AMGOT PAVES THE WAY FOR A REACTIONARY **GOVERNMENT IN ITALY**

By Anthony Massini

In Quebec this week the Allied leaders were working out new political and military plans for the war and the post-war period. But it is from Sicily, and the dispatches about the operations of the Allied Military Government of Occupied Territories (AMGOT or AMG), that we are able to get a clear picture of what it is that the Allied leaders are fighting for.

The most complete and revealing public reports of AMGOT activity have been given by Herbert L. Matthews, correspondent of the N. Y. Times, who has such a good inside track in Sicily that he has even been used to broadcast to the Italian mainland about the benevolent attitude of the Allied officials toward the local fascists. In the N. Y. Times Magazine of August 22, Matthews not only recapitulates his previous reports on the policies of AMGOT but also explains what effects these policies will have on Italy after the period of military occupation is terminated. "GOOD" AND "BAD"

"What AMG is trying to do," he says, "is to get the existing machinery of government working again under its supervision. . .

"The first thing they [the AMGOT officials] do is to scout around for the former officialsthe Podesta, the Mayor, Chief of

Police and others in charge of terviewed and others are ques-

'Let's Hang The Mayor'

President Roosevelt asserted on, July 30 that he was willing to make a deal in Italy with even a mayor, if the mayor wasn't a member of the fascist government, could get the Italian troops to lay down their ams and could prevent "anarchy." But the Italian people have

a different attitude toward their mayors, all of whom are appointees of the fascist party. As PM reports: "American troops racing into

Sicilian towns are invariably greeted by two cries, 'Viva Americanos' and 'Let's hang the mayor'."

Allies would prosecute them be cause they were fascists. In Sicily sanitation, health, relief, justice, we have uchonstrated the we have demonstrated that' w and so forth. These men are in- obvious reason that something like90% of the administration and is bad they're put in jail. If not, and if they show willingness to cooperate, they are restored to their functional and chaos. "

Sanctions Order Makes Police Agents Of WLB Labor Members AN EDITORIAL

The trade union officials are caught in the sistence." He has discarded not the Little Steel vise of the workers' growing resistance to formula but the policy of placing primary Roosevelt's labor policies and their own sup- dependence upon the no-strike pledge for the port of the administration program. The Presi- enforcement of the wage freeze. The addent's executive order authorizing sanctions ministration fears that control over the rank against the unions closes this vise another full turn.

When the union officials made the no-strike pledge-without consulting the workers-and agreed to serve on the War Labor Board, they took at face value Roosevelt's promise to protect the workers' standard of living. Again when they accepted the wage-freezing Little Steel formula they took as good coin the administration promise to control prices despite the fact that the cost of living was steadily rising. The Roosevelt-Byrnes order freezing collective bargaining evoked a mild protest from the union officials, but they nevertheless stayed in line.

The mounting protests of the workers against the steady decline in their standard of living at last forced Murray, Green and Co. to go through the motions of doing something about it. But they did not call for trade union action to defend the workers' interests' as they should have done. Instead, they pleaded with Roosevelt to roll back prices.

The coal miners, however, confronted Roosevelt with a solid strike front when he tried to impose the Little Steel formula upon them. And when the administration went all-out against the mine strike, the top officials of the AFL, CIO and Railroad Brotherhoods supported Roosevelt against the miners. 'They thus stabbed in the back both the miners and their own membership in whose interests also the miners were trying to break through the Little Steel formula.

The gap between wages and prices continues to widen. Roosevelt is now calling for "truly taxes and compulsory saying which

and file of the unions is beginning to slip out of the hands of the officialdom. It also reckons. with the possibility of other union officials, under pressure from the membership, following John L. Lewis' example and repudiating the no-strike pledge. Therefore, Roosevelt is arming himself to apply police measures to prevent strikes.

The Smith-Connally anti-strike law and now the executive order providing sanctions against unions are vehicles for this sinister strikebreaking program. The attack upon the United Mine Workers and the criminal prosecution of thirty Pennsylvania coal miners reveals the vicious character of the administration policies.

Roosevelt will of course continue to use the timid and cowardly union officials in every way he can, and he will use their repeated reaffirmation of the no-strike pledge to help camouflage his repressive acts against the unions.

