Compelled to leave by cops, Weaver was set upon by racists outside station. Cops stood by and then arrested and fined Weaver for "reckless driving" while escaping.

The Ruling on the UAW Case

An Editoria

The winds from Washington, D. C., forebode the launching of an anti-labor campaign. They are blowing from the U. S. Supreme Court, the Senate, the Big Business lobbies and from one of the greatest wind-making machines - Senator McCarthy.

On March 11, by a five-three decision the Supreme Court reinstated a prosecution against the United Auto Workers that a federal court had thrown out. The particular "crime" cited was that in the 1954 election campaign the union had paid for several TV broadcasts urging the voters to defeat Republican Senator Homer Ferguson of Michigan, a stooge of the auto barons,

attacked the majority opinion as a blow to the First Amendment.

While organized labor's political influence is catastrophically low today because the Democratic Party as a lesser evil, the little real difference between the curtailing of labor's right to participate in election campaigns would be an obstacle for labor when it chooses to adopt an effective political action program — the and has resulted in numerous unlaunching of a labor party.

While the Supreme Court whittled pany disciplinary actions, includaway at labor's political rights, a Senate minated recently in a strike vote Investigating Committee was preparing

The Santana Story — Poverty and Prejudice

By Joyce Cowley Socialist Workers Party Candidate

For Mayor of New York (Third of series of three)

Segregated housing inevitably results in segregated schools. The three-year fight of the Intergroup Committee on New York's Public Schools has exposed conditions in these schools. Charges originally made by this committee were fully confirmed in a report by the Board of Education itself. Seventy percent of elementary school children in New York City attend "racially homogeneous" schools, which means they are either "all-white" or "all-Negro-and-Puerto-Rican." School zoning has been manipulated to reinforce this segregated pattern. School buildings in what are generally referred to as "deprived" areas are the oldest in the city and in the worst state of repair. By some sleight of hand, most of the improvements and new equipment are allocated to neighborhoods where the need is not so urgent. Schools in Anglo-American districts may have half-empty classrooms while classes in the Negro and Puerto Rican schools run on three shifts.

Few of the teachers really want to work in what are termed "difficult" schools, so there are a great many substitutes and frequent changes. A class sometimes has as many as ten different teachers in one year.

School authorities automatically lower academic standards when Puerto Ricans move into an area because i is assumed in advance they won't be able to do the work A city Welfare Council report on Puerto Ricans in New York states:

"The public schools which have a large proportion of Puerto Rican students, and especially the high schools, have had much difficulty in inducting the children into the system. Teachers have found them slower to learn English than are many European-born children, and have not understood why this should be so. Nor have the teachers understood why so many Puerto Rican children should be unprepared to enter the classes normal for their age even if their English were sufficient."

Key to the "Mystery"

This mystery is cleared up when you read the current Board of Education report. Most Puerto Ricans entering high school in New York attended grade school here and received such inferior education that they are not prepared for the work in academic high schools. They are rarely able to enter special schools (like Hunter and Bronx Science) which require competitive examinations. In most cases they don't even take these examinations since teachers don't encourage it and consider it more "practical" for a Puerto Rican youth to go to a vocational high school where he may be tolerated by authorities until he is 17 and then urged to leave.

Puerto Rican youths are frequently accused of being re-| small for his age and no one checked up.) sponsible for the high delinquency rate in New York City. In Puerto Rico itself there is very little juvenile delinquency, but here it arises as a protest against inferior status and limited opportunities. It is always exaggerated ers are. When you ask them something they come yelling because the police are more likely to arrest Puerto Ricans at you." for minor offenses and because newspapers invariably

Scene in one of the "apartments" that makes East Harlem a rent-gougers' paradise. Puerto Rican and Negro families are Jim-Crowed into these slum dwellings and rents of \$15 to \$25 a week are extorted for such one-room "remodeled" dwellings.

rarely see a story in the papers about a delinquent youth whose family has lived in this country for generations and who is blond and blue-eyed; although boys of this de scription do commit crimes.

Frank Santana's story is similar to that of other Puerto Rican children in New York and symbolizes the problems created by economic exploitation and race conflict. His father died when he was four. His mother came to New York in 1950 and Frank followed her a year later. Mrs. Santana worked in a garment factory to support Frank and two younger brothers, but had to stop work because of poor health. Dr. Wertham describes her as a thin, frail, tired-looking woman. She impressed him as a conscientious mother who tried to do everything she could for the children. The home consisted of two rooms separated by a curtain, without kitchen or bathroom, but it was orderly and clean.

