Consider the lawsuit situation. The racist governors, legislatures and school boards of the South have already passed, or have up their sleeves, 101 legal gimmicks to prevent integration. The racists boast that they can prevent desegregation by litigation for 100 years. And the observer is compelled to admit they can if the fight is confined to the courtrooms.

Limits Firing Of "Risks"

The U.S. Supreme Court on June 11 knocked another chip of Democrat Truman and Republican Eisenhower. This was done in a six-three decision declaring the procedures of the "loyalty" purge illegal when used against government workers in "non-

sensitive" jobs. The decision is important in that over half, of the "security risk" firings to date have been of employes in jobs without the remotest connection with securmaking. These witch-hunt victims can now bring lawsuits to regain their jobs and back

of Kendrick M. Cole, a former employe of the Federal Food and Drug Administration, fired because of alleged association with Nature Friends of America. This organization, which

went in for hiking and outdoor life, is on the Attorney General's "subversive" list. Cole, a veteran, appealed his firing to the Civil Service Commission. Under the Veterans Preference Act of 1944 he was entitled

to such an appeal. However, the government ruled that Eisenhower's "loyalty" purge executive order, issued in accordance with a 1950 witch-hunt law, superseded Cole's rights under the Veterans Preference Act.

Leadership's Attempt To Divert 'Stalin Cult' **Discussion Blown Up**

By Daniel Roberts

Reaction of the U.S. Stalinist leaders to the Khrushchev revelations about Stalin has been made up of the following ingredients:

(1) High indignation over Stalin's crimes. (2) Breast-beating about their past cover-up for the sinister dictator. (The June 8 Daily Worker pleads it was "wholly ignorant that these crimes had been committed," but engages in self-criticism for having denounced as "enemies of the working class" those "who told the truth about them.") (3) Pointing to their record of participation in the class struggle the U.S. in extenualtion. (4) Assurance that "gigantic transformations" have already taken place and a call for yet more changes in the Soviet Union. (5) A new call for a regroupment of radicals in the U.S. leading to the building of a mass party of socialism.

NEW YORK - Four distinct points of view on "Working Class Policy in the 1956 Elections" will be bership in the Socialist Workdiscussed at a symposium next Sunday sponsored by the erans Preference Act.

Brooklyn Compass Club. The speakers will be Farrell Dobbs, Socialist Workers Party presidenitial candidate, W. E. B. Du-Bois, noted scholar and Progressive Party candidate for U.S. Senator in 1950, David Goldway, executive secretary of the Jefferson School, and Clifford T. Mc-Awoy, former American Labor Party candidate for Governor and Mayor of New York.

A lively debate is assured since the speakers will present conflicting policies in the 1956 elections.

FOR SOCIALIST AMERICA

Dobbs stands opposed to class collaboration. The main plank in his election platform is furtherance of the class struggle of the workers through independent political action. He advocates formation of a Labor Party, regarding this as a step toward the establishment of socialism in America.

Dobbs says his candidacy gives all those who believe in socialism a chance to vote in line with their principles. It gives all those who belive in independent labor political action a chance to register their desire for an independent party of Labor, and all those who oppose the present bipartisan policies of the Democrats and Republicans a chance to oppose this political monopoly.

DuBois advocates a boycott of the 1956 presidential election. In an article in the March 26 National Guardian, after rejecting both the Democrats and Republicans as pro-war and pro-Jim Crow, he said: "The result of the election I cannot change, but I can at least refuse to condone it. I can stay at home and let fools traipse to the polls. I call this sitdown strike the only recourse of honest men today so far as the presidency is concerned."

STALINISM AND BOLSHEVISM - By Leon Trotsky-Is Leninism Responsible for Stalin Cult?

[The revelations coming out of Moscow constitute a striking confirmation of the brilliant analysis contained in the writings of Leon Trotsky on the origin, development and inevitable downfall of the Stalinist bureaucracy. The publication of the secret Khrushchey speech detailing the horrible crimes of the Stalinist bureaucracy has unleashed a veritable flood of hindsight wisdom from the pens of capitalist pundits, Social Democratic camp-followers of the American State Department and assorted political wiseacres, all harping on the same theme: Stalinism, they say is the inevitable outgrowth of Leninism. Once before, on the heel of working class defeats and Stalinist betrayals following the first world war, there was a similar chorus. In his article: Stalinism and Bolshevism, Trotsky applies his scalpel to dissecting the political physiognomy of those who sought to discredit the very idea of revolutionary Socialism by identifying it with Stalinism. Written during the period of the Spanish Civil War, Trotsky's polemic is directed at the opponents of Bolshevism whose politics played no small role in aiding Stalin, "the organizer of defeats," in carrying through his counter-revolutionary policy in Spain and elsewhere. The article entitled: Stalinism and Bolshevism - Concerning the Historical and Theoretical Roots of the Fourth International, was published as a pamphlet in 1937 by Pioneer Publishers, 116 University Place, New York 3, N. The Stalinist "New Look"

In psychological shock resulting from the revelations of the Khrushchev speech and in hope of rehabilitating themselves in the eyes of the American working class, the Stalinists in this country are publicly apologizing for their past sins and promising to turn over a new leaf.

