In his speech last night Thurgood Marshall, NAACP Special Counsel who directed the long court battle on school segrega-Something like 100.000 Clevetion, outlined plans and perspectives for the continuation of the

struggle. Marshall declared that despite threats of endless litigation and unlawful acts by the White Citizens Councils, "We take the position that we find absolutely nothing to retard us in adhering to our general program — to push ahead without delay in insisting upon desegregation in all of the Southern states."

NAACP DEMANDS

The NAAOP's demands on the Southern school boards will be: (1) That they give minimum evidence of "good faith" by declaring that race can no longer be a basis of assigning students to schools; (2) that by this September they work out plans for desegregation; (3) that some concrete steps toward desegregation be put into effect for the 1955 school term; (4) that the board's plan include step-by-step desegregation during the coming school year; (5) finally, that desegregation be completed no later than the school term starting September, 1956.

Commenting sharply political pressure on the NAACP soft-peddle the issue of

"Those who chant their praises of democracy but who

labor and its adversaries when This scathing indictment of Roosevelt was not followed by

Murray, Dubinsky, Hillman, etc. -did not even give support to Lewis' verbal attack on Roosevelt. Murray, whose strike "strategy" had been merely dependence on Roosevelt and "New

Dealers" like Davey, Earle and Kelly, said not a mumbling word.

Later, the story was to be circulated that the Little Steel strike had been a "mistake," that Murray had been induced to call the strike because of "misleading" and "over-enthusiastic" reports from local organizers and leaders in the Little Steel areas. The strike was lost only because of "misleading" and "over-enthusiastic" belief in Roosevelt and the other Democratic capitalist "friends of labor." Had the SWOC leaders prepared the workers for a real battle, with dependence only on their own organized strength, there would have been a different story to tell, as the Toledo, Minneapolis, San Francisco and Flint strikes had already proved. The Little Steel defeat was the first serious setback for the CIO. It slowed up but did not halt the CIO's drive. The eight unions with 900,000 members that had formed the CIO in strike, could no longer contain November 1936 grew to 32 international unions with a membercoast-to-coast broadcast, Lewis ship of 3,718,000 in September 1937. The AFL Executive Council in September announced a total AFL membership of 3,-600,000-less than the CIO. The AFL leaders claimed 1,000,000 new members, however, demonstrating that the impetus given to organized labor by the CIO's

campaign had benefitted the AFL as well. (Next Week: First Retreat of the CIO and the Start of the War Program.)

All the commotion and ballyhoo around Operation Alert had nothing really to do with "civil defense" against a thermonuclear attack. (See article, Page 1) The H-bomb presumed to have been dropped on New York City, "killing" 2,991,258, was only one-third as big as the one the U.S. dropped on Bikini. And a lot of "progress" has been made since then.

Greater realism, however, would have made unnecessary any drill at all. Then why was Operation Alert organized?

Keep in mind the following facts: Wall Street's government in Washington is the only government that has ever dropped atomic bombs on human beings. High functionairies in the government have shocked the world by talking seriously of dropping A-bombs in the cold war. Eisenhower's administration has insisted on the decision to equip the armed forces of NATO with atomic weapons — despite opposition of some of its allies.

According to American sources in Moscow, the Soviet Union has no civil defenseset-up, no demarcated shelters, and hasn't had an air-raid drill since World War II.

Operation Alert was not a serious preparation for civil defense also because the Big Business government in Washington doesn't seriously expect an unprovoked atomic attack from the Soviet Union.

However, Big Business did want the Soviet Union and China to know that the American billionaire's Government will not hesitate to risk a nuclear war. Operation Alert was a threat. The USSR and China understood its purpose and protested.

为

The liberal New York Post, June 16, complained that "there could hardly have been a less propitious moment for yesterday's national production. It came on the eve of international talks that have stirred

McCarthy, whose sinister figure loomed so large on the American political scene only a year ago, emerged from his present relative obscurity to make a significant speech in the Senate.

The subject under discussion was ratification of the Austrian treaty and the forthcoming Big Four "summit" talks. McCarthy's was the only voice to make a fulldress attack on the treaty, the talks and Eisenhower's foreign policy in general.

"The administration's present foreign policy is to cooperate in the current Communist peace offensive by having this country play the role of straight man for a flicker of hope throughout this warweary universe... To seem to be advertising the certitude of doomsday can only feed the accusation that we are just going through the motions of diplomacy."

Signed articles by contrib-tors do not necessarily rep-

utors do not necessarily resent The Militant's poli These are expressed in its aditorials.

