"Liberation" in Korea

THE

CHARLES LAND 267

Vol. XVII - No. 31

Typical example of application of Truman-Eisenhower policy of "liberation" in Korea. Dense smoke swirls about a burning Korean peasant's hut as a U.S. soldier covers doorway with ready gun. This was in South Korea, behind U.S. lines. Military authorities ordered the burning of thousand of similar dwellings because they might serve as "cover for guerrillas." With truce now signed, virtually all of Korea lies in smoldering ruins.

By Murry Weiss Last week's purge in East Ger- and the opening of a more ruth- finger on the underground revo- deem it necessary, shall propose

They strive to ers of the East German Democratic Republic recognized palm off the Stalinist purges, part and point of the mechanics this and acted accordingly" is highly misleading. As I get parcel of the struggle of social- of bureaucratic dictatorship, its it, your argument is that the East German workers were ism, inherent in it, indivisible method of administration, its fighting for justifiable demands; the Stalinist regime was from it. They want to use these granting important concessions in response to these demands; and agents of Wall Street intervened in this "in- to discredit in workers' eyes the ternal affair" to turn this workers' struggle into a move- struggle against capitalism. ment to reestablish capitalist control of East Germany.

You cite a number of facts and arguments to support your case. The United States government, you say, allo- power not through the 1917 cated \$100,000,000 to create disturbances in countries of Russian Revolution, but through the Soviet bloc. You ask, "Is it so difficult to believe that a political counter-revolution. Washington employed hundreds of spies and proyocateurs with instructions to take advantage of the disturbances most democratic in history, based in order to overthrow the East German government? And cppressed masses. The masses don't we know what kind of a government they would put created their own organs of in its place?'

The cornerstone of the whole Stalinist frame-up party and the Soviets. Committees against the East German working class is the contention the trade unions in the cities that the general strike of 2,000,000 workers in East Germany was a "fascist uprising." This is the main Stalinist line that you are trying to justify. In doing this you fall into the trap of accepting the technique of Stalinist amalgams. You will remember that during our discussions of the broadest democracy, engaging the Moscow trials, we threshed out this question. The amal- in the most intense ideological gam is a frame-up device which consists in connecting a number of alleged facts, which are unrelated and have no proven connection, into one slanderous construction. party, the trade unions and all

McCarthy uses the technique of amalgams all the other time. If, on the grounds of the Fifth Amendment, you refuse to testify; if you were associated with anyone belong- way, the workers were expropriating to an organization listed on the Attorney General's subversive list, then you are a "Communist." And if the Attorney General lists the organization you belong to as "subversive," then you are un-American and disloyal.

A famous example of the technique of amalgams occurred during the Russian Revolution of 1917. The Menshevik enemies of Lenin conducted a tremendous campaign of frame-up slanders against Lenin and the Russian workers during the month of July 1917. They said: "The Kaiser is spending millions to knock Russia out of the war; the Kaiser employs spies and provocateurs to further this aim; Lenin has raised the slogan of an end to Russia's participation in the war; Lenin traveled through Germany to get to Russia on a 'sealed train'; therefore Lenin and the Bolsheviks are German spies."

They dug up some "provocateur" to swear that he had transmitted German gold to Lenin. The Mensheviks also "granted" that the Russian workers and peasants had legitimate demands. They said, "We are giving serious con- method of economic administrasideration to these demands. But Lenin is utilizing the tions consists of repressions. It has tions. First, to intimidate and grievances of the Russian workers in order to carry out the designs of German imperialism and therefore the workers who support the Bolsheviks are engaged in a "German plot, and should be dealt with accordingly."

Isn't this the kind of reasoning the Stalinists are

American capitalist economy has long been operating on a precarious equilibrium in which the sector of war production plays the major role in maintaining a balance. Under the Truman administration, dislocations

resulting from a temporary let-

counteracted by huge government expenditures and "pump-priming" techniques. Under the Eisenhower

administration this policy may be modified to allow a certain "controlled shakeout.

## The Meaning of the Korean Truce

Koreas.

From its start the Korean war has been the most unpopular war in American history. The apathy, bitterness and even hostility felt by great numbers of Americans toward this conflict is intensified by the signing of the truce. They can now more clearly see that they gained nothing from their heavy sacrifices. The 140,000 casualties, the tens of billions of dollars blown up in Korea have benefitted nobody but the war profiteers and professional militarists.

Truman's administration dragged us into the Korean struggle without the vote of Congress, let alone the approval of the people. The American imperialists concealed and misrepresented the real character of the war. They spread the impression that it was a mere "police action" to halt "Communist aggression.'

