Answer To Unemployment T is officially admitted that 16,000 dockers are permanently unemployed. It is also officially admitted

be expected." the Tory Government. They themselves!

cannot provide work. They have no solution to the unemployment which they them-

This is an admission of com-1 selves have created—except to plete political bankruptcy by ask the dockers to . . . sack

> On December 4th-after consultations between the National Joint Council for the Port Indus-try, the Ministry of Labour, and the Dock Labour Board—a scheme for solving unemployment was produced. It calmly suggests that the way out is for thousands of dockers to . . . LEAVE THE INDUSTRY! And the tops of the T. & G.W.U. have apparently agreed to this "solution". What a solution! Just as well

ask dockers to cut their own throats or jump in the dock with a weight round their necks—both would be equally as effective as this cynical scheme of the N.D.L.B. for "solving" unemployment. For years the Employers and

the Union have claimed that it was a deadly crime for dockers to with-

Why should thousands of skilled men (and, contrary to popular belief, dockers ARE skilled men) leave their trade to flood the already overcrowded market for unskilled labour? Why indeed! This is something which concerns every worker in the country. What happens in dockland today will happen in the rest of industry to-

policy of deliberately restricting international trade and cutting imports. There is only one answer to these political bankrupts. The dockers have given that answer in the letter which you can read on page 4. It is a letter which should have been written by the leaders his is something which concerns very worker in the country. What appens in dockland today will appen in the rest of industry toorrow.

All this is the result of the Tory

What Dockers think

Mr. Jim Benbow, Secretary of the Merseyside Port Workers' Committee, said: "Part of the Dock Board's comments are to me a clear indication of the Tory Government's political bank-ruptcy, and show beyond doubt that they are unable to solve our problems.'

Mr. Hark Moore a Liverpool militant, said, "Sacking ourselves is not the remedy. Only socialist planning of the Docks Industry will bring about better working and living conditions for port workers.

Mr. Bill Turner, another well known Liverpool docker: "The a deadly crime for dockers to withdraw their labour—now, it seems, pressure will be brought to bear if they don't! But dockers will not accept this Tory "solution".

They have no intention of starving to get this rotten Government out should sack themselves it is this

about it . . .

Interviews given to "Socialist Outlook" Reporter

Tory Government."

Mr. Dan Brandon. Birkenhead, Editor of the well known Port Workers' Clarion' said: 'Such a scheme is doomed to failure from the off. It is unrealistic. The Dock Board was warned over a year ago not to increase the register. The only solution is the Dockers' Charter, and the sacking of the Tories once and for all.

All these workers are members and supporters of the Labour Party.

Transport Workers Will Fight On

R OAD Haulage workers have been placed in the front line of the battle for progress. That position has been forced upon them by the actions of Churchill and his 'privateers" in forcing through Parliament the Bill to denationalise the Road Haulage industry.

In taking this decision the Tories are gambling heavily with the country's economy. They are fully aware of the expressed hostility of transport workers. They are fully aware that this hostility could easily flame into strike action.

Patient Not Passive

True, the workers have so far been patient in the hope that the Bill which will ruin the industry could be stopped by Parliamen-tary debate. But let no one mis-take patience for passivity or cowardice! Now that the Parlia-mentary efforts have failed, the workers themselves are preparing to enter the game

A national Conference organised by the London Area Transport Shop Stewards will take place on December 13th in London's Memorial Hall. It will decide the next steps in the struggle.

On page three of this paper, you can read the workers' reply to those who are trying to weaken the Conference by declaring it 'unofficial".

This Bankrupt Government Must Be Removed

First Step - Stop all Collaboration

The facts of this crisis are well Toryism knows only one answer known. Production is declining to this sort of situation—and unemployment is mounting rapidly as a consequence—because talism is considered worth while, of greatly increased competition in only one answer is possible a world market deliberately rethe Government is engaged in doing right now—by lowering the wages and living standards of the stricted by the boycott of China, Operating in this shrunken market is the United States with British working class.

Reducing the food and other a productive superiority so marked subsidies is one way of doing it, but as soon as the Tories feel that the unions have been sufficiently that she can undersell Britain almost at will. Other competitors like Germany and Japan—chiefly weakened by unemployment, they because of the low wage rates prewill not hesitate to impose direct vailing in those countries—are also successfully pressing their claims wage cuts.

Meanwhile the State continues to support all the expensive para-phernalia of a war machine—so the Government is busy reducing he cost of "unessential" things like the Health and Education services and latterly . . . the Decasualisation of the Docks.

