RAILROAD WORKERS FIGHT FOR JUSTICE

Truman -- Servant Of Rail Barons

By The Editor

For the second time in seven weeks, members of the Brotherhood of Railway Trainmen have tied up the railroad system.

The rail workers did not launch this struggle lightly. They knew that President Truman would threaten them, and try to carry out his threats; they knew that the government would brand them as "traitors"; they also knew their leaders did not have the stomach for such a fight.

But they have dared everything because they know their cause is absolutely just. While other rail workers have the 40 hour week, the operating brotherhoods have to work any and all hours at straight time. While other workers have received two wage increases in the past two years, they have received none. The machinery of the Railway Labor Act, a special railroad slave labor law, has stalled their demands for almost two years. Small wonder the railroad workers are out of patience!

Truman Is Their Enemy

The railroad workers know Truman as their enemy. It is clear to them that if he were on their side he could easily force a decent agreement based on the unions' demands. But instead, Truman has used his power to back the companies; he "seized" the roads, and then appointed railroad executives to high military rank to run the roads and rake in the profits.

Let the labor leaders explain why Truman does not appoint some switchmen and trainmen to the rank of Colonel and let them operate the lines. Why doesn't he turn over the huge profits to the unions for welfare, hospital care, medical aid, and educational

Because Truman, the government he heads, the Army he commands, the courts he appoints, are not the servants of the people. They are the agents of Big Business: They are all in league against

A Fight Against Odds

The railroad workers are struggling against great odds. Their greatest obstacle is their own leadership, which called Truman "strikebreaker number 1" in 1946, then backed him for President in 1948, and begged him to "seize" the lines last August. These same leaders keep the rail unions divided along craft lines. It will be difficult for one craft, in a spontaneous struggle, disconnected and creased corporation incomes taxes without real organization, to win a complete victory.

The railroad workers are trying to emulate the militancy of the new taxes come from corporation of all party branches by Joseph Hansen was born 40 tions. But Tryingan proposes and the state of the party branches by Joseph Hansen was born 40 tions. But Tryingan proposes and the state of the party branches by Joseph Hansen was born 40 tions. will consolidate all the operating crafts into one mighty striking

But even with their handicaps, the railroad workers can win profits portion of his previous tax this fight if all labor rallies to their cause.

program will take another \$10 billion from the purchasing power of the American people. For the low-income earner it is a "paythrough-the-nose" program. The workers do the paying to make Wall Street's war machine go.

As detailed by Secretary of the Treasury Snyder, the latest tax extortion will increase income taxes in the lowest brackets by another 20 per cent. What the government doesn't withhold from your pay, it will rake off from what you buy thru excise taxes on hundreds of manufactured commodities.

SOAK THE POOR

The tax program is designed, Snyder admitted, to bear most heavily on the small taxpayers, those with annual incomes under \$5,000 — the 83 per cent of taxpayers who receive only 58 per cent of taxable income. "This concentration of income must be tapped if the tax is to raise enough revenue," Snyder declared. He did not speak of the real concentration of wealth in the hands of the top tenth of the 17 per cent of taxpayers who get 42 per cent of the country's taxable

ism in a national radio broadcast. The Federal courts in Chicago oushed contempt proceedings against union heads, trying to implement forced-labor injunc-

THE WORKERS ANSWER

The answer of the workers was typified by the remarks of one railroad worker quoted in the N. Y. World Telegram, Feb. 3:

"President/ Truman put the skids under us in 1946. We tried to strike and we were told to get back to work or be drafted. They're always talking patriotism when something like this comes along. But let me tell you, brother, these guys are just as patriotic as anybody else.

"Take my case," he continued. "My rent's \$86 a month. I give gave her two years ago. And don't forget, you can knock a 10 over the head with one trip to the butcher shop. We work a 56hour week at straight time, \$12.26 a day. No Sundays or holidays off."

Senator Maybank, chairman of cerned with the effects of the dispute as he did the miner's strike in 1949 after government seizure. After every attempt ernment mediators ordered a wage increase acceptable to the union.

But in the railroad dispute, Truman has taken advantage of Of course, Maybank is all for the craft division in the rail

Detroit SWP Presents Program on Television

(During the 1950 Detroit election campaign, Howard Lerner, Socialist Workers Party candidate for governor of Michigan, was denied equal time on television broadcasts with the Democratic and

After protests to the Federal Communications Commission, the Detroit SWP was finally granted a half hour on television station WXYZ in Detroit, Sunday, Jan. 28, to present its views on the major questions of the day.

Commenting on the television program, a Militant reader from Detroit wrote: "Watching the faces of comrades and visitors in the SWP hall, viewing the TV program, it was clear why the bosses don't want the ideas of genuine Marxian socialism spread among the millions who listen to radio and watch television."

