A Search for Justice

Nathan Kaplan has been looking for justice for 16 years. He spent 71/2 years in prison for a crime another day — when the struggles of all political, social and economic life historical heritage. It counterman admittedly committed. But Nathan Kaplan can't get oppressed peoples and classes and culture of this country. the stigma lifted from his name and record.

Kaplan, an unemployed jewelry salesman now 51 years old, was indicted on Sept. 28, 1938, charged with the sale of heroin to an undercover agent of the government. Six this or that continent) or by cul- ment of America. This is a neces months later a superseding indictment was returned against a "Mr. Kaplan," a "Max Kaplan, alias Brownsville Kitty" and two other men.

There was a Max Kaplan, all right, and he even looked like Nathan Kaplan. But Max disappeared from his usual haunts right after the second indictment was issued. The ${f t}$ wo confederates pleaded guilty and were given prison sentences.

the indictment at least 50%. The government produced as its chief witness a prostitute, who was a drug addict and history being a weapon. A cena paid government informer. On her testimony, the innocent man was sentenced to up to 12 years in prison.

It looked like a routine case. Except that Kaplan kept loudly protesting his innocence. Not just when somebody asked him or just for the record. He never stopped proclaiming his innocence. When he was finally released in 1946, he began a desperate search for the man who had really committed the crime and could clear Nathan Kaplan's name.

After four years, in March, 1950, Nathan Kaplan found his man — a Max Kaplan, who admitted to the crime for which Nathan had served time. Max Kaplan told Weinfeld, the original trial judge. Max's two confederates cial report that over 200,000 called back to the job and the back to their former jobs. A sff in industry in some cases income didn't increase during 1954 by 34.8%, you and the plants are gradually going back similar state of mind prevails seek a solution of their problem rest of the General Motors' workers didn't do as well as also testified and affirmed Max's confession. their unemployment benefits last to a five-day week.

After four years, in March, 1950, Nathan Kaplan year without finding new jobs. found conflicting testimony between the prostitute stoolpigeon of the Federal Narcotics Bureau and a bureau lived in Allegheny County where agent. The Judge declared the conviction of Nathan Kaplan "a grave miscarriage of Justice." This opinion was publicly 1946. seconded by Joseph Martin, the Assistant U.S. Attorney who had prosecuted Kaplan.

But the law did not permit the Judge to set aside the iury's verdict after two years. On Judge Weinfeld's re- in a city wage tax. Justice Dept.'s Frameup System

During the past year and more, The Militant has exposed the Department of Justice's practice of maintaining a stable of paid informers who make a profession of testifying for the government in cases involving the Smith Act, the immigration law and similar witch-hunt measures. The revelations of Harvey Matusow, one of the department's main stoolpigeons, only further confirm that what is involved is a deliberate system of frameup. This system already has been used to convict more than a hundred persons and to send scores of them to prison.

The authorities involved in these frameups are now trying to minimize the role of Matusow, salvage the testimony of other informers and prevent their system for obtaining convictions through false witnesses from being destroyed. Without such lying witnesses, the government could never have sent a single person to prison or deported a single political dissenter. Without them, the Mc-Carthyite-type committees that flourish in Congress would have to close shop for lack of business.

The Feb. 5 N. Y. Times editorially admits that "the shabby business of the paid professional informer, which has reached new dimensions under governmental encouragement during the past few years, has been given a blow" by Matusow. It even calls this case "a new warning against the unquestioning acceptance by political and judicial authorities alike of the accusatory statements of the professional informer." But it claims that: "Obviously the confession of this one erratic informer, who may or may not be telling the whole truth even now, does not invalidate all the other testimony in cases involving subversive activities."

What "other testimony"? The government's case in all the numerous trials of the political witch hunt has been based almost entirely on the testimony of paid informers. And Matusow's is not the first instance of confessed or demonstrated perjury in these trials.

