

Nation-Wide Mobilization in Washington Advances the Struggle for Equal Rights

Major Cities Rally Behind Pilgrimage

By Henry Gitano A feeling of freedom is in the air, as 50,000 to 100,000 Negroes and whites are preparing to make equal rights a reality by marching on Washington, May 17. Converging on the nation's capital by planes, buses, motorcades and freedom trains will be reinforcements for the greatest mass demonstration against Jim Crow.

Letters, telegrams and phone calls are pouring into the naheadquarters of the tional Prayer Pilgrimage for Freedom, as the march is officially called, reporting broad grass - roots backing. Rev. Ralph D. Abernathy, one of the leaders of the successful Montgomery Bus boycott and Southern Director for the march is currently touring the South, from whence 15,-000 freedom fighters will go to Washington. Birmingham, Ala., has pledged 1,500 people; Mobile, Ala., 500; New Orleans, La., 1,-500; Montgomery, Ala., 1,000. other cities follow this pattern. Underscoring the national scope of the march is the chartering of planes from the West Coast; a contingent of over 3,000 will travel cross country.

Union Delegations Help Cement the Unity That is Need to Topple Jim Crow Rule

By the Editors

We extend our warmest fraternal greetings to the tens of thousands who will rally on May 17, in Washington, D.C., in a giant protest demonstration against Jim Crow. This inspiring nation-wide action marks another big advance in the great crusade of the Negro people to win their just demand for complete economic, political and social equality.

In paying tribute to all of the men and women who are turning out for this protest rally, we believe a special salute is in order for the trail-blazing freedom fighters from Montgomery, Alabama, who have done so much to make the Prayer Pilgrimage possible.

Montgomery stands as today's living symbol of the fact that organized, mass rank-and-file action can deal effective blows to the Jim Crow system. On Dec. 5, 1955, the Negro community of that city launched its bus protest movement as a demonstration of solidarity with Rosa Parks, the heroic seamstress who preferred jail to further racist humiliation and abuse.

Mass Action Gets Results

The splendidly organized rank-and-file movement that then organized itself in the Montgomery Improvement Association knocked out Jim Crow on the Montgomery buses. It won a historic Supreme Court decision declaring Jim Crow travel illegal everywhere. Its continuing resolute action is serving to put teeth into the court's decision. And above all else, the people of Montgomery have served to inspire the Negro people and their white allies everywhere to intensify the struggle.

Much credit is also due the delegations from the big Northern cities - from New York, Chicago, Detroit and elsewhere. The huge turnout for the giant protest demonstrations against the cruel and wanton murder of young Emmett Till in 1955 contributed greatly to sparking the present high wave of militant struggle against racist oppression.

Particularly heartening is the representation in the protest rally of sizeable delegations from the trade unions. By getting behind this action such unions as the United Auto Workers, the Packinghouse Workers, the Garment Workers and District 65 of New York, are contributing a double service. In throwing their weight behind the Negro struggle for equality these unions are not only supporting a just cause, as is their moral obligation, but at the same time they are acting in the best interests of their own membership - both Negro and white.

The Need to March Together

Such united action by organized labor and the movement of the Negro people is indispensable for advancing the interests of both. This alliance will prove to be the only force capable of smashing the anti-labor, anti-Negro rulers of the South who have long oppressed both white and Negro working people through a policy of "divide and rule."

We can be assured that the outcry of protest in the nation's capital against racist violence will echo throughout the land. It will be heard by all and it will serve mightily to advance the struggle. It will help to further cement the bond between the unions and the Negro people. It will place added rank-and-file pressure on the official leadership of the labor movement to get going on the job which has been delayed too long already - the unionization of the South on a completely integrated basis. Such an organizing drive will kick the props out from under the backers of the ugly White Citizens Councils and the reviving Ku Klux Klan.

With the active support of the labor movement, the Negro people will have an even greater opportunity to build and strengthen such vital organizations as the one which brought victory in Montgomery.

