Western Powers **Move to Restore** German Army

By Joseph Keller

The western imperialist powers, which five years ago after the bloodiest war in history vowed to keep Germany permanently demilitarized, have now formally agreed to

reestablish a German military machine. This has long been cen- regime, aware of the eager desire of Washington to build its militral to the strategic plan of American imperialism for war against tary strength in Europe around German manpower and industries, the Soviet Union.

is demanding a higher price for Rearming of capitalist Western "cooperation" than the Pact coun-Germany was the primary question involved in the Brussels conference of the 12 North Atlantic Pact countries summoned by Washington. It was on U.S. insistence - in fact, overwhelming pressure - that the British and its own control. French governments reluctantly

That American imperialism is agreed to take the step that ready to make broad concessions means the beginning of the reconstitution of the Reichswehr.

1,500,000 TROOPS

According to the decision of the conference, the Bonn government of Dr. Adenauer and the Christian to be called upon to provide up to 20% of the armed forces for the Western European army of 55 to 60 divisions — some 1,-500,000 troops - that Washington hopes to muster on the continent within a year under the command of Gen. Eisenhower. The agreement permits Eisenhower to expand the German forces if he thinks it necessary.

These German forces, according to the plan, are to be organized into combat units of 6,000 men each, with "tactical air power" included. Naturally, they will be trained by and under the com-Bonn regime. mand of experienced former officers of Hitler's Reichswehr.

in the 1920's. No other evidence was submitted against him by immigration officials except the mere fact of membership in an organization allegedly advocating violent overthrow of the government.

Skoglund was expelled from the Communist Party in 1929 and has long been known as an uncompromising opponent of its policies and ideas. He has been denounced many times over the past twenty years by the CP press and leadership for his activities within the union movement of the Northwest.

HONORABLE RECORD

Skoglund was born in Sweden and has been in the United States for 40 years. His record of service to the cause of labor is a long and honorable one. Skoglund has been a delegate from the Railway Carmen and the AFL Teamsters to the Minneapolis AFL Central Labor Union. During the Thirties in the organization drives spearheaded by the Minneapolis Truckdrivers, he helped build a powerful union movement in the Northwest. He was twice elected as Central Labor Union delegate to conventions of the Minnesota State Federation of Labor and

When U.S. military reverses in This "national emergency" is the reaction of Korea led to proposals for a the White House and the ruling capitalist circles wage-freeze, the overworked (56 to the fact that Truman's armed intervention in

the Korean civil war - initiated without the consultation of Congress or consent of the people has led to a military disaster.

What is this "national emergency" which

This defeat has brought about a crisis in Truman's policies and not a "national emergency" in which this country is threatened by outside foes.

Their Plans Have Been Upset

American imperialism has suffered a damaging blow in the Far East and its political prestige has fallen to a low point throughout the world. It has met an unexpected and serious military and political defeat that has thrown its plans awry. Its scheme for a "cheap" conquest in Asia has been shattered against a formidable obstacle it did not foresee: the tremendous power of the Asian revolution. The oppressed peoples whom they insulted as "gooks" have proved to be no push-overs. This was not in Washington's calculation

It is going to cost a lot more than American capitalism planned to take over the world - or even that poverty-stricken portion of it in the Far East. It must either abandon the scheme or (Continued on Page 4)

Whose Emergency? An Editorial

> speed up and expand tremendously its military preparations. And this means it must put the squeeze on the American people in earnest.

But that is where the hitch comes in. The American people, no less than the masses of Europe and Asia, are reluctant to fall in line. They don't feel threatened by anything except the danger of the catastrophic war, inflation and dictatorship that the actions of Washington are leading to. The "national emergency" that Truman's proclamation is designed to overcome is the popular opposition to the war plans.

"Inertia, Defeatism, Objection, Escapism"

Walter Lippman complains in the N. Y. Herald-Tribune that "there is today a crisis of leadership . . . marked by an increasing separation between public policy and popular sentiment. The rising tide of isolationism in the United States is the counterpart of the profound and widespread inertia, defeatism, conscientious objection and escapism on the Continent of Europe." '

This "isolationism" and "defeatism" are terms which mirror the fact that the people everywhere are against the imperialist drive toward world war. They are against militarism. They want the American troops pulled out of Korea right away. They want the war in the Far East to be stopped now - and they're not worried about saving Washington's "prestige" in the process.

