# **KELLY POSTAL APPEAL FILLED ON FEBRUARY 15**

NEW YORK, Feb. 13.-The appeal on the conviction of. Kelly Postal, secretary-treasurer of Minneapolis Teamsters Local 544-CIO, will be heard before the Minnesota Supreme Court on Monday, Feb. 15, it was announced by the Civil Rights Defense Committee. The Civil Rights Defense Committee is directing the defense in this case.

1

The charges against Kelly Postal followed the decision of members of Local 544 to leave the AFL and join the CIO in the spring of 1941. The membership voted, as was their right, to take their local treasury funds with them into the CIO.

In collaboration with powerful anti-labor state officials in Minnesota, Daniel J. Tobin, AFL Teamsters International President, obtained indictments against Kelly Postal for embezzlement of union funds.

The first trial against Kelly entire labor movement. That issue Postal on these charges in 1942 was thrown out of court by the judge.

On no better evidence, Postal was convicted in a second trial, which is now being appealed.

his demand for unconditional release was refused, is in its own

way a sign that despite six months of bestial repressions the

Indian masses are still valiantly pressing forward for their inde-

The 21-day hunger strike which Gandhi began Feb. 10, when

The real situation in India must be serious indeed for the Viceroy to take such a chance, particularly since British officialdom has always recognized that after Gandhi's death it is certain that far more irreconcilable leaders will win authority among India's masses.

Why Gandhi Acts Now

While the mass movement is so intense that the Vicerov dare not release Gandhi, the development of that same movement has clearly impelled Gandhi to act. Recent press reports noted that 'younger" and "more irreconcilable" elements have taken the lead among the masses and that the Congress party heads fear that the leadership is slipping from their hands. Slipping, that is toward the left.

The rigid censorship-it is, in fact, a virtual blackoutconceals from us who the "more irreconcilable" elements are. From scattered details it appears that there has been a revival of the Congress Socialist Party, the left wing of the Congress; and its condemnation as "Trotskyist" by the pro-British Stalinists would indicate that at least one wing of the Socialists is conducting itself militantly. We have seen one leaflet in which these Socialists proclaimed the formation of a Free India government. Moreover, out of the great strike wave of last August and September-strikes conducted against the will of the Stalinist and right wing union leaders, must have come new worker-leaders Faced with the prospect of losing the leadership of the

(Continued from page 1) masses to more determined elements unless the Congress party heads did more than sit quietly in jail, Gandhi has finally had to make a dramatic move.

If Gandhi acted to turn the attention of the masses back to. the Congress in order to keep them under "responsible" leaders, in turn his action has undoubtedly precipitated new struggles against the British Raj. A new wave of arrests is reported of people participating in street processions demanding the release of Gandhi. The great textile city of Ahmedabad-whose workers went on general strike on Aug. 9 and were still out as late as Oct. 24-is again a scene of struggle. James MacDonald reports in the Feb. 14 N. Y. Times:

"According to reports reaching London, Ahmedabad has already taken the lead in staging a demonstration of protest over the treatment of Gandhi. Upward of 100,000 workers in the big textile mills that have war production contracts with the government went out on strike within a few hours after Gandhi began his fast. . ."

With the aid of most American correspondents, the British Raj has attempted to picture the mass civil disobedience movement as having spent itself shortly after it began. The censorship keeps from us most of the facts. However, one grisly index of the real course of events are the casualty figures released from time to time. Here are three sets of figures:

Sept. 15 (by Home Minister Maxwell of India): 658 Indians killed and 850 wounded in the five weeks since Aug. 9. There had been one machine-guning from an airplane, said Maxwell.

Oct 8 (by Amery, Secretary of State for India, speaking in the House of Commons): 786 Indians killed, 1376 wounded-i.e., an additional 128 Indians killed and 526 wounded in the three weeks since Maxwell's figures. Pressed by a dissident Laborite in Commons. Amery admitted that there had been FIVE airplane machine-gunnings of crowds: Aug. 15, 16, 21 and 22, and Sept. 6.

Jan. 1 (Figures reported by Maxwell on Feb. 12): Up to the end of the year, 940 Indians killed and 1,630 wounded or injured by the police or military-that is, an additional 154 Indians killed and 254 wounded in the twelve weeks since Amery's figures.

British figures on Indian casualties are notoriously unreliable, always minimizing the number of dead and wounded, as has been demonstrated many times since the Amritsar massacre of 1919. Nevertheless these figures indicate the fact that, although the main outburst of mass struggle took place in the first five weeks, it has continued without letup ever since.