And finally, as this mighty demonstration looms over lecture can only be described as the White House and the halls of Congress, the key fact is underscored that the battle against Jim Crow is a political battle against both the Republican and Democratic parties - North and South - who are joined in criminal conspiracy to maintain the white supremacist system so profitable for the Big Business interests they both unswervingly represent.

To effectively combat the pro-segregation policy pursued despite fine promises - by both major parties, it is essential that organized labor and the Negro people build their own party, a labor party capable of fighting for the political interests of the great majority of the people of this land.

As we raise our voices against Jim Crow let us also determine to work for an end to Big Business rule over the country — for an end to the system that breeds Jim Crow

Militant Headlines Tell History of March on Washington

The highlights of the movement of the Negro people for a mass March on Washington to demand full equality is graphically depicted in the above selection of headlines from the Militant, dating back to 1941. The movement which reached a high point at the beginning of World War II, suffered a decline after the July 1941 march was called off. The march is now scheduled for this May 17.

The 1941 March-on-Washington Story as Recorded in the Militant

By Murry Weiss

The idea of a mass March on Washington to lay the demands of Negro people before the government has played an important part in the civil rights struggle of the past. Now that a march on Washington is actually set for May 17, under the official name of Prayer Pilgrimage, it is instructive to review the MOW movement at the beginning of the Second World War. We can trace some of the highlights of this movement from the pages of the Militant.

The Civil Rights Fight And the White Worker

By Fred Halstead

One of the things that stands out most strikingly to all who have observed at first hand the Montgomery Protest Movement, is its similarity to the militant strike struggles which swept the nation's industrial areas during the rise of the CIO over 20 years ago, and which wrought such beneficial changes in the lives of America's working people.

In Montgomery, as in the strike struggles of the Thirties the movement is solidly based on the only force capable of sustaining a successful fight the masses of the working people who suffer oppression and have nothing whatsoever to lose from bringing about a change: as a matter of fact, they can only gain.

In answer to the Pittsburgh Courier's argument that a March would not tell the Washington Administration anything that it didn't already know the Militant said:

SOMETHING NEW

"A successful and gigantic demonstration in Washington that presented a militant set of demands on the administration, a demonstration that showed that the Negro people are ready to do more than send telegrams, that showed they are ready to fight Jim Crow-that would certainly tell Washington something it doesn't already know!"

On June 28, 1941 the Militant commented editorially on a statement issued by President Roosevelt, "urging" employers to "examine" their employment policies with respect to hiring Negro workers. The editorial said: "Other than voicing a pious

sentiment, there is not one phrase in the statement which indicates that Roosevelt intends to take any action whatsoever against those employers who continue their discriminatory practice.

"Here they come!" Negro and white workers pour out of the Chevrolet Gear and Axle, Detroit's largest GM plant at 11 A.M., Nov. 21, 1945, to begin the famous post-war GM strike. Members of UAW-CIO in 102 plants throughout the country hit the bricks 225,000 strong for 113 days in the biggest industrial strike in U.S. history. Their solidarity broke the war-time wage freeze, won the biggest wage increase to that date, and smashed all hopes of Big Business to bust unions by pitting veterans against unions or white against Negro.

This is our history and we have considered it good. Now the people of Jordan and other Arab nations want their independence. They want to end foreign domination and make their own future. The principal obstacle in their path is the Big Business government in Washington. In 1776 the obstacle was King George III. In 1957 it is Eisenhower.

The Eisenhower Doctrine, passed by Congress this year, has been tested in the small country of Jordan.

To strangle the effort of the people of Jordan to win independence from all foreign domination, the United States is backing the reactionary feudal monarch. King Hussein. The independence movement is being driven underground. Unions are banned. Political parties are outlawed. Hundreds of freedom fighters have been arrested and jailed. Amman, the capital city of Jordan has been practically sealed off from the rest of the world under martial law. The King of Jordan dared to commit this violence

New Support for Morton Sobell

The Reverend A. J. Muste, chairman emeritus of the Fellowship of Reconciliation and an editor of the magazine Liberation, made a noteworthy declaration, May 1, in New York on the case of Morton Sobell. He declared that after studying the case he was convinced that "outside of the Department of Justice, there are very few people left who don't believe that at the very least Morton Sobell is entitled to a new trial."

