The First 50 Years of the **American Dream**

Just 50 years have passed since that golden day - Jan. 1, 1900

read glorious predictions of the wondrous age that was coming to flower on American soil. Here in a land of opportunity, freed from the ingrown castes and classes of the Old World, in a land of immense resources, industry and "free enterprise," the American people would at last realize man's ancient dream of plenty, security and peace. American science would complete the final conquest of nature, end scarcity, end disease. Every family would have a home; with the furniture paid for and bounty on every table.

Wars and economic crises would be things of the past, they said, and they meant it. Here and there the White Man's guns might

have to bring the blessings of Civilization to remote and backward lands; but bloody strife beunion. tween Christian nations could not In an effort to defeat the appen again. they called it the Century of the American Dream.

All this was to be assured by good old American capitalism. It had a few kinks, but with a bit more lubrication, an adjustment be as much as two years. here and there, the "American system" would soar steadily upward to unimaginable heights of prosperity and social well-being.

Looking back over five decades we can see how far reality has detoured from the American Dream. True enough, science has given us the power to conquer nature. We can speed over earth and under sea and through the sky. We can produce ten times more goods. We have more than doubled the average life expectancy. We have even unlocked the atom -- the key to endless energy. But the American Dream meant something more - the end to the old division of rich and poor, the end of fear and insecurity, the end of oppression and war.

Even as the newspapers of 1900 printed their glorious predictions, the forces were at work in America and the world which were to shatter the American Dream. Giant trusts and monopolies were other action which the parasite spreading their tentacles over American economy. The struggle for world markets, spheres of influence and colonies was lighting the fuse for world war. Millions of immigrant workers were crowding into America to be heaped up in terrible slums. And every few years, which the NLRB secured against

NEW YORK, N. Y., MONDAY, JANUARY 2, 1950

Prepare to Block Any Move To Repeal T-H This Session

As the Democratic-controlled 81st Congress prepares to reconvene for its 1950 session, American labor is being forewarned that the Truman Democrats intend to retreat before reaction all along the

Up to recently, the Trumanites in Congress have said they would continue to push for repeal of the Taft-Hartley Act and for passage f civil rights legislation, alhough they saw no hope for uccess. Now they express opesition even to going through ome of the motions.

Three top Democratic leaders n the Senate last week spoke latly against any move by the 'ruman Administration on the lave Labor Law in the coming ssion Senator Elbert Thomas, hairman of the Senate Labor 'ommittee, said he was "agains" my attempt to repeal the Taft Tartley Law this year." His pinion was echoed by Senat ajority whip Francis Myers and by Senator Hubert Humphrey chairman of Americans for Demo-

cratic Action and white - haired boy of the union leaders. "MAKING THE RECORD"

The Trumanites feel they can et away with this because they are pretty sure that the unioeaders won't want to "embarrass" them politically and will try tr place the sole blame for retentior of Taft-Hartley on the Republicans. But Truman and his Congressional colleagues still have to make some "liberal" gestures and ocean and found fertile, soil in "make the record" on civil rights the ranks of the American Stal- legislation early in the session. They have no intention, of

PRICE: FIVE CENTS

HARRY S. TRUMAN

you can't spend nearly 75 cents out of every federal tax dollar for wars, past and planned, and have much left over for adequate unemployment compensation, health insurance, decent old-age pensions, more housing.

The CIO and AFL leaders are playing along with Truman's tricky game. They have been pulling the same stunt in every election. If the Republicans win, as in 1946, they plead lack of a "progressive" majority in Congress and call on the workers to end Congressional reaction by putting in more Democrats. If burse, of waging any real fight the workers put in more Demo-

It rejected the union's major demand for a wage increase and advocated a wage freeze for all basic industries. As a sop to the union, the board recommended a company - financed insurance and pension program to cost not more than 10 cents an hour per worker.

election promises to labor. When Reuther grabbed for this forthe attempt to repeal the Taft- mula, made a quick deal with Hartley Act went down to Ford and rammed it down the ignominious defeat - even throats of the Ford workers, although the Trumanites were though he encountered unexwilling to accept almost everypectedly powerful opposition and thing of the original act but its suffered a damaging blow to his title - it was clear how illusory prestige in the union.