The program took the form of an interview between Brewster Campbell, Detroit Free Press city editor, and Howard Lerner, spokesman for the SWP. Following is the text of the TV inter-

Basic Party Aims

QUESTION: Would you mind telling the listening audience what the basic aims of your party are?

ANSWER: I have here (exhibits 1948 Election Platform) the essential program of our party as published in 1948. It states: "The Socialist Workers Party alone consistently and unconditionally champions the interests of the workers in their struggles against capitalism. This goal is expressed and concretized in. . the mobilization of the masses for a Workers and Farmers Govern

"Such a government, based on direct representation from democratically elected councils of workers, farmers, housewives, soldiers, and minority groups, will initiate the reign of real and complete democracy in every sphere of life. It will take over the means of production, expand and coordinate them in a planned economy, and create the conditions for permament prosperity. Its victory will bring peace and harmony to the United States by doing away with the material cause of class divisions and therefore of class conflicts. The victory of socialism in the most powerful country will serve as an inspiring example to be quickly followed by the rest of the world."

QUESTION: In what basic ways does your platform differ from that of the Socialist Party?

ANSWER: The Socialist Party of today has nothing in com mon with Eugene V. Debs' party except the name. It has betrayed his ideas. As counterposed to Debs, it supported the Second World War, whereas Debs went to prison opposing the First World War We continue in the tradition of Debs by opposing capitalist war

Debs also opposed capitalist-minded and reactionary union bureaucracy. He fought throughout his socialist career against the conservative and treacherous union leaders. But the Socialist Party of Norman Thomas is cheek by jowl with modern so-called "labor statesmen," who have joined every hack capitalist politician who announces he is a "friend of labor." In this respect, we, too, follow in the tradition of Debs by remaining independent of politicians of the two capitalist parties, the Republican and Democrat. of the two capitalist parties, the Republican and Democrat.

QUESTION: Are you in favor of the Stalin setup in Russia?

Opposition to Stalinism

ANSWER: We are unambiguous opponents of the Stalin regime in Russia and Stalinism the world over. As a matter of fact, we opposed Stalinism when it was fashionable in liberal circles to extol and whitewash its crimes, when books and moving pictures repeated his lies - for example Davies' book "Mission to Moscow" later

As against monolithic control, we favor the broadest form of workers democracy, rule by the people through freely elected coun cils, workers' management in industry, and not only a reaffirmation of basic freedoms of the Bill of Rights, but their extension through the achievement of industrial democracy.

We were and continue to be staunch defenders of the Russian Revolution of 1917 which kicked out the landlords, gave land to peasants, kicked out the capitalists and abolished private ownership constitutes the basis in Russia and the rest of the world for a truly cooperative system.

QUESTION: How do you propose to achieve your aims in thi

ANSWER: My party supports the views published in thi newspaper and magazine. (Displays The Militant and Fourth Inter national). But above all, we will gain support by participating in the labor movement and other progressive movements. By building a political movement — a mass socialist movement. This will occur not primarily because of persuasion, but because the demands o life will push the American people in the direction of our Marxis ideas. This process will win for us the support of the majority

As illustration of what I mean, let's rook at indu-rial union ism. Socialist pioneers such as Debs and Big Bill Haywood advocated industrial unionism for many years. Finally, their ideas were concretized in the creation of the huge CIO. The idea they the American workers in that direction.

QUESTION: How do we know that if a socialist government is established in this country, it would be any more democratic than the Stalin government in Russia?

ANSWER: The Stalin dictatorship stems from specific historical conditions. Russia was one of the most backward countries in Europe in 1917. Moreover, the country was devastated and ruined by three years of imperialist war and three or four years of civil

Let the People Vote

QUESTION: What is your party's position in the current war crisis?

ANSWER: We feel that the Korean war was declared in violation of the constitution, which gives Congress the power to declare war, not the President. The fact that he took the power to make war indicates how far the country has drifted toward a dictatorship.

Those who must do the fighting and dying should have the right to declare war. The American people should have the right to vote on this question. If elaborate machinery is invoked to elect dog-catchers, certainly it is not too much to ask that the same machinery be invoked to ascertain the people's opinions on war. Were this done in the case of Korea, feel sure American troops would not now be lying there

I further think that American troops ought to be withdrawn from Korea. Just as we did not want intervention in the American Civil War, we should let the Koreans settle their own problems.

SWP Spokesman Lerner

Lerner?

ANSWER: I served on the first executive board of Ford Local 600, UAW-CIO, and am a charter member of that local. On the military side, I spent four years in the army - in England, Africa, Italy, France and Germany. Politically, I was candidate for Mayor of Detroit in 1947, and for Governor of Michigan in 1948 and 1950, both times on the Socialist Workers Party ticket.

