U.S.-British Message Is Not Addressed To Italian Masses

Allied Military Governor Keeps Fascists In Office In Sicily; AMGOT Policy Continuation Of Darlan Deal In North Africa

By Felix Morrow

real forces of reaction in Italy, who are merely being asked to change sides in the war.

None of the pillars of the fascist regime during its bestial 22-year rule-the monarchy, the army officer caste, the church hierarchy, the capitalists and landlords-are mentioned in the message. It does not even promise the Italian people a democratic government.

First Fruits

The concrete meaning of the Roosevelt-Churchill message was indicated in the first proclamation of the Allied military governor of Sicily, Gen. Sir Harold Alexander. True, it ordered the Fascist party dissolved, as the newspaper headlines announced. But the key paragraph of the proclamation — one which very few newspapers published — reads as follows:

"All administrative and judicial officials of provinces and communities and all other government and municipal functionaries and employes, and all officers and employes of state, municipal or other public services except such officials and subject to my direction."

All these officials are, of course, fascist party members. No doubt, as the Military Governor is clear that he intends to retain in the main the the least disruption of the apparatus of occupied law seeks to prevent.

At Casablanca, where the plans for the inasion of Sicily and Italy were formulated, Anne

The Roosevelt-Churchill message of July 16 is "recognize" (install) as the rulers of Italy the ostensibly addressed to the Italian people. In its same capitalist class forces which have been political essence, however, it is addressed only to ruling through the fascist party. If there was inthe Italian counterparts of the Darlans and decision at Casablanca, it was only over tenth-Girauds. If the message "urges revolution," as rate questions such as whether the King himself some newspapers here headlined it, then it is a could be retained or whether he would have to palace revolution which would not displace the be replaced by another member of the ruling house.

When The Policy Began

As in the installation of Darlan and then Giraud in North Africa, Washington and London will justify this policy on the grounds of military expediency. But this policy began long before the invasion became an imminent possibility.

It began, indeed, 22 years ago, when the King and the capitalist class, with the approval of the Catholic hierarchy, invited the fascists to take over the government. That was the real mechanics of the so-called march on Rome. Frightened by the growth of the revolutionary working class movement, Italian capitalism called in the fascist gangs to destroy every form of working class organization.

Fascism consolidated its regime by the most bestial methods. Union halls and labor newspaper buildings were burned to the ground. Tens of thousands of workers and peasants were mutilated and beaten, thousands murdered in the streets and villages, by the fascist gangs which were political leaders as are removed by me are re- armed by the army, financed by the industrialists quired to continue in performance of their duties and blessed by the church. Untold thousands of workers were tortured in the fascist dungeons.

And all this went on amid approval from the "democrats" in Washington and London. Among indicates, he will remove some of them. But it the leading figures in the governments of the "democracies" today there is not one who can apparatus built by the fascists, and this pattern claim to have recorded his disapproval of Italian in Sicily will be repeated in Italy as a whole. fascism in the years that it was brutally con-Apologists for this policy may argue that this solidating its power, nor afterwards. On the conis traditional military law, and it is true enough trary, it is a matter of record that in those years that the U.S. military-law textbooks provide for Churchill declared he would be a fascist if he were an Italian. Wall Street and the City of territory. True: they take the given capitalist London hastened to bolster Mussolini with loans. structure as desirable. That is another way of Tired businessmen went off to vacation in Italy saying that, while the "socialist" supporters of and returned to praise Mussolini. How many the war prattle about it as "international civil times we were told by the "democratic" press war," that is precisely what capitalist military that, thanks to fascism, the trains ran on time! For 19 years bestial fascism ruled with the direct backing of the "democracies."

CIO Leaders Take Lead In

PRICE: FIVE CENTS

Move To Block Labor Party Hillman Urges Rebuilding Of Labor's Non-Partisan League

267

By Anthony Massini

A greatly ballyhooed political campaign was initiated by the national leaders of the CIO last week. The CIO bureaucrats paint this campaign as an effort to mobilize labor's ranks on the political field to beat back the growing anti-labor offensive in Washington. But its primary purpose is actually to head off and prevent the creation of an independent labor party through which the workers can successfully challenge the political agents of Big Business.