Paul Crouch, formerly the highest paid informer on the Justice Department's payroll, collected \$9,675.50 from July 1, 1952 to May 31, 1954, as an "expert" witness for the government in more than 60 trials and hearings. He slipped up when he testified in detail at the Smith Act trial last year in Philadelphia about a certain David Davis, whom Crouch in the 1949 Bridges trial had denied he ever knew. Another top-priced informer, Manning Johnson, who had received \$9,096 in two years from the Justice Dept. as a "consultant," was exposed when he testified falsely in the UN "loyalty" case of Dr. Ralph Bunche. Johnson was asked why he had denied under oath that he was a regular FBI informer. He answered he would lie under oath if directed to do so by his employers.

In the Detroit Smith Act trial, two FBI agents, Milton J. Santwire and Stephen J Schemanske, were forced to admit a whole series of perjuries, including their denial of having known each other and of having collected \$300 to \$400 a month from the Ford Co. in addition to their regular FBI pay. Yet their testimony was used to convict a number of innocent persons.

We are dealing with frameups - deliberate and calculated. The FBI and the Justice Department know what they are hiring when they buy the testimony of these slimy informers for money. They have to use perjured evidence because their whole charge that Marxism is a "conspiracy" to overthrow the government by "force and violence" and that Stalinism is "Marxism" is false.

The Justice Department has out off its nolonger-useful hirelings like Matusow, Crouch and Johnson. But the persons they perjured into prison are still behind bars. The convictions of every single person based on testimony of such paid informers must be thrown out and every indictment based on such bought perjury must be scrapped. The only criminal problem that remains is the exposure and indictment of all government figures involved in this foul frame-up system.

And priests, inasmuch as it knows after a week or so they must

Malenkov is credited with fostering a turn toward production of consumers goods upor assuming office on Stalin's death; Krushchev is credited with insisting on the further development of heavy industry. Thus the change in status of the two bureaucrats is considered a reflection of a change in policy.

Unfortunately for this interpretation, it does not coincide with the facts. In the spring of 1950, while Stalin was still alive, Krushchev advocated the construction of agricultural cities, some 50,000 of them in Russia, perhaps several hundred thousand in the Soviet Union as a whole. On January 18, 1951, Knushchev promised that these proposed new cities would bring life in the countryside close to urban standards. No more oneroom huts, but two to fourroom apartments. This proposal was vetoed by Stalin.

MALENKOV'S POSITION

At the 19th Party Congress,

Malenkov mentioned it in passing. In a speech Oct. 6, 1952, he Malenkov, one of the charges said: "These comrades are mistaken in having forgotten the main economic task of the that he "in every way impeded kolkhozes — production — and have given priority to derivative consumers' goals and to the tasks of everyday life. . ." In and development of agriculture." brief, Krushchev made a mistake in suggesting that consumers needs should be given priority over development of production. in our country."

Even when Stalin's heirs were In analyzing the conversion of regime could be expected, the making their most glowing Beria into a scapegoat for the promises of big increases in the standard of living of the Soviet G. Wright made the forecast: masses, Malenkov indicated at "The most critical year for the August 1953 sessions of the Soviet agriculture will be 1954." The Negro Struggle By John Thayer

A Truthful Book on School Segregation

SCHOOLS IN TRANSITION. Community Experiences in Desegregation. Edited by Robin M. Williams, Jr. and Margaret W. Ryan. Chapel Hill: University of North Carolina Press, 1954. \$3.00.

Here is a book that can be read with profit by all those interested in the struggle against Jim Crow. It will be especially valuable to those who are involved in the immediate struggle for school integration in their localities. So if you are in an NAACP branch or on a union anti-discrimination committee that is working to root out racism in local schools get hold of this book and read it.

It is a factual account of the desegregation in varying degrees that took place in 24 communities in the period after World War II but before the U.S. Supreme Court decision. This desegregation resulted from changes in state laws or constitutions in an arc of six northern and western states (New Jersey, Ohio, Indiana, Illinois, Arizona and New Mexico) which border the border states.

