Cops Attack ASR Pickets to Aid Plant Runaway

Mayor Wagner Moves One Day **After Elections**

BROOKLYN, Nov. 3-The election results announcing the victory of the Democratic "friends of labor" were scarcely in when the American Safety Razor Company,

backed by Democratic Mayor Wagner's club-wielding cops, group of strikers who were this morning, launched its most peacefully picketing in front of violent attack to date against the main gate. Election Results Seen Opening New Political Stage in United States

By the Editors

The election results open a new political situation in the United States. The Democrats, despite the failure of the heralded sweep to materialize, did capture a clear (V) majority in the House of Representatives, and according to the latest indications have won control of the Senate.

Two years ago in the presidential elections Big Business, through the Republican Party, pushed its own direct representatives into power and established a narrow majority in Congress. This brought to an end the 20-year coalition of labor and the Democratic Party.

Now the situation has been reversed. The premises for a rebirth of the labor-Democratic Party coalition have been established. Caught in a gigantic confidence game, organized by the labor officials and the Democrats, the workers tried to manifest their class will by rejecting the preferred party of Big Business.

The vote of the working class was a rejection of the brazen give-aways of the country's wealth and resources by the Big Business politicians to their corporation pals. It was a rejection of an administration which tells the unemployed "dogs" to "Go South." It was a rejection of union-busting and witch-hunting drive. And it was defeat for McCarthyism.

The fact that the workers voted as a class was evident everywhere. The heavy support for the Democrats came from the industrial centers; the main reservoir of

The majority of British dockers are members of the Transport and General Workers Union, a vast general union embracing nearly one and a half million workers in thirteen different industries. It is a union whose bureaucratic structure was patterned by Ernest Bevin and whose General Secretary is now Arthur Deakin, present leader of the British trade union bureaucracy.

Republican support came from the rural districts. In New York state the first returns came from the upstate industrial areas and New York City - and it looked like a Democratic landslide. But as the returns from the rural counties poured in the Democratic lead was cut down to a narrow margin.

In Michigan the powerful Republican senator Homer Ferguson was running way ahead. The early returns were Amalagamated Stevedores and from the farm counties. But his lead was "mowed down" when the Wayne County (Detroit) votes were counted.

It appears that the middle-class vote remained predominantly Republican with no more than marginal shifts movement that has aroused the towards the Democrats. This, in view of the Democratic victory, however close, underscores the solidity of the Democratic Party support among the workers.

> Thus a new chapter opens for the politics of class collaboration championed by the labor bureaucrats, the Stalinists and the leaders of the minority organizations. Sparked by initial victory the trend towards another experiment with a Democratic-labor coalition government in 1956 will become almost irresistible.

A Good Example By Robert Chester

I have just come from a meeting where a group of Philadelphia working mothers put the wheels into motion to save a child care center. It was an instructive experience.

The facts are not unusual. A city as large as Philadelphia has only 13 centers that together care for about 1,000 children. Funds are supplied partly by the working parents and partly by the city. School facilities are usually used with authority being given to the Board of Education.

The area around the McIntyre School in North Philadelphia has been steadily changing from white to colored, making the need for the center greater since a greater number of Negro mothers work. The area contains over 13,000 families showing that the facilities are too limited now. Yet it was announced that the center would be closed due to "limitations in space.'

A group of mothers, white and colored, went to work. They organized an emergency committee, made a survey of the needs of the area and began to send delegations to City Council, The Mayor, the State Senator and local dignitaries. They called a meeting at a neighborhood church whose pastor was deeply concerned with the problem. The meeting itself was car-

ried out with a dispatch that would do credit to any well-organized union meeting.

Since it was just before elections, the State Senator and City Councilman were trouble spots were schools where present and representatives of four city integration was window dressing departments attended. Full cooperation in keeping the center was promised, and integration was tried on a larger the prospect of additional aid discussed scale. with the usual admonition that the moth-

Youth -- Don't Wait By Joyce Cowley

About six months ago a constitutional amendment that would have lowered the voting age to 18 was hastily buried by the U.S. Senate through the combined efforts of Republicans and Democrats. This week at a New York Times panel discussion Dr. T. V. Smith, a Professor of Politics and Philosophy, revealed with surprising frankness why the politicians don't welcome 18-year-old voters. According to the Times:

"He warned that young people were prone to carry idealism into politics and expect too much from government officials."

