JUNE 17 — With only three days left before the veto deadline. Truman has not yet broken his silence on the most ruthless piece of anti-labor legislation this country has seen in decades. Even if Truman now decides to exercise the veto, his

prolonged silence condemns him as an enemy of the labor movement. A veto now would mean only that the head of the Democratic Party, with his eyes on the 1948 election, seeks to evade political responsibility for the Taft-Hartley bill. But he cannot evade this responsibility. By his deliberate, calculated silence, he encouraged the most brazen and arrogant foes of labor in Congress. He thereby in effect helped push it through Congress.

Even if Truman at this last moment issues a strongly-worded rejection of the measure, the Democratic Party stands condemned as bitterly opposed to the interests of labor. For on the final vote in Congress, a majority of Democrats in the House and Senate voted for the bill. Every worker must recognize

that both the Democratic Party and the Republican Party are political organizations of Wall Street. On every issue of fundamental and vital importance to labor they act in the interests of Wall Street.

Every worker must recognize the necessity of organizing on the political field. All important questions today are decided in the arena of politics. the Democrats and Republicans fused even to organize a nationdesigned to cut up the labor have continued to hold out the movement like a carcass on the delusive hope that something butcher's block. And the unions, might be salvaged out of the because they lacked a mass poli- Democratic Party. tical party of their own, were

Defy Anti-Labor Law A regular meeting of the Headquarters Branch of the Sailors Union of the Pacific in San Francisco unanimously adopted a resolution declaring they will refuse to recognize as law the Taft-Hartley Bill, if passed.

> The SUP members resolved "that we exercise our rights as free Americans and notify President Truman, the Senate, and the House of Congress, that regardless of enactment, we will refuse to recognize as law, the Hartley-Taft Bill or any other legislation that violates or suspends the rights granted to us by the Constitution of the United States of America."

Party? Unfortunately, no. They have followed the horse-andbuggy tactic of rewarding labor's "friends" and punishing labor's "enemies." In practice this has meant handing government power to labor's worst enemy - the capitalist class.

In the struggle against the Taft-Hartley bill, the labor bureaucrats gave aid and comfort to the capitalist class by spurning and sabotaging effective By their monopoly of politics, mass protest action. They rewere able to draw up legislation wide 24-hour protest strike. They

State Of American Economy

When the American Veterans Committee was launched. it promised to become a powerful contender for the allegiance of the ex-GI's against the established reactionary American Legion and Veter-

ans of Foreign Wars. Thousands of vets were attracted to this new organization because they thought it would be an effective fighting agency to protect and promote their welfare. But it must be frankly said that so far the AVC has failed to fulfill the high hopes it aroused. When its second national convention mets June 19 in Milwaukee, Wisconsin, the AVC will find itself in the grip of a crisis. The delegates will have to ask: what other organizations. are the causes for this crisis and how can it be overcome? For some time the AVC has

THE MILITANT

been in the throes of a fight between two factions for control of the organization. One group is centered around the majority of the National Planning Compeace. mittee: the other is dominated by the Stalinists. At bottom this contest within the AVC is a reflection of the much greater struggle for power going on between Washington and Moscow The differences between the two contending groups have devel-

oped and deepened in accord with the widening international rift. SERVES IMPERIALISTS The first group seeks to serve the interests of American imperialism. The Stalinists determine

their line by the shifting requireof the veterans. That requires ments of the Kremlin's foreign policies. Meanwhile, in the unabove all a definitive break with the Republican and Democratic principled maneuvers of these Parties which serve the interests two factions the real needs of the veterans have been lost sight of and ignored. of steady employment at a liv-Despite their jockeying for ing wage, of peace and security posts and minor disagreements, ferences in the main points of

two contending groups. The majority of the National Planning Committee — headed by Bolte, Franklin D. Roosevelt Jr., and others - are "liberal" Democrats and "progressive" Republicans. They have not waged and cannot wage a successful fight for the demands of the veterans because they remain firmly attached to these two parties which act as political instruments of Wall Street.

