CP Heads in N. Y. Back Big Business Candidates

Openly Oppose Independent **Socialist Votes**

By Herman Chauka

A policy statement on the New York elections by Ben Davis and George Blake Charney, co-chairmen of the New York State Communist Party was published in the Worker

Nov. 3. It aligns the Communist D Party with the cold-war, redbaiting union bureaucrats of the Liberal Party in support of Tammany's candidate, Mayor Wagner. The main fire of the statement is directed against the Socialist Workers Party whose candidates campaigned vigorously to popularize the need for a labor party and a labor administration and to spread the message of socialism.

UNITED DRIVE

Davis and Charney are spokesmen for the Foster and Gates wing of the CP leadership. Their statement represents a united effort by the OP tops to throttle an apparently growing rank-andfile opposition to the party's "coalition" line of supporting capitalist candidates endorsed by the labor bureaucracy. (The

statement takes issue with "the argument for abstention in our ranks," that is, with the attitude of those who saw no real choice between Wagner and Christenberry.) At the same time the statement is a malicious attack

on independent radicals who supported the Socialist Workers ticket in this election. After dismissing the Socialist

Callously Tells People To Resign Themselves to Lower Living Standards

By Fred Halstead

President Eisenhower has strongly implied that the government expects the American workers to cut their standard of living in the coming period. He was asked at

his Oct. 30 press conference, how best the "American consumer . . . particularly in the field of the white collar worker' could cope with the fact that the cost of living has, risen for the 13th straight month. He replied that "people should attempt to purchase less."

'As advice, this statement was hardly necessary. The vast majority of American workers, whose wages have not kept pace with price rises and whose total income is already required to meet current bills, are being forced to cut purchases. But as a warning as to who is expected to pay for announced increases in armaments expenditures, the

The attack against the Socialist Workers Party by Ben Davis and George Blake Charney in the Nov. 3 Worker demonstrates that the leaders of the Communist Party remain supporters of the political program developed by Stalin — a program that has nothing in common with the Marxism-Leninism to which they profess adherence.

The key plank in this program is the concept of peaceful co-existence as developed by Stalin and reiterated by Khrushchev. According to Davis-Charney "it is incompatible for people to oppose the concept of peaceful co-existence and yet profess to speak for socialism."

We are further informed that the S'WP's rejection "of the idea that it is possible to achieve a lasting peace in the present world with imperialism" is "disorienting and dangerous."

The SWP has consistently opposed imperialist war. Despite its political opposition to the Kremlin bureaucracy, it has unreservedly denounced every act of U.S. imperialist aggression against the Soviet orbit. It opposed Truman's police action in

National Guardian Blasts **CP** Support of Wagner

In its column "Report to Readers," the Nov. 11 National Guardian says the following about the Benjamin J. Davis and George Blake Charney attack on the SWP and their call on progressives to vote for Wagner on the Liberal line:

"We marvel, as at a fancy boxer protecting a glass jaw, at the facile logic which can anathematize a socialist campaign as not advancing the cause of socialism; and in the same combination can approve (pardon: approve the approval of) a tailist campaign which hates socialism like the devil hates holy water."

Korea and demanded the withdrawal of U.S. troops. It campaigns for recognition It demands that the U.S. government immediately cease all nuclear tests. It is a partisan of the great Asian and African lin? national independence movements. Here

at home, it stands in opposition to the cold war and all its Big Business and labor-bureaucratic proponents. The SWP thus would have no basic quarrel with a concept of "co-existence" which simply meant opposition to imperialism's preparation for a Third World War against the Soviet Union and the colonial peoples.

Struggle for Peace

But the SWP does differ sharply with the Stalinist "co-existence" concept. This obviously does not mean - the record refutes the contention - that the SWP is pro-war, as Charney and Davis maliciously hint.

Peoples of more economically ackward countries, especially must see in this dramatic scientific achievement a symbol of the potentialities offered undeveloped lands by a non-profit, nationalized, planned economy such as enabled the Soviet Union to make an immense leap in just 40 years. Many workers in the more developed countries will be moved to view more warily the capitalist propaganda that a non-profit economy is incapable of the most advanced scientific and technological feats.

The ruling U.S. capitalists, as represented by their political spokesmen and press, have responded to the Sputniks with snarls of chagrin and frustration. live" deal with the capitalist world. And recognizing that any deals presupposes a price, the effort to win "friendship" pacts with the ruling capitalist class of one or another country is based on abandoning class-struggle opposition to them.

For example, during both the Indo-Chinese and present Algerian wars for liberation, Communist Party deputies in the French Assembly voted war credits to the government. Another example - At the recent British CP convention, the leaders showed what good "Britishers" they were by defeating a resolution calling for unconditional independence for all sections of the British empire. These betrayals of the anti-imperialist struggles of the colonial peoples were perpetrated in pursuit of "peaceful co-existence" pacts with imperialism.