QUESTION: Just what

is your background, Mr.

HOWARD LERNER

war and foreign intervention. All this made for great scarcity This was reinforced by a long tradition of primitive backwardness and czarist dictatorship.

sary industry and advanced economy on which to begin building a socialist economy almost inevitably pushed to the top a new bureaucratic oligarchy. Since there wasn't enough to go around for all, it became inevitable for a policeman to take over to decide how the inadequate rations were to be distributed. A socialist government in the United States or in any advanced capitalist country would have no such difficulties.

The CIO Economic Outlook (exhibits "Corporate Profits After Taxes") shows the tremendous draining of the American economy by the rich. These polls show profits to be at a new historical high. If profiteers were completely curbed, that is, if capitalists were removed from their positions of power over the economy, living standards could rise. The 84 brands of tooth paste, for instance, could certainly be cut down on. Inefficiency could be eliminated. Corporation attorneys could work in constructive channels, swords could be made into plows, and even atomic energy could be used to benefit and not to destroy mankind.

A socialist America, instead of passing out scarcity, would guarantee a decent living standard to every man, woman and child, and improve it from year to year. That, in addition to the advanced educational and cultural background are guarantees against dicta-

QUESTION: How do we know that it would be any more democratic than the present government of the United States?

ANSWER: In my opinion the present government is governing less democratically day by day. The country is heading toward a military dictatorship. In the past few years alone, labor has been shackled with a Taft-Hartley Act and numerous state restrictions. Professors, teachers, students are restricted in expressions by loyalty oaths. (Exhibits ACLU pamphlet.) I have here a summary of civil liberties conditions in the United States put out by the American Civil Liberties Union, a non-Stalinist and even anti-Stalinist organization as far as its supporters think politically. and purges, and, most menacing to the spirit of liberty, of taboos on those progressive programs and principles which are the heart of any expanding democracy."

We might add, that, certainly Negro people do not obtain equal rights. Up and down the country, people are jailed because of exof the means of production. We think this kind of economic setup pression of unpopular ideas. The United States, which once welcomed revolutionists and democrats from abroad and was considered a haven of liberty and foe of oppression and tyranny, today is a supporter of Franco in Spain, of fascist monarchy in Greece, of mili tary dictators in Latin America, of Chiang Kai-shek and of Syngman Rhee. From the apostle of freedom, the United States is gradually being transformed into a bastion of reaction and imperialism

A socialist government in the United States, by destroying th power of monopolists and banks and permitting the wealth to b enjoyed by the people as a whole would remove the causes fo oppression, witch-hunts and tyranny at home, as well as the need to support tyrants abroad.

Such a government represents the next great advance of the human race in constant fight to lift itself up from barbarism of the past and banish poverty and tyranny in the affairs of man. QUESTION: What, in your opinion, is the future of Stalinism?

ANSWER: The Kremlin oligarchy, despite newspaper editorial to the contrary, is in my opinion, not interested in world revolution On reading in the daily paper and originally advocated became realized when conditions of life pushed but is a national bureaucracy interested solely in preservation o its own powers and privileges. It utilizes control over satellite countries to strengthen its own economy and strategic position. It utilizes control over Stalin parties abroad as blackmail to extort concessions. And it attempts to utilize colonial revolution in Asia as pawns of its nefarious game. This does not mean the purposes the Kremlin and aims of colonial masses to gain freedom are the same. Nor does it mean that the motives of the Kremlin and the aims of advanced workers to abolish capitalism are one and the same.

On the contrary, the Kremlin wants to use progressive movements for its own reactionary purposes. As soon as this is clear address was published, I received to the colonial peoples and to advanced workers of the west, these will break with the Kremlin.

This is not just a theory. We have seen the first big step with the split of the Tito working-class government from Moscow. We have seen Tito oppositionists develop in the labor movement of Western Europe. The export of Moscow Trial and blood purges shows how fearful Stalin is of this growing opposition.

Stalinist expansion thus carries the seeds of its own destruction. Titoism shook the Stalinist structure as no single event since now getting. The page on atroci-Stalin took power. But Titoism represent a small country of only 15,000,000 people. When a similar event occurs in a larger and more a best seller. We proved this." influential country, the whole structure of Stalinism will topple

SWP and Union Officers

QUESTION: What is your relation to the official leadership tants, 8 copies of Fourth Interof the AFL and CIO?

ANSWER: We support them when their policies are right and oppose them when their policies are wrong.

We think his methods are capitalist methods to prepare for war. We oppose shelving of democratic rights as well as basic needs of the people and pushing the country into war.

