Heirs of Dictator Score Stalin Cult In Soviet Union

By Joseph Hansen

The most widely publicized feature of the Twentieth Congress of the Communist Party of the Soviet Union, which opened Feb. 14 in Moscow, was the attack on Stalin. Some commentators on Soviet 9-

affairs will no doubt take the simply part of a calculated efstrictures levelled at the cult fort by the heirs of the dictator of Stalin as fresh evidence of to consolidate their own dictatorthe "self reform" of the bureau- ship and assure continuation of cracy and of a "thaw" in the the police regime they helped totalitarian dictatorship that has Stalin impose on the Soviet peogripped the Soviet Union since | ple. power. If the speeches of the Moscow parasitic ruling caste itself. Beclique, particularly the seven- fore the delegates representing

hour oration of Khrushchev on the opening day, were to be taken at face value such hulling conclusions, no doubt, would follow. Moreover, it must be conceded that the spokesmen at the Congress quite evidently intend- the millions of bureaucrats the ed that the suspicious Soviet First Secretary of the Central masses should take the speeches exactly at face value and give

up whatever opposition they harbor against Stalin's heirs. However, if we consider the

Congress in the context of class review," he said, "featured a steady growth of all branches relations in the Soviet Union, the attack on Stalin acquires of social production, a further quite a different meaning. It is (Continued on page 3)

Out of the Horse's Mouth --

South Vietnam is typical of the "free world" which the bipartisan Big Business ruling clique in Washington asks us to defend. Puppet Ngo Diem's regime is described as follows in a Feb. 11 dispatch from Saigon to the New York Times:

ROLE OF PARLIAMENT -"Elections will be held March 4 for a National Assembly to approve a constitution. But the President will play a key role in drawing the constitution. If the 123-man National Assembly cannot agree with the President, it will be dissolved. . . . The role of the Parliament will be subordinate."

FREEDOM OF PRESS -"The press is subject to rigorous censorship. Opposition politicians fear to speak freely

in public. . . . In general it is felt that the press censorship in South Vietnam is largely unnecessary and unhealthy. Even the names of Opposition leaders, it seems, are not allowed to appear in the Vietnamese press, regardless of the context in which their names are presented."

Khrushchev addressed was the

Wilkins Does a Knife Job

Roy Wilkins, executive secretary of the National Association for the Advancement of Colored People, sent a letter Feb. 14 to all branches and youth councils of the organization warning them to be "very careful in your selection of delegates" to the March 4-6 civil rights rally in Washington.

The letter states: "You know that the national policy of the NAACP is not to cooperate with any Communist-front or left-wing group." It goes on to instruct the branches to screen these "undesirable" elements out of their delegations.

There is no use mincing words. Wilkins' letter is a disloyal and treacherous attack on a section of the civil rights movement. And Wilkins has dealt the civil rights cause a foul blow by unleashing a divisive witch hunt at the very moment fullest attention must be given to the business of mobilizing an effective rally in Washington.

Wilkins himself indicates the source of the pressure to which he bowed when he reports in his letter, "Many Washington officials and numerous daily newspapers and wire services are making inquiries because they have heard that our rally in Washington will be 'captured' by left-wing individuals and groups.'

It is clear from this that the red-baiters have put the heat on the NAACP leaders. And it is also clear that these leaders have reacted exactly as the red-baiters and race haters wished them to.

Haven't the NAACP leaders learned from the recent struggles in the South that red-baiting and witch hunting is part of the arsenal of the white-supremacist gang? In recent months the NAACP has been subjected to a full-scale red-smear in the South. The NAACP has been called "subversive," "Communist," "left wing" and "a bunch of outside agitators."

The ominous figure of Eastland, the chief red hunter of the U.S. Senate at present, personifies the untiy of race baiting and witch hunting.

What interest can the Negro people possibly have in screening its members and delegates for non-conformist "leftwing" ideas?

Moreover, Wilkins has handed a weapon to the racist red-baiters. As invariably happens in such situations, the Eastlands will take the offensive with the argument: "Even the NAACP leaders admit that their organization is honey-combed with 'Communists.' Let's look into this iest of 'subversives' by conducting a real investigation." The issue then becomes: is the NAACP "Comunist infiltrated" or not? That's exactly the issue the racist witch-hunters would like to boom up. That would take attention away from the savage campaign of terror against the Negro people and cover the Southern white supremacists with a thick smoke-screen of fighting the "Communist menace."

to "prove" that they are not "Communist tainted." And what happens to the civilrights struggle in the meantime?