THEY DON'T CARE

Does all this lead to unemployment and poverty for the workers? Of course it does. Do the Tories care? Of course they don't. Unemployment means a lowered demand for food which in turn permits the Tory Chancellor to reduce imports. Foreign trade is balanced

. by depriving the children of a decent education, the sick of So British capitalism is cornered and, as is well known, rats when ployed of . . . food! Such is cornered bite!

Editorial

Now look at Kenya. What Tory ism lacks in industrial efficiency it tries to make up in the ability to sweat the subject peoples of the colonies. At all costs they will try to hold the Kikuyu people at their present level of semi-starva-tion so that the City of London can continue to filch cheap raw materials to earn dollars and com-pete more profitably on the world

For this reason Sillitoe has been unloosed on the African people For this reason the police and troops are shooting down unarmed demonstrations. Unemployed dockers in London and Liverpool are experiencing blows from the selfsame bludgeon which is today descending on the heads of the colonial people. It is all part of the Tory plan.

But all this show of force will not stop the dockers resisting un-employment—nor will it stop the Kikuyu from demanding freedom from the white man's exploitation. So British capitalism is cornered

Only fools or traitors can deny that large scale battles are now pending between capital and labour—in Britain as well as in the colonies. And only fools or traitors would try to separate the British workers and the colonial people in this common against a common enemy.

CALL TO ACTION

Churchill won't resign. laughs all over his ugly face when ever anyone suggests it. He is in office to do a job—save capitalism from destruction at the hands of the working class. His Government will only be forced out of office if Labour mobilises all its great strength in a massive campaign on all fronts.

By all means let the Parliamentary Labour Party harass the enemy on every possible occasion, votes of censure, motions of procedure, the lot. However, the real value of Parliament to a Labour Opposition resides in its use as a platform for explaining to the people, day by day, the real nature of the beast we fight.

NO CO-OPERATION

But if we want the people to take all this anti-Tory agitation seriously we must first end all the collaboration which has grown up between Labour and Tory in every sphere of political, econo-

mic and even social life. The T.U.C. has refused to serve on the committee set up to dispose of the nationalised transport industry Good—but why stop there. Labour is still cuddling up to the Tories in a hundred and one other organs of class collaboration—Productivity Councils, Civil Defence Committees, Army Recruiting Campaigns—to say nothing of the open support for the wars in Malaya, in Korea. How can we expect

treat the removal of the Tories as a matter of life and death (which it is) when the Chairman of the T.U.C. solemnly rebukes Labour back-benchers for daring to boothe 'old man' Churchill? Or when Mr. Deakin forbids transport workers to prepare among them-selves a policy to fight denationali-

Once we stop co-operating with the Tories all down the line—once we prepare, and carry through, a campaign against denationalisation declaring that Labour will support every action which the transport workers take in defence of their living conditions—then the country will take our new programme of nationalisation of all the basic industries seriously. It's an old saying but true that those who cannot defend past conquests will never make new ones.

London Fascists Stir Up

are not the only places where negroes are discriminated against It happens here in London.

COLOUR BAR IN PUBS

The Manager of the "Atlantic Bar" in Coldharbour Lane, Brixton, has barred all negroes from the Saloon Bar. (Other pubs in the area are taking similar action.) His ostensible reason is that a fight took place in which negroes were involved. The Negro Com-munity replied: all right! Bar them, but why victimize the rest of us? You don't exclude all the whites when one or more of their number get involved in a brawl.

RACK-RENTING

The rents charged for a single a week vary from £2 per week to £2_10s. furnished room worth about 10/-

For example, the Rent Tribunal fixed the rents of the rooms at 28 Somerleyton Road at 9/6d. and 10/6d. for single rooms, and £1 for double rooms. Subsequently the house was sold and the tenants—all white—put out. The rooms were then let to coloured men at [2] 10s. each (well with per are at [2] 10s. each (well with per are at [2] 10s. £2 10s. each (usually two persons to a room). Two small rooms used as kitchens by all the tenants have also been let—at 25/- a week

In short, the rent roll for the building has increased from £4 per week (or £208 per annum) to £23 15s. per week (or £1,345 per As we understand that the purchase price of the property was less than £1,000, this means that the annual rental equals 134½ per cent. of the value of the

Race Hatred

Brixton's Colour Bar—the Facts

reasonable, admitted that £2 10s. per week was the usual rent of a

RELATIONS WITH THE CHURCH

Several years ago a number of negroes joined St. Johns Church, Brixton. As their num-bers in the area increased, more and more joined this Church. Later they formed a social club. But, with the development of the 'Keep Brixton White" campaign, the white section of the congregation began to leave the Church.

