ed the entire front page of the Sept. 18 issue to the case. It recalled the details of the attempted murder of Leon and Natalia Trotsky, which was organlized by the Stalinists, and reported the reaction of various public figures to Gillespie's revelations.

Natalia Trotsky stated: "Some day the whole truth will be known about the murder of Leon Davidovich. Continually, each new revelation confirms the fact, which no one could doubt, that it was Stalin who ordered the assassination of Trotsky and that he was killed by agents of the NKVD (formerly the GPU)."

"The revelations of Gillespie." Trotsky's widow continued, "confirm what Trotsky maintained that Sheldon Harte was no traitor, no agent of the NKVD, but a loyal secretary who died a victim of the NKVD. In this sense, the revelations of Gillespie not only cast new light on details of the attempt but vindicate the memory of a sincere and loyal youth."

(At the time of Harte's murder, GPU sources spread the rumor that Harte was a Stalinist agent. This was doubtlessly designed to cover the real agent, Frank

Jacson, who later succeeded in sinking a pickaxe in Trotsky's brain.) Natalia called attention to the

the fact that Gillespie's revelations (reported in last week's Militant) showed what an im-

portant role Jacson played in the May 24 assault. It was Jacson, according to Gillespie, who called to Harte sometime after midnight to open the door in the wall sur. rounding the house.

After the murder of Trotsky, Natalia said, "I recall telling the police that J was sure that whoever called to Bob Sheldon to open the door in the first assault. was Mornard (one of Jacson's aliases). And now Gillespie confirms it.

"In general, the description that Gillespie gives of the facts themselves of the assault is accurate and corresponds perfectly to the reality.

"We can be confident that in time others who participated in the attempt and in the preparation of the crime will also con- ican Stalinists. When 18 memfess and thus we will come to bers of the Socialist Workers know the whole truth about the Party were imprisoned for opBy Joseph Hansen (Sixth of a series.)

The basic force driving American Big Business toward another world war is the need for capital-

final analysis this compulsion is decisive, as the statesmen of the capitalist class well understand. Accordingly, both the Democratic and Republican administra_ tions have gone far in advancing the preparations for a conflict in which they hope to crush the Soviet bloc and the colonial world and emerge undisputed masters of the globe.

The establishment of U.S. armed forces, military training missions and advisory groups in more than 49 countries outside the United States has already been accomplished as part of the grandiose design. At present the U.S. has standing armies abroad numbering 10,000 in the Caribbean, 30,000 in the Pacific Islands, 50,000 in the Mideast, Africa and the Mediterranean, 385,000 in Western Europe, and 595,000 in Korea and Japan. By way of comparison, the combined army and navy of the U.S. in 1939 on the eve of World War II amounted to 367.000.

the United States.

Lackawanna Workers Make History

History was made at the Lackawanna Bethlehem steel mill in the Buffalo area when 17,000 workers conducted a "wildcat" strike for 19 days. The strike started Aug. 31. It was touched off by the company's provocative increase of work for the coke-oven crews. When the workers struck, the company added fuel to the fire by discharging four workers, three of them stewards, for interfering with the "employees who wished to gain access to the plant." The strike ended Sept. 19 after David J. McDonald, President of the United Steel Workers of America, ordered the strikers back to work.

What's so history-making about a "wildcat" strike? "It happens all the time," an observer of the labor movement might argue. As the labor bureaucrats fall under the domination of the bosses and the government, the workers are often forced to take action without "official" union sanction. Victimizations follow. Leading militants are punished. A lot of workers get disgusted. Temporav demoralization sets in. Then the workers regain confidence and the cycle begins again.

What is notable about the Lackawanna strike is that it differs from this pattern. The strikers had to drag the dead weight of the union officials all through the bitter struggle. But their militancy never subsided, their morale was not breached. The officials did all they could to break the spirit of the workers, but they did not succeed.

Other features differing from most "wild cat" strikes were of unusual interest: The ranks conducted a brilliant, disciplined, tenacious

strike action over a remarkably long period All the strike problems usually controlled by the bureaucrats - strategy, publicity, picket organization, relief and morale - were taken over by the rank and file. Most significant of all, a strike leadership was selected and tested under fire, a new leadership composed of workers no higher in "rank" than shop stewards.

Another notable feature: The defense of the four Negro workers who were fired. The com- zations; the other two millions, pany obviously calculated on splitting the as well as a corresponding proworkers by touching prejudices among some, which in the past have made solidarity in action difficult. But the attack on these workers acted as a signal to close ranks.

