a petition with the Subversive Activities Control Board asking that the United Electrical. Radio and Machine Workers of America, Independent, representing 11,000 of these strikers, be declared a "subversive" organization.

The government is acting under the Communist Control Law of 1954 against a union with a total membership of around 100,-000. This law, passed in August 1954, created a new category of organizations to be persecuted by the witch hunt: Communist 'infiltrated" unions. The government chose to invoke this infamous new repressive law in the ninth week of the Westingnouse strike involving 11,000 UE members and 45,000 members of the International Union of Electrical Workers, AFL-CIO. New York Post columnist Murrav Kempton accused the government Dec. 15 of turning pickpocket when the Social Security Administration decided to withhold pension payments from retired functionaries of the Communist Party.

This is an accurate label, for the action is a plain case of theft. The social security law makes the government sole holder of the funds. It has no legal right to refuse to pay what the law required it to collect out of a worker's wages.

Social security legislation was passed in 1935. The law was framed to prevent these funds from being used for partisan purposes. It was designed to cover all without regard to race, color or creed on the simple and basic principle that everyone has a right to live.

The introduction of a political criterion now for payments is an ominious step toward destruction of the principle of impartial administration of the law. Payment of pensions is made to hinge on conformity with the political opinions of government bureaucrats who can change with every election.

The Social Security Administration did not confine itself to picking the pockets of a few retired Communist Party functionaries. It also issued a threat to all dissenters. In its letter of instructions to state offices it said: "The law does not bar payments to a Communist or to anyone convicted of a crime and sentenced to jail if the person otherwise qualifies for benefits. While from time to time, consideration has been given by the Congress to the possibility of legislation restricting payments in instances like these, such a

provision has not been included in the law."

In other words, while it is illegal to they are seeking is the road to demand political conformity before social revolutionary action. insurance is paid, powerful figures in government have been considering making it legal. These figures are the type who think

But under the witch hunt thousands have spent years in the up-hill standards already undermined by battle to get their names cleared, their jobs back or to find new employment.

By the time a worker of 65 gets through the courts, if he can afford the legal battle for his old-age pittance, he will be lucky French CP, whose counter-revoto have enough for funeral expenses.

The Taft-Hartley law struck the first big blow at the concessions won by the working class in its struggles in the Thirties. It undermined the legal recognition of the right of labor to organize and strike.

Now social security, the second big prize won by the workers two decades ago is under attack. The Big Business government is trying to convert it into an instrument of political pressure.

"Dissent and starve," the capitalists say. "Conform and you may get the oldage insurance, payment for which was taken out of your wages when you were young."

### A Case of Justified Alarm

"This," said Lenin in the early 1920's, "is the epoch of imperialist wars, proletarian revolutions and colonial uprisings." The lead editorial in the Dec. 21 N.Y. Times defines the world line-ups in virtually similar terms, although the Times employs euphemisms, whereas Lenin was a plain speaker.

### The Negro Struggle By George Lavan

#### A Victory and a Defeat in the Irvin Case

Walter Lee Irvin's death sentence has been commuted to life imprisonment. This is both a victory and a defeat for the Negro struggle. It is a victory in that protests have saved Irvin from the hands of Florida's racist executioners. It is a defeat in that Irvin, an innocent victim of a Jim Crow frame-up, faces a life in prison.

Irvin is a survivor of the infamous Groveland or "Little Scottsboro" case. The background of this case was labor unrest in a paper mill in Lake County, Florida, where the brutal racist, Willis V. McCall, is sheriff. Since the mill workers involved were almost all Negro, the anti-labor forces decided to smash the labor unrest by "putting the Negro workers in their place." The opportunity soon appeared, or was manufactured, in the form of a phony rape accusation by a white woman. As if by prearranged signal, white gangs invaded the Negro community, beating people, looting and burning.

The 400 Negro residents of Groveland were forced to flee to the woods and swamps for several days. The National Guard chased out those who tried to return to what remained of their homes and farms.

Deputized vigilantes killed a Negro youth and then said he was one of the guilty parties. A "trial" of Walter Lee Irvin and Samuel Shepherd was held. Though the prosecution refused to call the physician who examined the white woman immediately after the alleged rape, the

lily-white jury promptly passed death sentences on Irvin and Shepherd. When the U.S. Supreme Court declared the trial unfair and ordered a new one, Sheriff McCall undertook to overrule the Sheriff McCall undertook to overrule the

The brief also contends that the indictment was so vague that no adequate defense could be offered; that the court's instructions to the jury failed to define the offenses in any understandable way, and that the terms of the sedition statute are so indefinite "that men of common intelligence must guess as to its meaning and differ as to its application."

The attorneys are also critical of the prosecution's use of an affidavit by Braden's 15-year-old foster daughter, Sonia, to obtain information about books in his home. "Step right up, folks, for the All-American Gadget. You can take this fine gadget home for no money down and just a few cents a week."

Who is sucker enough not to take advantage of this generous offer?

And after you've bought the All-American Gadget there are still other gadgets that catch your eye and ear. Gadgets the hucksters make you think you ought to have. Gadgets with glamour and glitter. Gadgets to take the grind out of daily living, to give you more leisure time. So you are wheedled, cajoled, and bribed with offers of free gifts. And so you buy.

After the first plunge into debt the water begins to feel fine. You try it again. The habit forms. Everything you need can be bought on that unique American plan of "no money down and umpteen weeks to pay.'

## Life Among the Heathens

A 71-year-old Negro woman, Miss Bertha Perry, was thrown out of a white Baptist church in Wake Forest, N. C., Dec. 4. The Carolina Times gives the following account of the incident:

"This soft-spoken, pleasant little lady, a wisp of womanhood at 89 pounds, had gone to the church to ask what should be done about a sign directing visitors to the church which had been removed from its place and put in her back yard.

"But before she could explain her mission, she was grabbed by one of the members, dragged to the door and pushed down the front steps with the warning never to come back there again.

"'If you were a man, I'd knock you down. I wish you were a man; I'd kill you,' the bouncer threatened as she stood in the church yeard, Miss Perry said.

"The incident occurred after the end of the church's service Sunday. Miss Perry ... arrived at the church during the morning services. She occupied a seat about four rows from the front and remained throughout the service.

"After the church's minister, Rev. Dwight Watts, finished his sermon on 'Cleansing the Temple,' she was given an audience with him. But before she could explain the purpose of her visit, someone

in our schools, newspapers, etc. Dr. Theodore Howard spoke here before a rally attended by 500 people, Sunday, Dec. 4, at the Bethany Baptist Church. The rally was sponsored by the N. J. Paul Benjamin Hurley Medical Society [a branch of the Minneapolis, Minn. National Medical Association, the

Dr. Howard pointed out in his talk how every Negro, who has the audacity to attempt to place his name upon the voting rolls, is subjected to a combination of physical terror and economic strangulation.

He traced the history of racism in the South up to the forming of the White Citizens Councils in September 1954. He attempted to show that the Citizens Coun-