This is indeed a "grave danger" — to the war plans of the imperialists. This is THEIR crisis which they represent as the crisis of the nation. And this is THEIR "national emergency" which they are attempting to overcome by whipping the people into line with threats, decrees and compulsion.

PHILADELPHIA, Dec. 19 --The family, friends and comrades movement, had been stricken by tonight." a heart attack and died in the West Jersey Hospital.

Telegrams of sympathy for Rose, his wife, came from friends throughout the country. V. R. Dunne, with whom Karl was associated for long years in the Minneapolis labor movement. cpeaking for the Minneapolis Branch of the Socialist Workers Party, wired: "The tragic news of Karl's death shocks every comrade. Those of us who knew him feel a deep personal loss." From Reading friends said: "The work, loyalty, and steadfastness of Karl shall never be forgotten."

The St. Paul Branch of the SWIP said: "We mourn the loss of our lifelong friend and comrade. The workers' movement has lost an energetic and selfless fighter for its cause. Let our grief be tempered by the realization that Karl lived a useful and honorable life."

AT SERVICES

At the services, William F Warde, speaking for the Socialist Workers Party to which Karl had belonged since 1934, pointed out that among those traits for which we will remember Karl most, was his careful planning of everything he undertook.

"This careful devotion to organization was equalled only by his fearlessness and tenacity in carrying out his ideas," said Warde. "We promise to Karl that our movement will continue the plan which he has helped make, with the same tenacity and fearlessness which he himself showed."

On Friday night the Phila delphia Branch of the SWP held a memorial meeting in honor of Comrade Kuehn. In attendance were many of those who had known and worked with Karl during the eight years he lived here. Friends from Local 103, IUE - CIO, of which Karl was an active member, and many of those who knew and worked with him in the local NAACP were present. Irvin Marnin, in opening, the meeting, spoke briefly on the

For the crimes the Nazis had committed in Yugoslavia, revenge was demanded. While in Slovenia; the Czech, Hungarian | the Partisan command prevented any lynching of German PW's such as happened in Poland or Czecohslovakia, it did succumb to the nationalist pressure in relation to the German minority of the Voivodina. Most of the wellto-do peasants had fled anyhow when the Partisans approached. Of those who remained, most were driven out of the country with their families, and only a small nucleus has been left, which is today being restored to its right, as an autonomous national group

CHANGE IN ATTITUDE

The CPY quickly reacted and changed its attitude toward the Rumania will easily understand German minority. By 1947, efforts what a progressive achievement, were undertaken to bring German back into the country. Many of them came, as did Germans who

This wounded GI is one of thousands evacuated from North Korea. Here he is lifted gently into a helicopter for the long ride home. That's the ride that all the troops in Korea want - except that they want to do it in one piece. And that's what growing numbers of their friends and relatives at home are demanding.

Frank Lovell, Socialist Worker Party spokesman and militan' maritime union leader, last weel addressed a group of student from the University of California on the McCarran - Kilgore Law The meeting, which took place a' Barrington Hall, one of the student co-ops, was originally scheduled as a debate. But, ar Lovell stated, it was impossible to find anyone who would defend this vile piece of legislation.

After analyzing different as pects of the bill in some detail Lovell went back to the history of the U.S. to show how similar oppressive measures - the Stam Act, the Fugitive Slave Act., etc. - had been fought and defeated in the past.

Following the speech there was a lively discussion period in which various aspects of the world situation were taken up, and questions were raised about practical steps students could take in the fight against the new policestate law.

Lovell answered that you cannot get rid of a law like this by quietly submitting to it. He warned that the courts cannot be relied on in this struggle, agair citing historical evidence to prove his point.

The real answer lies in the mass action of all the people, he declar- Party. ed. He urged the students to hold more meetings of this kind and their teachers too, with the Washington.

LENIN

Vol. XIV - No. 52

"The capitalist world has no way out, unless a prolonged death agony is so considered. It is necessary to prepare for long years, if not decades, of war, uprisings, brief interludes of truce, new wars and new uprisings. A young revolutionary party must base itself on this perspective. History will provide it with enough opportunities and possibilities to test itself, to accumulate experience and to mature. The swifter the ranks of the vanguard are fused the more the epoch of bloody convulsions will be shortened, the less destruction will our

TROTSKY

planet suffer. But the great historical problem will not be solved in any case until a revolutionary party stands at the head of the proletariat." - Leon Trotsky, Manifesto on the War, 1940.

