Stop the War in Korea-Bring Gls Home Now!

Vol. XV - No. 17

NEW YORK, N. Y., MONDAY, APRIL 23, 1951

AND WHAT ABOUT US?

PRICE: FIVE CENTS

We are celebrating this May Day, 1951, amid one of the gravest political crises that has ever struck the American ruling class. This crisis, reaching its climax in the open conflict between the President of the United States and a leading general, is the direct resut of the debacle of U.S. military intervention in Korea.

This is the most unpopular war in our history. The administration thrust the country into it without our consent. The American people do not support this war. They are bitterly opposed to it. They want it stopped — and

The conscience of the decent people of this country all those who work honestly for a living and have nothing to gain from war profiteering — cries out at the horrors U.S. imperialism has inflicted on the people of Korea. More than a million Korean civilians dead — a whole land gutted by U.S. bombs and shells.

And here, as well, the pitiful tears of mothers, fathers and wives flow for the 100,000 casualties already suffered in U.S. capitalism's bloody attempt to halt the march of the Asian Revolution, to reimpose imperialist fetters upon the peoples of the Far East, to deny them their right to that national freedom which our own forefathers won for us in the American Revolution.

International Solidarity

This — and nothing else — is the real issue in Korea. The colonial peoples are fighting for their liberty, for the right to run their own countries and determine their own destinies. And they are fighting with a courage and determination that only those imbued with the fire of liberty can display.

On this May Day, our hand of international workingclass brotherhood goes out to the fighters for freedom everywhere. We of the Socialist Workers Party declare our unshakable solidarity with the oppressed of all lands and races under the menacing shadow of U.S. imperialism.

This shadow is spread not only over Asia but over the advanced countries of Europe. There too Wall Street and Its Washington agents are trying to prop up the tottering structure of an outworn capitalist system. In alliance with Old World imperialism and fascist dictators like Franco, U.S. capitalism is trying to remilitarize Western Europe in preparation for World War III and to hold back the tide of social revolution.

In vain! The workers of Europe will not tolerate the impositions of U.S. imperialism any more than the toilers of Asia. They are resisting stubbornly this new burden of armaments piled on their already overloaded backs.

Hail the Barcelona Workers

How inspiring is the recent general strike of the nique of the Trenton police in of The Militant by sale of in-Barcelona workers and students! What hope their rising against the clerical-fascist Spanish regime brings to the peoples of Europe! And this awakening comes at the very lawyers exposed the illegal, antimoment Washington gives its blessings, its money and its Negro methods used in the arrests arms to the Spanish people's bloody oppressor Franco.

We hail, too, the news from Germany of a new Independent Workers Party, composed mainly of workers who have broken from Stalinism, which has sounded a call for county-employed Dr. Sullivan, a a genuine independent struggle for socialism. This new movement, which follows the break of the Yugoslav regime from Stalin, is one of many heartening signs that the European workers are coming to understand that the Communist Parties dominated by the Kremlin are not the representatives of Lenin and Trotsky's Russian Revolution and the cause of socialism. But for the Stalinist betrayals outworn capitalism in Europe would long since have been replaced by the socialist system.

Here in the United States - main citadel and arsenal of world capitalism — the people are stirring with resentment at the sacrifices imposed on them by the Korean war they did not want and do not support. They are wrathful at high prices, frozen wages, bigger taxes on small incomes, while the Big Business corporations openly display their voracity and greed in profiting from this war.

This conscienceless, arrogant capitalist ruling class driven by its needs to find new fields to invest its vast capital surpluses and new markets abroad for the goods it cannot sell to underpaid workers at home — has set its sights on one target: conquest, domination and exploitation of the entire globe.

American Workers Awakening

It will not succeed. Its schemes have already received a rude setback at the hands of the revolutionary masses of the Far East. And they are going to meet an even more formidable roadblock in the shape of the American workingclass itself.

The American workers are powerfully organized, experienced in battle and determined to defend their rights and living standards. The labor crisis that broke forth when the labor leaders walked out of all government posts was a reflection of profound economic and political grievances. Underlying the workers' opposition to the government mobilization program and their refusal to accept reduced living standards is their opposition to the Korean war and the Big Business plans for all-out war.

Our most urgent message to American labor on this May Day is: Declare your political emancipation! Break with all capitalist politics and build your own party! Show the world that against this America of the billionaire exploiters who want to "liberate" humanity with atomic bombs, there stands another America — the real America - of the workers and working farmers, the white collar know the speakers then, but now slaves and the oppressed Negro people. Armed with its own I know that some of them were party, this America of the laboring millions can strike mortal blows at imperialism, its wars and its profiteering and together with all oppressed mankind march forward to dentials. peace, plenty, security and freedom.

Trenton Six 'Confessions' Ripped Apart

TRENTON, April 18 - The defense has won a partial victory in the second jim crow, frame-up trial of the Trenton Six for the murder of William Horner, 72 year old shop keeper, in 1948.

The whole case against the six Negro men - Ralph Cooper, Collis English, McKinley Forest, John MacKenzie, James Thorpe and Horace Wilson - is based upon extorted "confessions." The six Negroes were picked at random by the police and subjected to days and nights of grilling, mental torture, drugs and false promises. After three weeks of argument by defense and prosecution on the admissibility of the statements, typed by the police and signed by ive of the exhausted and terrified defendants, the judge ruled out three of these "confessions."

FORCED CONFESSIONS

In the course of the three week's succeeded in revealing the techforcing the "confessions" in this dividual copies and subscriptions. salesmen. case. By cross-examination of the state's own witnesses, defense and five - days - and - four - nights third degreeing of the six defendants. The most damaging admissions were drawn from Negro physician, whom the prosecution had used for window dressing. Sullivan was called in by the police after the defendants

had been broken and were prepared to go through the 'signing ceremonies." Under defense probing he admitted that when he examined defendants MacKenzie and Cooper they were under the influence of drugs, and that James Thorpe declared his "confession" to be false, then

American People Want End To "Operation Slaughter" Against the Asian Masses

"Operation Slaughter" in Korea still rages in full fury. That is the stark reality as both war-mad cliques in the Truman-MacArthur dispute throw sand in the eyes of the American people about their respective schemes to bring "peace" in the Far East.

