double the amount of present GÉ plan:

Was First Big Company to Accept **McCarthy Plan Against Workers**

General Electric has more than one "plan" for weakening the militancy of its workers. Besides carrying through its "runaway" campaign, it is also the first big corporation to accept and execute McCarthy's demand that employers should fire any worker who fails to "cooperate" with congressional witch hunt committees or who refuses to testify about his political beliefs and associations.

(5) "A more rapid evolution of mechanization with more complete automation in some product lines," the aim of the new automatic equipment being to dispense with the services of thousands of present workers. ONE OF THE GIANTS

not moved out.

GE is one of the giant corporations and the biggest in the electrical, radio and TV industry. After deducting for "depreciation," it reported total assets of \$1,697,000,000 at the end of 1953, making it the eleventh biggest manufacturing corporation in the country. It employs 225,000 workers and had an income of more than three billion dollars last

Over half of GE's workers are in seven cities where the com-pany employs 10,000 to 40,000 people - Schenectady, Lynn, Evendale, Erie, Pittsfield, Syracuse and Fort Wayne. GE proposes to "decentralize," that is, to run away from these and other cities like Bridgeport, Philaelphia, Newark, Pro dence to smaller towns with lower wage rates and states with worse anti-labor laws. As one GE official put it, "So we may expect to hear more of GE plants like Edmore, Mich.; Limerick, Me.; Jonesboro, Ark.; and Waynesboro,

But what is the reaction of the He found it even more puzzling in view of that fact that "it is Indochinese workers and peasants no masterstroke of Soviet diplo- to such a gross betrayal of their interests?

Tillman Durdin, special corback to Paris as a hero with respondent of the N. Y. Times, indicated the answer in a July 24 dispatch from Geneva: "Evidence has accumulated here that Vietminh leaders are not entirely happy about the peace settlement newspaper found the Stalinist for Vietnam. A number of members of the Vietminh delegation sure from Chinese Communist line which they have controlled Foreign Minister Vyacheslav M. administratively and militarily Molotov forced their regime to

If such admissions are openly made by members of the delegation itself, we may imagine what their feelings are, and still more Another extraordinary concession made by the Stalinists was the feelings of the Indochinese

people. Durdin continues that "obtions in Vietnam, which they could easily win now, until 1956. servers" wonder if this reaction will lead to breaches of the And in France the Stalinists armistice by Vietminh forces. It hailed the whole perfidious deal s feared that this may happen and also that some Vietminh units This action of the French Stalinists constitutes one of the worst may refuse to stop fighting."

> REFERS TO TROTSKYISM Then he gives a most interesting explanation: "Trotskyism always has been prominent in the Vietnamese Communist move-

ment, and some important Vietminh officials once were Trotskyites. The philosophical germs French imperialism appears to exist, therefore, for opposition to

even more from the Stalinists. By "Trotskyism," Durdin refers Joan Thiriet, Paris correspondent not only to the revolutionary socialist movement founded by Leon wrote July 22, about "guarantees" Trotsky, but to the whole nationalist drive for freedom and transfer of profits and the right independence. It is against this of private enterprise" in the

drive as well as socialism that small section of Indochina left to both Moscow-Peking and Washthe Vietminh under the agreeington-London-Paris find common ounter-revolutionary grounds.

On July 23 the Associated Press We may be sure that Moscow reported that Peking radio had and Peking have already conbroadcast that "Ho Chi Minh's sidered what measures should be taken to ward off the danger to for private industry and comtheir reactionary deal. The Trumbull Park Riots -- Part IV THE MILITANT ARMY

It is not enough to fight a Trumbull Park here and there. Im Crow must be ripped out by the roots. Capitalism, the feel free to mobilize a mass action against the Democratic breeder of Jim Crow, must go, if Jim Crow is to end.

And capitalism will go! Workers - despite their prejudices — will fight side by side.

Capitalism breeds many evils besides Jim Crow, and every one who works for a living gets hit one way or another more than once — wars, depressions, low living standards, insecuri ty. When the white worker decides to get rid of wars and depressions, he will turn to the Negro for help. Without the Negro, the white worker cannot solve his own problems.