Because of their dependence pon the parties of Big Business, these AVC leaders fear to mobilize the veterans for militant action against an administration engaged in whittling down the veterans' conditions. Because they support Washington's for-

ganized labor. The keystone of eign policy, they cannot conduct this alliance should be the forindustrial output and factory un- output, he points out: "Here we war-mongers. They support the Party which can unite workers SATURDAY, JUNE 21, 1947

If this convention of the AVC should adopt such a policy of inopinion for war against the Sodependent action against the capitalist parties and their antiveterans' administration, it could become the rallying center for ization of their own.

Y. Negro Freedom Rally **Fraudulent Spectacle**

NEW YORK June 16 - The so-called "Negro Freedom Rally" held here tonight was a fraud and a flop. A practically empty Madison Square Garden saw one of the

emptiest spectacles in the name of a great cause ever held with-A few thousand people were treated to two hours of "hot trade, then the outlook is dark jazz" and then more than an drawal. And nobody repeated the

to assorted celebrities - threea prolonged boom in construc- fourths of whom didn't show up - from Frankie Sinatra to a winner of a bathing beauty contest.

Outside the Garden a picket line by the Universal African Nationalist Movement (Garvevites) denounced the meeting as "communist." A few days before the Daily Worker urged the meeting be boycotted because it was "anti-communist."

For opposite reasons, both the Nationalists and the Stalinists claimed credit for Representative Adam Clayton Powell's withdrawal from the speakers list. Powell had originally been featured as one of the leading sponsors of the rally. Harrison Jackson was introduced to the audience as Powell's personal attorney but he said nothing about Powell's absence and little about

anything else. Up to 11:30 p.m. not a single prominent Negro spokesman had appeared at the rostrum. Those who spoke made ineffectual pleas for a federal anti-lynch law. Most of the speaking program was hogged by the presen-

tation of the awards by the meeting's promoter, Neil Scott, who differed from the two Master of Ceremonies who preceded him only in lack of talent

considerations: a sound domestic ism" for the suppression of free millions of ex-service men who market, booming foreign trade, speech and expulsions within the have yet to choose an organ-Nothing was said about the that "If the well-being of Amer- in the walls of the huge arena. picket line outside. Nothing about the Stalinist boycott. Nothing about Powell's with-

hour of presentation of "awards" ringing excoriation of craven, cowardly but unnamed Negro leaders which appeared in full page ads announcing the rally in last week's metropolitan Negro press

The most tragic part of the meeting was the appearance of Mrs. Tessie Earle, mother of the young Negro who was lynched in South Carolina. But for the promoters, it was only an occasion for a collection speech.

"What happened to the cash?" read the headline on the Nationalist leaflet. What cash?

Germany - 1947 -– By Ernest Germain –

For two years the German people have known hunger, their living quarters because Not the sudden, stabbing hunger from going without food they feared being exposed to for several days, but the permanent hunger of those who contact with "a much lower type of people" who lived in the never get enough - eyes dull but burning feverishly, cheeks sunken, bellies slight-

ly swollen. Returning from their "dinner"-a slice of bread with a

thin smear of marmalade, followed by soup, which is water she still have her husband, beflavored with onion, bought with sides her room? the husband's entire weekly COLD IS THE WORST wages!---the women wait in line get their daily water "ration," ket. And they recount the ad-

ventures of their trip. Anna had left last Saturday, could steal from the trains that with her last pair of sheets, hoping to get 45 pounds of potatoes from a generous farmer. The farmer lived 30 miles away. She instead of the train there came ebbed away as their physical a gang of MPs who surrounded the building and started a huge dragnet: everyone of the wouldbe passengers had to show his searched. Meanwhile the train arrived and left. Another wait eaten nothing for a whole day, Anna left on Sunday, after 14 hours in the station.

AN OLD STORY

The neighbors didn't even shake their heads. An old story to them . .