If anyone thinks these are fanciful exaggerations and speculations they have only to recall the recent McCarthy era. While the would-be fascist Senator from Wisconsin cracked the witch-hunt whip, the leaders of the union movement, for example, conducted a shameful "loyalty" purge within the labor movement, in ests by taking sides. which they went a long way towards strangling all internal union democracy. The fighting power of the unions was sapped. And the open-shop, anti-labor legislation drive of Big Business gained vance of the Arab revolution for momentum.

Wilkins is wielding a dangerous knife. The re-baiting game can never serve the aims of the Negro people. He should be called to order before any more damage is done.

If the NAACP leaders are really concerned about the alleged danger of radicals capturing the civil rights rally, we have a very simple remedy to suggest. Instead of trying to keep the delegation down to 2.000, the limit set in the NAACP call for the rally, why not summon a great popular assemblage to Washington that would be truly representative of the will of the Negro people and the labor movement? This has been suggested by prominent one which proceeds from the na-Negro leaders, among them Dr. T. R. M. Howard, a front-line fighter in the civil rights battle. Wouldn't such a mass turnout prevent an artificial domination of the rally by a minority? Or does Wilkins fear that if Dr. Howard's proposal for "1,000,000 red-blooded Americans to march on Washington" were carried out the Lavish profits are pumped out land is entering into a new of Britain and Western Europe majority would turn out to be "left-wing individuals"?

Wilkins' letter really aims at preventing a mass turnout at the civil rights rally. In Eastern empire would be a crip- of its overseas empire. Should his official call Feb. 2, he openly discouraged mass attendance, using the specious argument that Congress would be more impressed by "the number of states and congressional districts represented than "upon the number of individual delegates." As if Congress wouldn't be considerably more impressed by 20,000 or

at the steps of the Capitol building for enforcement of civil-rights laws.

that Wilkins has designed his red-baiting cial and state system, the adin behalf of the alliance between the NAACP and labor. This unholy alliance intaina? wants to soft-pedal the Washington mobilization. Otherwise it might embarrass the Democrats who think it better to appease Eastland than to carry out their civil rights promises to the Negro people. We don't believe the rank and file of the NAACP will go along with either the motives or the methods of the officials in them Yalta. this instance. The rank and file may well ask: "Why not blast the phonies of the Democratic party instead of delivering a stab in the back to the militant fighters in the front ranks of the civil rights struggle?"

By Daniel Roberts On surface appearance, the Middle East seems to be crisscrossed with rivalries and conflicts out of which it is impossible to distinguish a progressive line of development. Conflict between U.S. and British oil trusts, dynastic rivalries between the kings of Saudi Arabia and Iraq, the Arab-Israel conflict, rival maneuvering between the cold war antagonists, conflicts between Arab statesin none of these does it seem as if the tens of millions who live and toil in the Middle East

could advance their own inter-The surface appearance, however, is deceptive. All these rivalries and conflicts unfold around a basic axis of development — namely the steady adnational independence. This movement is a tremendously progressive force that is arousing the Arab masses to struggle against semi-feudal rulers and foreign plunderers.

COMBINED DEVELOPMENT

The Arab nationalist movement is one with the anti-imperialist movements in Asia, Africa and Latin America. Full victory for the national independence revolution will bring the workers and peasants of the Middle East into power and mark the beginning of a socialst transformation of the area. There is no road to socialism in the Middle East aside from the tional independence struggle, which in turn cannot be finally successful except through the creation of workers' states. The national revolution in the holding of vast pools of oil composing nearly two-thirds of the known reserves in the world. with the oil and piped to the largest international Big Busi- rule. OLD STUFF

new. This was Stalin's policy

after 1935 when he touted the

Presumably, Wilkins and the labor officials will react to such stepped-up witch hunt pressure as they have up to now by opening an even more vigorous red hunt within the NAACP and the unions

Wall Street's press squirms when it considers the giant successes of the Soviet

Union in the economic field since the 1917 workers' revolution. It squirms even when it tries to expose the loaded statistics and extravagant boasts of the Kremlin bureaucrats, as at the Twentieth Congress of the Soviet Union's Communist Party.

Even the powerful N. Y. Times, which is able to pay for quality as well as quantity in buying arguments in defense of capitalism, suffers the embarrassment of dire poverty in trying to discount the progress clearly recognizable in the former empire of the Czars.