The Daily Worker of June 7, for example, carries a front-page editorial, which says: "We were wholly ignorant that these crimes [of Stalin] had been committed, yet there was reputable evidence had we but listened. How then explain our consistent denunciation of many people as 'enemies' of the working class because they condemned these crimes? We were wrong, terribly wrong. . . What was unforgiveable and inexcusable was the manner in which we passed judgement harsh and sometimes vindictive in tone -on many of our fellow Americans based solely on their criticism of the Stalin rule."

The editorial concludes with the promise that the Daily Worker will dedicate itself to the struggle against war, Big Business, Jim Crow and the witch hunt. "We have our place within this people's movement for a more democratic America. It is within its ranks that we must prove, anew, our right to be heard with respect . . . ," declares the editorial, and closes with the assertion - "We intend to so prove."

Is the Daily Worker's resolve to be honest in the future and to shun the crimes of the past to be taken at face value? No! The proof of all promises is in deeds, not words. The acid test will be that paper's attitude toward its most vilely abused and libelled target of the past - the Trotskyists.

Several weeks ago Pioneer Publishers tried to place an advertisement in the Daily Worker for one of its publications: Lenin's Suppressed Testament with an introduction by Leon Trotsky. It was disdainfully refused. How does this square with the above-quoted editorial's lament things were already much too that "We were ignorant that these crime [of Stalin] had been committed, yet there was reputable evidence had we but listen ed." Isn't the refusal of the ad continuance of the old policy and preventing Daily Worker readers from reading all the available evidence?

* This past week the Socialist Workers RESENT/ PROPAGANDA Party tried in vain to place a paid ad for a public meeting on the Khrushchev revelations in the Daily Worker. Significantly enough the Daily Worker business office, that stuff about "the determinathinking it was the right-wing Socialist tion of the Building workers on Party, was willing to take the ad. When Stalin - Allee to increase their the misunderstanding was cleared up, a frosty rejection followed.

Khrushchev's discrediting of the Moscow Trial "confessions" leaves the Daily Worker unable to use the old slanders of "spy, provocateur, fascist," etc., against But every new available facility the Trotskyists. But bereft of its old vocabulary, the Daily Worker nevertheless acts the same.

Actually, its contrite and loudly-proclaimed "new look" is a hypocritical part of its right turn and its wooing of the labor bureaucrats, reformists and social Stalinism it cherishes the old hatred.

History will record that to the workers of East Germany goes the honor of having struck the first open revolutionary blow for the whole world to see against the hated Stalinist bureaucracy. The fear that the workers throughout the Soviet zone would emulate the June heroes was an important factor in extracting the concessions which the Soviet bureaucracy is now making to the workers.

But the social forces set in motion by bureaucratic repressions cannot be swerved by meager concessions. The concessions will provide a vantage point from which the workers will gain new strength and gather momentum. It is along the path blazed by the heroic June fighters in Germany that the final struggle against the bureaucracy will unfold. Neither concessions nor repressions can in the long run prevent the ultimate victory of the workers against the bureaucratic deformation of the emanand launch their own strike action. Dear Folks,

Right now is the busiest and happiest period of my life. The shattering revelations that came from the 20th Congress and from Poland were, of course, no cause for rejoicing. The news that hundreds

tion consisted in his struggle to rescue the precious heritage of the October revolution and of Bolshevism, from obliteration at the hands of the bureaucratic usurpers.

The heritage of Lenin and October lives and pulsates in the awakening consciousness of the Russian proletariat. This is the nighty force that is shaking the oureaucracy to its very foundaions. And with the rise of the Russian proletariat the whole world communist movement will be reconstructed. Already the colossial power of working class and colonial revolution has proven far stronger on a world scale than either imperialist capitalism or the Stalinist bureaucracy. What an enonmous reinforcement the revolutionary awakening of the Russian working class will bring to these anti-capitalist forces!

"Labor FBI" No Solution

Some weeks ago, an unknown thug threw acid in the face of Victor Riesel and blinded the Hearst labor columnist. Since then every labor hater in the country has been howling for an "investigation" of racketeering in the unions. The rabidly anti-labor Republican Congressman Frelinghuysen of New Jersey, is yammering for a "full-scale Congressional probe of labor racketeering." After seeing Riesel on TV in a "fist-clenched appeal for establishment of a permanent Congressional committee to root out union crooks," President Eisenhower declared he "wanted to do something about it."

