

About Fightback

(from the Workers Party website: <http://workersparty.org.nz>)

Fightback (formerly the Workers Party) is a socialist political party active in campaigns nationwide.

We aim to build a new political movement based on the interests of workers in Aotearoa/NZ and internationally.

Our activities include organising in workplaces, campaigning against imperialism and supporting the Mana movement.

Fightback stands on the following platform:

- 1. Opposition to all New Zealand and Western imperialist intervention in the Third World and all Western imperialist alliances.**
- 2. Secure jobs for all with a living wage and a shorter working week.**
- 3. For the unrestricted right of workers to organise and take industrial action and no limits on workers' freedom of speech and activity.**
- 4. For working class unity and solidarity – equality for women, Maori and other ethnic minorities and people of all sexual orientations and identities; open borders and full rights for migrant workers.**
- 5. For a working peoples' republic.**

If you agree with these points then you should join us – all it costs is \$1.

Download a membership form [here](#) or alternatively [contact](#) the Fightback branch in your local area for more details.
