally free and that the great powers have something to say in regard to their foreign policy and even their internal policy. The Liberian government has never fostered the U. N. I. A. movement and for the simple reason that the Liberian government is in a constant state of approximant that constant etate of approximant that we have a liberian government in a constant state of approximant that any liberian government is in a constant state of approximant that we have also been seen that the Liberian government is in a constant state of approximant that we have a simple reason that the Liberian government is in a constant state of approximant states of approximant st The African continent has been in

# AMPLÓN NEGRO SCHOLAR. HEEL JOINS RANKS OF WER A.N.L.C. WORKERS

Staff Lecturer of the N. Y. Board of Education to Make Speaking Tour of A. N. L. C. Locals in the East in Interest of Labor Organization Among Negro Workers

Among the many new additions to the fast swelling ranks of the Amer-ican Negro Labor Congress, are a number of outstanding figures in presnumber of outstanding figures in present day American life. Standing in the front rank of these is Dr. Hurbert Harrison of New York City, staff lecturer of the New York board of education, member of the mayor's committee on reception to distinguished guest, traveler and scholar of note.

To the great host of friends and dmirers of Hubert Harrison, this step, which brings him into actual con-lact with the most fundamental of fac-tors that is involved in the Negro's existence in America, namely his economic status.

Hubert Harrison has been for many years as a serious, fearless and energetic student of Negro lite and its problems; therefore it is accepted an natural that he finally takes his place in the ranks of the A. N. L. his place in the ranks of the A. N. L.

C.; to serve his best in an organized struggle on the part of the Negro workers to win their economic emancipation; which in turn means his socital and spiritual emanciantion. cial and spiritual emancipation.

#### PULLMAN PORTERS JOIN UNIONS NOT SCARED BY COMPANYA BLUFF; WANT BETTER WAGES

L'di or's Note:

I di lor's Note:

The Pullman Co. is persisting in its campaign of leprisal and blacklisting against all porters who openly favor the Regular Porters' Union which the Pullman porters, out of sheer desperation have formed in an attempt to gain better working conditions and a decent living wage. For years the Pullman porters have been the worst treated and most poorly paid of all railroad workers. Very naturally then, thousands of the men are joining the new union because they feel they have a right to bargain as ather workers do for a better livelihood.

ST. PAUL, Minn.—In spite of the official statements of the Pullman Company that "all employes are permitted to become members of any organization that they so desire," Frank Boyd, porter in good standing for 19 years, has been notified to stay off his run.

On January 13 and 14 at meetings of the newly organized Pullman Porters.

off his run.

On January 13 and 14 at meetings of the newly organized Pullman Porters' Union, he spoke in favor of the union. On the 15th he was notified not to take his regular run. He has not been employed now for three months, altho technically he is still an employe of the Pullman Company.

This is the method used by the Pullman Company to illegally discharge union men. When Boyd attempted to bring his case before the grievance committee, as provided in the fake Employea' Representation Plan, the company officials refused to issue form No. 9.151 upon which grievances are made to the zone committee. According to the spreament made February 15th, 1925, every employe has the right of "fair and imparital hearing at the earliest possible date as to the cause and justification of suspension or dismirsal, provided hearing is requested." Registered latters have been sent to Healy, the district superintendent, and to C. Ross, the chairman of the district porters' representatives. Still no answer has been gotten from them.

A few provisions of the plan will

of independent claim and spiritual emancipation.

Aside from his lecture work, Hubert Harrison has served as literary critic for the New York World, the Mr. Jouvenel the New York Tribune, the Freeman and the New York Tribune, the Freeman and the Nation; he is organizer of the principal colored Races. Unity as the superintentian pleases. In the at movement league, Harrison will begin a speak client has been taken of the liftary rule in ing tour of the eastern locals of the matter to the local committee CC.

or industrial relations—all of which has been done in the regular manner in "Conference must be granted within ten days." Now, Boyd has been thrown out of work for three months without explanation, waiting action on this case. This shows the bankruptey of the plan as far as the porters are concerned.

without explanation, his case. This shows the bankrupter of the plan is far as the porters are accepted.

January 27th Wage Conference lilegal:
The agreement made at the "wage conference" held January 27th to February 5th, 1926, was lilegal. The plant provides that 24 porter delegates conference and ALL of them must sign to make an agreement at the conference there were neither 24. the conference there were neither 24 delegates nor did all of them sign.

Still the Pullman Company is foisting

Still the Pullman Company is folsting this agreement on the porters, which, even according to the Pullman plan, is illegal.

The porters of the Twin Cities must realize that the corperation is not interested in bettering conditions of the porters. They will only do so under pressure. The Employers Represented tion Plan was not designed by the Pullman Company to allow such Pressure to be brought to bear. The Pirotherhood of Sleeping Car Porters is the only organization thru which the demands of the porters in their. is the only organisation thru which the demands of the portage in their struggle for better conditions can be enforced. The union is now organized over 60 1 or cent in St. Paul, with the drive about to begin in Minusapolis. The unic. appeals to all porters to unite spans; the discrimination shown; the porters as an inferior race. Porty ters of the Twin Cities, if you tant better working conditions and better, ner, inin the union now while the

cter ori n i he

mo

more objection to Negro Nationalism that to Irish Nationalism, Hindu or Egyptian Nationalism. The idea as Exception Nationalism. The idea of an idea was a noble one but the prom of action of carrying out this is the been as incomplete, as vision and at times a like-lous an any ides has been no ary and at times