The geographic location is of importance for two reasons. These communities give a fair sampling of the problems to be met in the border states since in the main they represent the same level of Jim Crow. And it must be remembered that school desegregation has really just begun in the border states. (For example, in Maryland only the city of Baltimore has attempted any desegregation as / yet.)

Secondly, the interest in the Supreme Court decision has caused many people in the North and West to look around and thus discover open and concealed forms of school segregation in their own communities. Knowledge of the devices by which a number of the 24 communities under study in this book sought and sometimes succeeded in evading true integration will prove valuable to those who wish to

unmask or counter segregation-by-subterfuge

Merely to present the facts about any aspect of the Negro struggle is to be partial in the struggle - partial to the Negro people. It is always thus in history — truth is on the side ministration job under the "loyof progress and the lie a weapon of reaction. Opponents of Jim Crow will derive satisfaction and profit from this book, the white supremacists will grind their teeth and denounce it.

As a matter of fact the pose of impartiality on the desirability or non-desirability o school desegregation improves the book for participants in the Negro struggle. They have no need for exhortations or sermonizing about the desirability of school integration, but they can use information which is ammunition for further struggles.

The field investigators have done a good job - pointing out the degrees of desegregation ganized in 1948, it is at present attempted from token and reluctant to pretty. good and whole-hearted. They have also, in social workers' phraseology, indicated the class forces at work in many of the communities. Nor do they overlook the crippling effect that for 2,758 copies sold to date. At housing segregation has on the best-intended the rate of 5% per copy (the integration programs. Indeed a study of South Bend, Indiana, which never before had school segregation shows that neighborhood segregation of a growing Negro population is rapidly producing school segregation.

This shows how indivisible is the battle against Jim Crow. A gain in one field is encroached upon and endangered by other social forms of racism. Herein lies one of the fatal account of a courageous man's flaws of gradualism.

NEW YORK, Feb. 7 - James Kutcher, the legless veteran who was fired from his Veterans Adalty" purge, today received his first royalty check from the sales of his book, "The Case of the Legless Veteran." He promptly turned the check over to the non-partisan Kutcher Civil Rights Defense Committee to aid in the work of acquainting the American public with the important civil liberties issues involved in his case and to help defray the Committee's considerable legal expenses.

"Bird Dog" from Altoona By Roy Gale

You meet the most interesting people waiting in line for your unemployment check. Last week I talked to a fellow that had been laid off the Pennsylvania Railroad in Altoona. I thought I was in bad shape until he told me the conditions in his home town.

'Things are really tough there," he said. "I was lucky. I have only been out of work for three months. But my cousin was laid off a little over a year ago."

He told me that Altoona was fast becoming a town of hopeless men. The reason? Widespread layoffs in the yards and shops of the Pennsy. Over 9,000 workers have been "furloughed" in the last year. Most of them, he said, have already exhausted their unemploy ment benefits. And since the town is centered around the railroad shops it means that workers in other industries that serve the railroads are facing layoffs or have already been fired. I asked him if he was a "bird dog" out searching for work. "You bet I am," he said, laughing. "I can get out of Altoona because I am single. But the rest of my family is stuck there. My old man is still working because he has a lot of seniority. But my cousin worked in the shops eight years and that was not enough to save his job."

they don't know any other work. What guarantee do they have that if they do go out "bird dogging" they can find other work. If page advertisement of a book they move out they lose any chance of getting the meager rations that local relief agencies dole out to unemployed workers who have exhausted their benefits.

He told me he had "kissed off" railroading as a "career" and had moved away with the intention of getting into some other line of work. He knew it was going to be tough. When you seek new employment in a field different from your last work the boss is always suspicious. Until you prove yourself he always has the idea in the back of his head man's simple story of his fight that you had to leave for some reason that for the right to dissent."

He told me of other people he knew that were in the same fix. Most of the men have never worked at any other job. Railroading is all they know. Now they are faced with trying to get back on the Pennsy or some other railroad.

They are tied to the town by a hundred strings. Homes, families, and most important

reflects on your character.

