BATTLE BEGINS AGAINST SLAVE LAW Labor Must Build Own Party To 132,000 In Shipyards Union Ranks Want Militant Struggle And Open Defiance

STATEMENT OF NATIONAL COMMITTEE **OF THE SOCIALIST WORKERS PARTY**

Few laws have ever been passed in America more hated and unpopular than the Taft-Hartley Slave Labor Act.

It was bitterly opposed by the 15,000,000 organized workers who, with their families and allies, constitute the overwhelming majority of the country's population. It evoked the greatest flood of protest letters and telegrams in the history of Congress. The most widely assorted groups, including the generally conservative spokesmen of religious bodies, Protestant, Catholic and Jewish, denounced it as inimical to the welfare of America. Virtually all Negro organizations opposed it. A number of veterans' groups went on record against it. Its passage was protested even by sections of the business world. This opposition was the real will of the people, which Congress contemptuously flouted.

The Slave Labor Law is in the tradition of the edicts enacted against labor's economic and political organizations by the fascist regimes in Italy and Germany. It sets the clock back 100 years in the legal status of American organized labor. At one blow it wipes out legal rights won in a century of bitter struggle.

In its restrictions on the right of free speech and free press and the right of union members to engage in political activities, the Taft-Hartley Act violates the Bill of Rights in the United States Constitution in a way not equaled since the notorious and short-lived "Alien and Sedition Act" of 1798. It bans thoughts about communism dangerous to Wall Street's rule, in the same way that the Japanese military dictatorship banned "dangerous thoughts."

The full implications of this Slave Labor Law are not yet fully revealed. Its sponsors and authors themselves do not dare to enforce all its provisions at one stroke. But the poisoned barbs are there, ready for use against organized labor.

Designed to Crush the Unions

In essence, the new law mobilizes the federal admin-In essence, the new law mobilizes the federal admin-istration, the courts and the new federal labor czar in Wall Street's drive to illegalize strikes and break them by in-junction. It provides the bosses with innumerable devices to undermine unions, intimidate and victimize their members and leaders. It opens the way for the complete destruction of union security and a return to the open shop. Do not think that this oppressive and tyrannical law was the product of some temporary emotional frenzy in Congress, as some union leaders indicate. It was drafted and passed by the most calculating and cold-hearted class that ever existed—the Big Business tycoons who insist on ruling the country without restraint and smashing any restrictions on their exploitation of America and the entire world. The Taft-Hartley Act is the first big pay-off on the eral rent control, Truman on evictions within 30 days in most area, approve blanket rent ingilt-edged promises made by the imperialist war propagandists. They promised "Four Freedoms" and assured sponsored bill against the in the Atlantic Charter "improved labor standards, economic advancement and social security." The workers were promised again and again and again that once the war was over, a new and glorious day would dawn for the common people. But for labor V-J Day dawned with stormy skies. American Big Business launched its all-out assault on the permits "voluntary" 15% rent affect veterans, newly-weds. unions and the Democratic administration spearheaded the drive. Within two years, this savage offensive culminated in passage of the Slave Labor Law. Does this law mark the end of the anti-labor drive? Are the capitalists now satisfied? No. Having tasted blood, their appetite has only been whetted. They view Miners Hurl First Challenge passage of this act as just a beach-head in Operation Anti-Labor, as just an advance base from which they can thrust toward their ultimate objective-the outright destruction of the labor movement. The Taft-Hartley Act is the domestic section of Wall Street's plans for world conquest as formulated in the warmongering Truman Doctrine. It is the application of this the venomous Taft - Hartley D doctrine to the American people themselves. In order to Slave Labor Act. oppress people all over the world, Wall Street must have a submissive working class at home.

The Way To Do It

AFT-HARTLE

Akron Labor Urges Nation-Wide Strike

AKRON, O., June 26-The Greater Akron Area Council of Labor Unions, a joint body of the CIO, AFL and independent unions in this area, today urged the national union leaders to call a nationwide general strike in defense of labor's civil liberties "should the Taft-Hartley Law, a presidential decree, or a new strikebreaking law be invoked against the Mine and Shipyard workers."

The Area Council, representing 185,000 organized workers, also advocated a National Conference of Labor of all international and local unions bodies "for the purpose of consideration and action on the problem of defending labor's rights," to be held not later than July 31, 1947.

CIO and AFL leaders into national joint action. They initiated local joint actions in scores of communities. They poured out by the hundreds of thousands in protest demonstrations. They flooded Washington with letters, telegrams and petitions. They demanded a 24-hour nationwide protest strike. Against the opposition of the top AFL and CIO leaders they tried to organize a national labor caravan to Washington. The coal miners downed tools in Western Pennsylvania.

The overwhelming demand of the ranks was for united mass action. This sentiment reached its climax the very day the act was passed, in a mighty spontaneous strike that swept through the coal fields.

