Kremlin Now Admits Lenin Broke with Stalin

Daily Worker's First Mention of Lenin Testament

By Daniel Roberts

the Soviet Union.

"Lenin, in the last year of his life, pointed out that such negative features of Stalin's character tive features of Stalin's character as rudeness, lack of respect for warking compared participants working comrades, capriciousness and inclination toward abuse of power could lead to a violation Protest Shipping of the rules of collective leader-ship," writes the youth news-paper. "Unfortunately, it hap-rened so." HAIL NEGRO HEROES pened so."

the source of Lenin's attack on Stalin. This is the document known as Lenin's Testament. It urges the Soviet Communist Party "to find a way to remove Stalin" from his position of General Secretary. Although giving almost verbatim Lenin's characterization of Stallin, the Soviet newspaper failed to cite Lenin's proposal that Stalin be removed from office.

STALIN'S RISE TO POWER

The Stalin faction grabbed power right after Lenin's death the Testament. The document was sessions of the party leadership on only two occasions: once, right after Lenin's death and the other at a meeting of the CP Central Committee in 1926. This was at the height of the struggle between the Stalin faction and the Left Opposition led by Trotsky.

The document was, however, published by the Left Opposition mere circulation of Lenin's Testament brought jail or deportation to many CP members fighting against the bureaucratic faction headed by Stalin. It was first published outside the Soviet Union in the New York Times on Oct. French army of almost 400,000 take a forthright stand in favor mitted before the November 18, 1926.

Myra Tanner Weiss Opens Tour in L. A.

LOS ANGELES, May 23 - Myra Tanner Weiss, candidate for Vice-President on the Socialist Workers Party ticket, has been campaigning energetically here

this week on the opening lap of 3 a coast-to-coast speaking tour. On May 16 Mrs. Weiss participated in the Candidaltes Night program of the Community Service Organization, an important center in the Mexican-American community. Well known in the area as an SWP spokesman in a number of local election campaigns, her address was well received by the audience.

Speaking at a public meeting at the Socialist Workers city campaign headquarters May 19, Myra Weiss analysed "The Crisis in the Soviet Union and the Struggle for World Socialism." The audience included many who were hearing an SWP speaker for the first time. Their favorable reaction to what they heard was indicated by a contribution of \$111 to the Socialist Campaign Fund. Chairman of the meeting was veteran labor and socialist leader V. R. Dunne, the chairman of the SWP here.

Tonight Mrs. Weiss will be interviewed by Tom Duggan on

TV station KCOP on the differences between Stalinism and Trotskyism. Mrs. Weiss leaves tomorrow for the San Francisco-Oakland area for three days of campaigning.

This will be followed by a three day stop in Seattle. On June 1 Mrs. Weiss will address a Seattle audience on the subject, "The United States and the Soviet Union in 1956." The meeting will be held at 8 P. M. at 665 Main Street.

The next stop in the tour will be the Minneapolis-St. Paul area where the Vice-Presidential candidate will be from June 6 through Jame 8.

KEY PLANK

A key plank in the SWP platform is opposition to the Wall ment.

Police (top) beat back students demonstrating in front of U.S. Information Agency offices in Athens, Greece. Three persons were killed and 124 injured in demonstrations touched off by the British execution of two Cypriote patriots. An injured student (below) is helped by two friends.

Three of four Ford Motor Co. are estimated at a record high plants in the Cleveland area will exceeding 900,000 new cars. Sales close for three days next weekcontinue to decline. Production for Memorial Day — with about cuts, says the May 22 New York 7.500 hourly workers affected." Other plants will do likewise. This will amount to a general two-day layoff following the one-

Times, indicate that "May would be the lowest output month so far this year." And the worst is vet to come. "Deepest output cuts," reports the Wall Street Journal survey, "won't occur until July, August and September. but there will be further reductions next month."