In reality, as America has since learned to its dismay and sorrow, the country was committed to an unpardonable major war for three years against the titanic revolutionary upsurge of a half billion inhabitants of the Far East. The struggle in Korea began as a civil war between the rich and the poor with the capitalists and the landlords arrayed against the peasants and the workers. Washington rushed to rescue dictator Syngman Rhee against whom the Korean masses were rising.

When MacArthur threatened the very border of China on the Yalu river, the Chinese, who had just cast off the chains of imperialism, were forced to enter the fray.

U.S. intervention in Korea gave Wall Street its longed-for chance to expand its military machine at a headlong pace, to step up its global war preparations, and to hitch the faltering capitalist economy behind 'the chariot of militarism.

The chief victims of this intervention were the very inhabitants of Korea the imperialist propagandists were promising to "liberate." Their homes were levelled by U.S. bombs and napalm; ten million were driven onto the roadsides to starve and freeze; millions succumbed while other millions suffered wounds and disease. This has been one of the great atrocities of our time.

The Pentagon strategists undoubtedly expected to conquer all Korea for its puppet Rhee, crush the insurgent Korean workers and peasants, and use the momentum of its offensive to assault the revolution in China. But the revolutionary forces proved far more formidable than the arrogant Pentagon brass calculated. The military setbacks which led to a stalemate on the fighting fronts compelled Washington to lose hope of scoring a definite victory without incurring tremendous risks and

Washington's allies in the United Nation were pressing ever harder for negotiations.

Korean involvement in the light of its world former president of the Reserve IMPRESSIVE LIST strategic aims, Washington had to decide whether to expand the war in the Far East or contrive a cessation of hostilities for tactical army in which reserve officers clude Douglas MacArthur, the and diplomatic reasons. #### 30-40 Is Practical

Rank and file auto workers and miners are indicating their concern about the threat of unemployment and the need to combat it by shortening the work week without reducing pay. The Reutherite bureaucracy of the UAW-CIO is opposed to this slogan. The miners union leadership hasn't been heard from on this point.

One of the Reutherite officials, Ken Morris, president of UAW Local 212, gives three arguments of the Reutherite leadership against this slogan in the July issue of the Voice of Local 212.

(1) Quoting UAW Secretary - Treasurer Emil Mazey, he says, "It doesn't make good sense to gear ourselves for a fight for a guaranteed annual wage and at the same time take on the fight for the 30-hour week with 40 hours pay."

(2) "The second reason for voting down the 30-hour week proposition," continues Ken Morris, "was based on contract considerations. Our contracts run until 1955." Conclusion? "The union will make its fight for the shorter work week with higher pay when the time is opportune."

(3) "The company would have to pay 50%more for 40 hours labor time." And he asks,

## THE ROAD TO PEACE

This pamphlet by James P. Cannon is must reading for anyone opposed to another war. It explains why peace cannot be won by following the Stalinist program and outlines Lenin's real views on this life and death question, with particular application to America.

#### 25 Cents

:: Order from PIONEER PUBLISHERS 116 University Pl. New York 3, N.Y.

Hands off the colonial struggles for freedom. No more "police actions" to stem the irresistible but perhaps I have a one-sided advance of the Asian masses toward "life, liberty and the pursuit of happiness."

"Does this demand make sense at this time? Or do you think it is 'a wee bit' impractical at this time?"

Let's take the last argument first. What is a "wee bit practical"? To let the corporations run the plants at breakneck speed until the but Prentice Hall quickly reasbottom drops out of the market and then throw sured me. the workers out on the street? The figure Ken Morris gives of a 50% increase in wage costs the methods these men are using is false because it incorrectly assumes that the to boost their personal incomes." working force will continue to work a 40-hour week with the last 10 hours at overtime rates. Actually, 30-40 means that all the workers stay on the job, the hours are reduced and the total part by the company. They cover payroll is the same for the employers as before.

Argument number two about the contract speak against the five-year contract, not the 30-40 demand. Are the workers to wait until 1955 before they fight unemployment? Isn't this "a wee bit" impractical, President Morris? Do you blame the workers for wanting to fight this out while they are on the assembly lines rather than on the bread lines?

Ken Morris' argument number one is the weakest of all. You can't fight for both the guaranteed annual wage and 30-40 at the same time! Why not? The guaranteed annual wage is a demand based on the right of every worke to a full year's pay even if the employer shuts down the plant.

