Aged Parents Also Hit; Purge Victim Resists New Attack by Govt.

By George Breitman

NEWARK, N. J., Dec. 30 — The witch hunters won't let James Kutcher alone. The legless veteran, who has been fighting valiantly against the federal "loyalty" purge

for the last 52 months, had a new D battle on his hands today. He is threatened with eviction from his home by a new law which local authorities are beginning to enforce throughout the country. Kutcher responded to the latest attack on his rights in the same way that he did in 1948 when he was fired from the Veterans Administration here because of his political beliefs and affiliations with a militant declaration of resistance to the witch hunters, and an announcement that he will defend his rights in the courts. The American Civil Liberties Union will represent him.

The new Kutcher case is one of the most bizarre developments in the witch hunt, and one of the most graphic examples of its brutality and ever-widening scope. For this time the victims are not only the legless veteran but his old and infirm parents as well. Here is truly a case of guilt by association — with a vengeance!

HEARTBREAKING DILEMMA

The Kutcher family lives at the Seth Boyden project in Newark, a part of the federal housing program. A week ago James' father. Hyman, an ex-fur worker, received a letter from the Newark

violation of our Constitution has in the past led many liberals to await complacently the adverse decisions of the Supreme Court and other judicial bodies. Pending such decisions men have been forced many into craven silence. And legal decisions have been

rendered which prove that those behind the judicial bench are not divinities but mortals, subject to Unionists comments: ". . . the all the prejudices of men behind real danger of the Trucks Law is the work bench. In short, the that it is so vague, so all en-

Is Time Ripe for Labor Party?

AFL President George Meany recently expressed his views on forming a Labor Party. According to the Dec. 23 Labor's Daily, published by the International Typographical Union, "Answering a question about AFL support for formation of a Labor Party. Meany said that the AFL has traditionally opposed such a party on grounds that the time wasn't right for it; if it ever becomes necessary to form one, the Federation will."

The argument that "the time isn't ripe" or "now is not the time" was used by the AFL leaders back in 1935 in beating down a resolution proposing then to set up a Labor Party. It has been the stock answer given by the union leaders whenever the question has been raised. But they never tell us when they think the time will be ripe or under what conditions they will favor the immediate formation of a Labor Party.

Seventeen years ago the labor leaders argued with some semblance of plausibility that organized labor was then "too weak" and too lacking in support from the working class generally to build an effective party of its own. That is not a convincing argument today. The unions, with about 16 million members, are more than four times as strong numerically as in 1935 and immeasurably more influential among both their members and the working class at large.

Meany himself boasted that Gov. Stevenson, the presidential candidate endorsed by the union leaders, "got from the membership of organized labor every bit of the support that President Truman got in 1948 and a little more added to that." The workers, who supplied the overwhelming bulk of the 27,311,000 votes for Stevenson,

Under cover of "safeguarding our democratic way of life" and "the struggle against totalitarianism," the witch hunters have turned their attention to federal housing projects. At the last session of Congress, the enemies of civil liberties jammed through another sweeping law, this time barring "subversives" from all federallyaided housing projects. "Loyalty-oath" certificates must be filled out by the principal tenant in each apartment that neither he

would give their heartiest backing to a Labor Party and its candidates if called upon to do so by the unions.

During 20 years of the Democratic-labor coalition it was argued a Labor Party could not be formed because it was necessary to back the Democratic "lesser evil" to avoid the Republican "greater evil." This policy led to growing reaction under the Democratic rule and failed in the end to prevent the victory of Republican reaction. Doesn't this show it is time for labor to set up its own party? No, says and the miners have gone without Meany. "I do not expect a crack-down on labor from the Eisenhower administration." In short, Meany finds a Labor Party isn't "necessary" now because he has discovered that the man whom the union leaders called a tool of Wall Street yesterday is actually a "friend of labor."

When Meany says "the time isn't ripe" for a Labor Party he really means "the are the two giant pillars of Sohyo time will never be ripe." For, the top labor of Japan, about 3,000,000 membureaucrats, at peace with the capitalist bers). class and its political agents, can never see the time when they can't adapt themselves to whichever of the two major capitalist parties is in power. They'll always be able to get along — they think.