Figures for arrests given by Home Minister Maxwell on Feb. 12 in Bombay also indicate the mass character of the struggle. He reported that between the start of the civil disobedience

## are notorious in India. Apparently such instances have taken place also during the present struggle. On Sept. 11, 1942 a dissident Laborite, Sorensen,

charged in the House of Commons that ten days before in Dacca prison 34 "security" (held without trial) prisoners had been killed and 137 wounded; in Bhangalpur prison 28 were killed and 100 wounded; in Allahabad prison others too were killed and wounded.

The casualties of a movement are not the best kind of index

of its activities, particularly in the case of civil wars and colonial

struggles for freedom, where often a large part of the casualties

come not during actual struggle but when the vengeful rulers

murder unresisting or imprisoned victims. Instances of this kind

Secretary of State for India Amery answered Sorensen without volunteering any details, merely claiming that "in each case it was a prison mutiny." Far more likely, in each case it was vengeful murder.

It is clear, then, how unsatisfactory an index of struggle are the casualty lists made public by the British Raj. Nevertheless, it is one of the few indexes permitted us by the censorship and in any event indicates the murderous panic of the rulers of India.

#### **Deepening Economic Crisis**

Gandhi's hunger strike indicates, for the reasons we have adduced, that the Indian masses are more determined than ever. Moreover, in the six months since Aug. 9 a new goad is pushing the masses - the ever-worsening economic situation. Food shortages and inflationary price increases have brought a new stage of hunger to the hundreds of millions who have always known hunger. If the situation was dynamite before, the economic deterioration is a fuse, lighted and connected to the bomb.

That the economic situation underlies Gandhi's action is indicated in one of the letters he sent to the Viceroy demanding his release. In it he refers to "the privation of the poor millions, due to the India-wide scarcity which I cannot help thinking might have been largely mitigated, if not altogether prevented, had there been a bona-fide national government responsible to a popularly elected Assembly."

Gandhi understands very well that no one can hope to lead India's masses who does not come forward now and at least formally side with them in their fight for food against the British overlords.

(This is the first of a new series of articles on India. The second will appear next week.)

campaign Aug. 9 and Jan. 1, there had been 60,229 political arrests, 26,000 being convicted and 18,000 being detenues - held

# Rumania Offers To Transfer 70,000 Jews

The Rumanian government last week announced its willingness to allow 70,000 Rumanian Jews to leave that country for any refuge selected by the Allies, provided the democracies would agree to accept them. This was reported by the London correspondent of the N. Y. Times, C. L. Sulzberger, on Feb. 12.

The more than 10,000,000 Jews of Europe and North Africa have undoubtedly been the chief sufferers at the hands of capitalism in its most horrible manifestation: fascism. The agony of a people has been intensified by the war.

differences between the two camps The sadistic program of Hitler and his satellites toward the Jews is well known: debasement, slavtisans have from the very outset butchery in human slaughterhouses.

**Oil Interests Blocked Synthetic Rubber Program** By DINA SANDERS

That interests favorable to the petroleum industry were responsible for blocking the production of synthetic rubber was indicated last week by Senator Guy M. Gillette, chairman of the Special Senate Committee Investigating the Rubber-Shortage, in an article in the Feb. 15 issue of The Progressive.

"At the time of our entrance into the war, it was well known that Russia, Poland and other European nations had made rapid strides in the production of synthetic rubber from various sources and by various processes." Gillette states.

"... Notwithstanding the weight of evidence which was then at hand and has since been accumulated, our steps in the direction of this goal have been uncertain, unsteady, hesitating, faltering, and stumbling."

Pointing out that production of rubber by the petroleum method would take more than three times as long and cost five to eight times as much as producing rubber from alcohol obtained from agricultural products, Gillette says:

"Notwithstanding the assembly of these facts, it seemed impossible to break through the closely integrated group in official life which seemed determined to prevent the entry of agriculture into this field of production. The Senate Subcommittee found it necessary to introduce legislation to break the jam. Congress passed a bill for this purpose which was subsequently vetoed."

In 1942, 650 million dollars was allocated to the petroleum interests for production of synthetic rubber. after the above facts were known. Then it was found that those plants would be unable to start producing rubber before late 1943 or 1944. Gillette sums up: "America wants rubber. America must have

rubber. . . We have supplies from which this rubber can be made. . . We have proven processes with which these supplies can be translated into rubber. We have the engineering and technical skill to put these processes into production. ..."