of the war at our statem parts at solutily into because they had nothing to hast. Mr. Relievely proposed vessels and at the same time the organization having nothing for these vessels to do life. Survey groups to do life. Survey did not know that many of the steamship lines today have developed out of industries as a means of solving their own problem of transportation; and "incidently, sorving others; as a result the money that has been invested in the U.N. I. ships has been money wasted." It would cthers; as a result the money that has been invested in the U. N. I. A. ships has been money wanted. It, would have been guile practicable had the U. N. I. A. first acquired a concession of land is Breatl, Africa or some other tropical connery and begun the growing of coffee, rabber, cocos or any of those commodities which America buys from the tropical areas of the world and later having set up warehouse in America and Europe states and then the proposition of the steam-whip line could have had a plactical proposition; it would have had immediate use. This is only one example of how impracticable and child-like Mr. Garvey's program of action has been. However much we may appreciate and admired him for his courage and for his devotion to the cause of race liberation, we cannot overlook his downright ignorance of present day World Social organization, neither did we fall to apprechate the fine revolutionary social demands of the U. N. I. A. in the early years of its existence such as the right of the Negro everywhere, "To the political ballet," "the right of the Negro to enter the trade unions," "squal employment with the whites," "abolition of Jimcrowism." right of the Negro to enter the trade unions," "squal employment with the whites," "abolition of Jimcrowism," and many other fine and excellent social demands, but the U. N. I. &. has dropped a long ways back from its fine spirited position, say even in the year of 1921; but what did we find? That the whole movement has simmered down to nothing more than a colonization spotety.

That the whole movement has simmered down to nothing more than a colonization society.

Everyove who eat in the convention at Detroit, was struck by the silent and shameful retreat of the U. N. I. A. and its leaders had made from its former position. At the convention the printed resolution was introduced by Mrs. Garrey coming from Mr. Garrey, and its contents was that each and every local organization of the U. N. I. A. approached the state legislature in their particular district asking that these resolutions be presented to the state legislation and having rotten past to the very state caption representative bodies that it may be carried on to congress at Washington The resolution sking that the federal government acquire territory in Africa to be used for colonizing American to be used for colonizing American cordinary intelligence, that the southland depends to a very large degree on Negro labor, Take Louislana, Missispil, Georgia, Florida, Alabama, South Carolina, here in these state the labor source is chiefly the Negro Cotton, sugar cone, surpontine, iron

British or French aggression with the aim of making Liberia' a colony. Certainly, the Liberian government would not, and could not encourage immigration of any large number of Negro people obsessed with the idea of Africa for the Africans and the extension of European containing.

This bouse resolution which was passed at the Detroit convention, states in bold type their. Indoors sale to sustain 20 million Negroes. This is shoulded untrue for we know that Liberia is about the size of the little country of Belgium in Europe. Liberia has a population of 2 million. Belgium, the most thickly populated country in the world and having more persons to the square mile has only the population of 7 million persons. Bome generations ago, Liberia could have been large enough at least, in territory, to have sustained 20 million Negroes, but Mr. Garvey does not tell you in his resolution that time after time large slices of Liberia have been time large slices of Liberia have been cut of by England and France and that to France alone she lost something over 300 miles of her coast line. These are the things that constantly mislead members of the U. N. I. A.

If the Negro is a lamb in America cortainly he is not going to be a liou in Africa under France and England who hold large sections of Africa and are the main formidable powers in Europe. It is certainly better to fight one group than half a dozen. Africa will be free but the initiative will come in Africa on the part and parcel of its native people. What has already begun, is exemplified by the rise of Abd-el-Krim in the North and Clements Kadalle of South Africa, we Negroes of the new world can aid them in their struggle. We can help them carry on the fight as already started in Africa and we wonder what the U. N. I. A. has done to help Ab-el-Krim against the united forces of Spain and France; who has had to fight these countries with their own weapons of the most modern type. Weapons that cannot be found in Morocco but must be secured abroad. Has the U. N. I. A. even served as a purchasing agencyship for the acquisition of modern rifles, machine guns, etc. for abd-el-Krim? Cortainly not. The Negro of America is an American. He has grown up with American life. We must fight here for our place. We must find properly fitted allies. If the Negro is a lamb in America certainly he is not going to be a lion

U. N. I. A. imbodies the latter day spirit of revolt in the Negro people against conditions. This is to be apagainst conditions. Lais is to be ap-preciated highly but one by one the past elements of the U. N. I. A. will desert its ranks seeing that today it has become no more than an empty

# gainst Cruel ENJOINED MINERS' OFFICIAL EACES IAIL NON-UNION NEGRO WORKERS RESTLESS

From the Muskogee Clmete

CHARLESTON, W. Va.—The su-preme court of appeals has upheld Judge L. C. Lazelle's sentence to Van A. Bittner, international representa-Judge L. G. Lazelle's sentence to Van L. Blitner, international representative of the United Mine Workers, for violation of an injunction. The unionist was sentenced to serve six months in jail and pay a fine of \$500. He is charged with "interfering" with non-union labor.

Exploited Negroes in the anti-union mines of Mercer and McDowell commines of Mercer and McDowell com-

mines of Mercer and McDowell coun-ties are restless because of every de-nial of freedom. Company-owned nial or irrecommend of the newspapers in that section warn these workers to shun organized labor. One newspaper shouts:

"Only in Alabama and southern the Negro miner

"Only in Alabama and southern West Virginia can the Negro miner be found in large numbers. The reason is plain."