U.S. Casualties Over 100,000, **Baldwin Reveals**

the American people the true attack as offering the best op-figures of U.S. casualties in portunity for killing Chinese." horea. The losses are almost double the misleading figures ever, would welcome only one given out by the Defense Depart- thing - an order to withdraw

The actual toll is "considerably nore than 100,000," reveals Hansen W. Baldwin, the well-informed military analyst of the N. Y.

"Our total battle casualties now approximately 60,000 killed, wounded, prisoners, and missing since the Korean war started," wrote Baldwin on April 13, "probably would be swollen to considerably more than 100,000, if actual casualties such as motor accidents and plane crashes, frost-

A GI who has had his feet competitive spirit by offering The high scorer of each branch, of being exposed to sub-zero majority of the American people frozen and amputated as a result Filomena Goelman prizes and honors for both in- apart from the League champion, weather in an open fox-hole is dividuals who nile up the most will receive an engraved scroll in not considered a "hattle casualty" ot considered a "battle casualty in the Army records.

> Baldwin observes that "one hundred thousand total casualties in nine months of war is a sizable rice to pay for a limited conflict in which no decision . . . is possible." If we accept General Omar Bradley's figures of 250,-000 U.S. ground troops in Korea, Army casualties from all causes rate of more than one out of every three men.

Combined battle casualties of The object of the campaign is all UN forces were reported on for comrades to pile up points; March 31 as 228,941. The South whether they do it by selling Koreans have been hit hardest,

Every day U.S. explosives and napalm fire bombs slay more civilians - children, women, the aged and sick - to add to the toll of more than a million already "liberated" by violent death. Meanwhile, Lieût. Gen, Van Fleet, new 8th Army commander, blithely boasts: "The men Washington is concealing from in the foxholes welcome an enemy

The men in the foxholes, howfrom Korea as fast as possible. For they know the facts, concealed by Truman, MacArthur and Taft alike, about the appalling losses suffered by the American forces in "Operation Killer.'

These casualties, according to Hansen W. Baldwin the wellinformed military specialist of the N. Y. Times, are actually considerably more than 100;-000." (See detailed article on other part of this page.)

Neither side in the controversy over U.S. policy in the Far East proposes to withdraw the U.S. troops at once and to stop the war now, as the overwhelming crux of the dispute between Truman and MacArthur is merely the best way to "win" a war that this country should never have entered to begin with.

A GREAT TRAGEDY

The whole world is shocked and revolted by the way in which U.S. imperialism has been "liberating" Korea and its people, n nine months are at the frightful South and North. The fact that must sear itself into the conscience of the American people is that the rulers of this country. political and military, have been perpetrating one of the greatest atrocities in all history. That atrocity is going on now and neither Truman, nor MacArthur, nor Taft oppose it. They all glory

> ". . . Our beautiful country is being blackened by fire and soaked by blood," eries Yongjeung Kim, President of the Korean Affairs Institute in Washington, D. C., an organization which thrives by the grace of Washington and supports U.S. intervention. In the March 31 Voice of Korea, Kim

> "Eighty percent of our homes and factories have been wiped out; our farms have become battle-grounds. Over a million of our civilian population have been killed in the fury of the war or have died of hunger and ex-. Today hopeless, emaciated millions wander amid the ruins of our ravaged cities and along our battle-scarred roads and countryside. Where are they going? How can they sustain life? Reports reaching here tell of thousands being killed, the inhabitants of whole communities dying like insects. What crime have they committed? . . . unless the war ends soon Korea will be reduce to grave mounds, tree

stumps and ruined homes." Even those who have backed the U.S. military adventure in Korea are impelled to expressions of horror at its fruits. Thus, David Lawrence, editor of U.S. News and World - Report and widely-syndicated newspaper columnist, wrote recently:

CIVILIANS TRAPPED

"Tens of thousands of human peings are being killed by the most devastating fire power that (Continued on Page 2)

Our Best Organizer--The Militant: V.R. Dunne

By Vincent R. Dunne

It was in a logging camp run by the Blackfoot Lumber Company, 25 miles almost straight up and north out of Bonner, Montana in the Blackfoot Mountains that I heard for the first time about May Day as the great holiday for the workers of the world. The Western Federation

of Miners had organized the timber workers of Montana. That union had fought for and won better working conditions, higher pay, clean bunks and decent food for the lumber workers. As a young lumberjack, who had worked several years in Minnesota lumber camps, which

were always over-run with vermin and where workers had nothing to say about wages or conditions, I listened with attention and approval to the organizers and amp delegates. They passed out literature, which followed the heme: "Workers of the World Unite!" They spoke about and explained the class struggle and the coming workers' revolution. They always emphasized the importance of the printed word. I did not heroic men with the stamp of a Bill Haywood, a Gene Debs or a Vincent St. John on their cre-

revolutionary fighter largely be-D cause of that experience. The organizers, speakers and literature agents of the Western Federation of Miners (at that time merged with the Industrial Workers of the World) never failed to impress upon the members the need to get subs for the revolutionary press. Seldom did I hear any of them speak to the camp meetings without urging everybody to sell and circulate pamphlets, books and other material about Socialism. They had tried to learn from Marx, Engels, Debs, De Leon and other leading socialist writers.

GREAT PROPAGANDISTS

With but a few exceptions these organizers did not have the opportunity to know Lenin and Trotsky, Liebknecht and Luxemburg who came to our attention later. I. and others of our generation, were more fortunate, by reason of our youth. They did not have the sure guide of the great Bolshevik revolution. They did have faith, however, and they did have courage and they were great propagandists in their day.

In a society where the very basis of life - which is the without planned organization, all easy prey for the militarists and social relations sweep, in the final analysis, over the heads of the people. It is precisely in this sense that the (First World) War came. It took place only as the extreme expression of the anarchy and irrationality of the whol capitalist system.

If at the outset, this war did enter into the conscious plans and calculations of the private property-owners as a "continuation of politics by other means," then in the course of last year, the consequences of this war have swept far above the heads of the propertied classes. And they, by the way, are in all countries represented in the seats The Third (Communist) Inter- of power by mediocrities and national; which came to replace nonentities, as if to underscore all the Second, was not afforded by the more glaringly how spiritually glorious years (1919-1923) in on record, to which it has itself

Who Are the Friends of the Asian People?

