Yugoslav Foreign Policy Plays Into Hands of Kremlin

By Paul G. Stevens

The first meager food shipments to drought-stricken Yugoslavia arrived last week following Marshal Tito's declaration to an American correspondent that Yugoslavia would ab de by a United Nations

decision on who is the "aggressor" in the current conflict with Peiping on the China-Korea border. At the same time, it was announced in Washington that emergency shipments of flour. amounting to 111/, million dollars. and Italy, as a "stop-gap" measure in a broader program approved by President Truman. In a message to Congressional leaders, Truman outlined the steps in this program to loosen up credits for Yugoslavia in various U. S,-controlled international monetary, economic and "defense" agencies (Export-Import Bank, ECA, etc.), with the

With the knowledge that the heat is on Yugoslavia, the Vatican contemptuously rejected Tito's offer - publicized in his interview with the N. Y. Times correspondent — to release pro-Nazi Archbishop Stepinac, tried would be rerouted from Germany and convicted as a collaborationist. The reactionary Vatican hierarchy obviously considers the time ripe for concessions that would enable it once more to penetrate Yugoslavia with all its sinister machinations.

That the vultures of American imperialism are able thus to swoop upon famine - threatened Yugoslavia is in the first place aue to the criminal policy of the Kremlin. There is not the slightest doubt that Moscow and its Eastern European satellites,

"As you know, it is our policy were they to pursue a socialist policy, could without any diftoward Yugoslavia to give Marficulty come to the aid of Yugoshal Tito such support as we slavia and help her adequately to judge necessary for the protection of our strategic and political interests in that area."

following blunt motivation:

TRUMAN'S LINE

No appreciable credit was extended throughout the two years since Belgrade's break with Moscow; the first dribble was permitted only after Tito had made the first public declaration which could be safely taken by Washington as a token that the Yugoslavs were prepared to play ball in the UN.

been quoted as demanding far niore substantial "guarantees" he and his colleagues-who wield far greater influence in foreign policy after the Republican victory in the elections - would agree to any extensive aid to way. Yugoslavia.

Yugoslavia Seen With Open Eyes: 4 POLITICAL OPPONENTS OF REGIME By Ernest Germain

in Yugoslavia which often collaborate with each other, worst. while pursuing entirely different goals: the opposition of bourgeois and petty-bourgeois circles, and the Cominformist Stalinist opposition. Hundreds of members of the foreign youth brigades were able to discuss freely with oppositional elements and become familiar with their motives as well as the manifestations of their opposition.

The former capitalists and big merchants, former high state officials and landowners, former generals and church officials, are naturally very bitter about the regime because they have lost all their privileges and are today in many cases quite poor and miserable. Some of them obtain office jobs with nationalized enterprises or state institutions. These jobs are the lowest-paid in the country. and it is natural that a former proprietor of a brewery, whom a member of the French brigades met in Zagreb, should start complaining that "today an ignorant" hodcarrier makes more money than a learned correspondent who knows five foreign languages." The hodcarriers who have been miserable for many generations don't complain about it, though.

Some members of the former ruling classes continue

A Review of Pioneer Publishers' YUGOSLAV POLICY PLAYS 20 Years of Notable Achievement INTO HANDS OF KREMLIN

problems.

IMPOSING LIST

By Constance Locke

Twenty years ago this month Pioneer Publishers was organized

to fill a pressing need in the American labor movement. Beginning with 1928 when the Trotskyist Left Opposition was expelled from the Communist

Party, The Militant started publishing-several of the most important of Leon Trotsky's works of that period, suppressed by the Stalinists. Among these works were the parts of the book later published under the title of The Third International After Lenin, which helped to re-educate an entire generation of the working class vanguard.

But it became clear in 1930 that publishing books and pamphlets was too big a job for a ctc. One of the worst problems weekly paper with slim resources and inadequate personnel, and so Pioneer Publishers was organized as an independent institution devoted to publishing Marxist

literature. first manager of Pioneer, recalls pause throughout these twenty literally on a shoestring and has theories of socialism. "A totalitarian regime, whether of Stalinist or fascist type, by its very essence can be only a temporary transitional regime. Naked dictatorship in history has generally been the product and the symptom of an especially severe social crisis, and not at all of a stable regime. Severe crisis cannot be a the bureaucracy."

