VOL. XI.-No. 49.

The New Situation FASCIST THREAT MOUNTS In The Unions By James P. Cannon-

NATIONAL SECRETARY, SOCIALIST WORKERS PARTY (Speech to New York SWP Membership Meeting, Nov. 30, 1947)

During the war the trade union bureaucracy in junions were maintained intact; their ranks were the United States completely revealed its role as an agency of the bourgeois government in the labor

wage

this dirty job.

In return for this service as a disciplinary police rce over the workers, the governmental machinery protected and, to a certain extent, aided the bureaucracy in maintaining and extending the membership of the unions through union shop agreements, maintenance of membership clauses, and similar devices. A section of the monopoly capitalists wanted to smash the unions, or to try to smash them, even during the war. But they were compelled to restrain themselves and bide their time in the over-all interests of the class as a whole in uninterrupted production for the war. The membership of the trade unions grew and swelled and nearly doubled during the war and in the immediate post-war period - from approximately 9 million in 1940 to about 15 million trade union members at the present time.

The great accumulation of workers' resentment and unsatisfied grievances, which had been dammed up throughout the war years by the bureaucracy through the no-strike pledge, broke, through in a mighty flood in the strike wave of 1945 and '46. The dominant section of the monopoly capitalists seemed to welcome these strikes as a test of strength. They were playing with the idea of meeting the warswollen unions head on and smashing them in direct battle. The profit hogs counted on a post-war reactionary swing in the country and tried their best to get it under way. They counted on using the returning veterans against the strikers, as they had done with considerable success in the period immediately following the first World War.

tempered in struggle; and some wage increases were gained, even though the latter had only a transitory

movement. Its asvalue. Following this initial setback to their calculations signed task was the monopolists got their second wind and began to to restrain and organize and whip up a real campaign of reaction in discipline the the country. As the strike wave subsided, the press workers within the strait-jacket and radio were mobilized to swamp the people with of the no-strike anti-labor propaganda. The government was compledge and the pelled to abandon its pseudo-neutrality and come out freeze. It openly as a strikebreaker.

must be recog-The breaking of the railroad strike by President nized that the Truman in the spring of 1946, and the injunction bureaucracy in all against the miners in the fall, were the first big its sections perdemonstrations of the new capitalist offensive. They formed this task served the purpose of dampening the militancy (with the greatest the workers to a certain extent. The workers felt impelled to draw back, to take a more cautious efficiency. The Stalinists, who attitude, to wait and see what might develop furthei are a part of the before taking any further action on their own actrade union bucount.

reaucracy, did At the same time, these blows scared the wits even more than out of the trade union bureaucrats and softened them up still more in relation to the employers and the government, while hardening them still more against all really militant and progressive tendencies in the

Beginning of Campaign

trade union movement.

But the breaking of the railroad and mine strikes by governmental action was only the beginning of what was coldly designed as a long drawn-out campaign, on the part of the ruling capitalists in this country, to terrorize the lubor movement; to domesticate the unions and put them more firmly than ever under the discipline of an ever-more servile and conservative bureaucracy; to lower the standard of living of the workers; and to prepare public opinion for another war - this time against the Soviet Union

Having tasted blood in the first two encounters of the second stage of postwar developments - the railroad strike and the mine strike - the monopolists then turned loose an unrestrained campaign | finally won 15c plus the important of reaction, which, in its essence, is simultaneously the preparation for war and the preparation of a fascist movement in the United States.

The anti-labor offensive to domesticate the unions and beat down the standard of living; the preparation for war; the red-baiting drive, and the preas different phases and aspects of one and the same campaign. This is graphically illustrated by the se-

Dairy Strikers Win Cost-of-Living Bonus in Toledo

TOLEDO, Nov. 26-A four day strike has brought a omashing victory to AFL dairy workers here. The final settlement provides for wage adjustments cased upon a cost-of-living index to be made every three months, in addition to a 15c an hour increase infective immediately.