A letter to 'Janata,' organ of the Socialist Party of India, in reply to "democratic socialist" agents of American imperialism.

By James P. Cannon

To the Editors of Janata:

You have invited your readers to discuss the appeal "To Our Friends in Asia" by James T. Farrell, Norman Thomas, Sidney Hook, A. Philip Randolph, Upton Sinclair and others calling themselves "democratic socialists," published in Feb. 11 Janata.

I submit the following contribution to the discussion in the name of American revolutionary socialists who regard the struggle for a Socialist America and the struggle of the Asian masses for independence as a common struggle against a common enemy. A friendship founded on common aims and interests is firmly based and has no need of hypocrisy and deception.

On the other hand, those who invite you to join them in supporting the foreign policy of the United States, the mightiest capitalist government in the world, are false friends and evil advisors. These "socialist" salesmen for U.S. imperialism do not speak either for the real interests of the American people or for the cause of democracy and socialism in Asia.

Their letter in essence only restates arguments culled from the standard propaganda of the bourgeois politicians and press with an added spice of "theory." But there is no more socialism in their "theory" than in their arguments. For these people theory is a device to smother facts with words.

"The development of American capitalism has not led to imperialism; it does not fulfill Lenin's theory of imperialism," say the signers of the Open Letter. They blandly deny "that American capitalism depends on imperialist expansion for its very life." The whole world knows differently. It knows that American foreign policy is based on the economics of imperialism and is applied everywhere accordingly. That is why America today is so hated and feared by peoples everywhere.

The economic "proof" they offer to exculpate American capitalism of any taint of imperialism is worth quoting if only to reveal its absurdity:

"The U.S. had a great internal free trade market and such enormous natural resources that today she is an exporter of raw materials as well as of manufactured goods. The economic facts of life in America were and are very different from the facts in Europe which led Lenin to formulate his theory of imperialism."

ON U.S. IMPERIALISM

The differences in "the economic facts of life" between America and Europe prior to the First World War are precisely the driving force making the United States the most aggressive and rapacious imperialist power ever known. The fact that America is an "exporter of raw materials" - mainly wheat and cotton, sometimes coal - changes nothing fundamental, for such exports are not the determining feature of American economy. Contrary to the impression the writers would create, Lenin knew about such features of the economy of imperialist countries and did not discount them but showed their subordinate role. England, for example was an exporter of coal in the hey-day of its empire.

The "great internal market," which indeed existed - and still exists - has long ago proven too narrow to absorb either the surplus capital or the products of expanding capitalist production in the United States. The annual surplus of manufactured goods cries out imperiously for disposal through foreign outlets at any cost, including war. Surplus capital annually accumulated from the exploitation of the American workers and the plunder of half the world has piled up to such staggering amounts as to make the older imperialist countries of Europe in Lenin's time appear paupers by comparison. America now monopolizes the bulk of the surplus capital of the entire world! This likewise demands foreign fields of investment at any cost, including war.

Lenin, it is true, described the export of capital as the typical feature of monopoly capitalism (imperialism) rather than the export of goods which was the typical feature of the old capitalism of free competition. But his theory did not separate the export of capital and the export of goods into water-tight compartments and exclude any combination of the two; in fact they were always comeven called attention to the fact - Lenin's theory of imperialism is no capricious invention but a generalization from established facts — that in some cases "the export of capital abroad becomes a means for encouraging the export of commodities." This is doubly true in the case of America.

The problem of American capitalism is even multiplied and can render a service to multitudes raised to unbearable tensions because it is stifling in the unprecedented overproduction of both capital and goods which must be not communists, but, nevertheless, and their unions of all true free- its force to other bases. This, desdisposed of by exportation or war; more precisely, by war as a means of imposing the political conditions (i.e., suppressing proletarian and colonial revolution) necessary for the profitable and safe | Soviet bloc on the other as a export of surplus capital and goods.

So immediate and acute is this problem that U.S. economy would be plunged into a devastating crisis right now were it not for the temporary relief afforded by the loans and gifts doled out to prop up the shaky capitalist structures in other countries, and by the military expenditures. The authors of the letter to Janata seek to prove the disinterested benevolence of America by reference to the \$36,500,000,000 spent by the U.S. government since the war in other countries. With mock seriousness they describe this money as "spent on relief and rehabilitation in Europe and Asia." But the real masters of America, who don't bother to read the specious and hypocritical explanations of their "socialist" servitors, frankly spoke of these expenditures in their economic journals as a temporary means of moderating the economic tension in the United States, and supported them on that ground.

The same motivation applies to the \$75 billion budget for military expenditures, in preparation for war. The rulers of the country, in approving these huge appropriations, are not in the least governed by humanitarian considerations for starving people or by "deep concern for world peace" - as these "socialist" apologists represent — but by the imperative needs of American economy to find temporary relief by disposal of surpluses while preparing for its ultimate program of world conquest by means of war. These are the real "economic facts of life" driving American capitalism on the road of imperialism and war.

Of course, the burning problem created by this unprecedented surplus of capital and goods, which determines the imperialist character of American capitalism and drives it so madly on the road of war, could be moderated, and even solved, if the surpluses were used to raise the living standards of the American workers and to give free, fraternal help to the people of Asia, Africa and Latin America who have been so long condemned to backwardness and hunger by imperialist exploiters. But, as Lenin remarked in his book on Imperialism, "if capitalism did these things it would not

U.S. DICTATOR-PUPPETS

The arguments by the signers of the letter in Janata, in support of the practical policy of American imperialism, are as false and worthless as their attempt to deny its real nature on theoretical grounds. With a nonchalant disregard of facts which are well known to most people, they represent the makers of American foreign policy as defenders of democracy, freedom and peace. To extend freedom, Washington needs Dictator Salazar of Portugal in its Atlantic alliance and is grooming Franco, the Nazi generals and industrialists, and the Japanese imperialists to join it. Washington has put forward Bao-Dai, "the Emperor of the Night Clubs" in Indo-China, Syngman Rhee in Korea, and Chiang Kai-shek as shining representatives of its democratic government. And to keep these puppets in power, the Pentagon enforces Negro discrimination in its

The United States has taken the lead in the arms race, these individuals say, "to protect peace by military strength." Every imperialist power always tries to mask its aggressive intentions and predatory aims by avowing that its deepest concern is to maintain peace. The American imperialists are no different. They, too, pose ment flourishes the as partisans of peace. But their real objective is to extend their recognised abroad.