The CIO campaign got

underway in Philadelphia gress, which enacted the slavelabor law and a harsh tax bill last weekend, where the while refusing to curb prices or first of a series of regional to limit salaries to \$25,000, has Hillman committee is to decide ment the work of the Hillman 18 outlining a program by which

FREE KELLY POSTAL

Secretary-Treasurer of Minneapolis Teamsters Local 544_CIO

Victimized for his Loyalty to Trade Union Democracy

GOVERNOR ED THYE ST. PAUL, MINNESOTA

The undersigned respectfully petition you to do everything in your power to secure pardon for Kelly Postal, Secretary-Treasurer of Minneapolis Teamsters Local 544-CIO, now serving a five year sentence in the State Penitentiary at Stillwater.

Kelly Postal was convicted for alleged "embezzlement" of funds belonging to his own union, although he did nothing more than transfer these funds when the majority of the union membership voted to disaffiliate from the AFL and join the CIO. As Judge Hall stated in directing Postal's discharge in his first trial on the same indictment: "Postal, the defendant, was the agent and steward of the membership and turned over the money at their direction" in an "open and avowed" manner. He is no more guilty of "embezzlement" than any other officers of the CIO who took their union funds along with them when they left the AFL.

We urge favorable consideration of Kelly Postal's application for pardon at the next session of the Minnesota Board of Pardons.

ington nor London has uttered a word against the masters of Mussolini-the army and church tem that still obtains in the coal hierarchies, the monarchy, the landlords and mines, where the physician is apcapitalists. pointed by the company and resagainst the people. These pleas have fallen upon deaf ears. With irrefutable scholarship noted Italians savants like Gaetano Salvemini have written millions of words proving that Mussolini is inseparable from the monarchy, the army and the church hierarchy. All to no avail-the "democracies" want no revolution in Italy, only a switch in war-partners.

Since Roosevelt and Churchill pretend that their policy flows from considerations of military expediency, the Italian emigres have argued that the best way to shorten the war would be to assure the Italian masses that defeat for Italy would not be followed by a foreign yoke but by democracy and social reforms. This is obviously true enough-but Washington and London are incapable of giving such guarantees to the Italian people.

On the eve of the invasion of Sicily, the Italian

among Italian anti-Fascists [in Italy] who listen to U. S. and British broadcasts in Italian." The results showed that the listeners-in found the broadcasts offensive in many ways and, above all, lacking in any large-scale political perspective for the Italian masses.

What Italian Masses Want To Hear

Threats of destruction leave them cold; in general the masses react to bombing much like the masses of Britain. The repeated boasts that many of the U.S. soldiers who are coming are of Italian ancestry is answered by the bitterlywise retort: "Italians are used to killing one another." There is great interest in the news of resistance to the Nazis in occupied Europe, but the Italian listeners ask for more concrete information on how the underground is working: how illegal newspapers are written, distributed.

Whitewash Movie

the survey:

"Italians would like, for instance, to hear: 1) that Fascist printing presses in Tunis and Tripoli are now printing democratic Italian newspapers; 2) that the property of Fascists who fled from these cities has been confiscated, their mansions turned into rest homes for tired workmen." (Time magazine, July 12.)

Instead of appealing to the Italian masses along this line suggested by the underground survey, Roosevelt and Churchill issued their message-not to the Italian people but to the monarchy, the army and church hierarchies and, in a word, to Italian capitalism. Their message was a warning to their class brothers that the jig is up and they had better get together as quickly as possible, not merely against Hitler, but again the Italian and European revolution.

A COUNTERFEIT

The frenzied political campaign of the CIO top bureaucrats reveals of course their fright at the onslaught of the open-shopthe employers or the War Labor pers and union-busters. But even more strongly it demonstrates the determination of the Murrays and Hillmans to head off the movement for an independent labor party. These labor skates are determined to keep control of the labor organizations. That is why they dangle this fake toy of "independent" political labor action in front of the workers' eyes. That is what the Philadela militant, concerted drive against phia CIO conference is - a counterfeit.

The workers are not fools, regardless of the opinions of the Murrays and Greens. They have said clearly and unmistakably in several of the key industrial states that they want to undertake independent labor political action by the launching of a labor party. They will reject the counterfeit product which Murray and Hillman are now trying to sell them.

