Republicans, Democrats Use Issue of Inflation As a Political Football

Congress will take no action to halt rising prices in the present special session. Neither Democrats nor Republicans propose any effective program against inflation. Prices will continue to soar upward at ever dizzier speeds.

These are facts now* generally admitted by the capitalist press itself and by business organizations.

All proposals for measures against inflation are being shunted through a labyrinth of Congressional committees. As the authoritative N. Y. Times reports, "At the cutset it became clear that Congress would not hurry its work."

The Scripps-Howard chain, in its Nov. 22 weekly size-up of Washington developments, puts the matter more bluntly: "Defealism is general in Congress on problems of inflation. There's feeling that selective price control wouldn't work even if tried, that no other proposal has

German Trotskyists Call for Solidarity Against Dismantling 682 German Plants

BERLIN, Nov. 18 - The first meeting of the Provisional National Committee of the German Trotskyists met somewhere in the Western Zone last week. It was the second nation-wide gathering of Trotskyists in Germany since 1933. (The first, a national conference, had met last summer.)

PAGE THREE

The main point on the agenda was the question of the dismantling of German plants for reparations which had just begun under the direction of the Allied Military Governments. Delegates reported widespread resentment and counter-measures by the authorities withholding the fat and butter rations from the workers.

The meeting issued an appeal for solidarity actions by the international working class, particularly in the Allied countries, against the dismantling program, and against the increased starvation.

Thought Control in Hollywood

The tycoons who run Hollywood have announced the firing of the ten studio employes who refused to answer yes or no to the House Un-American Committee's question as to whether they were members of the Communist (Stalinist) Party.

Eric Johnston, spokesman for the film czars who made the announcement, said furthermore that no "reds" will be hired in Hollywood. Then he set the ball rolling for similar action in every industry in America, demanding that Congress pass new restrictive legislation to "help" American industry "rid itself of subversive, disloyal elements."

This action of the movie autocrats is one more step in the deliberate drive of American Big Business to establish "thought control" in the United States on the pattern laid down in Japan under the Mikado.

Next in line after the purge in Hollywood are logically the radio, magazines, newspapers and books. Anyone writing a sentence critical of Wall

the Army Air Forces Materiel Command, made headlines throughout the country when he dragged in am alleged affair with the wife of one of his stooges in a squirming attempt to explain away his crooked manipulation of war contracts to line his own bank account.

The "explanation" given by his former top brass pals for not uncovering the general's graft made less of a sensation but it is just as noteworthy in its own way. Here it is as given Nov. 24 by W. Fuart Symington, Secretary of the Air Force: "It is well known that one of the most difficult jobs in the operation of the capitalistic system is the detection of a financial crook."

The truth of this must be acknowledged. First of all, the police, FBI and courts don't habitually look in the direction of America's top financial circles for crooks. They go after the small fry, or after the workers whose only crime is that they want to resist attacks on their living standards and democratic rights.

The reason for this reluctance to probe for crooks among the top brass or in the counting

Monday, December 1, 1947

Even that is not all. The final objective, as Johnston demanded, is all American industry. The . aim is to label any workers who refuses to kiss the boss's shoes as a "red" and throw him into the streets. The aim is to brand as "subversive" and "disloyal" any militant ready to stand up and fight for his union, and then to lop him off the pay roll. The prosecuting attorney, judge and jury will

be the boss. He will have the power to decide what makes an employe a "red" and who shall be so singled out.

That is the ominous portent of the decision to clamp down thought control in Hollywood. That is the implication of the decision that every one on Hollywood's payroll must hold political views that meet the approval of the red-baiting, Negro-hating, war-mongering, fascist-minded members of the House Un-American Committee.

flight financial crooks happen to be the rulers of America. They dominate the government; they control the Democratic and Republican machines; they inspire enactment of laws to protect their interests; they have final say in the appointment of judges and in the choice of other public officials. Naturally these big-time operators use every means to ward off any investigation of their crooked financial dealings.

How even small-time financial crooks are protected under the capitalist system is shown quite clearly in the case of Gen. Meyers itself. When a written tip-off about his scandalous racketeering reached his brass hat friends, they did their best to keep the general covered by quietly filing away the report!

