**Build a Labor Party Now!** 

PUBLISHED WEEKLY IN THE INTERESTS OF THE WORKING PEOPLE

NEW YORK, N. Y., MONDAY, DECEMBER 14, 1953

**PRICE: 10 CENTS** 

As McCarthyism begins to give unity and cohesion to a new native fascist movement, it is clear that America stands at the crossroads.

We face the biggest decision in the history of our country. Which road shall we take: Fascism or socialism?

What will America look like if it goes fascist?

For wage workers, it means the end of the unions. The size of our paycheck will be decided by the boss. Your hours and working conditions and speed-up will likewise be decided by the boss. Objections will be referred to the club-swinging company police or the FBI.

Your standard of living will drop disastrously. Hunger will stalk the land.

## **Under the Iron Heel**

Vol. XVII - No. 50

The youth will be regimented and militarized, converted into fascist-minded mercenaries, indoctrinated with the mission of conquering the earth for the benefit of Big Business. The bodies of millions will become fertilizer on foreign battlefields.

There will be no more talk of equal pay for women and opportunities to choose an interesting, well-paid, liberating career. Fascism always insists on tying women to the kitchen the better to produce new generations of cannon-fodder.

Free thought, free inquiry, free speech - all this will be ground under the iron heel. The schools, staffed by fascist propagandists, will mold the tender minds of American children in the horrible pattern decreed by the police state.

## **Barbarism on a Global Scale**

All this is only the beginning.

Remember the headsman's axe in Nazi Germany - and the gas chambers and incinerators that devoured millions of Jews?

racist-minded rulers decide the time has come to "purify" the blood of the American people? Then this land will indeed writhe in agony.

You think this picture is exaggerated?

gerated. But it wasn't.

## Living Costs Hit New High

Ewan Clague, commissioner of labor statistics, shows a chart illustrating his announcement that the cost of living index has hit an all-time high for the ninth straight month. Rising prices and growing unemployment mark the economic instability and insecurity which create the atmosphere in which fascist demagogues, like McCarthy and Father Coughlin, thrive.

most problem is program and tactics in the anti-fascist fight. The American workers can't afford a false policy in the fight against McCarthyism. If our policy and tactics are wrong we will go down to bloody defeat. Make no mistake about that.

The German, Italian, Spanish and Austrian workers organizations followed a false policy. their merits. Let us see. The National Committee of the Communist Party of the U.S. issued a statement, published in the Daily Worker Nov. 27. They say, "McCarthyism is growing American fascism and it must be labeled as such." This is correct But how shall we fight it?

William Z. Foster, National Chairman of the CP, tells us in the Daily Worker of Nov. 26, "The McCarthyites can be given a thorough licking in the elections (in 1954). This can be done by creating a broad democratic coalition...

## Defend Our Class Brothers in Bolivia

'We have just received word from Bolivia that the government of Paz Estenssoro has suppressed the newspaper Lucha Obrera.

Lucha Obrera (Workers Struggle) is published by the Partido Obrero Revolucionario (Revolutionary Workers Party, POR). This party has been in the forefront of the workers' struggles in Bolivia against the tin barons, the landlords and the imperialist agents who have been trying to stop the Bolivian revolution from putting a Workers and Farmers government in power.

The Paz Estenssoro government was installed by a mass workers uprising in April 1952. Estenssoro represented the middleclass, wavering elements who moved to the left for a time under the impact of the powerful revolutionary movement of the working masses.

The POR gained rapidly in influence after the revolution started. It became a leading force in the working class and peasant movements. It vigorously fought for the workers and peasants demands that the mines and the land be taken away from the landlords and capitalists and returned to the people. It conducted widespread agitation for preserving the gains made by the revolution and continuing its progressive tasks by installing a Workers and Farmers government.

Meanwhile the Estenssoro government was steadily being pressured by the counter-revolutionary capitalists and landlords to take measures against the revolutionary workers. The U.S. State Department played a major role in this campaign to utilize the Estenssoro regime to crack

down on the revolution. Recently Milton Eisenhower visited Bolivia. Estenssoro the Cochranite faction after they display the sympathy they feel Action and Labor Action's right to made a deal with Eisenhower for economic split from the Socialist Workers for Cochran. The Dec. 7 Labor aid.