Frank got good marks in the 8th and 9th grades. He says he wanted to go to college and study languages so the next year he asked for French. The teacher suggested Spanish, which he called "silly," since he already knew Spanish. He also wanted a vocational course in radio and television but didn't get it - "just electricity." He didn't know why. It was at this point that his truancy started.

The truant officer who visited his home three times said: "When you are seventeen, we'll kick you out."

"I didn't want them to kick me out," Santana explained to Dr. Wertham. "When I was sixteen I told them Gangs usually develop at the high-school level and I was fourteen, so they didn't kick me out." (He was

Why didn't he tell the truant officer about not get ting the television course?

and "kick him out." After the tragedy, the principal of sentenced, and that he should be released. the school described him as "incorrigible" and said he obviously needed psychiatric care - which he obviously more interest, and the Spanish-language newspaper, "El did not get.

Dr. Wertham's Appeal to Public

The I.Q. of 65 is puzzling in view of the fact that Frank got good marks for two years. But Negro and Puerto Rican children are frequently judged "subnormal" on the basis of group intelligence tests. Although it is illegal to place a child in a class for mentally retarded children on the basis of a group test, the Intergroup Committee on New York Public Schools charged that this frequently happened in the case of minority children. Puerto Ricans are at a special disadvantage because of language difficulties, and many normal children are adjudged mentally deficient and sent to institutions. These institutions may have only one psychologist for thousands of boys, and it takes a long time before he discovers that a boy was committed by mistake — if he ever does.

The fact that all authorities and agencies showed a complete lack of concern about the Santana family is not unusual. There are thousands of similar "routine" cases and no one pays any attention to them until a bullet interrupts the routine.

Sickness and poverty in a fatherless home, indiffer- all public officials are slightly deaf. ence and prejudice at school, anti-Puerto Rican hostility and threatening gangs in the neighborhood where he lived — this summarizes Frank Santana's background. One of the Santana neighbors (not a Puerto Rican) spoke to Dr. Wertham about the boy. He said Frank was quiet, well-mannered, always helped out if you needed him. He discussed the gangs, too. "Make no mistake about it, this is an area where they have to have a gang. On this block there is a complete division between Puerto Ricans and others. The Puerto Ricans can't go here or there because there are other boys. If a Puerto Rican boy walks in a white area! Then the trouble really starts!"

Dr. Wertham asked him to testify in court, but he said he couldn't possibly do it. If I said a good word for this boy, I'd lose my job! Don't you see? I have a family to think of!"

Neither William Blankenship, who joined a gang that beat up Puerto Ricans, nor Frank Santana, who bought a gun because he was afraid of that gang, were the "criminals" in this case. The racist antagonism that made Blankenship push Pedro, and the fear that made Santana grab for the gun, were both the result of race tensions and prejudice in the adult community where they lived.

A case like this would ordinarily end for everyone but Santana and his family when the cell door closed behind him and he started serving his term of 25 years to life. But Dr. Wertham, who never had an opportunity to tell a jury what he learned about Santana, decided to bring the facts before a wider jury. He wrote Circle of Guilt, a book which not only gives an honest presentation of what happened, and a brilliant psychological analysis, but

accept it calmly, and in some instances concentrate their Social agencies are quite numerous in New York City attention on secondary aspects of the book. A review in and a sick mother on city relief with three boys to care The New Republic, first repeats one of the most popular for might seem like the kind of case which should re- distortions in this case: "Frank Santana, a Puerto Rican ceive some assistance. But no agency ever contacted her teenager, for no apparent reason shot and killed Billy Mrs. Santana needed medical care and had been going to Blankenship." Then it proceeds to a discussion of Dr. Wera hospital clinic. When she dropped out, no one asked tham's criticism of mass media, with which it disagrees. why. No one tried to find out the causes of Frank's It completely ignores the fact that a youth is in jail, that truancy. It was easier to wait until he was seventeen the true facts of the case reveal he has been unjustly

> In the Puerto Rican community the book aroused Diario" initiated a campaign for commutation of Frank Santana's sentence. This has received support from two groups, the Council of Hispanic American Organizations and the Federation of Hispanic Societies. Recently, Congressman Adam Clayton Powell announced that he had read Dr. Wertham's book, learned of the effort being made for commutation of the sentence, and would like to intercede for Santana. So the first steps have been taken.