Having filled her buckets, each of the housewives returns to her "house." This consists, in one case, of a damp cellar where sheets of ice had formed in a corner of the roof. Anna lives on the "first floor;" she enters the snow. There were—in Gerher room through a break in the partially collapsed wall. But she certainly doesn't complain, for she knows that she is "privileged:" she has a room all to herself, no matter if a room

Stab In The Back

The spontaneous strike of rank and file coal miners in Western Pennsylvania against the Taft-Hartley anti-labor bill was stabbed in the back June 12 by top bureaucrats of the United Mine Workers.

The strike began June 6 and rapidly mushroomed until more than 15,000 had downed tools. Leading slogan of the six day stoppage was the demand for a nation-wide 24-hour protest strike of all organized labor.

Sentiment among these miners against both Democrats and Republicans is bitter. The call for organization of an independent labor party is mounting in popularity.

The top officialdom of the UMW sought from the beginning to halt this action of the rank and file. By Thursday they had built up such pressure against the work stoppage that they succeeded in their criminal design. The 15,000 reluctantly went back to work.

Principal argument of the district leaders of the UMW was to "stop embarrassing the union" by a protest strike.

This deliberate sabotage of effective protest action against the deadly Taft-Hartley bill is only the most flagrant instance of the treacherous and cowardly role of the trade union bureaucracy in the struggle to defend labor's rights.

Millions of workers by every means at their command have indicated their desire to really put the heat on Congress and Truman. They have passed countless resolutions, signed innumerable petitions, mailed tons of postcards, staged protest meetings from coast to coast and paraded in the streets to indicate their bitterness over Wall Street's anti-labor drive. But the bureaucracy has confined itself to milk and toast denunciations of Taft and Hartley and quavering appeals not to put too sharp an edge on the legislative guillotine. Their refusal to organize energetic action such as a 24-hour protest strike has sabotaged the struggle and given aid and comfort to labor's worst enemies. The UMW officials who broke the protest strike have got things backward. It is not the rank and file miners who were embarrassing the union; it is the officialdom. In truth, the officials are not only embarrassing organized labor — they are seriously endangering its very existence by their spineless attitude toward Wall Street's political hatchetmen and their treacherous sabotage of militant protest.

in fulfilling such prohibitive conditions, it is a simple matter to rule them off the ballot on flimsy technicalities. This is precisely what happened to the Socialist Workers Party and other minority parties in last year's New York state-wide elections.

Nor is this all. There are several states in this country with a population close to the combined populations of Hungary, Rumania and Bulgaria, where the overwhelming majority of the people have no say whatever at the polls. These are the notorious Southern poll-tax states which year in and year out disfranchise millions of Negroes and poor whites.

With such credentials at home, Truman, Marshall and Co. can hardly qualify as "ideological opponents" of totalitarianism abroad.

Fight Rent Boosts

The billion-dollar real estate interests are licking their chops in anticipation of a general rent boost. Their well-heeled lobby, working hand in glove with such notorious political tools of the money-grubbing landlords as Senator Hawkes of New Jersey, has succeeded in high-balling a measure through Congress that will increase rents by 15% beginning July 1.

The bill provides for abandoning rent controls in at least 30 areas each month. In addition it will eliminate effective eviction controls, permitting a landlord to throw tenants out on the streets on 30 days' notice.

It is expected that final approval of the measure as agreed upon by the Senate-House conferees will be a routine matter. The real estate lobbyists likewise confidently predict that Truman will sign the bill.

Labor's battle against further increases in the cost of living has thus received a serious setback at the hands of the Wall Street politicians who enjoy monopoly control of Congress.

But passage of the law, while giving the real estate trust a heavy club to swing against tenants, does not mean that labor has completely lost the fight. The struggle now shifts to a different arena.

Wherever the unions and tenants are able to organize effectively they can prevent mass evictions and new stiff increases in rent. During the depression of the Thirties, for instance, the landlords in many areas found it impossible to oust tenants unable to meet the rent bill because the entire neighborhood rallied to put the furniture back in the apartment as fast as the sheriff hauled it out. Moreover, the sheriff found himself seriously hampered by the great crowds that assembled in protest against the action of the landlord.

In addition, a well-organized rent strike backed by the power of organized labor often succeeded in convincing a flint-hearted landlord that neither a rent boost nor evictions were advisable.

These experiences of the working people during the depression can now prove invaluable in the struggle to contain the new offensive of the real estate interests.

What is required is prompt recognition of the urgency of the situation and prompt initiation of measures specifically designed to meet it. The unions should place this question on their agenda at once.

Sliding Scale Of Hours Will Prevent Layoffs

-By John G. Wright-

Whenever the country's economic condition begins to deteriorate, the capitalists invariably proceed - as they are begining to do now - to cut what they call "operating costs." Under this heading, they mean in the first instance slashes in the labor force.

The fact that up till now both production and employment have been maintained at record levels tends to obscure the threat of unemployment. These record levels are not a guarantee against the spread of unemployment. On the contrary, at these levels, even relatively small declines in production can and will immediately affect the employment of millions of workers.

The system of "free enterprise" produces unemployment as naturally as the liver secretes the bile. Under the existing conditions, this organic tendency to throw men out into the streets and to cut down production is greatly reinforced by an unparalleled peacetime accumulation of goods. Speculation on high prices has acted as a spur to production. The warehouses of manufacturers, wholesalers and retailers are already bulging with inventories of close to 40 billion dollars. This same speculation on high prices is now turning into its opposite - a drag on production.

The output of many branches of light industry manufacturing non-durable consumer goods is already being curtailed primarily for the purpose of enabling the capitalists to continue to unload these accumulated high-priced inventories. This practice will become more and more widespread in the next period.

An army of 8-10 million unemployed would still signify "prosperity" to the profiteers; their profits will continue to roll in, even though they dispose of their high-priced goods at a smaller volume.

Can this threatening spread of unemployment be averted? The capitalist press is already beginning. to speak of it as a necessary phase of the "adjustment," which will be temporary and "soft" in character. The swelling of the ranks of unemployed, which is in process right now, signifies nothing less than a calamity to millions of workers and their families.

The capitalists cannot and will not stop the spread of unemployment. But that does not at all mean that nothing can be done about it. The answer to this question depends entirely upon what course the organized labor movement chooses to pursue. It can cut the process short at its initial stages by consciously intervening, by bringing into play the full power of its vast organized strength.

But let there be no illusions: half-way measures cannot prove effective here. In the fight against unemployment, the trade unions cannot rest satisfied with a policy that stops short of the goal - NO LAYOFFS!

As against the employers' deliberate policy of spreading unemployment, the unions must promote the equally deliberate policy of spreading employment. Every attempt of the corporations to reduce the number of workers in a given plant or industry must be countered by a determined struggle to maintain employment through a reduction of the number of working hours a week, without any reduction in weekly pay.

The sliding scale of hours is the most effective single measure in the struggle against rising unemployment. There can be no question as to the response with which it will meet among the ranks. Noteworthy in this connection is the action taken by the CIO United Packing House Workers who at their recent annual convention adopted the demand

'Democrats' At Home

Washington permits no occasion to slip nowadays without loudly proclaiming its determination to champion the cause of "democracy." Apparently the cause of democracy is so indivisible that violations of it anywhere endanger its survival everywhere. According to these "democratic" tub-thumpers, the most dangerous spot of all to-day is Eastern Europe, all the countries under the political domination of the Kremlin.

Thus President Truman utilized the occasion of his signing the peace treaties with Italy, Hungary, Rumania and Bulgaria to express "public regret" over the undemocratic procedures and practices prevailing in Hungary, Rumania and Bulgaria.

If Truman and his colleagues are really concerned with calling public attention to violations of democracy, there is scarcely any need for them to go so far afield; crass examples abound much closer home.

In recent years one state legislature after another has passed restrictive laws which make a mockery of elections, because they virtually bar minority parties from getting on the ballot. Today, there remain only six states -South Carolina, Georgia, Arkansas, New Mexico and Kansas-which do not prescribe "minimum conditions" for getting on the ballot. The remaining 42 states have restrictive provisons of one sort or another. To mention only a few: Ohio demands nominating petitions of 15% of the previous gubernatorial vote. California requires 5% of a previous state-wide election vote, or more than 150,000 signatures. The state of Illinois requires petitions signed by 25,000 voters, with no less than 200 signatures coming from each of the 50 counties. In New York a similar provision calls for 12,000 signatures, with a minimum of 50 from each county in the state.

