3 Rulings Leave "Separate But Equal'' Doctrine Intact

Truman's Supreme Court, ruling in three test cases on June 5, refused to declare segregation of Negroes in the use of public facilities to be unconstitutional. It thereby continued to uphold its 54-year-?

old "separate but equal" doctrine and every other sphere of life, particularly in the South. Only a that has meant, in practice, inment for the Negro people. This point must be stressed

Negro leaders have hailed the groes. court's decisions in the McLaurin, Sweatt and Henderson cases as a

'ban on segregation." The court ruled that the state

of Texas must admit Heman Marion Sweatt, a Negro student, to the all-white University of Texas Law School, instead of forcing him to attend a new segregated Negro law school. The decision was made on the grounds that the education offered the appellant in the Negro school was not "substantially equal to that which he would receive if admitted to the University of Texas Law School."

BASIC ISSUE DUCKED

rule on the constitutional question of "separate but equal" treatment. Thus, Texas can still deny Negroes access to "white" uni-

versities if it provides them segregated schools deemed "equal" in the education offered. Similarly, the court held that G. W. McLaurin, a University of

> A \$40 payment from St. Paul put the Twin Cities in third place with 64%.

In addition to the above three oranches, Lynn, New York, and Newark are ahead of schedule in the campaign, having achieved more than 58% of their quotas.

There was considerable jockeying for positions during the week. Two payments from Buffalo totaling \$73 shot this branch from twelfth place to tie West Virginia in eighth place with 52%.

Chicago bettered its position by wo places with a \$30 payment, reaching 49% of its quota.

B. Jay, who has recently been placed in charge of finances in San Francisco, sent in a \$257 payment, which pulled the branch from a low scoreboard position up to 47%.

Milwaukee made a big gain . with a \$35 payment, tying Con-

MARXISM AND **Mountain Spring** THE NEGRO

Another issue of Fourth International you'll enjoy from cover to cover! A whole issue on one of the most important problems facing America, the struggle for Negro equality. Gives you a sweeping vision of the mighty social forces in conflict today in our country and how they affect the fight against Jim Crow. Explains the tie-up between labor's battles and those of the Negro people. Tells you about the great contributions the Negro people have made in the struggle for a better world. Forecasts the still greater contributions they are destined to make in the future. All in the May-June issue of Fourth International:

1. Equality Under the Welfare State

The editors of Fourth International, theoretical magazine of American Trotskyism, put Truman's civil rights program on the dissecting table and show you what the insides really look like. Not a pleasant sight but highly educational!

2. Stalinism & Negro Intellectuals

Fred Hart discusses the powerful attraction Marxism has for Negro thinkers. It comes from their thirst for a scientific explanation of a society that rejects them because of the color of their skin. But Marxism and Stalinism are two different things and if you mix them up the pay-off is disaster to the struggle for full equality. Hart tells the real score about Paul Robeson and calls for new leaders to follow the revolutionary tradition of Frederick Douglass.

3. Negro Workers and the CIO

An expert on trade union problems, C. Thomas, takes up the big gains Negro workers have made in the struggle for equality in the organized labor movement. Thomas pulls no punches in his exposure of the resistance many top union bureaucrats are putting up to full Negro representation. You can't lick Taft-Hartleyism, says Thomas, without battering down Jim Crow prejudices and getting together on the political field against the Republican-Democrat coalition.

4. The NAACP at the Crossroads

This should be read by everyone interested in winning the struggle for Negro equality because it deals with a problem bigger than the NAACP - the problem of effective leadership. After spectacular growth, the NAACP within three years has lost half its membership. What is the reason for this ominous decline? Can it be remedied? Read the thoughtprovoking answer by Jean Blake.

5. W.E.B. Du Bois and His Work .

In a study that is more than a high tribute to the 81-year-old Negro leader, William Gorman considers the great life-time problem faced by Du Bois. It is the same central problem faced by every Negro of great talent concerned about the fate of his people. The portrait of Du Bois is the portrait of the Negro

thinker in twentieth-century America. How close did Du Bois come to finding the correct answers? Every student of Du Bois will appreciate this realistic appraisal of their gifted teacher. And if you have not yet got acquainted with Du Bois' works, we recommend this article as an introduction that's hard to beat.