TROTSKY

permanent condition of society. A totalitarian state is capable of suppressing social contradictions during a certain period, but it is incapable of perpetuating itself. The monstrous purges in the USSR are most convincing testimony of the fact that Soviet society organically tends toward ejection of - Leon Trotsky, In Defense of Marxism, 1939.

Retreat on Taft-Hartley Act

Last year the union leaders denounced Taft's proposed 28 amendments to the Taft-Hartley Act as worse than the existing law and stated they would accept nothing less than the Act's repeal. But a week after their unsuccessful campaign to unseat Taft, a high ranking spokesman of the CIO Textile Workers gave intimation that a scheme is afoot among some CIO officials to abandon attempts to get the Taft Hartley Act repealed and to accept it with amendments along the lines proposed by Taft himself.

At a press conference on Nov. 14 in Washington following the TWUA's presentation of a brief to the Senate Labor Committee, the union's general counsel, Isadore Katz, said that he thought Taft's amendments might be a good thing and the starting point of an alternative to actual repeal of the Slave Labor Law.

It is unlikely that Katz was shooting off his mouth irresponsibly on such a grave matter of CIO policy. Evidently his opinion reflects views having currency in top TWUA and CIO circles, even though the resolution since passed at the CIO convention calls for outright repeal of Taft-Hartley. From what Katz revealed, there is ground for strong suspicion tht they are preparing for a far-reaching compromise, if not outright surrender, in the fight against Taft-Hartley.

Last week important elections took place in Germany when two "states" -Hesse and Wuerttemberg-Baden - voted for candidates to their parliaments. The result was a clear victory for the German Socialist Party, which has up to now been fading into the background of German politics. By the same token, a defeat was suffered by Chancellor Adenauer and his Christian Democratic Union. The issue of rearmament was the overriding issue in these elections, as it bids to be in the next period in the political life of Germany as a whole. Adenauer and his party are inclined, with minor modifications, to go along with Washington's plans for militarizing Germany. The Socialist Party and its leader Dr. Schumacher, on the other hand, are far from being outright opponents of German rearming.

Such a move, however, will surprise no one who has observed the step-by-step retreat of the union leaders from the moment the bill was first proposed in Congress. When it was up for vote in 1947, both the CIO and AFL leaders were more vigorous in opposing militant mass action against the bill than in fighting its passage. Once it was enacted, they lined up to submit to its onerous provisions, including the yellow-dog Taft-Hartley oath.

Is it any wonder that many workers. observing the passive and even servile attitude of the union leaders toward the Taft-Hartley Act, were not moved by the last-minute election appeals of these same leaders to defeat Taft? If the union officials put up no real fight against Taft-Hartley, if they sought to "live with" this vicious law, then what could be so terrible about it or the man who wrote it, many workers undoubtedly reasoned. For this type of reasoning which helped send Taft back to the Senate — the union leaders themselves, are responsible.

As for the majority of union members who gave of their time, energy and money in the attempt to defeat Taft and other backers of his vicious law, they have good reason to reflect bitterly on their sacrifices when they see the further retreat, if not surrender, the union bureaucrats are now planning.

German People Oppose Rearming

"aggressor" (read: the Kremlin) off the "soil of the Fatherland"; and 2) that German forces be assured complete equality in number as well as command.

There is nothing anti-militaristic, let alone socialist, about this program. It unquestionably meets with the approval of a section of the German militarists and capitalists, if only as a means of extorting maximum concessions from Washington, London and Paris. It was not at all in favor of this program that the mass of the German voters cast their ballot. Schumacher and his party presented the only avenue they saw for registering a protest against rearmament. It was as the ostensible foes of rearming and not as proponents of a special type of rearming that the German Socialists scored their gains. Adenauer and his ruling party are crawling out of their skins (as are the political experts here) to minimize the election results. But their meaning is plain enough. The mass of the German people are opposed to militarization. They have repudiated Adenauer and his collaboration with Washington in this field. They have put an obstacle in the way of Washington's war machine.