To stop this drift away, the parson made it clear that the were unwelcome. club is now dead and none of the negroes attend this or any other

DISCRIMINATION BY **EMPLOYERS**

Large numbers of employers, when applying to the Labour Exchange for workers of various cinds state on the application "not coloured".

Negroes at the Labour Exchange when applying for jobs that are advertised as being available are told by the clerks that they cannot be considered because the employers will not engage coloured serving the terms of his licence

Mr. Scharschmidt reports that he applied for a job at Fords, Dagenham, as a Moulder. The handed him the usual card to take to the employer, but on his (Scharschmidt's) request, request, phoned Ford's to find out if a negro would be taken, and being told that he would not, tore up the card and informed Mr. Scharschmidt that he would carly be wasting his time and his money if he went out to Dagenham.

Again, on seeing a notice "Vacancies for Conductors" outside Chiswick Bus Garage, Mr. Schmarschmidt applied for a job as a conductor. He was blandly told that there were no vacancies. On drawing attention to the notice, he was told again "no vacancies' that was all.

Mr. Scharschmidt pointed out that although there were very many experienced drivers among the negroes, and others would be have in the past been discriminglad to take jobs as conductors, ated against in this way, and the

property. Quite an investment! Given to our representative by Mr. Mr. Scharschmidt, who does not consider these rents to be unschmidt, and other negro residents in Brixton who prefer to be name-less.

> conductors employed by London Transport Executive. only jobs they are permitted to take in the Bus Section are washing down the buses at the garages.

> The L.T.E. and other employers say that the men will not work beside negroes, but Mr. Scharschmidt says this is nonsense. There are negroes employed in almost similar factories to those from which they are barred and there has been no trouble at all with their workmates. A conclusive argument!

A CHALLENGE TO LABOUR

The miserable negro baiting picture outlined—and only outlined, remember-has to be faced up to and dealt with by the movement. Regarding pubs, Lambeth is a

Labour Council and they must

insist upon a licence-holder obno matter what the police may have to say. And the Lambeth Council has got to be compelled to act in this matter.

Regarding rents, it is useless to expect the negroes to use the rent tribunals. They won't do so and no one can blame them. In fact, Mr.Scharschmidt told our reporter bluntly that he knew of several cases where rests had been reduced by an appear to a Tribunal, but the negro tenants con-tinued to pay the old rent. That in itself exposes the terrible housing problems facing these people.

Local Authorities must be empowered to fix fair rents by assessing the actual premises. The cost to the ratepayers will be less than that which many authorities propose to waste on Coronation ex-

Job discrimination, is some-thing that the Labour movement must take up. that there are no negro drivers or movement collectively knows only

too well what hardship it can cause.

For a start, we can insist upon a change of policy by the L.T.E. Local Authorities with Labour majorities can refuse to give out contracts to firms engaging in such practices. The Parliamentary Party too can play its part.

But above all else what the Labour movement must do is combat this racialism. We must fight all such movements as the "Keep Brixton White" movement.

These fascist animals are not concerned with the housing difficulties of the white workers in Brixton, but with exploiting that instinct in us which is hostile to those seemingly different to our-selves, to foreigners, to Jews, to with a black skin instead of white.

It is a weakness of the working class that differences in languages religion and colour can be used in this way, because such differ-ences are superficial. The funda-mental interests of the black workers and the white workers are identical. Neither has anything of any importance in common with a capitalist or with the capitalist's fascist jackals.

Fascism is not really concerned with attacking either Jews or negroes as such, but with dividing worker from worker in order finally to destroy our movement e ntirely. We, the Labour Movement, the socialist working class, we are the real enemy that fascism is out to destroy, and don't ever forget it.

Every negro in the country is anti-Tory, anti-Fascist, and pro-Labour. Many are members of the Party. We must encourage them to become active in Party work at all levels, Ward Associations, Management Committees, Local Councils and Parliament.

In Lambeth, for example, there ought to be negro comrades on the Management Committees of all three Parties, Norwood, Brixton, and Vauxhall, and—there should be negro Labour Councillors on the Lambeth Borough Council.

The Week at Westminster

Tories Dodge The Press Council

long standing. His Private Members Bill on the Press Council was rejected by the Tories.