REUTHER'S PROGRAM

The auto workers are looking to their leaders to find a solution to the scourge of lavoffs sweeping the industry. Walter Reuther, UAW president, is calling upon the employers to hold joint industry-wide meetings on threaten the "Southern way of the problem. Reuther is emphalife." They use their economic sizing that the union is not proand political power, their conposing collective bargaining control over local and state governferences. fact that events are pounding **One H-Bomb Equals** All Foreign Aid

The cost of the H-Bomb exploded above Namu Island May 21, producing a four-mile ball of flame and a poisonous cloud 100 miles wide, was approximately half a billion dollars. This one flash of destruction cost more than the muchadvertized economic and technical assistance "given" by the U.S. to Asia, Africa and South America for the entire current fiscal year - about \$300 million. Since 1950 Wall Street's government has spent approximately \$256 billion on military appropriations at home and abroad. Only about one-half of one per cent of this figure has been spent for economic and technical assistance to underdeveloped countries.

- from an editorial, April 27,

ing the labor-Democratic coalition. It has stalled the projected union organization drive in the South. It has spurred the union leaders to openly declare themselves on the issue of desegregation. And on the morrow, it will compel them to take the counter-offensive against the racist drive which is undermining the existing union structure in the South and threatens to spread its poison throughout the country. The union leaders have belatedly come to understand that they can no longer temporize on the civil rights issue. On May

18, the Washington convention of the AFL-CIO Textile Workers Union adopted a resolution, against the opposition of Southern delegates, favoring school integration and condemning White Citizens Councils.

Street inspired cold war and the ever-present danger of World War III. The SWP views current Soviet developments as of major moortance in this regard. The drive of the Russian work-

ers to abolish the dictatorial power of the Kremlin bureaucracy and re-establish Soviet democracy gives powerful impetus to the movement of revolutionary workers and colonial freedom fighters everywhere. American labor must give its support to this world anti-capitalist movement.

To this end the SWP advocates opposition to the witch-hunt and the promotion of civil rights. It calls for the building of an independent labor party. The central SWP plank is the creation of a Workers and Farmers Govern-

MOSCOW FRAME-UP TRIALS V **Underlying Reason for the Charge of Sabotage**

We publish herewith the fifth installment of Leon Trotsky' speech at the hearings of the Preliminary Commission of Inquiry into the Charges Made Against Leon Trotsky in the Moscow Trials. The hearings took place April 10 to 17, 1937 at Coyoacan, Mexico. The installment skips over sections X and XI of the speech entitled respectively, "The Kirov Assassination" and "Who Drew Up the List of 'Victims' of the Terror?" The full text is available in a Pioneer Publishers pamphlet entitled Stalin's Frame-Up System and the Moscow Trials. The Commission of Inquiry was an impartial body headed by John Dewey, the eminent philosopher and teacher of American liberalism. It included Carlo Tresca, outstanding leader of the anarchist movement in the U.S. Otto Ruehle, who stood side by side in the Reichstag with Karl Liebknecht in fighting German imperialism in World War I, was another member. The Commission selected as its legal adviser John Finerty, of world-wide fame in the defense of Tom Mooney and Sacco and Vanzetti. The verdict of the Commission after nine months of thorough investigation in several countries was that the defendants in the Moscow Trials were "Not Guilty." - Ed.]

Poland in Van in Ending Stalin Cult

"Had Poland passed through an authentic anti-Stalinist revolution, people would not be expressing themselves any differently than they are now doing - at least as regards a number of problems." This is the judgment of K. A. Jelenski, writing in the May 8 France Observateur, a French liberal weekly. Jelenski quotes extensively from different Polish newspapers and periodicals - both of political and cultural nature.

For instance on productivity, the economist Brohdan Brozdowski writes: "It is impossible to increase productivity without assuring the workers an increase in their profits. . . Nobody wants to work a lot and earn but little." The writer also condemns the frequent upward revision of piece-work norms and recommends that norms be held constant for a period of three years. "Up to recently, nobody dared propose such a measure, for it would have been considered counter-revolutionary." Brozdowski concludes by demanding that the trade unions stop being "fictitious and dead institutions, and again provide active representation for the working people."