The 15c increase brings the base rate up to \$1.40 an hour. This rate becomes the minimum below which adjustments cannot be made. There is no ceiling on upward adjustments.

The brief strike was marked by an attempt by the dairy owners to create a critical situation on a city wide basis. Only the workers in one dairy actually went on strike. The other six Toledo dairies thereupon immediately locked out their workers, thereby creating a serious milk shortage. Undoubtedly they hoped to provoke a crisis and invite the Taft-Hartley NLRB into the picture.

However, the employer-created shortage of milk, the usual crocodile tears of public officials weeping over the poor kids and so on. had no effect on the strikers. They rejected successive company offers of 5c, 61/2c, 71/2e and 121/2c, and cost-of-living adjustment provision. The dairy workers of Tolego have pointed out the correct road to all

limited demands to urge increase

is admitted tied up. Some 2,000,000 workers are on the picket line.

The working class is unmistakably moving toward the establishment of a Workers and Farmers Government. But the Stalinists, who gave the signal for strike action to serve their own narrow interests, stand in the way of a decisive and successful struggle. By preventing the workers from installing their own government, the Stalinists pave the road for the installation of a fascist dictatorship. In city after city masses of strik-

A Fight to the Finish

THE MOLLIT.

PUBLISHED WEEKLY IN THE INTERESTS OF THE WORKING PEOPLE

Workers of the World, Unite!

AS CRISIS GRIPS FRANCE

NEW YORK, N. Y., MONDAY, DECEMBER 8, 1947.

Unions Stood Up Firmly

These calculations of the monopolists proved to be badly timed. The unions, including the great steel union which had really never been tested in battle before, stood up firmly in the strikes; and the bulk of the veterans, as well as the middle class elements in the urban centers, sympathized with the strikers.

By and large, the workers and the unions came out of the first postwar conflict victorious. The

quence of events. The breaking of the railroad strike was followed

The notorious Remington-Rand, ing with the Taft Act.

By Art Preis

trols. Next came the injunction against the mine strike. The hue and cry against the Soviet Union then prepared public opinion for the enunciation of the Truman Doctrine, which was nothing more nor less than an announcement of the American imperialist program to dominate the world by economic pres-

The Black Hundreds of reaction, united under the general slogan of anti-Communism, are aggressively invading every phase of Amermovies, education, in literary, cultural and the General Motors workers. But at the same deciding factor. scientific circles, the reaction is on the offensive.

It can and should be traced and analyzed in every one of these fields. But that would take the union by one faction. more time and cover more territory than is possible on this occasion. Here we must confine ourselves to an analysis of the reactionary penetration in the most important and decisive field of all — the American trade union movement.

The reaction must be fought on all fronts, but first of all and above all, on the most important front which must be lined up against it. That is the front of the American working class. It is from this point of view that we should review and analyze the new developments in the trade union movement, especially as they have been reflected in the recent major trade union conventions.

The proceedings of these conventions can tell us some interesting and useful things if we examine them closely and objectively, without prejudice or phobias to blind us: if we analyze them with the single purpose of establishing what is new that helps or hinders the class struggle of the workers against the bourgeoisie.

Class Criterion

This is the criterion — the criterion of the class struggle - by which we judge everything,

These conventions, on the whole, clearly reveal, the main line of the new developments in the trade union movement since the first post, war wave of labor radicalism, represented by the strike movement of 1946, subsided, and trality" in the UAW factional struggle and the counter-offensive of the big capitalists and their political agents got under way.

Cur friends were not concerned there with any clique struggle for posts, but for basic propositions vital to the future of trade unionism in the United States. They fought for the independence of the UAW from governmental control and for the preservation of its internal democracy. The struggle for this program is a continuing struggle in all trade unions.

Our Perspectives

The first postwar wave of labor radicalism, signalized by the great strike movement of 1945-46, subsided and gave way to a strong counter-offensive of reaction which is still riding high. The victory of the right wing in the labor movement in general, and in the auto union in particular, are in the main the product of this wave of reaction which strengthens every conservative and retrogressive tendency in the labor movement.

