PRICE: FIVE CENTS

The Fight WALL ST. BEATS WAR DRUMS Inside the OVER STALIN'S NEW "BUREAU"

By the Editors

The CIO United Auto Workers is due to hold its next convention at Atlantic City on November 10.

This union, whose whole history has been so volcanic, is again torn by a factional battle, clearly reminiscent of the fight over Homer Martin in 1939.

The victory of one or another of the two contending factions is going to be of crucial importance for the development of the UAW and indeed for the future of the whole CIO. For the UAW is not only the biggest union in the country but, because of its dynamic character and strategic position, the Convention Resolution most influential in the CIO.

As the two contending sides - the Reuther and the Executive Board of the large Thomas-Addes-Leonard factions-are lining up in battle array Briggs Local 212 here at a and bringing forward their most powerful weapons, it is becoming clear that far more is involved than merely a clique mously adopted a resolution to battle over posts and positions. Great and important things be submitted to the formfor labor are at stake in this fight.

Let us first briefly review the make-up and character of the two factions.

Reuther unquestionably won his presidency at the last convention because of his aggressive conduct of the General Mo- tional Labor Party." tors strike of 1945-46. This won him the support of the majority of the genuine militants at that time, and their support gave him the presidency by a narrow margin. But as president the UAW officers to call a state of the union he has been far from militant and far from pro- days after the convention "for the gressive. His 18 months in office have sufficed to reveal what purpose of organizing a Labor Party he really represents and is :--- a dyed-in-the-wool Social Dem- in Michigan." ocratic trade union bureaucrat, who aspires to respectability, to rub elbows with the powers-that-be, and to come to friendly round-table arrangements with employers.

Character of the Reuther Caucus

Moreover, Reuther has dictatorial ambitions which are a brutal insult to the UAW members who have built the union in struggle and established its glorious tradition of rank and file democracy. He aspires to solidify a personal machine so ent policy "of backing so-called that he can tame the auto union, "discipline" its membership, and Republican Parties." and thus wipe out its cherished democratic methods.

The GM Department, of which Reuther was director since the mercies of a pack of anti-labor 1939 and which he runs with an iron hand, provides a good sharks in the legislative halls of illustration of what the whole auto union would look like were he to win a monopoly of the union leadership and have his way. the resolution points to the achieve-

NMU Upholds Union Democracy In "Outside Influence" Debate

The gigantic international con-

nomic and political field.

Given the opportunity for a free

By C. Thomas

NEW YORK, Oct. 8-After a heated and prolonged debate the delegates at the sixth convention of the CIO National Maritime Union this week rejected, by a vote of 372 to 314, a proposed constitutional amendment patterned after the much publicized "outside interference" clause adopted by the national CIO convention in 1946.

The disputed section of the proposed amendment read as follows: "No religious political or any other organization shall be officially permitted to interfere in the affairs of theNMU." Faction lines were crossed as a ection of the anti-Stalinist Rank & File caucus voted against thr mendment aimed ostensibly at the Communist Party clique in the NMU. The debate revealed three nain conflicting tendencies on estion of paramount importance: The question of trade union deocracy.

This assertion may seem fartched to the many NMU deleates who for years have smarted under the whip of the Stalinist oureaucrats trying to convert their mion into an auxiliary of the Comnunist Party to the detriment of he members' interests.

Throughout these years they have een men smeared, slandered and genuine militants. ramed for opposing the CP mathine and its policies and for deending the members' interests. They have witnessed the nauseating spectacle of incompetent ninnpoops being elevated to posiions of leadership solely because they went along with the CP mahine. They have watched their nion being taken for a ride through urn of the Stalinist "party line." Under the circumstances it is to cut off the democratic rights of nderstandable that they are in- the membership and bureaucratize ined to give short shrift to the the union.

How Stalin Wrecked Resurrection of "People's Front" **Comintern Built by** Lenin and Trotsky Is Not a Move Toward Revolution

THE MILITANT

Is the "Information Bureau" set up by the Kremlin a "revival of the Comintern" as claimed by the capitalist press?

The answer is no. The Communist International, organized by Lenin and Trotsky in 1919, died long ago. The "Information Bureau" does not Stalin tossed Lenin's program of

bear the slightest resemblance world socialism overboard, advancto it.