Here in the U.S., the CP co-existence line currently expresses itself in the "Antimonopoly coalition" whose projected aim is to guarantee peaceful co-existence with the USSR. This will be done, we are told, by building a multiclass coalition embracing even "sections of the non-monopoly bourgeoisie." Obviously such a coalition precludes an anti-capitalist program. That's why the CP leaders are beating the drum for support to the reformist trade union bureaucracy and to its policy of keeping the workers tied to capitalist politics through the vehicle of the Demo-

cratic Party. Yet with out a blush, Charney and Davis accuse the SWP of "diehard opposition" to a labor-led coalition. The fact is that the SWP has consistently pushed for a genuine labor-led coalition. It advocates formation of a labor party based on class-struggle opposition to the twin cold-war parties of the monopolists. Such a party, built by the unions in alliance with the organizations of the Negro people and small farmers, could do effective battle against the reactionary domestic and foreign policies of the Big Business parties and in the process win the allegiance of decisive sections of the badly squeezed middle class.

Still Apologizing Blindly

The rejection of such a class-struggle policy by the CP leaders springs from their continuing ideological subservience to the Kremlin bureaucracy whose oppressive rule as a privileged caste in the Soviet Union, the "peaceful coexistence" line is designed to serve. The extent to which they remain blind apologists for Stalin's heirs is indicated by the fury of the Charney-Davis attack on the SWP's opposition to these bureaucrats:

"They [the SWP] advocate overthrow of the regime. How can any honest socialist, concerned about questions of democracy in the USSR, reconcile such a position with his socialist faith. Whose interests are served by such a position?"

But the real question is: How can any socialist concerned about democracy in the USSR reconcile his socialist faith with support to the Khrushchev regime? This question has been posed for every partisan of the USSR in crucial form since the 20th Congress.

It is a year and ten months since Khrushchev catalogued to the 20th Congress some of the foul crimes of Stalin and pledged basic reforms. Since then the Hungarian revolution for national independence and socialist democracy was drowned in blood. In the Soviet Union, the Jewish people are still denied their rights as a national minority, while Khrushchev — the head of a workers state - regales correspondents with a chauvinistic joke about "a little Jew." The iron restrictions on freedom of artistic expression - eased after the 20th Congress - have been almost completely reestablished. And most decisive, the Soviet workers still endure privations while a parasitic bureaucracy appropriates the lion's share of the good things in life and denies them any political voice.

The present political situation in the Soviet Union is the first stage in a profound new development. For many years a weak and isolated Soviet working class suffered the smashing of the workers' democracy they established under Lenin. Today an advanced, self-confident working class is growing restive and beginning to

push for some of its rights. We believe that this developing mood of the Soviet and dangerous struggles. As Congress and to forswear his workers will inevitably culminate in a working-class political revolution which fist that can be used against viet orbit that has brought will end the power of the dictatorial caste the workers. From the Discredited Past

Like a voice from the past, the Sunday, Nov. 3, issue of the Worker called to mind several decades of frame-ups, slander and calumny. In those days the Socialist Workers Party was accused by Stalin of being "counter-revolutionary" and "fascist." The Communist Party in this country echoed every slander with the zeal of lieutenants anxious to prove their worth.

Vol. 21 - No. 45

After publication of the "secret" revelations of Khrushchev in 1956 the Daily Worker grew somewhat contrite. In an editorial on June 7, 1956, there appeared the now-famous apology: "We were wholly ignorant that these crimes [of Stalin] had been committed, yet there was reputable evidence had we but listened. How then explain our consistent denunciation of many people as 'enemies' of the working class because they condemned these crimes? We were wrong, terribly wrong. . . What was unforgivable and inexcusable was the manner in which we passed judgment — harsh and sometimes vindictive in tone — on many of our fellow Americans based solely on their criticism of the Stalin rule."

That was one mood. Today another is evident. We read in the Worker, Nov. 3, in an article signed by Benjamin J. Davis and George B. Charney, "A vote for the SWP is a vote that objectively gives some measure of support to counter-revolution."

Perhaps there is some distance between calling one's working-class opponents "fascist mad-dogs" and using the more cautious formulation that Trotskyists "objectively" give "some measure" of

support to counter-revolution. But is

cautious slander all that the apologies of

Davis and Charney do not charge the SWP alone of "objectively" giving "support to counter-revolution." Vincent Haleditors must also be guilty of this crime. Both urged support of the SWP candidates.

To say that a campaign for socialism in any way "objectively" supports counterrevolution and to use the perfidious reasoning employed by Charney and Davis is to substitute vindictiveness, mis-Stalinist techniques — for open and honest argumentation. A Vital Right Attacked

The right of trade unions to engage in political activity is under attack in the current trial of the United Automobile Workers on charges that the UAW's television program violated the Federal Corrupt Practices Act. That act states that it is illegal for "unions or corporations" to give financial backing to candidates in Federal elections.