At our party convention a year ago we somewhat over-estimated the depth and strength of the first postwar wave of labor radicalism. We counted on its continuance, when it was already beginning to decline and the reactionary counter-offensive was beginning to unfold in full force. This misjudgment of the conjuncture caused some disappointment and. perhaps, a certain disorientation in the party ranks, since the convention held out the perspective of a rate of party progress which could not be maintained in the unfavorable situation which followed the convention.

But that is an error easily corrected. The important thing for us to remember is that favorable situation as the fixed and final rela-Under the stress of the struggle in the UAW, tion of forces between the classes, and between.

We centered our campaign then around the issue in which the whole problem was concentrated at the time - the no-strike pledge which the bureaucracy | Hartley Law; and against the monolithic domgressive," if you please, and "in the UAW convention he openly endorsed Reuther, as gave to the government in return for a mess ination of the UAW by a single faction spontestimony to the solidarity of the most con- of pottage, which was ironically described as "equality of sacrifice."

> The fight which we and the best militants in the unions put up against the no-strike The rightward swing of the predominant pledge during the war did not meet with success, but it came close to it in the UAW Convention of 1944. The great fight made there by the militant rank and file was undoubtedly the main factor in preparing the ground for the strike upsurge that followed immediately after the termination of military hostilities.

The strike wave of the postwar period was at the bottom an heroic, if only partly conscious, effort of the rank and file to break you need only to read the Stalinist press. out of the governmental straitjacket and assert their independence. The bureaucracy did not inspire and lead these struggles. They went along with them because they had nothing else to do.

The independence of the unions from the government was at its peak during the strike wave. The stranglehold of the bureaucracy was weakened, and rank and file democracy flowered. This is always the case when the masses are in motion.

Now the swing is again in the opposite direction. The "outside interference" of the government is again aggressively asserted in the unions, and the trend to re-establish and strengthen the bureaucratic stranglehold on the unions has been accelerated.

But now, as before, the task of the revolu- for these workers are not as stupid as they necessary condition for the free interplay of

general strike is initiated, if it includes the genuine masses and if these masses are quite resolved to struggle, the general strike inevitably poses before all the classes in the nation the question: Who will be the master of the house? The leaders of the proletariat must understand this internal logic of the general strike, unless they are not leaders but dilettantes and adventurers. Politically this implies that from now on the leaders will continue to pose before the proletariat the task of the revolutionary conquest of power. If not, they must not venture to speak of the general strike. But by renouncing the general strike, they renounce thereby all revolutionary struggle, that is to say, they betray the proletariat to Fascism." -Leon Trotsky, 1935

"Austerity" Program Faces American People

MUST SPEED EUROPE AID; 'AUSTERE' CONTROLS PRESSED."

That is the main front-page headline in the Nov. 27 New York Times. What the American people face in the immediate future is described in two special articles.

One begins: "The European recovery program may cause definite hardship in this country . . the Truman Administration conceded for the first time today through an authorized spokesman at policy level." The other states: "An austere program in aid of Europe's hungry . . . was laid out for Congress by the Administration today."

Austerity and hardship. Those are the very words used to describe the hunger program put into effect in war-ruined and partially-devastated England. For weeks the American Big Business press has snickered and sneered at the British Labor government's "austerity" program and blamed England's ruin on the alleged "socialism" introduced by Attlee and Bevin.

Now we are openly informed that in the United States, the very citadel of capitalist "free enter-

Christmas Spirit, Capitalist Style

This is the Christmas season, when parents think There's not much good will toward organizers of toys for children, when Christmas trees are ordered for decoration, when the newspapers remind you that the days for gift shopping are numbered and fill their pages with enticing ads. This is the season portrayed in press and pulpit, in schools and homes, in offices and shops as the harbinger of "Peace on Earth, Good Will Toward Men."

This ballyhoo exploits the genuine desire of the people for peace and good will. But just how much good will is there in this capitalist United States?

