Another Good Name Is "Quietly Put to Death

A bitter editorial denouncing Senator McCarthy for killing the good name of Annie Lee Moss appeared in the March 6 Afro-American, influential Negro paper:

"The good name of Annie Lee

Moss was quietly put to death Tuesday. .

"An attractive woman sat before the McCarthy committee and a battery of newsreel and TV cameras and charged that Mrs. Moss at one time was a dues-paying member of the Communist Party.

"The woman who made the charge admitted that she did not know Annie Lee Moss. She confessed she would be unable to recognize her if she saw her.

"The only evidence she had was a Communist Party card which showed that someone named Annie Moss had at one time paid dues to the Communist Party.

"But undisturbed by such flimsy evidence Senator Mc-Carthy immediately branded Annie Lee Moss a Communist.

"In a matter of seconds the television cameras flashed, it across the airwaves. The telegraph wires recorded it around the world. And the presses of the nation proclaimed it to readers against the vicious bludgeoning on every street corner.

Notebook of an Agitator The Attempt to Turn Trotsky's Killer Loose

Notes on American Fascism

Editor:

I haven't been able to disentangle myself from other preoccupations to send you any connected thoughts on McCarthyism and the probable character and perspectives of American fascism in general. The articles of Breitman are very effective arguments against people who will not recognize incipient American fascism until it obliges them by assuming the "classic" European form. What will they do if American fascism neglects or refuses to accommodate them in this respect, right up to the eve of the showdown - which it may well do?

I will have something to say about the question of American fascism a little later when I get free from some other commitments. In fact, I have scheduled a whole lecture on the probable character and perspectives of American fascism in the projected new series of Los Angeles lectures on "Problems of the American Labor Movement." But it will have to wait. Meantime, I am in basic agreement with the campaign you are conducting and the arguments for it, especially those given in Breitman's articles. I believe these articles would make a good follow-up pamphlet to the first one.

Those who would judge specific American forms of fascism too formalistically by the European pattern, arbitrarily limit capitalist aggression against the workers' movement to two forms:

They see the democratic form by which the workers are suppressed through strictly legal measures in accordance with the law and the constitution - such as the Taft-Hartley Law, formal indictments and prosecutions for specific violations of existing statutes, etc. All this, despite its obvious "inconvenience" to the workers movement, is characterized as democratic.

On the other side they see the illegal, unofficial forms of violence practiced by "storm troopers" and similar shirted hooligans outside the forms of law, as in Italy and Germany. This is, characterized as fascist.

But what about violence which is technically illegal and unconstitutional, but carried out nevertheless by duly constituted officials clothed with legal authority? What about such things as the breaking up of meetings and picket lines by official police and special deputies; wire tapping; inquisitions; screening and black-listing of "subversives;" and all the rest of the intimidation and terror of the witch-hunt? These procedures don't fit very well into the "democratic" formula, although their chief instruments are legally-constituted officials, supported and incited by press campaigns, radio demagogues, etc.

This kind of illegal violence under the outward forms of law has a distinctive American flavor; and it is especially favored by a section of the ruling class which has very little respect for its own laws, and cares more for practical action than for theories as to how it is to be carried out. This is, in fact, an important element of the specific form which American fascism will take, as has already been indicated quite convincingly.

The depredations of Mayor Hague, who announced that "I am the law," were a manifestation of this tendency back in the late Thirties. Trotsky, by the way, considered Hague an American fascist. He described his unconstitutional assaults on free speech and free assembly, through the medium of official police, as a manifestation of incipient American fascism I think he was right about that. If the work is stand around and wait until the labor movement is attacked directly by unofficial shirted hooligans, before they recognize the approach of American fascism, they may find their organizations broken up "legally" while they are

waiting. The truth of the matter is that American fascism, in its own specific form, has already a considerable army of storm troopers at its disposal in the persons of lawless prosecuting attornies and official policemen who don't give a damn what the constitution says. Incipient American fascism - already, right now - has a press and radio-television power which makes Hitler's "Angriff" look like a throw-away sheet. It has political demagogues, like McCarthy, who are different from Hitler mainly in the fact that they are clothed with official legal powers and immunity, while Hitler had to build up an independent, unofficial and at times persecuted movement without any official sanction. without any direct support from the established press, etc.