Thus in spite of prejudice - because they need each other and because they have a common enemy - Negro and white Committee." Since the local KCRC will unite to solve their common problems.

When the workers get rid of capitalism, breeder of wars had never given the local ADA credit for any connection, this and depressions, they will have gotten rid of capitalism, breeder of Jim Crow.

When the workers organize a socialist society, they will take over the factories and the government and run them in the interests of the vast majority, instead of in the interests of the few. There will be no need of Jim Crow for, as we have

seen, Big Business and its allies keep Jim Crow alive because

Under socialism, where the factories produce what people need instead of what makes profits for a few, there will be enough for everyone, and no one will need to fight his brother.

You have read the story of Trumbull Park. You have seen that capitalist politicians have actually aided the racists.

To win at Trumbull Park requires a break with the Democratic and Republican parties - the parties of Big Business and big landlords. For years the unions and the NAACP have followed a "lesser evil" policy. They think that deals can be made with Democrats or Republican politicians to win concessions for the people. Events at Trumbull Park prove them rong

When racist mobs attacked the home of a Negro family, at Trumbull Park, what did the Democratic mayor do? What did the Democratic City Council do? What did a Democratic nothing.

The union leaders and the leaders of the NAACP do not mayor and his Democratic Party. How can they point out that

the mayor is an enemy of the people and then ask the people to vote for this same bunch in November?

So long as the union leaders, the NAACP and the Communist Party have an alliance with a party of the landlords and Big Businessmen, they cannot carry on a militant struggle at Trumbull Park. They cannot carry on an effective struggle against lim Crow anywhere so long as they support the party of those who benefit from Jim Crow, so long as they support the capitalist system, breeder of race hate.

The Socialist Workers Party is a party based on the workers, farmers and Negro people. It has no ties to any boss. It says openly that it is opposed to the capitalist system, the bosses' system.

The Socialist Workers Party supports the right of Negroes was able to sell six copies in less to live at Trumbull Park. It urges independent action by the people themselves through their own - not the bosses' - organizations. It urges the formation of a Labor Party, based on Carthy and the response was the workers, the farmers, the minority organizations. Such a McCarthy was a menace." party would be free to act in the people's interests.

No confidence in the bosses! No confidence in the bosses' parties! Confidence in a workers' demonstration! Confidence Janet MacGregor reports, "Key in a workers' defense committee!

One is a new one from his route The Socialist Workers Party fights side by side with the which he has now increased to workers in their everyday struggle as it has done in Trumbull Park. It explains how to fight. It knows that action without a program, action without understanding, is bound to fail. Workers must know who are their friends and who are their enemies. They must know what ways of fighting will work.

The first step for every worker is to be willing to fight. The second step is to learn how. In the Socialist Workers Party Negro and white learn how to be effective working class leaders. Each November, all over the country, the Socialist Workers Party runs election campaigns. The party's aim is to explain its program, to win support for its principles, to show nore men and women how to fight effectively against fascism, war, unemployment and racial terrorism.

You will want to support our election campaign. You will want to join with us. You will want to help build the soparty machine, with Democratic precinct captains in every cialist society where the Trumbull Parks and the Ciceros will neighborhood including Trumbull Park, do? The answer is be things to read about in ancient history books - and where the brotherhood of man will be a living thing.

"The Nation" on Unions and McCarthy

The labor leaders are not waging an effective fight against McCarthyism. This is the valid criticism made by Bernard Nossiter in the July 24 issue of the liberal magazine, the Nation. "Almost every trade-union leader has announced from some rostrum his abhorrence of Senator Joseph R. McCarthy and his works." says Nossiter. "... But only a handful of the major unions have dealt directly with the threat McCarthy and McCarthyism pose to organized labor itself."

"Many of the anti-McCarthy statements have a feeble ring," says Nossiter. "They either take a lofty moral tone or picture McCarthyism as impeding the holy war against Communism."

"Even after adopting anti-McCarthy resolutions," he points out, "few unions have followed through with action." He cites as labor's greatest mistake, "its failure to launch a broad educational program aimed at arousing the membership to McCarthyism as an economic threat.'