Korean People Oppose FRANCO LOAN IS BLOW Restored Rhee Regime TO SPANISH PEOPLE

Page Three

The Truman administration has granted a loan of \$62,500,000 to General Franco, the Spanish dictator. The loan's immediate purpose is to prop up the fascist regime of Franco, which has lately shown signs of reaching a crisis. But more than that, this loan commits U.S. imperialism to continue propping up the Spanish butcher's rule. ·

The loan is thus worth a lot more than \$62,500,000 to Franco. Not only is this just the beginning - many more loans and armaments, also, will now flow from Washington to Madrid. More im-, portant, however, is that Washington has now served notice on the receiving at the hands of the Ko-Spanish people that it is backing Spanish fascism against any rean civil and military police and right - wing youth organizations internal revolt.

opposition to Franco was reaffirm-

ed. Said the ICFTU Manifesto:

"Free trade unions of the world

Last month the State Department engineered a pro-Franco maneuver in the UN. Using Latin-American delegations as catspaws, Washington put through a resolution for resumption of high-level

diplomatic relations with Spain. thus paving the way for its eventual admission to the UN. When reporters asked Truman how long it would be before

What they oppose is rearmament without the "consultation of the German people." that is, without a general election. Schumacher and his party then lay down two main conditions for rearming: 1) That enough Allied divisions are first sent into Germany to keep any

Deal" He's Still Talking "Fair

A week after the elections brought a considerable shrinkage of the Democratic majority in Congress. Truman blithely told his press conference that "he would press for his Fair Deal program in the new Congress." He said that "he hoped to get all of it, too." When a reporter suggested that while he "hoped" to get it all he might "expect" to get less, Truman "replied with goodhumored confidence that he expects to get it all and expects to get everything he asks for." (N.Y. Times, Nov. 17).

No one should get the idea from Truman's fantastic boast that he's become punch-drunk or soft in the head. He just thinks there are a lot of other folks who are soft in the head and who may believe him or at least give him credit for trying hard and wanting to do the right thing. Anyway, he figures, talking a good "Fair Deal" put him across in the 1948 elections and there's no harm in some more of the same fast talk considering that 1952 isn't so far off.

If the way he "pressed" for the "Fair Deal" in the 81st Congress is a sample, it's a safe bet at any odds that Truman will be cruising in Florida waters or fishing in restful isolation far from Capitol Hill whenever — and if ever — bills for Taft-Hartley repeal, FEPC, national. health insurance, etc., reach the floors of the same Congress.

We don't believe Truman has invented a "secret weapon" for breaching the barricades of the new Congress when he couldn't even dent the walls of the closing Congress which had a substantial Democratic majority pledged in the 1948 elections to support the "Fair Deal." How does he hope to persuade even his own party colleagues in the coming Congress when the overwhelming majority of them in the waning Congress voted against or helped to block most of the "Fair Deal" proposals?

Of course, it is dead-wrong to credit Truman with any serious intentions about his "Fair Deal." That's just sucker-bait. The only program he's serious about is to turn this country into one big military barracks at an expense of so many hundreds of billions that there will be nothing left except a "Bare Deal" for the American people.

When a McCarthy spills his bilge, the Trumanite union leaders call it the "technique of the big lie." What should the workers call Truman's cheap propaganda promises - the "technique of the biggest lie"?

who they were.

The SWP's 1950 Vote

By George Breitman

We Trotskyists, who aim to win a majority of the American working people to our revolutionary socialist ideas, are well aware that the 27,659 votes so far recorded for the candidates of the Socialist Workers Party on Nov. 7 is still a far cry from the kind of vote that would be received by a mass party. Nevertheless, this vote is an achievement we can be proud of, and a token of the future progress that will surely be made in spreading the influence of our movement.

The SWP did not enter the election picture as a national force until 1948. That year we were able to get on the ballot in 11 states with our presidential and local tickets, and in two districts of California with local candidates. Our presidential ticket was credited with 13.613 votes. while the total of the highest votes received in all states was 24,798. This year we were able to get on only four state-wide ballots, congressional ballots in each of three other states, and the same two districts in California. The percentage of the population in these areas to that of 1948 was only 70%. Yet the total of cur highest vote in the various states in 1950 was considerably larger than our 1948 total. (And the 1950 totals still do not include the big state of Michigan, and sections of New York, Pennsylvania and Wisconsin.)