JAMES P. CANNON

domination throughout the world, by peaceful penetration and pres sure where they can, and by forceful means where they must. That is why they are constructing the greatest military machine and stockpiling atom bombs. That is why American troops are in Korea

The American people are opposed to the American intervention in Korea. This is the most unpopular war in all American history Truman has not yet ventured to convert his "police action" into an officially declared war. This "democrat" never even asked the American people for its consent to this war. These "democratic socialists" back him up, and that is a good measure of their democracy and their socialism.

Their "Appeal to Friends in Asia" makes no specific reference to Washington's crimes against China. Nothing about the Boxer indemnities and extraterritorial privileges. Nothing about the financial and military aid to save the reactionary dictatorship of Chiang Kai-shek. Nothing about the persistent refusal to recognize the new FALSE ALTERNATIVE regime in China or about MacArthur's attempts to spread the war onto the Chinese mainland.

IMPERIALIST POLICY

The American protectors of Chiang and subsidizers of the French imperialists in Indo-China are not deterred by considerations of "peace" or "democracy" from extending their aggressions in Asia. They are held back only by fears of getting bogged down upholding capitalism and the forces aspiring and working for so-

defeats; and by the need to concentrate their military preparations | this class struggle. in the main theater of operations in Western Europe.

stance that, unlike the older imperialists, the United States has and freedom in this conflict. The Asian people know only too well not directly annexed large territories or has only a few small colonies like Puerto Rico. But imperialism is not limited to outright seizures of lands belonging to other peoples. An imperialist giant like the United States which commands most of the world's wealth, economic and military might has more varied and manysided ways of subjugating, controlling and exploiting smaller and weaker countries. Nehru hit the nail on the head when he spoke of "controlism" as the new form of colonalism."

The United States imperialists can give or withhold credits, goods, and machinery; they can buy up natural resources; bribe ing to its sorrow and our shame, dangle food over a famine-stricken country with the brutal object of influencing its foreign policy and count, as we have fought them for more than twenty years, extorting other concessions. Only after these methods fail, does it have to resort to direct invasion as in Korea.

about the predominance of the big banks and monopolies in American economic and political life. They falsely contend that this monopoly-ridden capitalism does not "depend on imperialist expansion for its very life."

What do the past 30 years show? The economic necessities of U.S. capitalism, bound up with the Allied camp, dictated its entry into the First World War. American capitalism never fully recuperated from the effects of the 1929-1933 depression and overcame them only through the Second World War. Thanks to its capture of the world markets and colossal productive capacities, alongside the ruin and poverty elsewhere, America's magnates enjoyed a big but brief boom from 1945 to 1949.

Then the threatening immediate prospect of a new economic crisis impelled Washington into its present large-scale arms program. The American people, of course, would rather have houses than atom bombs. But the monopolist government decrees otherwise. One compelling economic reason will be found in the recent report of the Securities Exchange Commission that the working capital of American corporations alone rose from 51 billion dollars in 1939 to almost 80 billions in 1950. This glut of accumulated capital can find profitable outlets only in military production and investments abroad.

But American capitalism finds its economic penetration of other countries blocked by the rising movements for national independence throughout the former colonies, by the Asian revolutions, and by the territories controlled by the Soviet Union. All these areas have to be pried open for free entrance of American capital, goods, and domination. That is the economic compulsion behind U.S. foreign policy, its arms program, and its projected global anti-Asian and anti-Soviet war.

These people tell you, the victims of imperialism, that "the outstanding conflict in the world today is between democracy, with all its human and capitalist imperfections, and totalitarian despotism." What a miserable self-exposure for self-styled "socialists" to come forward as defenders of capitalism instead of organizers of the struggle to abolish this outworn system responsible for the backwardness, poverty, misery and other major evils in the colonies. The outstanding "conflict" in the world today is between the forces

in China, like Japanese imperialism before them; of risking new cialism. The whole fate of humanity hinges upon the outcome of

It is the greatest of lies to assert, as these people do, that The authors of the letter to Janata make much of the circum- the American ruling class stands on the side of democracy, peace that U.S. imperialism is the powerhouse and mainstay of capitalist counter-revolution on a global scale. And far from promoting democracy or independence for the colonies, the witchhunting monopolists, labor-haters and race-fanatics are instituting measures to clamp a militarized police regime in our own country.

These people urge you to see the main enemy of mankind in Stalin's "communism." It is true that Stalinism has wiped out the socialist democracy of Lenin and Trotsky's time, erected a monstrous totalitarian dictatorship over the Russian people and extended it over Eastern Europe. The Kremlin's policies represent the and coerce officials and public opinion. They can, as India is learn- gravest danger to the progress of the socialist and labor movements throughout the world - and have to be fought on that ac-

But it is false to say, as these people do, that the Soviet Union has reverted to capitalism. Despite Stalin's crimes against the so-Above all, these apologists for imperialism have nothing to say cialist revolution, the nationalized property there makes the Soviet Union an essentially different economy from any capitalist im-

It is no more possible to fight for socialism under the leadership and policies of Stalinism than it is to fight for democracy side by side with the American imperialists. But it is a far different matter to dismiss every social movement which is temporarily headed or influenced by Communist parties as being nothing more than a puppet and tool of Moscow, and to refuse support to the struggles of the insurgent masses on that account. The fact, for example, that Peiping is now in alliance with Moscow does not justify refusal to support the just struggle of the Chinese people for ndependence from the imperialists and against the attempts to restore the American puppet, Chiang Kai-shek. And what is more, any support accorded the criminal actions of the American imperialists performs the greatest of services to the Kremlin and can only strengthen its hold upon the workers' movement in other

TRUE SOCIALIST PROGRAM

We of the Socialist Workers Party believe that the duty of all true friends of Asia and all genuine socialists in America is not to solicit support for this imperialist aggression among its victims in Asia, but to expose and denounce these crimes right here in the United States.

