Chrysler Plants

By JOHN THAYER

Unemployment in Detroit has passed the 190,000 mark and is climbing toward 200,000. Thousands of those still in the auto plants are working short time. And the auto

corporations are exploiting the situation to the hilt, trying to intimidate auto unionists and to institute a tremendous speed-

Leading the attack against the United Auto Workers at the moment is the Chrysler Corporation. By reducing its work force and speeding-up in 1957, this company increased its profits 500%. Now it is ruthlessly trying to do more of the same and faster. The result is a bitter battle with the work-

11 HOURS A WEEK

In the corporation's Dodge plant in Hamtramck over 1,000 workers have been averaging only eleven hours work a week for the past month. Their weekly pay averages only \$24.75. If they were completely unemployed many would be entitled to \$58.50 from unemployment compensation and SUB (supplementary unemployment benefits).

Equally infuriating to the workers is Chrysler's speed-up campaign. While lay-offs have drive of Chrysler Corporation. greatly reduced the number of the company has not only not on by the whip of fear.

Lynch Fever in Press Leads to Assault on **Reinthaler in Cleveland**

By JEAN SIMON

CLEVELAND, Feb. 24 - Indignation was spreading in the local labor movement this week with the revelation of the shocking story of mistreatment and physical beating of Eric Reinthaler, a+

defendant in the Taft-Hartley conspiracy case, while he was detained in the County Jail pending relase on bond.

Reinthaler, a machinist, was sentenced together with six other defendents last Wednesday by U. S. District Judge Paul C. Weick to 18 months in prison and \$2,500 fine. The conviction was on a charge of conspiring to file and to cause others to file false non-Communist affidavits with the National Labor Relations Board. REAL LUCKY

In imposing sentence, Judge Weick told the defendants they were fortunate their trial had been in the United States and not in Russia or another Communist-controlled country.

Pictures of the defendants quoted Judge Weick as saying: accommodate 12, was without

Who is responsible for the outrageous incident in the thaler suffered a brutal beating? Apparently prisoners who did the beating did not fear the possibility of pun-

Reinthaler put his finger on the underlying cause of the attack in a letter he wrote immediately afterward to the National Guardian. (Printed in March 3 issue.) He said that a jailer asked him to point out the prisoners who ganged up on him, but he did not do so. He added, 'What would have been the percentage? Those punks are products of the times, the press and what I consider some

Reinthaler's account of what happened shows very clearly how each such foul incident helps to build up to another. "I heard one guy say, 'Let's get him like they got the bastard in Lewisburg.' (Referring I suppose to William Remington who was stabbed to death.)"

But clearly there was something more involved in the attack on Reinthaler than general hysteria. For example, why did the prison officials ignore their own rules by not putting Reinthaler in the section reserved for federal prisoners? And after he was beaten, why was he refused permission to phone his lawyer or the U.S.

Prison staffs are particularly well attuned to what goes on in their domain. Why was Reinthaler left for almost 24 hours with a gang of prisoners who could easily lay hands on him and who were shouting such epithets as "Red" and "Commie" as a buildup to the physical

abor's Action Needed as Unemployment Grows

By MYRA TANNER WEISS

FEB. 25 - Whether it's in "recession" or "depression," there can be no doubt that the U.S. capitalist economy is in serious trouble. Hardly an issue of the Wall Street Journal appears without new announcements of layoffs. On Feb. 20 it announced Ford's permanent closing of its Somerville, Mass. plant, the "temporary" closing of four Electric Auto-Lite plants, and a new layoff of Westinghouse Electric workers at Mansfield, Ohio.

The next day the Journal reported a week's shut-down of the Ford Dearborn plant and the Mercury assembly plant in Metuchen, New Jersey. The Studebaker-Packard Corp. in South Bend, Indiana, and Chrysler's De Soto division have been working only alter-nate weeks since Jan. 1. "Most [auto] producers," said the "are working only Journal, four days this week." Total unemployment is now estimated at over six million.

COST OF LIVING RISES AGAIN

Negro Jobless 19% of Total

According to the latest unemployment figures issued Feb. 25 by Secretary of Commerce Weeks and Labor Secretary Mitchell, Negro workers are the hardest hit in layoffs. Of the official unemployment figure of 4,494,000, 19% are colored. That means that 855,000 Negroes have lost their jobs.

However, this is only part of the picture of unemployment among the Negro people. Because of discriminatory policies in many industries, they are the last hired and the first fired. According to government statistics, 4,883,000 Negroes fall into the category of "not in the labor force." This covers civilians 14 years of age and over who are not classified as employed or unemployed as defined by the Census Bureau. How many of these are looking for jobs it is impossible to say on the basis of present accounting.

Dr. W.E.B. Dubois at 90

On Feb. 23 W. E. B. DuBois celebrated his 90th birthday. Some seventy of those years are inextricably bound up with the struggle of the Negro people. His great talents were put, not at the service of an ivory-tower scholarship, but at the service of the Negro people in America and throughout the world. As a result his writings are notable not only for their vitality and pertinence to the great social struggles of our epoch but for their effect upon them.

Souls of Black Folk; his landmark sociological studies of Negro communities; his monumental history, Black Reconstruction; as well as his numerous other writings, demonstrate not only the versatility of his talent but that he is truly the dean of American scholars.

