Our May Day Appeal: Bring The GIs Home

Since the first May Day struggle, waged by American labor in 1886, each May 1 working-class holiday has emto the abyss of total war and economic collapse.

We have been driving toward that end at an ever-ac-

We are being deluged with propaganda designed to convince us that we must once more prepare to plunge into a world-wide slaughter to "save democracy." We are harangued in every headline and news broadcast about the "war peril" from "Communism." from the Soviet Union. from China, from everywhere that men have cast out or are seeking to cast out the system of private profit. **Registration**?

Has "Communism" been responsible for the whole past half-century of wars and economic crises? In what way could the Soviet Union, for instance, have been responsible for the First World War or the Second, or for the world-wide depression in most of the years between? We must seek the answer to the evils of our capitalist society in the profit system itself.

Two World Wars for Profits

After the First World War into which he had dragged for the rights of all Americans. this country, President Woodrow Wilson asked in his famous St. Louis speech whether there was a man, woman or even a child who did not know that the war had been a "commercial war." Thereby, Wilson conceded that his war to "make the world safe for democracy" had been a struggle between "commercial" — that is, economic rivals for trade, markets, spheres of financial influence.

Similarly General Eisenhower, the chief commander of the Allied forces in World War II, indicated that the the notorious reactionary and war of "democracy against fascism" had a basic economic witch-hunt leader, Senator Mcimpulsion in the crisis of world capitalism after 1929, Dur- Carran, Democrat of Nevada. ing his election campaign last fall, Eisenhower said in his Peoria, Ill., speech that "whatever economic gains have mmediate actions, since the been made since 1932 have been due ... to war or the threat of war."

He said further: "1929 was the last year in which the opinion of some legal obwe enjoyed prosperity in a time of peace. . . The New Deal servers. But in the meantime the never actually solved the unemployment problem. . . World War II did what the New Deal was unable to do." And after World War II, "just as. . . the economy was begin- right of every American to freely ning to weaken, along came Korea. Defense production again propped up the economy."

War serves a "useful" purpose — for capitalists. Since 1914 they have kept their system afloat on the blood of hundreds of millions of war victims. If they did not have a foreign power" and seeks to an "enemy" at hand in the Soviet Union and China, they establish would have to invent some other "enemy." American capi- proletariat" in the U.S. Vito talism needs war for its very life. It cannot survive with- Marcantonio, John Abt and Joseph out it.

labor in 1886, each May 1 working-class holiday has emphasized anew that the salvation of humanity depends on the organized workers. The masters of modern society — the lords of finance and industry, their political hirelings and brass-plated generals and admirals — can lead us only and brass-plated generals and admirals — can lead us only and brass-plated generals and admirals — can lead us only and brass-plated generals and admirals — can lead us only and brass-plated generals and admirals — can lead us only and brass-plated generals and admirals — can lead us only and brass-plated generals and admirals — can lead us only and brass-plated generals and admirals — can lead us only and brass-plated generals and admirals — can lead us only and brass-plated generals and admirals — can lead us only a set of the poly of the pol we nave been driving toward that end at an ever-ac-celerating pace for more than five decades. Since the turn of the century capitalist society has suffered the throes of recurrent economic convulsions and the agonies of two world wars. Even now we are locked in a "minor" war whose victims number in the millions. BBy Demands and the agonies of two world wars. Even now we are locked in a "minor" war

By Art Preis

The Big Business press and **Congressional leaders of both** parties have hailed Eisenhower's recent foreign policy speech as "taking the initiative in the peace offensive." If this means he is driving toward an actual peace of any duration, nothing could be farther from the truth.

Under his bland phrasing and pious reiterations of pacific intent, Eisenhower's speech contained a hard core of provocative demands addressed to the Soviet Union and China, They were clearly designed to place insuperable obstacles in the road of any firm peace.

Take his proposal for "the holding of free elections in a united Korea." What kind of "free election" can be held under the guns and bayonets of an army of American troops whom the Korean people fear? Does Eisenhower propose to withdraw these troops? On the contrary, he has emphasized that even with an armistice they will remain in Korea "quite a while."