## **UAW Unemployment Conference**

The full employment conference of the CIO United Automobile Workers, held in Washington on Dec. 6 and 7, has helped to focus attention on the growing problem of unemployment and the threat of economic crisis. It is to be hoped that this will help lead to the recognition of the necessity for a broad Congress of Labor. representing all sections of the labor movement, to deal with unemployment, McCarthyism and other basic issues that can be solved only through the united action of all organized labor.

Under the direction of UAW President Walter Reuther, however, the auto union's conference served as little more than a sounding board for Reuther'e own inadequate program. His main stress was on the vague, guaranteed-annual-wage program that he pushed at the recent CIO convention. At the same time, he took occasion to insist on deferment of the program for the shorter work week at no reduction in weekly take-home pay. Guaranteed annual wage schemes, unless covered by the most elaborate safeguards, can be real pitfalls for the workers. Certainly, none of the plans thus far offered or contemplated by Reuther or any other CIO leader meets the problem of mass layoffs in the period ahead. Ford Facts, paper of UAW Ford Local 600, correctly puts the matter when it contends: "The fact is that the fight for substantial wage increases, against speed-up and for the shorter work week is the best guarantee of an effective fight for the guar-

anteed annual wage." From Reuther's recent speeches it can closet be gathered that he thinks unemployment is the result merely of a nasty whim on the part of the corporations or their sheer stubbornness in refusing to adopt certain easily applied precautionary measures. with them, constituted swift proof Actually, unemployment is an integral part of the correctness of our analysis. of the workings of the capitalist system. Secondly, take another look at that explanation about why Labor

Action published Cochran's first public political statement. It demonstrates one of two things: Either (1) the columns of Labor Action, in accord "with our policy in such matters," are now open to political contributions from capitulators to Stalinism, which puts a question mark on Labor Action's declamations against Stalinism. Or (2) the editor of Labor Action opened his columns to the Cochranites because he felt sympathy for them, sensing that under the conciliatory attitud toward Stalinism was something linking Cochranism and Shacht

#### THEIR COMMON GROUND

My contention that conciliatory iews toward Stalinism can constitute one of the first forms of is inertia, unwillingness to carry capitulation to the pressures emanating from American capi talism in its drive toward war ridiculed by Labor Action as peyond comprehension.

In a showdown fight against its mortal enemies, the working class can never depend on capitalist "liberals." That's the lesson the workers of Germany, Italy and Spain learned in their fight against fascism. The capitalist politicians and those who supported them sold out every time and left the workers and the minorities to take the rap.

This lesson is being taught all over again in the United States. Take the case of Adlai Stevenson. Witty, suave and sweet-talking Adlai Stevenson was recommended to us by the labor officials and leaders of minorities as a genuine dyedin-the-wool liberal. A man who lived and breathed democracy. A stout-hearted fighter in the cause of justice. A man who spurned cynical political advantage in favor of democratic principles.

This was the image created by the Stevenson boosters. What has been the reality?

Let's grade Stevenson on his performance in a fight involving the fate of democratic rights and liberties: the struggle against racial segregation.

Racial segregation in schools is up for an historic test before the United States Supreme Court. But the Southern bourbons served notice that they will not abide by any unfavorable decision reached in the Supreme Court. Governor Talmadge of Georgia spoke to his State Legislature on Nov. 17 and gave his "solemn promise ... that as long as I am Governor there will be no mixed schools and colleges in Georgia.'

## **Stevenson Flunks Out**

In other words. Talmadge publicly defied the laws of the United States and in effect called for sedition.

Eight days later Stevenson spoke to the guys are thinking, and it's only same Georgia Legislature as a guest of one man's opinion, but I would the Southern plutocrats. ## **Brownell's Brief**

#### By Jean Blake

Eisenhower's "fall guy," Attorney General Herbert Brownell, Jr., has submitted a 188-page brief in the public school segregation cases now before the U.S. Supreme Court that exposes the present administration's support of Southern Jim Crow as clearly as his recent smear of ex-President Truman exposed the administration's support of McCarthyism.

The Justice Department brief, which represented the Eisenhower administration's first official expression of its attitude on the school segregation issue, was a typical weasel-worded, unprincipled politician's masterpiece.

