#### Victimization Pretens

The infernal din resounding The infernal din resounding through the International consists of one clamor: "We are the persecuted defenders of democracy!" The hypocrisy of this cry is almost too obvious to need contradiction. Unfortunately, contradiction. Unfortunately, however, many good militant clements among the rank-and-file clements among the rank-and-ne have been deceived by it. These workers need only look at the record. Democrat No. 1" in the ranks of the splitters is Richard T. Frankensteen. Six weeks ago this gentleman was taking disthis gentleman was taking dis-ciplinary action against all groups to eliminate "factionalism." We to eliminate "factionalism." We quote from his letter sent to all board members at the time just to refresh the memmry of those who might have forgotten:

who might have forgotten:

"Agreement to take disciplinary action against any party, group or section of the membership which does not go down the line with the program." And "all caucuses to be abandoned immediately, specifically the Progressive and Unity caucuses will no longer exist and the program advocated is to be the program advocated is to be the program. ionger exist and the program advocated is to be the program of the International Union. To enforce this we abolish and prohibit all factional groups within the U.A.W."

What was there that evaguely resembled democracy this program? Just as much arracy as there is in one squads. Ind vaguely resembled democracy in this program? Just as much democracy as there is in one of Stalin's firing squads. Indeed Krankensteen is lined up with Stalin's American agents. It was only because this plot was uncovered and exposed that Frankensteen dropped it cold. But at the first new opportunity, on the advice of Earl Browder and Co., Frankensteen nicked it un a Frankensteen picked it up

In the dark of right, when they were sure nobody was looking, the Stalinists decided to pull a fast one. What was the significance of this new move? Merely a factional maneuver to take control on the basis of a temporary majority? Not at all. Fact was that despite the complete and unanimous endorsement by the Board of the 20-point program, the Stalinists had never received.

Treasurer Addes was doing his best to throw a monkey-wrench in the W.P.A. Auxiliary.

We will have occasion to prove in the future how Mortimer, Frankensteen, Hall and Addes violated and sabotaged the 20-point program at every turn. Certainly no thinking worker can sympathize with a crew that will sign their names to a program and then turn around at the first opportunity and drop the program into a sewer. They whine that opportunity and drop the program into a sewer. They whine that the union needs unity in the face of depression and wage-cuts. But they are in fact doing everything in their nower to destroy and disunite the organization for their factional ends.

#### Receivership Sought

But let us return to this ques-on of democracy. The key tion of democracy. The key point of the resolution quoted above is the section calling on above is the section calling on John L. Lewis to set up a receivership over the auto union. The auto union elected its officers at the last convention by 
democratic vote. The constitution gave Martin, as International president, power to remove any officer, subject to trial. 
Good or bad, the Unity Group 
voted to grant. Martin these 
powers at the last convention. 
But there is nothing in the conscitution anywhere—let Frankensteen dig it up—giving a John ensteen dig it up—giving a John L. Lewis or any other leader, big or small, the authority to come in from Washington or where else and throv anywhere else and throw out the elected leaders of the auto workers. When William Green and Francis Dillon tried this on the A.F.L. unions, everybody howled dictatorship. And they were right! And it doesn't make a particle of difference if the dictator is John L. Lewis or William Green. Let the people who want a dictator say so openly tator is John L. Lewis or William Green. Let the people who want a dictator say so openly so the workers will know where they stand. But whether they admit it or no, there's not a trace of democracy in this agitation. The auto workers should vote down this resolution—emphatisally.

THE GREAT JOB AT FORD'S Organize the Ford workers, sign a good union contract with the company!—and the G.M. Victory will pale by comparison. The G.M. strike occurred when the mass production industries were still largely unorganized and the mass movement for labor political mass movement for labor political action almost non-existent. That strike electrified the workers sufficiently to call forth millions of them out of indifference and timidity to economic and political life. A successful Ford drive, would grip America's organized millions and hurl them in a new attack against the cidatels of capitalism in a more profound man ner than ever before. The threat-ened reaction on the part of the manufacturers would be abruptly stopped and the labor movement, more resolute and self-confident, would launch an offensive all along the line.

along the line.

At the Milwaukee convention of the United Automobile Workers of America, held August, 1937, the officers viced with each other in eloquent speeches pointing to the necessity of organizing the Ford workers, and every one of the outors pledged his undying support towards its accomplishment. A one dollar assessment was unanimously approved by the convention to finance the drive. Immediately after the conventional forms of the convention of the Richard Frankensteen, uniform Vice-President, was appointed Di-rector of the Ford Drive and a-mildst much publicity the national campaign was launched. Today, a year later, the campaign has completely logged down; the Ford workers are still unorgan-ized.