There's scarcely peace, let alone good will for those whose skins are colored. In Logansville, Georgia, near which two Negro men and their wives were lynched last year, every Negro church and school in the community was recently destroyed by fire, and white mobs have let loose another reign of terror. And in the far North a 19year-old Negro veteran, returning from a visit to the "Freedom Train" in Rochester, N. Y., was murdered in cold blood by six white policemen, who

U.S. TOLD IT FACES HARDSHIPS BUT prise" and a country untouched by war's devastation, we face a future of "austerity" and "hardship."

Is it to ease the plight of Europe's hungry? That is a lie. The Truman-Marshall "foreign aid" program contains not an atom of humanitarianism. It is designed solely to prop up reactionary capitalist regimes which are this very day repressing and murdering workers-in Greece, in France, in Italy. It is designed to build Wall Street's springboard in Europe for world war.

We face austerity and hardship for reasons the Times articles fail to state. Here are a couple from other news releases last week:

"If it really means business," the U.S. government will have to double its expenditures for atom bomb plants-spend 5 billion dollars-said David Lilienthal, Atomic Energy Commission chairman. The United States must spend new "billions" for a military air fleet with bases throughout the world, Truman's Air Policy Commission is proposing. In short, American Big Business is getting ready for atomic war to dominate the whole globe. That is why Washington offers only "austerity" and "hardship."

law

The landlords may have good cause to rejoice but this is no season of joyfulness for Mr. and Mrs. Kelly and their seven children, who are facing eviction-in midwinter-from their Brooklyn basement home. Nor for the 90 families a week evicted from Detroit homes, nor for the hundreds of others evicted daily throughout the country.

"Peace," cry the warmongers. "Good will," chime the price gougers. That's the 1947 capitaliststyle Christmas spirit.

MONDAY, DECEMBER 8, 1947

THE AUTOBIOGRAPHY **OF MOTHER JONES**

THE MARCH OF THE MILL CHILDREN In the spring of 1903 I went to Kensington, Pennsylvania, where 75,000 textile workers were on strike. Of

this number at least 10.00 were little children. The workers were striking for more pay and shorter hours. Every day little children came into Union Headquarters, some with their hands off, some with the thumb missing, some with their fingers off at the knuckle. They were stooped little things, round shouldered and skinny. Many of them were not over 10 years of age, although the state law prohibited their working before they were 12 years of age.

The law was poorly enforced and the mothers of

these children often swore falsely as to their children's age. In a single block in Kensington, 14 women, mothers of 22 children all under 12, explained it was a question of starvation or perjury. That the fathers had been killed or maimed at the mines.

I asked the newspaper men why they didn't publish the facts about child labor in Pennsylvania. They said they couldn't because the mill owners had stock in the papers.

"Well, I've got stock in these little children," said I, and I'll arrange a little publicity."

We assembled a number of boys and girls one morning in Independence Park and from there we arranged to parade with banners to the court house where we would hold a meeting. A great crowd gathered in the public square in front of the city hall. I put the little boys with their fingers off and hands crushed and maimed on a platform. I held up their mutilated hands and showed them to the crowd and made the statement that Philadelphia's mansions were built on the broken bones, the quivering hearts and drooping heads of these children. That their little lives went out to make wealth for others. That neither state nor city officials paid any attention to these wrongs, They exposed their weakness and Morris wrote: "However distasteful /That they did not care that these children were to be

The officials of the city hall were standing in th in it with the opportunity to re- open windows. I held the little ones of the mills high up above the heads of the crowd and pointed to their and twice ran their own candidates the union on a fresh basis . . . The puny arms and legs and hollow chests. They were light

I called upon the millionaire manufacturers to cease their moral murders, and I cried to the officials in the open windows opposite, "Some day the workers will take possession of your city hall, and when we do, no child to build a "rank and file" faction will be sacrificed on the altar of profit."

The officials quickly closed the windows, just as they had closed their eyes and hearts.

