Fight Wall St. Coalition Rule: **Vote Socialist!**

As election time approaches, the Democrat and Republican politicians play their usual political shell game. These parties stand for one and the same program

abroad as at home. Their foreign policy is virtually identical, differing only on minor details. In their domestic policy they also basically agree. This basic agreement on foreign and domestic not foreign and domestic policy two faces of the same party.

Emergine The Republican and Democratic Parties are nothing but two faces of the same party.

Emergine The Republican and Democratic Parties are nothing but two faces of the same party. decided on a "bi-partisan" basis, that is jointly by Democrats and from both. Republicans.

Bound to follow the same policies on all key social issues, not be able to get the people to both these parties follow the same go on fighting its battles for-aim: They both are committed to preserve the monopoly-dominated capitalist system. They both work to prop up capitalism throughout the world so that the billionaire ples of all nations.

"battles" are nothing but a sham. The Wall Street capitalists want They fight for votes and posts on us to fight to preserve the system Election Day, but join together that gives profits and luxury to the other 364 days of the year to the few at the expense of the rob and betray the people.

BOTH SUPPORT WAR

The immense war appropriaburden upon the working people, upon their children and their will have to fight the workers of highly placed politicians. Mink children's children, are supported this country, too. by both parties. The Republicans and Democrats in Congress cooperate to shift the burden on to the poor, and to lighten the load on the rich.

Both parties support the witchindependent minded people who They say: Stop the war in Korea won't go along with the imperialist war program.

PRICE: FIVE CENTS

This marks a new and most romising stage in the movement to organize united action by labor and liberal forces in behalf of all groups and individuals whose rights are being violated by the witch-hunters. The Militant, which has long fought for the organization of such a movement, hails the appearance of this committee as an example to be imitated by all labor and liberal groups interested in preserving the Bill of Rights for all.

The committee explained that "does not aim to compete with existing civil liberties organizations, but hopes to be able to nove with dispatch in situations where these organizations are unable or unwilling to act."

As "examples of types of cases in which it would take an active interest." the committee mentioned "the arrests under the Smith Act, as in the Communist Told to Get Out prosecutions, as in the recent indictments of Prof. Dirk Struik of M.I.T., and Harry E. Winner, ing hot on the heels of the British retreat from Iran, show that the

The committee promises to follow a strictly non-partisan policy and to defend accused or percolor or creed.

NEW LABOR TRENDS

While this new committee appears for the present to be composed primarily of professional elements, there are other indications inside the unions that sentiment for labor action against the witch-hunt is gaining steadily in strength.

A typical example of the new trends inside unions led by elatively conservative forces was the warning in the Sept. 23 International Oil Worker that continued attacks on freedom of the press may lead to the suppression of union newspapers "by Uncle The paper of the CIO Oil Work-

rs International Union referred to the indictment in California of two editors of the Stalinist Daily People's World, Al Richmond and Philip M. Connelly, who were "arrested and imprisoned because of what they printed." It said that "when we arrest characters like Connelly and Richmond, we are acting like owards. We are muzzling people because we are afraid of what they say. We should not be afraid up better in the test, so we should footballs of more effective in solving today's let Connelly and Richmond publish their baloney as long as they

the other, signed in 1936, holds the Suez Canal Zone under British military occupation. DEMONSTRATIONS HELD

manded by the whole Egyptian population, have been speeded by the powerlessness of British imperialism to cope with a similar situation in Iran, where the nationalist movement recently succeeded in expelling the British oil interests. Big demonstrations of Egyptians have hailed the gov-

ernment action with rejoicing. Not only British, but French imperialism as well is feeling the blows of popular nationalism in the Near and Middle East. The North African territories of Morocco, Tunisia and Algeria have witnessed a great growth of nationalist sentiment which threaten the position of the French imperialists. A DIFFICULT DECISION

The British, together with the French and American imperial-

ists, face an extremely difficult decision. If they try to resist the nationalist wave, they may face a full scale war against colonial uprisings in the Near East. This would cripple their efforts to assemble an alliance against the Soviet bloc of nations. If, on the other hand, they continue to retreat as the British did in Iran. they face the loss of a privileged military position, and the loss of colonial areas essential to their imperialist economy.

Thus the imperialists appear to face a growing Near East crisis comparable to the Far Eastern crisis that exploded with the powerful weapon inside the labor victory of the Chinese Revolution in 1949.