Why They Got Away with It

PAGE 2

In the face of the workers' determination to resist Wall Street's attack, Congress nevertheless steamrollered through the savage Taft-Hartley Act. How did these political representatives of the rapacious rich, this handful of political hatchetmen, dare to strike such a blow against 15,000,000 organized workers, their families and allies? What made them so sure they could get away with it?

They consider themselves immune from public wrath and reprisal for two reasons: 1) Wall Street has a monopoly of politics; 2) The labor bureaucrats oppose mass action and independent labor politics.

Big Business wields the government as a powerful weapon against labor. Wall Street's legislators pass the laws. Its courts decide their constitutionality. Its administrators enforce them.

Wall Street's political monopoly is maintained through the two major parties, the Republicans and Democrats, controlled lock, stock and barrel by the ruling corporate interests.

The campaign promises made to the workers by these political Siamese twins are nothing but lies designed to tions in accordance with their own selfish interests. They catch votes. In office an occasional liberal gesture is designed for the same vote-getting purposes.

Truman's conduct on anti-labor legislation affords a striking example of how a Wall Street political chieftain operates. He took the lead in the labor-hating drive of 1946. He threatened the miners and seamen with military force. He smashed the railroad strike. He called a special joint session of Congress to demand shot-gun passage of a law to draft strikers and force them back on the job at the point of a bayonet. He initiated the injunction action against the miners and solicited the Supreme Court to uphold the injunction and to plunder the miners' treasury with a gigantic fine. At the opening of the 80th Congress, he called for legal restrictions on the unions. He signed the bill that outlawed portal-to-portal pay and swindled American workers out of billions of dollars in back wages.

The Republicans and Democrats in Congress took their cue from Truman. As they vied with each other in cooking up the harshest anti-labor laws, Trumanlooking ahead to the 1948 elections-changed his tactics. He hoped to evade political responsibility for the oppressive law. He became silent, uttering no protest as the Taft-Hartley Act was slicked through Congress.

Then, at the last hour, Truman made his grandstand play for labor support by a belated veto. This was the selling-point he provided the top labor bureaucrats in their efforts to peddle the Democratic Party in 1948.

As for the Democrats in Congress, who have long painted themselves as "friends" of labor, they gave a decisive majority to the Slave Labor Law-voting 106 to 71 in the House and 20 to 22 in the Senate.

Labor Leaders Tied to Capitalism

deception and betrayal of the workers is the so-called politics. Communist Party-the Stalinists. During the war, the Stalinists were the most servile supporters of the Democratic administration, the leading advocates of the nostrike pledge, notorious finks and strikebreakers, shameless supporters of Roosevelt's demand for universal labor conscription.

In November 1946 they attempted to whitewash Democratic reaction and called on the workers to back the

party of Bilbo, Rankin, Boss Hague, Boss Kelly and Tammany Hall. They urged the workers to vote for Democratic candidates who were openly spewing anti-labor. red-baiting, war-mongering poison. Today they continue as loyal supporters of the Murray bureaucracy and apolo-

gists for their cowardly policies. The union bureaucrats are doing their utmost to beat down the swelling demand of the ranks for the formation of a labor party One of the first things CIO Presi- bor Party. dent Philip Murray assured the capitalists after the enactment of the Slave Labor Law was that the CIO officialdom had no intention of supporting any third party movement. As for the AFL chiefs, they continued their old sing-song of "reward your friends and punish your enemies"-when the Republicans smash you over the head,

offer your back to the Democratic knife, and vice versa. These bureaucrats either do not understand or deliberately shut their eyes to what is really at stake in the present crucial struggle between the capitalist class and the working class.

The immediate issue is the distribution of the national income. Who will get the benefits of the wealth produced by American labor? What will be the share of the workers in the national income and who will determine it? Who shall control the country's rich resources and receive the wealth produced by the toil and sweat of the working people?

The billionaire monopolists have answered these quesmean to continue, at any cost, their control of the national economy and to exploit its resources and labor power for their own exclusive benefit.

The basic issue confronting American labor, in its full implications, is: Who shall govern the land? What class shall govern this country? What shall be the fate of mankind?

Total War Against Labor

There is no misunderstanding among the top circles of the capitalist class about the real issues. That is why they fight as a class, with every weapon at their command, mercilessly and without compromise. The Taft-Hartley Act is a declaration of total war against labor. In this total war, their chief weapon is their political monopoly, their state apparatus, their government, their two-party system.

That is why they resist with such ferocity any attempt of the workers to break away from the two-party system and start down the road to independent political action through a labor party.

Slave Labor Law on political action. This makes it a criminal offense for a union to engage in a political campaign. It prohibits union publications from soⁱmuch as publishing the political record of the very legislators who pushed through the union-busting Slave Labor Law.