Murray also grabbed for the pension crumb. But the steel moguis wouldn't vield anything. Truman, instead of putting the heat on the steel companies, kept mum as an oyster. Murray was forced to call a costly 42-day strike to win even the meager recommendations of Truman's own board.

Thus, from first to last, the policies of the union leaders proved bankrupt. They had no gains to show, either in the pay envelopes or in social legislation. Had they been square - shooters with their members, they would have admitted their failures and ried to honestly examine the easons for them.

The above scene from one of the two mob assaults on concertgoers at Peekskill, N. Y., last summer symbolizes the disastrous consequences of cold war "anti-communist" propaganda on the state of civil liberties in the United States.

the overthrow of capitalism Devaluation as a means of closing the gap of the "dollar shortage' will have little effect unles: accompanied by a drive to lower the living standards of European workers - which may lead to the direct consequences in terms of capitalist stability.

Economic crisis in Western Europe will inevitably be extended into and combine with the economic crisis in the U.S. Unification of the European economies now competing with one another, destruction of national trade barriers, national zation -industry under workers' control and genuine planning alone ca solve Europe's economic problems But such measures are more abhorrent to capitalism than holy water is reputed to be to the devil. That's why U.S. imperialism is so concerned about the economic maladies of Western Europe — and why it's doomed not to find a cure for them.

STALIN'S TROUBLES

The political and economic crisis wracking Stalinism in Eastern Europe is no less insoluble. All of the Kremlin's efforts to smash, the resistance of the Yugoslavs. expelled from the Cominform in 1948, met with dismal failure in 1949, and sympathy for the Yugoslavs has spread into every Stalinist party in Europe. The Cominform had to devote virtually all its attention to fighting "Titoism" last year.

Stalin, unable to export the pro ducts needed by the people of Eastern Europe, exported Moscow trials and blood purges instead. Xoxe was executed in Albania. Rajk in Hungary, Kostov in Bulgaria, Gomulka was disgraced in Poland, Markos was removed in Greece, and heads fell elsewhere from men who had occupied leading positions in the international Stalinist hierarchy. The infection of "Titoism" spread to France, Germany, Italy and Norway; can there be any doubt that its effects made their way even among the oppressed nations in the Soviet Union itself?

The Kremlin bureaucracy i sitting on a powderkeg too, just like the imperialists. It enjoys so little support in its satellite domains that it cannot even find

Civil Liberties Were Attacked On Every Front

By George Breitman Never before in United States history were civil liberties undermined and attacked on so many

The Washington - Moscow duel

fronts as in 1949. The capitalist slass and its government scored new advances in their transformation of the country into a police state, but they did not have it all their own way. For in this same period mass resistance, even 'hough it was still unorganized on the whole, began to express itself in opposition to the growing infringements on the Bill of Rights and to recognize the need for united action against the witch-hunters.

The aim of the ruling class is to achieve political conformity to intimidate dissidents, to discourage the development of any movement that might challenge

the rule of capitalism and all its works - imperialist war, militarization, economic insecurity racial oppression. In a word, thought-control.

THE METHODS USED

And to obtain it, no method is too reactionary to be used: purges, blacklists, trials, introduction of the practice of conviction without trial, acceptance of the doctrine of guilt by association, presumption of guilt in the absence of proved innocence, deportations, employment of stoolpigeons. "loyalty" oaths, laws, violations of the law like wire-

tapping, demagogy, assumption of arbitrary and unconstitutional powers through executive decree, perfection of plans for military EXTENSION OF PURGE dictatorship, incitement of mass hysteria and mob violence.

The ostensible target of this assuming that it applied only to affidavits. drive is the Communist Party, government employees. How which is widely discredited and wrong they were was shown last hated as an apologist and agent year. The purge blacklist was of the Kremlin. But as was proved

UNION WITCH-HUNT

Instead, they covered up their own failures with a hue and cry against the "Communists." It is true this fitted in with the "cold war" of American imperialism and its State Department. But the exceptional virulence of their drive reflected to a large extent the union leaderships' fear of any discussion or differences over heir policies which directly affected the workers' immediate interests.

In the CIO particularly, the top bureaucrats drove to silence all opposition and concentrated all ower in their own hands. The climax was reached at the recent CIO convention in an orgy of anti-"communism" in which the needs of the CIO workers were simply brushed aside. The Murray machine voted itself unprecedented centralized authority over CIO affiliates and established discriminatory political conditions for full membership rights. by barring "Communists" from holding national CIO office. It expelled the United Electrical Workers and established machinery for the expulsion of other Stalinistled unions.

This purge - begun against he discredited and vulnerable Stalinists — is being extended to anyone who dares to disagree in my way with the Murray mahine and its "CIO National Policy." Thus, in the National Maritime Union, the Curran machine, following the CIO convention, ran rough-shod over the rank-and-file. All who oppose cluding outstanding anti - Stalinists - are being victimized. He did not even hesitate to call in the cops to suppress the majority opposition in New York.

The labor events of 1949 place on the top of the agenda for progressive unionists in 1950 the clarified and popularized the prin- wing based on a program of milifield.

LENIN

Vol. XIV - No. 1

"A totalitarian regime, whether of Stalinist or fascist type, by its very essence can be only a temporary transitional regime. Naked dictatorship in history has generally been the product and the symptom of an especially severe social crisis, and not at all of a stable regime. Severe crisis cannot be a permanent condition of society. A totalitarian state is capable of suppressing social contradictions during a certain period, but it is incapable of perpetuating itself. The monstrous purges in the USSR are most convincing testimony of the fact that Soviet society organically tends toward ejection of the bureauc-

TROTSKY

-Leon Trotsky, In Defense of Marxism, 1939,

"Secret" that Was No Secret The

The Atomic Energy Commission has for years held documentary proof that the Soviet Union has possessed all the basic theoretical knowledge about the "secret" of the atom-bomb since 1940. That is the year when the U.S. government began its first tentative moves to investigate the possibilities of developing an atomic weapon and a year before this country got into the war.

But it was not until last week that officials of the AEC revealed translations of Russian scientific documents, published in 1940, which show that Soviet scientists long ago had all the essential information to develop an atomic bomb — the bomb about which Truman informed the world last Sept. 23. A score of U.S. libraries, including the Library of Congress, also possess copies of these documents.

These documents had been published openly by the Russian government, but the translation of them in this country had been stamped "secret" by officials of the Army's Manhattan District atomic propect to conceal the fact that the U.S. was collecting information about the Russian "secrets."

The facts about the Soviet documents and their possession by the AEC, revealed in an extensive United Press dispatch from Washington on Dec 23, throw a new light on the spy-scare and witch-hunt that the government has whipped up over the past three years to terrorize and silence all who oppose Truman's "cold war" policies.

Washington authorities - including Truman - knew all along that there was no real "secret" about the atomic bomb. In fact the very scientists who worked on the atomic project and were best informed on the matter repeatedly stated that there was no "secret."

But the witch-hunters in Washington took advantage of the average person's ignorance about the new atomic wonder. They drowned out the voices of the scientists with their Hollywood-like Congressional "investigations" of "spies" and "Communists." Truman steamed it up with his "loyalty" purge of government employees and spy trials. Lurid stories were ballyhooed in the press and over the radio about "leakages" of atomic "secrets."

But the only real "atomic spy plot" has turned out to be the plot of the warmongers and police-staters in Washington to muzzle free opinion in America under the pretext of safeguarding atomic "secrets" which Russian scientists described in public prints nine years ago.

The Purge in the Plants

The Dec. 12 Militant pointed out that the Department of Defense has set up a four-man Industrial Employment Review Board to act as an "appeals body" for workers fired out of plants with government contracts on political, "moral" or other grounds.