The liberals try to cover up the naked guilt of the Wall Street government. They complain bitterly of bungling, ineptness, lack of tact. They wish at least the appearance of peaceful intentions and lofty motives would be maintained.

But the ruling parties, both Republican and Democrat. know what they are doing. For them the moment couldn't be more propitious. They meant Operation Alert to be a threat. They intend to keep the war program and the war perspective alive until all opposition to Wall Street is subdued.

There was also a domestic motivation for Operation Alert. Eisenhower's proposals for nearly \$32 billion for the Defense Department was coming up for debate. On June 20 it was passed in the Senate.

While there was little doubt that the appropriations would be passed, Eisenhower's proposal for Universal Military Training, euphemistically called the "reserve plan," has met with considerable opposition.

Two days after the mock atomic raid, Eisenhower, over the head of Congress, appealed to the public for support of his "reserve plan." He declared that the program "must" be enacted "for the security and safety of the . . . people." Operation and most predatory monopolies for dollars which are extremely Alert was supposed to frighten people into in the world (Standard Oil of scarce in Argentina, and refuses accepting Universal Military Training. Eisenhower's H-bomb attack was simu-

lated but the military reserve program is quite real. In its original form or as presently modified by the Senate, it will put the youth of America in a capitalist capitalism deprives other counmilitary straightjacket for years to come.

McCarthy Makes the Record

The neo-fascist Senator from Wisconsin is well aware of the role that the Big Business masters of this country have assigned to him. He doesn't like it, but has had to accept it. Now he is making the most of it and preparing his arsenal for the future.

U.S. capitalism is rolling along in a period of economic prosperity. The four wheels of its political limousine are the Democratic-labor alliance and the Eisenhower and right-wing Republicans. With adjustment and realignment every so often they seem to be working satisfactorily.

The ruling class has put McCarthy on the spare tire rack. A spare tire doesn't get much action or attention. That is as long as everything goes well. But when rough roads the spare tire can be the saviour. This is what McCarthy is banking on. He is preparing the record of his opposition to the present policy of easing the cold war. Discreditment of Eisenhower's diplomatic policy (and all imperialist diplomacy is discredited in time) will enable McCarthy to crow his record of having stood alone in "patriotic" opposition to "treasonable sell outs to Communism." But the best laid plans can go amiss. If labor comes onto the political scene in its true colors - that is as a Labor Party ACTU gained a dominant posi-- instead of me-tooing the Democrats, McCarthy may never be able to build up the menace of an American fascism that was so formidable a short time ago.

ed, intimating the good prospects for formation of a Catholic Christian Democratic Party in Argentina on the style of Italy's Christian Democrats, and how such a party would mean "Western democracy" instead of the Peronist dictatorship.

Now, a Christian Democratic Party that would give away the vast natural wealth and resources of Argentina with the same readiness that the Italian Christian Democratic Party beats down the heads of Italian workers and peasants would be ideal for Yankee imperialism.

But to ask weak native Argentine capital with its extremely narrow social base to begin building a broad parliamentary party, particularly at a time of acute class antagonisms, is like demanding milk from a

THE CORDOBA PLOT

he-goat.

The center for hatching this party was Cordoba, a reactionary, ecclesiastical city. It is said to have received its intellectual inspiration from Professor Jacques Martines, who tries to restrict somewhat the teaches at Princeton University. This little conspiracy of the Cordoban priests found no response among the masses, but did get a response from the higher echelons of the clergy, and among the naval officers. Both of these are tied to the "oligarchy," composed of the landed aristocracy and the millionaire cattle ranchers. The primary plank in the program of

the Soviet Union," said the Wisconsin Senator. This "creeping madness" he warned is leading to "an impending diplomatic disaster," which will be "the free world's worst defeat since the end of the Second World War."

Of course it is no news that McCarthy is opposed to any sort of diplomatic deal, no matter how advantageous or temporary, with the Soviet bloc. He favors a quick atom-bomb showdown. What is news, is that McCarthy split with Knowland and the Republican right wing, who reluctantly went along with Eisenhower on the issue.

McCarthy did not expect to swing votes. The next day (June 17) the Senate overwhelmingly ratified the treaty, 63 to 3. McCarthy wanted to make his definitive break with Republican foreign policy public, to put it on the record for future use. He has done so.

The average person who works for a living, whether he lives in Chicago or Rome, has a tough time getting enough to eat, a place to sleep, some clothes to wear, and perhaps a few simple enjoyments. Beyond that people live for the future. This is expressed in their hopes for the children. There is, or rather there was, always the hope that tomorrow will be better. Today life may be hard and disappointing, but tomorrow it will be easier. and more like real living should be for the next generation and those to follow.