As far as corporations are concerned. the law is a complete farce. Corporations dictate the political policies of all the major propaganda media in the country by direct ownership or the money they spend on advertising. Corporation executives and big stockholders completely control both the Republican and Democratic parties, in large part through the huge financial contributions they make "as individuals" and that they "advise" their employes to make "as individuals."

In the Detroit trial, the government is

attempting to punish the UAW for taking up political questions during election time on its regular year-round television show "Meet the UAW."

A Convenient Out

The long silence of Senator Fulbright, Arkansas Democrat, on the world-shaking events in Little Rock, in his home state, has been broken at last. On Nov. 2 he expressed the fear that Congress might become "practically immobilized" over new civil rights quarrels in its next session.

The Daily Worker on Zhukov

Evidence continues to mount that the leadership of the American Communist Party is choking off free discussion within the party and abandoning any pretense of theoretical independence from the Kremlin. Its masquerade was required because of the revolt against thought control in' the party following the revelations about Stalin. But the CP leaders never liked it and now that they have the party back in control they are forcing it back into the pre-20th Congress mold.

The abject acceptance and hosannahshouting in praise of the Kremlin's actions were illustrated in the Daily Worker editorial hailing the purge of Marshal Zhukov. This, cry the editors, was an "action for peace." It is to be noted that in its first news article (Oct. 28) on the Zhukov affair, the DW inclined to the belief that he was going to be moved up in the Kremlin hierarchy, possibly to the premiership, rather than down. The headline then was "Zhukov Shift Seen Part of Soviet Peace Aim."

Thus by the DW's "interpretation" either Zhukov's promotion or demotion was an "act for peace." Behind this lies the basic rule that whatever the Kremlin does is automatically right and must be sold to the American workers. Had Zhukov triumphed in the power fight and purged | Khrushchev, the DW would, of course, have faithfully hailed the outcome and 7. The report is important for explained it editorially as an "action for a number of reasons. Firstly, it peace." Like the American CP leaders, Togliatti was at first unsure whether Zhukov was going up or down. This caused the Italian CP the same embarrassment as the DW. One Italian newspaper commented: "Togliatti unlike Tito doesn't have lumbago. He is going to Moscow. All Kremlin bosses are OK with him: Stalin, Malenkov, tions among the people." Like appears to be in the vanguard Khrushchev, and Zhukov, all as long as the historic Khrushchev 20th of organizations determined to they are in power." THE BIG BOXCAR. By Alfred Maund. Houghton Mifflin Co., Boston, 1957. 178 pp. \$3.00.

Seven fugitives from Deep-South law happen to hop the same box car on a freight train as it moves across Mississippi and Alabama en route to the North. They are six Negroes, one of these a woman, and one white man. They expect trouble from the railroad bulls when the train goes through Birmingham and they pass the tense hours telling stories of how each got in this predicament.

These seven separate stories and the action at Birmingham make up "The Big Boxcar." Written by a Southern white man, it is a novel of social protest with unusual insights into the attitudes of the common people of the South.

It contains solid humor too. There is the Negro turpentine tapper's story about a talking dog that organized a boycott against the degrading business operations of a local sheriff. "Now the Talking Dog didn't talk much, that wasn't his way. He was what white politicians call a confidential advisor, sort of. If he saw anybody needed a word of warning, he'd beckon the person aside and tell him private, and make him promise not to let anybody know where he got the word ... "

And there is the penetrating comedy of the Negro janitor who one day, under the influence of marihuana, went to the

office where he worked and started acting VOLUME XXI like he had as many rights as a white man.

The degradation, violence, cruelty and waste of the Southern way of life are treated frankly. The Negroes' fight against racism is handled well. These themes have been dealt with before, but in addition to the exciting narrative and Steel Firm the humor, there is something new in "Boxcar." There are insights into white Southerners which seldom get into print.

The book does not leave the gloomy impression of inevitable decay so common to the artistry of Southern whites, nor the flat, pat picture of bad and good whites often found in "message" novels on this subject. Here is the prejudiced Southern farmer whose struggle against the local banker is just as inexorable, bitter, and more violent, than that of his Negro counterparts. Here is a Jewish check an unprecedented move by Southern white, torn within himself on the company to cheat on the the race question. Here is a white Supplementary Unemployment professor who risks executions in Benefits guaranteed them by the professor who risks everything in a recent steel contract. blundering gesture against the racists, and a white railroad worker who stops a hardest by layoffs, men with as lynching by quietly doing the right thing much as seven years' rights were at the right time.

NEW YORK - Mrs. Daisy Bates, heroic leader of the nine Negro students, told the Little Rock story to an overflow assemblage of 2,500 persons jamming the aisles,

balconies, stairwells and en-e-trances of New York's Williams Institutional Church on Nov. 3. Mrs Bates spoke by long distance telephone amplified through loudspeakers instead of a scheduled personal appearance The courageous fighter had flown back to Little Rock from New York to surrender to police who arrested her and the 74-year-old Rev. J. C. Crenshaw for violating a new city ordi-nance requiring the NAACP to disclose its membership lists.