Mr. Simmons did not seem either astonished or despondent about the defeat of his bill. He hought that the discussion in Parliament had shown that with the exception of Mr. Beverley Baxter, the star performer of the "Evening Standard", all members on both sides of the House had shown that they were in favour of a Press Council, and he hoped that the debate would help to expedite its

establishment.
"Personally," he said, "I am not concerned whether we get a voluntary or a statutory Press Council, so long as we get a press council. I am afraid that the power of the newspaper lords may induce the N.U.J., in their anxiety to have a press council of some kind established, to give away too much and thus render it ineffective."

PRESS LORDS PRESSURE

According to Mr. Simmons, the purpose of his bill was simply to implement the recommendations of the Royal Commission of 1949 which recommended the voluntary establishment of a Press Council. This was three-and-a-half years ago, and he had a grave suspicion that the press lords by their unreasonable demands on journalists had intentionally held up and frustrated all efforts which had been made towards the setting up of the Council.

He scorned the Tory criticism that a statutory council would destroy the liberty of the press. It would function without govern-ment interference from the moment it is set up, on exactly the

would give its members greater wasted.

M. JAMES SIMMONS, security in law in carrying out their jobs than would be enjoyed M.P., is a member of the by an ordinary body and it would by an ordinary body and it would N.U.J. and a journalist of therefore be more effective."

PRESS CLEAN UP

I asked him whether he thought a press council could be effective without getting too much power as the Tories seem to fear. He explained that its real power would lie in its publicity and in the ex-

JIM SIMMONS, M.P., explains his Press Council Bill in an interview with Evi Underhill

posing of all journalists of responsible newspapers which would act as a more powerful deterrent than any control.

The aim of the Council was to counteract the suppression of news, the slanting of news for political purposes (of which Harold Lever, M.P., gave an admirable illustration in the debate when he quoted the headlines of the Tory papers on the two Labour by-elections), and thirdly to get less sordid and vile Sunday press.

But Mr. Simmons' Bill was defeated because the Tories insisted that a voluntary press council would be better, although they have up to now made every effort to delay its establishment.

Mr. Deeds, M.P. better known as "Peterborough of the Daily Telegraph" was one of the chief mourners of the "freedom of the press' which he considers entirely free whilst he can give any mis-representation of events in accordance with the great tradition of "Daily Telegraph" impartiality.

It is generally regretted, by Liberals and Labour alike, that Mr. Simmons's Bill has been defeated, but it is to be hoped, that his purpose has been achieved, and that the publicity it got through the debate in the House of Comsame lines as was originally mons, will encourage those who planned for the voluntary council. are responsible for the setting up of a voluntary Press Council, to said, "that a statutory council go ahead as enough time has been

Arms and that Man again!

O, this is nothing to do with Nye Bevan! It's Mr. Churchill speaking. Britain's Arms Bill must be cut again. Because of our financial, economic and balance of payments situation we now hear Mr. Churchill saying: "In the light of these considerations, the Sovernment has come to the conclusion that we must prevent any substantial rise above this year's high level of expenditure on defence production."

During the General Election the Tories charged us with muddle, incompetance and inconsistency in

one buyer, to a would-be book traveller.

Even a good, well-written and well-produced book can paint a completely false word picture of values and events. Take villains for instance. The 'Red Indian', treated as an outlaw in his own country! The 'Dirty Jap'—why must all Japanese be dirty? The 'Yellow Chink' who always slinks around with sinister expression around with sinister expression, ready to do harm to all niceminded Europeans and Americans. The 'Black Nigger', especially in American fiction, is always an inferior type, and the Arabs and Jews have about equal claim to

This philosophy forms the bed rock upon which unscrupulous capitalist politicians can so easily expolit racial differences as the children grow into adults.

There is not much we can do about it as long as profit is the only motive for making and sellonly motive for making and self-ing entertainment to our young folks. The most we can do is to choose wisely, and to boycott the shops which so blatantly display these dangerous toys.

Florence Edwards

by HAROLD DA VIES, M.P.

over what period the original £4,700 million programme would now spread, we gathered from the Prime Minister's answer that it would be partly over four years and partly over five.

The real question, though, is what will be the increase we can now allow to capital exports and to home investment? On these issues there are at the moment no answers. Answers must be found and it is time that we had a couple of days Debate on the State of the Nation. Instead of that we are to spend valuable time mess-

security today without Collective Security and Russia and America are the only two countries that can afford the colossal burden of modern armaments.