South Korea, in which 70% of the Koreans live, is run by a brutal military-police dictatorship headed by Syngman Rhee. Only last fall Rhee, using his police and troops as campaigners, won a "free election" by methods that brought expressions of shock even from the cynical capitalist

Socialism -- Only Hope for Peace

On the day World War II ended, we blazoned in our CP, in a statement issued the headlines: "THERE IS NO PEACE!" That was no inspired guess. We knew for a certainty that world capitalism had settled none of its problems by the six-year slaughter ruling of the board, and that it of World War II. That war, we knew full well, had intensified all the inherent contradictions of the world privateprofits system. War, particularly against the Soviet Union, been critical of the McCarran Act, was the only means left to capitalism to prolong its exist- published an April 22 editorial ence.

We proclaim now, as we did then, that there can be no real peace under capitalism. That this system - the curity Act, which, as we have (Ignatiev Ryumin, "and other" breeder of depressions, fascism and war - must be replaced said before, endangers the ex- officials of the former Ministay by socialism, the classless society of planned, cooperative istence of other unpopular causes of State Security) but top figures store. On April 17, the new Soviet production and distribution, democratically operated and or nothing to do with com- General Secretary Mgeladze /and pledged to "mercilessly eradicate" controlled by the working people without private profit.

The hope for peace lies not in the discussions at Panmunjom, in secret negotiations behind locked doors of the chancellories of the world's rulers, in the "peace" maneuvers of the pin-striped diplomats and statesmen. Peace can be assured only through the independent mass struggle of the organized workers and their allies.

A first great step toward peace can be taken when the American people, led by the labor movement, wage an irresistible drive to compel Eisenhower to withdraw ican armies are entrenched on Korean soil within striking nouncing choices for the Pulitzer work of the non-Communist world forbidding him to write another ap" for war production, huge distance of Manchuria and Siberia, Korea will remain a powder keg liable at any moment to explode into atomic man, chief European economic world war.

HOPES TO PREVENT IT By Harry Frankel

Writing about "the Pentagon and politico-military observers in Washington," Hanson Baldwin of the N.Y. Times said on April 5: "This time there was genuine fear and entirely true. There are of what a truce in Korea, under these conditions and at a processes in motion and changes It is a consequence of the class for its Southern section, but its that perhaps it was "anti-governmoment of Communist choosing, might mean, in the longterm view, to the world struggle. As viewed from here, the Communists have timed their offer with considerable astuteness, and the timing is conculated to do the most damage to the United States and the least to the Soviet Union."

This is one quotation on how Washington views a truce in Korea. One could fill a book with hundreds of others, culled from the papers and magazines of the last few weeks, all expressing the Wall Street and Washington view that a truce in Korea would be a defeat for imperialism, and all expressing the greatest puzzlement as to how a truce can be avoided.

Korea has been the keystone in the arch of the war drive, and at the same time the guarantee of U.S. war prosperity and the only factor preventing a collapse of the Japanese capitalist economy. The cost: Estimates run about \$5 billion a year; imperialism would consider it a bargain at twice the price.

The Pentagon has already succeded in delaying a truce for almost two years since the initiation of negotiations by the Soviet bloc. The attempts to stop a cease-fire, now desperately close from the viewpoint of imperialism, are stil continuing. Washington is not in a position to make its obstructionism too obvious. It has already skated on very thin ice by using the absolutely phony "prisoner issue" for the better part of a year. Now that the Chinese-Korean negotiators have removed that issue, the task of blowing up renewed truce talks is very difficult, and U.S. imperial ism may find itself unable to accomplish this, in which case a truce will be arrived at and Washington will have to search for other means to maintain and step up the war drive. But the administration has made some careful moves in the past few weeks to try to break up the truce prospects in Korea.

The U.S. press has changed from the tone of sullen truculence with which it greeted the first truce proposals to outright and angry hostility. This turn, sparked by politicians' statements such as those made by Senators Humphrey, Taft and Wiley, is a change from the early reaction which was one of saying "Let's wait and see whether all this is fake or genuine" and to the more recent tone which says: "We now know it is all fake." They don't explain how they know. The New York Times, bellwether of the capitalist press, has gone so far as to publish an And there are a few especially tion is known and talked about April 12 editorial calling the Chinese concessions on prisoners "not acceptable."

