Truman Speech Covers Up Secret Wake Decisions

By Fred Hart

The significance of Truman's San Francisco speech on Oct. 17 lies not so much in what was said as in what was so deliberately left unsaid.

Truman disclosed nothing whatever about the purpose and results mumbling word to say about of his meeting with MacArthur on Formosa which is now virtually a Wake Island where the twain met as if they were representatives of United States. He did not so much two sovereign powers, each ini- is mention Indo-China. Instead of tialling a joint communique which Carifying his administration's confined itself to meaningless policy in the Far East, he generalities.

In an explanation which explained exactly nothing Truman special privileges in Korea or affirmed that he went to Wake Island merely because he "wanted to talk to General MacArthur" and found the conference "very satisfactory."

According to Joseph C. Harsch, hour session which "preceded the the "military members of the presidential party participated."

BRASS HATS ELATED

Far-reaching decisions were obviously made. But no one knows what they are. Harsch reports that the military chieftains -General Bradley, Admiral Radford so hastily." MacArthur reportedly "expressed equal satisfaction."

Harsch sums up what these militarists "got" as "an improved stage setting for the evolution of Far Eastern policy."

"more active and more vigorous" policy is, as is well-known, Mac- tarian" party. The Attorney Gen- who had applied for entry into Arthur. Huge Arms Budget Reported Readied

287

Just what lies in store for the American people in the way of increased arms expenditures whose burden will fall entirely on their shoulders? The Truman administration is being deliberately

Truman himself, in his last 'fireside chat," referred to the current 30 billion dollar arms bill, and warned that bigger appropriations would be forthcoming. Speaking before the Nebraska bankers' association on Oct. 12, arms budget "might exceed" the entire national budget for this year, which amounts to more than 42 billion. He then went on to add that the final sum would be "painful to contemplate."

Rumors persist of arms budgets of 50 billion and more. The most sensational estimate was made public on Oct. 9 by columnist Robert S. Allen who flatly stated that the Joint Chiefs of Staff have drafted budgets for the tary expenditures for this fiscal year to the stupendous total of

\$62 billion." New Squeeze Is Admitted By Symington

By John G. Wright It is the calculated policy of the Truman administration to impose successive slashes of living standards upon the American workers and the mass of the people. If up to now this has been implied in every major policy statement issuing from Washington, then today it has been made clear beyond the shadow of a doubt by W. Stuart Symington, chairman of the National Security Resources Board and Truman's chief policy-maker in overall charge of the arms program.

Symington, who in these matters speaks with an authority second only to Truman himself, granted an interview to the weekly U. S. News of Oct. 20, clarifying administration policy. Flatly declaring that Korea was "totally incidental to the overall problem," Symington affirmed that "military outlays are going to get much higher." This means 'much higher taxes." Symington then went on to stress that "the American people should be agreeable to a curtailment in their standard of living."

The crux of the interview came in the following carefully worded question: "Many people have thought that our productive facilities were so great that we could take it (the arms program) in our stride. Do you share that view?"

And here is Symington'

carefully worded answer: "I do

Minn. SWP Continues Fight

On Ballot Again, Off Again--

By Winifred Nelson BULLETIN

MINNEAPOLIS, Oct. 16 - The Socialist Workers Party here today is planning legal action against the latest move to prevent Grace Carlson's name from appearing on the Nov. 7 general election ballot - a temporary restraining order issued by District Judge Frank E. Reed to keep her name from the ballot. The action was brought by Stanley E. Danielson, secretary-treasurer of the Transit Employees' Union.

Grounds for the suit are that Grace Carlson is a "felon," having been sentenced to a 16-months prison term upon her conviction in 1941 under the Smith Act for opposing World War II. Sydney W. Goff, attorney for Danielson, alleged today that, under the law, a person convicted of a felony is not entitled to vote, and one who cannot vote is not eligible to seek office.