The continued presence of the union officials of the War Labor Board, now that it has punitive powers over the unions, makes them outright police agents against the workers. They have performed a police function in voting to deny the UAW-CIO a union security clause in the Chrysler agreement because of strikes by the Chrysler workers.

The trade union workers must repudiate the present treacherous policy of the officialdom. Only by independent class action can the workers halt the downward spiraling of their standard of living and protect their unions from the unfolding anti-labor campaign of the bosses, Congress and Roosevelt.

Labor Members On WLB Vote Against CIO Auto Workers Vicious Provisions of Smith-Connally Law

267

The War Labor Board voted unanimously on August 18 to d e n y maintenance-of-membership and dues check-off provisions to the UAW-CIO in a working agreement with the Chrysler Corporation. This is

in a union contract. The action was taken for the announced membership for striking. There were 66 strikes in Chrysler plants from December, 941 to January, 1943, according

to the WLB panel report. 25,000 workers struck at seven Detroit liam H. Davis, War Labor of fact, several hundred workers

Roosevelt recommended in his etter to Davis that in cases where employers violate WLB orders 'less drastic sanctions" than plant seizure be applied.

During the mine strikes the WLB refused to request government action against any employer powers against the unions. The proceedings against the above firms are generally viewed as part of a maneuver in preparation for a renewed assault on the United Mine Workers by the Roosevelt administration.

The N. Y. Times of August 20 editorially welcomes the Boosevelt order but fee's it doesn't go far enough..

"There is no reason to suppose ... that this withdrawal of 'benefits' could mean a reduction of wages or would otherwise adversely affect the conditions of employment of individual union members." complains this leading spokesman for Big Business. "It is difficult to see how it could leave any union much worse off than it would have been before the passage of the Wagner Act."

STALINIST WHITEWASH

The Stalinist Daily Worker, most brazen apologist for Roosevelt in the labor movement, attempts in the August 20 issue to frame up an alibi for the antiunion sanctions order. The Stalinists dishonestly contend that the order "came in compliance with a provision of the Smith-Connally Act." Stressing the veto of this Act by the President, they thus seek to imply that he acted against his will in issuing the sanctions order. Roosevelt's veto message itself exposes this shameless attempt to white-wash him.

Referring to the first seven provisions of the Smith-Connally Act, the President said in his veto message: "If the bill were limited to these seven sections, I would

man, is to curry favor with Roosevelt in the hope that Roosevelt in return will protect the labor officials against the blows of Congress and Big Business. Its method is to try to restore the prestige of Roosevelt among labor's ranks; to strengthen Roosevelt's hand in the present Congress: to prepare for the re-election of Roosevelt in 1944 and to elect a stable Democratic majority in the Congress.

The first move of the Political Action Committee, therefore, was to throw the full strength of the national CIO leadership against the growing sentiment and demand in the union ranks for the creation of an independent labor party. Hillman has already held three regional conferences-in Philadelphia, Chicago and Birmingham-and boasted in an interview with Federated Press on August 20 that "third party moves in Michigan and New Jersey have died out." (The political situation in these states will be examined in articles to be printed in coming on the ballot is the American Labor Party, which was able to poll more than 400,000 votes in opposition to the Democratic and Republican Party candidates in last year's gubernatorial election.

The present leadership of the ALP of course has no intention of transforming it into the kind of a political instrument which will meet the needs and satisfy the aspirations of the unions' ranks. The party was originally established as a means of winning votes for the New Deal from those workers in New York whose traditions and elementary class-consciousness had ingrained within them an opposition to supporting capitalist party tickets. And by and large it has been kept tied to the Roosevelt administration since its inception. It is a bureaucratically run organization, with the rank and file permitted to say little about its leadership or policies. As a result its program is hardly distinguishable from that of the liberal Democrats.