Very dangerous! They might, for example, expect elected officials to carry out their campaign promises. Dr. Smith also noted that "sportsmanship and magnanimity were a part of party politics, and that, despite campaign charges, mudslinging and all the other fury of campaigns, the winning and losing candidates resumed their friendship after the votes were tallied. He added that youth would not know this and in its idealism might spoil this facet of politics."

Apparently a youth of 18 may not accept the fact that the men who have been yelling "Villain!" are really buddies. He might be unreasonable and accuse them of double talk. He might even conclude they were both right when they called each other thief and liar. Young people are not supposed to have any voice in shaping the policies that may quite literally mean life or death for them. A fifteen year old boy who attempted to attend a talk by Judge Leibowitz on juvenile delinquency was told that he was "too young." The boy of eighteen who is about to be drafted is "too young" to decide the issues of war and peace.

(Continued from page 1) realignment in American politics.

The labor officials have succeeded in sidetracking the organization of a Labor Party. A new experience will now be needed in order to shatter illusions of the workers and convince them that their is no substitute for their own political organization. Meantime the class conscious workers have the task of telling the truth about the political trap the labor officials have led the workers into.

The advanced workers must base themselves on the fact that the organized working class vote for the Democrats was a deformed expression of the workers' will to act as a class politically — this will to class action cannot be obstructed indefinitely by the policy of the labor bureaucrats.

There will be no lack of opportunity to back up explanation and propaganda with hard fact. The Democrats won an election victory with the support of the workers but the Democratic Congress cannot solve the burning problems of the workers.

Both the Republican and Democratic parties hastened to make clear, even before the votes were all counted, that on the fundamental question of foreign policy they stand united. That is, they are united on the drive toward World War III — the war against the Soviet bloc and for the imperialist conquest of the world.

The hesitation of Wall Street at taking the plunge into atomic war will continue to provoke profound economic difficulties at home. Short of all-out war the capitalist parties cannot avert economic depression and mass unemployment.

Thus the continued rule of capitalism will inflict greater hardships on the American workers and speed their education in class politics.

But the Democratic Party and their labor lieutenants will utilize every device to prolong the imprisonment of the unions within capitalist politics.

The Democrats will be long on demagogy and short on performance in the next two years. They will duck every test on the burning issues: unemployment, union-busting, the fight against Jim Crow and discrimination in schools, housing and employment, and the fight for civil liberties. For all these defaults on campaign promises they will have a ready alibi:

"We cannot carry out our program," they will plead, "as long as the executive remains in the hands of the Republicans. Another alibi will be that one third of the Democratic strength in Congress is based on the Dixiecrats, who because of their seniority will head the powerful

committees. The argument will be: "It's Bankrupt financiers and brokers true the Dixiecrats vote with the reac- started jumping out of sky. tionary Republicans, but we cannot hope to win a majority in '56 without themso we must be careful and not alienate them by pushing our program all the haunted by the memory of what way."

of the workers with a "Democratic" depression, will be the basic factors regulating the speed with which the workers find the present political road of the labor officials unténable.

The elections recorded a change in the specific weight of the McCarthyite fascist movement on the national scene. The outstanding McCarthyite candidate, Joseph T. Meek, in Illinois, was defeated, significantly by the heavy vote of the industrial centers. The test McCarthy candidate in the fascist Senator's home state of Wisconsin, Charles J. Kersten, running for Congress, was defeated by a wide margin.

Thus instead of acting as the whipcracker over a Republican Party that is firmly entrenched in power, as they did after 1952, the McCarthyites are now a minority of a minority party. It would be criminal to deduce from this that the fascist menace no longer exists. The fascists as a matter of fact can experience their most important phase of development during the next period. In the fight over who was responsible for the Republican defeat, in the Senate censure fight, in the selection and hardening of cadres, in seeking coalition with the race terrorists, in broadened experiments with social demagogy, the fascists will prepare an executioners axe against the labor movement.