Will American labor, this mighty giant, meekly submit to the Slave Labor Law?

Such a cowardly capitulation is belied by the whole tradition of struggle of the American workers. It is belied by the age-long struggle of humanity for progress and capitalism, are looking for political leadership and a proagainst oppression. It is belied by the entire record of gram. They want a way out of poverty, depressions, race revolutionary resistance to vicious laws imposed by brutal hatred, wars and fascism. But in spite of Wall Street's political monopoly, even ruling minority classes. American history itself is filled

Our Program:

1. Defend labor's standard of living!

- A sliding scale of wages -an escalator wage clause in all union contracts to provide automatic wage increases to meet the rising cost of living!
- Organize mass consumers committees for independent action against profiteering and price-gouging!

Expropriate the food trusts! Operate them under workers control!

- 2. Full employment and job security for all workers and veterans!
- For the 6-hour day, 30-hour week! A sliding scale of hours

the most calloused capitalist political gangsters would have with such glorious struggles. hesitated to pass such a sweeping anti-labor law if they had not received objective aid from the cowardly and The Tradition of American Struggle treacherous top union bureaucrats.

These "labor statesmen" - Murray, Green, Lewis, Reuther, Tobin, Dubinsky, and so on down the list-did little more than call names while the Taft-Hartley Act impended. They really put their hearts only into the job of discouraging and squelching effective mass action. They believed it possible to sweep back the reactionary tide with a paper broom of telegrams and petitions.

Finally, these cringing union bureaucrats did their best to behead any movement for independent labor political action through organization of a labor party. They grasped at any pretext to oppose a clean-cut break of the labor movement from the two-party system of Wall Street. Not all the violated campaign promises, not all of Truman's strikebreaking, not even the revolt of the voters in November 1946 against Democratic misrule and corruption could swerve the allegiance of these union leaders to the capitalist politicians.

Political Deception and Betrayal

Why do these labor leaders continue to support Wall Street's political parties? They are bound to the capitalist system and its way of life by their whole tradition and training. They are tied by a thousand threads to the cient resourcefulness, militancy and solidarity to countercapitalist government and the political parties of Wall act the anti-labor designs of the Smith-Connally anti-Street. A few union officials, like Lewis, stand under the strike law and to preserve their union organizations. We Republican wing of the Wall Street vulture. Most of them can be sure that they will now display the same qualities flock under the Democratic wing. They know no other in even greater measure to prevent the atomization of political game but that of back-room deals, petty intrigues, their unions and preserve the integrity and fighting capacand button-holing labor's political enemies for small per- ities of their organizations. sonal favors.

All the capitalist politicans and the kept press are advising labor, "Now that this is the law of the land, you consistently and uncompromisingly against the American ought to be good sports and knuckle under." They are monopolists. It is the party that has fought year in and trying to impose on labor's credulity, as if it were a parlor year out for the political independence of the working game where sportsmanship demands a "good loser," and class. It is the party that has called from the first for not a crucial issue affecting the welfare and rights of united mass action to defeat the anti-labor drive. It is the American people.

This nation was founded in revolutionary struggle against tyrannical decrees. When the Sons of Liberty ment of a Workers' and Farmers' Government. dumped British tea in Boston Harbor in defiance of the hated Stamp Act and the Minute Men at Lexington fired the shot heard round the world, they set an example for and security owe it to themselves and their cause to join lovers of freedom in handling such despotic "laws of the the Socialist Workers Party. land." The heroic Abolitionists who defied the Fugitive Slave Act and aided thousands of Negro slaves to escape to freedom, likewise set an example for the American duty and historic destiny as the leader of all the oppressed workers of today in opposing such decrees as the 1947 Slave Labor Law.

In the heroic tradition of the Sons of Liberty and the Abolitionists, labor today will fight against the Taft-Hartley Act without compromise, with every weapon at its command, on every front.

During the war the union workers displayed suffi-

Labor will fight on the picket lines, fight in the courts

Those who assume the initiative in the struggle for the political emancipation of the American workers must unite with all like-minded people in labor's ranks.

They will find such people in the ranks of the Socialist Workers Party. This is the only party that has fought the party in the forefront of the struggle for the abolition of monopoly capitalist rule and for the establish-

ership in the great emancipating struggle for peace, plenty

Only the working class can provide that leadership and program. It is for organized labor to recognize its and rally them to its political banner.

All who earnestly want to prepare themselves for lead-

through Congress, (left to right) Senators Irving M. Ives, (New York), Robert A. Taft (Ohio), and Joseph H. Ball, (Minnesota), congratulate each other. These three were leaders in the campaign to wreck labor's rights, crush the unions, lower living standards and to destroy labor's political action activities.