The order to return to work was considered a sell-out by the rank and file. They were bitter. But the important thing is that they were not routed or demoralized. They had learned that it isn't enough to beat the company on the picket line - you have to beat the sell-out bureaucrats. And they had acquired a rich, fresh experience - how to raise up new leaders of their own in the very heat of battle.

This in our view is history-making. It isn't the speeches of Dulles, or the utterances of Meany, or the conferences of the "big" people to vote in 1949). If we consider that are fashioning the history of our time. These are only puppets occupying the stage for the moment. The real historical force is at work in the deepest layers of the industrial working class. The 17,000 Lackawanna steel workers sent up a brilliant flare that illuminated the big changes taking place, like a molecular process, in the consciousness of millions.

can't stand being challenged by anyone of dif-

hangs in the balance."

How Do You Feel About Kenya?

Two passions are aroused in the colony of Kenya, now in revolt against British imperialist despotism. One is the passion for freedom, stirred up by hope for a new and better life, a hope that has brought the people of the Kikuyu tribe to their feet and taken them down the road to freedom. The other passion is born of the lust and greed of a small minority of white settlers, who, with their superior technology, have subjugated and enslaved the native population.

The heat generated by this life and death struggle is so intense that it is reflected in the emotions of people throughout the world, even here in distant America.

We socialists hail the great emancipating movement taking place in this continent laboring its way out of the darkness of oppression. The ultimate victory of the African people against the system of "white supremacy" and colonial impoverishment will be one of the most liberating events in the history of man. But there is a different and opposite reaction in the United States. We get a glimpse of it in The Wall Street Journal. Whenever colonial people rebel against the inferior status allotted them by imperialist powers, all sham talk of "liberty," "independence," "majority rule," and the rest is quickly forgotten. The pretense of objectivity goes by the board. And the real power-drunk money-hungry soul of the rich imperial rulers is bared in all its ugliness. In one single article Sept. 16 by Edward Hughes, staff reporter for this voice of Big Business. every slanderous epithet in the book is levelled at Kenya's Mau Mau movement, consisting of "85% of the entire adult Kikuyu"population," the largest tribe in Kenya. They are referred to as a "professional murderers' club," "toughs," "marauders,"

Government by purge continues to be the system under Malenkov as it was under Stalin.

Moscow disclosed Sept. 15 that in the Ukraine, one of the most important subdivisions of the Soviet Union, Dmitri Manuilsky (joined Bolsheviks in 1903) has been replaced by one Anatole Baranovski. Along with Manuilsky, three Vice Premiers went -N. D. Dubnovsky, A. P. Yeremenko and G. B. Bondarchuk. The charges against these top governmental figures are not reported.

In the Republic of Georgia, the third major purge in 18 months swept out leading government figures. Premier V. M. Bakradze was replaced by G. D. Dzhavakhishvili; and A. T. Mirtskhulava, First Seoretary of the Central Committee of the Georgian Communist Party was replaced by K. I. Mzavaladze.

Announced Sept. 22, this crop of purgees was followed by another three days later. Mikhail Baramya, Minister of Agriculture and Procurement, was replaced by Mikhail P. Georgadze. Minister of Culture Vladmir I. Chaureli was replaced by Konstantin I. Guria and Education Minister Rustam K. Tsulukidze was succeeded by Georgi N. Chevladze.

Baramya had already been purged once, in April 1952, as second secretary of the Central Committee of the Georgian Communist Party. The charge was "bourgeois nationalism." A year later, one month after the death of Stalin, he was reinstated along with other ousted leaders. He had Beria's backing, which is probably. the main charge now lodged against him.

terrible odds, the "White Highlands, 13,000 square miles of handsome hill country" will no longer be "reserved for ownership by white settler." There will no longer be two laws in to enter the field of political acthe land — a law for natives and a law for "tuxedo-clad diners," the privileged foreigners.

The prospect of victory for the Negroes over exploiters appalls The Wall Street Journal. To us it means a new day for Africa and a great day for the world. We're all for it.

Another Purge

The capitalist press is, of course, seeking to take full advantage of these latest purges. Its aim is to utilize them to smear the whole concept of socialism, to picture the purge as an a more serious and critical exinevitable consequence of socialism.