The theme of his work has been the history and situation of the Negro people. This alone would have been a great contribution to the whole American working class in its struggle for a new society. But DuBois' contribution goes beyond that. His revelations about American history and society, shown by the position of the Negro, directly and by implication, have furnished invaluable knowledge and insights on the role of the working class and' capitalist class in America. He is a direct inspirer not only of the present generation of Negro historians in America but of all socialist students.

But Dr. DuBois' career has not been of the Niagara movement, a founder of 1950, outspoken opponent of the cold war and of nuclear-bomb tests.

In some epochs and societies the highest praise a government can offer a citizen is persecution. This has been true of the United States during the period of the witch-hunt. Quite fittingly America's Big Business government indicted Dr. DuBois. Happily Dr. DuBois survived and beat off this unsolicited testimony to his integrity.

Thus on his 90th birthday Dr. DuBois receives the recognition due him from all quarters — the Negro people, the colonial world, the socialist movement, the antiwar forces - and from the witch hunters.

The "Good-Office" Merchants

Anglo-American mediation of the dispute between France and Tunisia resulting from the ruthless bombing of the Tunisian village of Sakiet-Sidi-Youssef is a scarcely-disguised swindle. Its whole purpose is to guarantee that French imperialism suffers no setback, or the very least setback possible, for its cold-blooded murder of the men, women and children of a neutral nation.

To hush up the Sakiet atrocity, to keep it out of the United Nations where it would at least be aired publicly, the U.S. State Department rushed into the diplomatic breach with the offer of its and British imperialism's "good offices."

The French militarists are confident that in the secret mediation sessions they will meet no indignation from U.S. and British imperialism's representatives for such an ordinary imperialist misdemeanor as the murder of 79 North African peasants, housewives and schoolchildren, and the maiming and wounding of nearly a hundred more. After all, the British mediator will be speaking for a government whose hands are still wet with the blood of Malayans and Cretans; moreover the

him being an enthusiast for democracy or the rights of man. He is well known to the French colonialists as the fixer of the pro-Vichy deal in North Africa during the early part of World War II. Moreover, his masters perpetrated atrocities against the Korean people that still dwarf the French carnage in North Africa.

The French negotiators could silence any holier-than-thou talk from him by simply quoting the American newspaper reports of 1951 and 1952 about U.S. Air Force orders in Korea to shoot every male soldier or civilian sighted north of U.S.-January 1951 of the retreat from the Yalu: "Finally in blind desperation we tried to Napalm every town and village ... along the mockingly empty roads coming down from Manchuria."

The Tunisian government's acceptance of the "good offices" of U.S. and British imperialism compares to the victim of a brutal assault putting his grievance to the "mediation" of the assailant's fellow

Arbitrary Acts Against Youth

Are New York school children second class citizens who are not entitled to the same legal rights as adults? Do public school officials have the power to deny students the due process of law that is supposed to be guaranteed to everyone in this country, without regard to age? This is the primary issue involved in the illegal suspensions of over 900 students from the New York school system.

These young people have been indefinitely suspended on the mere word of one or another school principal that they are guilty of the undefined charge of "insubordination" or the even more vague charge of "disruption." Such action is taken without any evidence required and without any machinery for appeal or redress by the victimized students.

These youths have been thrown out of the schools to be branded in the eyes of family, friends and possible future employers as "juvenile delinquents." Yet no one knows precisely what "crimes" they are presumed guilty of.

It may be assumed that they are not charged with violating existing laws.

The Right to Work (The following poem is by Robert Whitaker. It was first printed in the In-

dustrial Worker and reprinted in the January MESA Educator.) O yes he had the Right to Work;

The Right to Work had he. The bosses were quite confident That the workers were all free, Free to make any contract That a lonesome worker could With any corporation That was out to do him - good. And do him good they have indeed When dividends declined Or when the hosts of unemployed Each other undermined. But he had this inspiration, Had he been inclined to shirk,

The Negro Struggle

Watch Out, The Appointees Are Coming!

(The following is an editorial reprinted from the Feb. 15 Carolina Times, a prominent Negro weekly published in Durham, N.C.)

The most pitiable human being in America today is a Negro leader who has allowed himself to be maneuvered into a position with the oppressor group where he becomes the most appointed member of his race in the community in which he lives. The Negro masses in every hamlet, town, city, and county need to alert themselves to this danger that lurks in the class-room teachers, the principals of our schools, our college presidents, our business men and even in our pulpits. The practice is as old as the race problem, but of late has been transferred from the ignorant and poverty-stricken elements of the race to the intellectual and economically secure.

The average community can point with shame to one, two or several Negro leaders, or so called leaders who, while holding important and well-paying positions in various walks of life, have become absolutely useless when aggressive leadership is needed in a struggle for Negro civil rights. Such persons are easily distinguished from the rest because they are always the most appointed Negroes in the community — that is the most appointed by white folks, who usually refer to them as "safe Negro leaders."

Here of late, many of our most prominent pulpits have become infested with these human leeches who, while fattening off the sweat, blood, and labor of their followers, are selling them down the river to safeguard a job held by a wife, daughter, son or other relative. Sometimes they are even silent on questions involving the civil rights of their race to safeguard an appointment which they have received personally. In either case, we name them the most wretched lot of all because they personally. In either case, we name them have betrayed the trust of their followers and have sold their birthright for a mess of pottage.

Communist Party leadership appears to have made new You Negro masses need to awaken to headway in its drive for full this most dangerous practice. The ap- control of the party apparatus, pointees are coming in larger and larger according to a very scanty news numbers as the struggle for civil rights on the meeting of the CP nabecomes more pronounced.