Nevertheless, it is still a labor party based for

defense counsel to quash indict-ments under the Smith-Connally Act against 30 officers and memcharged with striking and encour-aging a strike in Western Penn-sylvania. The judge ruled that (in the page ruled that

TROTSKY'S ROLE

To Natalia Trotsky The New York Trotsky Memorial Meeting sent the following telegram to Natalia Sedov Trotsky, widow of the founder of the Fourth International:

New York Telegram

"On the third anniversary of the tragic death of our martyred leader, two hundred workers and friends of the Trotskyist movement, gathered in a Memorial Meeting in New York City, send you our deepest sympathy and assurances of continued loyalty to the revolutionary principles for which the Old Man lived and died.

"The inspiring revolt of the Italian masses against war and fascism is the most powerful confirmation of the correctness of Trotsky's program and perspectives. Together with you we continue the fight which will surely end in the socialist victory of the international proletariat."

Allentown

given by Comrade J. Fitch. exists today to complete the great

struggles against the candidates of the capitalist parties. For these reasons the union militants should be intensely concerned with the present fight going on for control of the party and with Hillman's intervention in this fight.

An Unprincipled Fight

For several years now the ALP has been wracked and weakened by an unprincipled cat and dog fight between the Dubinsky-Social Democratic and Stalinist factions, each striving to maintain or seize organizational control of the party, although they have put forth virtually the same program. since Hitler's attack on the Soviet Union in 1941. The Dubinsky group, which at present controls the state apparatus of the ALP, is based on the ILGWU and some of the non-Stalinist controlled CIO unions such as the Retail Clerks, the United Auto Workers, etc. The Stalinists, who won control of the New York City organization at the primary election held this month, draw support from their domination of CIO unions such as the UE, the NMU, the TWU, Furriers, etc. In addition, the Stalinists have flooded the district ALP clubs with their members and have taken over a good many of these clubs.

Both these groups support the war and the administration. Both have called for the re-election of Roosevelt in 1944. Both are opposed to a genuine break with the capitalist parties and the practice of supporting capitalist party candidates. That is why it was so difficult for either group to arouse enthusiasm among the party members in the recent city primaries.

The policies of the two groups are illustrated by their approach to the problem of the coming election of a lieutenant-governor. The Stalinists were quick to demand that the ALP must not run its own candidate, but must on the contrary support the Democratic candidate, no matter who he was, so that the Republicans might be defeated.

Struggle For Domination

The ALP state committee met to consider the question on August 21, before the Democrats had picked their candidate. The Stalinists complained that "ugly rumors" were circulating to the effect that the ALP was going to run its own candidate. Alex Rose, state secretary, indignantly denied the truth of such rumors. Then the Dubinsky group passed a resolution picking Joseph V. O'Leary as their candidate and promising to withdraw him if the capitalist parties selected a candidate "acceptable to labor." The Stalinists objected to this procedure because it would leave the whole question in the hands of a vacancies committee of three Dubinskyites; their own proposal was to postpone action on the question until after the Democrats had chosen their candidate, so that the Stalinists too would have a voice in the final decision.

The fight between these factions, plainly enough, is not over principle or program, but over control of the organization. The Dubinsky group has a stricty Social Democratic hatred of the Stalinists, refusing to collaborate with the Stalinists even though they have the same policies, and trying to exclude the Stalinists from the leadership of the organization so that their own domination will not be endangered. As a result the Stalinists are compelled to fight back: they do this with some reluctance perhaps because for their own part they are willing to collaborate with Dubinsky and the Social Democrats and any one else, including Farley and Hague, if it will further the interests of the Stalinist bureaucracy in the Soviet Union. In addition the fight is an attempt by each side to win consideration and concessions from the administration by demonstrating that it is the most reliable and valuable servant of the White House in restraining and strangling the movement of the workers toward independent political action.

and the other CIO bureaucrats. As expressed by himself in a letter to the State CIO Council last week, Hillman's plan is as follows:

"My proposal, in brief, is that all trade unions of the state, CIO, AFL, Railroad Brotherhoods and unaffiliated, shall be invited to affiliate themselves with the party and to pay to it a per capita tax based upon their membership within the state. All matters of party policy are to be democratically determined by the vote of the representatives of the participating trade unions, based upon their per capita tax payments to the party."

This plan, says Hillman, would do away with "ancient political feuds or the injection of extraneous issues," strengthen the ALP and unite the pro-Rcosevelt forces. But to understand its true purpose, one must bear in mind the attitude of Hillman toward the ALP in the recent period, particularly in 1942, and the already expressed aims of the CIO Political Action Committee.