This doesn't mean we support the Republicans by any means. Their difference with him is only tactical, not basic.

QUESTION: What progress is your organization making in winning the American people to your program?

ANSWER: Our organization was making considerable progress in the years following the war in recruitment, audiences, and support for our ideas in unions. This was epitomized in our ability to conduct a Presidential campaign in 1948. Frankly, we admit this progress slowed down in the last couple of years in the face of the reactionary sweep.

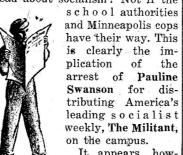

But every witch-hunt so far in American history has temporarily strengthened the forces that be, but finally turned against them. It was thus with those who inspired the Alien Sedition Act Congressional declaration, he is endeavoring to suppress critics. of 1798 and those who attained the Dred Scott decision just prior By Executive Order 9835, people are being fired from government to our Civil War. It was thus with the Palmer raids instituted by jobs - without trial, without the right to face witnesses, without Wilson's Attorney General. I predict it will be the same with the

TROTSKY

On the Capitalist Madhouse of Europe

"Europe resembles a madhouse. And at first glance it seems as if the inmates themselves are unaware half an hour in advance whose throat they will cut and whom they will next embrace. But in the stormy waves of this chaos one irrefutable lesson is to be discerned - the criminal responsibility of the bourgeois world. Everything now occurring in Europe was prepared for during the past generations by its economic system, its state relations, its system of militarism; by the morality and philosophy of the ruling classes, by the

- Leon Trotsky, Order Out of Chaos. 1919

They Defy the People's Will

Washington has made it clear that it intends to continue the sacrifice of American youth in Korea. Now that the U.S. military command has halted the long retreat and has launched its own "limited offensive," the talk is once more of "staying in Korea at all costs."

Last week, it was to be a drive only "up to the 38th Parallel." Now Maj. Gen. John H. Church informs us from the Pentagon that "there is a possibility" that MacArthur will try to carry the offensive beyond the South Korea border. MacArthur himself, declares, "The stake we fight for now is more than Korea. It's a free Asia." His aim is nothing less than the conquest of a whole continent.

This decision of the rulers in Washington to continue and extend the war in Korea brazenly defies the will of the American people. They have expressed themselves unmistakably in their flood of letters to Congress and the newspapers, in country-wide polls, in meetings of mothers' groups. They are overwhelmingly against the U.S. intervention in Korea — Truman's "police action." They want — they are pleading and demanding — that the U.S. troops be withdrawn at once from Korea and brought back

Peiping Indicts U.S.

On Saturday, Feb. 3 over the Peiping radio Chou En-lai, Foreign Minister of the People's Republic of China, made a formal reply to the resolution which the U.S. imperialists had steamrolled thru the UN labeling Mao Tse-tung's regime as "aggressor." This reply was deliberately underplayed and twisted by the capitalist press, because it was a stinging indictment and at the same time an exposure and a defiance of American

Chou disclosed that his government had definitely accepted the Asian-Arab proposal for a cease-fire.

"We made a further statement," said Chou, "that after the convocation of the seven-nation conference, a cease-fire for a limited period can be agreed upon before further negotiations on all related problems." This bears out completely the declarations to the same effect made by Sir Benegal Rau of India on the floor of the UN.

"The United States government," Chou went on to charge, "lost no time in intimidating and coercing representatives of a majority of nations into hurriedly rejecting the resolution for a seven-nation conference." Every word of this is true. So true that T. J. Hamilton, the N. Y. Times reporter at Lake Success, did not even bother to hide it. He wrote

The Martinsville

Seven young Negroes have been executed in Richmond, Virginia, victims of the murderous white supremacists who demanded the ultimate penalty.

Regardless of their guilt or innocence of the crime of rape, the Martinsville 7's execution was a horrible injustice. No white man has ever been sentenced to death and executed for that crime in the state of Virginia.

Like all lynchings, legal and illegal, this mass murder was calculated to terrorize the Negro people who demand equal rights.

Not one prominent capitalist officeholder came to the aid of the 7.

President Truman, who promised the Negro people equal rights in his 1948 campaign, turned his back upon the Negro people who pleaded with him to save the 7 victims of lynch justice.

Not one Republican leader moved a muscle to help the Martinsville 7. Not one of the prominent Negro politicians who hold appointed office in Washington could lift a finger to help them.

Neither the capitalist politicians who give lip service to equal rights only at

The true sentiment of American mothers was expressed by Mrs. Emmett Stillwell, of Denver, six of whose sons are being taken into the armed forces. "Don't . make me out the wonderful patriotic mother," she told reporters. "They're not going because I think it's a patriotic

move they ought to make. It's simply

that they have to go and there's nothing

I can do about it.' And she added what is undoubtedly the feeling not only of mothers, fathers and wives at home, but of the GIs themselves who are doing the fighting and dving: "I wouldn't mind if they were going to defend their own country, but this business in Korea doesn't make sense."

