Popular Protest Forces Congress To Kill UMT Bill

By Harry Frankel

Enormous popular opposition forced the defeat of Universal Military Training by this session of Congress when the House of Representatives voted on March 4th

to "recommit" H. R. 5904, the D-UMT bill. Sentiment throughout | mittedly supported only by the the country, flaring high against professional militarists, the Penpeacetime, permanent conscrip- tagon, and the Wall Street domtion, resulted in a great flood of inated press, while the people of mail and protest resolutions, vir- the country and the popular ortually forcing Congress to aban- ganizations are overwhelmingly opposed. This is substantiated by don the plan. So great was the protest wave reports of Congressional mail.

that the vote in Congress was not even close, as had been predicted, supporters of UMT were the but gave 236 votes against the "Fair Deal" liberals, who were Pentagon-sponsored UMT meas- far less responsive to public opinure as compared with only 162 ion than all other groups in Convotes for it. gress.

Thus the UMT program is ad-

New York Parley Will Map Aid for **Smith Act Victims**

NEW YORK - A Citizens Emergency Defense Conference has been called here for March 16 to organize "a movement dedicated to the defense of the men and women now being prosecuted under the Smith Act and the consideration of the problems created by a new Alien and Sedition period.'

The conference call, warning that "the rights of free speech, press and assembly, the very heart of the Bill of Rights, are in deadly peril today," notes that opposition to the Smith Act is rising, and adds:

"The growing campaign for repeal merits the widest support, but it must be accompanied by a powerful movement to unite people of varied opinions in defense of the constitutional rights of those now facing prosecution. . . Such a movement requires taking no position on the political program of the defendants. It requires only a defense of their constitutional rights."

Negroes Also **Targets Of Red-Baiters**

The Congressional witchhunters' invasion of Detroit and their assault on CIO United Auto Workers Ford Local 600 is an alarm signal to all organized labor. Here is another and clamorous warning that the American union movement is the ultimate target of the drive against civil liberties being waged under cover of anti-"Communism."

Proof of the anti-labor aim of the witch hunt, of which the House Un - American Activities Committee hearings are a part, is the place, victims, time and circumstances of its latest inquisition.

Detroit is the chief stronghold of the mighty auto workers and a bastion of union labor, both CIO and AFL. The House committee selected as its victim the largest union local in America, Ford 600, and dared to drag leading officials of this local before kangaroo-court hearings.

The auto workers are growing increasingly aroused against mass unemployment and speedup. Part of the House committee's job is to smear, confuse and intimidate union workers who are preparing to resist shameful conditions with mass actions.

Clear evidence that part of the

How Good Detroit Teacher Became As "Important as a Gun Moll"

DETROIT - The witness who got the most publicity during the House Un-American Activities Committee hearings here was Mrs. Eleanor Maki, a school teacher since 1929.

Named by one of the paid agents of the witch hunters as a longtime member of the Communist Party, Mrs. Maki was not immediately available for testimony. Her delay in appearing before the committee became the basis of hysterical headlines and stories in the daily press.

More significant was the fact that in spite of the hysteria not one person in the Detroit school system could be found who had anything but respect and praise for her conduct as a teacher. Her principal said: "She has been a good teacher at this school since 1944. We have never had a complaint against her."

In a statement to the committee, Mrs. Maki said: "Nothing I have done has been inconsistent with the true ideals of our American democracy. The hysteria whipped up by this committee has subjected me to the most vicious kind of persecution. It is directed at me as a teacher as part of a campaign to stifle freedom of thought for teachers throughout the country. I protest the actions of this committee as being un-American and a mockery of everything America has stood for in the past."

She also told the press: "Perhaps I should not say this It is probably unwise. And yet - all my life I have worked hard. No one paid any attention. Now, suddenly, I am as important as a gun moll."

PA. PETITIONS TOP LEGAL MINIMUM Young replied. This ex-

Another canvasser went to drive out several auto workers

who had been called to the hearout in the morning, returned ings. The witch hunt seriously threatens to split the unions.

REUTHER SILENT

In the face of the vicious threat to the Detroit unions and the auto union specifically, the top mion officials preserved a cowardly — nay, a treacherous silence. Walter Reuther, head of the auto union, who finds time and breath for practically everything else, played dummy during the hearings. Neither he nor other leading union officials took even the elementary action of denouncing the hearings, let alone mobilizing actions against them. This was naturally interpreted as a go-ahead signal by the witch hunters.

If the anti-labor, anti-Negro opponents of civil rights can get having a family and friends who away with their attack on Detroit have battled his case to the public workers and unions, they will not hesitate to spread their offensive to other unions throughout the country. Organized labor dare not temporize. It must arouse itself and fight the witch hunt with all its power. Both the AFL and CIO in the past went on record stigmatizing the House Un-American Activities Commitaction — is needed now.