Nossiter takes sections of the labor leadership to task for joining in the witch hunt. He correctly shows that their half-hearted way of combatting McCarthy is responsible for the alarming strength of pro-McCarthy sentiment in the unions.

Nossiter's criticism is valuable because he is the first liberal to indict the labor leadership for its failure in the anti-McCarthy struggle and because he forcefully warns the labor leaders that their necks are on McCarthy's chopping block.

However, his criticism does not go to the root of the matter. He does not show that the central failing of the labor leaders in the fight against McCarthyism is their attachment to the Democratic Party, to whom they look for the solution of all basic problems confronting

crats blocks effective action against this fascist menace. To wage a serious struggle, the labor of-

Party and mobilize labor's ranks in inde- comed the overthrow of one of the pendent struggle against Big Business. The first few legally elected governments requirement for that is formation of a Labor Party. Nossiter and the Nation oppose the witch Latin America. hunt. H. H. Wilson said in the Nov. 21, 1953 issue for example, that the charge of a "Communist menace" is "the most fantastic hoax of our generation." This is to their credit. They want the labor leaders to stand by civil the State Department did more liberties and fight McCarthy in earnest, but Nossiter wants these officials to continue their alliance with the witch-hunting Democratic Party at the same time.

Such demands upon the labor leaders are themselves ineffective. The Nation points to but does not in any way help to resolve it.

Incident off Hainan

Why did U.S. fighter planes shoot down two Chinese aircraft 13 miles from the Chinese island of Hainan?

Was it an act of "red barbarism" as the American press charged, echoing the Eisenhower administration's protest to the Chinese government?

The French capitalist press does not think so. An editorial in the conservative Le Monde denounced "American pervousness" and had no criticism of the Chinese.

Le Monde contrasted the coolness of the British reaction to one of their planes being shot down accidentally with the "development of force by the United States Navy" in allegedly searching for survivors of the British plane. It quoted the Manchester Guardian, liberal British newspaper, which asked why U.S. carrier planes were still searching the sea three days, after the accident. It suggested that the U.S. action might have been a provocation. Another French capitalist newspaper, Paris-Presse, emphasized the Chinese acceptance of responsibility for the attack on the British airliner and their willingness to make financial reparation.

ministration continues to encourage Chiang in murderous raids and commando forays against is very simple. Dump Chiang and recognize the right of the Chinese people to choose any kind of government they want.

As far as the collision between Chinese and American fighter planes is concerned, it is something of an exaggeration to call it "red aggression."

After all, will Secretary of State Dulles try ports: to tell us that if the situation had been reversed and Chinese fighter planes had appeared 13 miles from Catalina Island off the California coast, three days after a Russian plane was downed, that they would have been

allowed to continue "searching for survivors' unmolested? Free Enterprise -- 18 Jewels and Over

Free Enterprise is the great slogan of the American capitalists and their government spokesmen. It is the source of all liberty, they claim.

Free Enterprise, they say, is worth going to war over against "tyrannical Communist slavery" based on production for use instead of for profit.

But is it Free Enterprise when profithungry capitalists like those that own the American watch industry run to the government for higher tariff rates on watches made by their Swiss competitors?

The Swiss watchmakers are the best in the world, and their watches are the cheapest for the quality. The Swiss watch workers have, according to the N. Y. Times of July 28, the highest living standards in Europe - higher than those of the American watch workers, even if their money wages are less.

The American people have been buying Swiss watches on an increasing scale, while American watch production has declined.

Now this is all in accord with Free Enterprise which says, "Build a better mouse trap and the world will beat a path to your door."

Negroes in the Postwar World By ALBERT PARKER 16 pp. . . 10 cents The Struggle for Negro Equality By SAUNDERS & PARKER 48 pp... 10 cents PIONEER PUBLISHERS 116 University Place New York 3, N. Y. Catalogue on Request

But the American watchmakers set up a wail and a howl about "national security" and the "defense" effort. So Eisenhower raised the import duties on the "subversive" Swiss who were present to admire his watches by 50%.

The price hike will be in the kind of watches workers buy - 17 jewels and under. All told the Swiss watch importers estimate that it will ing his indignation to the Precost consumers in this country \$60,000,000 in sident. (!) higher prices for watches, both domestic and imported.

The Swiss are furious about the tariff hike and have every right to be. Eighty per cent of but a representative of the United Swiss watch production is sold in the United States, and 80,000 workers are affected. The president of the Swiss Federation of Watchmakers declared that Eisenhower's decision was the "first decisive break in our historic friendship with the American people dating back to 1850."

What galls the Swiss and other Europeans certainly have not yet measured is that the State Department threatens reprisals the extent and all the conseif they trade freely with the Soviet bloc. At the same time they are cold-bloodedly shut ica. . . out of the American markets. What are they

supposed to do? Starve? Beg for American handouts?

But perhaps Eisenhower made a mistake, and it won't happen again? It's no mistake. The tariff hike is in line with the real policy of his Big Business administration which doesn't give a hoot for the ideology of "Free Enterprise" except as a propaganda weapon. Its real concern is for Wall Street's profits, no sets if they had not been drink- Flanders resolution. The Negro Struggle By Jean Blake

For Equal Rights in the Unions

Union members in two Cleveland AFL locals face an important test this week. On August 3, Electrical Workers Local 38 will have the opportunity to end its shameful policy of relegating colored workers to second-class status by granting them full membership cards in place of the temporary permits they have held for over four years. On August 6 "lilywhite" Local 55 of the Journeymen Plumbers Association will vote on the membership applications of six Negro plumbers.

It should not be too difficult for the present membership of the plumbers union to understand why the colored workers want to join the union. They want the "right to work" that the AFL and other unions are always talking about - the right to work under union conditions and pay scales.

The Negro plumbers have worked at their trade for 6 to 14 years, and some of the colored plumber journeymen and contractors who employ them have more than 35 years experience. But the colored plumbers are employed at from \$2.25 to \$3 an hour, while the union scale calls for \$3.17 an hour plus 10 cents welfare pay.

The labor movement nationally has protested long and loud against the phoney "right to work" bills passed this year in a number of southern states, correctly exposing them as union-smashing bills protecting only the "right to work" for scabs, not union men.

But here is a case where colored plumbers are knocking at the gates of the union, undaunted by the stiff initiation fees of \$246 for journeymen and \$146 for apprentices. Some of these men have tried before to gain admission to the union, only to be given a run-around instead of an application. Recently, some of them saw white plasterers walk off a job, refusing to work with them because they were not union members. But these men are not scabs; they are workers, painfully aware of the value of union membership.

The situation in the electricians union is only slightly different. There Negro electricians have been working with temporary cards, paying the union \$2 a month since 1950. Two colored journeymen electricians have traveling union cards from other locals, yet the Cleveland local will not recognize them. These men want only their workers rights to full union membership.

By voting acceptance of their colored brothers as full union members, the Cleveland electricians and plumbers will protect their own pay scale and working conditions, strengthen their unions, help break down the disgraceful and tragic Jim Crow set-up which permits the bosses to pit worker against worker, and arm themselves for better defense against the national drive to smash or housebreak the labor movement.

How union men vote on this question, far more than how they vote in the congressional elections and state elections in November, will determine the fate of the present labor organizations.

Socialism" "Creeping

Attention has been drawn to the growth of government financial aid to special groups by the recent administration attempts to cut agricultural subsidies. The farmers, of course, have been taking a beating in the past couple of years and have been forced to rely on government aid to maintain their economic status. But the Big Business newspapers have been complaining about the "high cost" of subsidizing the farm industry, although this is the one industry where most of the proprietors themselves actually do some real work.

In a column published in the July 19 Farmers Union Herald, Drew Pearson refers to some significant figures on subsidies in the last few pages of the gigantic book containing the complete federal budget. "What may surprise some people," he writes, "is that the subsidy paid to businessmen is about twice as much as that raid to farmers. Farmers got \$523,000,000 for soil conservation, price supports and other government help in 1953; whereas businessmen got \$1,216,000,000."