AND we have a rubber shortage.

The petroleum industry is controlled by the Morgan-First National, the Rockefeller, the Dupont and Mellon interest groupings.

# **Question Statement On** Lend-Lease Aid to China

Roosevelt's statement on Jan. 8 that "today we are flying as much lend-lease material as ever traversed the Burma road" was questioned by Madame Wellington Koo, wife of the Chinese Ambassador to Great Britain, in a speech at Philadelphia on Feb. 1.

"President Roosevelt has said that as much is being flown into China as ever went over the Burma road," Mme. Koo declared. "What he did not say was that, of all the lend-lease materials, China gets only 2%. the rest going to England and Russia.

"What he did not say was that, of this pitiful 2%. only half ever got to Burma and that, of this, only half again ever got into China."

At the time when the greatest amount of material was being carried over the Burma road, it was purchased through Chinese financing; a very small percentage was actually lend-lease aid.

Madame Koo went on to explain that China is on the verge of "economic collapse" because of the pitiful assistance from the United States. She declared that

China needs food as well as guns, and gave examples

# **Overtime Pay And** The \$25,000 Limit

The \$25,000 salary limit, imposed by presidential edict last year, appears now to be headed for the scrap basket. On Feb. 13 the House Ways and Means Committee reported out the Disney bill which would return to their 1941 level all salaries affected by the salary edict.

Indications are that this boon to the high income group will pass a Congress which seems determined to place the heaviest possible burden on the masses while gently sparing the wealthy, whose income other than salaries has not been limited by the administration.

Even as the Disney bill was being groomed for passage, the halls of Congress echoed with demands for the end of overtime pay to workers. Senator Reed announced on Feb. 12 that within two weeks he would introduce his bill to outlaw overtime pay for less than a 48-hour week.

The views of Congress seemed to be neatly reflected in the recent speeches of Captain Edward Rickenbacker, who is spearheading a propaganda drive aimed at the elimination of overtime pay for the workers and the abolition of all restraints on salaries and incomes of the wealthy.

Interviewed in Philadelphia by a N. Y. Times reporter on Feb. 14, Rickenbacker said: "In times like these, I do not approve of overtime pay."

And in the next breath he added that he was opposed to the \$25,000 salary limit because it would limit initiative, and because "anybody is entitled to work and be paid for it."

In Rickenbacker's logic, a worker is unpatriotic to expect a few cents overtime for extra hours worked, but a rich man is to be pitied and assisted if his salary is limited to \$25,000 a year.

Rickenbacker is somewhat crude, but he is only expressing the same views as the employers and reactionary Congressmen, who have grown bold and arrogant on seeing the workers bound by no-strike pledges and betrayed by leaders who capitulate and call for retreat at every turn in events.

The drive to abolish the \$25,000 salary limit is important chiefly as a symbol. The drive to lower wages and living standards is a far greater threat to the labor movement.

The workers must meet it not only by letting Congress know that they will not tolerate any further cuts in their living standards, but also by creating an Independent Labor Party to replace the present anti-labor crew in Congress with representatives of the union movement.

The McNutt ruling affected people now employed as elevator operators, waiters, candy workers, etc.; and McNutt warned that the list would be expanded in the near future.

The chief purpose of this ruling appears to be the mobilization of a greater number of workers for the war industries, which in some areas are already experiencing manpower shortages.

But one of the important results of this ruling will be additional discrimination against minority groups who are already being discriminated against.

As is well known, employers in many parts of the country refuse to hire Negroes and to a lesser degree Jews, Filipinos, Mexicans, etc. Although in some sections war industries have relaxed their Jim Crow hiring policies and have taken on some members of these groups, it is generally agreed that they are still discriminated against, especially in skilled jobs. Many of the Negroes, etc., employed at jobs on McNutt's new list tried again and again to get into the better-paying war jobs and were EXCHANGE SHIP by Max Hill. Farrar and rejected; that is why they still hold service jobs.

Will they be able to get war jobs two months from now when they couldn't two months ago?

stop discrimination. And since the administration | vulgar. has shown little intention to do anything about

Jim Crow in the place where it is most rampant, the South, it seems a foregone conclusion that one obtained deferment, or will be drafted earlier than what they had done."

they otherwise might have been.