For instance, in a Feb. 16 editorial, this authoritative voice of Big Business is reduced to sputtering: "Would an 'invincible' system have failed so abysmally as Soviet communism has in giving its people a decent standard of living. . . ? Does Khrushchev really think that an economic system which is still only in the stage of promising its people a forty-two-hour week is more attractive than a system which has given its people a thirty-five or forty hour week with the highest standard of living in the world?"

Does the editor of the N. Y. Times really think that no one notices his dishonesty in not taking for comparison a country at the level of Czarist Russia when the 1917 Revolution occurred?

Suppose, for example, he took Spain. First he would have to note that Spain escaped the ravages of two world wars in which the Russian people suffered heavily (although Spain, like Russia, did suffer

The N.Y. Times Is "Invincible"

civil war). Then he would have to admit that in Russia we see giant strides toward industrialization, including agriculture, and an undeniable leap in the cultural level of trade and economic organs in a once illiterate country. While in Spain he would be forced to admit the stagnation, decline in the standard of living, and fetid decay in the cultural level of a capitalistblessed land.

But even in taking America for comparison, does the editor of the Times really think no one remembers the news he considers fit to print? In the Feb. 4 Times, eleven families in the U.S. lives on an out of five on less than \$2,000.

The very day before he decided to wiggle bureaucratic deformations, the editor published the results of an official survey in New York, richest city of the capitalist world, showing that three-quarters of all has and health."

Now, as expiation for his sophistry, we respectfully suggest that the editor of the Times please write an editorial explaining why the "invincible" capitalist system in at Stalin's infallibility: "In ana- tience. America could not even raise minimum lyzing the state of the economy and then felt forced to exclude about fiveeighths of the work force from the provisions of the law.

In the arena of world affairs, "Thanks to the consistent peaceable foreign policy of the the tension in international relations, the tension fraught with great perils, yielded to a cer-

tain detente." Khrushchev offered the caste the spirit of Geneva just as Stalin once offered

By stressing these themes, taking the credit, naturally, for legitimacy of Stalin's heirs ruling in their own right.

FOLLOW THE LEADER

The others followed the line laid down by Khrushchev. Mikoyan, for instance, boasted Feb. 17: "Certain ossified forms of our diplomacy, of our foreign their relations with foreign countries and the citizens of these countries have been discarded. The isolation of Soviet public and state organizations from the outer world has been liquidated. Contacts between Soviet

and foreign statesmen, party leaders and public organizations have been extended." This need of the new regime

for instance, the editor himself had to to build a favorable public imagree with Gov. Harriman that one out of age of itself implies in and of itself cutting down the public image of the dead Stalin. As annual income of less than \$1,000, and one Khrushchev's photograph is en-

out of admitting the inherent capacities Stalin forces his heirs as a matthe record in the Soviet Union despite the to proclaim a "new deal." Mikoyan went so far as to twenty years we, in fact, had no collective leadership." The date is significant — just before residential housing is substandard and the monstrous Moscow Trials. 22% is "dangerous and prejudicial to life Now, of course, the new regime "achieved the restoration

of Lenin's norms of party life, from top to bottom." NAMES STALIN

"re-established;" in place of arbitrary purges of the caste as in Stalin's time, law is now becountries of the Socialist camp, ing upheld; in other words.

twenty years of abuses have nomv been ended. Under Khrushchev the bureaucratic ranks can breathe easier.

> While he made this appeal, Khrushchev also brandished a whip. "The party has become

still more monolithic." If anyone has any idea of actually expositive achievements due to ercising democracy, he implied, causes deeply lodged in the in- let him consider the fate of "The ternational class struggle, Khru- Trotskyites, Bukharinites, bourshchev sought to establish the geois nationalists and other malignant enemies of the people . . all of whom broke their necks." As a more recent ex-

Labor and the Alabama Boycott Law

We've made the point time and again in this column that the fate of civil rights for Negroes and of union organization in the South are inseparable. The Montgomery, Alabama grand jury investigation of the current boycott of Jim Crow buses in that city is handwriting on the wall in great big letters — for all labor to see: Close ranks now with the militant Negro fighters for democratic rights. The government is sharpening legal weapons against them to use on you.

The "crime" of the Montgomery Negroes is that they are hurting the profits of National City Lines, operators of the Montgomery City Bus Lines. They are refusing to pay their hard-earned money for the privilege of being segregated and insulted.