How To Build Marxist Party Washington's Attitude To Is Theme Of Cannon's Book

By George Breitman

Eight months ago Pioneer Publishers issued "In Defense of Marxism" by Leon Trotsky, a compilation of his writings on the defense of the Soviet Union, dialectical materialism and other questions fought over in the struggle of the Socialist Workers Party against a revisionist pettybourgeois opposition in 1939-40. Now Pioneer has issued as a companion volume to Trotsky's a new book by James P. Cannon ("The Struggle For A Proletarian Party," 302 pages, \$1.50 paper bound. \$2 cloth bound), dealing also with the issues of that factional struggle, and particularly with the organization question.

Why do the Trotskyists, who after all are still a small party with limited resources, go to the trouble and expense of publishing and distributing two such fullsized books comprising the main record of an internal party fight, a fight which at the time interested only a few thousand people in this country and which, moreover, was waged and concluded over three years ago? Is it merely because the Trotskyists take pleasure in being able-unlike the renegades from Sidney Hook to James Burnham-to look at what they said yesterday without squirming and retracting today? If that were the only reason, then these books would probably not have been published for some time to come.

Purpose Of The Books

Looking backward, it is possible to say that a revolutionary party at times undergoes factional fights which have no historical justification, which are fruitless or trivial and have little to teach or interest the student of a later period. On the other hand, some faction fights are not only historically unavoidable but also are conducted in such a pedagogical way as to make them serve as the instruments for the most necessary and valuable kind of education for all fighters for socialism. Examples that quickly spring to mind are the polemics of Plekhanov, Luxemburg and Mehring against revisionism; of Lenin against Menshevism; of Trotsky against Stalinism. It would be no exaggeration to say that the revolutionists on a world scale reached maturity in the post-World War I period only after they had assimilated the dearly-paid for lessons of these bitter factional fights.

Comparable in importance and urgency to the above mentioned struggles was the fight in the Socialist Workers Party against the petty bourgeois group which sought not only to revise the theory and program of Marxism but also to transform the party in the organizational sphere from a moveinto a loose, undisciplined debating society.

But the membership of the revolutionary party is not static, it is constantly recruiting new members who haven't had the benefit of such experiences. The Trotskyists do not shrink from factional discussions and fights when they are necessary and useful in clarifying ideas or elaborating the program; but we do not want needlessly to go through the same experience over and over again, a profitless procedure if nothing new is learned in the process. That is why these books are made available in permanent form: to facilitate the education of the newcomers to Trotskyism in this country as well as our co-thinkers in other parts of the world. (I cannot help expressing at this point the opinion that it would have been a good thing if the record of all the important faction fights within the Marxist movement, including the American Trotskyist party, had been made as fully and permanently available as this one.)

How to build the revolutionary party that will lead the workers in the fight to replace capitalist exploitation and misery with a socialist system of security and peace? Cannon's book was written in the heat of the party struggle, and necessarily had to take up some of the trivial arguments of the revisionist opposition, but even his answers to these threw light on the far more vital question posed above. It is true, as Cannon says in one place in this book, that you can't learn how to lead the revolutionary party or a workers' organization by reading a book. (One reason is that there have been altogether too few books dealing with the question; another is that no one book could deal with its numerous and ever-changing aspects.) But that doesn't mean that you can't learn quite a lot about the question by reading and studying; and Cannon's book helps to fill an important need in this respect.

Program And Leadership

Building the revolutionary party is a most complex and difficult task. It requires first of all, as Cannon demonstrates, the correct program, without which no party-no matter how devoted, courageous or wellintentioned-can hope to be successful in its historic task. But even this requirement, over which so many organizations have stumbled and fallen, is not enough. Also needed is a leadership, selected by the party and accountable to the party, which is capable of defending the program and developing it and applying it.

This of course is not all there is to it, but even this part is not as easy as it sounds. As the party develops, it inevitably ment modeled on Lenin's Bolshevik party attracts alien and uneducated elementsfrom the ranks of the petty bourgeoisie and That struggle, as we have said, was suc- ' of certain strata of the working class as

burned into the consciousness of most of have no place within the organization and the people who then belonged to the party. it must learn how to assimilate those who can become useful members; otherwise it will be wrecked, or, what is the same thing. begin to stagnate.

> Especially in periods of general reaction, the party must be prepared to resist the pressure of capitalist society which is reflected and transmitted through those of its members who are because of their occupations or social ties most susceptible to this pressure. That is why, Cannon explains, "It is not sufficient for the party to have a proletarian program; it also requires a proletarian composition. Otherwise the program can be turned into a scrap of paper over night."