It carefully pointed out that the government (adminstration) is not taking sides in the dispute and that the brief is submitted "as an objective non-adversary discussion of the question stated in the court's order of reargument."

It sidestepped the basic issue involved in the suits brought by the National Association for the Advancement of Colored People — the contention that the court should reverse its past position that segregation in schools is legal so long as equal facilities are provided for Negro and white. The NAACP is arguing that segregation is discrimination, and unconstitutional. Brownell's brief tells the Supreme Court that it has the duty and authority to see to it that there is no discrimination against anyone on account of color. (Southern lawyers have little argument with that

Finally — and this is where the full UNIONISTS WELCOME measure of the administration's hypocrisy is revealed — the brief notes the Southern opposition to a change and suggests that **LEGLESS VET'S BOOK** if the Supreme Court should decide to outlaw segregation, a one-year period be provided for the adjustment, with allowance ten delegates at the convention of the New Jersey CIO, for a further "reasonable" extension. held last weekend at Atlantic City, bought a copy of James (Can't you see Brownell suggesting to Congress that if the Communist Party is out- Legless Veteran. lawed, a similar "reasonable" period be allowed for the adjustment?)

#### UNION SOLIDARITY

Twenty thousand other newspaper workers respected the photo-engravers picket line thus insuring shutting down of the newspapers. The pressure from the business agents of the other newspaper unions is conceded to be a factor in bringing the final acceptance.

As a result of this solidarity, appears that a goal of many years standing, simultaneous expiration of the agreements of all newspaper unions, will be reached. This strike revealed the great power possible through united action

Had the other newspaper unions ignored the photo-engravers picket line, then it would have been a comparatively easy task for the publishers to have defeated and demoralized the small union.

## Notes from the News

GALLUP POLL ON UNIONS reveals an alltime high in favor of unionism. Three out of fe ... of those interviewed recently approve of union . The last previous poll in 1949 showed 62% in favor. Thus pro-union sentiment increased 13% in the last four years. The highest vote in favor of unions came from "manual workers" - 81%.

LABOR'S DAILY of Dec. 5 reports that "The Chamber of Commerce, the National Manufacturers Association and lesser satellites of Big Business are busily engaged right now in planning strategy, bringing up their heavy guns and stockpiling ammunition for a concerted campaign to destroy the last vestige of organized labor in this country." Big Business is organizing a campaign to force Congress not only to retain the Taft-Hartley Law but make it "even more stringent in its strangling holds on labor and the destruction of freedom as it applies to those who toil." Big Business organizations are sending letters to their members outlining the pressure campaign on Congress. Labor's Daily calls for labor to "counteract the force and power of this calculated campaign," and to rally its forces for a showdown fight. "Organized labor in the United States is now face to face with the most critical period in history. The next few months may well determine whether organized labor - FREE LABOR, to 'put it more bluntly - is to survive or perish."

STEEL-PRODUCTION DROPS are no cause for alarm according to Max D. Howell, executive vice-president of the American Iron and Steel Institute. "It probably would be a good thing for the country and for the steel industry if steel operations dropped back to around 80%." AN OKLAHOMA CATTLEMAN, Pink Will'ams, known as Cowboy to his friends, decided he had made a tragic error when he voted for Eisenhower. The invitation promised that "all cattlemen who voted for Ike will have their

a - kicked free and all the crow they could eat." The idea spread like wildfire and Cowboy sent out 350,000 cards within a short time. The Republican post office administration took a dim view of the "joke." They cracked down on Cowboy on two counts. (1) Cowboy's use of a common term to name a portion of the human anatomy was obscene and vulgar. (2) The use of the name "Cowboy" in the signature on the postcard constituted doing business under an assumed name. The department locked up Cowboy's post-office box. Instead they have that Soviet agriculture still been sabotaging the publicly owned livestock in favor of their own privately owned animals, cows particularly. From Khruschev's own figures it follows that out of every 100 cows, almost 60 are today in the hands of individual proprietors.

But that is not all. Not every collective farmer owns a cow. Almost half of the peasants have no cows. "The number of collective-farm households with no cows increased up to 45%," reported Khruschev. In other words, the ownership has become concentrated in the hands of the well-to-do elements in the countryside. It is they who stand to benefit the most from the Kremlin's reforms. It is they and not the collective farms who are dominant in this vital branch of Soviet agriculture.