"McCarthy is different." say the formalistic wiseacres, as if that were a help and a consolation. He is indeed different in several ways. But the most important difference is that he starts with a great power behind him, and operates with formal legal sanction and immunity. The right comparison to make is not of the McCarthy of today with Hitler on the verge of taking power in 1932 but rather with Hitler in the middle Twenties. The main difference we find in this comparison is that McCarthy is way ahead of Hitler. * * *

Another point: The German-American Bund of the Thirties was not a characteristic manifestation of American fascism, but rather a foreign agency of Hitler's German movement. Neither is it correct to look now for the appearance of genuine American fascism in lunatic fringe outfits such as the Silver Shirts, Gerald Smith, etc. A powerful section of the American bourgeoisie, with unlimited means at their disposal, are already fascist-minded; and they have a big foot in the government, national and local. They feel no need at present of unofficial movements.

To the extent that such outfits will appear here or there, with the development of the social crisis, they will probably be subsumed in a broader, more powerful, adequately financed and press-supported general movement, which operates under more or less legal forms. It is far more correct, far more realistic, to see the incipient stage of American fascism in the conglomeration of "official" marauders represented by McCarthy than outside it.

A "St. George" to the Rescue

The liberals have been combing the Republican and Democratic lists for someone, anyone to lead the fight against McCarthyite fascism.

Some hope to stiffen Eisenhower's backbone, a doubtful project, for it appears that not even a golfing iron could accomplish that miracle. Some have turned hopefully in Senator Fulbright's direction as the only one among the crooks, cynics and cowards that pack the Senate who chose to vote against funds for McCarthy.

As the nation registered a wave of revulsion to both McCarthy and Eisenhower following the Stevens debacle, certain machine politicians pricked up their ears. The revulsion was a sign of polarization against McCarthyism. This, from their viewpoint requires watching - and leadership to keep it from getting out of hand.

And so Stevenson, the 1952 candidate of the Democrats took to the microphones and the TV cameras March 6. He stated a few truths about Republican dependence on McCarthyism and said, "The end result, in short, is a malign and fatal totalitarianism."

A great sigh of relief went up from the liberals. St. George was galloping to the rescue.

The reaction of leading Democratic Senators to Stevenson's bid for leadership of the opposition to McCarthyism was somewhat dif and the campaign which the SWP ferent, however. They questioned his speech, is waging against it. Here is the full text: although anonymously.

William S. White reported one of their reasons - undoubtedly the central one - in with the March 9 N. Y. Times: "That the Demo- leadership, disavowing with a crats could not directly attack 'McCarthyism' stroke of the pen its entire struggle against the 'pessimism without being accused of being 'soft to comof the minority,' sounded the munism'"... alarm on the fascist danger in

That is proof, we submit, that the top Democrats in the Senate actually lean strongly in the direction of McCarthyism. Even if they publicly deplote the methods of the Wisconsin fascist, at heart they are not so finicky. That was why they voted to finance his witchhunting activities for another year.

banquet.

On March 1 McCarthy advocated "labor" (read "concentration") camps for "communist" members of the armed forces, as well as those who seek the protection guaranteed by the Fifth Amendment against his "When did you stop committing sabotage?" questions.

The fascist Senator added that the camps should be made "disagreeable" for its inmates. He may have had in mind Hitler's concentration camps where gas chambers were installed to meet the dictator's norm for "disagreeable" conditions.

The ominous nature of McCarthy's latest proposal is underscored by the fact that a network of concentration camps has already been built in the United States. Under the terms of the McCarran-Kilgore law, in any "emergency" these camps can be filled with all those the government thinks "might" commit "sabotage" or "espionage."