Petty bourgeois radicals of all types, who don't want to be bound too tightly by the discipline which membership in the revolutionary party entails, have often attempted, as they departed unlamented from the party, to cover up their political differences with Marxism by charging that it was the methods of Bolshevism which gave rise to Stalinism. Cannon answers, these people by setting the organization question (the question of method) "in its proper setting and in its proper place—as an important but subordinate issue; as an expression in organizational terms of the political differences, but not as a substitute for them. . .

Lenin's Organizational Method

The revolutionary party is like a ship which must follow a course between two reefs on either of which it can founder: on the one side bureaucratism, on the other a lack of discipline. The ranks of the party must be able to decide the party's program; they must also be able to select the leadership and to replace it with a new leadership when they are dissatisfied with its performance. Otherwise, the ranks cannot correct the mistakes or shortcomings of the leadership, and they cannot have genuine confidence in the leadership. On the other hand, the democracy of the party is designed for a specific purpose, to advance the socialist revolution; it cannot be permitted to become an excuse for endless discussion and debate; it must be supplemented by centralized leadership and discipline so that the party can carry out its tasks. Democracy -for the decision on the program and the selection of the leadership. Centralism-for the subordination of the minority to the majority, for discipline, for unity in action. Democratic centralism-to synthesize the two as the only means for safeguarding and applying the program. That was Lenin's organizational method; that is the organizational method defended in Cannon's book.

"The Struggle For A Proletarian Party" raises far too many questions of importance to readers of The Militant for it to be dealt with adequately in a review of this size.

> compromise acceptable to all the interested parties with reference to the best method of keeping order in France and in Europe after Hitler is defeated, may still emerge.

But whatever compromise is cceptable to Washington, London, Stalin, Giraud and De Gaulle cannot possibly be acceptable to the who by devious ways are learning of Giraud's visit to Washington, it must be clear as noonday that the reactionary general is being groomed by American capitalism to keep them under control. It must be clear to the French masses that the army which is being equipped in North Africa with American material is an army which will march into France under the leadership of Giraud and be used to keep order. This is the lesson of Giraud's visit to Washington. It is a lesson not only for the French masses but for the masses of all of Europe now suffering under Hitler's brutal dictatorship. If the European masses take this lesson

removing his principal assistant, Milo Perkins, cleaning out the New Dealers. The new agency created is in charge of Leo Crowley, utilities president and banker-pal of Jesse Jones, a conservative who fought even the mild reforms of the LaFollette Progressives in Wisconsin. Jones retains his vetopower over expenditures.

Roosevelt's "win-the-war" program is dictated by the needs of the ruling capitalist class. Administration of that policy involves appeasement of reactionaries at home and abroad, patronage of the profiteers, impoverishment of the masses, repression against labor.

It is impossible to back Roosevelt and his Democratic Party without helping to bring about these inescapable consequences of his program and thereby strengthening the forces of reaction.

Scrap The "Little Steel Formula"

The AFL-CIO bureaucrats keep uttering theatrical threats that either prices have to be rolled back or the "Little Steel formula" scrapped. Latest to be heard from is William Green who declared on July 19 to the convention of Brotherhood of Maintenance of Way Employes that "unless prices of food are brought down to a reasonable level," organized labor will have "no other recourse but to demand wage increases."

This is the formula of betrayal. This is the formula by which these fakers try to whitewash Roosevelt's freezing of wages under conditions of ever-mounting war inflation.

Green and Murray are making a laughing-stock out of labor with all their hypocritical talk about rolling back prices when every government official knows and virtually admits that the rollback scheme is an empty promise, a fraud. Even the flimsy OPA restrictions are being lifted.

Here, out of the OPA's own mouth, is the sordid story of its impending bankruptcy:

Price Administrator Brown pointed out that the present subsidy program will be limited to \$450,-000,000. Canned vegetables and possibly butter and beef are the sole items on which prices are to be rolled back. Grade labeling is out. Instead of getting 160,000 additional investigators he asked for, Brown must cut down on his present staff. Business men are to replace key OPA officials who made some stab at price control.

Brown said that the subsidies would result in reducing the cost of living by 1%. Green himself admits that food prices have gone up 50-200%.