But you'll rarely hear a union official oppose a Labor Party "in principle," and Meany himself says he will support one "if necessary." That's significant. It indicates his awareness that down deep inside the ranks of the unions lies the hope that one compelled to reduce train service. day labor will have its own party. The workers are indeed ripe to do the historic job of building such a party. They need bers) is also demanding wage inbut a nod from the leaders, who do not creases. Kankoro is denied the dare to oppose the idea of a Labor Party, right to strike, but beginning but only stall it off with the ever-flimsier excuse that "the time is not ripe."

Beside Your Rent

Even refusal or failure to fill out and return these "loyalty-oath" certificates within a specified time makes entire families liable to eviction. False denial of membership carries with it the penalty of imprisonment for five years, a fine of \$10,-000. or both.

Affected in New York City are 11 housing projects with a total of 14,166 apartilies now living in eight federal projects; struggle.

TOKYO. Japan, Dec. 17 - The Central Committee of the Japanese Coal Miners Union today bowed to government imposition of Japan's version of the Taft-Hartley Act and called off the heroic 61-day strike. The government plan called for a wage boost of 7% and an allowance of 5,000

yen (about \$14). This meager concession in no way compensates for the terrible sufferings of the miners and their families in the long, bitter struggle. In Hokkaido, for example, where 110,000 miners were out, there is about three feet of snow food and fuel.

The mine strike is only part of the autumn-winter upsurge of labor. Action began last September when Tanro (Japanese Federation of Coal Miners' Unions, 270,000 members) and Densan (All-Japan Electric Industry Workers Union, 116,000 members) spearheaded the struggle. These

The American

The Left-Hook of Jake McKenny

The plot began on hot July 23, 1951.

Jake McKenny, a quiet, modest, young carpenter was working away (in the mechanical shop of Wilson & Company, meatpackers, in Chicago).

"How you doin' today, Sunshine?" said a voice he'd never heard before and a hand he'd never shook slapped him familiarly on the back.

McKenny turned and saw the white-management-man, Henry Baxter, standing over him.

"What do you mean by that 'Sunshine' remark?" McKenny straightened up.

"Why - you look like a sho-nuff happy-go-lucky boy with a bright smile on your face," Baxter chortled.

It was his last chortle of the year.

He suddenly found himself sprawled all over the floor, ent there by a left-hook from McKenny.

When Baxter was able to pick himself up he rushed to the General Foreman who rushed to fire McKenny on the spot.

What in the world had come over workman McKenny, who had always shown remarkable ability in restraining himself from hitting foremen in the mouth?

After all, didn't the fact that he had been referred to as "Sunshine" and "Boy" prove that the man only wanted to be friendly?

The company set it all down to the unpredictable nature of packinghouse workers - especially Negroes - and went merrily on their money-making way, minus McKenny.

But to the executive officers of Wilson's Local 25 in District One (of the CIO United Packinghouse Workers of America), Jack Souther, Joseph Zabritski, Wilhelmina Pearson, Leroy Simpson and Artter Harris, there was no mystery about it and before McKenny had gotten out of the plant they had filed a grievance and demanded his reinstatement.

For McKenny had rightfully resented being slandered by the cheap race slurs of "Sunshine" and "Boy."

Through his nerves had flashed the terrible synapse of race oppresson: the paralyzing paradox of being nicknamed "inferior" in the land of the "free"... the menial jobs he had held despite his worth and skill. . . the daily diet of slum-life... the wretched sight of the Bill of Rights lynched weekly with witch hunts. . . the ruthless profiteering from white supremacy. . . hypocrites in high places who promise peace and equality but deliver war and discrimination... and interwoven the snide denial of a man's simple right to dignified identity ---- to "Jake McKenny." Such is the stuff some left-hooks are made of.

For McKenny's anger was the anger of Jewish, Polish, Italian, Irish, Mexican, Chinese and other workers who resent the cowardly slurs of 'Kike,' 'Sheeney,' 'Polack,' 'Hunkie,' 'Dago,' 'Wop,' 'Greaser,' 'Gook' and other mudballs hurled at great peoples by little bigots. Aimed at making prejudice 'funny' and 'popular.' Aimed at undermining the respect owed one human to another.

What are race slurs? Bigot-made blades handed to common people to use against each other and so sharp

nor any other occupant of the premises is a "subversive."