More important was the planting of a story by Sec. of State Dulles at a special press "briefing session" called for the purpose. This story, sprung on April 8 as the talks over sick-and-wounded-prisoner exchange were starting, set forth a series of U.S. demands which Washington chieved. presumably "intends" to make "if a cease-fire is reached in unacceptable. Washington, of course, knows this well, since the U.S. Army has been unable to take this ground by force, or to take any part of it by negotiations, as they tried when AT AN ARMY PX the cease-fire talks started.

In fact, this "demand" is released now not because the administration intends to make it "later"; that interpretation is nothing but a bad joke. It has been thrown in now because of a hoped-for effect on the present negotiations

The N. Y. Times of Sunday, April 12, said: "The adin Louisiana. ministration repudiated the newspaper stories, but there was no doubt in Washington that it had been 'thinking' and 'considering' as reported. The unanswered question was why it had chosen to talk at all when delicate negotiations at a Negro college. Later they white nations as India, Indonessia be heads; he appears to think that were in progress in Korea."

been used dozens of times since the start of the Korean negotiations, there is no mystery about the answer to this question. It is precisely because "delicate negotiations" EISENHOWER DEMANDS are in progress, and because Washington would like to make them so "delicate" that they will collapse, that the BLOCK ROAD TO PEACE story was planted.

Foreign diplomats, reflecting the European and Asian concern over Washington's action, according to the Times of April 12 "feared that any U.S. proposal for giving South war base. Korea a large slice of North Korea might jeopardize both the truce and a political settlement."

Muddleheaded liberals attribute this move to "clumsiness" or "stupidity." That would be true if Washington's object were to avoid "jeopardizing" a truce in Korea. He doesn't propose that the U.S. Actually, it was a last-minute provocation which has not met with any success.

If a truce is finally arrived at in Korea, it will be because U.S. imperialism has been dragged against its will every step of the way right up to the very signing table. China. Vol. XVII - No. 17

Labor's Political Policy

For three days running, April 14-16, America's only daily labor newspaper, Labor's Daily, discussed the most important problem facing organized labor today — the need for an independent Labor Party. This was done in the newspaper's regular column "Labor Today." It is well worth reviewing and commenting on the points raised by the writer of that column.

He points out that under the present system official labor backing is given to candidates chosen by the machine politicians of the old parties. "The result of this machine-picking is that in the general elections labor has a decidedly limited crop of political apples from which to choose. Frequently - almost always, in fact — Labor has a Hobson's choice between two wormy pieces of fruit." "Something is basically wrong" with such labor endorsements of Republican and Democratic candidates and "This situation should be remedied."

What is the remedy? "This we feel will be the path which Labor will eventually take, and this is the path to an independent Labor Party."

If the cold war is intensified the "logical step" of the union movement - building a Labor Party - will, in the opinion of the Labor's Daily writer, be retarded. On the other hand, "A move toward peace, with a certain relaxing of international tensions and a concomitant relaxation of government control over individual freedom, can cause the movement for a Labor Party to bloom like a hothouse plant."

Noting that the idea of a Labor Party is nothing new in this country, the writer undertakes to explain why Labor has not already built its own party. His analysis is that the New Deal saved the capitalist system and that Roosevelt's "reforms, coupled with outer factors which led to World War II, bettered the lot of the workingman in the United States." Consequently, the workingman "voted for Roosevelt and the revitalized Democratic Party every chance he got." But the "magic" of the Democratic Party has worn off now, and it "is not the vote-catcher it used to be.'

With Eisenhower's victory "the real giants of finance are in the political saddle, controlled only by their own desires and what is economically and politically feasible."

After discussing the political blind alley that organized labor now finds itself in and pointing out that the only way labor can extricate itself is by building a Labor Party, the writer observes: "The mere mention of a Labor Party will be enough to give many people the gallivanting tizzies."