With this in mind in July 1949 and again on December 4, 1950, addressed an open letter to the President and Congress denouncing the American intervention in Korea and demanding that they withdraw all American troops and let the peoples of Asia alone decide their own fate. These slogans are meeting with ever greater response among American labor and from the American people.

We hope you will publish this reply so the people of India may know there are socialists in America who oppose Washington's foreign policy, who remain true to the principles of the international class struggle for socialism, and who are fighting side by side with the Asian people against all their would-be enslavers.

Fraternally,

JAMES P. CANNON National Secretary,

Hook-Thomas Defense of U.S. Imperialism

MARXISM AND SCIENCE

By Leon Trotsky

28 PP.

Foreword to the English Edition

This speech was delivered in 1925, at a time when the author still firmly hoped that Soviet Democracy would overcome the tendencies towards bureaucratism, and create exceptionally favourable conditions for the development of scientific thought. Because of a combination of historical causes this hope has not yet materialized. On the contrary, the Soviet State in the intervening thirteen years has fallen victim to the complete bureaucratic ossification and has assumed a totalitarian character equally baneful to the development of science and art. Through the cruel irony of history, genuine Marxism has become the most proscribed of all doctrines in the Soviet Union. In the field of social science, shackled Soviet thought has not only failed to utter a single new word but, on the contrary, has sunk to the depths of pathetic scholasticism. The totalitarian regime likewise exercises a disastrous influence upon the development of the natural sciences. Nevertheless the views developed in this speech retain their validity in the section, too, which deals with the inter-relation between the social regime and scientific thought. However, they should be placed not against the background of the present Soviet State, a product of degeneration and disintegration, but rather taken in the light of that socialist state which will arise from the future victorious struggle of the international working

Iran Oil Workers Fight Against Imperialists for Nationalization

By Charles Hanley

March 1951 has been one of the most eventful months Iran (Persia) has witnessed in recent years: Under popular pressure, the Parliament, on March 15-17, voted the nationalization of that country's oil industry whose annual output of crude oil amounts to about 32 million tons (6 percent of the world's oil supply).

Iran's oil wells and the big refinery of Abadan, on the Persian Gulf, are owned by the Anglo-Iranian Oil Co., controlled by the British government which has held 53 percent of its stock since 1914. Iranian oil is of vital importance to the British empire's military operations - and Britain wants to get it cheap.

When Iranian Premier, General Haji Razmara, opposed nainterests, he was assassinated on March 7 by a member of the nationalist Fadyan movement. Other assassination attempts directed against opponents of oil industry nationalization were announced; and after the killing of former Education Minister Zangench martial law was proclaimed months by new Premier Hussein

Truman's "Limited War"

To the MacArthur policy of extending the Korean hostilities to the Chinese main land and thereby precipitating a general war in Asia, Truman has counterposed what he claims to be an alternative policy, one intended to "prevent the outbreak of World War III." Truman's formula for Korea is now that of a "limited war."

There has been a "limited war" in Korea for the last nine months. Militarily it has brought no solution; nor can it lead to one.

When MacArthur announced on March 7 that the situation in Korea was a "military stalemate," he was expressing not alone his personal conclusion but the sober estimate of the chiefs in the Pentagon. MacArthur's way out of this stalemate is to spread the war. Truman and his chiefs of staff have turned thumbs down on this proposal, purely out of tactical considerations.

They are not prepared for this military adventure of committing all the available forces in Asia, at a time when their own plans call for concentration on Western Europe as the main arena for their projected all-out war.

Truman's pretended "solution" is to prolong the stalemate indefinitely. There is not a single responsible military authority in Washington who believes that this can be done.

Separate and apart from the obvious possibility of a counter-offensive by Pei-

state" in their mad headlong rush into

capitalist propaganda lie-machine.

right now.

Canpaigning for Socialist Truth

ping, there are the prohibitive costs and repercussions of the continuation of the military hostilities under the present conditions.

These are summed up quite accurately by Hanson Baldwin, military expert of the N. Y. Times, whose views frequently echo the prevailing Pentagon opinion.

"Indefinite continuation of the present limited war in Korea," he wrote on April 17, is excluded "as a practical possibility" on two grounds.

First: "The morale of our troops and of the South Koreans is bound to de-

Second: "Public opinion in this country will not tolerate indefinitely a toll of casualties with no end in sight."

These are not at all forecasts but rather cautious statements concerning the existing state of affairs. For both the problem of morale and the mass revulsion against the Korean adventure are already acute.

"It is sad but true that no good solution is now possible in Korea," writes the informed columnist Walter Lippmann.

In short, Truman's "limited war" is a deliberate deception, as phony as his original claim that nothing more than a "police action" was involved in Korea. Stop the Korean war now!

Demand a referendum on the question of war or peace!

Big Business Rejects Pay-Board Compromise

The re-entry of the labor leaders into the Big Business-controlled mobilization program on a new committee, the National Advisory Board on Mobilization Policy, Charles E. Wilson, chairman - has borne its first fruit. This fruit is not to the taste of Murray, Green, Reuther and Meany - United Labor's representatives on the board. It is a contemptuous rejection by Big Business of a compromise on labor disputes ardently pushed by the labor leaders.

The attempted compromise was on the jurisdiction of the Wage Stabilization Board, out of which the labor leaders marched in protest last February. Jurisdiction was but one of the points in dispute between labor and capital inembers on that late, unlamented board. Other vital points on which the Big Business representatives in the board were adamant included the level of the wage freeze and acceptance of escalator clauses.

the price freeze or lack of freeze, the heavy taxation of low incomes and light taxation of high incomes, lack of rent control, the looting of the treasury by Big members six from labor, six intend to give the unions any Business, and the restriction of from industry and six from the labor representatives to advisory committees (where their advice was hardly listened to) while corporation heads got all the to the disputes jointly agreed to policy-making posts, led to the submit them to the board. In policy-making posts, led to the walkout of all labor representatives from the mobilization program and the calling of a Conference of Labor in Washington At that conference AFL and CIO officers from state and city union bodies heard the top labor leadership tell hair-raising stories of the complete Big Business control of the mobilization program and vow to stay out of the mobilization program until drastic changes had been made.