MINNEAPOLIS, Oct. 15 - The lessens the value of permanent civil rights cause won an imregistration of voters. portant victory here last week Actually, the registration proviwhen County Auditor Robert sion is one applying only to Fitzsimmons was compelled to Minnesota voters living in the of the new law (although it conconcede the right of Grace Carl-

Defiance Not Submission Beat Alien-Sedition Acts

By George Lavan

was committed.

Today's "liberal" Senators Lehman, Douglas and Humphrey, the "official" opposition to the police-state bill, only half-fought the American people to "loyally obey" it. Fortunately for the young Republic the men of 1798 declared war without quarter on the Alien and Sedition Laws. They counseled not "loyal obedience" but unceasing defiance of that attempt to make the U.S. a police state.

In 1798 the Federalist Party ontrolled the government. It was he party of the merchants and bankers. It represented the exreme reaction against the radicalsm of the artisans and small farmers who had formed the backbone of the American Revolution. The Federalists considered themselves the aristocracy of the country. They tried to ape the British aristocracy and its political system. In their ranks were the Tories who had opposed the War for Independence. The struggle of the workers and small farmers for universal suffrage was anathema to them. The French Revolution and the struggle of the Irish patriots, now infused with the ideas of the French Revolution, filled them with horror.

WHAT LAWS PROVIDED When the Federalist administraion thought it was on the verge of war with revolutionary France it tried to silence all domestic opposition. To accomplish this, it passed the various Alien and Sedition Laws in the summer of 1798. The Alien Law empowered citizen to leave the country immediately, without trial or hearing. Should the alien refuse, the

President could have him imprisoned without trial. This nulservience of the labor leaders. But lifted the right of trial by jury the mass of the workers have which under the Bill of Rights covers all - citizens and noncitizens. The Sedition Laws made "sedi-

"While the magnates of monopoly capitalism stand above the official organs of state power, controlling them from their heights, the opportunist trade union leaders scurry around the footstools of state power, creating support for it among the working masses. It is impossible to perform this filthy chore so long as workers' democracy within the trade unions is maintained. The regime in the unions, following the pattern of the regime of the bourgeois states, is becoming more and more authoritarian. In war time the trade union bureaucracy definitively becomes the military police of the Army's General Staff in 'the working class." 1

- Leon Trotsky, Imperialist War and Proletarian Revolution, 1940.

Forced Confessions in the U.S. Too

We have heard and read much in recent years about the "Iron Curtain" and forced confessions, but always in connection with Stalin's totalitarian rule. The term, "Iron Curtain," has been used to express that almost phobic concern of the Kremlin to seal off the Soviet Union and its satellites and to bar outside ideas or influences. As for forced confessions, these have become the hallmark of Stalin's staged frame-up trials of political opponents.

While American propagandists continue to make much of the "Iron Curtain" and forced confessions as expressions of Stalin's oppressive regime, they are singularly unconcerned about the "Iron Curtain" and system of forced confessions which have been introduced here by the new McCarran-Kilgore police-state law.

The far-reaching provisions in this law for the exclusion of aliens who at any time in their lives might have had the slightest connection with anything the Attorney General and immigration officials choose to call "Communistic" or "totalitarian," are designed to serve the same essential purposes as the Kremlin's "Iron Curtain."

C

Here, too, reactionary politicians, ridden with fear, are seeking to erect a wall against the outside world. If that wall is neither as high nor as impenetrable as the one the Kremlin has built, it is only because official Washington has not dared, as yet, to push to the extreme a policy that so violates the traditions and sentiments of the American people.

In the matter of forced confessions. juridically the McCarran-Kilgore system comes close to anything the Kremlin has contrived. The registration features of the McCarran law literally compel individuals and organizations to sign "confessions" that they are engaged in activities which the law defines as criminal, including espionage, sabotage and terrorism aimed at the establishment of a totalitarian regime.