In taking this stand, Rev. Muste joins a growing list of notables. Among them are such prominent scientists as Harold Urey, J. Robert Oppenheimer and the late Albert Einstein. Others supporting the demand for a new trial include such figures as the journalist Elmer Davis, the English philosopher Bertrand Russell, the famed musician Pablo Casals, Warren K. Billings and Senator William Langer of North Dakota.

Sobell was pictured by the government as a man who acknowledged his guilt in advance by fleeing the country to Mexico and who was apprehended by the authorities only after the Mexican government had deported him from that country. Last month the Mexican government issued an official denial that it had deported Sobell. Thus it helped confirm Sobell's charge that he, along with his hundred and fifty people turned tion of the U.S. government while Center tonight for a discussion vacationing in Mexico. Even a brief review of the Sobell case serves to make clear why these prominent individuals and many others so gravely doubt that justice was done. Sobell was tried, along with Julius and Ethel Rosenberg, in a whipped-up atmosphere of witch-hunt hysteria. Before the case even reached a jury, Sobell was "convicted" in the press of delivering atomic secrets to the Soviet Union. Yet the government never made such a charge. The prosecution confined itself to the deliberately vague charge of "conspiring" with the Rosenbergs to commit unspecified acts of espionage.

The principal "evidence" that Sobell had so conspired was the unconfirmed word of one man — and that man was an admitted perjurer facing government

The Obituaries

The late Senator Joseph McCarthy got a generally bad press on the occasion of his death. With the exception of the blatantly reactionary wing of the daily press, most editorial comments deplored his unsavory methods in fighting "communism." But the most significant feature of McCarthy, and the movement he represented, went largely unnoticed. That was the fact that the movement which rallied behind the Senator from Wisconsin represented incipient American fascism — the first stage of an American version of the Nazi movement.

McCarthy, as a sinister political figure. was spawned by the witch hunt. He grew out of the system of "subversive" lists, loyalty oaths, job screenings and such thought-control laws as the Smith Act. This witch hunt was ushered in together with the cold war by the Democratic. administration. It was further developed and refined by the succeeding Republican administration.

For a brief period McCarthy became an independent power in opposition to both parties. Republicans who cheered while he castigated the Democrats for "twenty years of treason" came to quail as he extended the period by one year to cover them. He became the Frankenstein's monster of the bi-partisan witch-hunters.

Particularly noteworthy during this pe-

McCarthy continued to prosper on the basis of such "opposition." But the political and social climate in the country erty forms, he said, aids the cies. Such a discussion is necproved unripe for his fascist perspective. The Wall Street tycoons who control the U.S. government decided they weren't ready to try to impose a fascist dictatorship on the country and decided to put ing a "people's anti-monopoly hope. The Negro Struggle

By John Thayer **Mass Action Has Won the Victories**

It was in 1941, when the U.S. was preparing to go to war, that the anger of the Negro people with their exclusion from the expanding industry and their segregation in the drafted armed forces boiled over. The Negro masses sensed that something more was needed than the old, unrewarding methods of lobbying and sending delegations to plead with the politicians. When A. Philip Randolph proposed a mass March on Washington to demand equality in employment and in the armed forces the Negro people recognized that this was the kind of action the situation demanded. They responded enthusiastically and March-On-Washington organizations mushroomed all over the U.S.