By V. Karalasingham COLOMBO, Ceylon, June 19—In Madras at any rate Although the bond was duly exthe Congress Party has stripped itself of all democratic trappings. It stands nakedly before the masses club in diately under the Public Safety. hand, as a strike-breaking

and union-smashing agency of the Indian bourgeoisie. While in the rest of India it seeks to play such a role by promoting company unions, in Madras itself it has taken the first decisive steps in this diection.

It is not an accident that the first blows of the bourgeois counter-attack should be directed against the Trotskvist-led Madras Labor Union. The bourgeoisie is fully aware that the Trotskyists alone have a rounded program in the trade union field and are the most uncompromising defenders of working class interests. Hence the particularly vicious nature of the **Congress Party campaign against** the Bolshevik-Leninists in Mad-

"If the rulers of the Kremlin want to complain that through my writing . am aiding a future victory of the Soviet people over their reactionary bureaucracy, then I can reply, yes, I am guilty of that."

Leon Trotsky

There was one thing they all agreed on in Washington - both the majority of Republicans and Democrats who voted for the Taft-Hartley Act, and the small minority of Republicans and Democrats who voted against it. And that was to keep the labor movement from engaging in independent political action.

The supporters of the Taft-Hartley Act showed where they stood on this question by prohibiting unions from making contributions or expenditures in political campaigns. They made it illegal for unions to even inform their members through union publications about the records of the politicians in Congress.

Truman echoed labor's objections to these provisions in the bill. Yet in his veto message Truman showed that he too is afraid of independent labor political action:

By raising barriers between labor and man-agement and by injecting political considerations into normal economic decisions, it (the bill) would invite them to gain their ends through direct political action," he declared. "I think it would be exceedingly dangerous to our country to develop a class basis for political action.'

Taft and Co. want to stop independent labor political action by a law. Truman and Co. think such a law will defeat its very purpose; they propose to head off independent labor political action by posing as "friends" of labor and covering up the fact that capitalist parties are and can be nothing but servants of Big Business.

The Taft-Hartley Act itself served to explode that lie. Based on the needs and interests of the capitalist class and supported by a majority of both capitalist parties, it proved that

It has not helped in the cause of world peace by one iota. Like the old League of Nations it is nothing but a sounding board for the powers preparing a new world slaughter. No, the UN is not the hope of the world for

lasting peace. It is nothing but a false front designed to delude the masses.

Only by ending the rule of the capitalists and uniting industry in a planned and rational economic order can enduring peace and abundance for all be achieved. Not the treacherous mirage of the United Nations but the goal of a socialist world — the only hope of mankind.

The Witch Hunt

After the U.S. entered the war, Roosevelt did not persecute the Communist (Stalinist) Party. Following Kremlin orders, the Stalinists here were the most loud-mouthed peddlers of the no-strike pledge, incentive pay and Wall Street war propaganda. The capitalists found them highly useful bloodhounds in persecuting trade union militants.

Now, however, American imperialism is preparing for war against the Soviet Union as part of its blueprint for world conquest. To achieve this it must silence all opposition in the labor movement, including the opposition of the Stalinists.

This is the basis for the persecution of the "reds" now going on. The Stalinists, Gerhard Eisler and Eugene Dennis, have been convicted on technical charges although everyone knows they were convicted for quite different reasons. Carl Marzani, former State Department employe, for instance, has been sentenced to one to three years in prison for not having revealed his membership in the Stalinist Party. Sentence is pending on 16 members of the Joint Anti-Fascist Refugee Committee.

Even a blind man can see that this campaign is not only against the Stalinists. It is part of the whole anti-labor drive. The reactionaries intend to use the repressive machinery against all union militants and radicals and finally against anyone who opposes Wall Street's war plans.

In the opening of World War II the Roosevelt Administration railroaded 18 leaders of the Socialist Workers Party to prison. These 18 were not Kremlin agents. They were wellknown figures in the American labor movement whose only crime was opposing the imperialist war and advocating socialism. The Stalinists were among the most rabid of the pack howling for heavy sentences against the Trotskyists. By their attitude then, they helped pave the way for the present witch hunt.

Today this witch hunt has been extended up and down the labor movement and throughout the ranks of millions of government employes. The purge board in the State Department can now fire an employe on testimony of agents whose identities are never made known to the accused, and for belonging to organizations which are never named. As the circle of the witch hunt widens, it can eventually threaten every militant who dares stand up and defend his union.

All workers must condemn these witch hunt trials and the purge of government workers. It is not all a question of defending treacherous and perfidious Stalinism but of defending the American labor movement and the civil rights on which this movement is grounded.

Isn't it grand to relax in peace now that Congress has passed those labor laws?

Production Curtailed By Textile Mills

The picture of the slumping textile industry is beginning to take on a clearer outline. The industry reached its peak consumption of cotton in January; consumption then levelled off in February, March and April only to break sharply in May, when the mills consumed 551/2 thousand bales less than in the previous quarter, or a decline of 6.3%.