But what is all this compared with the need to meet the wishes of our pals the brewers. We must hand over the new pubs to the boys even if we have to use the guillotine on important legisla-

Out of the wilderness of Tory philosophy echoes the serious voice of Cyril Osborne, the Tory Member for Louth. He is a stockbroker, and, by the way, a Livery-man of the Worshipful Company of Bakers. He is worried about England's Daily Bread. He upsets the Tories sometimes. Here is one of his recent prognostications: 'If Marshal Stalin were to accept an invitation to the Coronation, or if the Korean War were to end, there would be a dreadful fall in commodity prices. Unless we make plans in conjunction with America to deal with the problems that must

talist system has ever known."

But I am not so sure whether Uncle Sam will play with this planning idea. As for Uncle Joe and the Coronation . . . Who Knows ? Who knows?

Cast Off All Fooling

S the crackling of thorns A S the cracking of under a pot, so is the laughter of a fool." Thus said Ecclesiastes.

Night after night we sit on the Benches and listen to Tory guffaws as Labour makes its case against unfair use of the Commons time. So it was good to see the Party ing about with the Transport Bill batting as one man on the Motion right now.

If the question is solvency or safety then arises the problem are we safe if we are incolvent a color of Censure. Attlee swung into action against Churchill with a skilful and discriminating attack safety then arises the problem are we safe if we are insolvent? It might sound idealistic but the stark reality is that there is no Steel Bill. We had had a week with all this business of unparliamentary language such as "Boo! and "Goose!"

> Sitting in the gangways and huddled behind the Bar of the House, Members listened to Nye Bevan winding up. Nye made it clear, in a powerful denunciation of the Tories, that what we were examining was the manner in which the Constitution was being manipulated by the Government. His incisiveness had its effect upon the Tory 'Clamour' Boys, and kinks, giggles and groans emanated from the elegant voices on the Tory Benches, bringing Mr. Speaker to his feet a number of times to restore order.

> Captain Harry Comfort Crook-shank entered into battle with an engaging impish innocence that we have all come to know and distrust. Into the Lobbies we divided. It was over, but the winds of reality will be blowing cold in the Docklands this Christmas.

We find that now 20.7 per cent. arise when the fighting ends, there will be the greatest slump the capiance, that is 16,153 men.

THE Bill to Denationalise Road Transport is the Bill the country does not want. The Government are secretly ashamed of it and have used the guillotine to cut short debate on it in Parliament.

The workers in the industry are disgusted with the Bill-and we felt from the first that one of the best methods of organising this disgust would be by joint meetings of all the seven Unions looking after the interests of the workers in the industry. The object being to get a strong and unified programme of opposition.

The official T. & G.W.U. Road Haulage Executive Committee (of which I am a member) submitted such a proposal for joint meetings but it was flatly rejected.

However, the elected representatives from many transport depots in London, after much discussion, took steps to organise closer liaison between the seven Unions

The Monthly Target is £70.

Only three weeks are left in December to hit this target. To date we have received £27 11s. 8d. We still need £42 8s. 4d.

Last month we were nearly £35 under the target. If you rememthe extra expenses involved in producing the Weekly and the fact that going over to wholesale and retail distribution has left a gap in our revenue, you can see that this failure to hit the £70 is extremely dangerous for the paper.

Make up for it this week, com-Send in your donation NOW. Get your regular readers to put a copper or two on the Fighting Fund card. Every penny is badly needed.

We will publish the weekly amount received in every issue—and the first issue of each month will acknowledge the full amount and give the details.

If all outstanding accounts for papers are settled up right away it will be a big help. We have added commitments since becoming a Weekly.

VAN FUND

A little over half the amount needed has so far come in—but we still need nearly £50. Until we get it, willing supporters must each week trudge to the stations and the wholesalers' depots to deliver the papers. Why not make a donation to the Van Fund as a Christmas present for the "Outlook"?

With £70 a month in the Fighting Fund and our own transport for deliveries and propaganda we can go ahead with campaigns for greatly increased sales. are confident that "Socialist Outlook" can be made into a

concerned in the industry—the T. & G.W.U., U.R.T.W.A.E., E.T.U., A.E.U., T.S.S.A., N.U.V.B., and S.H. & M.A. It was therefore

decided to organise a Conference at the Memorial Hall on Decem-

Every member of the organising committee for the Conference holds an official position in the Union and all are Shop Stewards things which need saying—even if—three are elected delegates to the T. & G.W.U's. official Road the same conclusion as those the T. & G.W.U's. official Road the same conclusion as those Haulage Executive Committee. We claimed that the Conference would be a peaceful assembly of workers deavour by all means in their who are vitally concerned, whose livelihood is imperilled by the Tory Government's intention to give the loot to their own class as quickly as possible.

