**Kelly Postal's** The Minnesota Supreme Court upheld on June 18 the conviction of Kelly Postal, Secretary-Treasurer Wire to CRDC of Minneapolis Teamsters Local 544-CIO, on a charge of alleged "embezzlement" of funds belonging to the Union. Postal, the victim of one of the most vicious frame-ups against a militant union leader in American labor history, has entered the State Penitentiary at Stillwater, Minn., to serve his five years sentence.

the third case in which he has figured as a result of the conflict over questions of trade union democracy between Local 544 and Daniel J. Roosevelt's war administration has rested heretofore on a coalition with the labor movement. Roosevelt's personal career depends upon his popularity and standing with the broad masses of labor. Roosevelt wishes to be President for a fourth term and play the leading role in the writing of the peace. Nevertheless he has no alternative but to push the capitalists' program of repression and hunger. He has no alternative but to drive the wages of labor down to coolie levels. He has no alternative but to attempt to throttle the labor movement. That is the war program of American capitalism and he is its spokesman and executor. PITTSBURGH, Pa., June 21.-Today has been like a peaceful Sunday in the scores of coal mining towns of this area. It was hard to realize that in these quiet communities, set amidst sunny, rolling countryside marred only by the inevitable tipples and ugly slag heaps, one of the greatest and grimmest struggles in American labor history is in progress.

There was no outward sign of conflict as the third nation-wide wartime

The fact that the police authorities had not stood idly by and had not joined in on the anti-Negro attacks in Beaumont was so, unusual for the South that it provoked nation-wide comment.

Claude B. Campbell, chairman of a delegation of mine workers who called at the White House on June 20, said that Presidential Secretary McIntvre "had discussed the price roll-back as a method of meeting the miners' cost of living problem.

From the very beginning, in the spring of 1941 when the summons for a march on Washington was issued by a group of prominent Negroes, the great merit of the movement resided in its avowed aim of organizing the masses for militant action. ## **Growing Sentiment** For A Labor Party

The war has widened the gap between the 13 million members of the American trade union movement and the top officialdom.

The workers find that their wages and jobs have been frozen, their standard of living lowered, their democratic rights menaced. In contrast, the labor bureaucrats have been guaranteed recognition as the official labor leadership by means of "maintenance of membership" provisions. In return, the labor bureaucrats have sold the independence of the labor movement for a couple of second-rate jobs in the war agencies that permit them to bask in the reflected glory of the American war machine. This growing cleavage between the labor rank and file and the bureaucrats was first evidenced at the Ghicago UAW convention in August, 1942, when the convention delegates roared their dissapproval of the fraudulent "equality of sacrifice" program that the leadership was trying to jam

down the convention's throat. It was more clearly exhibited during the coal strike, when the rank and file of the UAW supported the strike over the heated opposition of the top union officials. It was dramatized in the Detroit and Akron strikes that broke out in defiance of the top leadership and their "no-strike pledge."

Today the cleavage has become a fact on the political field. Despite the union-busting campaign of Congress, despite Roosevelt's program of freezing wages but not prices, the Murrays and Greens continue to cling to the coat-tails of the administration. They want to back Roosevelt for a fourth term. They want to continue to elect to office Democratic-Republican scoundrels who call themselves "friends of labor." James Lucas, President of the Pontiac UAW, has correctly written that many of these labor bureaucrats "are just as much interested in crushing the legitimate aspirations of the workers as the corporations themselves."

But the workers are ready right now to take a different road. They are getting wise to this "hardcop, soft-cop" shell game. In New York, New Jersey, Pennsylvania, Michigan they have said clearly and decisively that they want to put an end to "company unionism" on the political field. In New York the American Labor Party under the leadership of Dubinsky and Hillman, has thus far frustrated the full will of the membership by continuing to horse-trade with the two capitalist parties and trying to convert the Labor Party into a kite of Roosevelt's political career. In New Jersey and Pennsylvania the bureaucrats have managed to delay the actual launching of genuine labor parties.

But the tide of labor resentment is rising and will not be held back for long. The Detroit auto workers have ignored the pusillanimous pleas of the pussyfooting CIO officials and have pushed for the immediate formation of a genuine labor party. That is the way the independent party of labor will be built! Not by back-door deals with cynical capitalist politicians, but by galvanizing the ranks of labor into militant and purposeful action.

### **Tobin Threatens And Slanders Negro Group**

Is A. Philip Randolph, president of the AFL Brotherhood of Sleepingcar Porters, going to be indicted for "sedition" by the Department of Justice? Is the March-On-Washington Movement which Randolph heads due for an FBI investigation? We ask these questions after reading a vicious attack on Randolph and the MOWM in the June issue of Daniel J. Tobin's magazine. International Teamster. Written by one of Tobin's flunkeys, Lester M. Hunt, the article flaunts the slanderous heading: "Negro Leader Stirs Race Hate — Randolph Circulates Axis Propaganda." Hunt, supposedly reviewing the MOWM pamphlet, "The War's Greatest Scandal - Jim Crow in Uniform," charges the pamphlet and its publishers with sowing "the seed of insurrection by inflaming the black race against the white." This is Hunt's deliberately distorted account of the struggle for Negro equality; this is his way of answering the March-On-Washington Movement's call for the struggle against Jim Crow.

Hunt even goes to the extent of pretending that the demand for equality of treatment for Negroes is a demand for special privileges. No other proof is needed than this article to show that Tobin is not interested in exposing and stamping out racial prejudice. What interests him - enough to divert him for the time being from his attacks on the United Mine Workers and the Trotskyists - is stamping out militancy among the workers and oppressed minorities by any means, including the threat of federal prosecution.

The article ends with this note of threat: "And let Randolph remember the warning given him by President Tobin at the American Federation of Labor Convention in Toronto last fall. President Tobin told him his actions were undermining the future progress of the Negro race. He said his remarks were an abuse of free speech. 'Sooner or later this kind of stuff will have to be stopped.' Tobin warned."

It was at Tobin's behest that "the Department of Justice two years ago indicted the leaders of the Teamsters Local 544 in Minneapolis and members of the Socialist Workers Party. Like the MOWM they had committed the crime of carrying on the struggle for the interests and rights of the working class. To Roosevelt, Tobin, Hunt and Co., this is "sedition."

At that time we warned the labor movement and the Negro people that this was only the first move in an attempt by Roosevelt and his labor henchman to crush all progressive forces inside the labor movement. Is this latest article the forerunner of such a move against the MOWM and Randolph? It seems to us we've heard this song before.

Corporation profits in 1942 were higher than the "high level" of profits in 1941, despite tax increases, and they were even bigger in the first quarter of 1943 than they were in 1942, according to a report issued by the conservative Department of Commerce on June 20.

"During the first quarter of 1943," said the report. "corporate profits before taxes increased 19% over

## A Plan For The **Coal Industry**

By whom and for whose benefit shall the coal mines be operated? This important question is brought to the fore by the declaration of the UMW Policy Committee to Ickes last Sunday that they were prepared to work for the government.

The operators do not like the present arrangement under which Ickes is custodian of the mines, although they themselves continue to operate them. But if it will help the fight against the mine workers, they are willing to continue under the present status whereby Roosevelt's custodian guarantees their profits and leaves them in real, even if not nominal, control.

But why should the mine workers who produce the coal be satisfied with any such set up? Why should they toil in the mine pits while a rapacious gang of millionaire operators and absentee owners continue to coin huge profits from their labor, bleed the industry, and run the mines with so little regard for the workers' welfare that 75,000 were injured or killed this past year?

Why should the government act as custodian for the coal barons? Why doesn't it act as custodian for the coal miners? If the government's primary concern is with the production of coal, and not with maintaining the profits and propertied interests of the coal corporations, why don't the mine leaders propose that the government actually nationalize the mines and permit them to be operated under the control of the mine workers?

Once the grip of the profiteers upon the coal industry is broken, there is no reason why the miners cannot be guaranteed a living wage. The elected representatives of the miners will see that each worker gets a fair and square deal.