New Group to Defend Civil Big Businessman By George Breitman

Socialist Workers Candidate for New Jersey Assembly

NEWARK - Much ink and wind have been spilled this year about Abner (Longie) Zwillman, who was vircontrol over the United Auto tually unknown to the general public outside of northern

side the union shows that it is of a two-part serial in Collier's receipts of 50 to 60 million dollars editorials and speeches. In fact. "Zwillmanism" threatens to replace "Hagueism" as the bloody shirt in New Jersey politics. None of this material, however,

lesigned to promote the interests of various factions in the capitalist parties, or of a sensationalism intended to boost the circulation of magazines and newspapers. None of it, moreover, makes any attempt to probe the social ers in Baltimore, by 883 to 230, significance of a career that is in many ways a 20th century version of the Horatio Alger "success story," or the full implications of Zwillman's political activities. That is why still another treatment of the Zwillman story is justified.

LEARNED JUNGLE LAW

A millionaire today, Abner Zwillman was born in 1904 in Newark's Third .Ward, a povertystricken slum ghetto mainly Jewish in composition then and mainly Negro now. He had to leave school at the age of 13 to support his family when his from competing with "honest father died. One of his first jobs business"; the Colliers' article was as a vegetable cart peddler. He soon learned that life was neither easy nor pretty.

At that time there was flourishing socialist movement in the Third Ward, but it did not attract young Zwillman. What he had learned from his environment was not the need for the solidarity make. Under capitalism nobody of the working people but the gets rich by walking to work and jungle law of might is right and saving up his carfare. All big the money standard for success that was held up by the powersthat-be.

Prohibition was a godsend for tough and daring young men like Zwillman. It was also their high school and university. It not only taught them where easy money agencies. The state, he learned, is not an impartial agency meting out equal justice and punishment to all, but an instru-The Stalinists, who have in the that can be and is flexibly wielded gans and Goulds were not expeople, "the suckers." Zwillman

great effect in later years.

He began as a strong-arm man, and was arrested five times on in the days of prohibition was to assault and battery charges; he imitate the big capitalists, their was convicted once, and sent to methods and their ethics - but jail for six months, for atrocious on a smaller scale; what he did assault and battery on a numbers after prohibition was to use his runner. Besides brute strength, capital the wav they use theirs he displayed resourcefulness and "legitimately," that is, to get began to move up the ladder of people's toil. the Reinfeld Syndicate bottlegings, women will be forced to Europe and then brought it into and to treat Zwillman with scorn continue to supply imperialism's the U.S. It was a big business, and contempt because he aspired with more than 30 vessels bring- to be one of them? ing in an estimated 40% of all the illicit alcohol consumed in this (Next week: Zwillman: Politician)

between 1926 and 1933.

Zwillman was put in charge of the Kefauver committee reports, the landing operations and of innumerable newspaper articles, making sure that the liquor reached the customers. Inside of a decade, he held a 40 or 50% interest in the syndicate. In addition, it was claimed that he got a cut out of the numbers racket. is free of hypocritical indignation made money by supplying gunmen to protect beer trucks, and became a partner in the lucrative Waxey Gordon beer syndicate. which ran 10 breweries and shipped beer by freight car all

the way to California. Then came repeal of prohibition. For some of the bootleg kings this meant catastrophe; for others like Zwillman it was a blessing because it enabled them to move out of a dangerous enterprise, expand their horizons and enter new profitable fields. They had capital to invest, and they invested it, and their capital ex-

panded. This fact seems to incense some moralizing editorial writers and reformers; they profess to see a "taint" on such money and express the wish for legislative action to keep "ill-gotten gains" speaks disapprovingly of Zwillman's "use of the secret wealth acquired in the rackets to invade

ach in torsign countries.

The China Policy Dispute

The hue and cry over past China policy, emanating from the witch-hunt hearings of the Senate Internal Security subcommittee under Sen. McCarran, is being widely represented in the capitalist press as a "historical dispute."

It is by no means so innocent a pastime. Under the cover of reviewing the past, we have here a deliberate campaign to silence every voice of criticism against all-out support to Chiang Kai-shek and the China Lobby-Gen. MacArthur line of trying to reimpose by force of arms the rule of the Kuomintang clique over the Chinese people.