To do this, the capitalist press conviently overlooks the crimes that make capitalism a living horror to millions on this earth. It is silent about the fact that Stalinism could come to power in the Soviet Union only because of the ruthless pressure by world capitalism on the This fight deserves the wholefirst workers state. And, finally, it lies in making out Stalinism to be socialism.

The truth is that American Big Business shares the guilt for the continued existence of partment of Education and tricts, or "rotten boroughs," to Stalinism and its crimes. Its present drive for our "representative government" obstacle to the Soviet workers cleaning out the August issue follows up by Democrats would like to see the Kremlin bureaucracy, for it diverts their attention from the task at hand and arouses fear that any action they might take could possibly provide an opening for another assault on their country such as they suffered from the Nazis Our duty, while continually opposing Stalinism and its crimes, is to help the Soviet work ers by standing firm against the war drive of Wall Street. By putting a Workers and Farmers Government in power in the United States, we could assure the world an end to imperialist war, an end to all threats of conquest, the opening of an era of enduring peace.

And that assurance to the Soviet workers that they need no longer fear attack would prove to be the death knell for the hated regime now oppressing them.

under nush-nush conditions." What happens to such military bastions "if black revolt spreads across the continent?" The Negro Struggle -"Solid South"

By Jean Blake

If we've been sharply critical the past few weeks of the Republican administration's hypocritical and demagogic policy on segregation, we hope no one gets the impression that the Democrats are one bit less guilty.

There is no "lesser evil" as between the two. It's only space limitations that prevent us from telling the whole story of the record of both parties on the issues we single out for discussion each week.

To turn to the Democrats for a while, we received several items in the mail from a friend traveling in the South this week.

On Nov. 1 the Southern (read "Democratic" of course) governors will convene at Boca Raton, Fla. The Atlanta Constitution reported Sept. 22 that Georgia Gov. Herman Talmadge, chairman of the Southern Governors Conference, had announced a round-table discussion would be held on "the organization and operation of our elementary and secondary schools."

Asked if the discussion will deal with the development of the South's educational facilities or if it is still scheduled in view of the segregation suits now pending in the U.S. Supreme Court, Talmadge replied:

"It was scheduled as a routine discussion on educational problems and development. However, some of the governors may take the opportunity to talk about how to preserve segregation in the event the court should rule adversely to the South's traditions."

Gov. Talmadge already has announced he would move to abolish public schools in Georgia should the court outlaw segregation in public schools, and a similar plan has been announced by Gov. James Byrnes of South Carolina.

Meanwhile another line of attack by the Dixiecrats was announced in the same issue of the Atlanta paper: Trial of Horace T. Ward's suit for entry into the University of Georgia law school was postponed indefinitely when it was learned that Ward has been drafted into the Army.

Ward was drafted on Sept. 9 and immediately sent to .Fort Jackson, S. C., for basic training State attorneys announced the postponemen means the case will lie dormant for "at least two years until Ward is discharged."

According to the Atlanta Constitution, "Observers who interpreted the postponement as 'the real death of the Ward case' reasoned that the two-year delay might add weight to the State of Georgia's contention that Ward should take the examination (a new entrance requirement set up while Ward's application for entrance was pending). They also suggested that Ward, who began his attempt to enter the university in 1950, might have changed his mind about studying law by the time he is discharged in 1955."

- And Democratic National Chairman Stephen A. Mitchell said Sept. 10 the Democratic Party will be rebuilt "on the solid rock. of the South"!

VOLUME XVII

THE MILITANT MONDAY, OCTOBER 5, 1953

Waiting

For the Axe

To Fall

Are We Headed **Toward Slump?**

(Continued from page 1) observes that "it looks now, the industry won't have it so good again for a long time." It compares "the industry's projection of 5 million cars annually" with 1950's 6.6 million and this year's 6 million. And "seasoned economic observers . . . have a hunch that new car sales could plummet to

ward the 4-million mark." Farm Equipment: This industry is already in a serious slump as reflected in its average net profits per firm for the first half of 1953. These declined 6% from the same period in 1952, while the average of all industry rose 13%. "Reduced farm income was a prime factor in the small sales of farm equipment makers," reports the N. Y. Times.

Construction: The Sept. 28 Wall St. Journal reports its 13city survey which shows that "home building, which has been a staunch prop under the economy

this year, appears to be taking a sharp turn downward." For instance, there are 15% to 25% less new homes started in Philadelphia now than a year ago and 50% less in Houston. ". . . A downturn of the magnitude of the one now taking place could have considerable impact on the general economy. And some of the tigges⁺ builders are slashing their

operations deeply," the Journal finds.