What Hillman Really Wants

Hillman was one of the founders of the ALP, but last year when its leaders found themselves in a position where they could not support the Democratic candidate for governor and had to run a candidate of their own, Hillman walked out of the ALP and forced the Amalgamated Clothing Workers to discontinue all support. That was how strongly Hillman was opposed to any tendency toward independent labor politics. If he comes around now with a plan supposed to strengthen the ALP, it is surely not because he has the interests of the ALP at heart, but rather because he wants to clamp his own stranglehold on the organization so that he can be sure it won't stray out of the White House orbit.

Hillman's plan will not result under present conditions, when the state AFL leaders are still tied to the Democratic Party, in bringing into the ALP any important forces outside of the Amalgamated Clothing Workers. The return of the ACW, itself bureaucratically dominated by the Hillman machine, will not mean the establishment of democracy in the ALP, but rather the shifting of control away from the Dubinsky group toward Hillman whose plan has already been hailed and assured of full support by the Stalinists.

Willingness to collaborate with the Stalinists, or at any rate to accept their support, is the chief tactical difference at the present time between Hillman and Murray on the one hand and figures like Dubinsky on the other. Like his master Roosevelt, who is willing for the time being to accept an alliance with Stalin on the international scene so long as American capitalism has the upper hand, so is Hillman willing to work along with the American Stalinists in the union movement here. With their support in New York State, Hillman will be able to take over the ALP. The State CIO Council endorsed his plan last week. Two days later Hillman publicly declared that he and his forces would enter the state ALP primary contest next April unless the present ALP leaders accepted his plan before then. The Dubinsky group, already hard pressed by the Stalinists, thus faces the risk of being eliminated

The War Department is helping Hansen, chairman of the meeting, stated: "In a party notable for the youth of its members, as ours is, we treasure particularly those of our cadre, who, like Comrade Dunne, represent in their own experience an entire epoch of Marxism in this country.

Comrade Dunne in his address first elaborated on the many aspects of Leon Trotsky's lifetime career as a revolutionist. "He was tionary man of action."

from the leadership altogether unless it come to terms with Hillman.

Task Of Union Militants

The only alternative to the certain stagnation and degeneration into which the ALP will sink if its fate is left up to any or all of these three factions, is for the union militants to take the leadership of the organization into their own hands. To do that the militants must work out a program which can arouse the initiative and inspire the enthusiasm of the more than two million New York unionists inside and outside of the ALP. And the first plank in that program can only be the demand for a complete and unequivocal break with the policies and politicians of the capitalist parties.

To defend the USSR as the main fortress of the world proletariat, against all assaults of world imperialism and of internal counter-revolution, is the most important duty of every class-conscious worker.

- LEON TROTSKY

JOIN US IN FIGHTING FOR:

- 1. Military training of workers, financed by the government, but under control of the trade unions. Special officers' training camps, financed by the government but controlled by the trade unions, to train workers to become officers.
- 2. Trade union wages for all workers drafted into the army.
- **3.** Full equality for Negroes in the armed forces and the war industries-Down with Jim Crowism everywhere,
- 4. Confiscation of all war profits. Expropriation of all war industries and their operation under workers' control.
- 5. A rising scale of wages to meet the rising cost of living.
- 6. Workers Defense Guards against vigilante and fascist attacks.
- 7. An Independent Labor Party based on the Trade Unions.
- 8. A Workers' and Farmers' Government.

tion or guidance to the real allies of the Soviet Union — the Italian workers, who have already demonstrated their revolutionary capacity, and the rest of the workers of Axis-controlled Europe who are only awaiting the opportunity to rise up and smash their oppressors.

Stalin's foreign policies have been approved in the past by many class-conscious workers - even though these workers recognized his policies to be a departure from the principles and traditions of Marx and Lenin - on the ground that these policies were "practical." It is precisely from this point of view that Stalin's policy reveals "its utter bankruptcy.

"If you had to choose, which would you prefer to have [in] control of the government - big business or labor unions?" This question was put to a cross-section of the voting population in the 48 states by the Gallup poll and the results published last week.