In cases where minority parties do succeed

Veteran Graduates

Pre-war college graduates were mainly middle-class youth, given a few years' exposure to what is called "culture" and "higher learning" and a chance to sow "wild oats" at the expense of benevolent and well-heeled papas. Many of them stepped without pause into the family business or rose in the better-paying professions through family connections and influence.

College graduating classes this month will have a different and unique complexion. They will include a high percentage of veterans. men seasoned and matured by the grim experiences of military life and war, who know that the world outside the campus cloisters is no bowl of cherries.

What is of equal significance is that many of these graduating veterans come from working class and lower-middle class homes. They went through college with their belts pulled in, on the slim bounty of the government. They were earnest and hard-working in their efforts to improve their knowledge and by that means to improve their lot and opportunities in a society whose ruthlessness they knew in peacetime depression as in war.

Some of them realize it now, and most of them will find out soon enough, that machinebelt college degrees are no longer an open sesame to opportunity. The boy with the good connections and well-fixed old man will still climb fast. But in the looming future of another capitalist depression, many of this year's graduating veterans are going to be tossed into the bitter struggle for jobs, the pride-destroying existence of unemployment relief and the endless battle to make low wages stretch. Some may finally wind up in uniform once more when the draft reaches out for the massed recruits of a new world war.

Their college degrees will then be only a double twist of the screw. They have come disillusioned out of one depression and war to be given a glimpse of hope and extra opportunity through education. They will be all the more cruelly dashed down once more. Bitter and stripped of all illusion they will make iron fighters for a better world.

If the labor movement does its part, if it shows to these veterans a program of genuine opportunity in a society without class distinction and favoritism, in a socialist world of planned security and plenty, they will join the shock troops of the aroused and advancing working class. Their knowledge and skills, gained in the experiences of war as well as in the college classrooms, will be a great reservoir from which labor can draw reserves of leadership and power in the emancipating struggle against capitalism.

You see the workers, ill fed, gave nationalistic arguments

Washington's Reasons For Embracing Peron

The Truman administration and the Peron dictatorship have kissed and made up. Following a conference of Truman, Secretary of State Marshall, and the Argentine ambassador, the White House announced the calling of a hemisphere arms conference, with Argentina participating.

This turnabout of U.S. imperialism on Argentina is the most important development of the Truman Doctrine in South America. It ends the period of diplomatic hostility to dictator Peron, who will now receive large quantities of U.S. munitions.

The relations between U.S. imperialism and the ruling class of Argentina were embittered by the war. While remaining neutral, the Argentine government showed unmistakable favor towards the Axis. The Argentine industrialists and great landowners especially admired the governing techniques of Hitler and Mussolini, which they found worthy of emulation in Argentina.

U. S. imperialists have never been particularly upset by dictatorial regimes in South America. On the contrary, they have sponsored and supported bloodier regimes than Peron's. The great point of conflict with Washington was Argentine friendliness to the rival imperialisms of Germany and Italy.

After the war, Washington refused to make up with Peron and demanded his replacement by a pro-Wall Street regime. Spruille Braden, U. S. Assistant Secretary of State in charge of Latin American affairs, followed a "tough" policy towards Argentina.

The immediate cause of Truman's shift is the war preparation against the Soviet Union. Marshall will now be able to confront Molotov with the threat of a miltarily united Western Hemisphere, the whole of it equipped with U.S. arms and supervised by the U.S. general staff. Washington also hopes that with U.S. arms the Peron regime will play an important role in supressing the masses of Latin America.

The cost of the "arms standardization" plan, which will make all armies in this hemisphere dependent on Wall Street's factories, is calculated at \$100,000,000 over a ten year period. Now that Argentina is included in the program the cost will undoubtedly be greater. Two additional proofs that the Peron dictatorship has not changed its stripes are in the news. One is the continuing welcome to Mussolini's son by local authorities who made young Mussolini's tour through Argentina a triumphal procession.