Isn't 30-40 a big step toward the guaranteed annual wage? Under a guaranteed annual wage, makes it simpler to increase your workers continue to draw full pay even though salary . . . a profit - sharing they are all laid off. Under 30-40, the workers continue to draw full pay even though they work part time. Clearly, winning a 30-40 guarateed wage would be an important victory the road to an annual guaranteed wage.

The way the Reutherites argue against 30-40 Reutherites about fighting for the guaranteed annual wage demand is open to question.

We advise the workers to stick to their guns on the 30-40 demand. It's practical. And it can be won.

iving must be a last resort. I was beginning to worry about what items they would have to cut

"Something can be done about t! We have prepared a report of The report is divided into four sections. The first section covers "14 personal expenses that may properly be paid in whole or in everything from medical expense to insurance premiums: Vacation costs — club membership — auto

expenses - meals - hotel accommodations - expenses incurred in connection with your own home - with your country place.'

AND A SALARY, TOO? All this — and a salary, too? I'd be willing to forego my present wages in return for an expense

account of this type. But these executives may be

little greedy, because collecting for expenses is just a start. The second section of the report takes point -- something can be done up "methods top executives are using to increase their remunera tion from the company . . . two new developments that encourage

an immediate increase in salary.. the Multiple Unit Plan which arrangement that in actual practice gives the executive many more dollars than his planned proportionate share." In case someone objects, possibly

on the ground that he isn't getting his planned proportionate share. there are other ways. "Submakes us suspicious. They don't say that the stantial bonuses are being paid demand is too modest. On the contrary, they to executives in addition to their seem to regard it as a wild and impractical salaries - the executive can be scheme. #### The Negro Struggle -Win Them to What? By Jean Blake

If the daily papers quoted Dr. Edith Sampson's remarks in Chicago July 23 correctly, the former U.S. alternate delegate' to the United Nations did the colored people of this country and of the world an extreme disservice.

According to press reports she pictured the 16,000,000 Negroes in America as in a strategic position for winning "the Africans, Egyptians, Koreans, Chinese Arabs, all dark-skinned," to "our way of life."

The learned lady neglected to say exactly what it is about "our way of life" that the dark-skinned peoples should emulate. As far as the overwhelming majority of colored people are concerned, there are two features that distinguish the "American way of life" - the double standard of citizenship known as Jim Crow, and the relatively high standard of living.

The first feature, discrimination and superexploitation, is an evil that South Africans, Kenyans and others know only too well from their own experience. They don't want any part of the American democracy "for whites only." They don't need any advice from American Negro apologists for the "master race" on how to fight for freedom, either.

As a matter of fact, the American colored masses have been proud of the inspiring courage and independence of the colonial peoples in

the revolutionary struggles now in progress all over the world.

actly upside down. It is the Africans who are

American life, the higher standard of living that is neither a "divine right" of Americans nor a nationality trait. It is the result, rather of the fact that this country's productive system was organized on the most progressive basis Strikes Flare of the fact that this country's productive system possible for its time and freed by a revolutionary war from foreign domination and exploitation.

the colonial. peoples are trying their best to duplicate. They are fighting against tremendou odds to rid themselves of all their imperialist exploiters.

Instead of sanctimonious criticism and advice from Negro stooges for American imperialism, the colonial peoples deserve sympathy, aid and any moral and material support we can give them. But the best thing we can do to aid their cause is to conduct a militant, uncompromising, principled struggle for complete democracy in America.

**VOLUME XVII** 

DETROIT - To stem the tide of wild-cat strikes here, the UAW

International at its June Board meeting placed an administrator over Budd Local 306. This action came after a series of strikes hit Plymouth Local 51, Briggs Local 212, Dodge Local 3, Chrysler Local 7, GM Local 235, and other UAW Locals as well as the 8,000 **Budd Local members.** 

Most of these strikes were declared "unauthorized" by the UAW International Union. At times more than 150,000 auto workers were affected for two or three days. The issues which brought on these strikes varied from speed-up, firing of union stewards or committee men, improper work assignment, hazardous work in improperly ventilated paint spray booths, etc.

These walkouts were in resist ance to the general tightening up which the auto corporations are instituting. Invariably, small groups of workers were driven to shutting down their departments in defense of their working conditions. The plants were then shut down by management, even when these departmental operations did not immediately affect the gen eral production.