It doesn't make sense to anyone who isn't thinking of conquering foreign territories, of crushing the struggles of colonial peoples for their national independence, of grabbing natural resources, markets and cheap labor power in other lands. But it does make sense to the American imperialists who dream of world conquest to enrich themselves.

These mad criminals will yet kill off hundreds of thousands and millions of American boys unless the people declare in a mighty voice: "Stop the war now! Bring the GIs back home right away!"

Imperialism

in his Feb. 3 dispatch that "most of the Asian and Arab countries held back to the last, and the Western European nations accepted it only with the reservation that they would oppose almost any further action."

Denouncing the U.S. resolution as "an utter perversion of the truth," Chou went on to declare that this action "in a most naked way proves. . . that the U.S. government and its accomplices want, not peace, but war and that they have blocked the path to a peaceful settlement." Peiping and its spokesmen are by no means alone in drawing this correct conclusion. India's delegate voiced a similar warning. More important, hundreds of millions in the Far East, inside and outside China, are firmly convinced that the real intention of the U.S., as Chou put it, is "to extend the war and oppose peace" in Asia.

The brazen seizure of Formosa, as much a part of China as, say, Long Island is of the U.S., constituted an act of aggression against the Chinese people. On top of this, MacArthur directly threatened their vital industrial center on the mainland by trying to move his armies up to the Manchuria-Korea border. When Peiping brands the latest U.S. provocation in the UN as "illegal, slanderous, null and void," its position is both reasonable and justified.

election time, nor the Negro leaders who

stop anti-Negro violence. The execution of the Martinsville 7 serves as a tragic lesson. The truth is that such lynchings will be repeated so

settle for privileges for themselves, can

long as capitalism lives. The Ghettos, job discrimination, segregation in all fields of life, police brutality, incitement of mob violence, lynching and "legal" murder — these are all

part and parcel of the corrupting capi-

talist system. The Southern white supremacists must hold Negroes in subservience in order to maintain their political grip on the Southern states; the capitalists as a whole must divide the white and Negro workers, to preserve industrial wage

Race oppression will not be destroyed until capitalism which breeds and fosters jim crow is eliminated and replaced by a socialist society. Socialism needs neither exploitation nor race divisions. Its foundation is complete social, political and economic equality.

slavery and private profit.

When the American workers learn this - the Martinsville 7 will be avenged.

Leon Sedov, Symbol of World Socialist Youth

Today the thinking youth of our country, faced with the yawning abyss of another imperialist world war, are groping for a new road toward hope, toward opportunity and a better world. For them there is no better guide than the martyred Leon Sedov, whose name has become a symbol of the revolutionary socialist youth throughout the world.

Leon Sedov was the older son of Natalia Sedov Trotsky and Leon Trotsky. Only 32 years old at the time of his premature death, he had lived his entire conscious life in the world socialist movement, giving it all his energies and devotion, subordinating in its service all his talents, which were varied, and gifts, which were many.

The GPU, Stalin's secret police, hounded Sedov throughout his youth in the Soviet Union; they stopped at nothing after he voluntarily followed his father and mother into exile in 1928. Laying trap after trap in attempts to murder Sedov, Stalin's hired killers finally succeeded ten years later - on Feb. 16, 1938.

Young Leon, apparently recovering from an operation for appendicitis, was lying helpless in a Paris hospital, when Stalin's assassins struck him down, covering up their traces. When the news of Sedov's sudden death reached Leon Trotsky, then exiled in Mexico, he wrote the stirring tribute: "Leon Sedov - Son, Friend. Fighter." On the thirteenth anniversary of Sedov's death, we find it most appropriate to reprint the following excerpts:

BY LEON TROTSKY

While but a child - he was going on twelve — he had, in his but are unable to move a finger to own way made the transition from ward off mortal danger. It was the February (1917) revolution to such political paralysis that like a true proletarian; but of to that of October (also 1917 in the Norwegian "Socialist" gov-Russia).

CHILD OF THE REVOLUTION join the Komsomol (Soviet Communist Youth), seething at that time with all the passion of awakened youth. The young bakers, among whom he carried on his propaganda, would award and hungry years.

SPURNED PRIVILEGES

Of his own volition Leon left in an automobile, refusing to make use of this privilege of the perament. bureaucrats. But he did participate ardently in all Red Saturdays and other "labor mobilizations," cleaning snow from the Moscow streets, "liquidating" illiteracy, unloading bread and firewood from freight cars, and epairing locomotives.