6. Two Lessons of Reconstruction

The well-known Marxist writer, William F. Warde, needs no introduction to regular readers of Fourth International, who have already acclaimed his illuminating articles on phases of American history ignored or distorted by capitalist-minded historians. Focussing on the Reconstruction period in the South following the Civil War, Warde outlines the struggle between the Negro people and the former slaveholders, showing that the only time the Negroes in the South enjoyed democracy was under a dictatorship directed against the dealers in human flesh. From these decisive events. Warde draws two lessons of crucial importance in today's struggle for Negro equality. What are these two lessons? Learn the answers in this Marxist study.

7. Negro Liberation Through

Revolutionary Socialism

This is a resolution outlining the position of the Socialist Workers Party on the Negro struggle. We invite you to read the platforms of all the other political parties and compare them with this resolution. Then you'll understand what we mean when we say that the Trotskyists try to practice what they preach. If you're tired of the syrup and the lies, the gladhand rush and the run-around you'll appreciate the blunt truth that's in this resolution. A basic analysis of the real place of the Negro people in America and the tremendous economic and social forces now shaping a brilliant future for them hand in hand with labor as leaders of the American people in moving forward to the bright new world of socialism.

You'll want to keep this issue of Fourth International for study and future reference. When your friends want to borrow your copy, give them an extra one. They'll appreciate your forethought. You can get extra copies for only 20 cents each in bundles of five or more. Send the coupon in today.

LENIN

TROTSKY

- Leon Trotsky, First Five Years of the Comintern, 1920,

Getting Truman "Off the Hook"

"Fair Deal Democrats are toasting Chief Justice Vinson and his associates with fervor. They believe that the court Tby its decisions in the Sweatt. McLaurin and Henderson segregation cases] has taken the Truman administration off the hook on civil rights for the present. They say they are not now obliged to make a sacrificial effort to pass the compulsory FEPC law and thus prolong the session [of Congress] when they want to be campaigning." So writes Washington columnist Doris Fleeson in the June 7 N. Y. Post in a report on "the immediate political effects" of the court's decisions.

The political effects — taking the Trumanites "off the hook on civil rights" ---were of course the paramount consideration behind the court's action. It's all part of a fancy maneuver to make the Negro people think they are getting, or about to get, some real concessions. But in essence it is only another gesture a gesture to give the appearance of basic action against segregation, while in reality withholding the substance of such action.

The shysters on the bench no longer dare to uphold segregation openly. At the same time they have no intention of fundamentally upsetting or undermining the Jim Crow system which the ruling class has fostered and profited from for so

many decades. So they got around the dilemma by tossing the Negroes a few crumbs as a result of which a few Negroes may have a better chance of getting into a "white" university or a seat in a dining car down South. And at the same time they turned a deaf ear to the NAACP's plea that they outlaw the court's "separate but equal" doctrine --the main constitutional prop of segregation.

No wonder that when the court decisions were announced, Chief Justice Vinson, according to one commentator, "looked like a genial cat who had swallowed a particularly juicy canary." Vinson (and Truman) had every reason to be satisfied with themselves. It was a case of two birds being killed without any stones.

The fight against segregation will have to continue. And it will make faster progress if all deceptive claims about the "benevolent" attitude of the capitalist government and all its institutions are vigorously challenged and effectively exposed. The Negro people are going to remain the victims of segregation until doomsday if they make the mistake of depending on Truman and the courts. Only the militant, independent action of the Negroes and their labor and liberal allies will overturn the Jim Crow system that has been left untouched by the latest court decisions.

"Democracy" -- MacArthur Style

In the name of preserving "Japan's democratic institutions," Gen. Douglas MacArthur on June 6 sent the following order to Premier Shigeru Yoshida: "I direct that your Government take the necessary administrative measures to remove and exclude the following persons ... from public service and render them subject to the prohibitions, restrictions and liabilities of my directives on Jan.

Hence he establishes the policy that elected officials may be removed from public office by mere executive decree. Not the democratic will of the electorate is to determine who sits in Parliament, but the Japanese Premier acting under MacArthur's supervision. Whenever Mac-Arthur doesn't like persons elected by the Japanese people, he just orders the Japanese government to kick them out.

But the real irony and hypocrisy of

GE Vote in Cleveland Follows National Trend

CLEVELAND, JUNE 3 - Over, they allowed to participate in his attackers and it is still no

members of Amalgamated Local activities. The IUE leaders un-767, went to the polls here last doubtedly were under a great week to choose between the IUE- from their International as well CIO and the Stalinist- led independent United Electrical Work- offices. rs.

The results showed nearly a wo-to-one majority voting for the District Director of the goon-CIO, but following the pattern in ridden CIO Steel Workers. Donthe rest of the country this was by no means an overwhelming victory.