But the perspective of America's development depends on what the workers do. The whole reactionary course of capitalism, towards war, depression and fascism can be reversed once the workers tear loose from the bondage imposed by the political policy of the labor officials. The main task therefore, facing the militants, is to patiently and tirelessly expose the role and policy of the labor bureaucrats.

representative in the case told the local branch of the NAACP at its Oct. 31 membership meeting. The Commissioners in their resolution recognized that confinement of Negro firemen to Stations 14 and 30 violated the law. But they left in the hands of race-hating Fire Chief Alderson the initiation and execution of a gradual transfer of personnel from these two stations to such other stations "as he may deem to be in the interests of the city and of his department." Thus the Board of Commissioners capitulated to the show of force that Chief Alderson and his LEON TROTSKY supporters organized at a Fire Commission hearing on Oct. 8. The capitalist press heralded The Meaning of Atomic he demagogic statement of the 'iré Commissioners (who are dictly responsible to the Mayor) s a victory for the anti-segregation forces. Stalinist Treachery in Election

Although making a pretense of supporting the American Labor Party slate in New York, the Communist (Stalinist) Party actually threw its weight behind the Democratic ticket headed by multimillionaire Averell Harriman. Never did the Stalinists play a more devious and treacherous game to help line up radicalminded workers for one of the war parties of Wall Street imperialism.

During the campaign the Stalinist Daily Worker kept assuring the ALP supporters that the CP trick of carrying water on both shoulders — encouraging support of Harriman and urging backing for the ALP — would not jeopardize the ALP's regular place on the ballot, which requires a minimum of 50,000 votes for governor. Largely as a result of the knifing it received from the Stalinists, the ALP's candidate for governor, John T. McManus, received only 44,862 votes. The ALP, it appears, is no longer entitled antomatically to a place on the ballot.

"Under the conditions of the prevailing anti-GOP tide, it is perfectly possible for the ALP to get far more than 50,000 votes and not weaken the objective of defeating the Rockefeller-Dewey-Ives machine," wrote Simon Gerson in the Oct. 28 Daily Worker. "Votes obtained for the ALP will NOT help elect a Republican. Of this the most worrisome can be assured.'

This implies that if votes for the ALP would divert necessary votes to elect Harriman then the CP is in favor, by all -means, of voting Democratic. This was made more explicit by George Morris in the October 31 Worker. He wrote that "the paramount objective, understood here as all over the country, is defeat of the Eisenhower-Dewey-Ives forces . . . The issue is not so much whether Harriman is 'better' than Ives, as the urgency of defeating the latter and his entire ticket." Morris even finds it "unfortunate" that "some unions in New York . . . are not overworking themselves for the ticket they endorsed."

working class! Stand firm in the prin- | ful and not the conscious activity cipled struggle against class collaboration of the vast majority of the popin politics. Work for a total break with capitalist politics and the launching of an independent Labor Party!

On Nov. 3, the Daily Worker jubilantly proclaimed in massive headlines its joy at the Democratic victory: "HARRIMAN WINS - N.Y. Labor Routs Deweyism." The Stalinist sheet hailed the "coalition . . . organized behind Averell Harriman,

Democratic-Liberal nominee" and boasted that "progressive forces in the state, while backing the American Labor Party slate, also helped advance this anti-GOP coalition supporting Harriman."

Minn. SWP Vote In Senate Race Double 1952

MINNEAPOLIS, Nov. 4-Vincent R. Dunne, Socialist Workers Party candidate for U.S. Senator, polled 8,372 votes on Nov. 2, the latest returns showed today. This is

far more than double his vote for the same office in 1952 when the total vote in the state was much higher.

Dunne had campaigned on a socialist program in opposition to capitalism and war. He is a former leader of the famous Minneapolis truck drivers union and had played an outstanding role in the 1934 strikes that made Minneapolis a union town.

With the strong backing of the Minnesota union leadership Sen. Hubert Humphrey, Democrat-Farmer-Laborite, won an overwhelming victory against his Republican opponent State Treasurer Val Bjornson. Humphrey got the labor officials' backing despite his leading role in pushing through the anti-union "Communist-infiltration" law in the last Congress.
