PRICE: 10 Cents

An important test of the witch hunt is shaping up in the first hearing ever granted an organization on the At-torney General's "subversive" list. The hearing, scheduled for July 25, will be on a petition of the Independent Socialist League to be removed from the implications about the unfairness of a procedure under which a political blacklist. The ISL has sought such a hearing from the Attorney General for seven years. Other organizations, including the socialist Workers Party, have also sought in vain to get a hear-ing or a court test at which they could refute the arbitrary designa-tion of "subpounded" a background of open criticism of certain aspects of the list by such figures as Subpressive also sought in vain to get a hear-ing or a court test at which they could refute the arbitrary designa-tion of "subpounded" as Subpressive also sought in vain to get a hear-ing or a court test at which they could refute the arbitrary designa-tion of "subpounded" as Subpressive also sought in vain to get a hear-ing or a court test at which they could refute the arbitrary designa-tion of "subpounded" as Subpressive also sought in vain to get a hear-ing or a court test at which they could refute the arbitrary designa-tion of "subpounded" as Subpressive also sought in vain to get a hear-ing or a court test at which they could refute the arbitrary designa-tion of "subpounded" as Subpressive also sought in vain to get a hear-ing or a court test at which they could refute the arbitrary designa-tion of "subpounded" as Subpressive also sought in vain to get a hear-ing or a court test at which they could refute the arbitrary designa-tion of "subpounded" as Subpressive also sought in vain to get a hear-ing or a court test at which they could refute the arbitrary designa-tion of "subpounded" as Subpressive also sought in vain to get a hear-ing or a court test at which they could refute the arbitrary designa-tion of "subpounded" as Subpressive also sought in vain to get a hear-ing or a court test at which they could refute the arbitrary designa-tion of certain aspects of the list by such figures as Subpressive also sought as a subpounded as

Store Wheat in the Streets

Farmers are shown unloading wheat in the streets of Albany, Mo., because of a freight car shortage. Grain elevators throughout state are filled. Because of the anarchy of capitalist production huge surpluses of food are rotting in U.S. warehouses while millions of people throughout world go hungry. Food prices remain high for U.S. workers despite surpluses.

"Peaceful Coexistence" A Mockery Until the Imperialists Get Out!

By C. R. Hubbard

JULY 20 - On the eve of the Geneva meeting of the Big Four, martial law was declared in Casablanca as civil war flared up once again. The fighting has temporarily subsided, but all the tensions that brought conflict remain. The oppressed colonial people of Morocco, speaking with the same voice as millions of people in Asia, Africa and South America, have served notice that they will not tolerate diplomatic deals that leave them enslaved.

The new outburst of violence began on July 14 when a bomb

THE MILITANT

Monday, July 25

By Marvel Scholl

There are few people in the country who don't know who Hildy is — a four-year-old fugitive from religious and legislative bigotry. An innocent victim of religious pressure which seeks to tear her from 9

the happy, secure home where she has lived with her foster parents, Mr. and Mrs. Melvin Ellis, since she was ten days old. A happy, well-adjusted, intelligent child who is surrounded by the love and devotion of two people who took her to adopt as their own. A baby who, innocently and unknowingly, faces the loss of all that has been her world, to be heartlessly tossed into an orphanage.

Hildy and her foster parents are in hiding. There is a habeas corpus warrant out to snatch Hildy bodily from the Ellises and turn her over to her natural mother to be placed in the Catholic Charitable Institution for adoption by a Catholic family. Mr. and Mrs. Ellis face jail sentences and heavy fines for refusing to give Hildy up to this fate.

LEGALIZED BIGOTRY

The story of Hildy began even before her birth when, in 1950, the Massachusetts legislature passed a bigoted adoption law making it mandatory that adopthe same religion. Hildy was "born Catholic."

Why Plants Run

By Antonio Torres

On July 14 a meeting of 1500 members of the International Ladies Garment Workers Union, held at 100 East 17 St. in New York City, highlighted the problems created by, runaway shops that

seek refuge in the low wages of worker in New York City who gets \$1.83 an hour, would do the same work in Puerto Rico for

The arguments of Monserrat who poses as a friend of the **Puerto-Ricans** in New York City and who often presents a liberal and pro-labor facade are the arguments used by Southern bourbons to prevent organization Rico as well as on the mainland. of the South.