Vol. XVI - No. 10

Monday, March 10, 1952

The New Thought-Control Edict

On Monday, March 3, the U.S. Supreme Court handed down a decision concurred in by six Justices which upheld the constitutionality of the New York State Feinberg Law. a measure for the regimentation of teachers. Speaking of so-called "Communist propaganda," the decision says:

"This propaganda, the (New York) Legislature declared, is sufficiently subtle to escape detection in the classroom; thus, the menace of such infiltration into the classroom is difficult to measure."

The purpose of this remarkable statement is to estab- of "The Recession of 1954," talks lish that teachers may be fired even when they propagate no detectible heresies in their classrooms. In other words. if a teacher is accused of "disloyalty," and in reply points out that he has never uttered anything of a "communist" leaning in a classroom, or that he teaches mathematics or some other subject which is not connected with politics, the witchhunters will now be able to reply: "You have been spreading propaganda, but exactly what it is we cannot tell you, for it was too subtle to be detected."

What does this phrase of the Supreme Court, "sufficiently subtle to escape detection," mean?

If propaganda can be so subtle that trained police witch hunters will not be able to detect it, how can it possibly have any effect on the students?

If propaganda is to be this subtle, it would have to the 1929 crash. "Future recessions avoid any defense of Marxism, communism, socialism, or any ideas which might be defended by communists, socialists or Marxists. If "propagandists" were to be so "subtle" as to defy detection, they would have to limit themselves to ideas which are not peculiar to communists, but which could also be defended by liberals, trade-unionists, defenders of Negro rights, etc.

What this means, therefore, is that a teacher who paratively slight" depressions. defends causes which are unpopular with the capitalist class, such as civil rights, labor rights, limitations of profits, TVA's, socialized medicine, or any one of a hundred other progressive causes, can, and certainly will be labeled a purveyor of "communist propaganda" which he is keeping "subtle" so as to "escape detection."

Thus what the Truman-packed Supreme Court is doing here is opening up the flood-gates to thought control in a manner unprecedented in U.S. constitutional history. What this ruling means is that, not only do teachers lose their freedom of speech, but they lose the freedom of thinking what they please even if they never say it.

The mere thought is made a crime even if unexpressed in the spoken word, because the teacher, by having the unspoken thought, lays himself open to the charge that he has spread "propaganda too subtle to be detected."

Capitalist Choice: Crash or War

By John G. Wright It is the arms boom, and the arms boom alone, that has thus far averted another depression and any relaxation of the armaments drive carries with it dire nomic consequences. What The Militant has said since 1948 is second-half of 1952." now being admitted by authorita-

tive capitalist economists. Early in January a five-man economic team of the United Nations, chaired by J. W. Angell of Columbia University, issued a pecial report, entitled. Measures for International Economic Stability, and offering plans to counteract a depression "some two years" from now, consequent on any scaling down of rearmament.

RECESSION IN 1954

The London Economist, in it. Ian. 19 issue, accepts this prospect about it as if it is a foregone conclusion, and hails the Angell report as deserving "a warm welcome and close attention." This British economic weekly, one of the most authoritative in the capitalist world, calmly admits that in the United States, the arms drive has served as "the main engine of the boom that succeeded the end of the war in 1945"; and that two years from now any suspension of the current arms program "will be

reflected in hurdensome surpluses of materials that no one wants at the remunerative price."

The Economist editors thusiastically agree with the Angell report that the coming slump will not be on the scale of will be comparatively slight and they will be corrected within a year or two," they say. But amid this "optimism," they strike a

very sour note by calling attention to the debilitated condition of capitalist Europe whose bankrupt economies are incapable withstanding even "com

The spokesmen of British imperialism cautiously point out that the "gold and dollar reserves of many countries besides Britain" are only one-half today of what they were in prewar days: "and it does not need a major slump to drain away reserves of that size within a year," they warn.

FRIGHTENED CAPITALISTS For all their "confident" talk about a "slight" future "recession of 1954," these are frightened capitalists who are talking. Besides, they would much rather

discuss future difficulties than. say, the current crisis of British capitalism, the worst in the suc-

still controls a half of the entire arms boom wears out." McLeod's American retailers are finding it world trade, has been losing gold sole consolation, like that of the increasingly "more difficult to and dollar reserves at a record Angell report and the London buy abroad." French Police Battle Auto Workers

French police use overturned truck for barricade in battle with demonstrating Renault workers in Paris suburb on Feb. 12. Eighty thousand police were mobilized in battle array throughout the nation, but the workers came out in demonstrations protesting the government's ban on traditional parades commemorating the mass struggles that blocked the road to fascism in France in 1934. Clashes of this kind testify to a continuing social crisis in France, aggravated since Feb. 12 by the Lisbon conference decision which would greatly increase the French arms budget and which quickly led to the downfall of the Faure cabinet. France, which is supposed to be one of the chief bastions of the North Atlantic Treaty Organization, is kept unstable and shaky by the exorbitant armament demands of U.S. imperialism, the revolt of the French colonies in Asia and Africa, and the resistance of the French workers to lower living standards at home.