The aim of the Communist In- of building "socialism in one counternational was the overthrow of try." This revision in program decapitalism and the construction of railed the Comintern. Moscow's formation of an international "Information Bureau" does not mark a turn toward revolutionary policy by the Kremlin. In the war of nerves now being waged between Washington and Moscow it is simply a maneuver with limited aims.

PAGE TH

It is a continuation and an extension of the intensive anti-Wall Street propaganda campaign which Moscow began as its

counter-offensive after the fail-+ ure last June to reach a deal with the Truman Administration over participation in the Marshall Plan. In essence it is a threat by Stalin to proceed from name-calling to "terrible" deeds if American imperialism pushes him too far.

The report about the "Information Bureau" appeared in the Oct. 5 Pravda. This organ of the Kremlin announced the holding of a conference "at the end of September in Poland" of 18 delegates of Communist (Stalinist) Parties representing Yugoslavia, Bulgaria, Rumania, Hungary, Poland, Czechoslovakia, USSR, Italy and France. This conference decided to set up

an Information Bureau to organize "an exchange of experience between parties and . . . coordination of their netivity."

struggle for power. The Information Bureau will be located at Belgrade. Yugoslavia, and festo declares, should "coordinate will publish a periodical. Each oftheir efforts on the basis of a comfically participating Stalinist party mon anti-imperialistic and demowill have two delegates on this body, cratic platform as well as gather to be "appointed and replaced by around themselves all democratic the respective Central Committees." The capitalist press paints up this ists) in their respective nations." and patriotic forces (read: capitalmove by Stalin on the political chess board as "the resurrection of the to the United States, declares that Comintern." They interpret the the "nation urgently needs a strong" manifesto issued by the conference anti-monopoly, anti-war coalition as a "clear declaration of political based on the Roosevelt-Wallace war." In the opinion of Anne line." No revolutionary socialism O'Hare' McCormick, N. Y. Times there columnist, Moscow is making a "de-

"The unprecedented wave of sit-down strikes and the amazingly rapid growth of industrial unionism in the United States (the CIO) is the most indisputable expression of the instinctive striving of the American workers to raise themselves to the level of the tasks imposed on them by history."

-Leon Trotsky

Resist Slave Labor Law

Most of the top AFL and CIO leaders are urging the workers to abide by the provisions of the Taft-Hartley Act "until the courts modify it or Congress repeals it. We have no other alternative," they claim. They misrepresent both facts and history.

There are other ways of challenging tyrannical laws. American history is rich in examples of direct resistance by the organized power of the people through which struggles to nullify such laws were won. The truth is that many of the rights possessed by workers which the Taft-Hartley Act now aims to destroy were originally won by defying the oppressive laws passed by reactionary rulers.

Back in 1765 militant colonists, known as the Sons and Daughters of Liberty, balked the enforcement of the Stamp Act by refusing to buy stamps, by mass demonstrations against British officials. Ten years later they defied the Tea Act by dumping British tea into Boston Harbor. Conservatives of that day were horrified. But our national independence was won by just such mass resistance to oppressive laws.

After the Revolution, in 1798, a new set of monied tyrants sought to deport radical aliens (called not "communists" but "democrats" in those days) and to restrict the free press by ramming the Alien & Sedition Acts through Congress. The people rose in wrath, defied these anti-democratic decrees and then threw out both these laws and their authors.

Early in the last century workers who united to fight for higher wages were hauled into court, fined and imprisoned on charges of "criminal conspiracy." Had these pioneers submitted to the employer-controlled law courts, they would never have won the right to organize.

Before the Civil War the slaveholders passed the Fugitive Slave Law, later upheld by the Supreme Court in its Dred Scott decision. But workers, farmers and Negroes openly disobeyed that slave-catchers' law and protected runaway slaves until the Second American Revolution abolished slavery.

42 million would gain exactly nothing b ing half their income was earned by the These are the tremendous majority of the peo whose income is \$3,000 a year or less. Most of the other 5 million who make over \$3,000 a year would save negligible amounts.

The big saving would be for those whose "net" income is \$25,000 a year or more. That is, the only ones to benefit would be that tiny minority of capitalists who run the Democratic and Republican parties and exploit the people of this country.

Not only should this Wall Street tax steal be stopped but the American workers should carry the battle to the enemy camp. Demand that all incomes below \$5,000 a year be exempt from income tax. Tax the rich and not the poor!

How About Opening the Books?