The pattern of McCarthy's steadily growing power is in such deadly parallel to Hitlerism that only the blind can fail to recognize it. The menace of McCarthyism has become so apparent that even capitalist politicians who solicit the votes of the workers and minority groups feel compelled to demagogically declaim against it.

McCarthy Hits and Runs

Faced with the possibility of cross-examination under oath, Senator McCarthy on March 5 dropped his \$2,000,000 libel and slander suit against former Senator William B. Benton, Connecticut Democrat, who had charged on the Senate floor in 1951 that McCarthy was guilty of "perjury, fraud and calculated deceit of the American people."* McCarthy tried to withdraw the suit quietly. But when Benton made McCarthy's retreat known, the Wisconsin demagogue claimed he had halted the action because his lawyers could not find anyone who believed Benton's charges.

Too bad McCarthy didn't issue one of his numerous press releases asking anyone who believes the charges to step forward. Probably he was afraid he'd be crushed in the rush. We suspect that McCarthy's mouthpieces didn't try very hard to find such sustaining witnesses. If we had known about it, we could have scraped up a few thousand ourselves.

The Militant published the details of Benton's charges last spring when the Senate committee report confirmed them. We didn't use any qualifying language, like "it is alleged," either. We likened McCarthy to other witchhunters, such as former Representatives Andrew J. Mays and J. Parnell Thomas, whose anti-"communism" seems always to combine with a taste for the easy, tainted and crooked dollar.

We published the facts about McCarthy's successful solicitation of \$10,000 from the Lustron Corporation for a pamphlet on housing that wasn't even written, after McCarthy had proved of aid to Lustron in getting RFC loans, subsequently defaulted. We told of McCarthy's deposits of \$172,623.18 from Jan. 1, 1948 to Nov. 12, 1952, while ostensibly drawing down only a senator's salary, and of the \$144,501.84 of income going back to 1946 whose source the Senate investigators could not trace. Naturally, McCarthy six times refused to testify before this committee, hiding behind his senatorial immunity.

But when Benton made the facts public, McCarthy in March 1952 dared Benton to forego his senatorial immunity and face a

McCarthy said then he wanted to "get people mentally the Stalinists "can go like Benton on the stand under oath and only to the left" and "can no make them either tell the truth or perjure longer betray," the new draft of themselves." But it was McCarthy who feared to the Democrats: "To unite a to take the stand, not Benton.

The Negro Struggle By Jean Blake

Neither Eisenhower nor McCarthy!

"The important decision before the American people today," Walter White told a Long Island NAACP audience March 4, "is the choice between the leadership of President Eisenhower and that of Senator McCarthy."

That, we submit, is a confession of bankruptcy by Mr. White, executive secretary of the National Association for the Advancement of Colored People, and an admission that he is incapable of providing leadership for the Negro people he supposedly represents.

The first need in leading the struggle of the most oppressed group in America is the ability to see what the main problems facing them are, and to tell the truth about them. By stating the problem as Eisenhower vs. McCarthy, Mr. White leads only to the road of defeat that the German people took when they listened to leaders who told them the choice was a capitalist lesser evil or Hitler.

The truth is that there is no fundamental difference between McCarthy and Eisenhower. Both want to perpetuate the capitalist system with its Jim Crow features, its wars, its depressions, and all its other evils - at any cost. Their only disagreements are tactical, by what means they can best preserve it.

Neither Eisenhower, nor McCarthy - nor the Democrats both are willing to attack today — give a damn about the Negro people. And Mr. White knows it, unless he's kidding himself as well as others.

As a matter of fact, the Negro question is only a political football for all capitalist politicians, to be picked up, kicked around, or dropped as expediency or momentary advantage suggests.

For example, Eisenhower, Taft, and the rest of the leading Republicans stated flatly in the last presidential election campaign that they were opposed to Fair Employment Practices legislation.

McCarthy, on the other hand, voted for measures the NAACP considered in support of FEPC!