Scripps-Howard survey. Lack of dollar credits, on top of high rosition of new and intolerable speculators. On Feb. 26 the arms burdens, which find their expression abroad primarily through increased indirect taxes, last long. Mass Resistance Greets NATO **Rearming Plans**

By Fred Hart

The imperialist diplomats gloated when the recent Lisbon conference agreed to build a six-nation army under the North Atlantic Treaty Organization and to raise 50 divisions by the end of 1952. But*

their feeling of triumph did not time to giving up in Indo-China and letting the Communists take ever."

GERMAN OPPOSITION

In Germany, mass opposition to tion so widespread that they the new rearmament program is began to act like men in the especially pronounced. "The people are furious that the govern-"A vast step forward," said ment, against their will and with-Secretary of State Acheson after out authorization from Parliathe Lisbon announcement, comment, agreed to contribute Gerplimenting his European allies for man divisions, and billions of swinging into line behind Washmarks as well, to NATO defense," ington's rearmament program. Carolus reports from Bonn in the But a week later Democratic March 8 Nation. "The Social Senator Connally was brutally Democratic opposition is detertracking the whip and threatenmined that the agreement shall ing to cut off economic aid to not be carried out and is renewthe French unless they "do their ing its demand for a general elecduty" and the capitalist press tion." which the Adenauer regime was snarling furiously at the would hate to face.

When the head of the German trade union movement gave conditional support to rearmament. his statement "evoked violent protests, and revolts against his leadership are brewing in many unions. The question what can be done if the government majority imposes militarization is passionately discussed by rank-andfile unionists, and occasionally one hears talk of a general strike. That such a drastic measure is even thought of shows how severe is the crisis," Carolus continues.

UNION REBELLION

"The trade union rebellion against rearmament is in full swing," writes the N. Y. Times correspondent in Bonn on March 3. "At a meeting of local union eaders from all over West Germany held recently in Duesseldorf, speaker after speaker arose to denounce the national leadership of the trade unions for having accepted the rearmament plans."

The same report says that opposition has become "better organized, more definite and more widespread," with the result that Things have become so bad, the Allied officials are beginning to question if the Adenauer government can win a majority for a rearmament budget in the Bundestag. It is freely admitted that the opposition includes middle class as well as labor groups.

The economic basis for this recession of British postwar eco-nomic paroxysms. Britain, which Hunger is a Man Made Plague bellion is explained by Carolus as ollows: Adenauer agreed to spend 121/2, billion marks a year on arms; he says he won't ask for 25.911.2 higher taxes, but he is going to 23.5 15.2 demand that the Laender (states) 23.4 15.2 raise their contributions to the 16.8 federal government to 40% of 22.2 20 37.3their revenues. The Negro Struggle Jim Crow and the CIO

By Jean Blake

People Do Change

By Ruth Johnson

Notes from the News

Last month, when this column was opened to a discussion of Jim Crow in the unions, we invited our readers to join in and let us know about their opinions and experiences in this field. Here we print the first contribution to the discussion, and hope that it will encourage others:

"I think you and The Militant have done a real service by starting a discussion on the problem of Jim Crow in the unions and how to combat it successfully. There is too much of a tendency in the labor movement to ignore this problem merely because in the last decade some progress has been made, mainly on a local level, in winning union posts for Negroes and in wiping out some of the discrimination in upgrading, etc. It's a real problem, not only in the steel union, and I hope among other things that the discussion will give us facts about other unions as well as suggestions for combatting them.

"I am in full accord with you on what should be done. The allies of the Negro union members in conflicts with bigoted types like William Donovan, director of the Steelworkers Union in the Cleveland area, are the white union members who also have plenty of grievances against such bureaucrats. The rank and file must cooperate in getting rid of such disgraceful elements who do nothing but harm to the cause of organized and unorganized labor.