The law states that "affiliation with" "Communist" or "other totalitarian" group is not deemed a felony "per se" (in itself). But if you are ordered to register as a "Communist" — that is, sign an admission that you belong to an organization whose activities the law defines as criminal — you must do so or suffer fine and imprisonment. The "crime," you see, is not being a "Communist," but refusing to "confess" to being a "Communist" if the government orders such "confession." All "confessions" extorted by the

Kremlin are juridically represented as "voluntary." To represent them otherwise would give the game away. The McCarran law disdains the cover of "voluntary" confessions. It brazenly orders. you to "confess" on pain of imprisonment if you don't.

Yugoslavs Curtail Special Privileges

From embattled Yugoslavia comes heartening news. On Oct. 15, the Yugoslav government decreed an end to virtually all special privileges of functionaries, army officers and other officials.

According to a N.Y. Times dispatch, the decree "ordered the immediate closing of all special food shops, special rest homes, holiday resorts, villas and other establishments enjoyed by privileged officials." "The basic principle underlining this decree," continues the report, "is that nobody in Yugoslavia, regardless of his job, can receive more food than the miners and forestry and railroad workers.' Thus while in the capitalist world, the gulf between rich and poor constantly widens, and in the countries dominated by the Kremlin the bureaucrats continue to increase their privileges as against the masses, Yugoslavia is leveling the standard of living of the entire population.

among their followers by verbal terrible hardships caused by the drought concessions. But what was most will be enormously strengthened by the striking was the fact that, as we have already noted, the Laborite knowledge that their leaders and officials leadership as a whole presented a are sharing their sacrifices.

Yet this is a significant move toward equality which will surely meet with a warm reception by workers everywhere. In the first place, this is not an isolated act. It is in line with a whole series of

By J. B. Stuart

Despite the victories in Korea, or perhaps because of them, resistance to American imperialism throughout Asia is on the increase rather than on the wane. This fact was borne out last week by the international conference of the Institute of Pacific Relations being held at Lucknow, India; by a statement which Prime Minister Nehru issued to the press; by the sober comments of responsible bourgeois publicists and indirectly, also, in the speech delivered by Truman at San Francisco upon his return from the sensational meeting with MacArthur on Wake Island.

The Lucknow conference had among its participants Indians and Pakistanis as well as Americans, Canadians and Englishmen. The N. Y. Times, which carried daily dispatches on its sessions for a week, reported that on questions of policy the most "left wing" of the Western delegates appeared to be far to the right of the most conservative Asian. According to these reports, the Indians and Pakistanis "bluntly accused the United States of prostituting relief dollars for selfish ends." These speakers, mostly scholars from local universities, expressed grave fear of the "growing circle of United States bases in the Pacific." They protested against excessive U.S. bombing of Korea" and bitterly complained that the U.S. "places no value upon Asiatic life." Anticipating "economic plans" for Asia, delegates discussed the Marshall Plan. One stated that its purpose was proven to be "to disrupt trade in Europe and redirect it across the Atlantic.

The Times correspondent shrewdly noted that in private conand the Kremlin. (Let us recall crumble. Without active American that Ho Chi Minh expressed his versation the Asian delegates were far more friendly and conciliareadiness to establish diplomatic tory to the Westerners than on the conference floor. The inference relations with Yugoslavia and has is inescapable that these cultural leaders, tied in with their government and the ruling class, have to express publicly sentiments which thus shown a certain degree of inare far more in keeping with the moods and minds of the vast toiling masses than with those in their own circles. American labor should oppose

Nehru Explains Indian Position

This was emphasized later on in the week in Nehru's carefully prepared statement which stressed: "the common features of Asia today are a reaction to the previous colonial regime, a resurgent nationalism, agrarian movements, a desire to get rid of our economic backwardness and a passionate urge for freedom." Communism, he went on to say, although the methods of the Stalinist parties have been greatly disliked, "attracts many people" and appears "in the guise of a liberating movement." While this problem has "its military aspects," Nehru said, "we feel that it is a problem of winning the understanding and goodwill of the masses of the world. Unless people have some hope in the future held out to them, they seek other remedies. To think of the military issue only is to misunderstand the problem."