There is of course a direct connection between the mill consumption of cotton and the output of the textile industry; these two being roughly proportional to each other.

The decline in the consumption of cotton represents a reversal of the trend in the industry last year when production of textiles and therefore consumption of cotton sharply expanded.

The drop of 6.3% may appear trifling, but this is not at all the case. For should this trend continue in the next period it will denote a very grave condition of the textile industry.

This is most clearly to be seen from a comparison with the past. In the 1920-21 depression which began with a slump in textiles and which hit this industry very hard, the over-all drop in production over a period of one year (from 1919 to 1920) amounted to only 8%. On the other hand, the first year following the 1929 crash witnessed an over-all decline three times as great.

The initial drop in May is already quite close to that of 1920-21 (6.3% as against 8%); should it continue at this same rate, it will approximate the 1929-30 decline within a period of 4 months.

It is of course too early to tell just what will happen in the near future in the textile industry. But this hardly leaves much room for the capitalist optimists who see only a "mild recession" ahead.

For while the movement of the textile industry is not decisive in determining the future condition of the economy as a whole, it is nevertheless highly symptomatic. Hence the developments in this industry will bear close watching; they cast the shadow of coming developments in other branches. The rate of decline in textiles will be indicative of the rate of decline of industry as a whole in the next period.

How can anyone say that the Big Business stooges in Washington don't work hard? Why, when they aren't working all night cooking up anti-labor laws and rulings, they are sweating over new plans to give millions of the public's money to the corporations.

Since the war they've done pretty well by the big industrialists with tax rebates, etc. The meat packers got more than their pound of flesh. The landlords are getting theirs. But the Washington politicians are fair-to the bosses-and decided the railroad magnates weren't getting enough of the gravy. So a little deal has been arranged to take care of them.

The Interstate Commerce Commission has just granted a 10% passenger fare increase to 60 railroads east of the Mississippi and north of the Ohio and Potomac Rivers. The reason given by the ICC for the increase is that these railroads have not been doing too well financially.

Those who have studied the growth of the great American fortunes know that railroad stock has been watered to such a soggy extent that it can always be claimed the roads are losing money.

However, figures released by the ICC eight days before the passenger fare increase revealed that the eastern railroads had a 12% increase in revenue for the first quarter of 1947 over the same quarter in 1946. Take for example one of the giants, the Pennsylvania Railroad. With this passenger fare increase, plus the freight rate and express increases already granted, plus a mails increase now pending, the P.R.R.'s 1946 "deficit" will be transformed into a net profit of \$14,100,000 in 1947. This gift to the railroad barons, taken out of the pockets of the people who ride trains, is justified in Washington as help to an industry whose profit outlook for the next year is dim. But the very figures of the ICC show that the profit outlook for 1947 was much better than 1946. So next time you're on a train and someone says "those fat loafers down in Washington don't work for their pay," correct this erroneous statement. They work. Sometimes very hard. Not in the interests of the people of this country, but in the interests of Big Business.

Polemicizing against these views during the last year of they constituted a break with the fundamental principles of Marxism and violated the interests

Democratic and Republican political action already has "a class basis," to use Truman's term. What would really be "dangerous" for labor would be failure to meet the attack of capitalist class political action by engaging in working class political action through a labor party.

Let every militant study that section of Truman's veto message about passage of the slave labor law inviting the workers "to gain their ends through political action." That warning to the capitalists expressed the well-grounded fear of a professional politician visualizing how the intended victims of the measure could organize the most effective defense.

Well, they passed the law. Now how about getting busy and organizing labor's forces for this "direct political action" feared by the political hatchetmen of Big Business? That's the way to convert the Taft-Hartley Act into a boomerang.

Two Years Of The UN

The official celebration staged by the former Allied powers on the second anniversary of the signing of the United Nations Charter June 26 fizzled like a wet firecracker.

Generalissimo Chiang Kai-shek, now up to his neck in raging civil rebellion against his hated and bloody regime, said "the millennium is not in sight."

Prime Minister Attlee of Great Britain, busy holding down the lid on the colonial rebellions threatening to blow up the British Empire, declared pessimistically that the world "must not expect immediate results."

Generalissimo Stalin, head of the counterrevolutionary Kremlin bureaucracy who shouted the loudest for the organization of the UN, refused to talk. Andrei Gromyko, speaking in his behalf, added little cheer by saying that two years was too short to permit drawing "any final conclusions as to how successful the United Nations has been . . .

Truman was the only representative of the major powers who tried to sound an optimistic note. As political representative of the Wall Street inspirers of the United Nations, Truman tried to make out that only "temporary setbacks" have occurred. According to the holiday speech he read, the UN is still "the hope of the world for lasting peace."

and the second

No one paid much attention to this official cheer. It is becoming more and more obvious to everyone that the United Nations is nothing but a second edition of the old League of Nations. It is suffering the same unhappy fate as that thieve's kitchen, except at a much faster rate.