Peron's wife is also making a triumphal tour of Dictator Franco's Spain. When Senora Peron arrived in Madrid she was met by Franco and a galaxy of 5,000 offiicals and social leaders of the fascist regime. With this escort she went from the airport to Franco's palace where she will be the guest of her husband's admirer.

The Workers' Forum columns are open to the opinions of the readers of "The Militant". Letters welcome on any subject of interest to the workers. Keep them short and include your name and address. Indicate if you do not want your name printed.

New Zealander Tells How He Became A "Militant" Reader Editor:

In 1937 two youths just over one a B.S.C.-left these shores to see the world and augment their academic with practical education by experience. They reached England, both having started the voyage as greasers in the engine room.

They bought a vehicle and traversed England, Scotland, Ireland and France, then in 1939 to USA and New York where they went "broke." I quote from a letter from my son, telling how they came into contact with The Militant: "We stayed at Seamen's Mis-

sion waiting for a ship. Whiling away a Sunday afternoon on a seat in Battery Park, a youth approached with handbills; and later we arrived at a hall and general outlook. I never saw such gent young people discuss serious questions and great problems. We made ourselves heard, known and felt."

I don't know whether they tempt should be made to orn a reader of The Militant tions. nd Fourth International.

They went back to England, nearly 70 - almost blind. Alwere transferred to Bombing of the wageworkers. Squads and took part in the slaughter and devastation of Europe. After being over every part in Europe, Owen Bernard, my son, came in over the drome, completing his last flight before taking land work. But, well, he just got it, coming down-and he never returned.

His companion got back here and is a problem-he appears as revolutionary as ever and says they were forced into the forces and chose RAF.

Diary of a Steel Worker ----

Springtime Comes To Ames St. - By Theodore Kovalesky -

A wonderful thing has happened on Ames St. Every year it happens, and for a while everything is different and wonderful; then you get used to it and forget about

it for another year. changed.

Springtime has come to Ames St., and everything is On Ames St. the houses are covered with warped clapboard or with tar composition material, colored to

look like brick. And over the blistered paint and the imitation red or yellow brick is a red-brown coating of flue dust from the blast furnaces a little way over in the direction of the lake. Little dry pools of red-brown dust gather in the gutters of the streets and the hollows of the broken sidewalks. and when the spring wind blows, tiny twisting whirlwinds of dust go dancing down the street and then vanish, spreading the flue dust some place else on Ames St.

Over in the steel plant where the Ames St. people work it is hot as the bottomless pit of hell. Day or night, whichever shift they happen to be working on, the Ames St. men curse wearily, in the new heat of summer, in the blast furnaces, in the open hearths and mills. In the locker rooms the air is fetid with the clinging, sharp stink of clothing clotted with the filth of the job and the sweat poured from tired, overheated bodies. It will be much hotter during the summer months, but they will suffer less than they do now in the first warmth of the new season

But it's different on Ames St. When a man's on Ames St. he's not inside the steel mill. Maybe he's tired after work, but at least he's not working in the plant any more that day. And here the trees are new again.

The trees on Ames St. are greener and shadier and more wonderful than any other place in the whole world. You might not notice it, but they are. The Ames St. people know it even if they don't brag about it or write letters to the editor of their local newspaper.

The trees make a difference, one hell of a difference in Ames St. Who cares if the brick houses there turn out to be only cheap imitations when you look at them? Who cares if the sidewalks are humped and cracked and broken, if the streets are strewn with new bumps and craters after every winter? And if the flue dust keeps drifting and sifting over Ames St. from the blast furnaces near the lake, who cares about that? Who cares about all that when the trees have come to life again after the desolate winter?

1.0

The trees on Ames St. are more beautiful than trees anywhere else in the world, because without them Ames St. is one of the ugliest places on earth; but with them, it is almost pretty, a homelike place, a quiet place, except when the blast furnaces roar and the narrow gauge engines scream over in the steel plant.