Big Business received 45% of the vote; labor unions 26%; and 29% were undecided. Thus, after 75 years in power, Big Business does not command the confidence of the majority of the American people, if we take this poll as a criterion. Republicans, as might be expected, were overwhelmingly in favor of Big Business influence in government. So were the upper income bracketeers. Among the Democrats, however, in which workers predominate, about as many (34%) favored the unions as favored Big Business (35%), while 31% remained undecided. The same division occurred among the lower income group where

34% voted for the unions as against 33% for Big Business. These Gallup figures are all the more significant

because the trade unions have not yet come to understand the necessity for building a political party of their own, let alone the necessity for labor to run the government.

Still, even under the present leadership of the trade unions, whose cowardly political program consists of clinging to the coat tails of Roosevelt, over one half of the lower income groups (and, in reality, they make up the preponderant majority of the population) is becoming disillusioned with the present system and favors labor running the government. In addition, fully a third of the people have not yet made up their minds on the question.

If correctly analyzed, these figures provide verification of the Marxist contention that as the crisis of capitalism matures, the great mass of the people will look to labor to lead the fight against predatory Big Business. These figures serve as additional proof to the many signs already available that great political shifts are in the offing, that great masses of people are losing faith in the present capitalist system and its leadership and are eagerly awaiting a leadership that has the program and the will to solve their pressing economic and political problems. The time is ripe and more than ripe for the launching of that kind of independent party of labor.

Cannon Book Teaches Fundamental Lessons

By Harry Frankel

"The Struggle For A Proletarian Party" is a collection of the writings of James P. Cannon during an internal factional dispute in the Socialist Workers Party. It must be explained that this book does not merely record a past dispute. It was Cannon who said of Trotsky that he not only made a revolution, but wrote a book in which he explained the laws that govern all revolutions. Similarly, Cannon in this book not only wrote the history of the most important political dispute in the American Trotskyist movement, but set down the laws that govern all political disputes.

The Historical Perspective

Had Cannon written in the spirit of personal animosity, petty recrimination and bickering which is so common in internal fights of pettybourgeois parties, and even of inexperienced workers' parties, there would be nothing that could be learned from the book. But he avoided this fatal and degrading method, and sought always to maintain a historical perspective and to draw from each question under dispute. no matter how trivial, a Marxist lesson for the education of the Party.

Some examples of this method can easily be extracted from the many topics dealt with in the book.

James Burnham, the political leader of the petty-bourgeois opposition, is a New York University professor who thought he could lead the workers' movement in his spare time. But the contradiction between his academic life and his life in the movement was irreconcilable, and was the cause of his deserting the principles of Marxism. The opposition he headed only served him as the vehicle for his ignominious exit from the movement.

The reprehensible nature of his conduct is at once apparent. But you can be sure that Cannon does not spend so many pages of his book on Burnham merely to annihilate this petty trifler. Instead, Burnham is analyzed as the prototype of all petty-bourgeois intellectuals. Almost everyone in the labor and radical movement has had experience with these unstable allies of the working class, and everyone will understand them better after reading Cannon's book.

The Evils of Combinationism

Unprincipled combinationism and clique politics were dominant in the petty-bourgeois opposition. These deadly evils are dissected by Cannon in classic Marxist fashion, and the Bolshevik, principled method of political struggle is taught. Here too, important lessons can be learned. Marxists understand that the proletarian party is the microcosm of the proletarian class. Methods of struggle learned in the party carry over naturally to the trade unions and mass organizations of today, and to the revolutionary workers' councils of tomorrow. Those who learn correctly in the party today will be the most authoritative spokesmen for the class tomorrow.

This is a book on organization questions. But does this in any way lessen its importance? Those who really understand the workers' struggle will not think so. The political axis around which all modern history revolves is the struggle of the working class to organize a state of its own. But, before it can do this, it must organize a party of its own. Thus a book on the organization of the party in reality considers the political questions of today in their sharpest and most pressing form. For that reason it will catch and hold the interest of serious advanced workers everywhere.