To this frenzy the West Virginia Federationist replies:

"Yes, Alahama and nouthern West Virginia have large numbers of Negro miners because they can be exploited successfully under the system maintained by industrial overlords. Free speech and free assemblage are forbidden and the right of combination for mutual protection is denied. They are clubbed by a coal company thug if they complain of conditions, and are accorded no right but to work for what the operators give them."

Conditions in the New River field, another suff-union stronghold, prove that the coal barons treat white workers just as their business associates treat Negroes in Mercer and McDowell countries.

In the New River section miners do

In the New River section miners do to the New Kiver section miners do not earn-an average wage of \$2.50 a day. They are forced to lay their own track for the coal cars and are robbed by company checkweighmen. If they object they are threatened with physical violence by thugs employed by the operators.

#### THE DAWN OF AFRICAN REVOLUTION

THE DAWN OF AFRICAN REVOLUTION

(Continued from page 1.)

There is no gainsaying the fact that if the proposed Native Policy, as enunciated by General Herzog at Smithfield on November 13th last and subsequently embodied in various Bille which are intended to be laid before the table of both-Houses of Parliament this session, are placed in the Statute Book, South African statesmen must eventually expect political revolution of the greatest significance. The Prime Minister's Native Policy has certainly served to cement African natives' thought and feeling. The Bloemfontein Convention, whose resolutions we published in our last issue, indicates that political war between the privileged few and those who have been cynically robbed in the land of their forefathers is inevitable. We prophesy that our country shall become a second Iroland where African patriots and martyrs shall continually unfurl the banner of freedom. A struggle is awaiting us, but it is a struggle in which we are sure to conquer. We want the man who will be able to lead the seven million souls bearing the torch:

Onward, and we conquer,

Backward and we fall!

#### NEGRO WORKERS AND FAKE LABOR LEADERS

CABOR LEADERS

The intense fight that is being carried on in Boston by the American Negro Labor Congress of that city against a group of labor leaders in the American Federation of Labor, well exemplifies one of the prime purposes for which American Negro Labor Congress was created. When we consider the fact that there are about 32 million workers in this country and only about 4 million are organized, we are impelled to regard the whole situation as a sad commentary on the World Labor movement.

The Negro people of America are essentially of the working class. More than 98% of the race are toilers. The Negro indeed constitutes a formidable section of the working class of this country. Today Negro workers everywhere feel the importance of Unionism. From day to day it is becoming more clear to the American Negro worker that a decent living wage and better working conditions can only be secured and guaranteed thru organization. Priar to the World War theye were not many Negroes in the industries, but with industrial expansion and the great waves of migration up from the south land the Negro has pushed into the mills, factories and mines and constitutes a very important source of cheap labor for the employing class. The writer can give instances where white and black workers have been engaged in the same industry, working side by side and the white workers receiving 50, 75 and even 100% more than the Negro workers and this was not because the Negro workers and this was not because the Negro was of a different in amines and provided the same industry.

ence is violated and we gaze into the great open spaces of the land of the free and the home of the brave amazed and confounded."

we have selected this editorial expression from the Chicago Whip to comment upon because it is typical of the sentiment that will be expressed by our race papers throughout the country upon this latest decision of the suprementation.

we know that the sources of power in any form of human society is in the control of the economic factors of that society; its wealth, its means of production and its land. We know that in the anarchistic tendencies of the capitalthat in the anarchistic tendencies of the capitalistic system we live under that might is right, that the power of the state is used to protect property and capital and those who represent property and capital. Therefore we are not amazed when an agreement is left intact that operates to keep a Negro woman, the daughter of a farmer slave, from encroaching upon so select a residential section as one in the nation's seat of government and is in close proximity to the residence of America's super-man, Herbert Hoover and the residence of a former president.

president.

Neither are we of the American Negro Labor Congress confounded. We not only have analzed the situation and know what to expense in

Congress communication and know what to expect. Not only have we looked conditions squarely in the face. We also have a program.

Therefore we do not propose to sit idly by gazing out into empty space waiting for something to happen.

No, not after the hard practical lesson in historical materialism that we have had. Turn over the pages: Here they are! Two hadred over the pages: Here they are: I wo hundred and fifty years of the most brutal slavery the world have ever known, during which time black men and women and children were chain-ed down and worked like a beast and paid with burning lashes on their naked backs and all this under a government whose supreme court handander a government whose supreme court hand-ed down a decree saying that black people had no rights, that the American people were bound to respect. Struggle for advantage, between two master groups brought us from chattle slavery to wage slavery where we are now. In the 61 years since the abolition of chattel slavery we have been "buncoed," lied to, mob-bed, burned at the stake, forced into the ranks

bed, burned at the stake, forced into the ranks as soldiers and denied the right to suffrage. Now comes the supreme court abolishing the right of free selection of residence. One more step and the situation will be ideal from a master-class viewpoint, the supreme court should

#### Pullman Porters

By W. E. B. DU BOIS.

(Republished from "The Crisis.")

(Republished from "The Crists.")

There are some things connected with the fight of Pullman porters for recognition as modern working men which should hold our attention. First, there is the threat of the Pullman company to substitute Filipino porters. This threat is sheer poppy cock. Let them import as many Filipinos as they want. The Negro porters can easily hold their own. But of course the Pullman company has not the slightest intention of importing Filipinos even if they could do so legally. They are simply trying to scare colored men. colored men

colored men.