The April 8 Przeglad Kulturalny makes the following oblique attack on Kremlin domination of Poland. "A real independence of Poland would serve the interests of the USSR." Evidently, the editors consider present Polish independence to be only nominal and want the real thing.

SUPPRESSED TESTAMENT OF LENIN

This 48-page pamphlet, containing the full text of Lenin's famous last testament, plus background material by Leon Trotsky, is must reading for everyone interested in the origin of the Stalin cult. Trotsky reveals the inside story of why Lenin came to break with Stalin and how he started the struggle against the future dictator.

Stalin himself was forced at the October 1927 plenary meeting of the Central Committee of the Russian Communist Party to admit the existence of Lenin's last warning. He read aloud the postscript designating the General Secretary as "too rude" and proposing to remove him from his post. "Yes, comrades," said Stalin, "I am rude towards those who are rudely and disloyally destroying and disintegrating the Party. I have never made a secret of it and shall not do so now." But Stalin soon decided to make a secret of Lenin's last testament. He refused to publish it, putting it instead on the list of forbidden reading for rank-and-file Stalinists.

Get your copy of the document Stalin tried to bury, together with Trotsky's illuminating revelations and Marxist analysis of how it came to be written. Only 25 cents.

One Hundred Years from Now

The world's supply of food, industrial raw materials, and "technical manpower" will be sufficient to provide the entire human race with the necessaries and luxuries of life "on the American standard" even if world population quadruples in the next 100 years.

This prediction is made in a report called "Resources of the World: A Speculative Projection,' made by a group of scientists who are members of the faculty of the California Institute of Technology. It is a modest prediction based on known resources and techniques which have for the most part already been developed in their theoretical aspects.

The new technology will involve extensive use of atomic fusion which will make it possible to obtain all raw materials and power from "the most common substances available: air, sea water, ordinary rock, and sunlight."

The report makes clear that it is not only possible to create such a technology, but absolutely necessary if we are to overcome the exhaustion of richer raw materials on which the present technology is based.

In other words, in order to progress at all, or to avoid going backward, techhology is going to have to take a qualitative leap forward which will insure that natural resources are unlimited. The scientists say this leap is entirely possible, that man has only to apply enough scientific, intellectual energy to his technological problems in order to solve them. The scientists who made the study have only two reservations to make. One is that

the prediction applies only "in the absence of a world catastrophe," in other words an H-Bomb war. The other is that such a technology must be well integrated and

Sukarno's Visit to the U.S.

A foreign dignitary visiting the United States presented us with something else than a rabid echo of Washington's saber rattling for a change.

President Achmed Sukarno of Indonesia addressed the U.S. Congress on May 17 to tell of the national independence aspirations of the Asian and African nations. He denounced U.S. military aid to Asian countries as only making "countries accepting it more dependent on America."

He also announced that the Asian and African nations fighting against colonial bondage would accept "any assistance that may come to us from whatever quarter it

carefully planned, and the planning should start soon.

Monday, May 28, 1956

In view of this need for plannig it is ironic that the report was prepared for the benefit of, and is now being delivered to. board meetings of America's largest corporations. The very corporations who resist every suggestion of economic planning as an attack on profits and as "creeping socialism."

These same corporations in their aggregate make up U.S. Big Business. This is the very force driving for an H-bomb war. Its insatiable greed for profits provides the basis for the real threat of World War III.

Over 100 years ago, Karl Marx forecast that enormous increases in mankind's technological capacities would bring about universal well-being. But he warned that change theirs. They had to find capitalist organization of society would nice things to say about Reuther prove to be an obstacle in the realization of the goal. He foresaw that because of and domestic redbailting. conflict with profit making, the capitalist class at a certain point would stymie technological development and would threaten mankind with untold destruction. He concluded that mankind would be compelled to overthrow capitalism and organize economy on a planned and rational - that ils, socialist — basis.

The report of the scientists confirms Marx's predictions. The fact that America's capitalist rulers exploded an unbelievably destructive H-bomb on the very same day the scientists projected a giant leap forward in technology points to the alternatives we face: Either capitalist stagnation and eventual all-destroying war; or socialism. We are confident the man, co-editor of Monthly human race will not make the wrong choice.