Roosevelt and Churchill Conceal Diplomatic Moves

The first of Woodrow Wilson's Fourteen Points called for "Open covenants of peace openly arrived at, after which there shall be no private international undertakings of any kind, but diplomacy shall proceed always frankly and in the public view." Twentyfive years after the "war to end all wars," secret diplomacy flourishes more luxuriantly in the United States than ever before.

Roosevelt's diplomacy certainly doesn't "proceed always frankly and in the public view," as the Darlan deal and the AMGOT policies demonstrate. Consider the secrecy surrounding the Quebec conference. Though no warring power can risk divulging its military plans, any government which claims, as the Roosevelt "administration does, to be fighting in a democratic manner for democratic aims is duty-bound to inform its own people about its international policies and plans.

How many more Darlan deals are being cooked up in Quebec? What kind of negotiations have been going on with King Victor Emmanuel and Badoglio? What commitments have been made with the various reactionary governments-in-exile which infest Washington and London? What conspiracies are they hatching against the Soviet Union?

The American people have the right to know what political problems are being discussed and decided by Roosevelt and Churchill. Nothing less is involved than the disposition of their own fate.

One of the first acts of the Bolsheviks after they took power in 1917 was to instruct Trotsky, then Commissar of Foreign Affairs, to publish all the secret treaties that the Czarist and Kerensky governments had made with the Anglo-American allies. For the first time the peoples knew how these bandits proposed to divide up the world amongst themselves.

Only a Workers' and Farmers' Government, a government honestly representing the people and their interests, can practice open diplomacy. Any government that represents a small clique of big industrialists and bankers must practice secret diplomacy. That is why Roosevelt and Churchill, like two criminals, hatch their plans in the dark of the moon.

What Victory Will Bring To Colonies in Africa

What will happen to Africa after the war? Churchill has already answered, on behalf of British imperialism, that he doesn't intend to permit the liquidation of the British Empire. And both De Gaulle and Giraud have made it clear that they intend to hang on to every square inch in the French colonies in Africa.

But what about the rest of Africa, what about the colonies that have been taken away from the Axis? While his superiors, Hull and Roosevelt, were in Quebec last week, Henry S. Villard, assistant chief of the State Department's Division of Near Eastern Affairs, delivered a speech in Chautauqua, N. Y., in which he gave what he called "the standpoint of the American government."

"Instant liberation" of the African colonies would bring chaos, said Villard. He asserted that "it is unlikely that the former enemy territories in Africa

9. The defense of the Soviet Union against imperialist attack.

Litvinov Recalled

Stalin's recall of Ambassadors Litvinov and Maisky reveals again the great difference between Soviet diplomacy under Stalin and Soviet diplomacy under Lenin and Trotsky.

Lenin and Trotsky placed their main reliance on the genuine allies of the workers' state - the working class and the oppressed masses throughout the world. These allies were always told the truth. The dangers facing the Soviet Union were never minimized to them and they were provided by the Bolshevik leaders with an accurate picture of the reactionary intentions of the world imperialists. Aroused and mobilized in this manner, these working class allies of the Soviet Union were able 25 years ago to defeat the intervention schemes of the imperialists and to help save the first workers' state.

Stalin has turned his back upon these genuine allies of the Soviet Union. He has no confidence in their ability to play an independent role, and relies mainly on alliances with the capitalist powers. While such alliances are sometimes necessary and are not wrong in and of themselves, they must always be recognized as unstable and subordinate instruments for aiding the workers' state. Instead of admitting this to the workers of the world, Stalin lies to them about the true nature and intentions of their capitalist rulers and urges them to discontinue their class struggles.

For over two years Stalin has been trying to get his allies to open a second front in western Europe. But with no success. Because he has helped to strangle the independent movement of the workers. he has no means of influencing events and decisions other than by the manipulation of pawns on the diplomatic chessboard.

Lenin and Trotsky could rely on the support of the great majority of the oppressed masses of the world. Stalin, however, has done everything in his power — in return for capitalist alliances - to disorient the world proletariat, to destroy the revolutionary movement abroad, to smash the bonds of internationalism. With the Soviet Union facing the German army alone for the third year, Stalin can only withdraw his ambassadors from Britain and the United States to signify his displeasure and attempt to exert public pressure on his allies.