The justification for presenting his views on workers and peasants who betraythe need of a Labor Party is that "until our ed revolutions all over the world, country is captured from the political bosses, as the man "who, at Lenin's from the 'malefactors of great wealth' . . . Russian Revolution and steered it until, somehow, we the people do in fact . . . nule these United States, then this writer is not and storms of industrialization free, and neither are you and you and you. And and collectivization and World freedom, if you will pardon the seeming contradiction, is something worth going to jail his two "independent" apologists, for.'

The above-quoted articles on the Labor Party question can only be hailed. Surely they will provide food for thought for countless all enemies," Hitler would have union members throughout the country.

Many unionists will agree right off the bat with the idea of building a Labor Party. A number of these have for, sometime been States would be faced in all agitating for labor's own party. Many others earnest with the threat will think the idea good but not immediately practicable. But very few workers are so wedded to the Big Business parties that they will have even mild "tizzies" at the idea. Only the labor tarian and colonial revolutions for leaders, who are deeply involved in political deals with the Democratic or Republican machines, will get the "gallivanting tizzies" at the proposal of a Labor Party. But since these deals are less and less nourishing with Eisenhower and his General Staff of General Motors in the saddle, even the labor bureaucracy will prove to be less certain and less powerful than hitherto in opposing sentiment

for a Labor Party.

they fail to realize is that (1) strong sentiment in the union ranks can make the leaders "ready" for it a lot sooner that they would ever be otherwise and (2) that once the rank and file see the light they will soon replace those official leaders who are incurably blind to the political needs of Labor.

A Party That Is True to May Day

May Day began in the historic militant struggle of the American workers for the eight-hour day. The world socialist movement a few years later established May 1 as an international working-class holiday - a day when the laboring classes of all countries proclaimed their enmity to capitalist exploitation and rallied under Karl Marx's slogan of solidarity: "Workers of the world, unite. You have nothing to lose but your chains.'

WOLF SALUS, one of the leaders of the Trotskyist movement of Czechoslovakia and a distinguished Marxist writer, died in Germany March 4. Salus met joined him in Prinkipo, Turkey, years later. He partici in the armed struggle of the workers of Vienna in February 1934; was arrested by the Nazis in 1939. In 1945 he took part in the liberation of Prague and was awarded the Czech Medal of Resistance for his heroic role. After the seizure of full power in Czechoslovakia in February ire of Israeli chauvinists when 1948, he had to flee to Bavaria.

May Day was thus born in the spirit of irreconcilable hostility to capitalism and of universal brotherhood of the working people in struggle for the better world of socialism. It was for this that the pioneers of May Day, the Chicago Haymarket martyrs, went bravely to the gallows.

Capitalist reaction has never ceased its attempts to destroy May Day, directly by physical violence and police terrorism and indirectly by defiling and twisting its spirit and tradition to serve the exploiters' own ends. Thus, in recent years we have witnessed the organization of "loyalty" parades by the antilabor jingoes and witch-burners who have tried to turn May Day into an orgy of war hysteria and red-baiting.

Within the working-class movement itself, there have been leaders and tendencies which have tried with every means at their command to betray the spirit of May Day, to pervert its meaning and bury its true program. The official top union leadership long ago turned their backs on the struggle for which the Haymarket martyrs died and have even tried

The McCarthy-McCarran crew are much exercised about the Fifth Amendment to the Constitution. Witnesses placed by the witch hunters under the oven-like TV lights for grilling have been invoking it to protect their rights, since under its provisions no one can be forced to give any evidence which might tend to incriminate him.

So the witch hunters have come up with a novel proposal to close this way of getting off the torture rack.

They want Congress to pass a measure that would force anyone standing on his Fifth

The Negro Struggle -**«Ostrich"** Politics

By Jean Blake

We see by the papers that the facts of political life today are forcing even the wishful thinkers in the official leadership of the Negro struggle to recognize that we are in a reactionary period.

When they hear that 64 organizations have joined a California group's petition asking the U.S. Supreme Court to uphold the right to sue for violation of racial restrictions in housing ---in effect, to reverse a decision of 1948 - our Polyannas must realize that race-haters are emboldened by the anti-liberal'atmosphere in the country today and are taking the offensive.

And even a staunch Republican like Ohio's leading Negro editor, W. O. Walker, has become perturbed by the fact that the Eisenhower administration is clearly making no concessions to colored people. As Walker noted in his personal column last week:

"The failure of the Eisenhower Administration to clear just one Negro for appointment to a federal job of some importance is the chief topic of conversation in political circles wherever the interests of Negroes are discussed. . .

"Up to now the President has awarded a number of very desirable plums to southerners. None of these are noted for their liberality in the field of race relations."

"There is a growing silence in Washington,' Walker says. "Unless something is done pretty soon the explosion of this silence is going to have reverberations from one end of 'the land to the other."

These sound like strong words . . . but they have a very hollow ring. What do they mean **Generals** Give How will the "silence" explode? Will the Negro leaders denounce the Eisenhower regime, and the Democratic Party as well, for using the Army Lyric burning issue of Jim Crow in America as a political football? Will they call for an end to support of both parties and embark on a new political course of independence? Of launching A Trial Run a movement of Negroes with labor, the other For some time the Pentagon organized group discriminated against by the has been concerned about the rule of the capitalist class, to make some basic disinclination of the troops in changes in our society?

Nothing of the sort is proposed or even implied by the present Negro leaders. Their basic loyalty to capitalism bars any course other than the ostrich-type politics they have been practising. They can only stick their heads in the sand and refuse to see that the era of reforms is over. When the tank of reaction bumps them in their exposed rear, all they can do is cry out and run to another hole in the sand.

It will take a new leadership, one that has its head up, that is using it, and that is determined to wipe out Jim Crow lock, stock and barrel, to adopt bold, new perspectives demanded by the times. Only a fundamental break from the bonds of capitalism can provide the basis for leading the day-to-day struggles against discrimination in such a way as to recover lost ground and win new substantial gains.

vould be better to declare the Communist party "illegal" rather than use "complex circumlocution" through the McCarran Act. But the fact that even the Times recognizes that this law can and

will be used against "other unpopular causes or parties" if it is sustained in this case, shows how serious the threat to political freedom has become through the application of the McCarran law. Thus it becomes important for every American who wants to keep his rights intact, every worker and unionist who is interested in the future of his organizations, to fight this new witch-hunt measure and stop it in its tracks before it goes any further.

Troops of Chiang Kai-shek operating from Burmese soil in forays against China were called apon by 58 members of the United Nations to lay down their arms and leave the country or enter internment camps. Burma of. ficials had accused the U.S. of supplying arms to the invaders.

> NEW YORK May Day Celebration Main Address:

Robber Barons Ride Again

By Joseph Hansen

The early capitalists in America have become known in history as the "robber barons." The label is an accurate one. In robber fashion they piled up enormous fortunes by plundering the vast resources of the virgin American continent. As an aristocracy, whose coat of arms was the dollar sign, they made their robbery legal through control of government power.

Although they skimmed off the top cream, they did not get all the golden fat in the public domain. Pressure from an aroused populace forced through certain conservation measures that saved something for future generations. But now the robber barons are riding again. Eisenhower's victory was the signal to strap on the guns and organize a new series of hold-ups.

The biggest operation at the moment is the gigantic oil steal. Legislation now pending in Congress will turn over title of the federally owned tidelands to the states. This means in effect turning over property belonging to all the people to the private interests represented mainly by the powerful oil lobby.

It involves tremendous untapped pools of oil and gas fields in the tidelands extending from three to ten miles seaward from lowwater mark, and also the fabulous resources in the continental shelf extending as far as 150 miles from states boundaries.

and gone. mineral resources of the United States in some 700,000,000 acres of public lands. That leaves the forests in our national parks.

However, the lumber kings are eyeing them hungrily. After all, like the rest of the capitalist class, the more they eat the more starved they feel.

Even this does not complete the picture. Billions upon billions of dollars have been Any place on earth we prove our poured into the development of atomic energy. That's money from the public treasury. The fruits of this investment now open up dazzling Let the shells come flying thru prospects for the future well-being of the people.

The giant trusts, however, take a somewhat different view. They see a new radiant stream of profits if they can only sliuce it into their bank reservoirs. And, of course, the Eisenhower administration feels sympathetic toward this You can bet the army's always kind of initiative and enterprise.

This still does not complete the list of safecracking jobs. In case it might have been joyful lyric about shells and over the witch hunt against the overlooked, former Pres. Herbert Hoover called bombs and the far-flung corners attention to the public-power field. He proposes of the earth have proved somethat the government stop producing cheap elec- ally-minded Pentagon Brass. tric power and turn over the facilities to private interests. However, first reactions to this what disappointing to the music Rep. Wint Smith (R. Kan.) for

CHORUS

But we'll fight, fight, fight. . (We may gripe and yell . . . but

The most conservative estimates put the value of these public resources at from 40 to 150 billion dollars. But the real value may run into trillions of dollars, according to expert opinion.

This gigantic steal would seem to be enough to satisfy the most voracious. But it is only the beginning. Other legislation now contemplated would turn over to private interests the owned power plants and power lines.

While these major stick-ups are being plan- plays into the hands of "Compick-pocket and purse-snatching jobs such as giving away government-built synthetic rubber world. plants to those in dire need of them for profiteering purposes.

With these new robber barons shooting up the town it looks like it's high time for labor to take down its political irons and get together a posse.

Notes from the News

COMMUNITY CHURCH in Boston is being given the bounce out of the auditorium it rents from the John Hancock Life Insurance Company. Community Church is a 30-year old non-sectarian congregation that brings to its platform liberal speakers on social and religious subjects. John Hancock Life Insurance Company is terminating the lease on its auditorium next month because Fulton Lewis, "Jr., extreme reactionary" news commentator does not approve of the speakers sponsored by Community Church.

PATRIOTISM. Most of the workers of the Southwestern Co. in Chicago are Esthonian Displaced Persons. When the AFL Chemical Workers tried to organize the plant the boss, who hitherto had posed as a benefactor of refugees from "behind the iron curtain," showed his true boss colors. He tried to prevent the DP workers from voting in an NLRB election on the grounds that since they were from a Russian satellite country (Esthonia) they should be considered enemy aliens under the McCarran Act. He also fired some of the workers, accused them of being "Communists" and the AFL union of being a "Communist" organization. At the NLRB polls police showed up thus further intimidating the workers. The boss had called them saying that "enemy aliens" were voting. The union is asking that the election results, which were unfavorable, be set aside by NLRB.

GUESS WHO GETS IT? Between December 1951 and December 1952 prices received by farmers for all foodstuffs dropped nearly 12 percent. Retail food prices however went down less than 1 percent in the same period.

* * * 20 MILITARY POSTS in the U.S. have Jim Crow schools for children of service men. * * *

PURGING SPORTS HISTORY. The recently printed sports records books list only ten players for the All-American football "elevens" of 1917 and 1918. The name omitted by the sports "historians" is that of Paul Robeson, who in those years was an end for Rutgers and one of the all-time football greats.

in Selbyville, Dalaware. The 350 strikers are all of the local's business agent, threats of violence by white townsmen have been made and 12 local whites deputized and armed. A few years ago a Negro CIO organizer was lynched in this town. The union is demanding recognition, a minimum hourly wage of \$1.00 and a guaranteed 32-hour week.

EISENHOWER'S EFFICIENCY TEAM is trying out a new system at the Chicago Post Office with a view to installing it nationally if it works out. Postal workers must fill out a job ticket ing to work as a harmonious team every time they go to and return from the toilet against today's "outs," who single Kremlin incumbent, the during working hours.

CCIAL MINE EXPLOSION caused death of five central government apparatus. ment alike, of the different namen in Lovilia, Iowa. The dust explosion was attributed to use of black blasting powder. Six months ago a Federal Mine inspector ordered company to stop using the dangerous black powder. Company went to court and got an injunction preventing enforcement of the ban. This company along with other coal operators even persuaded the Iowa Legislature to pass a resolution defending the use of black powder.

* * *

CO-OP SUPERMARKET set up last year in Akron by three big CIO Rubber Workers locals now does a \$50,000 a-week business. Store sells principally foodstuffs, but also carries drugs, toys, clothing, TV sets; operates a restaurant, dry cleaning shop and a credit union.