In the subcommittee the labor representatives pushed their pro-

THE DILEMMA OF AMERICAN YOUTH

By Joseph Andrews

In the state of New York a death penalty has been proposed for those who peddle narcotics to high school youth. This, the capitalist politicians hope, will halt the alarming increase of dope ad-

Magazines and dailies are filled with articles "deploring" the wave of crime among teen-agers and even among children of 8 or 9 years. In the big cities gangs of youth fight bloody gun battles on the streets. The FBI reports that in 1950 "youth under 21 figured in 28.9 percent of the robberies, burglaries, larcenies, auto thefts, embezzlements, frauds, forgeries, counterfeitings, receiving of stolen property and arson."

J. Edgar Hoover proposes to increase the size of the FBI to cope with this "crime wave." Others suggest better recreational facilities, or more "indoctrination" in the schools. But none get to the root of the problem. Strapping a few heroin salesmen into the electric chair will not destroy the mood of frustration and hopelessness which today takes such a tragic toll of American youth." Nor will prison terms in "houses of correction" eliminate juvenile "delinquency." Police measures cannot restore to the youth their dreams, ideals, ambitions and aspirations.

How the Youth Feel

An 18-year old youth who wrote a letter to the Detroit Free Press last month comes closer to the root of the problem than all these "psychologists" and "authorities" put together. He says;

"Whenever I pick up a paper and turn to the editorial page, I almost invariably read an editorial regarding the 18-year-old draft. I've read letters from frustrated mothers or worried veterans, but never have I read a letter from an 18-year old. On behalf of the teen-agers of the country, I would like to present their

"In the few and far between times of peace my generation has known, we are regarded as no-good trouble-makers. The places we go to so we can be with our friends are marked as 'hangouts.' We drive cars and we're labeled as 'crazy hot-rod drivers.'

"Now I realize that all of the older people don't hold grudges against the teen-agers, but this country is full of those that do. City Councils are forever passing laws concerning curfew laws for teen-age drivers. Papers frequently write and publish editorials concerning teen-age 'beer parties' or 'gang wars.' These are only a few of the countless 'criticisms' that are dished out to the country's younger set.

"However, when the peace ends and the wars begin the story changes. Suddenly the wild teen-ager becomes a glorious hero. When the 18-year-old draft goes into effect, the 'little gangsters' will be carted off to some basic training camp, given a minimum of education in the 'ways and means of war' and then shipped to some distant battle-field to fight for something that to them seems small and insignificant.

"We'll fight if we're drafted. We'll shoot and kill or be killed. We'll learn to march by the bodies of our dead buddies and when it's all over with, some of us will come back hardened by the tragedy of war.

"And all the while the 'men' in Washington are saying, 'Well, we can draft enough guys from here to take Hill 1158 and enough here to take town X.' Yet, when you ask them why and to what end, they simply say, 'There's a war on — or didn't you know?'" (Signed) TOM SPARROW

Young Tom's poignant and honest lines speak for all the youth. The fact is that American youth faced by a future of long military service and the horror of war, in a cause in which they do not believe, are being destroyed by uncertainty and harrowing lack of hope.

Life Magazine April 15 issue carries a survey of opinion among teen-agers in Lorain, Ohio. One 16 year-old asked the Life reporter, We will be going right into service. What kind of future can we have?" Another asks "What are we fighting for?"

Youth live in the future. Their study is for tomorrow. Their dreams are of tomorrow. So are their plans. But their tomorrow is torn from them by a capitalist society which has no use for them except as cannon-fodder in World War III. This is drawn to disputes such as those on The capitalist press has fea- | "Mr. Rankin: This merely gives its logical conclusion by Gen. Marshall who holds out a "future"

ment by the Southern Bourbon wars we have gone through; is The Future Under Capitalism

A young doctor will serve his apprenticeship on the field of battle; a young scientist will turn his knowledge to the creation of weapons of destruction; a young engineer will build the tools of war; and all the young men and women who want to make their futures each in his own way, will have their plans made for them by the Pentagon. Study must wait; hopes must wait; love must wait. Everything is to be sacrificed for the imperialist war plans.

Not only does capitalism in its final stage of decay, turn the industrial machine to production of destructive instruments rather than to goods for the benefit of the people, not only does it use the tremendous talent and genius of science for mass murder rather than for the harnessing of nature for mankind's freedom and wellbeing, but it takes the greatest resource of society — the youth robs it of its chance to build and create, and makes of it the prime tool of war.

That is all capitalism has to offer the youth. It confronts them

Is it any wonder then that this insecurity of the youth manifests itself in acts of violence or irresponsibility?

When a youth loses his hopes and dreams for the future he oses everything. The young "delinquent" robbed of this birthright is not the criminal; it is the society which stripped the youth of a chance to think, plan, work, dream and build his life that is the

Youth and the Socialist Future

But the young Tom Sparrows are wrong if they think there is no hope. It is Tom's generation which has before it the greatest vision of all. And it is not just a dream. That is the work of eliminating the system which frustrates humanity, perverts its knowledge and skills, misuses its tools in an effort to perpetuate its rule by plunder.

The bitterness of the U.S. youth is only the first stage in their development. Today they see that capitalism offers them no future. They will discover that to save their tomorrows a new social and economic system must be created.

The capitalist system measures all things by the dollar. It produces things for use only to the extent that they can be marketed at a profit. When it can't sell at a profit, it seeks new markets to exploit. This means that the youth it can't use in production, must be used for conquest; and when peoples in Asia or elsewhere protest against foreign exploitation, young Tom and his friends will be told to shoot to kill. They will be told to burn and destroy, and to sacrifice themselves in the process.

To struggle against militarism and war requires a fight against the system which produces them. There is no other way.

Revolutionary socialists place all their hopes in the youth. as exist in the Army unit, that The fight for a socialist world requires the qualities of youth: incorruptible service to ideals, selflessness, honesty and courage. gation is the normal thing. And The alternative to capitalist war and destruction of culture and civilization is socialism.

The tremenndous capacity to produce goods, which creates wars under capitalism, will solve the economic problems of humanity under socialism; no longer will men and women have as their primary problem the need to find food and shelter. While under capitalism wars are fought between human beings for the enrichment of a few, under socialism the only wars will be those fought by all top military leaders lies the crux against disease, ignorance, want; men and women will not cease to struggle; they will struggle not against one another, but unitedly Winstead of Miss. And he was to build a higher culture and to conquer the remaining mysteries

That is the inspiring vista of the future; it is a cause worth fighting for! It is the hope of the youth!