We denounced this move as a fraud because the members of the board are appointed by the Department of Defense itself, and because the board will be bound by the Attorney General's arbitrarily-selected "subversive" list, which is used as the basis of the purge in the plants just as it is used in the purge of government employees.

designed by the Department of Defense to avoid complaints of "military arbitrariness" in the future. And the United Automobile Worker says: "While the charter, procedure and criteria governing the actions of the new board do not go the whole way in meeting the standards of due process of law demanded in reso-

lutions on loyalty and security investigations and dismissals adopted by the UAW-CIO and the 1949 CIO Convention, they do represent a long step in that direction."

The chief thing that seems to impress both these papers about the new board is that it permits purged workers to be rep-

resented by their unions in appeal hear-

ings. But that fact does not alter the

By George Breitman

An organized opposition, backed by the Yugoslavs, now exists n the Communist Party of France. A bulletin entitled 'La Lutte' (The Struggle) is now being circulated among the membership.

The bulletin gives the impression that it is put out by a politicers. . . The Fourth International ally educated group, experienced in the underground methods necessary for oppositional activity in the French Stalinist party.

Independent confirmation of this group's existence comes from the Central Committee of the French CP which has put the "strug-"Despite the isolation into gle against Titoism" formally on its agenda for the first time since Tito was denounced by the Cominform.

While there is no way of estimating the size of the opposition t appears to have support in the proletarian strongholds of the party - particularly among the miners of the North and the metal workers of the Paris region.

The orientation of this opposition group may be judged by the in every country where it has following summaries and extracts of articles in its bulletin, La Lutte.

In a piece entitled "Neither Titoists nor Stalinists, but Marxist-Leninists" it is told how CP leaders and functionaries of the CGT (Stalinist-controlled union federation) have been campaigning against those groups that meet "to study the problems facing the Yugoslav people in building socialism while preserving its national independence." Involved here, of course, is the rising opposition to the ruthless campaign of the Kremlin bureaucracy against Yugo-

Another article tries sharply to differentiate the opposition from the French Trotskyists: "Our movement has nothing in common with the maneuvers of the small Trotskyist groups, even though one of them dares present itself as a defender of the Yugoslav people. We know that they have never ceased to oppose the building of socialism. While claiming to lend their aid to the Yugoslav people - who have no need of it - they continue to serve as the conscious or unconscious tools of capitalism and to play the game of the leaders of the Soviet Union." While the charge of Trotskyists being 'tools of capitalism" is part of the miseducation these people received during their long stay in the Stalinist movement, the charge that Trotskyists play the Kremlin's game must be acknowledged as an riginal slander among CP members. The article continues: "The Budapest Trial with its Brankovs and Pals would convince us of this, if further proof were necessary. These notorious Trotskyists 'confessed' to all the charges brought against them by the prosecution although a few months earlier they had been designated as 'consistent revolutionists' in the fight against Tito.'

Of course neither Brankov nor Pal were ever Trotskyists any nore than Tito is a Trotskyist just because he is labelled such by the Kremlin. By citing as "proof" fraudulent "confessions" from the Cominform frameups, the French Titoists nullify one of their own important aims — that of exposing these trials as frameups aimed at the Yugoslavs.

But the most significant section of the bulletin is the resolution of the opposition committees of the North and of Pas-de-Calais. It is significant because an attempt is made to review the past policy of the party and to reject it as false. Here, whether they like it or not, whether they know it or not, the French Titoists are compelled to restate many of the criticisms raised long ago by the French Trotskyists.

This resolution describes the blind alley in which the Communist Party now finds itself and then tells how this situation developed. Recalling the tremendous and rapid growth of the CP during the Hitlerite occupation and the simultaneous loss of popular support by the capitalist and Social-Democratic parties, the resolution concludes that by the time of the "liberation," General de Gaulle "was our prisoner who had to negotiate with Stalin at Moscow. . . In addition to the Party, a decisive section of the masses gravitated to us; no field of activity escaped our control."