Meanwhile, he offers not the slightest inspira-

Praises Stalin

Stalin's domestic and foreign policies give aid and comfort to world imperialism and to the capitalist class of all countries. This fact receives fresh confirmation from that hero of Big Business, the notorious labor-baiting and union-hating Captain Edward Rickenbacker. In an interview upon returning from his mission to Moscow, Rickenbacker was no less profuse than ex-Ambassador Davies in praise of Stalin's regime.

Under Stalin, he says, "Russia is moving toward capitalism." Rickenbacker was particularly impressed by the severe punishment meted out to workers for the slightest infractions of discipline, the lack of worker's rights and democracy. "They have been constantly turning to the right, as evidenced in many ways, during the last twelve months."

Rickenbacker was no less certain that Stalin's dissolution of the Communist international was sincere and permanent. "Anyone knows," he remarked, "that Stalin has been opposed to world revolution."

What Rickenbacker admires and praises in the Soviet Union are precisely those features which have been imposed upon the first workers' state by its isolation, its encirclement by the capitalist world, and above all by the reactionary policies of the Stalinist regime. As he explicitly states, he is pleased by every departure from Soviet democracy and every move made "in the direction of capitalism." And he recognizes the Stalin regime as the agency of this reactionary course.

Rickenbacker, however, passes over in silence those features of the Soviet Union which are fundamentally opposed to capitalism: the nationalization of the land and the factories; the destruction of capitalist property relations and profits; and all the other conquests of the October revolution which the Stalinist regime has not succeeded in destroying and which are the source of the successes of the Red Armies and the high morale of the Soviet people. Nor does this labor-baiter recommend that the American workers and farmers emulate these achievements of the Russian revolution. Rickenbacker remains true to himself and to Big Business both in his opposition to the Russian Revolution and its conquests as well as in his praise of Stalin,

Despite the murderous Nazi re gime and its propaganda, despite the lies and slanders of the socalled socialists of Britain, the German workers are beginning to ternative, at least who are their enemies.

John Gurney, writing from reports a significant statemen movement:

"It is by ourselves alone-not from the invaders-that we shall

New York 3, N. Y.

(Reprinted from the mid-July issue of the British Socialist Ap-

will come into the outright possession of any one power" and added: "It is improbable that the United States would alone accept jurisdiction or control over former enemy territory."

Thus all the people in these African colonies can expect out of the war is a change in masters; instead of being exploited by one Axis power, they will be exploited by more than one Allied power. The Atlantic Charter promise to restore the independence of countries conquered by the Axis is all right for speeches but not for the African masses.

Corporation profits after taxes are up to almost 200% of what they were in 1939, but Big Business is hardly content: it now wants to repeal the contractrenegotiation law which placed some minor limits on huge war profits.

When the government first began spending billions of dollars for war supplies back in 1940, Roosevelt denounced "war profiteering" and promised that nobody would make big money out of the war. But the huge profits of the Sixty Families gives the lie to these promises. Practically all that was done to enforce them was the law providing that the Army and Navy would review war contracts and cut down costs wherever increased production meant still further profits to Big Business.

While the government poured billions into the coffers of the monopolies through new plants, equipment and high rates on most war material, the Army and Navy saved a few hundred millions through renegotiations. In most cases this "saving" did not make more than a small dent in the super-profits of the big monopolies. They more than compensated for it by the speedup alone.

But Big Business is still not satisfied. Why should they have to kick back even a small percentage of their profits to the government? Doesn't that smack of socialism or something? So reason the spokesmen of the Sixty Families who are now engaged in a big propaganda campaign and congressional lobby to repeal, or put the spikes into, the renegotiation law.

Millions of workers, whose jobs are frozen and whose pay checks keep sinking through increased taxes and higher prices, will have little sympathy with the campaign of the Sixty Families to delete the renegotiation restrictions on their swollen profits. On the contrary, as part of their fight to prevent the entire burden of the war from being shoved onto the backs of the workers, the unions should not only oppose this Big Business move but should also raise the demand for the confiscation of all war profits.

Leon Trotsky appraised this companion volume to his "In Defense of Marxism" as follows:
