Steel Workers Climax 50-Year Struggle, Close Down Entire Industry

Historic Battles With Steel Kings **Inspire Pickets**

By Art Preis

(Staff Reporter, The Militant)

PITTSBURGH, Jan. 23 - South along the snaky Monongahela, northwest along the broad Ohio, northeast along the Allegheny, immense tentacles of steel plants reach out from this city of smoke and steel and stretch for scores of miles beside the river banks.

lifeless. No smoke or flame belches forth from the squatting steel monsters, with their huge spines of stacks rising from the open hearths and furnaces.

Those whose labor fed these monsters and pumped lifeblood through their iron veins have risen up in titanic revolt. Now the steelworkers of all races, creeds, colors and nationalities are on strike. 227,000 of them in this vast steel valley alone, 800,000 throughout the land, are engaged in the mightiest battle of their lives.

New Fires Are Burning Now

When I saw the mills in their immense silence last night, only great ghosts of structures in blankets of snowcovered roofs stood dimly outlined behind iron-spiked or barbed-wire-topped surrounding walls. There was only blackness in the skies instead of fierce red glare and spurting flames.

other and smaller fires are burning now, visible only Jobless, Aid as glowing red dots from a short distance. They are far different from the ore-eating, man-eating conflagrations that a few days ago roared and blazed inside the mills. These are friendly fires, meant to warm and comfort pickets in the long, freezing, vigil of the near-zero night.

These glowing coals in coke-fueled steel barrels, called salamanders, form a mighty chain up and down the valley and the river banks. They have become symbols of union strength and hope opposed to the tyrannical power of the steel bosses.

Hundreds and hundreds of these metal-barrel heaters burn night and day at the innumerable gates, entrances and possible entrances to the steel kingdoms. And always near and around them are the slow-circling clusters of men and women of steel, keeping their day and night-long guards in American labor's greatest strike siege.

Here at the moment there is no outward drama of clashing bodies, the sickening crack of state troopers' clubs, the metallic ring of the horses' hooves as they surge (Continued on Page 2)

Ohio Strikers Demand State

SPECIAL TO THE MILITANT

YOUNGSTOWN, O., Jan. 26-The Mahoning County CIO Council set up a committee this Tuesday to launch an aggressive state - wide campaign to amend the Ohio Unemployment Compensation law to provide payments for workers and veterans out on strike.

This Committee is calling upon all other CIO bodies in Ohio to cooperate in its drive to force the governor to call a special session of the legislature immediately for favorable action on this matter.

Unemployment compensation is a burning issue here. In addition to the scores of thousands of steel workers on strike throughout Ohio, there are 10,-000 CIO electrical workers on strike in this district alone. OFFICE JAMMED

The Bureau of Unemployment Compensation office has been

jammed by workers and veterans filing claims since the compreparation for the strike. These workers and veterans will receive nothing unless the CIO - spon-

forward to ride down and crush the picketing workers, such as I saw in Bethlehem, Pa., in 1941.

But here there is an even more profound and stirring drama. Here there is the inspiring example of hundreds of thousands of workers, rising up out of a halfcentury of immense labors, hardships and tragedies, out of fierce and bloody struggles and terrible defeats, to forge a new and stronger unity in action.

Whatever the final outcome of the immediate wage issues in dispute, the steel workers have already gained a colossal triumph in the unity they have displayed in this unprecedented struggle for their right to live in decency, comfort and security.

The Heart Of Steel

I spent-all of today in Homestead and Braddock, two great citadels of Big Steel sprawling their miles of plants. along the Monongahela. This is in the very heart of the "nation's greatest steel area, where the steel industry grew from infancy and the earliest struggles of the steel workers took place.

Every foot of ground in these towns is rich in the traditions of the steel workers. Here a worker's child learns early in life to know the mills as well as its-own mother's face. Here, the grandfathers and fathers of today's steel fighters fought and shed their blood and died in the cause of labor at a time when they had to stand alone and isolated against the armfed brutality of the steel potentates and their government agencies.

Through the morning and afternoon I talked with men and women steel workers in their crowded, busy union halls, in taverns, on street corners and on the picket lines, where I did my turn with the men as I questioned them about their problems and their views.

"Just think," said Andy Steiner to me this morning at Sam and Jerry's, the only union bar in Homestead, "just think, it was 27 years from the 'Battle of the Pinkertons' in 1892, when we had the first strike, to the next strike in 1919. Now it is going on 27 years—and we got another strike. Make something of that."

Andy is one of the thousands of active CIO Steelworkers Local 1397 members who are doing their bit to keep a ring of steel-hearted men and women around the big Carnegie-Illinois plant in Homestead, He is doing a in the press and over the radio. special chore helping to build shelters at the entrances to Other workers, including or protect pickets from the biting cold.

Building On The Old Traditions

Andy and the others are making something out of the traditions of the old struggles. After each bitter defeat, on the fighting traditions of the old, transforming the ter off that way." heroic memories of the past into the inspiration for the present battle, the battle which every steel worker I have talked to is convinced must be and will be fought through this time, to victory.

There is scarcely a child in Homestead who cannot it lasts." recount to you the story of the first great bloody struggle in July, 1892. There are still surviving a half-dozen or so men, now in their 70's, 80's and 90's, who stood with their fellow workers on the banks of the river and turned the Civil War memorial cannons against the boat-loads of Pinkerton agents coming in to break that first strike.

Then there are their sons, men in their fifties and sixties, who went down to cruel defeat in the 1919 steel strike but are today marching again in the class fight that can know no final end until the workers eliminate capitalist exploitation forever.

In the Local 1397 union hall, where Andy Steiner took me to see the old framed picture of scenes of the great 1892 struggle, I talked with several old-timers from the 1919 strike.

Homestead Workers Picket Where Martyrs Of 1892 Fought

Members of CIO Steelworkers Local 1397 encircle the big Carnegie-Illinois plant in Homestead, Pa. This was the scene of the first great bloody struggle with the steel bosses in July 1892. Survivors of that historic battle re-

Right

died in the imperialist war to enrich the barons who murdered their grandfathers and fathers in 1892 and 1919.

SATURDAY, FEBRUARY 2, 1946

On our way back from visiting the memorial stone, we experienced the most exciting moment of the day in Homestead. Looking down the hill toward the main, gate of the plant, we saw a mass picket line circling before the entrance. Strung before the gate was another small straight line of individuals, from which every few seconds one would detach himself and hurry into the plant gates.

We hurried over and learned it was time for the administrative and supervisory people, as well as the CIO maintenance crews to go into the plant under the rigid inspection of the union pickets.

The "white badge" men, better dressed, softer-looking than the picketing workers, were being used by the company to put on a show of marching into the plant in a body. The pickets threw their circle close, so that only one man could pass through at a time. Meanwhile the picket captain and assistant picket captains closely inspected the passes and jerked back the coat collars to inspect each white badge to insure that only legitimate "pushers" and supervisors went in, according to the agreement with the union.

"But if one of them so much as picks up a screw-driver -out he goes and stays out," the picket captain said. "They can only come in through this one gate, and some of them have to go two miles inside the plant to their departments. There's nothing to do in there. All they do is play cards. But the management thinks it's playing 'psychology.'

A Veteran Turns The Tables

We watched the most aggressive of the picket captains, a little, wiry young fellow who had recently returned from 33 months' army service in Europe.

As each "white badge" came up to the line, the veteran's elbow would jut out and catch the supervisor in the crook of the arm. "Pass?" he would snap. "Badge?" he would bark, pulling open a coat collar to get a better view. 'OK." We watched that elbow jab out methodically and halt the meek "white badge" men.

In one pause, the little tough veteran turned to us and grinned slyly: "That's psychology, too!"

That jabbing elbow of the little veteran was a bit of living testimony to the might of the organized steel workers. Never before in all the history of steel have there been such scenes. Who ever heard of the one-time domineering and arrogant supervisory flunkies of the corporation halting humbly before the plant gate at the imperative prod of a steel worker's elbow?

Braddock Spirit Is The Same

Over in Braddook later on, we witnessed the same determined spirit among the members of Local 1219 at the big Carnegie-Illinois plant there. We talked to the steel militants in the local union hall, crowded to the door. Later we climbed up and down the icy slopes to visit various groups of pickets around the ever-present and ever-welcome glowing salamanders.

As in Homestead and everywhere else in the steel valley, the workers of Braddock are indignant about the propaganda the steel barons are putting out to the effect that the average steel worker's wage is \$1.23 an hour.

In the union hall, the workers eagerly told me some of the true facts of their conditions.

"Since the end of the war," said one worker, "we have had very little overtime. For unskilled labor alone the 40hour week has meant a loss of roughly \$40 a month in take-home pay. Remember that 70 per cent of the men here are classified as unskilled labor, getting 78½ cents an hour."

Another, a boilermaker among the top layer of wage the names of the local boys who were taken into the armed the pushers here only get \$1.18. The average boilermaker about \$48 in cash after two weeks' work." One big, hearty worker stated heatedly, "If we were supposed to be getting \$1.23 an hour like the papers say, then we boys got a helluva lot of back pay coming. Every time I see my foreman, I yell at him, 'Hey, when am I going to get all my back pay'?"

This Is Different, This Is Better

All said the same thing, in almost the same words: "This is different-this is better-we're all together now, here and all over the country. Yes-this is different."

Among these old-timers, I spoke with several Negro Then race hatred had been used to the hilt by the company to divide and disorganize the workers.

"Yes," said one of these veteran Negro workers who has toiled 30 years in the plant, "I worked during that for solidarity with the striking steel workers issued by the lines today. strike. LOCKED-IN J. & L. BOSSES **ON REDUCING DIET**

PITTSBURGH, Jan. 22-Two truck-loads of food which the Jones & Laughlin Steel Corporation tried to smuggle onto river barges to sneak in to supervisory employes barricaded in the Hazelwood mill, failed to reach their destination due to the vigilance of strike pickets. The trucks contained numerous delicacies, including turkeys, quantities of cold cuts and butter.

One of the supervisors, on his own request, was escorted in a weakened condition out of the plant by the pickets. He complained that all they had to eat in the plant was weinies and grapefruit juice.

To relieve the monotony of their long vigil, pickets have been phoning into the plants inquiring: "Hey, boss, how you eating?"

A New Headline For Labor

On our return from Braddock, we passed once more through Homestead and got a last glimpse of the memorial to the martyrs of 1892. And I suddenly recalled the headline I.saw in yesterday's Pittsburgh Post-Gazette: "Steel Output Hits 50-Year Low"-the lowest, in fact, since the 1892 strike.

And I thought too of another headline being written today by this gigantic national steel strike of 800,000 workers, a headline those old pioneer steel labor fighters would. have been proud to see. This headline proclaims that all the struggle, suffering and sacrifice of more than half a cenin the Calumet district. Similar tury have not been in vain:

"STEEL LABOR MORALE, UNITY AND FIGHTING every steel local in the district. | POWER REACHES A 50-YEAR HIGH."

BATURDAY, MEBRUARY 2, 1946

The Stalinists have replied with cynical hypocrisy to the world-wide demands of the GIs for rapid demobilization. The Stalinists say they favor demobilization of all men in the armed forces "except those essential for occupation."

This formula which appeared in the December 23 Mass Protests Worker, official organ of the Communist Party, has since been repeated by the Stalinists in almost every article On Okinawa about GI demonstrations.

Why this duplicity of the Stalinists? Why don't they speech over the radio. It could back the GIs 100 per cent? The reason is that, as faithful easily be sold to the New Yorker followers of the Kremlin, they insist on withdrawing U.S. troops from those areas such as China where Stalin wants them out.

But in those countries where Stalin's policy coincides with that of Anglo-American imperialism, the Stalinists needs men to set up installations actually support Wall Street's policy of maintaining cap- and warehouses. And not one italist rule by armed force against socialist revolutions or word on demobilization. colonial uprisings.

The War Department, for instance, has "assured" men in the service that all will be demobilized except those ed dead of Okinawa graveyards." needed for occupation duties. This is virtually the same The way they figure it - what formula advocated by the American Stalinists!

A January 8 editorial in the Daily Worker shows how the Stalinist leaders line up with Wall Street's counterrevolutionary objectives. "We have duties to fulfill in the armies of occupation," the American Stalinists declare. The "we" is Wall Street-not the American working class. the AVC. The sensational testimony of brutality against U.S. Army enlisted men, imprisoned for infractions of Army regulations, revealed at the important trial of guards now going on in London demonstrates the urgent need for democratic army reforms advanced by the "GI Liberation Committee" in Paris on January 15.

These disclosures regarding

the treatment of prisoners by officers and guards at the 10th Reinforcement Depot guardhouse, Lichfield, England during the winter 1944-45 have barely been mentioned or have been ignored by the American press, although they have received considerable attention in Army publications for enlisted men.

A succession of witnesses have testified that guards "brutally beat," "marked up" and "cut' prisoners for the slightest infraction of rigid guardhouse rules. NEGRO SOLDIER DEAD

A Negro, Pvt. Eril L. Bolton of the 3433 Trucking Co., died March 15, 1945 from a "massive intra-cerebral hemorrhage" possibly caused by having his head rammed against a cement wall according to Inspector General reports submitted to the court.

Further evidence of possible murder at Lichfield was given by Pfc. Thomas P. Capello who testified that while he was a prisoner there he had heard rumors that "inmates had been killed."

Build A Labor Party

The actions of Congress and the Truman Administration in the present crucial labor struggles have underlined the role of the government as an instrument of Big Business.

This is demonstrated by President Truman's strikebreaking seizure of the meatpacking plants. Previously he attempted to force the GM workers to end their strike without any gains. The administration's fundamentally anti-labor policy is still further shown by Truman's attempt to impose semicompulsory arbitration through his so-called "fact-finding" bill.

In Congress Democrats and Republicans are competing in unrestrained attacks upon labor and in cooking up new legislative restraints upon the unions.

Meanwhile Congress is taking good care of the monopolists through numerous measures to protect and guarantee their profits.

This anti-labor, pro-Big-Business government is displaying no less hostility toward the demands of the millions of soldiers overseas. Such GI slogans as "No Boats -- No Votes" express their growing distrust of the capitalist politicians.

The Senate filibuster against the Fair Employment Practices Commission shows how little regard this government has for the rights of 13,000,000 Negro people and other minorities.

The workers, the GIs, the oppressed minorities-the overwhelming majority of the population-have no voice and no representation in the present government. Both the Democratic and Republican parties stand more clearly revealed than ever as the servants of tiny clique of ruling billionaires

sition to the boss parties and support only of working class candidates. This position is best expressed in our slogan: "Build an independent labor party!"

The third change in "Our Program" is a shift in the order of our slogans. The final slogan is now: "For a workers' and farmers' government!"

The establishment of a workers' and farmers' government is the goal of our activity. The other slogans are designed to further this aim. Moreover, the full realization of such key slogans as "Full employment and job security for all workers and veterans" and "Full equality for Negroes and national minorities" is only possible through the establishment of such a government. We have, therefore, shifted this slogan to the place corresponding with its character as the crowning reward of our present program of action.

Pickets' Rights

The employers are making provocative attempts to crash through picket lines in the current strike struggle. Naturally and justifiably the workers have vigorously defended their lines against such provocations.

The corporation spokesmen howl that, by regulating or restricting entrance into struck plants, the 1,800,000 strikers are robbing a few corporation executives, foremen and unorganized office employes of their rights.

The American Civil Liberties Union has intervened through a public letter to the AFL and CIO, condemning "the use of force by pickets to prevent access to plants on strike by those who are willing to cross picket lines."

The ACLU in the past has performed many good services in the cause of democratic rights. But in this instance the ACLU actually lends a "civil liberties" cover to scab-herding and thereby gives aid and comfort to the worst enemies of labor and democratic rights.

Mass picketing is the only effective way to keep scabs and strikebreakers out of strikebound plants. That is why workers insist on holding their lines solid against any attempts to pass through without union authorization. Employers are deliberately sending supervisory employes through picket lines to provide a pretext for police assaults on strikers. Thus, in condemning the use of force, the ACLU should address the employers and their government agencies who are alone responsible for initiating and employing violence.

From Los Angeles to New York employers have incited one assault after another upon peaceful pickets.

At the United Motors Plants in Los Angeles, for instance, police came fully prepared to follow through on a corporation provocation. They clubbed and tear-gassed pickets who refused to admit company-intimidated office workers.

In New York City hundreds of police escorted scabs through Western Union picket lines and clubbed and arrested strikers.

The ACLU in effect places the "right" of scabs to go through picket lines with the aid of police violence above the rights of millions of union members to protect their working conditions and living standards by effective picketing and strike action.

"Goodness—another strike! It's lucky our tickets were for tonight!"

PROBLEMS FACING WAR VETERANS By CHARLES CARSTEN

Why Vets Support Strikes Why veterans are in the forefront of the gigantic battle for higher wages is explained in a recent pamphlet entitled Ex-GIs and the Steel Wage Fight, issued by the CIO United Steelworkers of America.

Eight hundred thousand steelworkers are fighting on the picket line for a \$2 a day wage increase and "that's, where the ex-GI comes in," says the pamphlet. "He's Joe civilian now, having to earn a living just like anybody else."

By one of the most cunning propaganda campaigns in history, calculated to turn veterans against workers, Wall Street led servicemen to believe most workers were earning \$150 a week.

These lies were quickly exposed when GIs came home and began looking for jobs. Instead of the fabulous wages they have heard about, they are offered jobs at \$20 to \$30 a week for "beginners." Many have refused to take these low-paying jobs because they can't support themselves, let alone a family, on such miserable wages.

Ex-GIs are demanding an income that will enable them to purchase a few of the things they manufacture. They are trying to cash in on some of the promises made when they were drafted and while they were fighting overseas.

ONE QUARTER OF A MILLION STEEL-WORKERS SERVED IN THE ARMED FORCES. They are in the vanguard of the present struggle. These men remained members of the union without paying dues. The union fought for their interests when they were away.

Now the CIO United Steelworkers of America is fighting all attempts "to discriminate against the ex-GIs for having been in the armed forces instead of on the payroll," states the pamphlet.

Union Supports GI Demands

The Steelworkers union is pressing Congress and the big brass to speed up discharge and demobilization, to stop the diversion of shipping from troop carrying to commercial or coastwise use, to democratize the services and to increase the allowances of enlisted men.

The union is demanding that Washington liberalize, strengthen and iron out the kinks in the socalled GI Bill of Rights; modernize the Veterans' Administration and eliminate racial discrimination in its operations; and give unemployment compensation for veterans on strike.

Finally, the United Steelworkers are pressing the government to give the veterans a fair chance at federal surplus property, adequate housing and the right to vote regardless of color or poll tax. -

This impressive program, benefiting union and non-union veterans alike, is unequalled by any organization outside the labor movement. It is further evidence that the unions are the best friends and staunchest support of the ex-GIs.

On the job, unions guarantee both veterans and non-veterans job security. "You can't be fired without good cause," states the Steelworker's pamphlet, "and the grievance committee will go to bat for you if you have been unjustly dealt with."

The union assures genuine seniority rights-"No more favoritism in lay-offs or promotions," the pamphlet continues, "Nor bucking or browning, and no more chicken."

In addition, the pamphlet points out, through union organization workers have secured these conditions: vacations with pay; agreed-to work shifts; time and a half for overtime, and racial equality - no discrimination because of color.

For these and other reasons the majority of veterans are giving all-out support to the nationwide union struggle for a living wage and better union contracts.

The labor movement which heads the economic struggle for decent wages and working conditions must now take the lead in mobilizing the political power of the masses against the domination of Big Business. That can be done only through a labor party based upon the trade unions-a labor party completely independent of and opposed to the reactionary parties of Wall Street. /

Our Program

We call our readers' attention to three changes in "Our Program" printed on page 5. The first change is the discarding of our logan: "Withdraw union representatives from the War Labor Board!"

We put forward this demand throughout the war. The War Labor Board was an instrument created by the Government to aid the bosses in chaining the labor movement. The WLB blocked wage rises and defended the interests of the profit-mad corporations. The files of the WLB resembled a graveyard in which union complaints were given quiet bur-Jal.

The presence of union representatives on such employer-dominated government boards did immense harm to the workers. The acquiescence of union heads in WLB decisions and their participation in its reactionary work constituted betrayal of the union cause and a vote of confidence in the bosses and their government.

The War Labor Board was one of the first casualties in the great wave of strikes following V-J Day. It has been scuttled by the political representatives of Wall Street as no longer effective in curbing the trade unions. The WLB is therefore no longer a current problem.

The principle of trade union independence expressed in this slogan remains as important, however, as in the past. Militant workers who stand on this principle are duty bound to defend it against any violations. For instance, they will oppose union participation on the National Wage Stabilization Board which the corporations and their government have set up as a successor to the WLB.

The second change in "Our Program" is dropping of the slogan: "Working class political action!" This formulation has been subject to misinterpretation. Democratic and Republican agents in the CIO Political Action Committee, for instance, twist this slogan to mean labor support for candidates of the boss parties. We advocate genuine independent political action which means oppo-

Damaging Admission

Herman Goering has made an admission as damaging to the Stalinists as to the Nazis.

Goering's admission, placed in the record of the Nuremberg trial on January 16, was made last October during a prison interrogation. This leading Nazi confessed that he accused the Communist Party (Stalinist) of responsibility for the infamous Reichstag fire in 1933 without any evidence whatever.

The fact was long ago established that the Nazis themselves burned the Reichstag and then tried to pin the guilt on the Stalinists in a frame-up trial. Goering consequently added nothing new about Nazi crimes.

The main importance of Goering's admission lies in his explanation of Hitler's reasons for staging the fire: "Communist activity was extremely strong and our Government as such was not very secure."

To stabilize his regime. Hitler, it will be recalled, utilized the fire as an excuse to crush the Stalinists. He then smashed all the workers' organizations and instituted a feign of terror. In this way Hitler bound together the broken barrel of German capitalism with the iron hoop of fascism.

Goering's confession of Nazi weakness even after the seizure of Government power shows that the workers could have stopped Hitler in time. Goering's revelation confirms the analysis made by Leon Trotsky from 1929 on when he urged the Communist Party and the Social Democratic Party to unite their forces and battle irreconcilably against the rising Nazi danger. The Hitlerites, Trotsky pointed out, could not resist the mighty power of the German working class once its ranks were closed against the common enemy.

But the Stalinists as well as the Social Democrats ignored Trotsky's warnings. Stalin declared that the "main enemy" in Germany was the Social Democratic Party. The Social Democrats and the Nazis, Stalin proclaimed, "are not antipodes, but twins." Moscow commanded the German Stalinists to direct their heaviest blows at the Social Democrats rather than against the Nazis. This treacherous advice, carried out by the Stalinist heads of the German Communist Party, enabled Hitlerdespite his weakness-to march into office and then consolidate his power on the bones of the divided labor movement.

Goering's confession provides occasion for every militant worker to again examine, the circumstances of Hitler's rise to power. Nazism triumphed in Germany only because the false policies of Stalinism and Social Democracy opened the way.

Representative Ludlow of Indiana is worried about World War III. Recently he wrung his hands over unbridled growth of militarism in the United States: "I think that all observers who

have discerning minds have noted with sinking hearts that the light that shone through the Atlantic Charter and the San Francisco Conference is becoming a little bit dimmed."

In fact the light has become so dim that Ludlow felt very pessimistic: "The prospect for world

peace is growing dimmer and posal. He described it as nothing night and day to destroy and dimmer as the world loses sight less than "an antidote for the kill, Ludlow's Department will of the lights on the highlands resurgence of militarism." It line up the "forces of good will and slips back into the welter of militarism."

Ludlow groaned over the way the government fosters militarism. The following items in particular bothered him: of Peace."

"First. A War Departmentfunction to destroy and kill.

"Second. A Navy Departmentfunction to destroy and kill. "Third. An Office of Scientific Research and Development - function to invent the instruments that destroy and kill.

"And so on." In the face of such a powerful combination, the outlook for peace would seem almost hopeless. Fortunately, however, Ludlow put his brains to bear on the problem. And with brains like that at work, a sure-fire remedy was bound to come up:

"Mr. Speaker, I have today introduced a bill to create a Department of Peace and Good Will to be administered by a Secretary of Peace and Good Will in the President's Cabinet." Ludlow bubbled with enthusiasm over his genius-like pro-

olive branch to the militarists. Setting up a Department of Peace, he explained, doesn't at all mean an end to the Departments whose function is to destroy and kill. Quite the contrary.

"I would not eliminate or depreciate any of these. In the present posture of world affairs we must have, and must continue to have until peace is secure, an adequate Army and Navy."

It looks like a natural. While the other Departments work

will be a "challenging call to the and m u t u a 1 understanding colors" to "all Christians," he throughout the world." Thus orated, because "it would seem when World War III breaks put like an anachronism to main- and the other Departments des-

tain a full-panoplied Depart- troy civilization with the atom ment of War and no Department bomb, Ludlow's Department of Peace and Good Will can play

Ludlow conducted a model a mighty role compiling and filfight for peace according to the ing any complaints that might standards of a Wall Street Con- be addressed to Wall Street gressman. He even held out the militarism.

Vicious discrimination, patterned on the model of the infamous quota system, is being systematically enforced against Jews, Catholics and Negroes by socalled "non-sectarian" colleges and universities in New York. This "open secret" has just now been exposed in a report by the Mayor's Committee on Unity.

This Committee, established two years ago. and composed of 15 leading city officials and educators, confesses that it is helpless to combat this mounting. racial and religious hatred. Moreover, according to PM, it is "terribly distressed" at the publicity precipitated by its own "stark" report in the press.

Virtually without exception, the private and professional schools in New York have established a quota system on racial and religious lines, according to the full report presented to the Committee by itsexecutive director, Dr. Dan W. Dodson. Up to now even faculty members have not dared to speak out against these conditions known to them for many years.

Publicly the New York schools of higher education hypocritically deny practicing discrimination. But privately and "off the record" deans and prominent faculty members admit this practice. They even try to justify it on the ground that the schools are "national" institutions. Evidently only the youth of the "Master-Race" are "nationals" fit to enter them.

Numerous instances exposing the scope of this shameful discrimination are cited in the report. Discrimination has greatly increased in the last decade. The medical schools are cited as the most "vivid and dramatic expression" of the practice. "It is in this area that the cancer of prejudice in American education first grew. It has since spread into almost every other branch of higher education," says the report.

In the decade preceding the war "the percentage of Jewish students of the total student body admitted to under-graduate colleges fell about 50 per cent." Similar discrimination slashes away at the enrollment of Italians and Catholics. Most drastic is the discrimination against the Negroes, "who are virtually excluded."

3

Instead of urging a frontal attack upon the existing abuses, liberal spokesman have proposed, among other things, a \$50,000,000 state university which would presumably "afford equal opportunity" for the youth of all races and religions. But such a suggested new university would not eliminate the pernicious disease of discrimination. Everyone knows that the same type of discrimination is practiced in higher educational institutions including the state universities all over the country.

Under the capitalist system, rotted through and through with discrimination in every field, its institutions of higher learning must also necessarily become poisoned by these shameful practices.

Open-Shop Spreads in Garment Industry

Editor: Because of mass unemployment, brought about by the cancellation of war contracts, open shops are springing up in the small communities throughout the country. This is characteristic of the garment industry. In order to increase their

profits at the expense of the workers, money mad manufacturers who operate organized shops in the main centers are subsidizing these small town sweat shops.

Sweat shop operators, while paying starvation wages, assemble garments that have been cut in union shops. These completed garments are shipped back to organized plants, given a label and sold as union-made products.

This situation, if allowed to continue unchallenged, will seriously endanger hard won conditions and wages brought about through the efforts of militant rade unionists.

On February 1, the Toledo Branch of the Socialist Workers Party will move to new, larger headquarters, located in the James Apartments at 213 Michigan Street.

The new home of the Toledo branch, chosen for its central Sandy Robertson location and its efficient layout, Laurie Falk will include a front office and book store with a plate-glass window on the street; a meeting hall, and a club room. The club room will contain a kitchen

and service counter, a pool table donated by a comrade and ping-pong facilities." On Saturday night, February

23 at 7 p.m., there will be a delicious home-cooked Duck Dinner followed by a gala housewarming. Tickets are now on sale at \$1 and dinner will be served by reservation only.

The first regular forum of the Toledo Branch will be held Tuesday night, February 5, but all Militant readers are invited to visit the new headquarters any time after February 1.

SIGNIFICANT DEMAND

Detroit Stalinists Seek To Suppress 'Militant'

(Continued from Page 1) workers are the first victims.

Worker story was published, a four-man delegation appeared at the headquarters of the Detroit Branch of the Socialist Workers Party, with the wellknown Stalinist, Fred Fish of Local 735, as their spokesman.

Refusing to give their names or show any credentials, these four claimed to have been sent by Local 735 to order Militant representatives to stay away from the local's picket lines. When pressed for a reason, the four began denouncing The Militant in typical Stalinist fashion, claiming that it was "against the workers," that it criticized the UAW leadership and "caused disunity," that it was trying to "break the GM strike" and was "backed by corporation funds."

The Militant and SWP representatives pointed out to the "delegation" that such views lish a retraction. could have only one source—the and its Daily Worker. Thereday.

threats, slanders and lies.

To prevent the Stalinists from bringing further harm to the working class, the Detroit representative of The Militant, Arthur Burch, has written to the Local 735 Executive Board, pointing out that the board's action against The Militant was a "clear violation of labor's democratic rights" which could have come about only through a "mis-

understanding on your part." Comrade Burch requested that tants dared to appear at the the board permit a representa-

Negro workers. That is the thing really worth bragging about when we start launching into a reason that from the broader sodiscussion of how much "progress" the Negro has recently made in this country.