There is a terrible, gnawing fear today that there will be no tomorrow for our children. Great scientists, quoted by prominent government leaders, all say that another war means total annihilation or close to it. And while everybody talks peace, there doesn't seem to be a practical plan around to achieve it.

These days we are hearing a lot about the United Nations. The tenth anniversary of the U.N. is being celebrated in San Francisco and there is much oratory about all our hopes for peace being realized through the U.N. But this is at best a very bad joke.

The U.N. showed what it was during the Korean war when it lined up behind Truman against the Asian workers and peasants who wanted to get the landlord. the moneylender, the capitalist and the other parasites off their back. The U.N.

A Future for Our Children

became the recruiting sergeant for the American billionaires who have a big stake in keeping the Asian people in servitude. That experience hardly recommends the

U.N. as the hope for world peace.

The people who are really preparing to plunge the world into an unbelievably devastating war are right out in front, extolling the virtues of the U.N. as the "world organization for peace." These are the same people who became multi-millionaires in World War I and billionaires in World War II. They are well aware of the yearning for peace in the world today. That's why they prepare for war in the name of peace.

They spend two thirds of the federal budget for war preparations; they ram a universal military training program down our throats; they stock-pile H-bombs perience that the Stalinists were higher and higher — for war? No! For guilty as charged. What remain-Peace!

The terrible sham of "peace"-preparations for imperialist war can be stopped. All that is needed is that the people of this crimes themselves in collaboracountry should take the billionaires and their political mouthpieces and hurl them out of power. They are irresponsible madmen. For love of profits they would blow up the whole world if we give them the chance. Heave them out of power; put representatives of the working people in power — and then we will see some real deals for peace between the working people of this country and the world.

The Negro Struggle By John Thayer

Something of Value?

Last week this column discussed the unbelievable brutality of Robert Ruark's best-selling novel about Kenya, "Something of Value." While some critics condemned the book for its gloating, minutelydetailed sadism, they were in a minority. This is a good measure of the degeneration of the official guardians of capitalist culture.

Equally significant was the fact that most of those who condemned the book did so because of its brutality alone and were silent about its racial theories.

Both pro and con critics displayed an enormous ignorance of the situation in Africa by accepting at face value Ruark's title thesis — namely, that the white man in Africa destroyed native customs and forced on the Africans too much spurious civilization instead of giving them "something of value," for their spiritual life.

Ruark probably believes that he is being extremely generous to the Africans with this bit of pseudo-philosophy. Nevertheless, this is not the central cause of the fighting in Kenya.

Land is the central question in Africa but Ruark shies away from this issue as much as he can. In dealing with it he tries to show that the land didn't belong to the Kikiyu so they have no right to claim it. But this ridiculous argument can't erase the fact that pre-emption of immense areas of the best land in Kenya — the "White Highlands" — is the cause of the fighting.

As in South Africa, the imperialist policy of seizing huge land areas was not only for their own use but also to deprive the Africans of it. Crowding the huge native population onto small reservations, usually on the least arable land, means that in order to exist and avoid imprisonment for non-payment of taxes millions of Africans must work as agricultural laborers or squatters for the white landowners.

The history of Kenya in the fifty years since the British arrived is a history of the struggles of the natives, led by their main segment, the Kikiyu, against this exploitation.

One of the most exciting plays Broad-

way has to offer at this moment is based

on the famous "monkey trial" that took

place in Dayton, Tennessee, in 1925.

"Inherit the Wind" was written by Jerome

Lawrence and Robert E. Lee, directed by

Herman Shumlin, and features a top-rate

cast headed by the magnificent Paul Muni

The whole educational structure for the Africans in Kenya was built by the Africans themselves against the opposition of British imperialism. One of the first acts of the government when it proclaimed the emergency was to shut down the native schools. The Africans built a large successful cooperative system in Kenya. In the cities they organized trade unions.

British divide-and-rule policy was to keep the Indians and Arabs in Africa concentrated in the field of trading and play them against the Africans who were to be kept as workers and peasants. The government tried its utmost to prevent an African commercial class from emerging but despite laws and regulations the Africans set up their own banks and stores.

What the imperialists felt was most dangerous of all was the emergence of Africans on the political scene. Each organization they built was eventually outlawed. Their last organization was the Kenya Africa Union. It carefully stayed program including a demand that within all the restrictive laws but spoke he immediately issue a public out on land, labor and political representation for all Africans, who number 5,-300,000 to the British 30,000.