It is obvious that industries moving into Puerto Rico from the mainland are looking for the cheap wages and low taxes that the Island offers. If the wages ning to realize this more and and conditions of the workers on the Island are improved it will The president of the union, mean a general rise in the con-David Dubinsky, pointed out that ditions of the Puerto Rican workliving costs on the Island were ing class. Those industries that nigher than in New York. In supcan't stay in business unless they port of the demand that Puerto pay sub-standard wages should Rican workers be given a decent be nationalized and run by the wape, he said. "As long as they

workers of Puerto Rico. They could and would obtain the support of the workers on the mainland. However, if the school where people learn a trade and go to Chicago, Philadelphia and the workers of Puerto Rico wait for their bosses to give them increases sometime in the future, they will be cruelly disillusioned while at the same time undermining the conditions that their mainland brothers have won.

American Organizations and also ment of Labor, Migration Division of the Commonwealth of Puerto Rico, has tried to apologize for the policy of the government of the Island. In a recent radio broadcast over station WHOM, quoted in the Spanish daily "El Diario," he said: "The most popular public posi-

Some would-be leaders of the

tion is not the one we are apparently taking — that we are apparently against increasing the minimum wage. As I have said, the contrary is true. BUT, nevertheless a responsible government, that is not based on demagogy, must many times assume positions that are not very popular." He then goes on to explain how an increase in minimum wages would in some industries cause a rise in wages of 257%. This, he claims, could cause unemployment on the Island.

He insists that the government of Puerto Rico is not opposed to a rise in the minimum wage "as long as these increases are made with regard to the ability of industry to pay, taking in the economic realities of our Island." "pie in t sky," he tries to paint a future where all Puerto Ricans will be able to work at decent wages that will enable them to properly care for their families. But for the present, we must be guided by "the ability of industry to pay." The Island is being industrialized at the expense of the workers there as well as on the mainland. ROBBED AND BRANDED

The Scientists and the H-Bomb

The Militant last week published Albert Einstein's last message to the world. In it he warned that mankind must abolish war or face possible destruction through nuclear weapons. Eight other world famous scientists also signed the statement.

Then on July 15, eighteen Nobel Prize winners in science issued a similar declaration. The eighteen said: "The full employment of weapons feasible today can infect the earth with radioactivity to such an extent that whole peoples can be annihilated. . . All nations must come to a decision to renounce force as a final resort of policy.

The scientific community is speaking up at this time in the hope of prevailing on the Big Four Conference to negotiate a lasting peace.

They hope to find in Eisenhower, Eden. Faure and Bulganin men of reason, whose actions will be guided by the presentation of dispassionate scientific conclusions. Hundreds of millions of war-weary people throughout the world share that hope.

But here is where the scientists make their big mistake. They are addressing their appeal to the wrong people and their pleas fall on deaf ears. Worse. Their appeals allow the warmakers to masquerade as friends of peace.

Thus, on July 15, British Prime Minister Anthony Eden replied to scientist Bertrand Russell, who had asked his opinion about Einstein's message.

Renunciation of nuclear weapons and war itself "is in full accord with the policy

an Inch --" "Give Them

Herbert Brownell's Justice Department is getting ready to launch the offensive against the labor movement that was prepared last year with the passage of the Communist Control Bill of 1954. William F. Tompkins, chief of the Internal Security Division of the Justice Department, July 7, told some Rotarians in Texas that petitions will soon be filed against some, as yet un-named, organizations as "communist infiltrated." This procedure will deprive that union of legal rights to organize and bargain collectively under the National Labor Relations Act.

The Tompkins announcement left the daily press speculating as to which labor union would be singled out as the first victim. In view of the fact that the witch hunters don't have to prove that a union is "communist dominated" - merely "infiltrated," they could choose almost any union in the country. As a matter of fact, they can suspend NLRB rights for months while mere suspicions of infiltration are investigated.

The broad use that the Communist Control Act can be put to was made clear when Tompkins listed the industries suspected of "infiltration." This list included steel, mining, oil, chemicals, railroads and trucking.

The AFL and CIO both opposed the legislation when it was being prepared by Brownell and the Justice Department. They correctly termed it a "union-busting" measure. Many officials in the labor movement who had illusions that the Democrats would defend labor's rights, were arrangement. The Treasury, being tem- Kohler workers, now members of the UAW-CIO, went on strike porarily short of funds, was forced to go resolved to stay out until the into the money market and borrow two company understood that its billions from these same banks, at an days of sweatshop tyranny were

also shocked when the Democrats, in a wave of witch-hunting fear, capitulated completely to McCarthyite pressure and

voted for the Communist Control Bill even adding an amendment to outlaw the Communist Party. Now that the "union-busting" is about

to begin, the Justice Department is Wall Street Journal says, "The people embattled against impreparing its defense against the charge. union's success may inspire it to perialism but of the parasitic and Tompkins came up with the absolutely safe prediction: "The left-wing leaders of these unions will without a doubt raise a hue and cry that we are engaging in unionbusting."

From there it will be a simple transition to dismiss the charge of "union-busting" as simply self-defense on the part of "communists" or "left-wingers."

The union-busters won't stand a chance of cracking any section of the organized an arrogant front. After failing labor movement if the American workers fight back with solidarity in their ranks. But the labor bureaucracy stands in the their original, miserable contract prospects at the Geneva bargainway. The bureaucrats have tried to buy offer that drove the workers to ing table but to betray it. peace with Big Business by opening the door wide for the witch hunters to enter. They have tried to prove their own "loyalty" by expelling dissident unions and enforcing conformism in their own ranks. But the labor-hating bosses of this country have only one final goal: They want to run their private profit enterprises without any interference from anyone including Reuther and Meany. The labor and Milwaukee union movement bureaucrats will never succed in buying is a splendid example and lesson peace and security for their own privileged positions. The breaking of so-called "leftwing" unions will be merely a dress filing his "terms" in one of his to a higher level of culture withrehearsal for Operation Open-shop.

The Negro Struggle By George Lavan

The Southern Judges Speak

Federal courts in the South have now "acted" twice under the Supreme Court's implementing decision on school desegregation. "Acted" is put in quotation marks because both three-judge courts sanctioned the continuance of the status quo - Jim Crow schools.

Legal tests came sooner in these places - Clarendon County, S. C., and Prince Edward County, Va., - because both were among the cases that had gone before the Supreme Court. After its implementation ruling, the high court sent these two cases back to the lower courts for "enforcement.'

The "enforcement" rulings of both circuit courts were the same in essence. The South Carolina ruling came first and set the pattern. Here the three judges listened approvingly to the same lawyers who had told the high court that desegregation wasn't possible in South Carolina in the "foreseeable future" or "perhaps until the year 2015." The line these lawyers now took was that the present Jim Crow schools should be okayed for the present and in the meantime the school board would have a survey made by experts of the physical, educational and sociological problems involved in possible desegregation.

Chief attorney for the National Association for the Advancement of Colored · People, Thurgood Marshall, opposed this as no desegregation plan at all, especially as there is no hint of how long the

"survey" will take. He asked for a time limit. But here the court absolutely refused to commit itself.

Judge Pårker, from the bench, gave a Judge Pärker, from the bench, gave a gratuitous lecture, on how desegregation Is Victimized at might best be evaded without violating the Supreme Court decision. The high Bridges Trial court, he said, "has not decided that the federal courts are to take over or regulate the public schools of the states. It has not decided that the states must mix persons of different races in the schools or must require them to attend schools. . . The Constitution, in other words, does not require integration. It merely forbids discrimination. It does not forbid such segregation as occurs as the result of voluntary action."