That is why, he explained, India opposed the crossing of the 38th Parallel in Korea, why it opposes U.S. action in Formosa, why it is in favor of bringing the "New China" into the UN, and why it opposes the U.S. proposals to create separate armed forces "on behalf of the United Nations" in each country. This last proposal, he stated, "seems like converting the United Nations into a larger edition of the Atlantic Pact and makes it a war organization more than one devoted to peace." All these considerations, he summed up, led India not to join the UN's Korean commission. What he was stating in diplomatic language was more bluntly expressed in various Indian newspapers — namely, that the UN was "becoming" a "stooge" of Washington and that India should therefore be careful in its commitments to this organization.

The reactions in Asia have strengthened serious misgivings here over the policy of which Korea was only the most striking example. A Columbia University professor of international relations and expert on Far Eastern affairs, Nathaniel Peffer, takes a particularly sober and dim view in an article for the N.Y. Times Magazine. "A few more victories such as we have had in Korea," he writes, "and we may well be undone." Why this dire judgment? Because "it is oversimplification to the point of fallacy" to regard outbreaks such as the Korean as "deriving wholly" from the "Russian-American conflict" and to seek a solution in resort to arms. The "foundation of stability" in Asia had been destroyed by two world wars and, "as everywhere else in the world, the poorest classes, both peasant and urban. . . refuse to submit any longer to the old order of perpetual poverty." The Russians may exploit this

"Economy of Money and Resources"

situation. Peffer admonishes, but they have not created it.

To meet this situation, he advises, neither military strength nor paganda for abstract democrac simply pour in "adequate" economic aid and stop supporting the old

The British capitalist press gave | Viscount Bruce of Melbourne

recently stated: "It is difficult to believe that this rejection (of the steel owners' compromise') is not at the dictation of the extreme Left elements in the party. It is hard to avoid the suspicion that there has been some sort of a bargain whereby the nationalization of iron and steel was to be carried through in exchange for support in lengthening the period of national serv-

for the General Council by Lincoln Undoubtedly there is more than a grain of truth in this suspicion. In order to carry the working masses of England along with them on foreign policy and war ment, the "left wing" as well as mionalization a new supervisory has to make concessions to them

on the most pressing questions

they raise at present. Apparently,

It is true that these measures were taken under threat of famine with the aim of bolstering the morale of the people. Obviously the ability of the workers and peasants of Yugoslavia to endure the

steps since the rupture with the Kremlin, aimed at democratizing the country, rooting out bureaucratism, and closing the gap between the government and the people.

Furthermore, the fact that the Yugoslav government did respond to the crisis by enforcing real equality of sacrifice is itself indicative of the progressive, prosocialist forces at work there. Neither capitalist nor Stalinist regimes act in this manner. They react to similar crises by police terror to protect the privileges of the rulers and suppress mass discontent. American workers, welcoming this

highly progressive measure, should demand that the U.S. government grant immediate and adequate aid to Yugoslavia with no strings attached.

board which would leave the inthe right wing leaders would try to tone down differences of dustry in private hands while imposing controls similar to those opinion when they face the Tory of wartime regulations. party of British capitalism in a

vote on an important issue. To slur over conflicts of policy at meetings of their own party and their own trade union organizations is, however, something else again. It becomes particularly unprincipled and despicable when the so-called "left wing" led by Minister of Health Aneurin Bevan overs up for the right wing on an issue such as steel nationalizaion and when the behavior of the latter borders on outright betrayal of all of their followers. Behind the scenes in British politics, such a situation actually sort of coalition." developed, although little has

which has enabled the General Only a genuine left wing, free Council to face a quiet Congress' from the paralyzing grip of the capitalist foreign policy to which the Bevans adhere along with the Bevins and Attlees, can undertake this task and give full vent to the British workers' revolutionary aspirations, of which the events at Brighton and Margate were only indications. parliamentary vote to go ahead