23 separate bargaining units. leaders and supporters. Twelve of these units were won REPERCUSSIONS by the IUE; four by the UE; and

in the remaining seven, the results were indecisive, requiring run-off vote. The principal factor which dis-

inguished the election campaign ere from that conducted in most parts of the country was the almost complete absence of redbaiting. The incumbent officers of Local 707 were elected a year age in a straight trade union campaign against the previous Stalinist leadership. In that electior campaign, which they won by wo-to-one majority, they refrain-

ed from all red-baiting, rejecting the "anti-Communist" label and referred to themselves as "non-Communist." This was done con sciously and deliberately to dis tinguish themselves from the red baiters.

The events and pressures of the last year and a half have not fundamentally altered the attitude of the local leaders on the question of red-baiting. The IUE-CIO, under the leadership of Local 707 President David Fitzmaurice. conducted a clean, hard - hitting campaign on the fundamental trade union issues involved.

STALINIST COMPLAINT

The Stalinist UE leaders, recognizing the effectiveness of such a campaign, issued a leaflet, reproaching Fitzmaurice for not red-baiting them, since this was the issue on which they were thrown out of the CIO and on which the IUE International was conducting the campaign. They intimated that Fitzmaurice should

stick to the main issue. Throughout the GE campaign,

the IUE locals were deluged with bundles of slick - printed folders and leaflets from the Washington office of the IUE. Some of these were on trade union issues but most of them were hysterical redwhite-and-blue red - baiting material. Only in the last days of the campaign did the local IUE

3,000 General Electric employees, some of the election campaign known who they were.

FRENCH YOUTH DEFY CP, GO AHEAD WITH PLANS FOR YUGOSLAV BRIGADE

PARIS - The central bureau of the national committee to initiate the sending of youth work brigades to Yugoslavia, which was organized April 9 and publishes a paper, The Brigade, held a press conference May 16 that was attended by a dozen French and foreign journalists. At this conference the bureau members described the activities and aims of the committee and replied to numerous questions from representatives of the press.

First tracing the circumstances leading to the creation of the National Initiating Committee, a Bureau member stated: "We have the sole aim of making known the truth about a country which is reviled today by its admirers of yesterday; it has no other supporters than the youth whose only weapon is their good faith. Our project has aroused in certain circles, and especially in the leadership of the French Communist party, strong indignation, recrimination, and even threats."

Over 1,500 Already Enrolled

The speakers then reviewed the different aspects of the campaign now being bitterly conducted by the Cominform partisans in France against the youths' departure to Yugoslavia, and declared: We do not intend to permit ourselves to be moved by the accusations, the injuries and even the threats. On the contrary, we have decided to go forward to the end with our efforts, to reply to all the accusations directed against us and to justify the action we are undertaking in the eyes of world public opinion

The campaign to send youth brigades to Yugoslavia this coming summer is enjoying great success, the speakers said. Over 1,500 youth have already enrolled to leave, although the campaign began only a month ago. Among these youth, despite Cominform pressure, are many brigadiers of the years 1947 and 1948. These veteran brigadiers compose half of the Central Bureau.

Replying to the journalists' questions, the speakers underlined that the National Initiating Committee was independent of all political parties, of all cultural groups, of all states and especially the Yugoslav state. Its resources, they said, come solely from the distribution of their paper, The Brigade, which is steadily growing, subsistence from the youth who enroll, income from various cultural and educational activities, as well as from a subscription list devised to permit less privileged youth to make the trip.

How the Committee Functions

To the question about discrimination of a political, religious or philosophical character on the part of the committee for recruiting the youth, the speakers replied that all youth without distinction of beliefs can participate in the work brigades in Yugoslavia, except for fascists and those who have displayed hostility towards socialism in general. These latter cannot be permitted to enter the brigade for the recruiting is conducted on the local levels by committees which have an effective control over candidates that they know.

3.4

Committees already exist in 47 departments of France; there are 7 departmental committees and numerous others are being constituted. Replying to another question, the speakers stated that numerous youth of North Africa and other colonial regions have already enrolled in the brigade as well as emigre foreign workers. The National Initiating Committee is already in contact with similar committees in England, Holland and other countries, and got some of these contacts from the Peoples Youth of Yugoslavia.

Will Make the Truth Known

To the inquiry whether it was correct, as the French Communist Party press states, that the 1950 brigade will be employed on military projects in Yugoslavia, the speakers replied that was a pure calumny and that the young people will actually participate in the building of the University City of New Belgrade.