The UN has not halted the advance of a paralyzing economic depression by one day. **Death Of Our Society**

The Emergency Committee of Atomic Scientists issued a statement June 29 on the results of one year's attempt to control atomic weapons. The Committee is a distinguished body, counting Albert Einstein among its members as well as the scientists directly involved in the production of the atomic bomb.

They say "our hopes for international agreement on control of atomic energy have come to nothing." They ask if "thoughtful and well-informed men" can any longer expect "fruitful agreements to come out of UN discussions.

Far from finding a road to control of atomic weapons the powers "prepare feverishly for war... day and night on both the material and psychological planes." "Militarism," they point out, "is rampant throughout the world. In all history, never in any period of 'peace' have so many men been under arms."

They sum up what is happening in a terse sentence: "The Prussian disease of which the German and Japanese states have died is beginning to infect the conquerors."

In the light of these facts what are the perspectives? Atomic bombs can now be "made cheaply and in large number. They will become more destructive."

Preparedness, they say, "is futile;" for "there is no military defense against atomic bombs and none is to be expected." Soon other nations will work out the so-called "secrets" and begin stockpiling bombs like the United States.

Then when war breaks out, "atomic bombs will be used and they will surely destroy our civilization." They conclude that unless a real means of controlling atomic energy is found, "the alternative is the death of our society."

Their proposal is the creation of a "supranational government" with "adequate" powers to maintain peace. Here we differ with the atomic scientists. Outside their own limited field their advice has proved illusory. The proposals they made last year are now admittedly bankrupt and worthless. No better fate is in store for their current proposals.

The crisis over atomic energy is only one of the most acute expressions of the general crisis now shaking the capitalist system to its foundations. Atomic energy cannot be isolated and put under control without also putting the economic and social system under rational control.

This can never be done under capitalism. Mankind can hope to eliminate wars and with them the danger of atomic destruction only by establishing socialism.

strike of workers." "I have been informed that President Murray of the CIO has taken a position similar to that of Mr. Green. If these reports are true, I wish to commend each of them."

Senator Wiley (R., Wis.) representative of the cheese interests in his state, went poetic the day after Congress overrode Truman's veto. Here is his last verse:

"The doubters and the leftists cease

-John Marshall

ious fears.

The people rise and gain release. Restored, we have the golden years."

Just in case any sucker stuff is still left among the labor voters in his home territory. Wiley included in the Congressional Record "An Open Letter to American Workers on the Pro-American Labor Law." One of his important points in defense of He argued that the law is a the slave labor law was the allegood one because both the gation, "I can understand their feelings, for I have been a laboring man myself."

After cutting this thick odorous cheese, Wiley went to the exercises of the 35th graduating class of the FBI where he demade headlines by engaging in livered an impassioned oration on "Challenges to American Law Enforcement." Said he, "It is an ironic indictment of our high-octane civilization that the list of statutory crimes has lengthened with the growth and development of modern life."

And in his peroration he wound

Filipino Veterans Cheated By Congress

To the notorious Jim Crow record of the Big Brass in the American armed forces has been added another piece of vicious discrimination perpetrated by their equally reactionary colleagues in the halls of Congress.

Involved here are 400,000 Filipinos who served in the U.S. army in the Philippines. As veterans these soldiers are obviously entitled to the same treatment and the same benefits as all other soldiers in the U.S. Army. But not in the eyes of the lawmakers in Congress, who found a shabby pretext for depriving these men of their status as veterans.

On July 26, 1941, four months before Pearl Harbor, these Filipinos were inducted into the American army by Presidential decree. Throughout the war, and for months after V-J Day there was no question about their status.

But last year, on February 18, 1946, it was discovered that they were not veterans after all. Congress passed a special law-the First Rescission Act-stripping these men of all veterans' benefits on the grounds that the army into which they had been dragooned was not "in active service."

In this way 400,000 Filipino soldiers have been cheated of their mustering out pay and terminal leave pay: they have been denied the benefits of the GI bill of rights, the Six Months Death Gratuity Act and other acts.

Those Filipino soldiers who died or were maimed in battle received slightly better treatment. They were grudgingly accorded insurance and pensions for death or disability.

These facts came to light in an article by Vincente Villamin in the June 22 Washington Post. The only action taken thus far in behalf of the Filipino soldiers is a recommendation by the War Department that Congress extend to these veterans the benefits of the Missing Persons Acts, thus enabling them to receive their back pay.

THE MILITANT

Workers' Forum columns are open to the opinions of the readers of "The Militant". Letters

The Workers' Forum columns are open to the opinions of the readers of "The Militant". Letters welcome on any subject of interest to the workers. Keep them short and include your name and address. Indicate it you do not want your name printed.