ruling class and its Chiangs, Rhees, etc. "If the absolute power of this class cannot be broken" by Washington and its satraps, he warns, "then it would be an economy of money and resources to write off East Asia at once, for the Communists will get it anyway." Truman's post-Wake Island speech also displays an awareness that MacArthur's policy of the mailed fist is not impressing present-day Asia, an Asia teeming with revolution. While Truman has made no specific economic commitments as yet, while the U.S. fleet has not been withdrawn from Formosa, while no concessions have been made even to Nehru on Korea, his speech nevertheless abounded in demagogic deference to the Asian revolution. In fact, his appeal for support in the Far East for American policy was based on the ground that "our national history began with a revolutionary idea - the idea of human freedom and political equality." On the other hand. he stressed. "the international Communist movement, far, from being revolutionary, is the most reactionary movement in the world today" and wants to turn them into "colonial slaves." But Truman's bizarre attempt to pre-empt the anti-imperialist revolution for American plutocracy did not fail to remind the Asians that "our men are fighting now in Asia to help secure the freedom.

and independence of a small nation which was brutally attacked.' When it comes to brutal attack on small nations, the Asians will be more inclined to judge by the havoc wreaked in Korea by U.S. Air Force bombing than by Truman's fine and empty words.

American capitalism and its spokesmen are beginning to realize that they are coping with an irresistible revolutionary wave in Asia. But that does not mean that they have an answer to it. For capitalism can have none. The Asian masses, it can safely be predicted, will not be deceived by "revolutionary" talk from any quarter. They will take matters into their own hands.

SPECIAL ATTRACTIONS

U.S. Political Corruption

By Walt Whitman

(In 1856 the poet Walt Whitman wrote a pamphlet entitled The Eighteenth Presidency, dealing with that year's presidential election campaign, which was contested by James Buchanan, candidate of the Democratic Party; Millard Fillmore, candidate of the Whigs and of the American, or Know-Nothing, Party; and John C. Fremont, candidate of the new Republican Party. We reprint below some extracts from Whitman's pamphlet which apply in major respects to American capitalist politics in 1950.)

To-day, of all the persons in public office in the States, not one in a thousand has been chosen by a spontaneous movement of the people, nor is attending to the interests of the people; all have been nominated and put through by great or small caucuses of the politicians, or appointed as rewards for electioneering. . . The berths, the Presidency included, are bought, sold, electioneered for. . .

Well, what more? Is nothing but breed upon breed like these to be represented in the Presidency? ... Where is the real America? Where are the laboring persons, ploughmen, men with axes, spades, scythes, flails? Where are the carpenters, masons, machinists, drivers of horses, workmen in factories? Where is the spirit of the manliness and commonsense of These States? It does not appear in the government. It does not appear at all in the Presidency. . .

Never were publicly displayed more deformed, mediocre, sniveling, unreliable, falsehearted men! Never were these States so insulted, and attempted to be betrayed! . . .

Whence the delegates of the politicians? Whence the Buchanan and Fillmore Conventions? Not from sturdy American freemen; not from industrious homes; not from thrifty farms; not from the ranks of fresh-bodied young men; not from among teachers, poets, savants, learned persons, beloved persons, temperate persons; not from among shipbuilders, engineers, agriculturists, scythe-swingers, corn-hoers; not from the race of mechanics. .

Whence, then, do these nominating dictators of America year after year start out? From lawyers' offices, secret lodges, back-yards, bed-houses, and bar-rooms; from out of the customs-houses, marshals' offices, post-offices, and gambling hells; from the President's house, the jail, the venereal

hospital, the station-house; from un-named byplaces where devilish disunion is hatched a midnight; from political hearses, and from the coffins inside, and from the shrouds inside the coffins; from the tumors and abscesses of the land; from the skeletons and skulls in the vaults of the federal alms-houses, from the running sores of the great cities; thence to the national, state, city and district nominating conventions of These States, come the most numerous and controlling delegates.

Who are they personally? Office-holders, officeseekers, robbers, pimps, exclusives, malignants, conspirators, murderers, fancy-men, port-masters, customs-house clerks, contractors, kept-editors . . crawling, serpentine men, the lousy combings and born freedom-sellers of the earth.