> But far more than this will be needed to obtain Santana's release. The whole labor movement, the Negro organizations, civil rights and civil liberties organizations, should support the initial action of the Spanish-American groups

> The only legal means for Santana to win his freedom is through a pardon by Governor Harriman. But a pardon will not be granted unless the Governor sees that labor and minority organizations are militantly opposed to this kind of newspaper and police frame-up. A governor is a politician, and he will not interest himself in a case of this type unless he learns that a great many voters are interested in it, too. To get a hearing, you first have to make yourself heard, and it is a good idea to assume that

How Santana Can Be Freed

The governor may find it difficult to hear the voices demanding Santana's release because he is more accustomed to listening to the open-shop employers who want to keep the Puerto Rican people in economic subjection, to the landlords whose rat-infested tenements have become very valuable real estate, to the machine politicians who are paid by these employers and landlords to protect their interests, and to the professional racists who openly refer to Puerto Ricans as "these animals" who "assume the community not only owes them a living but junk money."* These are the men who really sent Santana to jail and they all have a stake in keeping him there. They are satisfied with the present very profitable situation, and winning freedom for this youth would strike a blow at their systematic exploitation of the Puerto Rican community. A re-examination of this case might reveal the part they play in creating race conflicts and gang killings, and they don't welcome this type of publicity.

That's why the truth about the Santana case must be brought to the attention of every union in the city, of all Negro and Puerto Rican organizations, of every group that fights prejudice and injustice. Resolutions must be passed demanding Santana's release, and messages sent to Governor Harriman. A broad committee must be set up, with the widest possible representation of labor, minority and youth organizations. A united committee can mobilize the forces that will open the cell door and set Santana free. It can also point the way toward a more

A New Attack on the Foreign Born

Since the opening of the cold war, foreign-born workers have been a special target of the witch hunt, singled out as particularly vulnerable because of their legal status as naturalized citizens or non-citizens. Special surveillance and persecution of the foreign born has been accompanied throughout by the invidious labelling of radical views as "foreign."

This attack on the rights of the foreign born was stepped up again with the hearing of the House Un-American Activities subcommittee which just concluded its public sessions in New York.

Ostensibly aimed at investigation of "subversive" propaganda of local and foreign origin, the committee used its arbitrary power of smear to associate birth in a foreign land and "disloyalty." At the same time the committee attempted ¥) (to level new blows at freedom of the press with the radical foreign language press as a major target.

21

the

30

The committee made the astounding "discovery" that 15 of the 18 editors of foreign-language papers hailed before it were not born in the U.S. At the con-10 clusion of the hearing, the committee made sweeping proposals to begin denaturalization proceedings against such editors as guilty of "treason." The principal reason given for this completely un-

substantiated charge was the fact that they had expressed editorial opposition to the reactionary U.S. role in the Korean war. Louisiana's white-supremacist politicon Rev. T. J. Jemison of the Baton Rouge ians are showing that when it comes to a smear job they are just as up-to-date as McCarthy or Walter. The recent hearing in Baton Rouge, the state capital, by Joint Legislative Committee on Segregation was a prime example of the

modern witch hunt, The committee chairman, Senator Willie M. Rainach, a notorious organizer of the White Citizens Councils, imported a trio of professional informers trained in the FBI and Congressional "investigating" committee stables. At an undisclosed rate of hire, profes-

sional witnesses Manning Johnson. Leonard Patterson and Joseph Z. Kornfedder then proceeded to smear the whole struggle of the Negro people against Jim Crow as "Communist-led," "Communistinfiltrated," and "following the Communist line."

The "you name them I'll testify against them" witnesses attacked Martin Luther King, leader of the Montgomery Bus Protest; the presidents of Atlanta, Howard and Dillard Universities; the president of the Negro Ministers Alliance in New Orleans; historian W. E. B. DuBois; UN official Ralph Bunche; and many national leaders of the NAACP. To show that his talents could be put to local as well as general use by the white supremacists, Johnson launched an attack

dodged the vital speed-up issue, the Rank-and-File platform de at 208 N. Wells St., Chicago 6, officers force an end to the Chrysler speed-up by holding the speed of Chrysler production at its present level and cutting back that of its two main competitors. GM and Ford. The top UAW officials had pledged to follow such a program, and the Rank-and-File caucus demanded that they redeem the pledges.