If any occupant of an apartment belongs to any of the 200-odd organizations on the U.S. Attorney General's black list, the entire family is evicted. The list of organizations is completely arbitrary. They are named by the Attorney General. None are given a hearing. New organizations can be added at his whim.

Persecution of entire families whenever a single member is involved is the hallmark of totalitarian regimes. The witchhunters are now introducing this practice to supplement their previous thought-control legislation and to extend their doctrine of "guilt by association."

cal figures indicate how many will be affected in cities from coast to coast.

All applicants for tenancy will henceoaths" for admission to housing projects.

The "loyalty oath" started ostensibly to make secure "only" the sensitive federal agencies and "only" the government employees. Then it spread to the "sensitive" defense industries and was made by the imperilling the elementary right to make a livelihood, the witch hunters are invading the privacy of individual homes. Today it involves federal projects. Tomorrow it can be extended still further.

The Case of Rene Girondel

Enforcement of the reactionary McCarran Act has already created what the press calls "international tension." Seamen on foreign ships whose thoughts do not fit the pattern laid down by the law have been barred from shore leave in American ports. This has led to protests from the seamen and from the French, British and Dutch governments. These countries are incensed over the treatment handed their nationals in violation of the traditional hospitality accorded seafaring workers away from home.

Perhaps Britain, France and The Netherlands have not fully grasped the danger to American institutions which the Mc-Carran-McCarthy vigilantes see. Here is a case that might make it clearer to them:

Rene Girondel, 51-year-old head pastry chef of the French liner Liberte, was questioned by immigration authorities. They found that his brain might not be free of moral turpitude. It seems that when the Nazis took Paris, they put him to work in a bakery. There he stole some bread to help feed his hungry wife and child. He was sent to a Nazi concentration camp and his body is still scarred from the beatings.

The danger of permitting such a character shore leave was obvious to immigration authorities. They kept him aboard for five and a half hours while they consulted Washington on whether his offense of stealing bread from the Nazis "constituted a criminal record" in the meaning of the McCarran Law. His case went to the highest levels. Finally the District Immigration Director decided to let him down the ance of two main factions in the gang plank for a whiff of the free air of America.

Girondel took no mink coats or deep stockholders, some of whom are American. The other faction opfreeze refrigerators. He did not take \$10,poses indemnification. This group-000 for an article from a corporation in a shady deal, as Sen. McCarthy did, or over- present in the minority but it look bills owed hotels tied in with Nevada undoubtedly reflects prevailing gambling interests, as Sen. McCarran did. sentiment among the masses of He did not take or give bribes on the gangster-ridden New York waterfront and was feel that the mining monopolists long ago took more than enough never involved with racketeers, corrupt to indemnify whatever investpoliticians or big-time tax violators. He ments they made. As a consedidn't commit the approved 100% Amer- quence of their conscienceless ican-type crime. His was a "foreign" crime - he was a poor victim of the Nazis and the country is so poverty-strickstole bread from them to keep his wife and child alive.

A person who would do that obviously does not fit into the American way of thinking as approved by McCarran and McCarthy. Such a record as Girondel's majority leaders of the COB have served them so abjectly." could not fail to arouse the suspicions of made concessions in principle on the authorities. His case should be called this question. The differences aphad to safeguard our soil with the McCarran law.

«Suffer Little Children"

By Art Preis

In a colorful story on how the U.S. Army, planned to celebrate Christmas in Korea, N.Y. Times correspondent Robert Alden included one little touch to show how sweet and good and kind the American invaders are to the Korean people - kiddies especially.

"There is no question that Korean children will have a good time Christmas Day. Almost every fighting soldier has contributed something so toys and clothing could be distributed on Christmas Day. At Eighth Army Headquarters, Santa Claus will arrive Christmas morning by helicopter. Further to the front, tanks will grind along with toy-tossing Santa Clauses perched merrily on turrets. Infantry companies excused from frontline duty will descend to orphanages and towns with trucks filled with good things."

That helicopter bringing Santa Claus may have been the very one in the picture in the American press showing a U.S. helicopter hovering over a gasoline-soaked peasant hut on which a phosphorus bomb had just been dropped. Those tanks a week or a day before may have been tossing "toys" like high-explosive shells or chemical fire from flame throwers at similar "military objectives." What "good things" have come to the children who used to live in these huts?