The reporters quoted my statement that Philadelphia mansions were built on the broken bones and quivering Williamson last week in the Daily hearts of children. The Philadelphia papers and the New sociate of the Stalinists. Tappes Worker, called "Why Reuther Won York papers got into a squabble with each other over the question. The universities discussed it. Preachers began talking. That was what I wanted. Public attention on the subject of child labor.

THE CHILDREN GO FOR A TOUR The matter quieted down for a while and I concluded the people needed stirring up again. The Liberty Bell that a century ago rang out for freedom against tyranny was touring the country and crowds were coming to see it (sie!) of more than a few in the everywhere. That gave me an idea. These little children were striking for some of the freedom that childhood ought On the very eve of the conven- stances when the Communists found to have, and I decided that the children and I would go

of labor, not even when one happens to be a woman like Mrs. Edna Martin, 41, and widowed mother of six children. Because she worked for the CIO Textile Workers Union, she was kidnapped, tossed half clad into a truck, thrown out on the road and threatened with death, if she returned. And in Phoenix, Arizona, Governor Osborn's seasonal good will was expressed by calling out the troops against striking CIO lettuce packers and declaring martial

were promptly exonerated.

Sealed Train in Indonesia

Brutality has become such a standard part of the capitalist system in this epoch that a new shocker rarely rates more than a brief inch or two in the press. After all, what difference does it make if a few more die before their time? And what difference how they die? Is there anything less secred or less valued under capitalism than human life? Take, for instance, the small dispatch from In-

donesia sandwiched the other day between the joyous Christmas advertisements.

The Dutch Army in Indonesia, said the dispatch, loaded three box cars with 100 Javanese they had taken in the colonial war. They sealed the box cars. Then they hauled this human cargo across Indonesia on a 15-hour journey.

Since this cargo was less valuable than cabbages, fertilizer or hogs, no inspection was made until it arrived. No food. No water. No fresh air.

When the Dutch officers finally got around to opening the first carload of 44 Indonesians, 11 had to be taken to the hospital. In the second car of 29, they found 8 dead. In the third car of 38, not one survived.

If we were in the spirit of the times we would

Miners Tell Gov't "Hands Off!"

tice that it doesn't want government intervention in any way, shape or form when coal wage negotiations begin in 1948.

The current issue of the union's Mine Workers Journal bluntly says: "The coal miners have had enough-in fact too much- of government meddling in coal affairs and we want no more of it."

The Journal especially points out that "some anti-union-minded coal operators" want government controls restored so "they can have the Government front for them when wage negotiations start." It is easy to understand why the miners distrust any government "regulation" in the coal industry, even when it is camouflaged as "price control" or "aid to Europe."

They have learned through bitter experience that no matter what pretext the government uses for intervening in the coal industry, the miners always get it in the neck.

This capitalist government has repeatedly wrapped an anti-union club in an American flag and

pass up this incident as nothing out of the ordinary in the capitalist press. But with our revolutionary socialist ideas about the importance of humanity and the need to build a better world, we couldn't help thinking of that train as it crossed Java with its cargo of doomed men.

What were their thoughts as they pitched against the box car walls in the dark, fighting for air? Did they waste breath screaming for help? Did they perhaps repent their "crime" of fighting for the freedom of their country the way the American patriots of 1776 fought for freedom from the foreign tyrant?

As they died, did they spare a thought for the America of 1947 that supplied the arms used by the Dutch imperialists to subjugate their land? Did they recall the American promise during the war to bring them "Four Freedoms?"

The dispatch didn't say anything at all about such things. Nowadays horror and suffering under capitalism isn't news. The murder of 46 Indonesians in sealed box cars isn't worth more than a couple of sentences alongside the cheerful and highly profitable Christmas ads.

Min. (Mrights and r.

The AFL United Mine Workers has served no beaten the miners over the head with mine "seizures," injunctions, troops, million dollar fines and other types of plain and fancy strikebreaking. Every time the miners have fought for better wages, decent working and living conditions or mine safety, the government has done the coal barons' dirty work. No wonder the miners prefer to battle it out with the operators without government interference.