The white-supremacist legal minds of the South are saying in effect, don't declare defiance of the Supreme Court's ruling, accept it as a necessary evil. It can be got around by delaying tactics and interminable litigation to prove that our segregated schools result not from state and local imposition of Jim Crow on the Negro schoolchildren but from "voluntary" segregation by the two races.

But the Negro people are opposed to all segregation and the idea of "voluntary" segregation on their part is ridiculous. To cates or teaches or is a member pass off — even in court — the South's of or affiliated with any orbrutal Jim Crow as voluntary, would take a lot more than legal trickery. It would force and violence." take widespread Ku Klux and White Citizen Council terror to silence all voices exposing such a fraud.

By Roy Gale SAN FRANCISCO, July 18 -The civil trial to strip Harry Bridges, President of the International Longshoremen's and

Defense Witness

VOLUME XIX

Warehousemen's Union (independent) of his citizenship, was resumed here last Monday after a two-week recess. Defense Attorney Telford Taylor, former war crimes prosecutor at Nuremberg, brought Bridges to the stand as the first witness for

the defense. The defense established by its examination of Bridges that, while he collaborated with Communists along with all others who were ready to help in the union struggles, he emphatically denied membership in the party. Bridges is being tried under a provision in the Nationality Act of 1940 which prohibits naturalized citizenship to any "person . . . who believes in, advoganization that (believes) in the overthrow of the Government by

THOUGHT-CONTROL LAW

Thus the trial is based, to start with, on a thought-control law applied specifically to noncitizens. The government is trying to prove Bridges was a member of the Communist Party at the time he became a na-

No Matter Where They Run By Fred Hart

When American Safety Razor of Brooklyn ran South to escape union conditions it was a case of wish thinking influencing management judgment.

The big brains of ASR liked the stories of docile Southern labor. The ads of Southern Chambers of Commerce printed in the big city papers looked mighty attractive — they all spelled cheap labor.

The way they had it figured the new move was going to save the company about a million and a quarter annually in wages to say nothing about other benefits previously paid in New York that would be saved.

But the ads and the Southern open-shop promotors didn't tell ASR there was a union danger, and if they did it was only to assure ASR that Southern unions were safe and responsible.

However, no sooner did ASR get its plant in operation in Staunton, Virginia, when a union went into action. The CIO Electrical Workers began to organize the

NUMBER 30

Thus the new leadership of Local 5 has a clear mandate from the Studebaker workers to conduct themselves militantly. Only this can stop the rapid deterioration in wage and working conditions in Studebaker and recover the ground already lost. The danger of the union's giveaway policy last summer at Studebaker for wages and conditions in other auto plants can be seen in the current negotiations with the American Motors Corporation. This is another of the "little" auto companies. It is the result of the combine of Hudson, Nash and Kelvinator. It is now in negotiations on a new contract. With an eve on what Studebaker got from the would maintain the same rate of UAW last summer, it is trying in current negotiations to chisel down long-established wage and

working conditions in its plants.

Again the argument is that the union must remove "penalties' Not content with this, the (company talk for past gains of company violated seniority in the 24.000 American Motors the bumping process that takes workers) to improve the complace when there are large-scale pany's "competitive position" cerence was the organization of firings. Notes from the News

"SUB-NORMAL" WORKERS concern Republican Congressman Leo Allen of Illinois. He warned the House Rules Committee that increasing the minimum wage to a dollar an hour might drive 2 1/2 million "sub-normal" workers and old people onto relief. According to the July 16 Labor's Daily, Allen defines a "sub-normal" as "the kind of person you let live over a store or something. The kind you send for coffee or the newspaper. You know, you give him \$25 a week." Also included in the category, according to supernormal Allen, are the kind that "want to tinker and do nothing for \$8 a day. They want to stay around the factory where they worked forty or fifty years of their life. We have them in every town." He didn't say how many get to Congress.

WAGE RISES CAUSE PRICE RISES? Not according to AFL Staff Economist Seymour Brandwein who calculates that the recent steel wage increase will cost the company about \$200 million per year. Their \$7.50 a ton price hike will bring them between \$600 and \$700 million. For each cent handed out in wage increases the steel magnates will rake in better than three cents. * * *