Leon wrote only when he had something to say and when he knew that no one else could say it better. . . . Leon's chief literary work was his book, The Red Book on the Moscow Trial, devoted to the Trial of the Sixteen (Zinoviev, Kameney, Smirnov, et al., Aug. Russian and German. At that time my wife and I were captives in Norway, bound hand and foot, targets of the most monstrous slander. There are certain forms tions Leon bore lightly, jokingly, final victory.

WHY ABRAHAM LINCOLN IS LOVED BY MASSES

By George Lavan

Abraham Lincoln is the most beloved figure in American history. Of all the official heroes only Lincoln has really been taken to the people's heart.

Why do the American people consider Lincoln their own, their special hero? Why does his memory evoke an emotional response as does no other? Why does the Lincoln legend almost approach the Christ legend?

The schoolboy, the man in the street or in the factory, the housewife, when asked Lincoln's achievement, will immediately reply: "He freed the slaves."

This is the overwhelming fact about Lincoln's life. He was the central figure in that titanic struggle of ninety years ago that destroyed slavery with fire and sword.

The common people of today find no class barriers between themselves and an appreciation of Lincoln. Washington's figure looms up cold as marble. The working people accept his greatness on trust but never feel that they really understand what kind of man he was. This is not merely because his day on the stage of history is ninety years further off in time than that of Lincoln.

The distance is far greater. It is the distance from working people to the landed aristocracy. The patrician life of Washington is incomprehensible to a factory worker or farmer of today. Nor do stories of Washington's strict code of honor or his kindness to his slaves bridge the gap. It is an aristocrat's code of honor and the fact that he was a slaveowner comes as a shock. With Lincoln it is just

Lincoln and the Lower Classes

Lincoln came from the class of poor farmers whose search for decent livelihood opened the western territory of the young republic. He had less than one year of formal education.

. The story of his quest for education symbolizes the struggle of the lower classes in his period of history for education. To this day it has meaning for the worker who wants his children "to get a better education than I did."

Lincoln's ambition lifted him from the poor farming class into he ranks of the middle class. He was a lawyer and like many of this profession entered politics.

He was never an Abolitionist. He hated slavery as a cruel system but thought that it could be ended only gradually. His opposition to the Abolitionists was based on their program of ending slavery immediately and at any cost. His lawyer's mind was horrified

by their defiance of the laws upholding slavery. Though a political representative of the rising industrial capitalists, his hase was the independent farmers of the West and especially the Northwest. Many of these were foreign born. He had won them by his militant attacks on the Know Nothing movement - the political Ku Klux Klan of that period — which tried to divide the people on native-born versus foreign-born lines.

The coming struggle between the North and the slavocracy developed in the fight over the Western lands. Would they be owned by the free farmers or the slaveowners?

No extension of slavery! This was Lincoln's position in the struggle. This was the platform of the Republican Party newly ounded by farmers, workers and industrialists.

Lincoln won his closely contested election for president because of the support of the workers, farmers and foreign born. These considered him one of their own or a close smpathizer of theirs.

His statements on organized labor were the most sympathetic of the leading politicians. In Connecticut, for instance, he referred to a shoemakers strike then in progress, by saying: "I am glad to see that a system of labor prevails in New England under which bequeath your irreproachable laborers can strike when they want to, where they are not obliged memory to the younger generation to labor whether you pay them or not. I like the system which lets a of the workers of the world. You man quit when he wants to, and wish it might prevail everywhere. One of the reasons why I am opposed to slavery is just here.'

From the beginning of the war the Abolitionists kept pushing Lincoln from the left. Lincoln was slow and stubborn. No step Revolutionary youth of all against slavery was approved until the terrible war had been on for countries! Accept from us the years. Then there was another battle to get the army to accept memory of our Leon, adopt him Negro troops. On each of the many issues Lincoln was slow to move as your son — he is worthy of but the all-important fact is that he finally did move in each case

Lincoln and Frederick Douglass

Frederick Douglass, that great Negro Abolitionist, tells of an interview with Lincoln during the war. Lincoln greeted him cordially and then mentioned a speech in which Douglass had attacked "the tardy, hesitating, vacillating policy of the President." Lincoln partly idmitted the first part of the charge and said: "I am charged with vacillating: but, Mr. Douglass, I do not think that charge can be sustained; I think it cannot be shown that when I have once taken position, I have ever retreated from it."

This was a key to Lincoln's successful leadership of the Second American Revolution. Starting the war to maintain the union, he moved with the logic of events to emancipation.

When the president-elect was faced with the terrible pressure of the publicly proclaimed intent of South Carolina to secede, he tried every means of conciliation except that of abandoning his program: No extension of slavery.