On the basis of past experience with Congressional "investigations" involving frosting on the cake, Alex Rose, president of the Hat, Cap and Millinery Workers Union, proposed to the union's recent convention, the establishment of "Labor's F.B.I." to be "staffed by expert investigators for gathering evidence of extortion and evil-doing."

None of the proposals to eliminate racketeering in the labor movement even touches the primary source of the evil. The source is the bureaucratization of the unions. In order to carry out their policy of collaboration with the bosses the union bureaucrats seek to stifle all militant opposition in the ranks. Militant union fighters are harassed, framed, fired off the job, fingered to the FBI, and blacklisted. This dirty work is carried through with the cooperation of the union bureaucrats, the employers and the capitalist government. Union racketeers can flourish only in ar atmosphere of bureaucratic repression. Where there is rank and file control and internal union democracy any would-be racketeers are given short-shrift. biography of Stalin.

N. Y. Times and Political Morality The New York Times has made extensive editorial comment on the Khrush-

chev speech to the 20th Congress of the Soviet Communist Party. The views expressed in these editorials, which have been echoed by top government officials, reek of hypocrisy and fraud.

The Times reports that it found it a "searing experience" to read Khrushchev's description of Stalin's crimes. But the "initial shock" wore off quickly and the editors were able to get down to the business of explaining "the sense of satisfaction (that) must pervade every opponent of communism."

Denouncing "dictatorship" in general, the Times points out that "the new Soviet rulers object only to an application of Stalin's 'brutal and inhuman' methods to themselves ... not to the methods as such or the profitable result of them."

When the Times talks about opposing not some, but all dictators, regardless of "profitable results," the adage about people who live in glass houses is brought to mind. The American government spends a fortune to prop up the dictator Rhee in South Korea and the dictator Chiang Kaishek on the island of Formosa. The Times has no quarrel with these particular dictators who act as pawns in the U.S. drive to preserve the private property system and the "right" to super-exploit labor.

Additional millions are spent by the U.S. on the hated dictator Franco. The "moral revulsion" of the Times against the Soviet dictatorship is curiously absent in relation to U.S. funds for the Spanish dictatorship.

The Negro Struggle

By Jean Blake

The 47th annual convention of the National Association for the Advancement of Colored People opens in San Francisco on June 26th. Developments in the world struggle and in the U.S. struggle for the advancement of colored people are at a stage that could make this the most historically significant gathering in the organization's history.

Abroad, the colonial masses are demonstrating their determination to end imperialist rule and exploitation. At home, the Southern Negroes have entered the arena in combat against Jim Crow in their own name, with mass action. This is the decisive new factor in the situation. 1 the delegates recognize it, this year's convention will re-evaluate some of its old policies in the light of Montgomery and Tallahassee.

This year in particular, the NAACP should consider how its political action program can be qualitatively changed so that the power of the masses, already demonstrated through boycotts and other actions on the economic field, can acquire effective political expression.

The Negro masses have already laid the groundwork for independent action on the political field. After the sadistic murder c Emmett Till and other terroristic outbreaks by white supremacists in Mississippi, this country saw the most massive and militant nation-wide protest demonstrations in decades. In Montgomery, mere protest was transformed into effective organized action that raised the movement to new heights of solidarity and selfconfidence. These are the things that have made civil rights the paramount issue in the 1956 presidential election campaign.

What can the NAACP do to make the most of this favorable situation?

The old policy and program for politica" action is not suited for this new situation In the South the NAACP has conducted court tests for the right to vote; in north ern industrial centers, campaigns to induce Negroes to register and vote; and in the national and some state capitals, lobbying -- But Right! for legislative reforms. But that is all. The NAACP has been officially non-partisan. It has tried to coax or threaten politicians, but not select or control them The result has been some crumbs for a privileged few, but no civil rights legislative gains for the Negro masses as a whole.

This type and method of political action was tolerable only so long as the majority of colored people were isolated in rural areas in the South. What could a lone Negro do in a southern plantation county? Nothing. So the NAACP could plead, coax, pray and bluff, like union representatives in an unorganized industry who know they have no power to back them up.

But industrialization and mechanization have pushed thousands and thousands of Negroes off the land and massed them in cities and towns where they have discovered the strength of organized numbers, the methods and tactics of class struggle.

The next step is to recognize that of ficial "non-partisanship" consisting of abstention from endorsing candidates, has been a back-handed way of endorsing what some leaders consider the lesser of two evils.

Now that Negro masses have demonstrated they can be organized for united positive action, it is time for the NAACP to give a different content to its "non partisanship."