Then again they are trying to influence the Negro press and apparently they are succeeding. Of the five or more colored papers in Chicago not a single one has come out openly and fearlessly in defense of the porters. Most of them have treated the matter with shuffling and

them have treated the matter with shuffling and with silence.

But it is perhaps the attitude of Calvin Coolidge and his government which is most disgraceful. The government has not only set spies to hound Negroes who dare to study Communism, but it has allowed one of its own jobholders to accept a fee from the Pullman company in return for throwing dirt and bribes among Negroes. As the Brooklyn Daily Eagle says: "Coercion of labor unions by paid agents of employers holding federal ooffice is not capable of any defense, certainly of none that has any relation to practical politics in America."

Finally, if American Negroes want to know on which side to take their stand in this matter of labor ofganization among Negroes they should note the people who are against it: Mark Sullivan, the most unfair of newspaper correspondents on Negro problems, the Memphis Commercial Appeal, the daily press of Miami, Florida! When such forces as these take one side, it is the business of thinking Negroes to take the other.

ABOUT NEGRO PEOPLE!

## SOUTH AFRICAN LABOR TROUBLES DISTURB CAPITAL

CAPETOWN, S. Africa.—The color bar bill of the labor party of South Africa, which would exclude the colored races, whether native or immigrant (as the Indians) from every-(as the Indians) from everything but the most menial occupations, has started a struggie between various groups of interests. The labor party and the small business men favor the bill. The big business men, especially the owners of the mines and also the natives themselves. and also the natives themselves

and also the natives themselves, are strongly opposed to the bill, altho for very different reasons.

The so-called labor party, which avors the color bar bill, is not really a party of labor as a whole, but a party of the comparatively highly skilled white workers, who have now a monopoly of the skilled trades, and are drawing high wages. Thus they are separated, for the time being, from the colored and unskilled workers of the country.

are separated for the time being from the colored and unskilled workers of the colored and unskilled workers of the country.

The great mine owners, who have been the very ones to support the segregation and efisiavement of the native workers, now find themselves caught in their own trap. With the intensification of the industries here, and the greater demand for isbor, especially cheap labor, the mine owners find that the color bar provents the importation of cheap Indian labor and the use in meny cases of native African workers. The mines required about 130,000 native workers and nearly 20,000 European (for the skilled labor from which the natives are barred), according to a recent speech of the president of the chamber of misse. He pointed out that owing to a shortinge of native workers in Docamber the mines then employed only 167,000. The result was the non-employination of several thousand whites who otherwise would have been required. The replacement of native by European labor, necessary if the color bill becomes a law, he estimated would encomes a law, he estimated would several thousand whites who

organization to secure for him good wages and reasonable working hours. A. The Negro has been frequently charged as a scab; that he is an easy tool in the hands of the capitalist class; to break strikes and weeken

Wigh all the American Negro Labor Conry. With all the American Negre Labor Congress who are committed to helping build up a strong labor howement in this country regard their false infor feeders who has Negroes from manbership in the trade union as the real and true scale of the labor novement. Brave members of the American Negro Labor Congress of Boston, have possed the fight to be taken up by every local organization of the American Negro Labor Congress; thrubut America and we are determined, uncompromising, unrelenting we shall not cease until every labor leader who would bar the Negro from the ranks of organized labor has been downed eliminated and relegated to the symbol of forgetfulness.

organized labor has been downed eliminated and relegated to the symbol of forgetfulness.

The Negro worker must regard the labor movement as being not the property of a handful of labor officials, but as an institution of the ful of labor officials, but as an institution of the working class. The Negro must regard the labor movement as his own to enter full heartedly with the aim of influencing its policy and directing it along the lines that shall secure the greatest benefits and advantages for all workers re-

gardiess of color or race.

#### AMERICA'S COLOR BAR BILL

"Amazed and confounded," reads the caption over a leading editorial in one of our large Negro papers, the Chicago Whip. The immeover a leading editorial in one of our large Negro papers, the Chicago Whip. The immediata provocation for this exclamation on the part of the Whip is the decision recently handed down by the United States supreme court, which held that it was not within the jurisdiction of that court to give any relief to a Negro woman who had entered an action to have an injunction dismissed whereby a group of white property owners living in a highly select district in Washington, D. C., had been prevented selling a home to the colored woman. The group of white property owners held that for one of their number to sell to the Negro woman would be breaking a contract that had previously been entered into by all the residents of that community that no one of the group would upon any condition sell their property to a Negro.

Despite this contract one white owner the wind and entered into an agreethe Chicago Whip.

Despite this contract one white owner changed her mind and entered into an agree ment with the Negro woman as to the sale of the property but she was enjoined from carry-ing out the transfer of the place to the Negro

The Negro woman took an appeal from the lower court's injunction. The matter finally

reached the supreme court

The decision that has just been handed down The decision that has just been handed down aside from saying the court has no jurisdiction in the case, states that none of the provisions of the constitution under which the injunction was attached have been violated.

Therefore the Chicago Whip expresses amazement and is confounded at the court's decision.

Therefore the Chicago Whip expresses amazement and is confounded at the court's decision. We quote from the Whip's editorial:

"Mr. Storey is staggered by such a decision while the black people of this great republic can only pray for the day when the folds that blind justice will be snatched away.

"The spirit of the constitution which can be understind from the Declaration of Independent

understrod from the Declaration of Independ-

to the lamentation about his persecution in the United States and its inconsistency with the "spirit of the constitution," his position as the most exploited group in American society will remain unchanged. What is necessary is united action of the masses against these injustices.

ed action of the masses against these injustices.