He also made it clear that he included the Chinese Revolution in the series of colonial uprisings against imperialism.

THE MILITANT

Stalinists Court U.S. Labor Bureaucrats

By George Lavan The old political maxim, that foreign policy is an extension of domestic policy, works in reverse, as anyone who studies the Daily Worker, the paper of the American Communist Party, can tell

Since the foreign policy line of the American Stalinists is co existence (international class collaboration), its logical consequence in their domestic policy is coexistence with class collaborationist top labor bureaucrats. A case in point is UAW President Walter Reuther, who not so long ago got nothing but brickbats from the Daily Worker. Today he gets nothing but bouquets from the same source. This is no minor feat of political acrobatics and it took a

little time in bringing it about even though the foreign coexistence campaign was in full swing. Moreover, the Stalinists had to do it all by themselves Reuther wouldn't cooperate. He

didn't change his line or politics, the Stalinist leaders had to while he was still interlanding his speeches with anti-Soviet tirades

"But since I have firmly deit only to demonstrate that the cided that I will not vote for a SWP and only the SWP met all capitalist candidate, I shall have of the requirements advanced by to choose from among the four socialist parties - however unpreventing the discussion from satisfactory the choice may be."

MATTERS OF PRINCIPLE

I have quoted Huberman at length to avoid any misunderstanding. In his characterization of the SP and CP, Huberman in the March issue of Monthly applies criteria of a principled

1. The SP, he says, is socialist in name only. "fights social-Republican and Democratic par- ism where it already exists." The question of the defense of the a "third party which is not conquests of the revolution in clearly socialist." He then poses the Soviet Union, China and the East European states, is a mat-'in an unrealistic sectarian way.' "How shall we vote? The di- ter of fundamental principle. the American people in election position." And his conclusion? ampaigns. Huberman admits the SWP "advocates socialism" but

"I shall vote for Hallinan and Bass.' Co-editor Paul Sweezy considered Huberman's position too "sectarian." Proceeding from the "theory of the lesser evil" he

How did they resolve it? Writing in the November 1952 issue Socialist Workers Party are on of Monthly Review, Huberman "My dilemma, then, is not that of Stevenson vs. Hallinan. What

sive Party is not a socialist to support the candidates of the party. Composed, as it is, mainly of convinced socialists, it should, I think, stand four-square for socialism. I regret that it doesn't since I am certain that if it did its total vote would not be less, and might even be greater. Besides, and of great importance, it would give its adherents the feeling of exhilaration which comes with voting for something instead of merely being in op-

may come." This was an endorsement of the action of India, Burma, Egypt and other Asian-African powers who have faken economic aid from the Soviet Union. Instead of denouncing Soviet "imperialism" as previous visiting dignitaries have done in the past, Sukarno directed his attacks against the imperialist powers of Britain, France and Holland. "Nationalism may be an out-of-date doctrine for many in this world; for us in Asia and Africa, it is the mainspring of our efforts," he declared. "... The sacrifices we have made have been for the release of our people from a colonial tyranny lasting for generations and centuries."

Another FBI "Spy" Scare

Shrouded in a cloak of secrecy the FBI swooped down last week to arrest an army sergeant and three civilians for allegedly stealing some secret Army documents.

FBI spokesmen refused to answer press queries as to the nature of the stolen documents or if an "international conspiracy" was involved. The setting was perfect for outsized headlines and a solid radio and TV coverage. Clearly a major new spy ring had been smashed by the ever-alert FBI.

With the booking of the prisoners and the necessity for the FBI to state the facts of the case, even the capitalist press was compelled to take a rather dim view of the grotesque episode. It turned out that the manufacturers of military clothing had, according to the charges, paid off the sergeant for a list of military personnel abroad with a view to setting up a direct mail order business.

This latest "spy" scare is worthy of comment because it sheds a bit of light on an aspect of the functioning of the FBI as a reactionary secret political police outfit. The FBI's highly publicized cloakand-dagger activity serves as a cloak for its primary function — the invasion of the constitutional rights of the American people.