Congressional "investigations" of high prices are getting nowhere fast. A parade of witnesses have taken their turn basking in the flash bulbs and the press has dutifully quoted the questions, observations, denunciations and other publicity cooked up by Congressmen who are worried about the 1948 elections a lot more than they are about skyrocketing prices.

We can't say that we're surprised. In fact we'll admit that we expected it, confidently predicted it and would have been bowled over only if Congress had really probed into the current price squeeze.

At the moment we can't think of a bigger farce than these "hearings." The UN is louder and gets a "better press," as they say in the publicity racket. But in our opinion it lacks that touch of slapstick that goes with a corporation-minded Republican or Democrat putting on a Sherlock Holmes hat and sleuthing down the criminal responsible for the price squeeze.

Wasn't it the Republicans and Democrats who by special company request knifed all price controls? Or shouldn't we spoil the fun by asking questions like that?

There's a limit, however, to everything, including slapstick. That limit was passed for our money by the report of the "investigators" that no matter what the real cause of the price squeeze, one thing isn't at the bottom of it -namely, profits. Profits get a clean bill of health, they told the capitalist press. And the capitalist press, of course, rushed this preliminary deduction of the Congressional Sherlock Holmeses into print as "news."

We'd just like to put a few serious questions to these "investigators." How do you know profits aren't responsible? What did you do to find out? What evidence have you got to prove your chain-lightning deduction? Why are you so interested in giving the profit-gougers a clean bill of health?

And that reminds us, it's about time real evidence was produced. How about the CIO, AFL and Railroad Brotherhoods putting the heat on these "investigators"? We suggest that these Congressional Hawkshaws be challenged. Open up the books, filing cases and vaults of the big corporations and let the public have a look at what really goes on.

For us, we're convinced that opening up the company books for a look-see would reveal some highly startling and even sensational facts about the connection between profits and prices.

That kind of genuine investigation would put a quick end to the farce of these "probes." And that would be all to the good.

A Question For CP Members

"Quick, Doctor-the newsboy left The Militant instead of the Wall Street Journal!"

"Well, what's stopping us?" a reader might ask Teague. "Why don't we get going?"

> Anticipating this question, Teague was forced to venture into the field of politics, searching for the answer. Here his performance is truly like the gropings of the blind.

Back in the '20's, Herbert Hoover's views were fashionable among many credulous confidence in the future of capitalism. Teague belongs to this old hat school. Thus he prefers the power trust to public utilities, mentions approvingly such proposed anti-labor legislation as the Case Bill, and obviously repeating Chamber of Commerce propaganda, declares Marxism to be a variety of fascism.

Private enterprise, says Teague,

Forrestal Lies About Cause of Modern War By Arthur Burch-

MONDAY, OCTOBER 13, 1947.

In addressing the Army Ordnance Association on Oct. 1, Secretary of Defense James Forrestal termed Vishinsky's charge that American Big Business is seeking war as "utter nonsense." Trying to refute Karl Marx's scientific appraisal of capitalism, the breeder of modern war, Forrestal said: "One of the many fallacies generated by Marx and Engels is the thesis that private ownership of property breeds war. . . . This theory as an interpertation of history, which it pretends to be, has no validity. . . . Men of the jungles threw rocks at each other long before there were either industrialists or business managers. . . . The only war we are waging is against hunger and desolation, against oppression and tyranny, against disease and despair wherever they exist." Forrestal's obvious conclusion is that wars are inevitable and preparations must proceed for World War III.

True enough, wars were waged centuries before capitalism and we fully agree that the capitalists cannot be held responsible for those wars. But that is no explanation of the causes of war either in the past or today. Let us briefly examine these causes.

From the beginning man has struggled ceaselessly against nature and fought hunger and scarcity. His progress has been marked by his gradual mastery over nature. "Men of the jungles threw rocks at each other" to keep from starving when nature was not bountiful enough to provide for all. But even in prehistoric days man learned to cooperate with his fellowman. He established a communal society where all in the tribe shared the meager fruits provided by nature, hunting and fishing.

The discovery of tools of production was a big step forward for humanity. With the introduction of agriculture man could produce more and provide for himself for longer periods of time. But it was still a far cry from plenty. Private ownership of the means of production replaced primitive communism. The owners of the tools became masters with nine-tenths of the population as their slaves. This was the beginning of class society with its inevitable class warfare which continues to this day and must continue till classes are abolished.