Inited action of all Nagro organizations ation. United action of all Nagro organizations with all Nagro organizations participating. PARADES in all cities and towns.

We are going to push forward the idea of the Negro utilizing his potential and powerful weapon—his industrial strength—for coercing the ruling class of this country into giving the ruling class of the labor movement; we must demand support of the labor movement; we must organize unified front conferences in every city. All organizations should be invited to attend such conferences by sending their best representatives.

As long as our forces remain scattered we shall invariably come out on the short end in all controversies with the powers that be.

The American Negro Labor Congress offers the correct program for the unification of our forces. The American Negro Labor Congress calls upon all Negro organizations to affiliate upon a program based upon the elementary needs of the Negro race in this country for the purpose of fighting against such glaring traves.

needs of the Negro race in this country for the purpose of fighting against such glaring travesties upon the rights of the Negro people. UNITY is the FIRST STEP TOWARD the SOLUTION of the RACE PROBLEM in this COUNTRY!

#### A NEW DAY IN AFRICA

We have reprinted a great deal of matter having to do with the African situation as affecting the native African worker in this issue of the Ngro Champion. We have done this purposely, that we might serve several purposes. First, we wish to destroy the general picture that most American Negroes have been given of the native African and his manner of life; and next we want to lead enquiresement to the

and next we want to lend encouragement to the nilitant, class conscious South African workers, who at this time are fighting a real battle for

who at this time are fighting a real battle for freedom by organizing themselves into a working class organization, having a political outlook and a political significance also.

But it is in the American field that we wish to strike a double blow. We know that our report of what is going on among the South African workers will be an inspiration to the awakened, class conscious Negro workers who are building the American Negro Labor Congress.

We also know, that it puts to shame the large mass of American Negroes who have slipped into the easy way of accepting themselves as the

we also know, that it puts to shame the large mass of American Negross who have slipped into the easy way of accepting themselves as the "cream of the earth" in the "Negro World." The Negro in America has swallowed, hook, line and sinker, many American fables, among them, a rare collection, about the American Negro being the most progressive in the world by reason of having been under the blessed influence of American slavery; and about the savagery of all the Africans; their need of the white bosses and Christian influence.

The American Negro Labor Congress wants to fix the attention of the American Negro uponone significant fact that despite all of the bibles and missionaries that have been shipped to Africa in the past 200 years by English and American bible fakers, the South African Union under British control has today passed a color bar bill that virtually makes the African native of South Africa a permanent slave, dispossessed of his rights in the land chile fathers.

#### DOMINATION BY EITHER THE TERRIBLE TURK OR THE TERRIBLE BISHOPS

### A Burning Question for the Armenian People

By MARIE HOUSTON.

Page Four

The Literary Digest, for April 17, 1976, presents a most interesting discussion of some angles of our national dispute over the re-establishment of peace time relations with the "New Tork Nationalist government, headed Tork Nationalist government by Mustafa Kemai Pasba.

According to the Digest, the two main contenders in this are 110 bishops of the Protestant-Episcopal church and Senator Borah, chairman of the renate foreign relations committee. The blahops contend that the Turks are the same today as they ever were, a cruel, barbarous people who cannot be despended upon to keep their particles. be depended upon to keep their word or withhold their savage anger against the Christian Armenian peo-ple, who are resident within Turkish ple, who are resident within Turkish territory for any length of time. Therefore, for this reason the bishops say: "We are asked to resume friendly relations with an avowedly unrepentant and anti-Christian government, which destroyed a million and a half inoffensive men, women and children; expelled from their ancestral homes over a million and a half, and now is helding in slavery in Turkish harems terus of thousands of Caristian women and children." ple, who territory tian women and children."

Aside from his general statement Adde from his general statement that the treaty ought to be ratified at this time, simply because it is the bargain that can be secured at this time and because a majority of other powers having already accepted it, for the United States not to do so, would be suiking out in the rain while one's companions go in to the banquet table; the chairman of the foreign relations committee replies to the critible; the chairman of the foreign relations committee replies to the criticism of Blahop Manuing and the 110 bishops: "To refuse relations with all peoples who reject Christianity is not only unthinkable as a practical course for the government to pursuabnt I had always supposed that the great object of Christianity in international affairs was to establish friendly relations not only with other Christian nations, but with the anti-Christian nations, that they might he brought in touch with the teachtur of Christianity!

ponents are 110 bishops who are (self-appointed voices) for millions of poople who, know nothing nor never heard of the treaty of Lausanne. Senator Borah, to enter the office which he now holds, pledged loyalty and-to exert his diplomatic ability to make successful any and all enterprises entered into by his employers, the capitalist class. What does Senator Borah care for the little, squeaky, camouflaged protestations of this religion, or that religion. He represents profits and more profits. There are abundant profits in Turkey and if Sanafor Borah had to use the terrible Turks to make successful the demand of his "bosses," then he would command the Turks to massacre one and wand the Turks to massacre one all of his (Senator Borah's) fe Christians.

all of his (Senator Borans) renor Christians.