"Divided into Petainists and Gaullists, the bourgeoisie was destroying itself before our very eyes. The working class, the middle classes, the fiery youth of the maquis and underground, a section of the peasantry, all the active layers of the population put their sole hope in the Communist Party. For the success of the revolution and the beginning of socialism, a violent overthrow was not even necessary. A few kicks in the pants would have been sufficient to dislodge those reactionary elements who, without conviction, hung on to their posts. "The expropriation of the capitalists would have been an accomplished fact. And can anyone believe that the movement would have been limited to France? Italy would have been able to follow us immediately, Germany, finally freed from fascism, would have remembered, despite the American occupation, that it was the fatherland of Marx, Liebknecht and Luxemburg. The movement would have quickly reached Spain. . . When one remembers that in one year communism could have triumphed in all Europe, we bitterly condemn the party leaders for having let this opportunity pass without making the slightest attempt to take advantage of such an historic situation. . . Instead they divided the revolutionary forces. . . accentuated nationalistic hatreds and forced the workers back under the capitalists to produce more for a capitalist society that has to be overthrown in order to build socialism."

Under the previous procedure a worker could be fired for "membership in or sympathetic association with" any of the organizations on this list. Under the new procedure exactly the same system will prevail. It will not help the worker any to point out to the "appeals" board that his organization is not "subversive" and that it was never even given a hearing at which it could examine or answer the charges against it; so far as the board is concerned, the illegal "subversive" list has the force of law.

All this is as well known to the CIO leaders as it is to us. Yet the CIO News writes of the new board as something

New Status of Indonesia

After a rule of almost 350 years the Dutch colonialists found themselves unable to retain direct rule over the fabulously wealthy empire of Indonesia and its 77 million inhabitants. For four years they waged war with American munitions and funds to reimpose upon the insurgent masses their "model" colonial enslavement and finally had to agree to share power with the native Indonesian capitalists.

With martial law still in effect through most of the territories, the Indonesian peoples were told that they were henceforth independent, becoming "free and equal partners" in a Netherlands-Indonesian Union where the ultimate "legal sovereignty" still remains with the crown of the Netherlands. The Dutch retain their major holdings in the vast archipelago and the population has been loaded with a huge debt in return for the meager economic concessions made by the Dutch.

The rise to power of the Indonesian bourgeoisie, personified by President Sukarno and Premier Hatta, has resulted, as in the case of India, Burma and Ceylon, from the utter decay of the reigning colonial power. The Dutch bourgeoisie, like the British, are unable any longer to rule in their own name in their former colonies. The chief beneficiaries of the disintegration of European imperialism have thus far proved to be the various native bourgeoisies in the Far East. The pressure of American imperialism, which seeks to benefit from the break-up of the old colonial empires, played a significant but subordinate role in the developments. Wall Street, to be sure, prefers to see Indonesia, like the rest of the Far East, turned into an "independent" preserve open to its economic penetration like the Philippines. But what proved decisive in the case of Indonesia, as previously in India, was the weakness of respective imperialist bourgeoisies, on the one side, and the revolutionary upsurge of the native peoples, on the other. Faced with the prospect of losing everything, the Dutch grudgingly followed in the footsteps of the British and granted part-

nership to the Indonesian bourgeoisie. While genuine independence has been far from achieved, the stranglehold of the Dutch has been broken beyond repair. The Indonesian people have taken a partial but nonetheless important step on the road of complete emancipation. History will show that the Sukarnos and the Hattas, like the Nehrus, are chance and episodic figures; neither they nor their class have any future. The future in the Far East belongs to the workers who alone can carry out the tasks of the bourgeois revolution in the colonies, including the achievement of complete national independence.

that you are prepared to utilize ization of the revolutionary movement? Is the internationalization of the workers' movement less real than in 1919?"

'Atomic Energy and Capitalist Society'

Coming in The Militant: A series of educational articles on the development of atomic energy and its political and social consequences.

The well-known Marxist. Arne Swabeck, explains the basic facts about matter and energy in clear, understandable language. He shows why the startling new atomic discoveries face humanity with the greatest dilemma in its history: a world of boundless plenty under socialism or a world of radioactive ruins if capitalism is continued.