The orphanage children described in one Korea dispatch by N.Y. Times correspondent George Barrett must have been pleased with the present he tells of: "The inhabitants throughout the village and in the fields were caught and killed and kept the exact postures they had held when the napalm (flaming jellied gasoline) struck - a man about to get on his bicycle, fifty boys and girls playing in an orphanage..." And surely there was a merry, merry Christmas for the thousands of napalmscarred, blinded and maimed children whom eye-witness Geraldine Fitch, in the Feb. 2, 1952 N. Y. World-Telegram, described as the "most pitiful" victims of "the bombs of their protectors, the Americans."

VOLUME XVII

Helicopters bringing Santa Claus — toytossing tanks — trucks filled with goodies for orphanages and towns! Surely these will make the millions of Korean children forget their days of hunger and freezing on the bleak roadsides, their nights of huddling in alley-ways and ditches, their mothers and fathers blown up or burned alive by bombs and napalm, the agonized deaths of their brothers, sisters and playmates. Hundreds of thousands of children were among the more than two million civilians in South Korea alone who perished as the result of U.S. "saturation" bombing and "scorched earth" tactics. Additional hundreds of thousands from the more than 600,000 destroyed or badly-damaged homes in South Korea are wandering * homeless.

In his article about the "good time" in store for Korean children on Christmas, Robert Alden also reported Cardinal Spellman's arrival in Seoul to lend the sanctity of the Church to the occasion. Did he intone an appropriate Biblical message say, those words of the Prince of Peace, "Suffer little children. . . "?

Their "Good Time"

grounds that it might tend to ncriminate me." A witness thus replying to a prosecutor or Conressional investigator is invoking his right under the Fifth Amendment to the Constitution. Does such a refusal to testify mean that the witness is guilty of something or other? Not at all, although a big attempt is under way to "re-interpret" the Constitution to that effect.

The first ten amendments to the Constitution, known as the Bill of Rights, were passed in a body by the First Congress. About one half of them make such guarantees as freedom of speech, religion, and the other half have to do with fair legal procedure such as trial by jury, confrontation of witnesses, due process of law and "no person ... shall be compelled . . . to be a witness against himself."

The reason for the Bill of Rights being so concerned with guarantees of fair legal procedure stemmed from the experience of the people. They knew how tyranny could use the courts. The Stuart kings in 17th Century England used the courts for questioning. If he answers one he they would be called Gestapo-like court.

The

Things Will Roll By Thomas Raymond

Dwight D. Eisenhower, General of the Army and President-elect, is showing us that he is not only a man of high office but a man of parts as well. On Dec. 22 he spoke before the Freedoms Foundation, philosophizing on world conflicts and world perspectives in a truly remarkable way.

He began by establishing in no uncertain terms that "the great struggle of our times is one of spirit. It is a struggle for the hearts and souls of men - not merely for property, or even merely for power." Overlooking the fact that Wall Street's government struggles "for the hearts and souls of men" merely in order to get them to fight for Wall Street's property and Wall Street's power, Eisenhower then went on to a thumbnail sketch of his "good" friendship with Marshal Zhukov of the Soviet Red Army.

He had talked with Zhukov, he relates, "about the bases of our respective forms of government, our civilizations." He ran into a snag which he describes as follows: "I must say that in just a matter of immediate dialectic contest, let's say, I didn't know what to say to him. . . since at the age of 14 he had been taken over by the Bolshevik religion and had believed in it since that time, I was quite certain it was hopeless on my part to talk to him about the fact that our form of government is founded in religion."

of Government has no sense unless it is founded in a deeply felt religious faith, and I don't care what it is." Eisenhower doesn't "care what it is" so long as it is his own: "With us of course it is the Judo-Christian concept, but it must be a religion that all men are created equal."

The religion of capitalism may be that "all men are created equal" as Eisenhower these lists are unconstitutional said '(although I don't know which book has not yet been upheld by the of the Bible he got that out of), but the courts. But the Supreme Court other half of the religion is that they cer- General for acting in a "patently tainly shouldn't remain equal while they arbitrary" manner when he issued are in residence upon this globe.