ON THE PICKET LINE

Hundreds of thousands of Negro workers, many of them new to the trade union movement, have been walking the picket lines in militant fight against the oppressors of all the workers. In the General Motors strike. the steel strike, the meat packers' strike and the electrical workers' strike, brown men, too, have braved the wintry blasts of sleet and snow, fought off nonunion foremen and office workers, had their scalps laid open by policemen's sticks and been jail-

ed and fined by the capitalist government. Some often narrow Negro middle-class spokesmen have been

driven by this example of the Negro workers into a new channel of broadened political outlook. Characteristic of this newer analysis, newer alignment nied he had given the orders and newer perspective was an to wipe out all picket lines in editorial in the January 26 issue of the Pittsburgh Courier, which follows:

"Quite aside from the merits be torn up by the roots!

treme anti-Negro propaganda will be unable to erase." FOR ALL WORKERS Amen! brother, Amen! And

FOR extension of militant strike action against the exploiters in all fields and on all

FOR broadening of the struggle onto the political as well as the economic field by the formation of an independent party of Labor based on the trade unions! FOR a Workers' and Farmers' Government in America so that capitalist exploitation and capitalist-inspired discrimination can

carrying the above analysis to its logical conclusion, we say (and hope to hear re-echoed a millionfold) in the interest of the Negro and of all working people:

FIGHTING TALKS

Newell, addressing an overflowing prestrike rally of the steel workers in Quinn School, climaxed a vigorous speech urging all hands to conduct an orderly strike, with the statement that the Lehigh Foundries, Inc., at Easton, Pa., had agreed to pay 181/2 cents per hour. The news electrified the audience. The big assembly hall, packed to the roof, rocked with applause and from outside came cheers from hundreds of strikers who stood in the snowstorm listening FOOD COMMITTEES to the talks through amplifiers.

Short fighting talks were the order of the day. "This is not were set up for the comfort of round one of a fight of four or the pickets. Local stores offered five rounds, but a fight to the to provide bread, and a bakery finish." "The issue is not \$2 a asked for volunteers of union day. SATURDAY, FEBRUARY 2, 1946

Diary Of A Steelworker By T. Kovalesky

Owing to his intense activities in connection with the steel wage struggle, Comrade Kovalesky writes that he is unable to send his regular solumn this week. We are therefore reprinting. his column from the October 6, 1945, Militant.

Brother Steel Workers:

We are a people that is dying. Our lungs are chocked with the dust and gases of the steel plants.

Our constitutions are

warped and cracked from

the poor meals, the cold

houses, and the worries

How many of our

of depression years.

brothers lie in their graves, their bodies crushed in the mills and yards, burnt and charred in the flames and explosions of the coke ovens, open hearths, and blast furnaces? How many of our brothers lie dead of tuberculosis and pnemonia?

How many exist today with maimed, crippled, er worn-out bodies that are no longer of use to the steel companies or to themselves?

. . .

We are a people that is dying.

But what have they paid us for our lives, for our living sweat and our dying agony?

Only in recent times have we received even a subsistence wage; and now that will be wrested from us, if the masters of industry have their WAY

And how did we gain that subsistence wage? We gained it by years of struggles for organ-Instion

Our fathers fought the gunmen and Pinkertons at Homestead.

Our brothers met violence and murder in 1919

and tightened their belts when they were blacklisted.

Ten of us died martyrs' deaths at Republic Steel in Chicago on Memorial Day, 1937. Steel in Chicago on Memorial Day, 1937. But we won; and we organized a million steel workers into our union.

Today once again the battle lines are drawn up. Our enemies, the owners of the huge steel companies seek to smash our union and thrust us back into the darkness of poverty from which we have struggled so hard to come so short & way.

The battle lines are once again drawn up, and we have taken our place in these lines, glad to be able to strike a blow for ourselves and our wives and children, eager to meet our old enemies on the field of battle.

We do not fear them. We are ready for them.

But, brothers, remember that this battle is only part of our war.

Win it we can and must. But it is not enough. For as long as the capitalists own the factories and mills, we have not triumphed entirely.

We will win higher wages and safeguard our unions, because we must.

But the day is drawing ever nearer when we must fight for a greater prize, for the ownership of all the factories, and the control of the government, for a Socialist Society, So, as we fight for our lives and welfare in this

battle, we must look ahead to the greater battles that are coming.

We must learn as we fight, so that we will be prepared for the great battles that lie before us. And when that day comes, when we win the last battle, then we shall have peace and plenty; and our children will grow up in the sunshine of the Socialist Society.

Notes Of A Seaman By Art Sharon I received this interesting letter last week. organizations. Nothing pleases the shipowners

"Dear Brother Sharon: "I am writing you about an outrageous stunt

pulled by some sailors aboard my ship while we were in Norfolk. These guys who had just shipped as replacements ganged up on their colored mess-

man who had been with the ship since we left the coast. They worked him over and he had to be taken to the hospital.

"This messman packed a book in the CIO Mawine Cooks and Stewards. The sailors had trip cards (permits) in the AFL Sailors Union of the Pacific. A couple of these heroes were 'three sheets to the wind' and while being served dinner the first day began to ride the messman.

"According to the story I got later, the messman at first ignored them and went about his business. Not satisfied, one of the heroes proceeded to call him by the usual insulting names that are so common down in Norfolk. But that colored messman had guts and proved it. Despite his being alone against this gang he stood up against them and expressed his willingness to fight.

"Well you know the old story. They claimed he threatened them with a knife so in self defense they had to attack him.