The CIO originally set July 15 as the deadline for rolling back prices. Now Murray has forgotten about the dead line. What are these labor fakers waiting for? Do they want the White House to hang out a sign saying: "We will positively not roll back prices" before they start to fight for higher wages?

The rank and file want the "Little Steel formula" scrapped. They want a rising scale of wages to meet the soaring costs of living. And they want it, they need it NOW!

Two Vetoes

German Emigres Issue **Statement On Comintern**

A group of German workers now living in Great Britain issued the following declaration to the British Socialist Appeal shortly after the announcement of the Comintern dissolution:

"The undersigned, ex-members of the Communist Party of Germany, following the dissolution of the Comintern, make this statement:

"1. The Comintern has led a shadow-existence since the last Congress in 1935.

"2. The Comintern acted since the expulsion of Trotsky in November, 1927 as an agency of Soviet Russian foreign policy. One of its main tasks appeared to be the spying out and denunciation of internationally minded communists.

"3. The liquidation by trial and murder of nearly all the leading members of the Comintern was essential to clear the way for the decease of the Comintern.

"4. The Comintern with its unprincipled, opportunist, nationalist and unscrupulous policy (Ruhr policy, Canton putsch, popular front, League of Nations policy, Mussolini pact, Spain, Hitler pact) now defunct has disappeared ignominiously.

"5. It is to the credit of Leon Trotsky that he first perceived the cancer growing in the body of the Comintern and therefore inspired and organized the Fourth International. We ask the comrades in exile to reconsider their views and tactics, to take once more their place in the class struggle. They should not allow considerations of out-moded allegiances now formally revoked, to stand in their way.

"6. Nevertheless the Comintern has stood in the eyes of the oppressed as a portent of world revolution. For this reason it has been respected even in the days of its decay and feared by its enemy.

"7. The Third International is dead. Long live the Fourth International."

The Socialist Appeal withheld the signatures for obvious reasons.

An AP dispatch from Chungking on July 7 quoted a government spokesman as saying that the dissolution of the Comintern had caused a split in the Chinese Communist Party. One group which favored the C. I. dissolution is moving closer to the Chiang Kai-shek government, while the other group still holds to the need for internationalism, according to the report.

Trotskyists Still Active In Indian Struggle

The Bolshevik-Leninist Party, Indian section of the Fourth International, fights on despite the bestial repressions and totalitarian censorship of British imperialism, writes the July issue of the magazine, Fourth International, which is in possession of ten leaflets and a pamphlet published by the Indian Trotskyists during the past year.

Through the leaflets one can follow the response of the party to the revolutionary developments in India. The latest of them is a leaflet issued for the Indian Independence Day celebration on January 26, 1943. Another is a rounded political statement issued on August 9, 1942, when the All-India Congress Committee ratified the resolution of its Working Committee to launch a mass civil-disobedience struggle. This leaflet solidarizes with the struggle for independence, warns the masses to be on guard against the weak and vacillating Gandhi leadership and the policy of compromise, pledges support to "any mass action that the Congress may take against British imperialism," and confidently predicts: "The movement started under the leadership of the Congress is bound to develop into channels other than those laid down for it." The Independence Day leaflet sums up the results of six months of struggle and records that the bestial repressions of the British rulers, "far from leading to demoralization, increases the volume of desperate discontent. The masses are reaching out for new methods of struggle." The Soviet Union and Stalinism are dealt with by almost all the leaflets. One of them, headed "Defend the Soviet Union," explains why the only way to defend the workers' state is by revolutionary struggle against all the capitalists. The July Fourth International may be obtained for 20 cents from Business Manager, 116 University Pl., New York 3, N. Y.

Roosevelt And The Wallace-Jones Feud

The muddle headed liberals are whining again. Roosevelt, they claim, has let them down once more. They still insist however that Roosevelt has nothing in common with the Southern poll taxers, the Big Business representatives who are running his administration and his Democratic Party.

This blind man's buff has been thoroughly exposed by Roosevelt's action in the dispute between Vice-President Wallace and Secretary of Commerce Jesse Jones.

Wallace, head of the Bureau of Economic Warfare, regarded by the New Dealers as Roosevelt's political heir, accuses RFC Administrator Jones of hampering the prosecution of the war by refusing to buy strategic materials. Jones, according to Wallace, was more anxious to show a profit on his operations than to insure that essential supplies of quinine, rubber, etc. would be at hand.

Actually, Banker Jones is not very much interested in the government showing a profit. In his. signing of government contracts with Alcoa, U.S. Steel and the other billionaire corporations, Jones revealed that what concerns him primarily is maintaining and strengthening the domination of the monopolies. Far from worrying about the people's money, Jones has been busy for the past twelve years in handing out through the RFC tens of billions of dollars of federal funds to the corporate interests.

Jones is in the Roosevelt administration not because he is a Roosevelt supporter, but because he is the representative of Big Business. The billion dollar industrialists and bankers insist that their own man hold the purse-strings and sign the checks.

Is Wallace however interested in fighting monopoly? Not at all. In common with the rest of the crew of liberal muddle heads, he would like to see a capitalist system free from profiteering scandals. He would like to see the flourishing of imperialism which would provide every child with a quart of milk. But Big Business makes clear to him again the old maxim: Love me, love my dog. You must take me as I am.

Big Business in America is running the war. Not only indirectly, but also through its numerous dollar-a-year corporation representatives. Roosevelt is the chief spokesman of American capitalism. He acted true to his role in the squabble between

Wallace and Jones.

He cracked down upon Wallace, abolishing his Board of Economic Warfare, depriving him of all power over the foreign purchase of materials,

Amid their denunciations of the Democratic-Republican Congress that passed the Smith-Connally slave-labor law, the labor fakers continue the farce of slobbering over Roosevelt, "the great humanitarian" who remained true to labor by vetoing the bill. According to these scoundrels, Roosevelt was simply overwhelmed by the reactionary bloc.

What a whitewash of Roosevelt's role! Roosevelt gave the game away in the case of the anti-subsidy bill where he really wanted Congress to uphold his veto.

Consider these tell-tale differences in the two cases.

Roosevelt wrote a blistering veto message to Congress on the anti-subsidy bill. He wrote a friendly veto message to Congress on the Smith-Connally bill, agreeing with seven out of its nine points and virtually inviting Congress to repass it.

For a full day before the President returned his anti-subsidy veto, his assistant Byrnes was in conference with the Senate majority leader, Mc-Cormack, who in turn conferred with the House speaker, Sam Rayburn. Roosevelt remained silent and inactive for ten days while the Smith-Connally bill lay on his desk. He dispatched his veto message to Congress at the last moment, giving many of the pro-Roosevelt Congressmen plenty of time to leave town and hampering labor representatives in their campaign against its passage.

Byrnes didn't line up any votes to defeat the Smith-Connally bill. On the contrary, earlier behind the scenes he had been lining up support for the bill.

The Democratic whips sent telegrams to fifty absentee Congressmen to return and vote to uphold the anti-subsidy veto. Nobody bothered to call back the pro-Roosevelt Congressmen to back up the veto of the Smith-Connally bill, although only nine votes in the House and two in the Senate were needed to sustain the veto. There were ten Representatives from New York City alone, all elected with labor support, who absented themselves from the voting.

The least scrutiny of the circumstances surrounding Roosevelt's veto of the Smith-Connally bill would convince a child that Roosevelt merely went through a few facing-saving technicalities while he and his aides connived with Congress to put over the anti-strike law.

It is Time to Build An Independent Labor Party

Giraud Praises Some Nazi 'Accomplishments'

General Henri Giraud took the occasion of his visit to Canada last week to pay a tribute-not to "democracy" with which he is formally aligned, but to Nazi Germany. "Not all is bad in the National Socialist system," he said. "Some of its accomplishments have been magnificent." (N. Y. Times, July 17.)

The General did not go on to develop at length just what "accomplishments" of the Nazis struck in him the responsive and admiring chord. But they are no secret. The decrees instituted by his predecessor Admiral Darlan in North Africa and patterned after those of Vichy and the Nazis remained in force under Giraud. The General and his colleagues are for an "orderly government." To them the "order" that is established by dictatorship is truly "magnificent." If that dictatorship needs to be propped up by discriminatory legislation against racial minorities like the Jews, why that's "magnificent" too. A few drastic regulations and laws against labor don't harm either. Assuredly, in the eyes of the French militarists like Giraud, Nazi anti-labor laws are not the least of worthy accomplishments.

Left to his own devices, and with the help of the State Department in Washington, Giraud can be expected to do his best to emulate the "good" sides of Nazism.