What has been wrong with the Ford Drive launched with so much noise and fanfare a year ago'

### WORKERS WANT UNION

The Ford workers know the necessity of being organized. They want a union in their plant. They want to abolish the plities blacklist and the shame of the system of espionage. On every side they are surrounded by automobile workers who work in union wonacts who work in union shiops, who enjoy the protection of union contracts, who are repre-sented by union stewards and committees. The automobile committees. The automobile workers union, young, vibrant and full of optimism, is in addition a maor factor in the life of the city of Detroit. But the Ford workers are held down by long years of submission to a ruthless despoile power.

#### HIGH POINT MISSED

The high point of the drive, such as it was, was renched when the U.A.W. representatives were mercilessly beaten by Ford service men at the gettes of the Liver Rouge plant, in open sight of Rouge plant, in open sight newspaper photographers and potters. That day thousands Extroit automobile workers w aroused to a white fury at Livinity; the Ford drive had They know that for years Ford come national news and the Ford would not bend to his will. the financial resources at the present time, nor the experienced organizers, to properly launch a new major drive for the Ford workers. If Ford is to be organized now, the other C.I.O. unions will have to put in some real money for the lob.

Proposals are in order to elect a representative committee from the key unions to furnish moral and financial aid to the great drive. It is most important to impress the Ford workers that a new gigantic effort is being made, by the whole labor movement, in order to overcome the feeling of helplessness and scepticism which has selzed the Ford workers. A solemn pronouncement by the C.I.O. convention that it pledges such help will go a long way towards bringing back new hope back new hope wards, bringing to the Ford men.

Дорогой товарищ Рая,

Должна Вам признаться, что я счень огорчена тем положением, которое сейчас создалось для Бюллетеня в Америке. Получилось именно то, что можно онло ожидать. Вы в Вашинтоне не можете заниматься этим делом — это совершенно понятно, Сара всегда очень слаба почасти переписки, Сильвию и не знаю, знаю только что и Вы и Сара о ней хорошего мнения, пишете, что она энергичная и т. д. Все это очень хорошо, но писем и ни от кого не получаю, а что еще хуже того ни от кого не получаю денег. А это меня сильно беспокоит. За последнее время — за много месяцев — получился только один чек в 39.70 долларов, из коих ведь 30 долларов бели собраны на вечеринке. Значит, регулярно поступило всего 10 долларов. А перспективы ведь были такие корошие. В чем же дело? Почему нет денег? В каком положении вообще дело с Бюллетенем сейчас.

Поймите меня правильно, я не с претензяими к Вам обращаюсь, а хочу от Вас узнать, как обстоит дело. Между прочим, я Вам уже довольно давно написала письмо, но до сих пор не получила на него ответа и поэтому до сих пор еще не послала счет в Индию, хотя и посилаю им экземпояры. Очень прошу Вас ине ответить: кто эти люди, как к ним обращаться — товарищи ли это, давать ли им скидку. Неудобно как то посылать экземпаяры и не подавать никаких привнаков жизни, неправда и ? Да и кроме того, если это близкал нам организаций не жалеко и посылать бесплатно, но если это пюди далеко от нас стоящие, то неловко как то посылать им бесплатно, не так ли? Жду от Вас ответа по этому вопросу.

Что стало с комплектом? Нак жалко было с ним расстаться, но поскольку это уже произошло, я уже настроилась на то, что мы за него получий 50 долларов и уже строила всякое планы в свяки с возможностями немного расширить дело. Думаете ли Вы, что Вам удастся его продать? Очевидно эта библиотека, которую Вы имели в виду комплект не взяла. Сообщите в каком положении дего с комплектом.

Сообщите мне пожалуйста, также в каком по ложении дего с продажей Бюллетеня вообще, справляется ли Сильвия и т.п. Она может мне спокойно писать по английски, если она хочет. Боюсь все же, что это слишком сложно, чтоб она сносилась со мной через Сару, так как Сара всего раз в неделю бывает в Нью-Морке. Сара, правда, свято обещалась аккуратно отвечать на писвма, но пока что то не видно.

Ближай ий номер — 73 — выходит, как обично 16.1. В нем будет: часть резолюции по да вневосточному вопросу, За стенами кремля — к годовщине расстрела Енжидзе, 21—ая годонцина революции, довольная большая и актуальная статья о последних декретах в со ветской России — по вопросам о труде и социальном страховании, заметка о каутском, заявление редакции о Викторе Серже и др.мелочи. Кажется этот номер будет ничего. А следующий — февральский — уже выйдет к годовщине смерти Пеновакак время идет, ужас.

жду обязательно от Вас подробного письма. Можете писать по адресу мадам, есл котите, она оченьая аккуратная и тотчас же мне передает. Сообщите, пожалуйста, каковы перспективы насчет денег, меня это беспокоит.

Крепко жму руку и жду от Вас вестонки