Simultaneously with class warfare there has been warfare between tribes, city states, duchies, kingdoms and nations as we know them today. The causes for the external conflicts were fundamentally the same as for the internal: scarcity and its offspring, exploitation. Through these wars feudalism replaced slavery and then the capitalist replaced the feudal lord. Each exploiting class caused terrific bloodshed before it disappeared into the abyss of society. The Civil War precipitated by the Southern slaveowners in this country is a perfect example.

In the same speech Forrestal stated: "In more recent history Napoleon led Europe through nearly a quarter century of unrest and war. But he certainly was not driven by the capitalistic society of France. He was a product of revolution." Forrestal pretends to forget that capitalism in France as in many other countries was ushered in through revolution. Feudalism resisted bitterly the then progressive capitalist class. Napoleon, as the representative of French capitalism, fought to destroy reactionary feudalism which barred man's progress then as capitalism does today. In essence, the wars of that era were fought to make possible the rise of national states and the development of the productive forces.

These productive forces were expanded in the advanced countries and gradually came under the control of monopolies which contended with each other as rivals for the world market. By 1914 capitalism had reached its zenith; it had succeeded in building a productive machine that was able to provide plenty for all for the first time in history. The stage was then set for the introduction of socialism with its production for use. Man had come a long way in the field of production. Scarcity, the mother of exploitation, had been conquered by man's genius.

But monopoly capitalism refused to give up its power over the means of production. To hold onto their profits, they have already thrown mankind into two bloody wars and continuous depressions. Unlike previous wars, these were not fought because of scarcity. They were fought over foreign markets and fields of investment. They were fought because the capitalists want to hang on to their profits and privileges at the expense of a rational reconstruction of society. For them profits are always placed above human welfare. Forrestal's claim that Big Business is waging a war against hunger, desolation, depression, tyranny, disease and despair, is false to the core. By its wars for markets capitalism has brought these evils to millions. The unconscionable profits of the American billionaires are causing hunger even in this country. While Forrestal speaks, U. S. arms and money are being used to kill Indonesians. Indo-Chinese, Filipinos and other colonial peoples who dare to fight against onpression and tyranny. Henry Wallace, who understands that the workers won't stand for another world war, became alarmed at Forrestal's statement that war is inevitable. He answered: "We have the intelligence, moral fibre, economic strength and political know-how to maintain Wallace's assurance is worthless because he peace." himself is a staunch defender of the capitalist system. which breeds war. No defender of that system can lead an effective anti-war fight. Instead they lull the workers into a false sense of security while the more realistic Forrestals go ahead and prepare the war which is inevitable unless the workers do away with capitalism.

Everyone remembers how impossible it was to enforce the hated prohibition law and how finally it had to be repealed under popular pressure.

These are the traditions of struggle that show how liberties are most effectively defended. Mass resistance-and not cowardly compliance-is the American way of meeting the Slave Labor Law and forcing its repeal.

Another Tax Steal Planned

Some people are never satisfied! You would think that with profits at undreamt-of heights America's 60 Families wouldn't kick too much about the taxes they pay. After all, these taxes go to a government which serves them and conspires with them to keep prices and profits high. But the fat boys aren't satisfied.

The latest plan of the millionaires is to lower their own income taxes and shift more of the tax burden onto the shoulders of the very people who are being squeezed dry by the current price gouge,

This plan has the pretty name of the "community property" bill and is being pushed in Congress. From the name someone might think it was a "socialistic" scheme but it is strictly capitalist.

The "community" as defined in the proposed amendment to the income tax law is only husband and wife. Under it a husband whose "earnings" put him in the \$50,000 a year bracket could claim that half had been earned by his wife (whose only work might consist of putting on and taking off jewelry). Then they would both be in the \$25,000 a year bracket where the tax is much lower.

It is estimated that if this "community property" scheme is passed the people most able to pay taxes will save 800 million dollars a year. This money will be found elsewhere, if the big shots have their way - in the pockets of the low income groups.

"But," someone may say, "won't this 'community property' racket also entitle a worker whose wife isn't working to cut down on his tax too?" Not quite. The tax experts of Wall Street have taken care of that angle too. Out

Here's a question we'd like any CP member who reads The Militant to answer. How do you size up the political record of the Socialist Workers Party during the war as contrasted with that of the Communist (Stalinist) Party?

This appears to us to be a timely question in view of some of the statements in the manifesto published by Stalin's new "Information Bureau" which CP members are now undoubtedly studying. That manifesto declares specifically that "The United States of America and with them England placed as their war aim . . . the elimination of competition on the world market (Germany and Japan) and the consolidation of their dominant position."