The capitalist system operates in favor of the financial crooks at the expense of the people. The most obvious remedy, it appears to us, is to end the system under which these crooks flourish." On the other hand, the socialist system, which operates in favor of the people at the expense of the Wall Street gangsters, would make impossible operations of financial crooks, big as well as little.

The "Freedom Train" Down South

Last week the "Freedom Train" sped through the heart of America's "Solid South." But it did not stop at Memphis, Tennessee. Neither will it stop at Hattiesburg, Mississippi.

Mayor George Calhoun of Hattiesburg said the train, bearing 100 famous American documents including the Emancipation Proclamation, will be barred from his town unless a "plan could be worked out that would conform to our traditions." Those are the traditions of racial segregation and discrimination against Negroes.

It seems that in Hattiesburg and Memphis, at least, a white man and a Negro can't walk down a train aisle together to look at the Declaration of Independence, the Constitution of the United States and the Emancipation Proclamation.

Mayor William Hartsfield, of Atlanta, Georgia, displayed a more liberal view. He said the "Freedom Train" was welcome in his city. "I am will-

Stalinists Are Always" Betrayed"

Everyone is familiar with the sight of the Communist Party beating its breast and crying that it has been "betrayed" by a capitalist politician whom previously it had ardently supported. These "betravals" have happened so frequently that they border on the ludicrous.

If, in a movie, a character takes a nasty fall on a rug and breaks his leg, the audience's pity is aroused. If, however, in the next scene he again trips and breaks his other leg, an element of comedy enters. When this same character next comes in on crutches and takes a pratt-fall, the realm of slapstick is reached.

So it is with the Stalinist Party. Let's look at the record:

The Daily Worker editorial for Nov. 21 is entitled "Which Mayor Do We Believe?" The only mayor under discussion is O'Dwyer of New York. As everybody knows, the Stalinists gave him allout support for election. Now he is forcing through an increase in the subway fare. Ruefully the Stalinists complain that the O'Dwyer of today is not the same O'Dwyer of "last February."

Similarly the Stalinists, who supported Harry Truman in 1944, complain that he too has "betrayed" them.

This habit of being "betrayed" is not confined to Stalin's hand-picked leaders in this country. It is a by-product of the Kremlin bureaucracy's international policy.

14 4 1 K 4 1 1 1 1 1

ing to stand beside any American citizen, regardless of race or creed, in mutual admiration and respect for those great historical charters of American ireedom."

But will he stand or sit next to a Negro in an Atlanta restaurant or theater? Will he chat with a Negro in the lobby of an Atlanta hotel? Will he exchange weather forecasts with him across their porches on the same Atlanta street?

The mayors of Memphis and Hattiesburg did the honest, if vicious, thing. They said there was Jim Crow everywhere else and every day in their towns and they didn't see why they should make an exception for a "Freedom Train."

The mayor of Atlanta and the sponsors of the "Freedom Train" are hypocritically trying to spread illusions of freedom where, for the Negro, there exists only segregation, insults, humiliation, secondclass citizenship and economic degradation.

The French Stalinists find themselves "betrayed by de Gaulle. This would-be dictator mainly owes his strength to the French Communist Party, which built him up as a modern Joan of Arc and surrendered the resistance movement to him in the early months of the "Liberation."

In Chile, Stalinist support support put Videla into the Presidency. As reward the Stalinists received three cabinet posts. Then Videla "betrayed" them and embraced the Truman Doctrine. The Stalinists were dismissed. A terrific witch-hunt began. Strikes were brutally smashed. Spy scares were manufactured and Chile broke off diplomatic relations with Yugoslavia, Czechoslovakia and the Soviet Union.

It can be safely predicted that the Stalinists are in for more "betrayals" by their current "friends" and "progressive" capitalist politicians. Is the day far distant in this country when Henry Wallace will buckle under the war drive and "betray" the Stalinists who now so loudly support him?

We are not so much concerned that the Stalinist "strategists" get double-crossed by their "friends.

What does concern us is that the Stalinists mislead many militant workers into supporting phoney "friends of labor" like O'Dwyer and Wallace in this country and de Gaulle and Videla abroad.