The law under which they are being investigated is Alabama's boycott law, a statute originally aimed at labor disputes, a strike-breaking law. Should the boycott be declared illegal under that law, persons convicted as leaders will be subject to a six months' jail term plus a fine of \$500.

But the grand jury and other local authorities trying to break the solidarity of the Negro masses are not limiting themselves to the boycott law alone; they are following the familiar pattern of legal frame-up and pressure by other agencies common to all oppressive states.

On Feb. 18 Fred D. Gray, 25-year-old Negro attorney, was arrested on a charge of unlawfully filing an anti-segregation suit in U.S. District Court last month without the consent of one of the five

Negro women whose names appear on the

L. A. Gayle, in the presence of two newspapermen, that she "didn't know what she was signing" when she put her name on the court petition.

Attorney Gray, victim of this transparent frame-up, was recently reclassified ually yielding to the wind and by a local draft board from the 4-D rain-all because a Negro veterclassification he has held since 1948 as a "practicing minister" to 1-A.

The grand jury is expected to hand down crumbled brick where dynamite additional indictments naming more than one hundred other defendants involved in the bus boycott. [See story page one — ed.]

make the boycott law indictments and frame-ups stick in these cases it will lence, terror and even murder. hesitate to use the same tactics against the union movement, for which the statute was passed in the first place?

Now is the time for all unions to throw to find a home in which he could moral, financial, physical and political sup- bring up his two small children. port behind the Montgomery bus boycott. Such a campaign by labor could do two things:

(1) It could deal a blow to the boycott law before it is used against the union organizing drive.

(2) It would win the support of the Negro workers of Montgomery for labor organization better than tons of leaflets spend the rest of their days and hundreds of speeches could do.

The colored workers of Montgomery have demonstrated their desire and ability to organize. All that's needed now is for the labor movement to show equal sincerity and determination.

Other Side of the Story

Notes from the News

By Robert Chester

Never accept a press agent's story at face value. There is always a gimmick in it somewhere. I fell for one when I wrote "Advice to Engineers," which appeared in the Feb. 13 Militant.

It is true that the demand for scientists and research men is high, as is the competition for new graduates. But that is only one side of the story.

The other side did not appear when the press agent's story about engineers was featured in the newspapers. The other side came in the form of indignant letters from engineers.

SOME OTHER PLANET

For example, the N.Y. Times printed a letter, Feb. 9, from Henry Mayer, counsel for the Engineers and Scientists of Amer-

continued Mr. Mayer, "obviously did not include the 'gentlemen's agreement' among the members of the Aircraft Industries Association. That agreement constitutes a blacklist in reverse. Under it the great employers of engineers in the country undertook not to employ engineers in the employ of others without written consent of the present employers."

Mr. Mayer then makes a telling point. "The shortage of engineers is attributable to the manner in which the employers big one," Wade said emphatics dilute the skills of engineers after they ally, "is that of the real estate capture them. So huge are the industrial projects today that assembly-line methods make when you write about our are used in breaking the engineering job fight in Louisville." into bits and pieces." He quotes Professor Eli Ginsberg of Columbia University who receven the defensive. Far

with many real estate agents, looked at many houses before I found what I wanted. I talked to mortgage companies about financing the purchase and discussed each problem, as I encountered them, with my lawyer "The difficulties I met just looking for a house are met by

ica, who said: "Engineers reading your news story would believe that they had stepped off one of their new earth-bound satellites onto the moon or some other planet.

"The engineers at Arma [a big advertiser] had to go through a ten-week strike this year in order to get a fair contract. The Engineers Association at Sperry also had to strike at Lake Success two years ago and are now in the throes of difficult contract negotiations." The Western Electric Company, he said, was paying its engineers an average of \$3.17 an hour, which is less than many building trade mechanics receive, when it refused to renew its contract with the union last November.

"The dream world of alleged piracy,"

without a trial despite a plea of "not guilty."

used to do second-rate jobs." Such letters ring true. It looks as if part

of my advice to engineers was not needed. They know what the bosses are like. They are trying to solve their job problems the way other workers do, by organizing and believes in, Wade spoke with fighting.

But the rest of what I said still holds. The engineers, like other workers, still have to face the larger problems of the witch hunt, of war, unemployment and inflation. They can best solve them through their unions and through independent political action.

The engineers and scientists will play an important role in the future in developing the national planning America needs. me for \$400. He evidently didn't But that future won't be under capitalism. think I had that much for he breads, cereals, potatoes, dairy It will be under socialism.