> The miners have learned their lesson. Other workers whose strikes have been busted from Washington have learned this lesson, and more workers will learn it in the not too distant future. The lesson is a simple one. It is that this government, under the thumb of Wall Street, and run by Wall Street's hired hands, always intervenes against the workers.

> Only when the American workers throw these Big Business flunkies out and put in a Workers and Farmers Government will the situation be altered. The way to start is to build a Labor Party now.

mass meeting. I decided to go with the children to see President Roosevelt to ask him to have Congress pass a law prohibiting the exploitation of childhood. I thought that President Roosevelt might see these mill children Thus, the Stalinists themselves and compare them with his own little ones who were spending the summer on the seashore at Oyster Bay.

thought, too, out of politeness, we might call on Morgan in Wall Street who owned the mines where many of these children's fathers worked. . The children were very happy, having plenty to eat,

taking baths in the brooks and rivers every day. I thought when the strike is over and they go back to the mills, they will never have another holiday like this. All along the line of march the farmers drove out to meet us with wagon loads of fruit and vegetables. Their wives brought the children clothes and money. The interurban trainmen would stop their trains and give us free rides.

Marshal Sweeney and I would go ahead to the towns and arrange sleeping quarters for the children, and secure meeting halls. As we marched on, it grew terribly hot. There was no rain and the roads were heavy with dust. From time to time we had to send some of the children tion" on Eniwetok atoll in the heart back to their homes. They were too weak to stand the march.

> Everywhere we had meetings, showing up with living children, the horrors of child labor.

At one town the mayor said we could not hold a meeting because he did not have sufficient police protection. "These little children have never known any sort of protection, your honor," I said, "and they are used to going without it." He let us have our meeting.

I called on the mayor of Princeton and asked for permission to speak opposite the campus of the University. I said I wanted to speak on higher education. The mayor gave me permission. A great crowd gathered, professors and students and the people; and I told them that the rich robbed these little children of any education of the lowest order that they might send their sons and daughters to places of higher education. That they used the hands and feet of little children that they might buy automobiles for their wives and police dogs for their daughters to talk French to. I said the mill owners take babies almost from the cradle. And I showed those professors children in our army who could scarcely read or write because they were working ten hours a day in the silk mills of Pennsylvania.

"Here's a text book on economics," I said, pointing to a little chap, James Ashworth, who was ten years old and who was stooped over like an old man from carrying bundles of yarn that weighed 75 pounds. "He gets \$3 a week and his sister who is 14 gets \$6. They work in a carpet factory 10 hours a day, while the children of the rich are getting their higher education."

That night we camped on the banks of Stony Brook where years and years before the ragged Revolutionary Army camped, Washington's brave soldiers that made their fight for freedom.

We and led in the right direction, will help to build

Truman Pardons

If you're going to be a crook, t pays to be one with political power and influence. This was proved again when President Truman pardoned Mayor James M. Curley of Boston the day before Thanksgiving.

Curley is the head of a corrupt political machine in Massachusetts, through which he has been elected as Governor, member of Congress and twice as Mayor of Boston.

Not satisfied with his political spoils, Curley dabbled in other money-making schemes on the side -an accepted practice among capitalist politicians. This led to some complications, including a conviction for using the mails to defraud, and a/6 to 18 months' term in jail. Although he is a Democrat, Curley managed to get an agreement with his political "opponents" in the Republican state administration, by which he remained Mayor of Boston and continued to draw his \$20.-000 a year salary.

But Curley did not have to serve even the minimum term of six months. Truman took care of that by commuting his sentence and restoring his full civil rights five months after Curley went to jail. In explanation, Truman pointed out that "many, many petitions have been received from men of both political parties for the re-

years younger.

home." A truly touching sentiment -but one that Truman did not This bill to prussianize American draftees. -but one that Truman did not seem touched by in 1946 when he was petitioned to grant a Christmas 17 to register. At 18 he would be tious objectors, whose only "crime" hibits racial discrimination. No Since only officers sit on court pened in the railroad strike, surely in the imperialist war.