This form of "creeping socialism" did not extend to small businesses. On the contrary, Pearson points out, it went to "helpless little groups" like U.S. Steel Corp., the big utilities and shipping companies.

billion, according to Randolph Paul, Former General Counsel of the Treasury.

Just before the end of the Truman administration, certain tax write-offs were run through with exceptional speed so as not to embarrass George Humphrey when he took over later as Secretary of the Treasury. Humphrey was the chief owner and operator of the M. A. Hanna iron and steel holding company. Shortly before he entered the cabinet his company got more than \$22 million in tax subsidies, through 70% and 75% depreciations allowed in five years instead of 25 years to two great American west, for just of the Hanna company's subsidiaries.

Notes from the News

"UNEQUAL PAY IS STILL THE RULE where no strong union or no union exists," Rep. Frances P. Bolton of Ohio said in Congress July 19 in speaking for a bill she introduced, "the overall purpose of which was to prohibit discrimination on account of sex in the payment of wages by employers." Rep. Bolton admitted that both the Republicans and Democrats "have had equal part planks in their platforms" which so far "ha.e but gathered dust." And now Rep. Bolton's bill "dies at the adjournment hour" of the 83rd Congress. She asks that the next session of Congress give the matter "thoughtful consideration," since "the exigencies of living continue to force women into the labor market.

TAKE TO THE BANK PAY for 171 of America's super-rich men, after taxes, averaged nearly \$800,000 each, according to figures recently published by the Treasury Department. The July 17 issue of Labor reports that the figures, based on 1951 tax returns, show these "171 individuals" had "adjusted gross incomes" of one million dollars or more in that year, although they paid an average of only 62% in taxes by using "the many loopholes in the tax laws to make deductions." With the 10% cut in income tax rates last January, these super-rich will get an extra ladle of gravy.

DOWRIES MADE THE DIFFERENCE in organizing an electrical plant in Philadelphia, says Les Finnegan in the July 19 IUE-CIO News. The union had met with only fair success in its effort "by explaining to the girls that if they joined the IUE-CIO they could win the same benefits enjoyed by 8,000 IUE-CIO Philco workers at a plant only a mile away." Then somebody remembered that Philco had "a severance pay clause in its contract." At the next organizing meeting the girls were told that "Under a union contract, such as the one at Philco," they would "all receive dowries if they quit their jobs to get married." It was explained that at Philco "they happen to call it 'severance pay,' in the contract, but the fact is that if you leave your job at Philco you get \$104 for each year of service. Say a girl at Philco works five years and then decides to get married; she automatically collects \$420 and that's certainly a nice dowry. If she works 10 years and leaves she gets \$1040." Within two days every unmarried girl in the plant had signed * * *

AND YOU FOOT THE BILL. Because the "Government has to take one of every two pounds produced," dried milk processors "keep turning the product out twice as fast as it can be sold to

normal users." Some factories that "never processed dried milk before . . . now turn out large quantities" and some "produce solely for sale to the Government." The July 27 Wall Street Journal reveals that "Government buying clips along at between two and five million pounds daily." This dried milk is then unloaded at "cutprice sales to livestock feed mixers" - "nearly half a billion pounds" since early May.

"CUSTOM-TAILORED KILLING" is Gen. William Creasy's specialty. An NEA staff writer, Douglas Larsen, reported on July 17 that Gen. Creasy, new chief of the Army's Chemical Corps., "could come closer to wiping civilization off the globe than anyone attempting the feat with all the hydrogen and atomic bombs in existence." His job is to "constantly improve the efficiency of killing in the field of radiological, bacteriological and gas warfare." Gen. Creasy says: "Actually our weapons are the most humane there are. We can tailor them to the exact needs of the situation. We can kill the enemy or we can just make him sick and knock him out for a fixed period of time. And we don't destroy property." Lucky for property.

ALARM OVER COMIC BOOKS is evident among California parents. The L. A. Times reports that the Parents Teachers Association Sixth District which includes San Benito and her husband's income. In June he Santa Clara counties has requested the State board of managers to study the possibility of going through their meager savlegislative action to outlaw the books that depict sadistic crime, perversion and vulgar sex and horror themes."