THREAT BROUGHT FIRST FEPC

The threat of such a mass protest frightened the politicians, from Roosevelt down, so much that whereas they had earlier been "too busy" to receive delegations of Negro leaders who wished to protest Jim Crow, they now began running around putting all kinds of pressure on the MOW leaders to call off the March. Randolph caved in under the tremendous pressure and did call off the March in return for a small part of what the movement demanded. This was the wartime FEPC, which had no real enforcement powers and which did not cover industries other than defense industries, nor government employment nor the armed services. Yet it was the mere threat of such a march which produced what is still a precedent and symbol for the U.S. - a federal FEPC.

AN ALLY ABROAD

In the post-war period the Negro people of America continued their heroic struggle for equal rights. In this fight they received support from allies in the trade union movement, from socialists and from liberals. But they found now that they had a new mighty ally on their side - whose weight would help tip the scales on many issues. This mighty ally was the colonial revolution, sweeping Asia like a storm and beginning to blow in the Middle East and Africa. The millions and millions composing this revolutionary movement were people of color. They scorned the U.S. imperialists' cold-war propaganda about democracy because they knew about Jim Crow in the U.S.

Thus when the Supreme Court on May 17, 1954 overruled its old Plessy decision and declared school segregation unconstitutional it was listening not only to the voices of the Negro people and other opponents of Jim Crow in the U.S. but to the voices of the colored people of India, Indonesia, China, Indo-China and all the other countries of the colonial revolution. The Supreme Court's decision has brought

about important desegregation victories in the border states and in the District of Columbia. However, the court's follow-up implementation decision was so toothless that the source of the cancer of racism — the South itself — has for three years successfully defied the decision and plans to make this defiance permanent.

This defiance is compounded of statements of interposition in Congress, amendment of state constitutions, rigging of school laws, outlawing of the NAACP on the governmental level and the unleashing of physical and economic terror by mob action, lynchings, bombings, creation of the White Citizens Councils, spread of the Ku Klux Klan and similar organizations on the grass roots level.

Once again the masses of the Negro people have found themselves confronted with a crucial situation in which the old methods of lawsuits,

lobbying, letters to Congressmen, etc., don't do the job. This is illustrated by the decline in even the amount of lip service the liberals in the last two Congresses gave to the civil rights fight. Civil rights bills never even got as far as a filibuster - they died in committee. A new low even in campaign promises on civil rights was reached last year in the platforms adopted by the Republican and Democratic conventions. This was well demonstrated by the tremendous protest meetings, from coast to coast, following the lynching of 14-year old Emmett Till. The mobbing of Autherine Lucy provoked similar indignation showing that this anger was no passing mood,

It is significant that the present March on Washington originates in the South. It was first projected at the meeting of Southern leaders who demanded that Eisenhower speak out against the racist reign of terror. Since then it has been broadened to a national movement and as a prayer-pilgrimage will present no single specific demand in the nation's capital. The March-On-Washington, called off in 1941, had as its demand fair employment practices

and an integrated army. Thus its effectiveness could have been measured by the results in these terms. The present prayer-pilgrimage will make a general protest about conditions. Its effectiveness thus will be measured only generally. But one fact is indisputable. It will give the powers-that-be in Washington a close-up view of the determination of the Negro people, in greater numbers than the politicians of Washington have ever seen before, to get something done about Jim Crow, about the reign of terror in the South, about the runaround civil rights gets in Congress, about the Southern defiance of the Supreme Court's desegregation decision, and about all the other violations of their rights.

THEY'LL COUNT THE THOUSANDS

A gigantic turnout cannot but enhance the anti-Jim Crow struggle and the political position of the Negro people. More than that, it will confirm for the Negro people nationally the lesson Montgomery has learned and taught in the past year - namely, the power of mass action. This is not to say that the present March on Washington alone will cave in the white supremacists, North and South. A long line of battles loom ahead before that glorious day is reached. One of those battles will be the formation by the Negro people along with labor and working farmers of a new party - untainted by Jim Crow and pledged to its destruction-a labor party. But that's another story in itself. This story is that the present prayer-pilgrim-

age March on Washington is a great forward step in the fight to end race discrimination in America.