THE MILITANT

There was once a mountain, ice-bound, snowbound in winter. Its rocky crags were frozen deep in rigid, unyielding ice and swept with wind and snow. The slopes were buried deep, the gullies filled in, the pathways blocked with heavy snow. And then there came the miracle of change. A fragment of snow thickened, grew heavy, and became water. More and still more grew fluid, became rivulets and streams and torrents and swept away all that resisted, leaping and plunging in a thousand cataracts, drifting and float-

Again the tempo changed. The torrents quieted. The wand of nature touched the earth, and it grew green with grass and spotted with the colors of the mountain flowers. The rocky tor glowed with the warmth of the sun.

First, the grim rigidity of winter; then the motion and violence of the cleansing flood; and finally the calm triumph of spring emerging into summer. But tell me, show me if you can. Where was that first drop of water?

Sound dinned at his ears and grew soundless in its intensity, became only a small buzzing inside his head, a vibration that lived alone in a deafened world. He swung the sledge high above his head, smashing in rhythmic cadence at the wedges clamping the goose-neck pipe to-

It was done. He dropped the hammer. The first helper dropped his, and together they walked slowly from the furnace jacket. He saw the blower signal to the hot-blastman, saw him turn the windlass, and felt the pressure sag from his ears. And then, but for the almost forgotten pounding of the engine-pumped air, the blast furnace was still.

He sprawled on a bench, dampening it with his sweat-soaked clothing. He breathed heavily. thinking of nothing for a moment. Then he smiled, remembering.

This was the day. This was his day, the First of May, the day of the workers. He thought of his friends and comrades, forgetting the sweat that coursed in itching rills down his back, darkening the coarse wood bench he sat on.

The steel mill recedes as we pass. There are the furnaces and the open hearths and the coke ovens and mills. There are the thousands that work in it, and there, a speck of humanity in the center of the multitude, there is our friend, one ordinary man. Look, still he smiles, his eyes looking past us, into tomorrow's socialist spring.

Jose Gonzales is young. His smile flashes white, and his eyes and hair are jet black. Jose is a great man with the girls, but right now he isn't thinking about girls. His hands deep in the loose pockets of his overalls, he is walking home from work with his shon-mate.

"Eh, Pedro," he says, "What day is this? You know?" Pedro grunts, "Tuesday."

"Tuesday, Pedro! Where are your brains? Jose lowers his voice and leans toward his friend. "It's May the First, the day of the workers." Pedro looks furtively around. No one spies. The Barcelona street holds only a few dirty-faced

Pedro draws a breath. "May Day! Ah. . pretty soon now. . . . that pig, Franco. . . . Pedro flashes his teeth in a grin, and, making a scraping sound deep in his throat. They stand for a moment grinning at each other. Then, hands in pockets, they trudge along toward home.

Willie Riggs stands still a moment in the Alabama field to wipe the sweat from his black, glistening forehead. Willie never had much schooling or got very far from home. He doesn't know it's May Day, or even what May Day stands car in which Natalia Trotsky was for. But keep your eye on Willie Riggs.

In a Dutch sanitorium a revolutionist is recovering from tuberculosis. On May Day he "Soon I shall rejoin my comrades and resume the struggle." In Germany they wear the scars of Hitler's concentration camps. Time moves on (even under the ice-cap time continues to move and move), and the day approaches when these scars shall be chevrons in the army of the workers. In the Orient life is convulsing, life is pressing hard to burst from the shell that restrains it, and it will not be restrained. In France and Italy, in the very heart of the Soviet Union, in China and India and the United States time moves ever onward underneath the rigid crust of authority.

Capitalist Lunacy

The other day a man, identified as Paul Snow, age 34 of Biddeforth, Maine, presented himself at the State House at Columbus, Ohio. He said he was a visiting Republican state senator from Maine. Invited to address both the Ohio House and Senate he promptly gave the Democratic minority a severe tongue lashing. Among other things he blamed them and the Truman administration for the failure of Maine potatoes to mash easily.

The august legislators listened, the Democrat minority squirming, the Republican majority solemnly applauding. From the legislative sessions, the visitor went to sit in on a session of the senate taxation committee. The next day he was apprehended while on an inspection tour of the Boys' Industrial School at Lancaster.

It turned out that he had escaped earlier in the week from the veterans' mental hospital at Chillicothe, Ohio.

It is furthest from our thought to come to the defense of the red-faced legislators in Ohio. But the fact is that their error is quite understandable. It is not easy these days, listening to the talk in our local, state or federal legislatures, to distinguish off-hand between those who are in complete possession of their senses and those

For example, the very same papers that tried to jocularly dismiss the Ohio episode, carried reports to the effect that the Wall Street stock-

market has happily recovered from its recent "peace jitters." In a rational society, any one viewing the prospect of peace as a calamity would be considered as the likeliest of candidates for a straitjacket. But not in the world ruled by the Wall Street financiers to whom war and war preparations are the very breath of life.

Or take another example; the militarists and the witch-hunters, with the Truman administration at the head, are destroying democratic rights and elementary civil liberties in this country at a faster pace than any on record.

We are swiftly becoming a nation in uniform - the hallmark of totalitarianism. Hollywood is in uniform and its latest hero apparently is a stoolpigeon. Science and the scientists are being regimented. The flower of our nation is being laced into a uniform, with a "permanent prospect" of remaining in it. A "draft" is projected for American working men and women. Thought-control, imposed by law, is becoming more and more prevalent.

And all this is being done in the name of "safeguarding democracy" against totalitarian-

The Ohio legislators have a good alibi, even if they are not likely to use it. Throughout the country the atmosphere today is such that irrationality appears as the height of logic. And insanity tends to lend eloquence to all the supporters of this crazy capitalist system.

Trotsky's Widow **Recovering After Auto Accident**

VOLUME XV

MEXICO CITY, April 15 Natalia Trotsky was injured last night in an automobile accident concussion, severe facial bruises, several cuts about her mouth and left cheek from flying glass and tongue injury.

widow of the martyred Leon Trotsky was returning from an evening visit with friends. An automobile driven by a youth entered the main avenue from a blind side street at a velocity estimated by police at more than 50 miles an hour. He struck the riding directly opposite her position in the back seat, throwing her violently against the side of the car and showering her with shattered glass.