Our Confidence in the Future

1950 served warning to the American working class that the capitalist system has no other perspective than war. Undeclared wars, limited wars, and gigantic steps toward total war thinly disguised as measures for preserving peace-these are what it really has to offer.

This perspective, we are certain, is abhorrent to most of the American people, who have no investments or markets to safeguard abroad, no reason to protect the dictatorships of Chiang Kai-shek, Syngman Rhee and Bao Dai, and no wish to interfere with the right of other peoples to live under systems of their own choice.

We are certain also that most Americans would decisively reject this perspective. as we do, if they saw a suitable alternative. And make no mistake about it, large numbers are looking around for an alternative. That was one of the main characteristics of the recent election, in which many voters exhibited a "political homelessness" and a groping search for answers to the burning questions of the day that were not provided by either of the capitalist parties.

The alternative they will find-and sooner than its enemies and even some of its friends realize—is socialism. By replacing the capitalist system with a society based on production for use, mankind will simultaneously remove the root causes of imperialist war, reaction, poverty, discrimination and enter an era as superior to capitalism as capitalism was to the feudalism that it replaced.

5

The American working people are going to find their way to socialism not through books but through the most effective of all schools for mass education -experience. The depression of the Thirties taught workers the need to organize independently on the economic field because without their own unions they remained at the mercy of the "free enter-

prise" system and were unable even to feed their children properly. Once they learned this lesson from experience they moved with rocket speed and in a few short years created the most powerful union movement in the world.

Now, as we enter 1951, they are about to undergo new experiences which will teach them the need to organize independently on the political field with a view to taking political power away from the capitalist class. The grim years immediately before us are going to expose the cynical lie that vast preparations for war will lead to peace; they are going to drive home the lesson that the price to be paid for the maintenance of capitalism is permanent militarization, loss of civil liberties, lower living standards and the most horrible destruction of life and productive capacity history has ever known.

We are supremely confident that the American working class will assimilate these lessons and take the proper measures to change the situation with the same speed and power it has shown in the past. We are equally confident that the monopolists and brass hats, who now seem so securely in the saddle, will not be able for long to withstand the might and the militancy of an American labor movement conscious of its aims and aware of its responsibilities to the peaceloving people of this country and the entire world.

Some critics contend that our revolutionary optimism is based on mystical faith. But that is not true. Our confidence in the future is derived from an understanding of the class struggle, which cannot be erased by proclamations of "emergency" or even war, and of the bankruptcy of a capitalist system already rattling in its death agony. The only realists today are those whose policies and activities are directed toward the victory of socialism in our time.

1950--A Year of World Crisis

Mark Preparations for War

By James Walcott

In 1950 the "land of the free" was rapidly on the road Spy trials helped to create an to becoming the home of the slave. By forced marches, the U.S. ruling class moved toward a military-police dictatorship. The drive towards full-scale?

war required the militarization were given death in a foreign and suppression of the rights and war. The Bill of Rights was torn to

of its sponsors could surpass.

privileges of the people.

With the aid of subservient bor bureaucrats, the government tightened its control of the ganged up to enact the McCarranunions. Strikes were few and far between, and when they broke out, as on the railroads, they met the posed as an opponent of th full force of the capitalist government's repressive machinery, including military seizure.

The youth of 1950 were growing up in the harsh conditions of ideological terror and militarization. Dwight D. Eisenhower laid the future out in typical brass hat style to 600 freshmen at Columbia University in a recent speech:

'MOST OF YOUR LIFE"

"A stark and bleak future faces the world today. It is nothing but a dream to think you are going to live in a carefree world where everything will be all right. At the very, very best, gentlemen, the Nazi thought - police, was most of your life is going to be given a free hand, strengthened lived in a period of tension."