You Americans who travel with such men, or who are nominated on tickets anywhere with them, or who support them at meetings, or write for them in newspapers, or who believe that any good can come out of them, you also understand not the present age, the fibre of it. . .

To butchers, sailors, stevedores, and drivers of horses - to ploughmen, wood-cutters, marketmen carpenters, masons and laborers - to workmen in factories - and to all in These States who live by their daily toil - Mechanics! A parcel of windy northern liars are bawling in your ears the easily spoken words Democracy and the Demooratic Party. (Buchanan, the slaveholders' candidate, came from the North.) Others are making a great ado with the word Americanism, a solemn and great word. What the so-called democrats are now sworn to perform would eat the faces off the succeeding generations of common people worse than the most horrible disease. The others are contributing to the like performance, and are using the great word Americanism without yet feeling the first aspiration of it, as the great word Religion has been used, probably loudest and oftenest used, by men that made indiscriminate massacres at night, and filled the world so full of hatreds, horrors, partialities, exclusions, bloody revenges, penal conscience laws and test-oaths. To the virtue of Americanism is happening today what happens many days to many virtues, namely, the masses who possess them but do not undermeans to those who neither possess them nor

stand them are sought to be sold by that very understand them. . .

Social Democrats Deplore

By Albert Parker

The New Leader, Social Democratic magazine, deplored the passage of the McCarran-Kilgore law as "an appalling monument to panic and ignorance." Not the whole law, however: "We regret that Congress did not pass the Kilgore (concentration camp) bill alone (instead of tacking it onto the McCarran omnibus measure), for that would have satisfied the country's demand for some 'anti-Communist' legislation and would have given us a standby act for use in an emergency.' Concentration camps and the New Leader brand of "social democracy" are clearly not incompatible.

William E. Bohn, editor of the New Leader, went even further in his column. According to him, the Kilgore section of the law "provides that, in case of war, Communists are to be rounded up and segregated. That is a plain military measure. No one can complain that it contravenes anyone's civil rights.' The number of errors or lies in this statement is almost equal to the number of words in it.

The Kilgore section does not apply only in case of war, but at any time the President declares an "internal security emergency" - during war, invasion or "insurrection." It does not apply only to "Communists," but to "each person as to whom there is reasonable grounds to believe that such person will probably engage in, or probably will conspire with others to engage in, acts of espionage or of sabotage." It does not provide for "segregation" but for "detention" in prisons or concentration camps - that is, arrest. It is not a "military matter," plain or fancy, but a political matter, which will be handled not by the armed forces but by the Department of Justice and its thought police. If Bohn really believes that arrest and detention for an indefinite period without iury trial don't contravene civil rights, then he can and should make a similar defense of Hitler's and Stalin's regimes. The New Leader took note of some of the new law's anti-democratic features, but its main complaint was that "it will not only fail to stamp out Communism but may even encourage it. . . Few Communists will register, and the great majority will go underground and become harder to deal with. Worse yet, the Communists may take the Act to the Supreme Court, and if the latter declares it unconstitutional - as well it might the Communists may eventually walk off with a victory which not even McCarran will be able to, legislate against."

For these reasons the New Leader said its "sole hope now is that the present Act will prove so impractical by Nov. 27 that the Congress will have to amend it drastically - and soberly." The only thing that is unclear about its position is which it thinks is worse - the law or the possibility that it might be ruled unconstitutional. The Socialist Call, published by the weaker

wing of the Social Democracy, the Socialist Party, was somewhat more critical of the law as a whole. But its criticisms were on the whole restrained, as when it said of the wholesale detention of Europeans:

"It would be unjust to say that an iron curtain has been erected to keep all dissident opinion and non-American ideas out of the United States. But a smoke screen has been set up which distorts or destroys what should be the major tenet of United His "Fact Book" boasts: States policy: that freedom is the best weapon

we have to combat totalitarianism," etc. Norman Thomas, writing in the same p **VOLUME XIV**

'Pilot' Has Some Explaining to Do

The NMU Pilot, paper of the CIO National Maritime Union, had the following banner headline in its Oct. 5 issue:

"Commies Impose 5.49% Peanut Settlement on MC&S' Members." This referred to the wage settlement made by the leadership of the Marine Cooks and Stewards, which was recently expelled from the CIO as "comnunist-dominated."