He deals at great length with the indignities, Discrimination because of color or religion is al- humiliations, etc. suffered at the hands of the ways vicious and reactionary and against the in-"little yellow bastards," and he wonders at the terests of the whole working class. That is why tenderness afforded the Japanese internees by The Militant opposed it and fought it and sought the great heart of America.

to eradicate it in peacetime. Discrimination is There is little of informative value to be gathered from this book. He treats the Japanese equally reactionary in wartime, and even more political scene like the smart, in-the-know, behinddangerous, as the probable results of the new Mcthe scenes guy that he is, and we get the same Nutt ruling indicate. That is why in wartime The Black Dragon Gang, Mitsui interests sensational-Militant still calls on the labor movement and the ism which has filled innumerable columns of the Negro people to continue and if possible intensify American press for over a decade. He does, howthe struggle against all forms of Jim Crowism ever, note that whatever differences exist between

the ruling groups, "there is one fear they all share-Soviet Russia, and its possible influence on Japan." This fear of a Japanese 1917 led to a 15 year purge of all left-wing leaders, communists and liberals.

A few important facts are to be found in Mr. Hill's references to the reaction of the colonial slaves of Britain and France to the Japanese invasions of Hongkong, Singapore and Indo-China. He reports the defection to the Japanese army of

# Rinehart, 312 pages, \$2.50.

The point of view of Max Hill, head of the Associated Press office in Tokyo, is simply that Not unless steps are taken to make the employers of American white chauvinism, more than usually

Mr. Hill contributes to our knowledge of anthropology with the discovery that "in every race there are men who are cruel. But with the Japanese it's a mass instinct." From this he came result of McNutt's new ruling will be that Negroes to understand "how the children in my Tokyo and other minorities, through no fault of their own, compound could choke my kitten, drop his body will be drafted when they might otherwise have on the doorstep and scamper off laughing after

at Hongkong. Mr. Hill is indignant at the Indians who, in Singapore, "took over the chore of watching us.... They were renegade Indian troops. . . It was a cute Japanese trick to permit the Indians to

guard us. In effect they said: "You watch the

a considerable number of Indian troops, especially

white men who were your masters." In Indo-China "the three main nations, the Annamites, Tonkinese, and Cambodians, welcomed the Japanese from the first. They have never liked the French. There are some who think the natives now work for the Japanese under duress, that Japanese methods have turned them strongly against the invader, but I saw no evidence of such a feeling."

In Hongkong, the extent of the defection of Indian troops was such that Hill is compelled to note that "a major factor was the failure of some of the Indian troops to fight." He adds the glib explanation that "They had been corrupted long before by Japanese money and Japanese guile."

He also adds to these slanders the accusation that the Indian nationalist movement is chiefly a fifth columnist, Japanese-inspired movement.

To anyone acquainted with the reality of British rule, the absurdity of Mr. Hill's contentions can be explained only by the type of mentality nurtured by the imperialists which conceals all inconsistencies within the fog of the racial mysticism of white superiority. The rising tide of colonial and proletarian revolution will override the "Exchange Ships" and their rotten cargo, giving the final and only answers possible.

Reviewed by R. LEWIS

"I realized my statement might give implications which were never intended and perhaps the word 'collapse' was ill-advised.

"What I desired then, and still desire, is to impress on the American public the serious economic threat to the Chinese people and the necessity of relieving the economic siege or Japanese blockade by some radical method before Chinese strength is further sapped.'

It is significant, however, that in her retraction. Madame Koo did not withdraw the part of her speech dealing with Roosevelt's statement.

# **Still Another Scandal About War Profiteering**

While it is anxious to have the masses regard the war as a crusade against fascism, Big Business knows only a dollar patriotism.

This was demonstrated once again last week when charges of falsifying production costs on munitions for the Army and Navy by an estimated \$1,418,617 were made against officials of the Triumph Explosive Inc., at Elkton, Md., in indictments issued last week by a Federal grand jury in Baltimore.

Additional indictments announced in the case reveal that the swindle involves not only heads of the Triumph plant, but also three civilian inspectors for the Army and Navy and representatives of a large Washington contract brokerage, who are accused of bribery, false representation, and conspiracy to defraud the government.

According to the Department of Justice, the president and vice-president of Triumph appropriated over \$500,000 for their own personal use.

A single count in the indictment enumerated 25 instances of account-padding including \$50,575 for a pension trust for the company officials; \$7,956 for liquor charged to the purchase of "raw materials," \$1,688 for haberdashery, and \$80,106 for personal expenses.

The chief civilian inspector for the Navy at the Triumph plant, Reginald Gregory of Elkton, is charged with accepting an outboard motor, a bicycle and a \$160 suit of clothes as bribes.