To cope with the problem of unaway jobs, the Rank and File ticket demanded the right of the union to negotiate on relocation of plants and allocation of jobs. Another plank in its platform called for the 30-hour week at 40 hours pay to combat unemployment and automation. It also onposed the proposed International hies increase

The election was followed with close interest by the other Detroit UAW locals, and the starthing victory of the Rank and File is providing little comfort for supporters of the Reuther machine

LOS ANGELES, March 15 — Addressing a meeting of the Operating Engineers, Local 12, Erroll Banks tonight hit at the moves of the capitalist politicians to

block an adequate low-cost housing program for the city. Banks is a socialist candidate for Mayor, running with the support of the Socialist Workers Party.

"The first major, official act of Mayor Poulson after he was elected to office was to fly to Washington to kill the Federal Housing Project Plan for Chavez Ravine and Rose Hill," Banks charged.

"Now Mr. Poulson wants to turn the Chavez Ravine area into a ball park for the Brooklyn Dodgers," he continued. "I'm all for major league games here, but I cannot go for this. In effect the Mayor is saying, 'The people need' housing? - Give them a ball park!"

JIM-CROW SCHOOLS

country prepared to celebrate its emergence as independent state of Ghana. Many U.S. Negroes travelled to Ghana for the celebration. The noted Negro historian, Dr. W.E.B. DuBois added, "that slum housing breeds was invited by the premier of Ghana but the U.S. State crime. She looks on herself— and the record bears her out— as one of a legion of trade-union militants in this country who con- tributed to the building of the labor movement. She is being victimized because of that. Marie Haug was indicted Jan. 23, along with her husband, Fred Haug, and six others, on the charge of plotting to evade the Taft-Hartley law by filing false non-communist affidavits. She is being prosecuted 'as a former union official for acts allegedly committed in 1951, 1952 and 1953. \$64 QUESTION The \$64 question is : Why were the indictments brought against	it would have been done years ago, to destroy their influence when it was greatest), so a new device was employed. For the first time, "conspiracy" to evade the Taft-Hartley law was charged, with labor figures and alleged Communist Party officials lumped together as defendants. Another consideration in the timing of the indictments is the fact that Fred Haug's alleged perjury occurred in 1952, and the statute of limitations would bar his prosecution for Taft-Hartley violation after January 14, 1957. By adding the "conspiracy" charge the government was able to cite earlier affidavits, as well as overt acts, which the law it- self would not permit under the simple perjury charge. An attractive, talented woman with a six-year-old daughter.	to hold a job except for brief pe- riods. He is now unemployed. The Haugs came to Cleveland in 1943. Marie was on the staff of the UE. In 1944 she was elected local representative for Local 735 and served as business agent until 1956, when the local affiliated with the International Association of Machinists. FIRST WOMAN OFFICIAL About 1946 Mrs. Haug was elected treasurer, the first wom- an to serve as an officer of the Cleveland OIO Council. She also served as treasurer and member of the executive committee of the Political Action Committee and on the State CIO Civil Rights Committee. As a member of the General Executive Board of the UE from 1954 to 1956, Mrs. Haug is be-	money to, and was sentenced to 12 to 30 years in a woman's re- formatory. The sanctimonious Millie has been treated with sympathy and consideration by the "gentlemen" of the press, the courts and even the labor movement. But how have they treated Marie Reed Haug? Scurrilous red-baiting pam- phlets and leaflets attacking her were distributed in 1951, when Mrs. Haug was an independent candidate for Board of Educa- tion. She was not elected, but 45,000 votes were counted for her. Few witch-hunting committees have come to Cleveland without newspaper stories speculating on whether she would be called in for questioning and prosecution. In 1952 a session with the Senate	The average American w be better off if persons in thority did something about real conspiracies now going to raise prices and keep ta high, instead of manufactu cases against labor leaders wl goal in life has been to impu- the lot of their membership.' By adding the "conspiracy" charge the government was able to cite earlier affidavits, as well as overt acts, which the law it- self would not permit under the simple perjury charge. An attractive, talented woman with a six-year-old daughter, Marie Haug was born in New Haven, Conn., June 4, 1914, and graduated from Vassar in 1935. She worked first as a YWCA volunteer in New Haven and New York, then as