She lost consciousness as the car spun around 180 degrees from the impact and did not fully recover until several hours later Friends riding with her suffered only slight bruises and cuts. Both cars were badly wrecked. The youth, who admitted he was at fault, was shaken but unhurt.

Natalia was rushed by ambulance to a hospital where she was given emergency treatment and later taken to a private sanatorium where she received further treatment and was placed under medical observation. No internal njuries were ascertainable.

Everything possible has been done for her and the doctors expect her recovery to be rapid. Since her husband was murdered in August 1940 by an agent of Stalin's secret police, the widow of the famed co-founder of the Soviet Union has lived in seclusion in Coyoacan, a suburb of Mexico City.

She is the last known living ferendum vote on the question. epresentative of the revolutionary generation of Lenin and Trotsky that was liquidated by Stalin. In the great blood purges of the Thirties all her relatives save a grandson perished or vanished in the concentration camps of Stalin's secret police, the GPU.

NATALIA TROTSKY

Cost-of-Living

The new Department of Labor cost-of-living index, which the Bureau of Labor Statistics says friends of the party attended the "has been adjusted to incorporate improvements to make it a more accurate measure of current price movements" is a complete fraud.

Index Hit by CIO

At the very time when the average worker's family is spending more and more of its weekly income on food as a result of skyrocketing food prices, the index gives greater weight to family purchases of consumer durables.

PLAYS DOWN FOOD COST

That is, it computes the costof-living on the basis of prices of commodities which workers' families are no longer able to purchase. By giving greater tion. weight to durable goods, such as cars and frigidaires and furniture, and less to food products, the index distorts the true cost-ofiving picture.

Organized labor has already protested this new index, point- Monday ing out that if it had been used as a yardstick last year, it would have shown far less of an increase in living costs than the old system showed.

On the old basis the increase the new system an increase in living costs of only 2.7 percent would have been shown, according to CIO research director Stanley Ruttenberg,

Fight for Willie McGee

Party Opposes tongue injury. The accident occurred as the City Sales Tax

line reading "Socialists Rap Common Council" the Buffalo Courier-Express April 16 carried the following news item: "The Democratic majority of the Common Council was castigated for its budget proposals vesterday by the executive committee of the local Socialist Workers Party, which accused them of trying to 'outdo their Republican colleagues in reactionary, anti-labor politics.'

"In a resolution the SWP singled out for attack the Council's adoption of the new job classification system for city workers, condemning it as a hodge - podge and smokescreen which - deprives the vast majority of city workers of their long overdue pay increases."

AGAINST SALES TAX

The SWP was the first among all political groups in Buffalo to call for a substantial raise in pay for sorely underpaid city workers, but as long ago as 1949, the SWP vigorously campaigned against the 1 percent Erie County sales tax.

"To favor the enactment of a sales tax as a means of paying city employes is to rob Peter in order to pay Paul. Such a tax allows Big Business to go scot free, deriving tax income almost wholly from among the poorest section of the working people," the SWP stated, demanding a re-

But County Attorney Lehr ruled a referendum vote was illegal, and the 1% sales tax was enacted. When the present wage demands of civil service employes were pending, the politicians used them as a cover for a campaign for a 2 percent sales tax drive.

The Buffalo Federation of Labor swung behind the enactment of a 2 percent sales tax, and the CIO, while opposing the

Hansen Attacks War Program at L. A. Meetings

LOS ANGELES-Joseph Hansen, on a coast-to-coast tour for Socialist Workers Party, speaking on "U.S. and the World Crisis" completed a successful of meetings here last

On Friday, April 6, Comrade Hansen spoke at a large gathering of workers meeting in the SWP headquarters here. The audience was extremely interested in the anti-war speech and analysis of the crisis which began with the Korean war, delivered by Comrade Hansen. Many new

meeting, and purchased copies of SWP literature. On Sunday night, Hansen spoke at a co-operative housing project near the University of California n Los Angeles. Here the reception to his speech was very fine, and workers present also bought SWP pamphlets and copies of

Judge Smalley's ruling, throwing out three of the "confessions," was only a partial victory for the defense. The ruling was on the narrow interpretation that there war direct evidence of the drugging of MacKenzie and Cooper and of promises to Thorpe. In that after a couple of questions addition to Cooper's typewritten "confession," which the judge ruled invalid, there is a handwritten "confession" by Cooper. admitted it into evidence.

There is no question in the the same police, by the same course, English's color. The Six could not have a fair trial teams of detectives working in Trenton newspapers were at that unless the state called these rotation on the prisoners, they all tell the same story. Proof that tion by shouting about an alleged are unavailable because of ill three of them are false condemns "crime wave." At that time health. the whole lot.

This jury has fourteen members - two extra in case any end, the extras will be eliminated by drawing lots. The jury is all white. Eight are women and six are men.

The main effort of the defense still is to prove - this time to malaria and a rheumatic heart, the jury - that the "confessions" are fabrications of the police, forced upon the defendants. This police during the hunt for Negro defendants on the stand but it is necessary because the police so scapegoats. The judge has ruled worded the "confessions" that one out all defense efforts to show the defense should ask about of them is enough to hang all the anti-Negro campaign waged Naples or Stanley. six defendants.

responsible for this delay?"

"It looks as though the judge in any great hurry to rule on appeal is stalled until that roadblock is removed."

"What, briefly, are the main issues in your own case?"

"There are two kinds of issues. the important constitutional ques-"What's the present status of tions. My suit challenges the entire loyalty purge as unconstitutional and contrary to proper torneys filed a suit in the Federal judicial procedure. It enables a single political appointee, the Attorney General, to proscribe hundreds of associations of American citizens at his own dictate. For example, Tom Clark put the Socialist Workers Party on his lacklist without any evidence whatsoever and without a hearng. Then he said I was 'disloyal' and couldn't keep my government job simply because I belonged to that party. That's 'guilt by association' which is considered repugnant to all principles of

American law.

"No," Kutcher replied. "And ncither did the German mortar crew who fired the shell that hit me - or the surgeons who years and a half in the Army