Remembering that less people voted this year than in 1948, that is quite an accomplishment for a party that ran its entire campaigns with less money than the capitalist parties spent in a single ward in any industrial city. And it takes on added significance when we consider the political situation which, because of the greatly intensified witch-hunt and repressive atmosphere, was far more unfavorable for small radical parties than in 1948. Even more than two years ago, it was a case of swimming against the stream.

One circumstance that accounts for the bigger SWP vote this year was the smaller number of parties on the ballot in many states. The Progressive Party, which put on such a gaudy show in 1948, had declined drastically in members, votes and morale even before Wallace deserted it last summer, and since then it has become a Stalinist-dominated shell, able and willing to run candidates in comparatively few places. The Socialist Party, likewise in the throes of an incurable political crisis, held a convention in June which voted down Norman Thomas' proposal to

discontinue independent electoral activity. but in spite of this decision the SP ran candidates in only three or four states this year. Some of the workers who had previously supported these parties in the past undoubtedly voted SWP this year.

These were not "undeserved" or "accidental" votes, however. There was nothing accidental about the defection of our opponents, which was the logical consequence of their political bankruptcy. These votes really belonged to the SWP. For the SWP refused to be intimidated; it fought back against the forces of reaction at a time when most other radical parties were retreating without resistance or trying to make their peace with the capitalist parties; it went through the arduous process of collecting the necessary signatures to get on the ballot in the face of many obstacles; and it challenged the capitalist candidates under the banner of revolutionary socialism in the streets, over the radio and at the polls wherever it had the resources to do so. By its political boldness and intransigence, the SWP earned those votes and it is justified in viewing them as endorsement of the platform it presented without equivocation in the 1950 campaign.

This is a period of reaction, probably the worst in the history of this country, and in such periods the ruling class is able to temporarily intimidate and silence great sections of the population. But the effect is not uniform; there is always a minority of the population, including some why Republicans tried to steal the have been previously uninterested in politics, who are angered and aroused by the methods of the ruling class and are willing to listen with greater receptivity and even sympathy to the message of revolutionary socialism. The increase in the SWP vote is evidence of this; it demonstrates the existence of a body of people, considerably larger than the ranks of our movement, who have given a vote of confidence to our party even in these difficult times. Part of our job now is to make direct contact with these people and their counterparts in states where we were unable to get on

the ballot. to introduce them to our party literature and The Militant, and to teach them that there is more to the struggle for socialism than voting the right ticket on election day, important as that is. From their ranks will come reinforcements that will help to transform the SWP into a mass party capable of achieving its historic

Post-Election Comment

By Albert Parker

They didn't use exactly those words, but a number of the top liberal spokesmen and pro-Fair Deal intellectuals made it plain they felt the Democratic losses on Nov. 7 were due to a lack of intelligence on the part of many voters. Arthur Schlesinger Jr., writing in the N. Y. Post about the "electoral endorsement of McCarthyism," says:

"Too much power and responsibility have been thrust on the American people in the last decade. The result of this crushing burden has been discontent, anxiety and fear; the result has been a violent wrench in our national ways of life. Some people still cannot but think that this wrench must be the consequence of bungling or of conspiracy, not of the great subterranean tides of history. Such people are hunting for scapegoats, and they have settled upon the political leaders identified with the transition from the old comfortable ways of isolationism and irresponsibility." The editors of the New Republic take a similar line.

Maybe, as the liberals contend, the voters don't know what they want, but they sure know what they don't want. They don't want a policy of war and imperialism that will take the lives of their sons and the dollars out of their pay envelopes, and many voted against those they held responsible for this policy. If this benefited the GOP, the fault lay with the labor leaders and liberals who gave them no other alternative. The New Republic complains that "Inspired men alone will vote for hardships, and in 1950 there was little inspiration." Schlesinger concludes: "President Truman and Secretary Acheson have been much better at policy than at explaining the moral and historical necessities behind policy. This is the deficiency that the next two years must remedy." The liberals seem to think that the people will go for the imperialist "hardship" policy if it's better presented. The American people may or may not be politically backward, but they're certainly not that backward. Comment from the labor press and leaders was not on a higher level. The League Reporter, paper of the AFL Labor League for Political Education, had one main theme, sounded over and over again in article, editorial and cartoon: The "communists" were the main winners in the election (on the ground that the "isolationists" are in control of Congress again. "Russia" heads its list of those rejoicing the most over the election returns "because they stand to benefit most from

the results." One article finished this way: "Stalin and the Politburo are even happier over the 1950 elections than they were even at the time of the Communist victory in China or the signing of the Hitler-Stalin pact in 1939." That's called "political education" in top AFL circles. A week after the elections AFL President