A steady stream of publicity about "agents of enemy powers," reasons the FBI, is an excellent cover for persecution of those "guilty" of championing the rights of labor, the Negro people and minority political tendencies. It is precisely this phase of the FBI's work which warrants the widest publicity.

dignitaries is a measure of how high the tide of anti-imperialism has risen in the colonial and former colonial areas of the world. This was already registered at the Bandung Conference of Asian and African nations in April 1955. Since then the tide has mounted.

Previous visitors to the U.S. government who came to line up with American imperialism - such as Prime Ministers Kotelawala of Ceylon, Yoshida of Japan Ali of Pakistan - all met defeat subsequently in elections. Sukarno's remarks adhered far more closely to the desires and interests of the Indonesian and all other Asian and African peoples.

The FBI has been the primary agency for carrying the government witch hunt into the labor movement. Under the guise of "loyalty" and "security" checks in the mass industries, FBI agents have been responsible for the firing of countless struggle, waged from October, militant unionists who had never been convicted of any "crime."

The FBI's role in the civil rights battle has been equally odious. It has consistently refused to act against white supremacists who have trampled on the rights and very bodies of Negroes. Its stubborn refusal to enter the Emmett Till case is but one example of this. At the same time from every part of the country comes reports LENIN AND TROTSKY of members of the NAACP and other civil rights organizations finding themselves Trotsky for collaboration as the under FBI surveillance.

Supporters of minority political parties are hounded and harrassed by the FBI with the sole purpose of intimidation. FBI snooping "interviews" with neighbors, shopmates and employers of those suspected of holding dissident political views have become a familiar and revolting part of the Better." These articles are in-"American way of life."

The Negro Struggle By Jean Blake

Republicans and the School Decision

When it comes to rewriting history to suit the political needs of the moment, the Russian bureaucrats have nothing on the capitalist politicians in this country. Republican propagandists are now engaged in as fancy a whitewash job on the Administration's record on school desegregation as the Communist Party hacks are doing in disclaiming their party's responsibility for the betrayal of the workers' cause by Stalin.

The central lie of the Republican election campaign is that the Administration's record and program deserve the support of all foes of segregation; that support of the conservative elephant is an effective way to protest against the Democratic jackass.

The source of the campaign myth is the fact that it happened to be during the Eisenhower term of office that the U.S. Supreme Court was compelled to recognize that racial segregation in public schools is unconstitutional.

The belated recognition that Jim Crow schools belie the democratic propaganda line of the U.S. State Department abroad was forced on the court by the combined pressure of the American Negroes and the revolutionary colonial masses of Asia and Africa.

But the Republican Administration did intervene in shaping the Supreme Court's decision, and should be given full credit: the Eisenhower regime is directly responsible for the built-in nullifiers of the antisegregation ruling.

The Justice Department recommendations, signed by Attorney General Herbert Brownell, Jr., urged that control and enforcement of desegregation be returned

to the local districts, and that the lower courts judge whether the school boards desegregate "as expeditiously as the circumstances permit."

The Supreme Court adopted the recommendation of the Administration. Control and enforcement of the desegregation process were turned over to the Jim Crow local courts. The basis was provided in the very wording of the decision, for practically unlimited stalling.

The result is well-known. Brazen contempt for the law by the white supremacists of Dixie. An open campaign of economic, social and political persecution and physical violence against all Negro demands for equal rights.

Brownell's brief had the full support of Eisenhower, who previously told reporters at a press conference on Nov. 23, 1954, that "decentralizing desegregation" was being explored.

"Decentralizing desegregation" was entirely consistent with the Republican policies of decentralization in other fields: in labor legislation and enforcement of standards, control was turned back to the most reactionary local authorities; in public power and property, to private interests directly or through the states; in public housing, to administrators frankly opposed to public housing.

That's the record of the Republicans. That, and the refusal to lift a finger to protect the rights of the Negro victims of vicious terrorism in Mississippi and elsewhere throughout the country.