How does Russian possession of the atom bomb affect Wall Street's plans for another world war? Read the answer in this forthcoming series. Make sure you don't miss a

Two Birthdays in Moscow

By John G. Wright

Stalin's 70th birthday reproduced before the eyes of the whole world the revolting spectacles of adulation and deification in which the despots in antiquity, especially in Asia, so loved to indulge. The Asiatic custom of deifying rulers was adopted in Rome when the decay of that slave empire set in. But even then only the most depraved of the emperors demanded and was accorded homage due him as a divinity in his own lifetime. Like the Caligulas and Neros of ancient Rome. Stalin took part in the ceremonies, making one of his rare public appearances in Bolshoi Theatre to accept the halo of divinity and the frenzied acclaim of a handpicked retinue. One aspect of the ceremonies was unique - Stalin had not a single word of thanks for the accolades and gifts showered upon him.

But the depths of degeneration to which Stalin and his regime have sunk can be illustrated not by comparison with ancient times, nor even with the birthdays of the Czars. We need go back only a brief 29 years. It was April 23, 1920. The place was again Moscow. The occasion was the 50th birthday of a truly great man - Lenin.

The Moscow organization of the Russian Bolshevik Party decided to honor Lenin's birthday with a banquet. The guest of honor communicated his thanks but refused to be present. As Leon Trotsky explained, Lenin generally "was not fond of such projects." In this particular instance, he disapproved all the more strongly because the civil war was then still in progress.

Only one memento of this occasion has survived. It is a thin booklet on the poorest of newsprint containing the jubilee speeches of the participants published by the Moscow Party Committee. It is the rarest of Soviet bibliographical rarities. It has been forgotten by everybody in

thur Koestler and Louis Fischer have undertaken

to relate their experiences makes this book wor-

thy of attention. (Harper, 1950, 273 pp., \$3.50.)

munist Panty because of "the rapid disintegra-

tion of moral values, of the pre-1914 pattern of

life in postwar Europe, and the simultaneous lure

of the new revelation which had come from the

East." These were more or less the reasons why

the six authors of this book along with many

other intellectuals worked with the Communist

parties in the Twenties and Thirties. Within a

few years all these intellectuals, almost as a

disciplined unit, were to move away from the

Communist parties. There are many lessons in

German CP, witnessed the failure of the Com-

munist Party in stopping the rise of Hitler to

power. But it took the Spanish Civil War, in the

course of which Koestler was able to see that

the CP.

Koestler notes that he joined the German Com-

the Soviet Union; even to mention it, has for years been a capital crime in the Soviet Union.

Stalin was one of the jubilee speakers (the other main speakers were long ago murdered by him). Stalin, who as a rule prefers to keep his mouth shut in public, chose this time to deliver a brief speech, and in praise of Lenin he singled out only one of Lenin's traits -- "one trait about which no one has yet spoken; namely, modesty, the admission of his mistakes.'

It would take us too far afield to treat with the "two mistakes" which Lenin, according to Stalin, admitted, and which Stalin saw fit to single out at the time. We refer the interested readers to the book, The Stalin School of Falsification by Leon Trotsky, where the whole episode is amply clarified.

Suffice it here to recall not so much the genuine modesty of Lenin and his scrupulousness in always admitting his own mistakes but rather the now also forgotten fact that for years Stalin used to pose as the most "modest" of Lenin's disciples. For years after Lenin died, Stalin donned a simple soldier's tunic and rough boots and carefully kept to the background. The real Stalin could emerge only when the events of the Russian Revolution were no longer fresh in the minds of all; only when the real disposition of figures on the historical scene and Stalin's own minor role in the great events had been falsified beyond recognition; only when the party of Lenin and his international had been completely destroyed.

The two birthdays-Lenin's in 1920 and Stalin's in 1949-provide an excellent gauge of the abyss between Stalin and Lenin, between Stalinism and Leninism.

Thousands of Jobless in Ypsilanti Thrown on Relief, Face Evictions

Although 1949 was the year of peak postwar production and profits for the auto industry, one of the worst "distress" areas in the country is to be found in a comnunity 30 miles west of Detroit.