An Example Of **Nazi-Like Neutrality** Edtor:

A recent minority case, revolving around a 15-year-old Negro girl, really revealed the sordidness of San Diego officialdom.

The girl's mother had been committed to a mental institution and the child subsequently was pounced upon by the juvenile authorities, who committed her to the County Detention Home. Typical and reminiscent of Nazi-like mentality, these unspeakable vultures decided upon the idea of having the girl sterilized. It was well known that the girl was born of a normal mother, despite the mother's recent mental illness.

The Socialist Workers Party, working with the National Association for the Advancement of Colored People, had the case brought to the forefront, causing the officials to retreat, knowing what they were up against with regard to the NAACP. That issue has been dropped and the juvenile authorities now deny there was any talk on their part concerning sterilization.

Diary of a Steel Worker -Another Letter To A New Subscriber – By Theodore Kovalesky–

Dear Ralph:

There were a great many things I didn't have time to say in my last letter. Here are a couple T want to cover now.

capitalism. I wrote you of the necessity for us to fight the final battle for freedom and decency.

In every strike, in every demonstration you will find the Socialist Workers Party fighting tooth and nail for the interests of the working class. But these small gains for which we will fight so bitterly, are they what we really want? Do we wage battle for a few more mouthfuls of bread, for an extra pair of pants for the worker and another housedress for his wife?

No, Ralph. Every chance we get, we help the workers to the best of our ability. But our real fight is this: We strive to fill the veins of the workers with fiery red blood of determination, to fill their minds with a great dream of freedom and peace and the good life, to fill their hearts with comradeship for all the workers of the world. That is our fight, to help the workers to help themselves, to build a new world fit for tomorrow's sun to shine down upon.

Have you ever thought, Ralph, what this new world might be like? Let's start with you. What did you want to be when you were a child? Did you want to be a low-paid factory worker? Of course not. You wanted to be a doctor or an engineer. You wanted to be important to the world, to have a shiny automobile and leisure time to use it.

Well, under Socialism we won't all be doctors and engineers, but we will all be important. And none of us will be oppressed, underpaid workers. The factories many of us, perhaps most of us, will work in will be clean, light,

safe places where we'll join together in the great task of producing the things we'll all need. We'll work short hours under the best conditions under the guidance of foremen and manthat pressure from above that turns a good guy into a tyrant.

PAGE SIX

Doctors and engineers would be of the greatest importance to us, and we'd surely encourage any youngster to go into those fields if he, or she, showed the talent and the desire to do so; but no one would choose those professions merely to have a good life and leisure to enjoy it. Because the workers would have just as good a life.

I suppose under Socialism we could worry and suffer (we have learned those things well through the ages), but I can't think now what we'd worry and suffer about. It wouldn't be about getting enough food or clothing; it couldn't be about finding some place to live or paying off the finance company. It wouldn't be about wars or depressions. Those things will die with capitalism, and the people of Socialism will live in a golden age of plenty.

We will govern ourselves with people elected as we elect our CIO Council delegates. And these people will find that governing will consist mainly of planning how many pairs of shoes, how many automobiles, planes, suits and dresses, how much meat, wheat, and lumber the people will need for the coming period, hcw to produce it and distribute it.

Race-hatred will be a horrible memory of the past. All people will work side by side in the struggle against our traditional enemies-superstition, ignorance, want and disease.

Does that sound like an impossible dream, Ralph? Well, when enough workers like you and me have that dream, it will stop being a

dream and become a reality. Fraternaliy,

Ted Kovalesky

CIO Shipbuilders Out On Strike

Send Them Where They Belong – By Albert Parker – It seemed to me that the members of Congress W. Landis of Indiana put it: "Since some of the Southerners oppose us on

would have to look far and wide before they could pull anything as vicious and low-down as the Taft-Hartley Act. But I

was wrong. For the very next. day after its passage, they staged a political move which is just as revolting and twice as cynical.

As is well known, the Republicans during the 1946

election campaign made free and fancy promises to enact anti-poll tax and anti-lynch legislation if they came to power. This was one "mandate" they scrupulously ignored during the first six months of the present session. In fact, they decided early last month - with no protest from the Democrats - to adjourn without even bringing these bills to an open hearing.

Yet the day after the passage of the Taft-Hartley law, they changed their minds and announced that an anti-poll tax bill would be 'crammed" onto the schedule for consideration by the House this session.

Why? Because they were suddenly concerned about the poor Negro and white workers and sharecroppers who are barred from the ballot box by the poll tax? Not at all. The real reason, as an AP dispatch reported, is that the Republicans want "to get even with Southern Democrats who helped to kill the income tax reduc-

taxes, the idea is to put 'em on the spot. And if the Senate had not overriden the labor bill veto, we would have got out an anti-lynching bill."