The Socialist Workers Party - not the Republican Party — is the alternative to Eastland and his Democratic Party in 1956.

"I've got my belly full of complaints about layoffs and speed-up."

By C. Thomas

When Walter Reuther, president of the AFL-CIO United Automobile Workers Union, first proclaimed the Guaranteed Annual Wage as the prime goal in the 1955 negotiations for a new contract, 9-

it was made to appear as a ployed in the assembly plant in relatively simple proposition. The words "Guaranteed Annual Wage" seemed to be self - explanatory. The demand as presented to the delegates of the 1953 UAW convention was for a guaranteed yearly wage based upon earnings computed on the basis of a 40hour week for 52 weeks.

FROM GAW TO SUB

That's the way Reuther's GAW plan was understood when it went into the hopper. When it came out, in the form of a contract agreement, there was only the faintest resemblance to the original plan. So much so that the designation was changed from GAW to SUB (Supplementary Unemployment Benefit.) It was cut from 52 to 26 weeks. Instead of the simple proposition of a GAW the terms embodied in SUB seem to have been concocted by a Philadelphia lawyer on a lost week-end. A special report in the May 20 New York Times attempts to unravel the SUB plan as it applies under present conditions of mounting unemployment in the auto industry. To begin with, navments under the SUB do not

begin until after June 1. Only But Reuther was obsessed with those laid off after May 2 are eligible for benefits. "The benefit payments," says

the report, "when combined with state unemployment compensathat he be the "first" to achieve tion, will bring a worker's income to a maximum of 65 per cent of first four weeks of layoff after a waiting week. For the next that period in which he continues to be eligible, the laid-off worker will get combined benefits totaling 60 per cent of his take-home cap it all he signed another longpay.

Tarrytown, N. Y. Assume his hourly rate of pay to be \$2.10 and that he is laid off June 1. "His weekly base pay would be \$84. But he would have \$7.78 withheld in income taxes and Social Security, leaving a weekly take-home pay of \$76.22. Under the plan he will be entitled theoretically to 65 per cent of

NUMBER 22

this take-home pay, or \$49.54, for his first four weeks of layoff after waiting a week.

"In New York State he will get \$36 of this from the state unemployment benefits. The rest, or \$13.54, will be paid by the General Motors trust fund in supplementary benefits. In Michigan, where he would get \$42 in state benefits, he would get only \$7.54 in supplementary aid. His total would still be \$49.54.

"Affter the four-week period he would get only 60 per cent of his take-home pay, or \$45.73. Supplementary benefits will be reduced correspondingly while stalte benefits remlain constant.

"The duration of the benefit is computed in this way: If he has less than ten years seniority, he gets one-quarter of a credit for each week worked for General Motors since June 6, 1955. That means he would have fifteen credit units when he completed work June 1.

"Assume that the Tarrytown worker has three years seniority at the time of his layoff. With his weekly take-home pay for the the trust fund position about 25 per cent of maximum at present, credit units would be canceled for twenty-two weeks or portion of this man at the rate of 3.33 units for each weekly supplementary benefit. That means thirteen credit units divided by 3.33. This would equal 3.9 weeks during which he could receive supplementary benefits.

"A worker must apply for unemployment compensation first. When he receives his first check he must go to his place of em-

ployment and apply for the sup-

Bound Volume of THE MILITANT

Volume One, Number One of The Militant appeared Nov. 15, 1928. It exposed and attacked the growing Stalin dictatorship in the Soviet Union and raised high the banner of revolutionary socialism through support to the Trotskyist Left **Opposition in Russia.**

Early volumes are available only in librarles and as collecters' items. Available bound volumes begin with the year 1942, when The Militant - promoting the same Leninist, class struggle principles as in 1928 - fought against Wall Street's imperialist war. Its pages defend the Soviet Union and the colonial revolution, oppose the no-strike pledge at home and defend the living standards of the American workers against sky-rocketing profits.

Issues in subsequent volumes denounce Truman's "policeaction" in Korea, support the Negro people in the fight for civil rights, fight the witch-hunt and stress the need for American labor to build its own party.