Those who wish to picture Lincoln as a demi-god usually overlook the fact that he was a practical politician. For Lincoln obviously pelieved that the end justified the means - if the needs of propress justified the end, and the means served the end rather than hurt it. How else explain such practical steps on Lincoln's part as

writing to Gen. Sherman in Sept. 1864 to have all Indiana troops furloughed to vote in the crucial state elections there? Sherman complied so well that even the 19th Vermont Volunteers found themselves voting in Indiana. The admission of Nevada as a state was necessary to insure

the ratification of the 13th Amendment. Three more votes in the House of Representatives were lacking to give Nevada statehood. Charles A. Dana tells how he was Lincoln's go-between with certain Northern politicians whose votes were bought by Lincoln's appointment of men they designated to Federal jobs. Though a war president Lincoln never glorified war or militar-

sm. His democratic and humanitarian attitude endeared him to the mass of the people and to us today. The beauty and simplicity of his writings and speeches indicate his fundamental honesty and closeness to the working people.

This was possible for a middle class leader, still close to the nasses, before the rise of monopoly capitalism. But the very war Lincoln led so enriched industrial capitalism and concentrated political power in its hands that in a few decades the emergence of leaders like Lincoln in any movement other than that of the working class had become impossible.

tion of American workers. In swift succession the mightiest trusts were brought to terms by the bold and aggressive actions of an inspired working class. The United Auto Workers from a few-score thousand workers prior to the sitdown strikes has grown until today it is the largest union in America.

Today in the auto centers, Flint, Detroit, Toledo Cleveland, there are only a few thousand workers who participated in these epochal events. A whole new generation of auto workers has entered the industry. These new auto workers must understan the immense experience of the sitdowners of '37.

There were those who said then that industrial unions could never be built in America. This declaration of the auto barons found its echo in the top councils of the AFL. General Motors fortified this concept. Its plants were scatter across the country, near rural areas. GM deliberately hired a high proportion of its employees from rural areas. By this means problems unionization were intensified. The more unionconscious city workers had the task ef educating

forward could be made. Every spark of revolt was ruthlessly crushed by General Motors, the sole power in small cities. Its control of the press, police departments and city governments strengthened its iron grip on the workers' lives.

the more backward farmers before a single ste,

Inside the plants, workers went in fear of GM's supervision. Outside, they lived in fear of GM's secret agents who seemed to be every-

A FEW HAD HOPE

Through this dark age a few kept alive the ideas of unionism. This handfull were the radicals -Socialists, Stalinists, Trotskyists. They alone believed it was possible to organize industrial unions. Those were the days of secret meetings held in the basement of workers' homes. The blacklist operated openly.

The GM auto worker is fond of saying that General Motors Corporation "organized" the UAW. By this he means that GM drove the workers to organize by long and frequent periods of layoffs; short periods of work accompanied by inhuman speedup that filled insane asylums with GM workers; the tyranny of management who held the power of life and death and ignored all safety measures that conflicted with increased

Today a million organized workers confront the auto corporations, truly a gigantic leap forward. To accomplish this they resorted to the revolutionary weapon of the sitdown. With one dramatic strike they inspired workers across the country to begin the forward march of unionization. Above all they showed how it could be done. They countered every move of the corporation with revolutionary union defensive measures. Mass picket lines and flying squads were established; wives and mothers organized in fighting women's

auxiliaries. GM's courts and injunctions were

Today, sitting complacently in his plush office, the union bureaucrat is satisfied with things as they are. Not so the auto worker. While he has higher wages, vacation pay, a pension at the age of 65, if he lives that long, and union recognition, he knows that GM is still master of the house.

FACTORY IS STILL A PRISON

The GM worker spends a third of his day in a factory that to him is like a prison. When the gate closes behind him he leaves his rights outside. Small as well as large abuses irk him. After 14 years the auto worker still works on the line like a jack rabbit. His youth is rapidly ground away by grueling labor and all too soon he is too old for the assembly line.

These GM workers are trying to think this problem through. In 1937, they gained their biggest victory with an infant union.

But now, with all the advantages of big organization, substantial treasuries and rich experience, they are not obtaining fundamental changes or even maintaining past gains. Taxes cut deeply into wages already falling behind the rising cost

The speedup that was ended in 1937 by quickie stoppages is today a plague in all GM plants. What holds in check the auto union's great power? Certainly, the workers have no fear of General Motors, the courts, or the government. They showed this in the struggles of 1937 and 1945.

But the militancy of their union is being throttled by a timid and weak leadership. The Reuther leadership talks like the wind waving through the leaves at the top of the tree that never shakes the roots. The leaders are deathly afraid of GM. They see its power in 100 plants across the country. They see its huge treasuries, its controlled newspapers, its radio propagandists. They know it is interlocked with the government in Washington in a thousand different ways. The UAW leaders are aware that a fundamental struggle over basic issues will provoke an economic and political crisis of vast scope. This is what they want to avoid.