William Green still didn't understand why Taft won in Ohio, although he conceded "a lot of labor men" must have voted for him. CIO President Philip Murray, asked if he too was "bewildered" by the Ohio results, retorted that Taft himself must have been bewildered by the size of his majority. That's what passes as "labor statesmanship" in the labor bureaucracy.

CIO News editor Allan L. Swim's major postelection plea is for "Congress to quit playing partisan politics with our foreign policy. . . Regardless of how we're divided on domestic matters we must present a reasonably united front to the world on international issues." With

such a viewpoint, the election results don't seem so important. But if the chief need after the elections is a united front of labor with the reactionaries, why did the union leaders make such a fuss during the campaign? The CIO Toledo Union Journal prints an article by UAW Vice President Gosser, blaming the defeat of Congressman Burke on the kept press and the "gullibility and complacency" of working people "when they have full time jobs, real wages and some decent living conditions." Apparently everybody is to blame except, naturally, the labor leaders who support capitalist politics. The Social Democrats haven't changed either. Norman Thomas, writing in the Socialist Call, says, "The real tragedy of the campaign was the abysmal failure of those whom we call 'liberal' to take the aggressive." Their failure to put on a better show of "liberalism" of course makes it more difficult for Thomas to drag the remnants of the Socialist Party into the Democratic Party. And Daniel James, New Leader managing editor. scolds the liberals for committing "a bad strategic and tactical error by glossing over or defending the Administration's sorry record on the Communist issue. . . If they honestly want to defeat reaction, they must henceforth seize the initiative in combatting Communism here and abroad, other wise they will forfeit leadership of the nation for a long time to come." That is, the way to fight reaction is by surpassing it at witch-hunting, a la the New Leader!

Short Subjects By John F. Petrone

The Wage Earner, paper of the Association of Catholic Trade Unionists in Detroit, was so upset by the defeat of the Stellato-Reuther leadership in the recent election of the General Council of UAW Ford Local 600 that it blurted out its real opinion of rank and file unionists who don't follow the redbaiting line of the ACTU. The chief headline in its November issue reads: "Democracy in Local 600 Is Being Strangled by Rank and File Stupidity." The article accuses the membership of "apathy, disinterest, laziness or

plain stupidity" and a "complete lack of moral responsibility" because they failed to vote for the Reutherite-ACTU slate or, even worse, voted against it. "The starkly tragic fact," it snarls, is that a blow has been dealt to "that great union's struggle to operate within the democratic, Christian framework of the American trade union movement."

Equally revealing is the Wage Earner's comment on the election results, written by Rev. Karl Hubble. Detroit ACTU chaplain and political commissar for the hierarchy in the local labor movement. His complaint is that labor has forgotten it "remains a political minority" and that too many union leaders are "well down the road" toward a labor party and "a labor government which would try to maintain a stable and prosperous economy by legislative and executive fiat." He's for the prevailing "form of economic democracy which has done more for the stability

and prosperity of the economy than any labor government anywhere ever has or ever will." In ington - the Spanish-American short, hooray for the status quo, and beware of any political action that might change it.

* * * The radical pacifist monthly, Alternative, has had its Sept.-Oct. issue banned from the mails, according to New York Postmaster Albert Goldman's letter to the editors, who said it was banned under a postal regulation dealing with "advocating or urging treason, insurrection or forcible resistance to any law of the United States." The magazine is edited by pacifists who believe in non-violence methods of peaceful change along Gandhist lines even if it means "defying the laws of the country when they conflict with principle." * * *

Government officials announced last week that controls affecting civilian production will begin to be felt nationally by next summer, and within and unworthy plea fails when pearance of "independence."