"We agree on the strategy. I believe we also, agree on the tactics, but to be absolutely certain of this, I want to say some things about a few remarks you made in your column on the subject. You wrote as follows:

'The editor (of the Cleveland Call and Post) failed to outline any course other than appealing to the CIO's top leadership to clean out the Donovans. It is necessary to expose the role of bigoted bureaucrats to the top leadership, and to all working people, but a realistic approach to the problem cannot depend on bureaucrats to clean out bureaucrats.' You also said that getting rid of the Donovans can be achieved only 'by building a new left wing leadership and returning

People who claim that "socialism won't work"

are also fond of saying "you can't change human

nature." But the lives of a whole community can

alter in one generation. A new scientific example

of this appears in the Feb. 1952 issue of the

American Journal of Psychiatry, explaining how

in 40 years the men of Harlan County, Kentucky,

have changed from frontiersmen to industrial

workers. . . from "rugged individualists" to

staunch union men - and how social changes

have brought them a new realism in facing emo-

These conclusions are the result of the first

by the United Mine Workers' Welfare and Retire-

ment Fund. Dr. Carl Wiesel of Lexington, Ky.,

and Malcolm Arny, a psychiatric social worker

with the Harlan County Mental Hygiene Clinic,

examined 100 patients in preparing their report.

and Arny, would take us too far afield. More

important for us is the fact that they found the

symptoms of the men, "particularly in the older

age-group, assumed such a uniform pattern as

almost to be recognized as a 'miner's syndrome.' "

And they correctly concluded that the reason for

identical symptoms must lie in the "cultural, geographical, and social background as well as the

Until 1910, Wiesel and Arny found, the Harlan

problems inherent in coal mining itself."

To go into the case-histories cited by Wiesel

tional crises.

the unions to the democratic control of the ranks - not by appealing to the Murrays and Mc Donalds or any other of the same stripe.'

"As I understand it, you are not saying that we should not appeal to the top CIO leaders to end Second Negro Donovanism; what you are saying is that such Donovanism; what you are saying is that such appeals, by themselves, are not enough. That is absolutely true. But we should be careful not to underestimate the importance of appealing to Philip Murray and demanding that he put a stop to the Jim Crow behavior of his lieutenants.

"Murray has made many attacks on Jim Crow and discrimination in the CIO. At the national CIO convention last November he made a long speech urging the delegates to go back to their unions and put into practice the anti-discriminatory programs and speeches they were making. Wouldn't it be a good thing for him to be put on the spot by demands from members of his own union, asking him too to practice what he preaches? Wouldn't it be a bad thing if no appeals and pressure were applied to him-wouldn't that make it easier for him to continue dodging the problem --- wouldn't that be playing right into the hands of the Donovans?

"Naturally, we 'cannot depend on bureaucrats to clean out bureaucrats.' In addition to appealing to Murray to enforce the avowed policies of the CIO, we must, as you say, organize and unite the rank and file for positive action of their own to show their opposition to Jim Crow in all forms. But these two steps, according to my view, are not contradictory but complementary. We can and should do both. Putting pressure on Murray, and then letting everybody see how he reacts to justified demands, is one of the best ways to arouse the rank and file and show them the need for independent activity along the lines you suggest.

"From your column I am sure that this is your viewpoint too. Best wishes to you and The Militant in working out a program of action that will help the Negro people win their rightful place in the labor movement."

INTENT OF LAW

U.S. Rushing Toward War Says Dunne

MINNEAPOLIS, Feb: 29 - An attentive audience of workers and students heard V. R. Dunne speak on the topic, "Armaments, Taxes and Truman" at Socialist Workers Party headquarters tonight. American capitalism, with its insatiable appetite for markets

headlong toward a "devastating explosion of imperialism," said Dunne. The speaker drew a balance sheet of the armaments budget, the national debt and the Truman tax program to illustrate the capitalism. "Truman has spent more money for armaments," said Dunne, "than all the presi-

dents before him put together,

laws became the center of the social structure rather than the family. The law was the company deputy. . . Resistance to giving up individualistic freedom was strong but any objective lack of cooperation was dealt with by the laws of the coal camp. Threat of discharge and eviction was enough to quiet any individualist. Self-sufficiency and independence were gone. There was no other employment and he (the miner) knew nothing else.'

It looked as though the coal barons had forced frontiersmen into submission. By 1920-21-22, "Harlan County was able to increase its coal production because of the low wages paid as it had non-union labor and wages were reduced to bring crimination was not doing the job prices of coal down below that of competition." But the miners were seething. "The antagonism they felt toward the restrictions imposed on them by the new industrial society was buried within them because the attractions of this economy outweighed its limitations. Occasional animosities

erupted in drinking and shooting sprees." The company towns were called paternalistic because they supplied churches, housing, stores ... all provided by the operators in order to in-

crease the workers' dependence. But they had nothing in common with the old patriarchal sysbasis of solidarity. They found it. "During the 1930's the conflict between the operators and un-ions overshadowed all else and earned for the county the stigma of 'Bloody Harlan' because of the violence that erupted..." union attitude. The violence that erupted...."