Says Strong

By William Bundy

NEW YORK, June 13 - "Stalin committed errors, abuses, and even crimes, if you care to use that word," said Anna Louise Strong at a Stalinist sponsored meeting here last night, "but the balance sheet of the Stalin era is definitely on the plus side." She spoke at a meeting under the auspices of the National Council of American Soviet Friendship on "Latest Deelopments in the Soviet Union." For three decades now, Anna Louise Strong has made a profession at apologizing for the crimes of Stalin and Stalinism. In spite of the revelations of the Khrushchev speech, she hasn't yet been able to break the habit.

Her speech last night followed almost word for word, the article she wrote in the April issue of her news letter Today, which came out before the Khrushchev speech was published.

A press conference for the SWP nominee held here on her arrival June 6 was covered by the Minneapolis Tribune and by the Star. The kids are taught to want to become business men, but in our increasingly monopolistic economy this is an unrealistic goal and can only lead to frustration and a feeling of failure. Akron labor has countered this by organizing a Joint AFL-CIO Committee on Schools and Education to "combat business pressure."

Notes from the News

CARIBBEAN DESPOT Trujillo, who, to the extent a small country can allow, rivals Hitler and Stalin for deeds of bloody cruelty, has started a propaganda offensive in N.Y.C. The recent isappearance, and believed murder, of Dr. Jesus de Galindez, on the eve of his publication of an anti-Trujillo book has given the Dominican dictator a bad press in New York. Galindez' disappearance follows the assassination several years ago of the editor of an anti-Trujillo newspaper published in New York by Dominican exiles. Numerous exiles in Cuba have been assassinated by Trujillo agents. New York now has a number of huge billboards with Trujillo's picture and propaganda. On June 4 Dominican agents staged pro-Trujillo rally in New York at which his

TWO REACTIONARY DECISIONS were handed down by the U.S. Supreme Court on June 4. In one, Wisconsin's restriction of striking Kohler workers' right to picket was upheld. In the other, the Cutter Laboratory's 1949 firing of a local union president because of alleged membership in the Communist Party was upheld. In his dissent in the latter case Justice Douglas declared: "Government may not disqualify one political group from employment. And if the courts lend their support to any such discriminatory program . . . the government has thrown its weight behind an unconstitutional scheme to discriminate against citizens by reason of their political ideology." Both decisions were 6-3, with Justices Douglas, Black and Chief Justice Warren dissenting.

REPUBLICANS AIM FOR NEGRO VOTE. At a Washington conference of the Citizens for Eisenhower, the organization's public relations chief told delegates that a 5 to 10%, switch in Negro votes this year "would almost certainly mean the election of a Republican Congress." Plans were laid accordingly. One slogan recommended for use in wooing the Negro vote was:

In addition to their own great strength they can win over millions of white workers to begin the movement for a Labor Party. For those delegates who think the proposed path is too ambitious and too risky, we prescribe a little of the boldness and vision shown by the people of Montgomery six months ago. They have already achieved what doubters claimed was impossible. And in November as a protest against both Democrats and Republicans, and as a step toward building the much-needed new party, ballots should be marked for Farrell Dobbs and Myra Weiss, the presidential candidates of the Socialist Workers Party, which stands foursquare for building a Labor Party.

ducted by Stalin with ideological weapons rather than rude, disloval, bureaucratic means and police measures, as was actually the case.)

The distinctive "theory" of the Stalinist gang from 1924 on was "socialism in one country." This anti-Leninist slogan did not mean industrial build-up and collectivization. On the contrary, Trotsky and the Left Opposition were hounded as "super-industrializers" for advocating a five-year plan of industrial development. "Socialism in one country" meant. flattening up the bureaucratic caste at home, crushing the workers' democracy of Lenin's time, and using the CP's abroad merely for pressure and bargaining purposes in order to arrive at statusquo deals with imperialism. That is also what "peaceful coexistence" means today.

To these ends, Stalinist formations arose in every CP, composed of second-rate careerists and disoriented elements. All opposition was ruthlessly expelled. The Trotskyists were slandered, ostracized and made targets of goon-squad attacks. A number of them were murdered. The CP's were thus transformed into Stalinist appendages.

Since its Stalinization some 28 years ago, the history of the American CP is not one of 'devotion to the interests of the American working man," as laimed by the June Daily Worker, although revolutionary minded CP members have earnestly sacrificed to make it such. It is a sordid record of class-collaboration featured today by support for the Democratic Party.

Nor does history permit the slightest confidence in Khrushchev and Co.'s intention to restore workers' democracy in the USSR. The "gigantic transformation' over there has been with the Soviet masses - primarily the working class. They are beginning to assert themselves as an independent force. Already their energetic pressure has forced the Kremlin dictators to dump the Stalin cult and give economic concessions. In the near future