A foretaste of things to come loose not only on government was given the conscripted youth workers, but workers in private who were shipped to the bloody industry. The "loyalty" purge, battlegrounds of Korea. Instead which had victimized thousands of of federal aid to education, they government employees including

A Hero's Reward

By George Lavan

Almost two years ago James Walker, a Negro filling station attendant in Cincinnati, risked his life to pull a taxi driver from his flaming cab. Before Walker plunged into the flaming cab he surely hadn't thought of Andrew Carnegie. Yet Andrew Carnegie, dead since 1919, had thought of him.

In 1904 that greatest and most artless of capitalist philanthropists endowed the Andrew Carnegie Hero Fund. Its purpose was to reward acts of heroism by men and women in the "humble" walks of life.

As soon as the Carnegie Hero Fund for North America got word of Mr. Walker's deed and had investigated the particulars, it sent him its hero medal. It also decided that he was entitled to the munificent reward of \$500.

This all happened almost two years ago. What made it news recently is that Walker has been trying in vain all this time to get his reward money. The alacrity with which the Fund sends out medals to heroes is balanced by its caution in sending the dough.

This is not due to any stinginess on the part of those who administer the Fund. It is simply that they are conscientiously pursuing the principles of philanthropy laid down by Carnegie. They couldn't simply send the hero \$500 and congratulate him. He might not spend it in a way that would "permanently benefit" him. Indeed he might spend it foolishly or even get into trouble with it. The slightest suspicion of such a procedure in giving reward money would be enough to make Andrew turn in his grave. And Andrew's rest is probably none too peaceful in view of his record on the bloody Homestead strike.

The newspapers of last week recounted that Mr. Walker's latest attempt to get his money had failed. He wanted the money for a downpayment on a combined house and store. Regretfully the Fund decided that he might not be able to keep up on the payments and stated, "We don't want to be the ones to put him over his head in debt." But lest he get down-hearted it added that the Fund was "eager" to send him the money "as soon" as he suggested a way of spending it that would "be assured of helping him."

This was how matters stood on Dec. 12, 1950. And here we must leave our hero, racking his brains for some plan to pry the Hero Fund loose Truth About Korea from his reward money.

Fund, Mr. Dooley, that great Irish philosopher deprived a mother of the custody and wit, was convinced it was aimed at him. of her two children because she He mistrusted Carnegie's philanthropy, believing had criticized American intervenit was all done to perpetuate Andy's name and tion in Korea. vanity. THE MILITANT

MONDAY, DECEMBER 25, 1950

At a special ceremony in Washington, Michael DiSalle, former mayor of Toledo, is sworn in as price administrator by Supreme Court Justice Tom Clark. That doesn't mean that prices are now going to be controlled, however. DiSalle's emphasis for the time being is on soliciting "voluntary" controls from the price-gougers and profiteers, which is like asking a tiger to become a vegetarian "voluntarily."

Revival of 'Isolationism'?

By John G. Wright

Are we witnessing a resurgence of isolationism in this country as a consequence of the current world crisis?

In his nationally syndicated column, David Lawrence not only affirms this is so but confidently predicts the further growth of isolationism. "More 'isolationists' have been born in the last few days," he wrote on Dec. 4, "...than were bred since the 1920's. The demand for America to go its own way in world affairs helping in Europe or in Asia as its resources permit - will become the demand of many political groups inside both major parties." And he goes on to imply that such a tendency will be fed by moods and attitudes of a still recent past. "Isolationism bored within the Democratic as well as the Republican party as late as 1932," he recalls.

During Attlee's recent stay in Washington, Lawrence was only one of a rather sizable chorus chanting the same theme. This was obviously done to bring added pressure on the recalcitrant West Europeans. At the same time, however, it was also intended to stiffen the Truman administration in its stand against "retreat and surrender in the Far East," as the same Lawrence puts it.

And here we come to the gist of this "isolationism" which has been asserting itself so aggressively and which is being advanced by a section of American capitalists in their hid to determine U.S. foreign policy. This "isolationism" has nothing in common with the traditional continental conservatism, which had its roots in the expanding internal market of rising capitalist America, and which found its popular expression in the cry, "America for the Americans," in the days when foreign policy was directed along the lines of the Monroe Doctrine.

War I and "supplanted by the program of imperialism: 'The Whole World for the Amer- and its military-police agencies icans." World War II and its aftermath put the finishing touches to this process and saw Wash- a mortal blow at this vital nerve ington arrogantly assuming and asserting its "global responsibilities."