Kenya Africa Union and the native stigating organized terrorist aceconomic and educational organizations tivities. led to the present civil war. Civil Liberties Fight in Newark Gains in Support

By Daniel Roberts SWP Candidate for N. J. Senate, Essex County

NUMBER 26

NEWARK, June 22 — As the Militant goes to press, three teachers - Dr. Robert Lowenstein, Estelle Laba and Perry Zimmerman - await a Board of Education decision that will determine whether they I

and hundreds of other teachers opposition to the witch - hunting are entitled to exercise constitu- measure. Voting for reinstatetional rights without having to ment were Morris Fuchs, Presifear loss of livelihood. dent of the Essex Trades Council.

Several thousand civil liberties AFL, Mrs. Joseph H. Schotland, champions in Newark wait with Mrs. Mancusi-Ungaro and Mrs. them for ruling which the Board Benjamin Leon. Mrs. Schotland is scheduled to hand down tomade a vigorous defense of the right of teachers to invoke the morrow.

The teachers were suspended Fifth Amendment. The three because they invoked the Fifth teachers will take their case to Amendment before the House Uncourt. " We will be back in the American Activities Committee, classroom," stated Perry Zimmerwhen the Walter group held hearman. ings in Newark.

Their refusal to answer the SWP Speakers vitch-hunting committee's quesions constituted conduct "unbecoming a teacher" according to Edward F. Kennelly, Newark Debate Professors schools superintendent.

ORGANIZED FIGHT

On Causes of War "The constitutional rights of eachers and all other individuals must be respected." was the answer given Kennelly by numerous liberal organizations, labor groups and individual residents. A surprisingly strong civil liberties movement arose over the verdict without understanding it. issue from the moment the teachers were suspended on May 20. The Newark Teachers Union endorsed the right of the teachers to invoke the privilege against

lected funds for the teachers. The Newark Teachers Defense Committee mailed 17,000 copies American Civil Liberties Union of a pamphlet to parents in the three schools affected. The esting the term "affiliation." The pamphlet cites the excellent teachcivil liberties group submitted a ing record of each of the three. brief to Judge Mathes pointing It also explains that they invoked out that the conviction violated the Fifth Amendment because they faced prosecution for contempt or on a trumped-up perjury charge if they answered its questions.

Some twenty liberal organizations — including the American Civil Liberties Union, Americans for Democratic Action, American

campus. According to one student, plans for the discussion panel on the causes of wars and depressions

COLUMBUS, Ohio - Two representatives of the Socialist Workers Party, speaking at an Ohio State University panel discussion on May 31, blamed wars and depressions on the capitalist system of production.

Jean Simon, secretary of the Ohio SWP and Wilson Graves, member of the Cleveland Branch debated with Prof. Robert Patton of the Ohio State Economic Department and Prof. Harold Zink, of the Political Science Depart-

ment. Students active in organizing the meeting hailed it as indicating a healthy revival of interest in Marxist and other radical ideas not formally taught at the University. This is reportedly the first time since the controversy over the "gag" rule imposed by the trustees four years ago that anti-capitalist speakers have appeared at a public meeting on

Veterans Committee and Newark had met with considerable "tim-Church Fellowship - met last idity," but no opposition except

and the extremely able Ed Begley. (It is impossible to say anything about the two actors without using superlatives).

The "monkey trial" was a struggle between those who wanted to prevent the teaching of Darwin's theory of evolution, to make the words of the Bible's story of creation a binding scientific (or rather anti-scientific) law, and those who defended freedom of research, of teaching, of thought. The Darwinist theory states that man and ape have a common ancestor. This infuriated the Fundamentalist bigots. Bryan, the famous orator, thrice candidate for President and Secretary of State under Wilson, had offered \$100 to any university professor who would sign an affidavit declaring he was personally descended from a monkey...

There existed an anti-evolution law in the State of Tennessee, and 15 other states were contemplating the passage of similar laws. Fundamentalist fanaticism was indeed a threat to America's intellectual freedom in the mid-Twenties. And when John T. Scopes, a biology teacher at the Dayton high school, went on trial for violating the Tennessee anti-evolution law

ury reached a Guilty verdict. Scopes never had to pay the fine; the anti-evolution law the bill were representatives from remained on the books but has never been | the AFL, CIO, United Autoapplied any more — and there was no mobile Workers, Brotherhood of doubt about Fundamentalism having lost Teamsters and United Mine Workthe fight. Bryan died in Dayton a few League of Women Voters, Jewish days after the trial, while in the play Service Organizations and Ameri-"Brady" dies after the verdict, breaking can Jewish Congress.