Martin Luther

By Trent Hutter

Almost any motion picture condemned by the Catholic hierarchy is worth seeing, for Cardinal Spellman and the Catholic "Legion of Decency" as well as the American Legion attack only pictures they fear. And they fear pictures that show up dogmatism and stress intellectual freedom.

This is certainly true of Martin Luther, a movie sponsored by the International Council of Protestant Churches and filmed on location in Germany with an excellent, mostly British, cast. Niall MacGinnis plays the title role -Luther, the revolutionist who broke through the totalitarianism of the Roman Catholic Church in Central and Northern Europe to proclaim man's right to beliefs based upon his own inner conviction rather than edicts of a Pope.

The script faithfully follows the historic facts, which Hollywood generally ignores in its so-called "historical" pageants, although Luther's opposition to the German Peasants' War of 1524-25 and his other political shortcomings are not indicated. But then his progressive struggle against Popery was far more decisive than his political conservatism.

In his 95 theses which he nailed to the door of the Palace Church at Wittenberg in 1517,

While in hiding at the Wartburg under the protection of the Duke of Saxony, Luther translated the Bible into German, thereby enabling the common man to read it. Hitherto it had been the prerogative of the Latin and Greek-speaking clergy. Luther's translation dustrial Conference Board on practically created the modern German lan- Sept. 22 released the results of a guage, easily understood from the North Sea poll of 159 representative manuto the Alps.

century innovators who developed the notion expenditures for next year's millions of workers find necessary of individual freedom bringing man's outlook capital expansion programs." 46% to make both ends meet. The Naof individual freedom bringing man's outlook into consonance with the profound social and their capital expenditures; only economic changes of the times. Among these 14% said they expect to spend were the discovery of America, the formation more. This is no small "soft spot" of Spain's colonial empire, the influx of gold from the New World the development of early commercial capitalism and the rise of the city

bourgeoisie. In creating for the screen a stimulating picture of Luther, the revolutionist, and the era of about the prospects of a recession the Reformation, the Protestant Churches have or depression. For, said he, "there dustries and the "elimination of helped the movie-going public to understand a is one statistic in which I put more this overtime could act as a gigantic figure of the past.

Notes from the News

AIR FORCE RESERVIST, Lieut. Milo Radulovich of Detroit had the misfortune of having a sister and a father whose "loyalty" was question. ed by Air Force officers. Headquarters assured him that his own loyalty was not questioned. But in view of his "close association" with members of his family, he faces dismissal from the service.

THE U.S. ARMY BAN ON KINSEY in European libraries has now been explained. Despite an earlier report that many requests had been made for his report on "Sexual Behavior in The Human Female," the Army now explains that the book "was not thought to be of general interest" to GI's. "Military libraries contain essentially recreational and educational material," the Army spokesman said. However, the Air Force will have "at least one copy" of the new Kinsey report in libraries in Europe, North Africa and the Middle East.

"THEY HAD IT BETTER UNDER SLAV-ERY," declared the New York Joint Committee on Migrant Labor, referring to the Negro families that are transported north in the summer to work in the fields of New York, New Jersey and Pennsylvania. Sol Markoff of the National Child Labor Committee charged that "hundreds of underage migrant children are unlawfully employed each year picking crops under a hot sun 10 or 12 hours a day in stooping, creeping, crawling, back-breaking work." A survey of migrant camps made by the New York World-Telegram and Sun found humans living in filthy, makeshift shacks the "farmer wouldn't put his cow or hog in." * * *

WE ARE LIVING TODAY on the labor of tomorrow. According to the, Commerce Department, the public and private debt went up 6% in 1952, or \$31 billion to a record \$553 billion. The increase is continuing in 1953. Most of the increase in debts was in the form of mortgage consumer credit and corporate debt.

DR. BARROWS DUNHAM, author and head of the Philosophy Department at Temple University, was dismissed by the university board of trustees for defying the House Un-American Activities Committee. Dr. Dunham explained his principled stand on the ground that he disapproved of t committee and that he did not intend to act as an informer.

\$10,000-A-YEAR WAGE INCREASE was given to George Meany and William F. Schnitzler, officials of the AFL, by the union's national convention. Meany will now be paid \$35,000 a year. One dissenting vote was cast by Frank Turko, representing the Seattle Newsboys Union. What's