industrial secretary in Jersey City in 1938-9. Several	to hold a job except for brief pe- riods. He is now unemployed. The Haugs came to Cleveland in 1943. Marie was on the staff of the UE. In 1944 she was elected local representative for Local 735 and served as business agent until 1956, when the local affiliated with the International Association of Machinists. FIRST WOMAN OFFICIAL About 1946 Mrs. Haug was elected treasurer, the first wom- an to serve as an officer of the Cleveland CIO Council. She also served as treasurer and member of the executive committee of the Political Action Committee and on the State CIO Civil Rights Committee. As a member of the General Executive Board of the UE from 1954 to 1956, Mrs Haug is be- lieved to be the only woman ever to have served on the top execu- tive body of an international union in the metal and machine industries. Following the CIO purge of the UE and a number of other	money to, and was sentenced to 12 to 30 years in a woman's re- formatory. The sanctimonious Millie has been treated with sympathy and consideration by the "gentlemen" of the press, the courts and even the labor movement. But how have they treated Marie Reed Haug? Scurrilous red-baiting pam- phlets and leaflets attacking her were distributed in 1951, when Mrs. Haug was an independent candidate for Board of Educa- tion. She was not elected, but 45,000 votes were counted for her. Few witch-hunting committees have come to Cleveland without newspaper stories speculating on whether she would be called in for questioning and prosecution. In 1952 a session with the Senate Internal Security Committee was followed dby a grand jury sub- poena, but no indictment was re- turned. Only in 1957 did a federal grand jury finally indict her- first for perjury in filing Taft-	be better off if persons in thority did something about real conspiracies now going to raise prices and keep ta high, instead of manufactur cases against labor leaders wh goal in life has been to impu- the lot of their membership." But Marie Haug has never fan- cied herself in either one of these two roles. She looks on herself— and the record bears her out— as one of a legion of trade-union militants in this country who con- tributed to the building of the labor movement. She is being victimized because of that. Marie Haug was indicted Jan. 23, along with her husband, Fred Haug, and six others, on the charge of plotting to evade the Taft-Hartley law by filing false non-communist affidavits. She is being prosecuted 'as a former union official for acts allegedly committed in 1951, 1952 and 1953. \$64 QUESTION The \$64 question is : Why were the indictments brought against her now in 1957 instead of be- fore this? The answer, to those familiar with the labor scene appears to be as follows: In the growing government - employer anti-labor drive, th e general strategy continues to be the an- cient one—divide and conquer.	it would have been done years ago, to destroy their influence when it was greatest), so a new device was employed. For the first time, "conspiracy" to evade the Taft-Hartley law was charged, with labor figures and alleged Communist Party officials lumped together as defendants. Another consideration in the timing of the indictments is the fact that Fred Haug's alleged perjury occurred in 1952, and the statute of limitations would bar his prosecution for Taft-Hartley violation after January 14, 1957. By adding the "conspiracy" charge the government was able to cite earlier affidavits, as well as overt acts, which the law it- self would not permit under the simple perjury charge. An attractive, talented woman with a six-year-old daughter, Marie Haug was born in New Haven, Conn., June 4, 1914, and graduated from Vassar in 1935. She worked first as a YWCA volunteer in New Haven and New York, then as industrial secretary in Jersey City in 1938-9. Several jobs in industry followed, then,	to hold a job except for brief pe- riods. He is now unemployed. The Haugs came to Cleveland in 1943. Marie was on the staff of the UE. In 1944 she was elected local representative for Local 735 and served as business agent until 1956, when the local affiliated with the International Association of Machinists. FIRST WOMAN OFFICIAL About 1946 Mrs. Haug was elected treasurer, the first wom- an to serve as an officer of the Cleveland CIO Council. She also served as treasurer and member of the executive committee of the Political Action Committee and on the State CIO Civil Rights Committee. As a member of the General Executive Board of the UE from 1954 to 1956, Mrs Haug is be- lieved to be the only woman ever to have served on the top execu- tive body of an international union in the metal and machine industries. Following: the CIO purge of the UE and a number of other unions in 1949, Marie's career in	money to, and was sentenced to 12 to 30 years in a woman's re- formatory.