Those who at any time were in the least dubious or critical of the Chiang regime are now being made to shut up or crawl. Among those who are doing the crawling is Henry Wallace, not so long ago the Daily Worker's "peace crusader No. 1" in this country. Wallace has rushed to produce documentary evidence that in 1944 he was 100 percent not for the Chinese Communists but for Chiang Kai-shek and thus not responsible for Chiang's subsequent downfall.

The American people are now told that Chiang fell because he did not get "adequate" U.S. aid, because of "pro-communist" conspirators in the State Department, because of mistaken appraisals of the Chinese Communists as "agrarian reformers" and so on. Every reason is adduced but the true one, namely, that Chiang's regime proved so bankrupt and corrupt that the Chinese people booted

The State Department paper on China issued in 1949 flatly states that "the reasons for the failures of the Chinese Nationalist government. . . do not stem from any inadequacy of American aid. Our military observers on the spot have reported that the Nationalist armies did not lose a single battle during the crucial year of 1948 through lack of arms and ammunition."

Why then did the Kuomintang fall? Because, admitted the State Department in 1949: "Its leaders had proved incapable of meeting the crisis confronting them, its troops had lost the will to fight, and its Government had lost popular support." The only possible hope for such a regime lay in outside intervention.

This, too, was recognized only two years ago by Washington. "The only alternative open to the United States was full-scale intervention in behalf of a Government which had lost the confidence of its own troops and its own people." The State Department then went on to explain that it rejected "intervention of such a scope and magnitude" because it "would have been resented by the mass of the Chinese people. . . and would have been condemned by the American people."

What has changed since 1949? Not the situation in China where the Chinese people support the Mao Tse-tung regime, and resent Washington's course. Not the position of Chiang who could not survive on Formosa for a month without American naval protection and further huge financial and military aid from Washing-

The significant change has been in the adjustment of the State Department's China policy to conform more and more closely with that of the notorious China Lobby and the "Fight Asia" gang led by MacArthur.

Only the bitterest enemies of both the American and Chinese peoples could advocate continued support to Chiang, and the waging of war on China in his behalf. Not another cent, not another gun should be permitted to go to Chiang. A foreign policy that would really serve the interests of the American people would begin by extending full recognition to the existing Peiping regime.

"Experimental" Bloodbath in Korea

Fighting has not only continued in Korea, it has reached in recent weeks greater intensity than at any time since last winter. American casualties have increased sharply, with the last reports of 2,-200 a week or almost double the previously acknowledged casualty rate. Heavily censored dispatches from Tokyo hint that the actual casualties are much larger, being suppressed for obvious reasons.

As matters stand the 15 months of Korean fighting have cost in casualties more than did the 15 months of World War II. The number of dead is twice as

The initiative for the resumed hostilities has come entirely from the American side. Why? The weekly U.S. News of Oct. 5 suggests that what is going on falls into the category "of an experimental war, one being fought for the purpose of testing men, weapons, materials and methods, on a continuing basis."

Hitler and Mussolini put Spain to such use prior to World War II. The powerdrunk militarists of the Pentagon are not at all beyond putting Korea to the same use. Is that what is going on? Is that why the truce talks have been stalled? The American people have no way of knowing. They are only being told what the military choose to tell them.

Truman's "police action" — presumably turning into "experimental war" has not gained any popularity in Europe or here at home. It is least popular in Korea, where Southern Koreans, as the Paris newspaper Le Monde reports, would throw out the Syngman Rhee regime, if free elections were held.

The American people could put a quick end to the bloody business in Korea by demanding that the entire issue of war and peace be put to a national referendum, and by insisting on the immediate return home of all the armed forces now being "experimented with" in Korea!

The British Elections

The British elections, which take place on October 25, are important for the British working class, and for workers everywhere. If the Tories win, it would be a setback for the working-class fight against imperialist war and capitalist wage slavery. That is why we give absolutely unreserved support to a Labor Party victory in the coming elections.

The left-wing of the Labor Party led by Aneurin Bevan, is growing because of the discontent among the masses. The people are angry at the Attlee policies, which are dictated to the British government by American imperialism. Bevan is still a minority leader in the British Labor Party, but he has thrown the issues into the campaign which interest the masses of Britain; rearmament or progress towards socialism, for or against American imperialist policy.