After announcing that the departures will occur between July the elections are not definitive in 1 and Sept. 15 and that the extent of the stay in Yugoslavia will A polarization of forces took themselves; everything will de- be one month, with 15 days' free travelling within the country, the place. The anti-labor vote was pend finally on the militancy of speakers concluded with these words:

"Since the end of the war it has become a tradition for prodistribute any of this material, and the anti-Leopoldist vote result of the election will be, we gressive youth of different countries to be invited to each of the and then only a couple of the mainly on the Socialist Party, must work for a total mobiliza- popular democracies to participate in the

the popular vote, the Social inists. But this was no great working class - which certainly Leopoldist victory. In the March has not become weaker since 12 referendum the Leopoldists 1949. The reactionaries have al-

held on June 4.

got a majority of 57%; on June 4 only 48%.

4, 1946, and their implementing ordinances."

There followed the names of the 24 members of the Central Committee of the Japanese Communist Party, including seven elected members of Parliament.

What first strikes the eye about this order to preserve "democracy" is that it calls for "administrative measures" to deprive persons of their civil rights and subject them to punishment and restrictions which the occupation authorities originally decreed for "war criminals." That is, these persons are to be convicted and penalized without trial by jury.

MacArthur's order covers not only appointive government jobs - in which sense he is merely imitating Truman's "loyalty" purge of government workers in this country - but all "public service," which includes elective offices.

Revive the Scottsboro Fight

The publication of Scottsboro Boy, the book by Haywood Patterson and Earl Conrad (reviewed in last week's Militant), has revived interest in the 19-year old Scottsboro case and in action to win pardons for the two victims of that frameup who are still wanted by the Alabama authorities.

I. F. Stone, crusading columnist of the N. Y. Daily Compass who helped get Scottsboro Boy published, has called for the formation of a national committee that will work to win pardons for Haywood Patterson, a fugitive, and Clarence Norris, wanted for violation of parole; and for "the cleanup of the prisons and prison camps in which human beings, black and white, are driven like doomed creatures on slops of food the pigs turn away from."

The Militant hails Stone's proposal and urges the widest possible support for such a campaign by the labor, liberal and Negro movements. Stone has gone to Alabama to investigate the situation. His initial reports from there indicate that there is little chance for action in Alabama unless the pardon campaign for Patterson and Norris receives the backing of a powerful mass movement

a Gen. MacArthur is even in Japan and issuing any kind of order at all tells us the true nature of the "democratic institutions" there.

as though the latter were an office boy.

cratic institutions" in such an order from

such a person under such conditions, is a

piece of depraved cynicism. The fact that

To speak of preserving "Japan's demo-

So long as the U.S. armed forces and occupation authority remain, the Japanese people must be considered a subject nation ruled by a foreign military dictatorship. Democracy for them will just begin when they are freed of the foreign yoke and can decide their own fate.

such as saved the lives of the Scottsboro boys at the beginning of the case.

Militant mass action is the only effective method for fighting capitalist injustice. This was proved positively when the Scottsboro victims were saved from the electric chair in the early 30's; and it was demonstrated negatively in the mid-30's when the then existing Scottsboro defense movement, abandoning the method of mass action, made a deal to withdraw the case from the courts in return for a promise, later broken, that the governor of Alabama would pardon the remaining prisoners. A new defense movement should be guided by the dearly paidfor lesson of that experience.

The labor and Negro movements are much stronger today than they were at the start of the Scottsboro case; their duty toward the remaining defendants, who were subjected to indescribable suffering for so many years because of the stupidity and timidity of the official defense movement, is correspondingly greater. Rank and file militants should see to it that their organizations fulfill their obligation to conduct unceasing activity to insure unconditional freedom for the last of the Scottsboro boys.

The collision of these two tendencies is responsible for the crisis on the level of the Communist Parties. Its outcome depends on the evolution of the whole international situation. In any case, despite the relatively unfavorable conditions at present for the emergence of a new 'Titoism,' i.e., an organized and victorious opposition, in any other country of the buffer zone, the possibility of the Kremlin's achieving a stabilization of the buffer regions and crushing all opposition under its iron heel is excluded. The most probable variant is that of a long, convulsive unfolding of the crisis in the buffer zone, one trial after understanding of the counter-rev-

Stalinists Rewrite History

By Joseph Keller

No crime of the American Stalinists has returned to plague them more than their perfidious support of Roosevelt's use of the Smith Act to railroad 18 Socialist Workers Party and Minneapolis CIO leaders to prison during the war.