Yes, the government promised to avenge the Armenians for the supposed crimes of the Turks but the dead Armenians are one thing and the half peaceful exploitation of Turkish soil is another. The protestations of the 110 hypocritical bisinops are only to blind (as usual) the ignorant massar. They know that they would not dare to attempt to obstruct the greedy hand of the class that feed and employs them. The Turks kill Christians. The Christians kill Turks and then the Christians kill Christians. I know the "Christian American" public cannot have forgotten the bloody Christian massacre of Christian Negroes in East St. Louis in 1917. There are thousands of other massacres and single lynchings of Christian American Negroes that these same hishops say nothing about and massas. They know that they would not dare to attempt to obstruct the greedy hand of the class that feed; and employs them. The Turks kill Christians, The Christians kill Christians. The Christians kill Christians. I know the "Christian American" public cannot have forgotten the bloody Christian massace of Christian Neaross in East St. Louis in 1917. There are thousends of other massaces and single lynchings of Christian American Negroes that these sacres and single lynchings of Christian (and market) the seeming condonation of the Christian government under which the Nearoes live. I say seeming, because this massace has been government under which the this same government does nothing about it.

The darker races are trying to expect the Christian missionaries for the realize that wherever Christian tity gets a strong fouthold, then it means shavery for, them. He not fooled, dear reader, there is no religious fifth betweed America and Turkey, it is a fight for profits and more profit.

# CALIFORNIA FARMERS P **ORGANIZATION**

#### New Local Council Form

A meeting was held in the Methodist Riverside County, Sunday afternoon, Apr organizing a local A. N. L. C. of agric A. N. L. non coul destinies

Riverside County, Sunday aftern organizing a local A. N. L. C. croppers and tenant farmers.
The meeting was well attended and a good program was enjoyed by all. John H. Owens of Ripley, Calif., delivered the main address and lucidly outlined the fundamental need for such an organization as the A. N. L. C. He made a clear, simple, and thoroughly understandable economic interpretation of the race problem.

Mr. G. L. Young was chairman, and will be in charge of local activities. He should be addressed as follows: G. L. Young, Blythe, Calif. Mr. Young has been very active in behalf of the

# NATIVE AFRICAN WRITER SOUNDS . N. L. G. BUGLE CALL FOR LABOR FRONT OF **WORKING CLASS THRDUGHOUT WORLD**

Calls for United Front of Working Class of All Nations, Races, Colors and Countries

Editor's Note: Lattor's Note:

The following article is taken from the "Workers' Herald," a Native workers' paper, edited and published by a Native labor leader. The article is written by a Native also. The Negro Champion is reprinting it, that the militant progressive workers both black and white may take heart, knowing that what has been the "sleeping giant of Africa" is awakening: and that the ranks of the class conscious workers of the world will soon be re by millions of black workers from both America and Africa.

### AM I MY BROTHER'S KEEPER?

With the exception of ancient Cain, it is generally admitted that the interest of mankind are interwoven. The success of the captalistic world largely has depended upon the realization of this cold fact. European and American capitalists exploit the lives of the people of Asia and Africa. The ramifications of the capitalistic butchery of mankind are internatonal.

But while capitalism knows no color the workers of the world exclaimed to each other: "Am I my brother's keeper?" other words, English workers had nothing to do with German workers, and vice versa. The Great War broke out and we witnessed that English, French and American workers went to fight the German and Austro-Hungarian workers-killing each other. The colored or black workers of the world were also employed in this dirty job of manelaughter. What a sad spectacle! Workers killing each other on the battle front, world capitalists idling

dinancial exploitandard of life workers of all countries had lie at it affects a collection of the line workers and well-heigh were interwoven, we would have he heigh were interwoven, we would have heigh whole hog.

Death of Negro Patients Reveals Terrible State in Washington Hospital

NEW YORK, April 16. muradr of William Green, Negro tient in Saint Elizabeth's Hospital Washington, D. C., and charges That two other colored men were killed there by misureatment, have been found.

It is charged by Mrs. de Montigde Green, a patient of the hospital was beaten to death by two attendants at the hospital who were held by a cor-oner's jury for the grand jury, which the hospital who were held by a con-oner's jury for the grand jury, which allowed them to go tree, but in a sub-sequent proceeding, on Cotoler's Oreen's elayous were indicted, accord-pa to Mis, de Montis.

Mrs. de Montis further charges that two other colored men were killed in one of the buildings of Saint Miss-beth's Hospital. Howard Hell, the deaths being attributed to paralysis and parceis.

and paresis.

A special grand jury, which investigated the hospital, reported to the B. S. senate that the hospital was "greatly overcrowded," and that if present conditions are not remedied "wo lear that the percentage of inmates becoming hopelessiy insane will be greater than those fured, in spite of the both efforts of the superintendent and his assistants." The report states that in the "Bull Pen," which is the ondy available recreation space "the danterous as well as the unsy petients mingle with those whose minds are almost normal." The grand tury in dorse the statement of one of the guards who said: "If a man went in these (Howard Hall) with a perfectly sound mind be would be hopelessif to sane in less than a year." The grand jury reports that a number of and e in less than a year." The grand reports that a number of suit-les testified to a general ballist

Now for a few personal remarks on lits Now for a few personal remarks on the hypocrisy and the attempt at criticism indulged in by the above-mentioned disputants over Turkish cleanliness and virtue being a guarantee sumcient to warrant the recentablishment of peacetime relations to the great line United Stales and Tru-

is funding for the ratification of the tiesty of Lausanna, which is to establish peace-time relations in diplomacy and commerce with the Turks. The senator's strongest op-

Forewarned is forearmed (laborers Forewarned is forearmed (laborers) and when Senator Borah and the class be represents runs up against that impassable wall, they turn to you with their deceitful pleas such as—"Help arenge the American Christians that are being murdered in The than the thoo there are

Athony the speakers for the meets of the National Women's Trade Union League; Mrs. Gertrude E. Kolougald, assistant principal of Public School 82; Roy Lancaster, secretary ressures of the Brotherhood of Siesping Car Potters and John Hackey, or ranker of the international Laundary Workers' Union.

ort to readily and often, as by means if it they bring into play the armed orce, the soldiers and the police of he government arrayed against the sorkers.

he government arrayed against the workers.