Who will conduct the technical supervision of the mines? The same technicians who do the work today will do it then. But they will be accountable to the working people and not the profiteers. Expropriate the coal profiteers! Nationalize the coal mines! Operate them under control of committees elected by the workers and responsible to them! بيحاككم اخلاب المشاهي

# How We Fight 'Mission To Moscow'

Last week the Boston City Council voted to recommend the banning of the film, "Mission To Moscow," on the ground that it constituted "outright Communist propaganda." This move was obviously inspired by the Catholic hierarchy which exercises close censorship over all films.

This is but one of many different voices which have been raised in opposition to "Mission To Moscow." The Republican National Committee has likewise denounced the picture. So have the Social-Democrats and other liberal supporters of American capitalism.

We are opposed to "Mission To Moscow" for totally different reasons than all these other groups. We do not condemn the film because it spreads Communist propaganda, for it does nothing of the sort. It spreads Stalinist propaganda which has nothing in common with the genuine Communism of Lenin and Trotsky. It glorifies the most reactionary acts and aspects of the Stalinist regime and thus aids the enemies and misleads the working class friends and defenders of the Soviet Union. It justifies the Moscow frameup trials, Stalin's murder of the Old Bolsheviks, the Red Army staff and Trotsky. The film does not serve the cause of Communism nor the defense of the Soviet Union. It injures them.

In all our demonstrations against the film, we have made it clear that we do not urge, as does the Boston City Council, the banning of the film. We are opposed to such censorship and suppression because it places a dangerous weapon in the hands of reaction.

We try to reach the workers and to teach them by democratic means and in open public discussion the falsehoods and frameups upon which "Mission To Moscow" is based. The capitalist and clerical reactionaries, like the Stalinists, cannot tolerate such genuine democracy and honest confrontation of opposing opinions before the working class. Their aim is to smear the Russian Revolution and defend decaying capitalism. We aim to tell the truth about the Russian Revolution and thereby advance the fight for world socialism.

## **Odell Waller, Roosevelt** And the Poll Tax Fight

July 2 marks the first anniversary of the legal lynching of Negro sharecropper Odell Waller, who was tried for the self-defense killing of his landlord by a jury from which his peers were excluded by the poll tax. This anniversary serves to recall that the poll tax system, which keeps ten million white and Negro Odell Wallers in subjection, is as alive, vigorous and vicious as ever.

Last week President Roosevelt-who like the United States Supreme Court and Virginia's Governor refused to intervene to save the life of Waller-permitted some Negro bishops to call on him in the White House. They reported later that Roosevelt had implied to them that he will be glad to sign the anti-poll tax bill when it is placed on his desk.

Some people, remembering Roosevelt's past record on the poll tax-notably his cynical disavowal of any information or opinion on the anti-poll tax bill last November while it was being filibustered to death by leaders of the Southern wing of his own party-may dismiss this half-promise as an attempt to line up Negro support for the fourth term.

But suppose we grant that Roosevelt will really sign the anti-poll tax bill if it is ever passed by Congress. Having done that, we can only say: What of it? What good is that?

Roosevelt knows, as every other informed person in the country does, that the real obstacle to the passage of the anti-poll tax bill, which has already hurdled the House of Representatives, is the U. S. Senate, controlled by Roosevelt's Southern comrades and conservative Republicans. He knows very well that the poll tax Senators aren't the least bit influenced by what he tells a few Negro bishops. He knows that they will continue to oppose the abolition of the poll tax until powerful pressure is directed against them. Roosevelt wants the votes and support of the millions of Negro and white workers who are mortal enemies of the poll tax. But he also wants the votes and support of the Southern ruling class and its policitians whose strength derives in great part from the maintenance of the poll tax. That is why he

whispers a few sympathetic words to the first group and says nothing to the second. But such a course can fool no one in the long run. The bill is now before a Senate committee and its fate will soon be determined. In this case the old saying will apply with full force: Who is not with us

is against us.