In the springtime the kids race through Ames St. on their way to a baseball game in the field across from the steel mill. At dawn on their days off some of the Ames St. men crawl sleepily into their jalopies with their jars of worms, their fishing tackle, their lunches and bottles of coffee and drive zig-zagging down the street to avoid the holes and craters the city government never gets around to having fixed. And in the evening they come zig-zagging back with fish for all their neighbors and a sunburn that is their own terribly personal property. In the evenings and on their days off the men of Ames St. put aside their denim pants and dull covert shirts and wear red, green, or blue sport shirts that brighten up the street along with the trees and lilac bushes and the little yellowblossomed bushes that sit in front of some of the houses.

It's funny. Life's pretty tough on Ames St. There's not much money, not much security, not much of anything people want and need. But in the springtime the Ames St. people feel the goodness of life. Each spring, for a little while, the people on Ames St, live almost as people should live, almost like the comfortable people who have nice houses at the other end of town.

PAGE SIX NEW YORK, N. Y. SATURDAY, JUNE 21, 1947 **Crushing Tax Burden Remains On Workers**

THE MILITANT

CIO Rally Against Slave-Labor Bill

The "tax cut" bill so carefully drafted by Congress has been vetoed by President Truman, whose Democratic party whips rallied enough votes to sustain the veto in the House by a narrow margin.

In this bill Congress tried to tions and the profit-bloated make another raid on the public plutocrats.

in Congress introduced a new FEPC bill "with very minor penalties" last March, I pointed out

The Negro Struggle -

vengeance. It is a vivid example of liberal capitalist trickery. These Republican and Democratic politicians are not really interested in sponsoring progressive legislation. When they do sponsor it, they do so only because of mass pressure and in order to win votes: at the same time, they

in this paper: "The Ives bill

really waters down the fight for

an effective FEPC bill with a

weaken it almost beyond recognition in an effort to appease the worst reactionaries." Every word in that moderate statement was confirmed last week in Washington when a Sen-

ate Labor Subcommittee opened public hearings on the Ives bill for a "National Act Against Discrimination in Employment." First crack out of the box, Republican Senator H. Alexander Smith of New Jersey, who is one of the co-sponsors of the bill, came up with a little amendment.

He suggested changing the bill so that state legislatures can strike out its few compulsory provisions, so far as their own states are concerned!

This would enable every Southern state, where Jim Crow employment practices are the worst, to completely ignore this co-called "national act."

When Senator Ives and some of his colleagues It would obviously be better to have no FEPC bill at all, than to have a mockery like that.

Democratic Senator Allen J. Ellender of Louisiana, one of the most prominent enemies of the Negro people in Washington, purred like a cat after a big fish dinner. Although he had come to fight against any kind of FEPC legislation, he commended Smith for his proposal. Things are getting better all the time," he declared.

A. Philip Randolph, co-chairman of the National Council for a Permanent Fair Employment Practices Commission, strongly denounced Smith's proposal. But Ives and Chavez, the two chief sponsors of the bill, stated that it warranted further exploration, which is another name for favorable consideration.

Are you surprised to see the FEPC movement knifed by these men who are supposed to be fighting for it? If you are, then you still have a lot to learn about capitalist politicians. It means you still haven't learned that the difference between a reactionary capitalist politician and a liberal capitalist politician is that the reactionary uses harsh language and stabs you in the heart, while the liberal uses soft words and stabs you in the back.

Relying on either reactionary or liberal Republicans or Democrats is as foolish as building a home on quicksand. We need an independent labor party now more than ever.

acted.'

120,000 CIO members in New York, marching 16 abreast, paraded four and a half hours before gathering at Madison Square Garden to protest the Taft-Hartley anti-labor bill. About half a million New Yorkers lined the streets to watch one of the biggest labor demonstrations in the city's history. Federated Pictures

Tax Bill Seeks To Smother Political Action By Labor

fied in the law.