On Oct. 9 the daily press reported that the NMU and the Atlantic and Gulf District of the AFL Seafarers International Union had negotiated contracts providing for a wage increase of 5.38%

We look forward with interest to the next issue of the Pilot. In all justice it should explain why, if it is correct to call a 5.49% raise a "peanut settlement" in these times, it isn't correct to use the same term for a 6.38% raise.

Other things being equal or anywhere near equal, lovers of freedom and common sense in America must prefer candidates for the Senate and House who have the courage to oppose the McCarran Act and who will promise to seek its drastic amend-

This is a back-handed plea for "the lovers of freedom and common sense" to vote for Fair Deal Democrats who have already promised that their "drastic amendment" of the new law will consist of retaining the concentration camp provisions. The Social Democrats' talk about "panic and ignorance" emphasizes that they have forgotten what even they used to know at one time - that where concentration camps are established, Social Democrats generally wind up among their occupants.

The Ford Foundation

ment."

By Larry Dolinski SWP Candidate for Michigan Auditor General

Henry Ford II has bestowed \$225,000,000 on the Ford Foundation. This sum, the ballyhoo goes, is to be spent to fight for peace, establish security for the massec, guarantee democratic rights, etc. Ford's philanthropy is as fraudulent as his grandfather's.

Old Henry had a knack for winning applause for his "humanitarianism." He was the first to inaugurate the \$5 day, but those around Detroit knew what a fake that was. With the increase in pay came an inhuman speed-up that turned production workers into physical wrecks in a few years.

His grandson has just succeeded in forcing the Ford Pressed Steel workers back to work without the overtime pay for Saturdays and Sundays; Ford production workers are now knuckling down to work under a contract that ignores the growing speed-up of the production lines. For every penny granted the workers, grandson like grandfather gets his pound of flesh.

Philanthropy in general is nothing more than a means for the very wealthy to evade income taxes. The forming of foundations is the most favorite device. Thereby not only is the payment of taxes evaded, but complete control retained over the foundation funds. All this, while winning acclaim for humanitarianism, pays off in lush dividends - to Ford and all other foundations.

The Ford Foundation was incorporated in 1936 and is the depository of the bulk of the profits made by the Ford Motor Co. Both Henry I and Edsel Ford on their deaths added to this mass of wealth by leaving all their non-voting shares to the Foundation, thereby in reality by-passing the payment of inheritance taxes. To indicate how much money is saved in this manner, when Mrs. Ford died and left \$4,000,000 to the Edison Institute, the papers noted that on an estate of \$10,000,000, the inheritance tax would be 77%.

Today the Foundation is, as before, owned, controlled and operated by the Ford family with the aid of handpicked trustees and attorneys. In the past, the "gifts" of the Foundation were limited to the Edison Institute, Greenfield Village (which is no more than a monument to Henry Ford) and the Henry Ford Hospital (which is a "poor man's hospital" the way the new Ford is a "poor man's car").

The only new wrinkle in the quarter-billion dollar "donation" is the scope of the project. In effect, Ford has launched a little Marshall Plan of his own, with the most experienced man in the country at its head, Paul Hoffman, former ECA director. You can be sure that \$100,000-a-year Hoffman will do a good job at guaranteeing Ford investments abroad and, in passing, will promote American investments generally.

For the average American workers there are no loopholes to avoid the new 18% withholding tax. Least of all can he incorporate a foundation to support his family and call it charity. 'Big Business is preparing for a full-scale world war reality only a socialist govern- ers and the International Associaand is determined to make the American workers pay for the whole of it.