If you will remember back, that is what the Socialist Workers Party said during the war. As a result the Roosevelt Administration railroaded 18 leaders of the SWP to federal prison.

Your leaders took a different view during the war. They claimed it was not an imperialist conflict. They claimed that Washington was a "peace-loving" power. They demanded "sacrifices" by the workers. They advocated the nostrike pledge and did their utmost to rigidly enforce it. They even engaged in strikebreaking where workers, fed up with the corporations' way of applying the "equality of sacrifice" slogan, tried to bring wages in line with rising living costs.

You as a rank and filer had to swallow that line. Not only swallow but try to peddle it to workers who knew you were thereby acting as a stooge for Wall Street.

At the same time your leaders called the Trotskyists "fascists" and "tools of Hitler," and criticized the Roosevelt Administration for not giving longer prison terms to the SWP leaders who exposed the imperialist character of the war and advocated socialism.

What's your opinion now? How do you think the Trotskyists were able to correctly analyze the character of the war - not after it was over but while it was being waged? How do you explain the ability of the Socialist Workers Party to stick by its principles despite the lies, slander and persecution?

If you answer on the basis of the evidence, aren't you forced to conclude that the Trotskyists upheld and defended the program of Marxism? Then why don't you sever connections of 47 million income tax payers in the U. S., Swith the agents of the Kremlin bureaucracy?

they are structurally shoddy, forlorn and depressing . . . we find ourselves living in ill-fitting, outknowledge we can provide such fagrown shells that cramp our lives vorable conditions for children that and frustrate our ambitions."

Teague thinks that our transpor- tively free of skeletal defects, nervtation system has now developed to ous disorders, and so on. such a degree, particularly since the use of automobiles and trucks became common, that we can now overhaul our cities, making them wondrous places in which to live loose modern industry.

To decentralize the congested areas, art before they can read and write, into the countryside, will take a long time "but it will prove to be pier as we spend ourselves on them." bitter, searing corrosion of poverty, socialism? Teague illustrates with New York in which few minds can ever know "where the land is wasted appallingly on walk-up tenements, oneor-two-story shops, mysterious untenanted warehouses; and in the outlying boroughs there are great seas of tiny, crowded, single-family homes covering the ground to nobody's satisfaction, and other huge tracts waiting to be similarly despoiled."

If half New York's acreage were used for streets, commercial and industrial usage - an excessive allowance, he says, this would leave 17 families to be housed on each remaining acre. "In one crossshaped tower of twenty stories, 170 families easily could be housed in complete privacy, with windows open to the sun and air — and more than nine acres of lawns, gardens and playgrounds for their enjoyment around them.'

There is no reason for the fogs of dust and smoke that poison the air in America's cities. One simple device, the preciptron in all chimreys, he declares, "can make Pittsburgh and Chicago as bright and shining as Pasadena or Miami."

As for the factory, this industrial engineer is impatient to bring it up to date. "We now are ready to repair the ravages of the Industrial Revolution. Smoke. dirt. and disorder are no longer unavoidable byproducts of industry: they are in fact symptoms of waste and in-

can't go ahead and "build a better of plenty, which he knows is pospeople." With our present technical sible right now.

Really, Mr. Teague, don't you read the papers? Doesn't it look to the next generation could be relayou like private enterprise intends to take us straight down the road to atomic war? disintegration of society in list America is reflected in idio "entertainment." The socalled contests in which the contestants actually degrade themselves for cash and gadgets are especially nauseating.

The last one I listened to brought to my mind the statement Marx made in the Communist Manifesto about the German landowners, "They do not besitate to barter truth, love and honor for traffic in beet root sugar, etc.'

In this case truth, love and honor were bartered for an electric refrigerator.

The last round table radio discussion I heard lost its scholarly detachment and threatened to become a fist fight between one mildly leftwing speaker and the representative of the NAM. Could this, too, reflect the growing division between the left and the right in the U.S.? When I returned from overseas I noticed that the Farm and Home Hour sponsored by the Department of Agriculture had been replaced with a so-called Farmers Program sponsored by a fertilizer company. This must have been a victory for Free Enterprise. Such topics as Farmers Co-ops, Conservation and Erosion control, and Rural Electrification are never mentioned any more.

