## An Appeal to All Detroit **Radicals for Support**

By Sarah Lovell Socialist Candidate for Mayor DETROIT — A friend of mine recently returned from a visit to Cleveland with this story:

He had been in a discussion with a number of young

people who were or had been un- >der the influence of the Com-I munist Party. The talk had turned to the issue of labor political action, and all agreed that an independent labor party is needed in this country.

But at the same time some of them defended the Communist Party's position that the place for militant and progressive workers is inside the Democratic Party.

My friend answered them on two levels. To be in the Democratic Party, he said, requires support of the Democratic Party, and since it is a capitalist party, supporting it is impermissible in principle for those who are against capitalist politics.

### **A Corpse for the Witch Hunters**

With the suicide of Herbert Norman, Canadian Ambassador to Egypt, the witch hunters in Washington, D. C., can add another notch to their gun. Their triumph is all the greater because this time the victim is not even an American but a Canadian and a diplomat to boot. Here is an example of witch-hunting above and beyond the call of duty — not content with purging and repurging U.S. government employes, they are "cleaning up" the personnel of foreign governments as well.

The so-called investigating committees have driven a number of people to suicide, railroaded hundreds to jail and caused thousands in government and private employment to lose their jobs. The scoundrels and crooks who are making their political careers on the persecution of people for their political beliefs, real or falsely alleged, and on the destruction of American civil liberties, have brought about such a climate of fear that in many fields a smear is sufficient to ruin the careers of men and women, condemning them to unemployment and ostracism. Some of these, like Norman, are driven by despair into taking their own lives. Thousands of others walk the streets of America suffering to one extent or another the effects of the persecution visited on them.

So patently reactionary and odious have these witch-hunt "investigating" committees become that it has now become a point of honor for the radical and civil-liberties movements to resist them every inch of the way. To volunteer information, to cooperate in any way is to aid in the destruction of freedom in America. Study of constitutional law as well as sad experience completely justifies the policy of challenging the witch-hunters by invoking the First or Fifth Amend-• ments. To do otherwise means acquiescing in the witch hunt, becoming an involuntary stool pigeon for the "investigators," who do not want serious information but only names of people to hound and smear, or being entrapped into phoney contempt charges.

To prevent the recurrence of further tragedies as that of Herbert Norman and employers were forced to offer in solidarity with the thousands of other less-publicized victims all believers in American civil liberties must vow unrelenting opposition and absolute noncooperation with the Congressional witchhunt committees.

### The UAW Rank and File

to the official slates.

The report on page two of the opposition caucus meeting at the UAW convention in Atlantic City is heartening news. Obviously those who called the meeting were unprepared and surprised by the turnout and militant temper of the delegates. They took a hall which seated 250; over 400 delegates turned out. More important, the delegates present seemed to be looking for militant leadership and a plan of action for the formation of a national caucus that could begin fighting so for the needs of the rank-and-file auto <sup>m</sup> worker.

.9: Significantly the heartiest response was aroused by the remarks of a Canadian delegate who, while stressing that he was not dealing in personalities, scored Walter Reuther's pro-capitalist policies and declared that unionists should not be apologizing to the capitalists but organizing a vigorous struggle against them.

Professor Syrojetschkowitch was only able to give as an answer what we could read in our gaily newspapers. For a discussion at the university level this was too little.
