NEWARK, March 23 - Superior Court Judge Walter J. Freund last Thursday issued a restraining order preventing the Newark Housing Authority from evicting tenants who failed to sign "loyalty" oaths required by the federal Gwinn amendment, pending a ruling by the judge on the constitutionality of that witchhunt law.

The restraining order was sought by the American Civil Liberties Union on behalf of James Kutcher, legless veteran; his father, Hyman; and Harry L. Lawrence, a teacher. It also applies to the other tenants in federal housing projects here who ponents. War Moves **Made Amid Peace Talk** 

**PRICE: 10 CENTS** 

By Art Preis Eisenhower has buried his campaign promises on ending the Korean war deeper than the gold at Fort Knox. To questions on his Korea plans he returns a frigid silence. But that dosn't mean the Administration is just marking time. There is ominous evidence that plans are being considered for extending the war in the Far East and opening an offensive in Korea that might cost more scores of thousands of American casualties.

The Wall Street Journal of March 23 reports that the Eisenhower Administration "is holding a new series of secret meetings to decide quickly whether or not to make a major drive in Korea late this summer or fall." The big objection to the drive, says the lournal, is "the enormous cost in U.S. casualties." The offensive, even if successful, would not be designed to end the war or make possible the withdrawal of U.S. roops from Korea, but to "show the Reds and Asia our power." That Eisenhower hasn't the lightest plans or prospects for ending the Korean war is further confirmed by Gen. Mark Clark, U.S. Commander in the Far East, who on March 20 said flatly there are "no indications" - "none whatsoever" - of an early end to the fighting in Korea. INDO-CHINA WAR Instead, Gen. Clark's visit to Indo-China last week raised the grave threat of more active U.S. participation in the Indo-China war. Clark said that his forces 'n Korea and the French in Indo-China are fighting "one war." His mission to Indo-China is of the 'highest importance," reported the N. Y. World-Telegram, be-"Washington rates the cause French war strategically equal to Korea . . . the potential U.S. commitment there is as great as the actual one in Korea. . . ## The Creeping Witch-Hunt Disease

When the Ober "anti-subversives" law was passed in Maryland several years ago, The Militant warned that it would set a pattern for state laws against civil liberties throughout the country. We said that if the organized labor and liberal forces in this country did not make the most vigorous united fight against this law it would be followed in other states by similar and even worse measures. Our warning, unfortunately, has proved all too true.

Other state legislatures have been emboldened to pass laws more drastic even than the harsh Maryland police-state and witch-hunt statute. Among them is the notorious Trucks law in Michigan, on which national attention has been focused by the splendid work of the Michigan Citizens Committee against the Trucks Law. This law illustrates the trend of this type of legislation and the increasing virulence of the disease it spreads.

Now the state of Ohio, one of the key industrial areas of the nation, is threatened with a bill which makes the Maryland and Michigan measures, on which it is modeled, seem soft and gentle by comparison. Everybody who has the desire to preserve political freedom, the right of free speech, press and assembly and all other of the cherished rights of the American people should become familiar with the Ohio measure.

The mere fact that such a bill could even be introduced into a state legislature, let alone have serious prospects of adoption; is a sign of how far this country has traveled down the road to police-statism.

This bill explicitly makes mere membership in any so-called "subversive" organization a felony subject to \$5,000 fine and five years in jail. According to the wording of the bill, "No person shall become or remain a member of a subversive organization.

Take note that this is not a bill against "Communism," as most laws of this type passed by other states represent themselves to be. The words "communist" or "communism" don't appear in the Ohio bill. It speaks only of "subversives" and "subversive organizations;" these are defined as groups which not only advocate, abet, advise or teach activities "intended" to "overthrow, destroy or alter" the "constitutional form" of the existing government, but which merely have the "purpose" to do so.

What a field-day it would be for the

inquisitors to charge "force and violence' to get a conviction.

Like all such measures, this one is purposely vague as to what acts allegedly constitute a "purpose" to "advocate, abet, advise or teach" the "overthrow" or "alteration" of the government. The policestaters can read into this any meaning

they choose. The law empowers them to define its terms as they go along.

The section on joining or remaining in a "subversive" organization or "group," apart from its use as a punitive device, is calculated to intimidate members of any organizations which the witch-hunters label "subversive" and frighten them to quit. It is based on the pernicious, anti-democratic and unconstitutional concept of guilt by association.