THAT MAN AGAIN!

On December 5th, an official circular was sent to all workers in nationalised road transport and signed by Arthur Deakin. It attacks our conference, warns the members not to be misled", says it is unofficial and that its object is to prepare industrial action. (Was Chuter Ede's statement also unofficial when he recently said that "No longer can responsible trade unionists withhold the right of industrial action"?

Mr. Deakin claims it is wrong for workers' representatives to meet and discuss the Denationalisation proposals while the Bill is still before Parliament. His state-ment says "the passage of the Government Bill through Parliament is being closely watched, but no one is vet in a position to foresee what may be the actual content of the Act if and when the Bill is passed by Parliament."

The statement continues ". until that stage is reached we are not in a position to place the facts squarely before our members IT IS ONLY AT THAT STAGE that consideration can sensibly be given by the General Executive Council to the desirability of holding a Delegate Conference."

In other words, only after the Bill is passed—when it is too late! —will we have a Conference. This is an admission that, if and when the Bill is passed it will be accepted by our General Secretary.

Mr. Deakin says that any action taken now can be disastrous to our members and their families. transport an experienced worker-and a family man with two fine sons—I can state that the battle we are prepared to wage against this Tory Bill is a battle for us and our families. This retrograde step will put us back from better to worse. And we know, because we've had private enter-

clear from this official document | which our members work." that those interests are not going to be looked after by our official organisation.

I write this article as a militant trade unionist with a clear mind. It is my privilege to say these power to control the industries in who are to take our place.

A state-controlled Road Trans port was the first stage in our con-trolling industry. To get this far has taken so long, and many active pioneers of our movement have been victimised, suffered and giver their all to achieve it. I am fully convinced that the struggle to keep our nationalised industry away from the grabbing hands of the Tones is well worth while for our future and for the benefit of those

Speaking mind

by TOM BRADDOCK

Oh God our help in ages past, Our hope in years to come, Send us a good supply of mugs To make church business hum.

(Old Song).

LL right, Mr. Editor, no more of that one. I quite agree it is most undignified; let us look at the parson business seri-ously. We have in practically every town and village in the country representatives of the class. They are of many types and ranks, they wear a distinctive uniform, a black suit, varied as a soldier's in cut and style, but always black. Just a very few, like Lord Montgomery, sport grey flannel trousers and pullovers, but these are careful to wear a black waistcoat and white collar, both done up down the back.

Also in every town and village there will be found special buildings erected for the use of these black ones. They are practically always the largest, the best built, and they occupy the very best positions; they pay no rates, they are the churches and chapels. The really high-up are provided with cathedrals, and although most of these were erected many hundreds of years ago they are still the largest and the finest buildings we

The head men wear aprons, buttoned gaiters, and strings and rosettes on their top-hats. Generally speaking, there is attached to each of these buildings one or

Mildwater lost his credentials. The

senior stewards of the trades gave

notice to their foremen that they

intended to hold a meeting—again no objection was raised. The meet-

ing lasted an hour and then the nine stewards were sacked for in-

more houses, especially provided for the occupation of our black clad brethren. These are known variously as rectories, parsonages, vicarages, manse, etc.

The building regulations which govern the construtcion of these buildings differ from those which control the dwellings of ordinary people. Among other items, their walls must be thicker and the floor joists stronger. The black-coated brethren must be kept warm and oft-times they weigh heavy.

In the great majority of cases they are provided with a very adequate income. Certainly the foundations are very wealthy; much land, property, stock and share capital are available, but there is no nonsense about equal shares. Certain lesser brethren are kept on very short commons; these are exhibited from time to time as examples of self-denial and are most useful when appeals for assistance are made.

DON'T TAKE SIDES

The fraternity are held in great respect; they occupy always front place positions at all public ceremonies; meetings, dinners, coronations, marriages, deaths, appeals for victory when peoples of other nations have to be slaughtered, and thanksgiving when the kill-ings are suspended for a time. But they do not take sides. They are an international organisation and find no difficulty, each in his own country, in asking God to assist in the slaughter of people in the enemy country.

They are always united in blaming, not their all powerful and omnipotent God for the sorrows that beset mankind, it is always mankind that is to blame. are also quite clear in their view that all these sorrows can be pre-vented, not by unity and cooperation among men but by de-manding that each man shall himself, as a piece of individual self-help, cure himself of all wicked desires. What is wicked and what is not depends largely on the day of the week.