The U.S. capitalist-controlled press, taking note of the Bevan left-wing offensive within the Labor Party, chortles that the Labor Party is sure to lose the

The campaign workers of the party, the doorbell pushers and leaflet distributors, who are in closest touch with the masses of working people in Britain, realize this, and that is why they gave Bevan and his supporters top votes at the conference. Now that they have a program which they can bring to the leftwardmoving workers with confidence and hope, they will work all the harder in the election campaign.

The British workers in their overwhelming majority will support a Labor Party victory at the polls. They will do this, not because Clement Attlee provides them with a solution to their problems, but because they see the Labor Party moving leftward. They will support Attlee against Churchill, not in order to approve of Attlee's partnership with American imperialism, but as a first step towards tearing the Labor Party loose from that partnership.

MONDAY, OCTOBER 15, 1951

There is no possibility of "equal" schooling so long as it is "separate." As long as there are different schools for colored and white, Negroes get inferior facilities. Anyone who has been in the South knows this is true. But even in the North, where segregated schools are as a rule not provided for by law, but by "gentlemen's agreements" among white administrators, the schools maintained as "Negro schools" get the least repairs, the oldest equipment and the most overcrowding.

The National Association for the Advancement of Colored People has conducted a number of important court fights against segregation, first in the colleges, and now at the level where it affects the majority of Negroes, in the elementary and high schools. These fights on the legal front are useful and necessary, but very slow - too slow to do much good for the present generation of school youth. Last month a new element entered the fight against second-class schools for colored youth - the students themselves. And that opens a new stage in the struggle.

In St. Louis, Missouri, a thousand students left their classes in two of the Negro high schools on Sept. 17. They marched down to the Board of Education chanting loud enough for the whole city to hear the echoes - "We want better schools." Downtown traffic was snarled. The chief of police began looking for somebody to arrest, And the Citizens Committee to Protest Overcrowding in Negro Schools, which has been trying for nine years to get decent educational facilities, was finally promised by the frightened representatives of the Board of Education that something would be done to relieve the situation within 30 days.

The student action electrified the whole community. Now their parents are demanding not just some makeshift arrangement for transferring white students in nearby elementary schools to make room for colored high school students, but equal facilities to those in the white schools. The NAACP branch in St. Louis has decided to open legal action now to end the segregation that

permits classrooms in the white schools to remain partly unoccupied while 4,500 Negro high school students are housed in buildings with a 2,800 capacity, classes meeting in hallways.

Adding to the School Board's troubles, parents of the white children scheduled to be transferred for the Negro students are protesting the proposal of the board which would make their children travel long distances to school. And the Negro citizens' committee is backing up their protest.

The colored students have won the complete support of every Negro leader with a spark of self-respect. Attorney Frank S. Bledsoe, a local Negro magistrate, issued an open letter to them which should be published in every newspaper in the country. Assuring the students of the support of the community, he urged them not to let the Board of Education "nor the police intimidate

"You are going to be called radicals," he warned them, "but always remember that no Negro, in these modern times, is worth his salt, unless he has earned the right to be called a radical.

"Your teachers have begged for relief for a generation, but they have no respect for the modest requests of your teachers. They will respect "Don't ever believe anyone who tells you that

white and Negro children cannot attend the same school in St. Louis. Nothing prevents it except the will of the School Board. They have erected an iron curtain between the children of St. Louis, and that iron curtain must go.

"I am sure that fair minded people, white and black, will join you. I urge your mothers and fathers to join you. Permanently organize and hold yourselves together. The School Board may urge your teachers to punish your student leaders. They cannot punish all of you. Stick together in large numbers."

St. Louis Negro students and parents are showing the way to break down the iron curtain of Jim Crow between Negroes and whites. The rest of the country should follow.

A Complicated Situation

By John F. Petrone

Once upon a time there was a young man named John. He was a likeable fellow, a man of good will, desirous of helping to improve conditions. He was still in college, but already interested in social and political questions, He was a great admirer of Prof. Arthur M. Schlesinger Jr., believed in "the vital center," belonged to an affiliate of Americans for Democratic Action, deplored McCarthyism and denounced communism, thought that Harry Truman had his faults but had done a good job in foreign policy, regarded Walter Reuther as the outstanding labor leader, circulated petitions against filibustering in the Senate and secretly hoped that his career would not be hampered by his advanced views. In short, he was a good liberal.