> Almost without fail, the In ternational denounced the men for

walking out. This emboldened the strikes, in compliance with the the refusal of the International corporations to fire stewards and five-year agreements. The International announced daily grievances which resulted committee men in both the Budd

per Room" By Joyce Cowley On the upper West Side of Manhattan,

police are investigating the smashing of stained glass windows in a Baptist church and in a synagogue. It's assumed that teen-age "vandals" are responsible for the damage. The Cathedral Heights Citizens Committee skips the usual chatter about maladjustment and, gives a forthright explanation of the rise of teen-age gangs. Much of the trouble, they say, comes from the "wholesale, illegal conversion of brownstone houses into rooming houses. Overcrowding results in families sleeping in 'split shifts' and forces youngsters to stay on the street at all hours of the night."

This is evidence, once again, of the rapid growth of New York slums caused by the acute housing shortage - a shortage which some authorities estimate at 900,000 apartments!

Several weeks ago an editorial in the N.Y. Herald Tribune summarized a report by the Committee on Slum Clearance. It described a "blighted" area marked for redevelopment -30th to 33nd Sts. between First and Second Avenues. Federal and City funds share the cost of "acquisition" and private capital does the redevelopment. The result will be 800 modern apartments.

All this sounds just fine. I was beginning to feel quite happy about slum clearance in New York City until I read a little further:

"The proposed rent is \$31 per room per

rooms. It adds up to \$124 a month, a figure which makes it obvious that clearing this slum cannot possibly benefit any of the slum dwellers.

But the Herald Tribune seems to think it's kind of cheap. "No private developer," they say, "could do this without government assistance." They go on to show that, unfortunately, government and city funds are limited and we can't hope to clear all New York slum areas to put up similar developments. That's just as well. If New York City consisted entirely of \$124-a-month projects, it would certainly be more exclusive and probably more

attractive, but where would the workers live? Considering the limited government funds available for housing. I don't understand why they should be used for the benefit of people Clearance is not seriously interested in the problem of the kids who are sleeping in split room in the firetraps of Bedford-Stuyvesant and Harlem, of the children growing up in filthy, rat-infested cellars.

## Notes from the News

who really need them.

DETROIT COPS staged a witch-hunt raid on a garden party at the home of Arthur McPhaul, executive secretary of the Michigan Civil Rights Congress, July 25. Twenty-six people were arrested without warrants and booked on charges of "engaging in an illegal occupation" or "loitering."

U.S. RENT CONTROLS died July 31. Rent Stabilizer Glenwood J. Sherrard claimed, "This country's economy will be closer to so-called normal after the coming week than it has been since 1942." Milwaukee gives us a good example of the meaning of "normal." The Labor Department reports that since rent decontrol in Wisconsin in 1949 Milwaukee rents have soared 48%.

THE MINE MILL AND SMELTER Workers Union announced that 89.3% of the non-ferrous metal workers have voted to strike if necessary to win a general wage increase of 15 cents an hour plus fringe benefits. A union study showed that productivity per worker had increased 42% since 1939. \* \* \*

THE HEARNS DEPARTMENT STORE WORKERS have offered six alternative proposals in an effort to end the walkout in the NY store now in its third month. Hearn's anti-union president, Clement V. Conole, termed the proposals "an old Communist trick." The strike is being conducted by the Distributive, Processing and Office Workers CIO.

LOOKING A SUBVERSIVE GIFT HORSE IN THE MOUTH. The Los Angeles Board of Education turned down a \$335,000 teacher-training grant from the Ford Foundation on the ground that it is a left-wing outfit.

\* \* 4

MAJ. GEN. LEWIS B. HERSHEY sees no reason why the cease-fire in Korea should lighten the draft burden on the youth of the country. He predicted that draft quotas will probably be doubled within a year. "It is unfortunate," he said, "that we should get the young people to believing their plans for the future hinge on the truce... I would tell these young people Congress has placed a two-year obligation on them, and they are going to live up to it."

480,000 MEXICANS were arrested during the first six months of this year for "illegal" entry into the U.S. These workers were only part of those seeking employment as farm laborers in the southwest. Big farmers, using their illegal status as a club, hire Mexican laborers at rates far below the prevailing wage scale.

WILLIAN SCHNITZLER, AFL secretarytreasurer, warned the Rutgers University Labor Institute that an increased majority of reactionaries in Congress in 1956 would set off a

"back to McKinley spree" from which the country would never recover. The union official said that his organization has entered politics from "sheer necessity" and not because it likes politics. \* \* \*

THE DUN AND BRADSTREET wholesale food index is now at its highest since October 1951.

JIM - CROW DEMOCRATIC STATE OF-FICIALS have been called upon by Rep. James C. Davis (Dem. Ga.) to rebel against a U.S. Supreme Court decision hitting segregation in the schools. Will McCarthy attack this "conspiracy to advocate subversion" of the authority of the national government? \* \* \*