"These attacks upon Negroes are taking place more frequently than ever before and are becoming an ugly sore inside the AFL seamen's unions. I think you ought to say something about it in your 'Notes.'

"Steady as she goes.

Curly." . . .

and their government agents more than to see the SIU-SUP hold on to this dangerous and reactionary policy which sows division in labor's ranks. This outrageous incident you tell about is matched by dozens of a similar character.

Most of these incidents can be traced to the agitation of a tiny minority of race hate peddlers, who are themselves unconscious victims of vicious prejudices coming from the camp of labor's enemies. Look these race haters over. Few of them went through the big maritime strikes. Many of them deliberately joined the SIU-SUP because of its Jim Crow set-up.

The official union policy allows a tolerant attitude to their race hatred agitation. Certainly no veteran of the big maritime strikes can doubt the importance of unity and solidarity of all seamen regardless of color or race. Not so long ago I was shipmates with an SUP old-timer, a veteran of the 1921, 1934 and 1936 strikes. His talent for relating sea yarns about the "orient run" earned him the nickname of "Singapore." I got to know him pretty well as he was my watch partner. He was a loyal and devoted SUP militant. He did not happen to be a radical, but voted the straight Democratic ticket.

One day Singapore spoke the mind of many others in the union after watching the colored crew of a Navy tug work smartly and efficiently in real sailor fashion to get our ship out of a bad spot in one of the Alaska bays. Later at coffee time in the mess room he held forth predicting that the time would come, and very shortly, when the SIU-SUP must give up its Jim Crow policy.

So the next time the race-hate agitator raises his head, Curly, do not fear to take him on. He is using the poisonous arguments of superstition and blind prejudice which serve only benefit the operators. You

Vets Begin To March By Joseph Keller

It was nearly 14 years, from 1918 to 1932, before the veterans of World War I resorted to various forms of mass action, such as marches on state capitals and Washington, in order to fight for their interests.

Now, less than six months after V-J Day, veterans of World War II are beginning to take up where their fathers left off when Mac-Arthur scourged the 1932 Bonus Marchers out of Washington with fire and bayonet.

On January 24, the country witnessed the first veterans' march on a seat of government when 600 former GIs, members of the striking United CIO Electrical, Radio and Machine Workers of America, converged on the state espitol in Harrisburg, Pennsylvania.

The capitalist press, even the dailies in Pennsylvania, gave very little publicity to this significant event. They fear such actions may spread. Moreover this demonstration, unlike its forerunners of the early '30s, was organized by union members in a strike struggle.

. . .

These striking veterans, from Pittsburgh, Philadelphia, Erie, Farrell and Sharon, marched in a shouting body to the capitol building in Harrisburg. They demanded to see Governor Martin and threatened to camp in the Senate chamber until they had their case heard.

The banners they carried showed where a large part of the returned veterans stand. despite the Brass Hat and Big Business scheme to turn them against organized labor.

We Refuse To Scab-Pay Us Our Bonus," "We Demand Equal Rights As American Citizens" and "We sweated it out for our country,

we will sweat it out for \$2 a day." These slogans refer to the fact that the veterans are not only denied their compensation under the GI "Bill Of Gripes" because they are on strike. They are also denied state unemare on strike. They are also denied state unem-ployment compensation because they haven't, Bethichem Plant in many instances, worked long enough to accumulate benefits under the state law.

Their willingness to "sweat it out for \$2 a day" expresses their determination to back the strike of General Electric and Westinghouse area have joined the nation- to a billion dollars during the UE workers for a \$2 a day wage increase.

....

Specifically, the marchers demanded a special session of the State Legislature to vote a veterans' bonus, provide striking veterans with state unemployment compensation and take prompt action on housing for returned veterans and their families who are suffering from the severe housing shortage. Veterans in other states are also raising these demands.

George I. Bloom. Governor Martin's secreliam H. Chestnut, who met the veterans, completely evaded the issues. Bloom blew up the conference with the veterans' committee when he asked to know about "communistic" influence on the marchers. The Governor, he said. would be "very much interested" in knowing if the veterans were "being used by Communists '

The veterans are regarded as "heroes" by the capitalist rulers only so long as they serve as cannon-fodder. When they fight for their rights as workers and ex-servicemen, they are treated as nuisances and insultingly slapped across the face with a red-herring.

CITY COUNCIL VOTES STRIKERS' RELIEF FUND

PITTSBURGH. Jan. 23-The city council of Clairton, south of here, site of the Clairton Works and Coke and By-Products Plant of Carnegie-Illinois Steep Corp., has voted to borrow \$50,000 if necessary to provide relief for some 3,000 steel strikers residing in the town.

The action was initiated by Mayor John J. Mullen, a staff member of the CIO. Mayor Mullen explained, "We felt we had an obligation to the people here. Unemployment compensation may be slow in coming through, and veterans will not be able to get any at all."

the same thing, perhaps the steel companies would change their position on this strike."

Striking Machinists March On Capitol In California

SPECIAL TO THE MILITANT

SAN FRANCISCO, Jan. 17 - Today 1,000 AFL Metal Trades workers invaded the State Capital. Sacramente. protesting the refusal of the State Unemployment Insurance Commission to pay them unemployment benefits. The action was sponsored by the .