PERFECTLY PROPER

The vicar is always pleased to assist each individual but he will take no side in any public dis-cussion. This being the case, they are very rarely found having anything to do with men and women who believe in co-operation and mutual aid, either nationally or internationally. Very occasionally there will be one who recognises that a man can't lift himself by his own shoe-strings. Of such was a well-known Victorian novelist, Charles Kingsley.

But men like Kingsley are rare birds among the black coats and their influence among them naturally is absolutely nil. Kingsley, by writing a children's book called the "Water Babies" did as much as anybody to stop small children being forced up chimneys to sweep them down. His fellow blacks regarded such practices as perfectly proper.

A SPARE-TIME JOB

Probably most of my readers to a demand for the abolition of parsons. Not at all; all I ask is that their parsoning should be carried on in their spare time.

Let them keep their uniforms, the respect they demand, their vicarages, etc., but they shall be required, each man of them, to do a productive job of work. After all, those of us who have worked and organised for political and social reforms, those of us who agitate for revolution, find the time and energy to take our place in the ordinary work-a-day world, and we are all the better for it. Let the parsons do the same.

As with the parsons, so with their buildings; let our churches and chapels be ready and available for all and for all purposes, religious meetings, politics, con-certs, games, and, when occasion arises, as places of rest and refuge for those without proper home ac-commodation. I know that this suggestion will be resisted by many, but I say that only in this way will parsons become as one with all of us, only in this way will it be possible to make the church an integral part with the whole community.

IS HAPPENING BOREHAMWO THE London County Coun-

4,000 WORKERS' HOMES THREATENED

did!

cil has again threatened to close down the £7,000,000 Boreham Wood housing site unless the workers toe the line.

The first L.C.C. threat to stop the job was made last September on the grounds that unofficial stoppages had made it too costly. The men on the job at that time denied the allegations, said it was a lock out, and threatened to "black" the work unless an enquiry was instituted into the management, which they claimed would really show was to blame for the high building costs.

The Committee of Enquiry was set up but has refused to make its findings public, alleging that it "would be against the public interest" to do so.

This action has undoubtedly Outlook" can be made into a great National Weekly—but only if that £70 comes in every month. Do your best, comrades.

although the management raised

dustrial misconduct! LESSONS TO LEARN

A mass meeting was held on Monday morning and a decision was taken to stop work until the stewards were reinstated. But on Tuesday afternoon the men accepted the recommendation to return to work pending a decision of the Disputes machinery. This was **BEFORE** the L.C.C. threatened to close the job.

Then followed the statement of Ike Hayward, published in the National press that in any case, Mr. Mildwater would under no circumstances be allowed to return to the job.

Therefore, while the workers terminated their strike in order to allow the Disputes machinery to be used, Ike Hayward—a Labour County Councillor—says, in effect, that he doesn't care about the decisions of such machinery.

London workers—particularly those awaiting houses—will surely demand, as building workers are demanding, that the findings of the Committee of Enquiry be published and that the L.C.C. collaborates with the men on the job -not with the building contrac-

BILL MURPHY'S CORNER

A dining-car attendant, passing along the train to take orders for tea, was surprised to find Winston Churchill in one compartment throwing pound notes out of the window. "What are you doing that for?" he asked. "To make some poor people happy", said Churchill. "I've told him that if he threw away half-crowns he would make eight times as many people happy", observed the P.M's. travelling companion.

"And if he threw himself out he would make millions happy", snapped the attendant.

Cheltenham.

Right Wing Menace

We, the rank and file, have the power to remove the Tories, but we are all aware that their stay in power is prolonged by right-wing Union Officials. For example, just reflect on the wage increase application made by the Con-federation of Shipbuilding and Engineering Unions.

I am firmly convinced that the rank and file were fully prepared to fight their claim with strike action, but the right-wing once again made the Confederation the such an across-the-oceans cambridge of the country by laughing stock of the country by their acceptance of the paltry 7/4d.

Any militant trade unionist is aware that the struggle against the Bosman, U.S. Committee Against employers is hard enough. Now Militarisation, 6329 S. May St., it seems we have also to fight the Chicago 21, Illinois.

'Peace at any Price" Officials.

The McCarthy witch-hunt is also spreading fast through our great trade union movement. Any militant trade unionist, according to some officials, receives his

How to write for Socialist Outlook

And Become a Worker-Correspondent

And, if you are a socialist, I to do so, however irksome you may find writing. For your views in print will reach an audience far larger than any meeting or personal conversation.

Readers of this journal are some of the most politically alert members of the working class. They include thousands with knowledge and experience that full-time, professional journalists cannot possibly possess.

After all, who knows better than the men and women who spend their lives in them what is going on in the factories, pits, depots and docks; or in the Labour Party and trade unions?

Workers whose letters to the capitalist press may have been rejected for policy reasons should rejoice that in this paper they have vehicle for news and views of interest to socialists. Not only in the form of letters but also as reports or short articles.

What is wanted is a network of worker-correspondents in every town and industry of the The editor depends on He cannot possibly know it all.

Don't hold back because you

vent YOU from becoming a journalist today—if you want to.

aren't a literary bloke. "Fine writing" is not required. Spelling, punctuation and grammar don't matter much. Your material can always be polished up, provided were bevolved to the polished up, provided were bevolved to the polished up, provided were bevolved to the provided were bevolved. provided you have something to And, if you are a socialist, I say. Sincerity counts a lot. So so far as to say it is your duty if you are willing to "have a go" if you are willing to "have a go" the following tips may help.

(1) What NOT to submit. I can imagine the expression on the editor's face when he opens a bulky package containing a 5,000word article on some remote subject of which the author has little

By FRANK ALLAUN

(Author of "THE TORY PRESS")

personal knowledge. You can work out for yourself how much space 5,000 words would occupy (About a page and a half !—[Ed.].)

And the subject may be of equally little interest to readers of this paper. It is THEY who must receive first consideration.

(2) So keep it short. You can drive home a point as effectively in a snappy paragraph as in a long and dreary missive. When you have written your letter go through it again and again, cutting out every unnecessary word and sen-tence until it is not more than 150 words. (3) Write on matters of which

you have intimate experience, such as your own union, factory, shopping problems or housing conditions, which are also important to other readers.

(4) Write promptly while the subject is still "hot news". An article on municipal election issues, for instance, loses its topi-cality if received too late to appear before polling day. Editors have to plan their pa Ts well ahead. Son if you have the urge to write something, sit down and do it there and then.

KEEP IT SIMPLE

(5) Keep your words, sentences and paragraphs short and simple. Don't attempt "literary style" and never use a word unless you are certain of its meaning. The kind of thing to avoid is the language of the philosophers, such as the following. Hegel once wrote:

"Love is the ideality of the relativity of the reality of an infinitesimal portion of the absolute totality of the Infinite Being." (Sort that out, brothers!)

(6) If you write "Press matter on the envelope and tuck the flap in without sticking it up you need only use a $1\frac{1}{2}$ d. stamp.

(7) Get your letter typed if possible. You can appreciate how an editor reading through masses of reading matter will prefer type-script which is so much more legible than even the best of hand-

(8) Keep on trying even if your contributions are not at first accepted. They will certainly be cepted. carefully read.

(9) You don't have to bother about headlines. They are the sub-editor's headache.

humour, particularly if it has a workshop flavour about it. (That's one of the things years in the factory have taught me.) Some of Bill Murphy's tales in the "Outlook" have by themselves been sufficient justification for taking the paper Surely you have some the paper. Surely you have some stories worthy of a wider audience?

(11) In writing reports tell the outstanding point in the opening sentence. For example, you should not begin with "A meeting of the Blank Union was held in the Co-operative Hall last Monday." It's too dull. It doesn't tell the story. Something like this would be live-

"A resolution demanding the ending of the war in Korea was sent to Winston Churchill by the Blank Union on Monday."

"'This is the most unpopular war in history', said Mr. John Johnson, the general secretary

Shorthand is seldom necessary Your object is to give the decision of the meeting or the kernel of the speaker's argument. The speaker's words are not generally needed except for an occasional short sentence of a striking character.

A recent Civil Service guide to clear writing sums it all up: "Be Simple. Be Brief. Be Human. And above all, Be Accurate."

Remember Ramsay Mac!

"Looking back it is easy to put most of the blame for what was done, or not done, on three men who occupied key positions in the Cabinet in relation to Home Policy, and who crossed over when the crisis cause. But all of us, I feel, must take some share of the responsibility . . . we should have kicked up more row, been less loyal to leaders and more loyal to principles!

Hugh Dalton on the "Mac-Donald" crisis, quoted by Reg Groves in "Sharpen the Sickle", page 218.