This by no means indicates that McCarthy is interested in the advancement of the Negro people - only that he considered it advantageous in his struggle for power against other segments of the capitalist class to use the FEPC issue.

Hitler, you will recall, also promised everything to the German people defeated in war oppressed by foreign and native capitalists, by unemployment and insecurity. He used every political football he could in his drive to power - only to shackle the people with fascist barbarism once he achieved his goal.

If the Negro people are to advance in the struggle for full equality, and take their rightful place among the leadership that will save the American workers from the fate of Europe, new leaders must come forth to replace the bankrupts like Walter White, who learned nothing from the tragic experience of Germany and Italy. New leaders with the understanding and courage to say: "Neither Eisenhower nor McCarthy! The decision facing the American people is socialism or fascism!"

That Servant Problem By Joyce Cowley

Notes from the News

Everyone's worried these days about rising unemployment, or that's what I thought until I saw a letter in the N. Y. Herald Tribune from a New Hampshire housewife who is not worried at all. She has evidently waited a good many years for this day and at last has the satisfaction of seeing these unemployed workers get exactly what they deserve.

"Not so long ago," she writes, "when World War II began, millions of housewives woke up and with our breakfast coffee received notices from innumerable Lenas, Marys and Annas. At first we were perplexed. We could hardly believe that our worthy maids and cooks would exchange their comfortable household jobs with the rigors of a war plant or factory. But they did."

Not only that, but - "They visited us on occasion and told us of 'time-and-a-half' and 'sick benefits' and 'vacation with pay.'"

But this housewife and her friends, coming no doubt from sturdy pioneer stock, were not dismaved.

"We polished silver easily and beautifully and enjoyed the fact that we could use our fine old pieces again — as during Anna's reign we had to pack them away. Too much work for the poor dear. Miraculously our china stopped breaking and our glass remained intact. Our husband could linger for hours at the dinner table without being nudged to get up and 'let Anna clear the table.' Guests could come at all hours and find a warm welcome. "What has this happy development in our lives to do with the mournful unemployment and depression talk? Only this. We shall never again employ the women who so grossly abused our patience, kindness and generosity. The economists had better face up to the fact that the former maids and cooks are today's and tomorrow's unemployed."

1 can't help wondering just how Anna "grossly abused" this woman. By quitting her comfortable 80-hour a week job for the rigors of overtime pay, sick leave and vacations? But the letter states emphatically that Anna really did her a favor by giving her the chance to polish the silver herself. Or did Anna's abuse consist of clearing the table too promptly so that she could spend a few hours with her own family or go to a movie?

I don't know what this vindictive housewife did with her time before she learned to cook and wash dishes, but while she's been studying Chevrolet Local 1030, UAW-CIO. household arts, Anna, Mary and Lena have The Organized Labor review, learned a few things, too.

They learned how to use tools and run machinery. They learned how to read blueprints and make electrical installations. They watched a giant jet take off with a feeling of excitement and pride because they helped to build it. They learned how to struggle against the boss. They joined unions, went on strike, walked picket lines alongside the men in their

THE SANCTITY OF PRIVATE PROPERTY is not widely accepted in the world, the vote at a recent session of the UN's Human Rights Commission indicates. The U.S. representative on the Commission was guite stunned when her declaration on the subject was rejected 12 to 2 as "unrealistic." Qualifications to that right, such as the right of expropriation, would have to be added, said the Australian delegate. Similar views were expressed by representatives of India, Egypt, Lebanon, the Philippines, Uruguay and the Soviet Union.

LINING HIS POCKETS. According to the Lorain, Ohio, Labor Leader of March 6, fascist Senator McCarthy is now one of the highest paid lecturers in the country. Among the hardest hit are the city's Puerto Rican workers. Almost 10% of them have now been forced to subsist on the city's miserably low relief standards. Mc-Carthy pointed to the amendments of two years ago to the State Unemployment Insurance law which denied benefits to many low-paid and seasonal workers as largely responsible for the increase in relief applications.