According to official estimates It is the Ypsilanti area where current employment in the area conditions among thousands of is about 7,000; last year the working class families are so bad number of employed amounted to that one state official has declared. 18,000, or a drop in employment that by comparison "they make of about 60 percent. 1932 look like a time of plenty."

NUMBER 1

Hundreds of families are reported as facing eviction because of inability to meet the rent. Welfare officials say they have enough funds for immediate needs but refuse to say how long these funds will last.

Local officials and civic groups have been holding "emergency" meetings where a great deal of concern is expressed but nothing is done to alleviate the plight of

A Friend who came to New

The Tresca Murder Case

Notes from the News

Intellectual D.P.'s

By Arthur Kent

NEW YORK CITY, Dec. 28 - Failure of District Attorney Frank S. Hogan's office to solve the Carlo Tresca murder case was cited today by Norman Thomas as giving "clear and open encouragement" to the gangsters who have since murdered Joseph Scottoriggio, Republican political worker, and William Lurye, organizer for the International Ladies Garment Workers Union.

Thomas, as head of the Tresca Memorial Committee, voiced this criticism in announcing plans to honor Tresca on Wed., Jan. 11, seventh anniversary of his death.

The 1950 commemoration of this crime will be held at 8:15 o'clock that night at the northwest corner of Fifth Ave. and 15th St., where the editor of the anti-totalitarian Italian journal Il Martello (The Hammer) was shot down in the 1943 war dim-out. Short speeches in English and Italian will be climaxed by the dropping of red carnations where Tresca fell. If the weather should be unfavorable, the speaking will take place in the Rand School auditorium, 7 East 15th St.

"Seven years after Tresca's murder." Thomas said. "I do not believe that the District Attorney's office exerted itself to the utmost in investigating it. I say this after scanning a current report of that office for 1946-1948. It gives four pages to the Scottoriggio killing, which it calls a political crime, and says 'The investigation continues.' But,

as in several of Mr. Hogan's previous reports, the Tresca case is not even mentioned.

"This is profoundly disturbing to me, and to many of Carlo's friends, who feel that Mr. Hosignifies that he and his staff would prefer not Fair Rent Committee, speaking to be reminded of their failure to bring the Tresca, for the landlords. So clear was killers to justice. That failure, to my mind, gave this to everyone, including the clear and open encouragement to the gangsters Board itself, that 45 minutes each who afterward murdered Scottoriggio and Lurye. "There is ample reason to believe that the

Tresca slaying also was political, that he was ambushed because of his relentless opposition to one of the totalitarian movements, two of which were under suspicion from the start. So why does the prosecutor's office say it will go on hunting for Scottoriggio's slayers, and not even make the gesture of such a promise in the Tresca case?"

Thomas also declared that Hogan, in assigning Assistant District Attorney Louis Pagnucco to question Benjamin Gitlow about the Tresca case before a grand jury last February, violated a 1944 pledge that Pagnucco would not be permit- tical proof that the landlords are ted to examine any new witnesses in this case. That pledge was made, Thomas said, "after Attorney Morris L. Ernst and others presented docu- the testimony of Dr. Philip Haus- and the presence of its spokesmen mentary evidence showing that Pagnucco had been closely associated with Fascists in the past who proved that the landlords' and had been honored by the Mussolini government.'

> Order from SOCIALIST WORKERS PARTY 116 University Place New York 3, N. Y.

FRIENDS OF A. J. MUSTE are planning to celebrate his 65th birthday by a party at the Community Church, 40 East 35th St., New York City, on Sat., Jan. 14 at 8 P.M. Muste, who was an active figure in the labor movement in the 20's and 30's and for a time belonged to the Trotskyist movement, is now a militant pacifist. He will give a report at the party on his recent trip to India.

ROGER BALDWIN'S SUCCESSOR as director of the American Civil Liberties Union will be Prof. Patrick M. Malin, 46-year-old member of the economic department at Swarthmore College, who has been active in the Society of Friends (Quakers), has held several administrative posts in Washington and is described "an independent in politics."