Not only was the Minneapolis precedent used in the recent trial and conviction of 11 Communist Party leaders, but the CP's record in the Minneapolis case and its continued opposition to civil rights for Trotskyists have alienated potential labor and liberal support for the defense of the convicted Stalinists.

This was one of the key issues that threatened to split the Wallaceites and the Stalinists at the Progressive Party convention in February.

The Stalinists are now trying desperately to "explain" away their actions in the Minneapolis case. Elizabeth Gurley Flynn, a member of the CP National Committee, attempts this unsavory chore in a recent CP pamphlet, The Plot to Gag America, which deals primarily with the Smith Act.

Her "explanation" is that "while disassociating ourselves from these defendants (the Minneapolis 18) and their acts and views, we Communists joined in the protest made by many labor organizations and progressive individuals at the time The statement that the Communists did not oppose the Smith Act at that time and before is obviously untrue."

Her sole "evidence" is a quotation from an article on the Smith Act by Milton Howard, published in the Daily Worker on Aug. 16, 1941, before the trial and conviction of the Trotskyists. But the issue is what the Stalinists wrote during and after the trial.

The Daily Worker ran scores of venomous attacks on the labor and liberal defense of the 18. A number of these were quoted verbatim by Irving Abramson, eastern regional director of the CIO, in a letter he sent the Worker on May 16, 1949, but which it did not dare to publish.

Abramson quoted, for instance, the June 6, 1944, Daily Worker, which said editorially: "Those informed of what the Trotskyites are doing would no more associate their names with their defense than they would go on behalf of the seditionists now on trial in Washington. . . Labor has complained only because more of their kind. . . were not put behind bars.'

This was written after labor and liberal organizations representing more than five million members had voted support for the Minneapolis victims.

On June 12, 1944, the Daily Worker injected a touch of lynch spirit: "Any labor leader who defends them [the 18] ought to be made to answer to his membership. . . It is time to put a swift, stop to that sort of thing."

For those who fail to swallow the blatant lie about the Stalinists opposing the use of the Smith Act against the Trotskyists, Miss Flynn inserts a couple of other lies. Anyway, she says, the Trotskyists were not convicted "under the thought-control section" of the Smith Act but for "overt acts of an anti-war character."

Actually, the Minneapolis 18 were acquitted of all charges of "overt" acts, which were brought under an old Civil War "sedition" law. They were convicted under the Smith Act on a count, almost identical with that in the later Stalinist case, which stated that the 18 "did advocate, abet, advise and teach the duty" of "overthrowing and destroying the Government by force and violence."

We don't have to go back to the Minneapolis case, however, to know where the Stalinists stand on civil rights for their working class political opponents. Right now they continue to refuse to defend civil rights for members of the Socialist Workers Party, including James Kutcher, the legless veteran purged from the VA.

The pamphlet by Elizabeth Gurley Flynn shows that under pressure and exposure the Stalinists have slightly changed their words, but they haven't changed their tune. They remain vicious, if more concealed, opponents of civil rights for Trotskyists. Thereby they continue to give the chief pretext to union leaders and liberals to refuse to defend the civil rights of victimized Stalin-

The NAACP Convention: II

By Jean Blake

A basic weakness of the National Association for the Advancement of Colored People, it is commonly agreed, is its lack of the internal democracy necessary for effective utilization of its strength as the largest and most authoritative mass organization devoted to the struggle for full equality for Negroes in the United States.

Delegates to the 41st annual conference of the NAACP in Boston June 20-24 will have to deal with various manifestations of this problem.

At last year's conference in Los Angeles the delegates took an extraordinary action. They passed a resolution calling for mass action as the most effective means of winning civil rights legislation and rejected reliance on "friends" in Congress and on the President.

Not even depending on the NAACP national leadership, the delegates themselves arranged for the setting up of an emergency civil liberties committee to initiate a national campaign to culminate in a mobilization on Washington.

Leaving no doubt as to the militant character proposed for this mobilization, the resolution stated that the aim of the committee should be "to produce the greatest outpouring of Negroes and their allies in the labor movement, among the church, civic, fraternal organizations, fraternities, sororities, national groups and citizens from every walk of life to the end that both the nd Congress shall feel the wrath and demand of the people for the speedy enactment of a comprehensive civil rights program." (My emphasis — J.B.) The resolution was remarkable in more ways than one. It reflected forcefully the deep-going antagonism the Negro masses feel for the rulers. of this country who perpetuate the system of legal discrimination while demagogically demanding loyalty to "democracy." It also showed the desire and readiness of the Negro people for mass action to express their wrath and demands.