The "internationalists," who formulate administration policies, regard Western Europe as the tion for union men against the decisive arena where the struggle for world domshipowners' blacklist. inion will be fought out; and, if necessary, they are prepared for tactical retreats in Asia. The so-called isolationists, who are critical of the administration, insist on the contrary that Asia is decisive; that without fighting for Asia it is hopeless to fight for Europe; and they are prepared, if necessary, for tactical retreats in Eu-

rope, and from the UN itself. If one side is skeptical about the political value under the supervision of the govand military prowess of the only available Asian ernment. Under the circumstanallies, then the other side is even more dubious ces, the unrestricted power to about the reliability and military value of the hire and fire becomes a potent Atlantic "community."

But both sides pursue the self-same goal world dominion. Moreover, both sides agree tants and dictate the terms under ganization, victimize union milithat the American colossus, powerful as it is, which the men shall sail cannot commit itself simultaneously in Asia and ships. in Europe. A choice must be made. And in this very choice is expressed the historical.blind-alley in which American imperialists have arrived. It is true, they cannot win in Europe once they lose Asia. And just as truly, they can never hope to win in Asia, if Europe is lost. And so the dispute among them over foreign policy rages on. But in this dispute the isolationism of the past plays no significant role. It is as dead as the dinosaur.

The unpopularity of this proposal is assured by the suggestion that it be achieved by eliminating summer vacation periods.

In addition, the same board states that emphasis "should be placed on acquainting our youth with our American heritage and. . . the present international situation. . . revising the program for the teaching of American history." Thus, in the process of indoctrinating the youth, American history will be distorted to meet the imperialist needs of Wall Street.

Oscar L. Ewing, Federal Security Administrator, suggests "basic (military) training during the high school years. . . increase (of) the teaching of technical skills of military value" so that "a high school graduate could move directly into an air force ground crew assignment." He further envisages "the setting up of a federal body to act with the military in allocating young men to college."

In simpler language this means the military training of youth beginning at the age of 14. It further would bring about a rigid military censorship over all education, and allow army officers to decide just who could go on from high school to college. The class discrimination which today prevents working class youth from getting a higher education would be strengthened by the direct dictatorship of the military.

It is reported that Selective Service Administrator General Hershey will soon submit a program to Congress incorporating the essential features of all these proposals.

American youth will be confronted with mature problems early in life. This will contribute to their early politicalization and radicalization. Militarization has always been the mortal foe of day strike, met this threat head youth. But it is the only future which U.S. Continuous Discharge Book and capitalism has to offer them.

Goose Step in the Schools

By James Dall

The military crisis of American imperialism has already begun to twist the whole educational system to fit the campaign to militarize the youth.

Plans to Prussianize education were well underway even before Truman's declaration of a national emergency. U.S. reversals in Korea have merely speeded up the process.

The most immediate and pressing problem is the quick reinforcement of the Army, raising its strength to 3½ million. Virtually all proposals to achieve this aim are based on lowering the draft age from 19 to 18. But this is only an expedient and stop-gap. The lower the draft age the less equipped are the youth for the modern technological aspects of war. What the brass hats want is a larger army, as many youth as possible, trained for the new ways of war.

Long-range plans based on a permanent perspective of militarism are being formulated to resolve this problem. A resolution of the Association of American Universities recommends a 27-month period of military service for all youth, and "upon the completion of the required period of training and service all inductees shall be transferred to an appropriate reserve organization, for a period of years, from which they can be called upon in a general mobilization."

This projects permanent militarization of all the youth. But the plans go further than that. The proposal continues: "There shall be no deferment from universal training and service except that some students already in college should be deferred. . . on condition that. . . (they) shall be obligated to serve. . . as directed by the Secretary of Defense in the national interest, military or otherwise. Inductees shall be compensated at a nominal rate of pay."

This monstrous proposal could mean the universal induction of youth into the army, and their assignment to work in industry under military rule at scab wages. This blueprint for economic enslavement of the youth presents a real danger to the labor movement.

Even training for professions and trades under this plan would be directed toward "the military needs of the nation." That is, the sciences would be taught with an eye toward tying the young engineers, physicists, doctors and architects to the war machine.