Strikers have but few means of stating-their cape to their fellow-workers in workers generally. The press will not convey their meanage. It distorts he news against the interest of the trikers. The workers have but one neans of protest and communicating to their fellow workers their reasons for striking—that is by picketing. Yet the, "impartial" justice-dispensing courts have declared picketing filegal. In point is a decision of the Illinois Appellate Court in the American Cigar Company case, which in part states:

"To us it seems exceedingly unfor-

To us it seems exceedingly unfor-"To us it seems exceedingly unfor-numate that after one supreme court has held that peaceful picketing, so-ralled, is illegal, and there is no such thing as peaceful picketing, a number if men and women will not only per-sist in their refusal out will be guilty of contempt of court for placard-ing and picketing the company's plant.

and picketing the company's plant in plant.

And this is an effective means of destroying the utility of strikes. The workers are defeated, many times, fact to dawn by their inability to withhold from going back to work, but because the courts take out of their hands one of their most effective weapons—picketing. In this way the right to strike collectively is all but pronounced void.

(To be continued.)

# WITH THE YOUTH

(Continued from Feb. Issue)

#### Youth Under Americanism .

## ESTIMATED WEALTH OF

There was a time when the United States government compiled statistics—showing the distribution of wealth. This, however, was abandoned, and investigation in this direction has fallen into the hands of private individuals. The exact proportion of wealth distribution is impossible of calculation to date. But that the \$187,739,000,000 extimated as, comprising the total wealth of the pageomerising the total wealth of the pageomerising the total wealth of that the \$187,739,000,000 estimated as comprising the total wealth of the nation is controlled largely by a very small minority of the population cannot be dispute.

Williard I. Kins. Ph. Dy, in his book, "Wealth and Income of the People of the United States," has collected states, the result of which leads him testics the result of which leads him.

the "Thited States," has collected sta-tistics the result of which leads him to the conclusion that 55 per cent of the population own nothing; 15 per cent one thousand dollars and under; 18 per cent two thousand dollars and over; while 2 per cent may be called rich, possessing \$55,000 or over.

rich, possessing 252,000 or over.
Richard Henry Edwards of the University of Wisconsin in a pamphlet, "Concentrated Wealth," declares "One Der cent of American families control more of the general wealth than the remaining ninety-nine per cent," and he goes on further to show the stupendous concentration of the means of production and wealth in the hands of the few while the vast majority is left propertyless.

left propertyless.

The portion of the population without wealth must labor in order that it
may live, and Mr. Edwards tells us
that "fifteen million wage earners receive less than four hundred dollars a
year." This, however, was before the
war. The war changed matters slightly
as to the amount received by wage
earners. But at present the drives for
the "American plan" and "open shop"
bring with them conditions that prevailed at that time, with the added
miseries for the working class horn
of the war. of the war.

#### MONOPOLY OF POWER.

The young workers can readily see lat as a result of this massing of calls in the coffers of the two per set, the power to control the destiny strikers, and it is one that they resist the power to control the destiny strikers, and it is one that they resist the power to control the destiny strikers, and it is one that they resist the power to control the destiny strikers. that as 

of the nation is likewise conferred upon the two per cent. On this point professor King asys: Why is it that economists have laid such stress on the question of wealth ownership? The answer is that the possession of wealth gives power. Whorver controls the property of a nation becomes thereby the virtual ruler thereof." (Ibid. p. 53.)

Professor King to a stress of the conference of the

Professor King is not a radical. Yet Professor King is not a radical. Yet after a study of the concentration of wealth he concludes that the rich of the United States, because of their monopoly of the means of production, are the dictators of the policy of the nation. And history has shown that capitalism avails itself of the full advantage of its power, especially in an effort to increase its holdings and to reap greater and greater wealth.

#### INEQUALITIES OF THE LAW.

INEQUALITIES OF THE LAW.

The law protects property with greater ardor than it ever purported to protect the interest of the wage carners. Property is inviolable; it is sacred. As against the union men on strike, property receives the first consideration. For instance, during the strike in the coal fields in West Virginia troops were sent to guard the mines; in Gage, Ind., during the steel strike, soldiers "protected" the property of the illinois Steel Corporation. On the other hand, when workers are terrorized by the armed thugs, hired by large capitalists to fight the workers organizations, the government ers' organizations, the government (true to its class nature) shields its eyes and takes no notice.

eyes and takes no notice.

There are duly constituted agencies such as the Baidwin-Felts detective agency. Finkerton, etc., who furnish the employers with armed guards, who often provoke violence in strikes. The activities of these agencies have not been interfered with by the government, while the arming of the workers as a means of self-protection would be ruthlessly suppressed.

As the results of an investigation

be ruthlessly suppressed.

As the results of an investigation for Dr. Richard C. Cabot, professor of social ethics at Harvard, Mr. Sidney Howard, in his report, declares: 'Detectives were obviously and directly responsible for much provoked violence in the steel strike, the Centralia affair, the shooting at Everett, Washington, and in almost all the riots attendant upon the street railway strikes." (The Labor Spy, p. 65.)