Health For The Workers By Grace Carlson-

Throughout the ages, human beings have longed for good health. For countless generations they have asked each other the same

or as it is said in the United States today, "How do you do?" And how does one pay a special tribute to an honored guest? By "drinking his health!" There is no doubt but that

all peoples prize good health and spend considerable amounts of time, energy and money to achieve it. But for the vast

majority of working people, good health remains an unattainable goal. Benjamin Franklin tried to tell us that:

"Early to bed and early to rise,

Makes a man healthy, wealthy and wise."

The facts are, however, that workers, who are "early to bed" because they are so very "early to rise" are not "healthy" or "wealthy"-and they are not as "wise" as they'll be some day! Is there any one who doubts the close re-

lationship between poverty and disease? Listen to the words of the experts of the U.S. Public Health Service, who reported the results of a national health survey in a pamphlet on Health Security issued in 1939:

"Sickness comes oftener and lasts longer and death comes earlier to the homes of the poor than of the well-to-do. It is a plain fact-and a shocking fact-that the chance for health and even survival is far less among low-income groups than among those who are in moder-

ate or comfortable circumstances. A comprehensive study made several years ago of deaths among boys and men of working age showed that the general death rate among unskilled workers was nearly twice that of professional men or proprietors, managers and officials. Among the poor in our large cities, death rates are as high today as were those of the nation 50 years ago before the beginning of the spectacular advance of public health and medical science."

Low-income families, which cannot afford enough nourishing food, warm clothing or decent homes, cannot withstand the onslaught of disease as can families in the upper-income brackets. Moreover, these low-income families cannot afford the medical care necssary to handle the greater load of sickness which they bear. Despite the relatively large number of tax-supported medical institutions in the United States, the poorly-paid workers still spend a larger percentage of their incomes for medical care than do those with high incomes. For example, the Bureau of Labor Statistics shows that in 1941, families which received less than \$500 per year spent 8.3% of their incomes for medical care, whereas families receiving from \$5000 to \$10,000 spent only 3.8% for medical

care. In subsequent articles, a variety of health programs for workers-employer-sponsored plans. union-operated health centers, cooperative health insurance plans, private health insurance programs, federal, state and city health bills will be examined.

Notes From The News

Drew Pearson reveals that General Spaatz, called for the deportation of Chaplin. head of the air forces, told a group of 15 Senators that instead of a possible war with the Soviet

Union in 10 to 15 years, war could be expected within one to two years.

Dean Acheson, retiring Under Secretary of State, says that Europe is heading for an econ-

omic crisis next year that will shake the world. * *

C. Melvin Sharpe, official of America's Cavaloade of Freedom, is against John Paul Jones being considered a great American hero. Sharpe save his reason to the Washington Board of Trade: after the first American Revolution Joneswent to Russia where he became an admiral.

Charlie Chaplin's anti-war film Monsieur Verdoux has been banned in Memphis, Tennessee. In Washington Representative John Rankin

Col. Robert McCormick, publisher of the Chicago Tribune, was lauded for his "protection of tolerance in this land of the free" by speakers at his paper's 100th Anniversary banquet. Thirty Negro guests had left the hall in protest against the Jim Crow seating arrangements.

* * *

* * * The National Lawyers Guild has condemned Truman's "loyalty order" for government workers as a violation of the fundamental right of Americans to advocate social change.

* *)

The Communist (Stalinist) Party held a meet. ing in San Pedro, California "to expose Trotskyism." Thousands of leaflets advertising the meeting were distributed. Fifteen people, including three Trotskyists observers, attended the "mass meeting."

Labor, published by the railway unions, were to state that Senator Taft "was not friendly to labor," would that be against the Taft-Hartley bill?

"It would be a violation of the aw, yes," responded Taft. He insisted that this would not be a "denial of the freedom of the press," contending that publications of corporations face a similar prohibition.

AIMED AGAINST UNIONS

However, this provision is aimed squarely at the unions. Most union newspapers, lacking the subsidy derived from advertising, are supported by contributions from the union membership, who in turn get the union newspaper without being listed as individual subscribers.

ing," as Taft explained, and consequently would be free under the law to express any political opinion they care to. Pepper asked if Labor, as a typical union paper, could "publish a special edition" in the area where a candidate was running for office.