And how can a man prove himself until he gets a job? And how can he get a job in **Big Money Dined** Altoona when there are thousands of other men out of work? Nine thousand jobless By White House workers in a city of about 80,000 people. How can they be absorbed into the industrial life of the city unless the work is spread around? No one has offered that solution and it ed it into the state dining room wouldn't do much good anyway - unless at the White House. In 38 dinsame take-home pay.

"My cousin is going to stick it out in Altoona," he said, "because he has decided in the country. that he can't afford to move. He's got a house half paid for and two kids to look after. His wife's family and his family live there and so they figure they will get by somehow. If he tried to move it would cost him more than he can afford. And anyway he is not sure he can find work somewhere else."

Notes from the News

FRINGE BENEFITS SWELL CONGRESS-MEN'S PAY. Congressmen who are talking about raising their pay by at least 50% already enjoy many "fringe" benefits which swell their \$15,000a-year salaries. These benefits include: a \$3,000 a year tax exemption to cover Washington living expenses; a furnished office in the Senate or House office building; a \$1,200 stationery allowance each session; unlimited franking privileges for regular mail plus \$200 for air mail and special delivery stamps; free local telephone service plus 2700 minutes free long distance telephone service; they can send 1,000 words of telegrams free each month; and receive partially subsidized meals and medical care.

PUBLIC HOUSING RESIDENTS cannot be evicted for failure to sign loyalty oaths, the Appellate Department of the Superior Court ruled in Los Angeles on Jan. 20. This reversed the Municipal Court which had ordered the eviction of four families for refusal to sign loyalty oaths. The Department ruled that housing residents could not be compelled to sign loyalty oaths and, furthermore failure to sign did not brand residents as subversive.

WAGES NOSEDIVED from \$8 to \$1.25 a day between March and July 1954 for restaurant and hotel workers in Phoenix, Arizona, after that state passed a "right-to-work" law.

GENERAL ELECTRIC'S latest anti-union weapon according to the U. E. News is a new Time Motion Survey calculated to squeeze the last drop of energy from the workers. Every muscle in the human body is charted to the hundred-thousandth of a minute. Now all the boss has to do is look in the book for the time on any particle of a job. For instance: one three inch hand motion is charted in minutes like this: .00130 to start; .00040 to travel three inches; .00130 to stop; totaling .00300 of a minute.

EXPECTANT MOTHERS who are employed by the state of Vermont have been denied sick leave during pregnancy. The N. Y. Herald Tribune reports the ruling as follows: "Since pregnancy is accepted as a natural state rather than primarily and basically 'sickness,' it appears illogical and inconsistent to grant sick leave for a condition not primarily sickness."

GENERAL MOTORS CORPORATION built 327,495 cars in January compared to 317,084 in December and 211,756 in January of last year.

NO PAY RAISE THIS YEAR. Emil Rieve president of the CIO Textile Workers Union of America made that announcement Feb. 5 in Boston to delegates from 500 locals of the union. He admitted that textile workers needed a raise badly but said they would pass this year because of the "serious depression" in the industry. Textile workers have had no raise since 1951.

RADIO AND TELEVISION TIME will be denied to all political candidates who are "communist-controlled" if a bill introduced by Sen. Butler (R-Md.) passes.

UNION LOSES RIGHTS. The NLRB ruled Feb. 2 that Maurice E. Travis, secretary-treasur- corporations attended, including er of the International Union of Mine Mill and Henry Ford II, and GM's Harlow 35% rise in profits after taxes ing and fighting for their basic Smelter Workers (Independent) falsely signed Curtice. OIL MEN AND BANKERS

The list of "country boys" has 13 who modestly identify themselves as "oil men." This does not include the four Rockefellers who have climbed the ladder of private profit, into the lofty heights and now wish to be known as "investment managers," "bankers," and "businessmen." Investment men and bankers were favored with 37 invitations.

Only one Negro was invited: Frederick D. Patterson, President of Tuskegee Institute. This Andy." Gosden listed himself as a Radio Producer.