A NEW LEADERSHIP

Already groups of militant GM workers have come to understand the nub of the problem. Their answer is a new leadership with the courage and ability to live up to the new tasks.

Do the UAW leaders think they can hold back the tide like the AFL did in the old days? They will try. They never seem to learn. Men of a small mold will do desperate things to hang on to their soft life, their power and their prestige.

There are greater forces at work than the labor fakers. The action of government moving towards world conquest and the policies of the corporation are preparing for a new explosion of the auto workers.

Those who believe in this perspective and prepare for it number no more than a few thousand. No more than those who believed industrial unions could be built in 1937. They are no less inspired, no less confident that their goal of a new leadership can be obtained because they know that from little acorns mighty oak trees

NEWARK CIO PROTESTS VIOLATIONS OF CIVIL LIBERTIES BY POLICE

NEWARK, N. J. — Feb. 5 — Police violations of been more effective if they had confidence in their own ability to in civil rights have become so flagrant during the past few included the recent raid against months that the Essex-West Hudson CIO Council decided

that it must take a stand against 3 them. Joel R. Jacobson, Executive | The spokesman for the Com-Secretary of the Council, appeared mission stated that these cases

V. R. Dunne Speech Backs Rail Strikers

By Harold Kent

MINNEAPOLIS, Feb. 4 - The second Sunday Forum in the present series heard V. R. Dunne castigate the arrogant railroad coupon clippers for provoking the present "sickness" among the nation's switchmen. Dunne linked the struggle of BRT men to the struggles of the European workers for peace, bread and freedom. The enemy is the same in both cases — U.S. imperialism.

"The railroad workers are really sick, all right," said Dunne. "They're sick and tired of being pushed around by their own union officials and the government bureaucrats in Washington.

"The Brotherhood of Railway Trainmen give the lie to the wiseacre theory that the workers are dumb. With the railway owners, the government and their own union officials against them, the switchmen devised their own strikes fear into the hearts of the last word to say about Wall Street's plans for world domina-

"The only road to peace and

freedom is the program of Trotsky," concluded Dunne. "The workers of the world must join hands and overthrow this rotting, ploody capitalist system."

A lively discussion brought out | fiteers. the increasing importance at the cresent time of the "Titoist" tendency among European workers. A generous collection was received. The social committee provided a tasty supper of beans, salad, pickles, bread, cake and coffee. The next and concluding Forum of the present series will be held Feb. 18, at which time V. R. Dunne will emphasize the role that American workers are destined to play in the coming

And They Haven't Changed!

"The railroad corporations are notorious for their defiance of every law that is designed to curb their powers or restrain their rapacity. The railroad corporations have their lobby at Washington and at every state capital; they bribe legislators, corrupt courts, debauch politics, and commit countless other legal and moral crimes against the commonwealth. . . President Cleveland serves the corporate masters, and exalts and glorifies the act, while he attempts to absolve the criminals and fasten the insufferable stigma upon honest men. Nothing further is required to demonstrate beyond all cavil the Capitalist class character of our present government."

Eugene V. Debs 1894 - Chicago Rail Strike

If your copy of THE MILI-TANT is delayed it is due to the failure of mail delivery due to railroad shutdown.

Chicago Socialist Challenges Dem. To War Debate

CHICAGO, Feb. 5—Irving Beinin, the Socialist Workers Party candidate for Alderman in the Fifth Ward today challenged his Democratic opponent, Alderman Merriam to a public debate on the issues®

in the campaign. In his challenge, Beinin pointed out that the campaign for Alderman in the Fifth Ward is unlike that of any other Aldermanic campaign in Chicago today.

GOLD DUST TWINS

Drawing attention to the fact that there is no Republican opposition to Merriam, Beinin stated, "The support the Republicans are giving to Merriam by not entering a candidate against him is a typical example of horse trading in Chicago in politics today. It confirms the fact, as every voter has long known, that there exist no important marks of distinction between the Democrats and the Republicans. These two pro-war parties are the Gold Dust twins of capitalism and the differences between them revolve more around the question of patronage than the vital question of program."

Pointing out that he speaks for the Socialist Workers Party, Beinin stated, "I am campaigning primarily as an anti-war candi-CIO have not rallied to the cause date. This is in direct contrast to Merriam's attempt to smuggle in of backing up rail labor they are his pro-war position through mealy - mouthed phrases about union movement in the strait 'Chicago's preparedness,' and then jacket of the Wage Stabilization to confine the campaign to 'local' issues of a secondary nature.