But the bill provides for victimization of individuals who may not even be accused of belonging to an alleged "subversive" organization. It says that "no person" shall "advocate, advise or teach by any means any person" to commit or "attempt to commit" any act proscribed in the bill where such an act would constitute "a clear and present danger to the security" of the United States or Ohio.

Merely to "contribute to the support" of a so-called "subversive" organization, without being a member, would be grounds for fine and imprisonment. And if convicted of personally doing any "advocating or abetting," you could be penalized by a \$20,-000 fine and 20 years in prison. You could be given this same savage sentence, if this bill is enacted, if you are charged and of the judgments on Stalin. For convicted of destroying "any books, records example, "Leader, friend and as the organic product of Bolor files" or if you "secrete any funds" of a "subversive" organization.

## The Negro Struggle -**DuBois Conforms to a Lie**

#### By George Lavan

It is a saddening performance that W. E.B. DuBois gives in the March 16 National Guardian, organ of what used to be called the Wallaceite Party. Dr. DuBois writes an article on Stalin's place in history and does the very opposite of those things that have made DuBois justly famous in the U.S.

DuBois' fame rests on the fact that as a historian he refused to accept the fabricated, distorted and self-serving versions of Negro history that white supremacists had put into all the textbooks and college history departments of the U.S.

In a number of books culminating in Black Reconstruction he exposed this official version of history and helped to show the true role of the Negro people in America.

In addition DuBois has dared to speak out in criticism of the powers that be in America. Today this is very dangerous and readers of this paper will recall that only recently vigorous protests prevented his being railroaded to prison.

But in his article on Stalin we see Du-Bois standing on his head. Here he uncritically accepts the official government version of history. Trotsky is condemned for his "exhibitionism" and "lying propaganda" while Stalin, who "never yielded to ostentation" and fought for "real socialism," is portrayed as the greatest benefactor of mankind in our century.

**VOLUME XVII** The falsification of history in America, which DuBois did so much to expose, never attained the wholesale re-writing of history, burning of books and newspapers, faking of photographs, etc., that the Stalin regime engaged in. Yet it is this falsified version that DuBois accepts and on which he bases his eulogy of Stalin and Stalinism.

This man, who has risked prison by his criticisms of the powers that be in America, displays no sympathy for the hundreds of thousands of devoted socialists In the USSR who have been persecuted, tortured. put in concentration camps and executed for criticizing the monstrous Stalinist regime.

We have a recommendation for Dr. Du-Bois. Let him begin an examination of the official Soviet history of Stalin's career and policies and of Trotskyism in the same spirit that he began his examination of the official version of Reconstruction in this country. Let him go to the newspapers and writings of the times and other sources.

Then he will soon discover that the "greatness," "wisdom" and "real socialism" of Stalin and the "lying propaganda" of Trotsky are historically the same as the "proven inability" and "terrible excesses of Negroes during Reconstruction" that is, they are lies disseminated officially to serve entrenched, privileged interests.

Notes from the News

#### By Fred Hart

Two weeks ago The Militant printed a review of the biography of Tito by his war-time secretary, the Yugoslav journalist, Vladimir Dedijer. If anyone is interested in the book I suggest he go back to that review, for, in what is to follow here, he certainly won't find anything remotely related to the contents of that book.

Another "review" of Dedijer's book has appeared. It is printed in the Feb. 27 English edition of the Cominform's newspaper, "For A Lasting Peace, For A People's Democracy." This "review," signed by one John Smith, is in its way a gem of Stalinist literary and political methods.

John Smith devotes well over half his review to the author of the book. He starts off by literally calling him a bastard.

He charges that Dedijer's mother was a lady of easy virtue connected with the royal palace in the old days of the Yugoslav monarchy. Among the services she rendered was that of entertaining distinguished visitors. Thus "one of the guestsa visiting American — happens to be the father of her two sons - Steva and Vlado. To avoid their being an 'eyesore' in the royal household the boys were sent abroad for education at an early age. Thus Vlado Dedijer, an accidental offspring of a visiting foreigner and a lady of the court, found himself in a British school supervised by the Intelligence Service."

senal, John Smith throws in a hint of this to give his article a certain flavor -