British labor movements shortly after the great war sought to bridge the guilt that exists still now, we are sorry, to observe, between the Amsterdam International and Moscow. The ef-forts of the British labor movement to bring about international solidarity of the working class has been some-what handicapped by the officials of the "Amsterdam International, Un-mindful of this setback, the British labor movement sent a delegation to labor movement sent a delegation to Russia at the end of 1924 to study the loviet system of government. prehensive and interesting report on Russia was published last year which scared the capitalist world. Since then international unity has been the slogun of the British Trade Union

slogun of the British Trade Union Congress.

Another step towards cemeating working class solidarity was evinced during last year in respect of the Chines existe in China. In this respect we noticed that even the Amsterdam International and the American Federation of Labor joined the forward movement of labor. Financial and moral support was accorded the Chinese workers by European, British and American labor in their saliant fight against European capitalism. During the fall of last year the British labor movement came to the ald of Bombay workers with international labor. But we should like to see the

country establish a real worvers to public.

Thus Russia gave a new lead to the Workers of the world, and behold, we gradually witnessed European workers imbued with a new idea that an injury to one is an injury to all. In 1919 the workers of Great Britain, with a unanimous voice, declared as an injury to make the penalty with working a unanimous voice, declared workers on Russia, which with a unanimous voice, declared working class—a formidable foc. too, whilston Churchill's influence, was then pending. A new integnational spirit was evoked on the Russian model. Hart Maix truly said that it was in the British lales where socials model. Hart Maix truly said that it was in the British lales where socials in would find its impetus. With this excellent compliment as its guard, the fritish labor movements shortly after the great war sought to bridge they have saurlined the principles of the labor movement. With the enemies of the workers the enemies of the workers the workers the enemies of the workers the came to lack. For a mess of points of the labor movement. With the enemies of the workers the committee the enemies of the workers the enemies of the workers the committee to replice they have saurlined the principles of the labor movement. With the enemies of the workers the committee the enemies of the workers the committee the principles of the labor movement. With the enemies of the workers there was not taken and the committee the committee the enemies of the workers the committee the enemies of the workers the committee the enemies of the workers the enemies of the workers the enemies of the workers the committee the enemies of the workers the cite and the committee the enemies of the workers the enemies of the workers the committee the enemies of the workers the committee the enemies of the workers the enemies of the workers the cite and the committee the principle they have sauffelled the principles of the enemies of the work

have plotted against a section of the working class— formidable foe too.
The plot in question is the tedant segregation of pace government, plus sponsoring of a color har bill by Colonel Creawell, a labor minister, who ought to be the last to sing to the tunion government are revolutionary proposals, and consequently must have far-reaching results. With democracy moving fast and for one to assert to suppress another, we can only expect a political clash. To our observation the position is that the people of South Africa are standing on a volcano. The white population, led by a few imperialist wizards, are playing with firel while on the other hand the blacks are determined to oppose anything in the shape of segregation. Intelligently speaking, therefore, South Africa is confronted with a race war, and it is the duty of the British Labor Party and the Trade Union Congress to move at once and avert pending catastrophe. Why should organized white labor stand by while a section of the movement is being attacked by the enemy, we cannot conteive. The interests of the African workers are interwoven with those of the white workers in South Africa and abroad. Let it be, then, that all work the white workers in South Africa and the white workers in South Africa and abroad. Let it be, then, that all work ers should unite in one army, recog-nizing one enemy—the capitalisk. Our motto has been given to us by Karl Marx: "Workers of the world, unite!" Yes, let us unite for the purpose of attacking capitalism throughout, and substitute the present system of society with a socialistic commonwealth on the Russian model.

STUDENTS ANTI-MILITARIST.

CLUB CALLS CONFERENCE

Hearty Response to Call at Hull House

Many organizations heed call to oppose capitalist plan to develop the cannon fodder and alaughter brig-ades that their system demands.

On Sunday, May 16th, meeting at the call of the Students' Anti-Militar-ist Club, a large number of delegates representing young peoples' study representing young peoples' study groups, forums, labor organizations and many other types of organizations, convened at Hull House, Soo South Haisted St., to consider the best manner in which to combat the growing menace of militariam in this country. The meeting was opened by Jane Addams, of Hull House, who had heat menued from Washington whost just returned from Washington, where she and other leaders had just concluded a conference with government officials at which meeting it had been at age—might bled away in the line and the war delied away in Natal, and partment And the organized business a what is and interests of the country apending mechanist to such age sums for military presing such age sums for military presing tions alone; that it would be a pro-

gressive step if the government and all public agencies co-operate estab-lishing training camps at which they routh of the county might also have a chance to learn the peaceful pura chance to learn the peacetul pur-suits of economic, industrial and agri-cultural training and research. Fol-lowing Miss Addams' talk, speakers representing the various organizations assembled, voiced their disapproval assembled, voiced their disapprovat of the strenuous attempt that the cap-italist controllers of the American government making at this time to drill the young men of the nation into drill the young men of the nation into a combat force, that will be sufficient to protect their militons from the attack of any European clique of millionaire militarists, who also are preparing and training the young men of their respective countries to proudity and gallantly march out to validantly battle for the wealth that they have worked for but which the militarists control tarista control.

An executive committee of 25 was elected and a date for future meetings at which time a full program of work will be outlined, by which a red blooded, active organization can be built up to counteract the militariat