Well, under an exchange program between his university and one in France, he came into contact with a Parisian student named Maurice, who, after they had become friends, implored John to explain American politics to him. Lack of space compels us to skip several hours of the conversation, and to take it up toward the end.

"I hope you understand the difficulty now," said John, "The Republicans, representing the special interests, are defeated regularly in each election for the Presidency and Congress, and yet they succeed in circumventing the wishes of the majority by their unholy alliance with the Southern Democrats and in preventing the passage of necessary social legislation

"This is truly difficult to comprehend," said Maurice. "I thought you said that the Republicans are advocates of civil rights legislation, and that they appeal for votes as the party of Abraham Lincolh, the Great Emancipator. That is correct? Then how is it possible for them to turn about and ally themselves with the Southern Democrats who stand for precisely the opposite program?"

"That's just the point!" cried John indignantly. "They have neither morals nor principles, those Republicans. They resort to any means in order to attain their objectives. That is why it is necessary for them to be defeated in next year's election - so that the infamous Dixiegop alliance shall not prevail."

"I see, . ." said Maurice uncertainly. "So the defeat of this unholy alliance is the main task of you liberal Democrats. That is why next year market place where they found Painters Union, International you will advocate that the voters should not vote out how many they were and how Brotherhood of Electrical Workfor the Republicans or the Southern Democrats."

"Well, no, not exactly," said John. "We will against their oppression. They urge the defeat of the Republicans, but as for formed women's associations and have been well received at all the Southern Democrats — no, we can't be for their defeat because that would mean the Republicans would win both the Presidency and the

"But," said Maurice with perplexity, "you explained before that the Southern Democrats gain the commanding positions and chairmanships in Congress because of their seniority. How can you hope to avert the unholy alliance if you make no effort to prevent THEIR election? Further-

"I knew it would be difficult to explain," John said wearily. "Try to understand this - without the support of the Southern bloc the Democratic Party cannot win an election. To deliberately alienate that bloc means losing all influence in the White House and Congress for the liberal

Maurice thought this over for a moment, but it was too much for him to grasp. "Furthermore," he continued apologetically, "another thing I cannot understand is why it is unholy and infamous for the Republicans to ally themselves informally with the Southern Democrats, with whom they seem to agree on fundamental issues, while it is permissible and even necessary for the liberal Democrats and labor leaders to ally themselves formally with the Southern Democrats, although you say in this case there are important differences over fundamental issues."

In the end they agreed that it would take Maurice a long time before he could understand the complexities of major party politics and the views of the liberal Democrats, and that he should take some time out from his studies to attend the next meeting of Americans for Democratic Action, where someone else might be able to explain the matter better than John.

In the auto-producing centers of Detroit and still the political center of this country.

> Our coming American revolution will be consistent with that tradition and will be its logical culmination. A great deal of that history, the rich experience of many years of struggle, is contained in Comrade Swabeck's own rich life. was in a definite minority. I feel very proud indeed to be a part of a move

I still have several meetings before me here in Chicago and I am looking forward eagerly to my sessions with the students.

Sunday I drove to Milwaukee, along the beautiful Lake Michigan shore highway. The ministration and its increasing tories are as silent as the tomb. To no avail. There is not a scab trees were dressed for fall in brilliant shades of failure to solve the many The office workers belonging to to be seen. This is a peculiar red and yellow. On Tour for Socialism By Myra Tanner Weiss

This week I had an exceptionally tight schedule. In five consecutive days I spoke in five different cities in four states. I don't know how I ever managed to remember the right hotel room number. But as I get further west, where the population begins to thin out, I'll do more traveling and less talking and at least my vocal cords may get a rest.

Flint I found that the workers are not only harassed by inflation but also by unemployment due to reconversion. Suddenly these thousands of workers are compelled to live on \$25 or \$30 a week. Enforced unemployment amounts to a sharp reduction in annual take-home pay. Wage agreements with these profiteering capitalists should only be made on the basis of an annual income, unless someone can invent a way for people to eat only part of the year.

Unfortunately I had only one night in Toledo and was unable to visit at any length with several of our women comrades who have given a great deal of thought and study to the problems of the working-class housewife. These comrades, during the second world war, led some militant price struggles with housewives doing the fighting; and as the housewife begins to react to the mounting prices today, their wartime experience would be of great value.