In plain and simple words, it's corrupt political considerations, and not the interests of the Negro or white toilers, which explains the Republican Party's interest in anti-poll tax and anti-lynch bills. They have an alliance with the Democrats who banned such bills when they controlled Congress; and when the Democrats don't go along, they use the anti-poll tax bill as pressure and as a bribe. That's all it means to them, and they aren't even ashamed to admit it publicly.

Of course they'll be singing a different song when they come around soliciting our votes in Then they will be dripping with honey 1948. and full of fervent speeches about how much they love us and how much they will do for us if we will only vote for them again.

The answer to such stomach-turning hypocrisy will be to tell both them and their Democratic friends to go to hell. But we'd better not wait until 1948 to do that; we'd better get busy building a labor party this year so that we not only can send the capitalist politicians where they belong but can at the same time replace tion bill." As Republican Representative Gerald them in Congress with our own representatives.

11

Members of the CIO Industrial Union of Marine & Shipbuilding Workers picket Brooklyn's Bethlehem Steel shipyards, after the Company flatly turned down union demands for increased wages and other benefits. After terming the Taft-Hartley Act the "Tough-Heartless" bill, President John Green added: "If we must be the first to test it, let's do it." -Federated Picture

"Made In Europe

-By Joseph Hansen-

If it's from Europe, does that make it bad? In the opinion of Rep. Max Schwabe (R., Mo.), it does. Appearing before the House Labor

Sub - committee to testify against a proposal to lift the federal minimum wage law from 40 cents an hour to 60 cents, this dyed-in-the-wool reactionary declared: "For the government to determine what is a fair wage is not American -it is European."

To illustrate what he meant. this political representative of the capitalist class said that

if a man went to a public auction and bought an article that was knocked down cheap, it was his right, and "if he hires a worker cheap, that's the American way of doing it."

Some other Congressmen, who are now eager to pass a bill palatable to the working class after clubbing them in the head with the Taft-Hartley Act, pressed Schwabe, asking him, "Does freedom mean the right to pay starvation wages?"

This champion of the wage-slavery system answered, "If you want to put it that way, yes."

Schwabe, of course, was only doing his best to defend the corporations who have been ers. But Schwabe's type of European ideas dechalking up the highest profits in all history. And he used the most powerful argument in his arsenal, namely, that it's "American" to auction off workers at starvation wages.

Isn't this argument getting a little threadbare? Not everything out of Europe is bad. The English language, a European importation, for instance, seemed to work all right for Schwabe when he used it in testifying. We assume Schwabe can add and subtract according to rules of arithmetic that were imported from Europe. No doubt, Schwabe is proud of his Christianity, another product of the continent he hates. And if his ancestry were checked, it is doubtful he would prove to be the last of the Mohicans.

Capitalism itself and the ideas developed on its basis arose in Europe. Schwabe's idea about the capitalist "right" to force workers to slave for starvation wages bears the trade-mark "Made in Europe." In fact this idea was carried to its logical conclusion by such Europeans as Hitler and Mussolini and Franco. Fascist-like thought, Mr. Schwabe, stems originally from Europe too.

Socialism is another concept that originated in Europe. It is the scientific answer developed by the European workers to the reactionary program of the European Schwabes and their capitalist masters.

Like many other good things from Europe, the progressive idea of socialism is becoming Americanized. Scientific socialism is highly adaptable to the needs of the American workserve only the ash can. And that's where the American workers will put them eventually along with all the Schwabes and their profitmongering masters.

Drew Pearson charges that Representative Robert F. Jones of Ohio, recently recommended Commission, was once a member of the Black Legion.

Notes From The News

According to Robert Hutchins, head of the University of Chicago, the U.S. now has 🖘 enough atomic bombs in its stockpile to wreck the earth.

Hutchins did not explain why the manufacture of the bombs still continues day and night.

* * * Four Negro teachers, members of the teachers' section of the CIO United Public Workers, have been fired by Alabama authorities. The four had been prominent in the union's organizing drive and campaign to secure equal wages for Negro teachers. * *

The kind of bar room brawl that seldom gets

into the newspapers was revealed when Vincent J. Banker, a vice-president of the powerful by Truman for the Federal Communications Chase National Bank died following a fight with H. J. MacTavish, another vice-president of the same bank. Hostilites broke out in the bar at a stag dinner for 45 executives of the bank.

* * * Joe Felmet of Asheville, N. C., a member of the Fellowship of Reconciliation, made a test case of the Jim Crow laws of his state by sitting in "the Negro section" of a bus. The judge was so infuriated that a white citizen of North Carolina defied Jim Crow that he ordered six months on a road gang for the defendant. When it was pointed out that this was six times the permissible maximum sentence, the judge said: "I can't keep all these things in my little head" and reduced the sentence to the maximumthirty days.