Their fertilizer is not the only thing that smells. If the radio could convert the notive behind these radio programs into odor instead of sound there would be no market for new radios. At least. ng this "entertainment." M. L.

Recalls Tragic Death **Of Sanders Family**

Editor: When I read William E. Bohannan's impassioned plea in behalf of James Hickman in his column in The Militant of Sept. 29, I sat back for a while and thought. I thought first of another and similar tragedy, one which took place not in Chicago but in New York's slum-ridden East Side.

It was about 12 years ago that a fire in an East Side tenement house burned to death five members of the Sanders family. This was not a Negro workers' family but a Jewish working-class family whose memkers were inspired by the thought of a new and better world, of human brotherhood, of Socialism.

I knew the Sanders. I grieved with thousands of others at their untimely death. Here was further kans, Dad?" The subject being evidence, if more was needed in part of his school work. those years of the "great depres-" culture of money values," stood to, you wouldn't have to ask." dripping with the blood of countless

millions of innocent victims.

The Workers' Forum column are open to the opinions of the readers of "The Militant." Letters are welcome on any subject of interest to the workers. Keep them short and include your name and address. Indicate if you want your name printed.

the American Civil War. William Warde explained that just as the conflict at that time was irrepressible because of the existence of two opposite social systems, capitalism and slavery, that could no longer live side by side, so today the forces of capital and labor are tending toward another final and irrepressible conflict, which will persist until one or the other is victorious

Unlike bourgeois historians of the American Revolution who view it as an isolated phenomenon unconnected with European events, Warde stressed the importance of viewing the American Revolution as one of the most important links in the chain of conflicts issuing out of the world crisis of 1857. In the same way today, the participants in the

Philadelphia Election Program **Of Socialist Workers Party**

Vote for Irene LeCompte in 7th District

HOUSING: A better Philadelphia for Philadelphia working people-not for the real estate sharks, the bankers, and the monopoly profiteers. For a city rent control law administered by workers, veterans and tenants committees. No rent increases! No evictions! Restore rent ceilings. Immediate construction of 100,000 dwellings at rentals workers and other low income groups can afford. Against the unfair tax assessments. Raise the assessments on corporation and office buildings and the mansions of the rich. Tax exemptions for worker - owned homes under \$10,000 value.

WAGES, PRICES, AND TAXES: Abolish the wage tax! Tax the rich-not the poor. A city income tax on business profits. Declare war on price-gouging profiteers. Meet soaring prices and protect real wages by including in all contracts a cost-of-living bonus clause, to be paid on a regular and adjustable basis, automatically rising in direct proportion to any increases in living costs. Crack down on the food trust by establishing city sponsored co-operative stores managed by committees of workers and housewives.

DEFENSE OF LABOR'S RIGHTS: Propose an amendment to the city charter providing for Referendum and Recall of all elected officials. For the rights of all workers' candidates and minorities to the ballot. Stop use of police to protect strikebreakers and to enforce anti-labor injunctions.

DISCRIMINATION: For a city FEPC and civil rights ordinances to enforce full social, economic, and political equality for Negroes and all other minorities. All discrimination practices to be checked and stamped out by neighborhood equal rights committees.

PUBLIC SERVICES: Complete city ownership of the transportation system. Return the five-cent fare to Philadelphia! City operation of the PTC system and all other utilities under the management of elected workers' committees.

HEALTH AND SANITATION: Clear away the main cause of the city health problems - the ratinfested, disease-spreading, over-crowded fire-trap slums. Construct modern housing projects on the slum cleared sites with preference to former slum residents in the new houses. Immediate construction of ten new general hospitals and one hundred neighborhood clinics to meet Philadelphia's minimum medical needs.

EDUCATION: Fifty new school buildings with modern educational equipment, as a start to ending the deplorable overcrowding of classrooms. Overhaul the antiquated public school system which premotes our children without educating them. Adequate pay for school teachers. A free City College (Philadelphia is the only large city without one). Free hot lunches for all school children.

RECREATION AND SOCIAL WELFARE: Provide parks and recreation centers in all sections. of the city. Eliminate expenditures in Fairmount Park for "Boathouse Row," for the pleasures of the rich-use funds to provide recreational facilities for the poor. Free nurseries for children of working mothers, on a permanent basis, with a paid and competent staff.

INDEPENDENT POLITICAL ACTION: Labor must run its own candidates for office. A labor slate in '48! Build an independent Labor Party based on the trade unions locally and nationally
