Independent - Socialist Cam-+ paign is continuing to gain new support as it hammers away at the issue of peace. In an Aug. 4 statement, Corliss Lamont, Independent-Socialist candidate for U.S. Senator, challenged Republican and Democratic candidates for that office to declare publicly where they stand "on the Eisenhower-Dulles military intervention in the Middle East — an action that was put across in a manner reminiscent of dictatorships, with no Congressional approval or even debate."

At the same time, Dr. Lamont demanded that such candidates declare whether or not they believe the United States "should match the Soviet Union's suspension of nuclear weapons by immediately stopping all such tests itself.'

"I have long advocated this step by the American Government," Lamont added. "And the question is particularly appropriate now, because this very week - on Aug. 6 - is the 13th anniversary of the devastating U.S. attack on Hiroshima.

Threatens to Unleash War Unless Masses Submit to Imperialism

Aug. 6 — A debate on the Mideast crisis now looms in the General Assembly of the United Nations. The Soviet Union will charge the United States and Britain

with aggression for landing+ thousands of troops in Lebanon and Jordan. The United States will have to defend its military posture by charging the Soviet Union with "indirect aggression.'

While the United States may pressure its way to a majority vote in the Assembly, few in the State Department and the Western embassies are looking forward to the debate. It is difficult to take U.S. charges seriously. As the Wall Street Journal editors woefully pointed out, Aug. 5, "One difficulty lies in pinning indirect aggression on the Soviets. . . The chief force in the Arab world at present is Nasserism. . . To complicate matters further, it has yet to be shown that Mr. Nasser was directly behind the disorders in Iraq and Lebanon. . .

So. Africa Mass Trial Begins

The mass trial of 91 South Africans accused of "high treason" opened in Pretoria, South Africa, Aug. 1. The real 'crime" of the accused, Negroes, whites, Indians and persons of mixed race, is that they fought against the Malan government's racist policies. Originally 156 were arrested in lightning raids last year, but charges against 65 were dropped. At the start of the trial Defense Attorney I. A. Maisel forced the withdrawal of a presiding judge who had acted for the police in a previous "freason" case. The case has aroused world-wide indignation. How Socialism Can UN Bring About World Peace? Will Come to U.S. By George Layan On France of Market of Come to U.S.

(Excerpts from a radio interview with Myra Tanner Premier Khrushchev on Aug. Weiss, 1956 Vice-Presidential candidate of the Socialist 5 flatly rejected a "summit" Workers Party. "Q." indicates questions asked by one of panel members. "A" indicates

answers given by Mrs. Weiss. -Ed.) Q. Mrs. Weiss, how could a socialist government actually come into existence in the

United States? How do you, as member of the Socialist Workers Party, see the possi-. bility of socialism evolving here in the United States?

A. I don't think it possible on a scientific basis to predict the form in which such a change will come about. But one can see the general trend and anticipate some of the possible forms or variants. For example: I think that in the very near future, we are going to see the formation of an independent labor party, which will bring onto the American political scene the power of organized labor that we saw on the economic scene. This will give the working class a chance to bring its political point of view into the making of U.S. policy. That's one possibility.

Q. What I would like to ask at this time is, do you not feel. or do you feel, that labor in its present situation has lost its tie with the socialistic philosophy-has become more . . bourgeois or capitalistic [in its] ideology?

A. That is absolutely true. The labor movement has developed a bureaucratic caste which is more concerned about aping the capitalists and the way they live, than in fighting for the workers and what they need. I think, however, as this bureaucracy was overcome in the thirties, and a new section of the labor movement was born-the industrial union, the CIO-in this period we are going to see the bureaucracy again lose out and a new leadership will be thrown up from the ranks of the working class to advance the cause of the working people in politics.

Q. May I ask you what are your answers to formulating this leadership within labor? Do you have any suggestions that your party would make as to bring about more radically [oriented] leadership?

A. Yes, First of all, the most important thing is the fight for democracy in the union movepelled for any view-political,

U.S. commitments are no mere scraps of paper. At least 24 U.S. military bases abroad and more than 635,000 troops garrisoned across the globe give substance to the treaties. According to Hanson Baldwin, military affairs specialist of the New York Times, present military commitments "transcend any prior known experience in history." (Aug. 3, N.Y. Times.)

The U.S. began the organization of the "mutual defense" pacts at the same time that it launched the cold war against he Soviet Union shortly after the close of the second world war. Treaties with Dictators

To flank the Soviet Union on the west, and to guard against working class revolution in Europe, the United States set up tht North Atlantic Treaty Organization. Member nations include Great Britain, Canada and Iceland and ten countries of Conti-"'Son of the dog,' a village nental Europe. Among the card-carriers are such bulwarks of freedom as Portugal under the tyrant, Salazar, and France under the Bonapartist dictator, De Gaulle.

The so-called Southeast Asia treaty is a bit shy of Southeast Asian members, with India, Ceylon, Burma and Indonesia refusing to participate. Of the eight member nations only three can be regarded as located in the area. These are Pakistan, Thailand and the Philippines. Besides the U.S., the other treaty members are Britain, France, New Zealand and Australia.

Pakistan turns up again in the Middle East Baghdad Pact soon to be without Baghdad, Iraq's capital city. To make up for the expected loss, the U.S., which originally inspired the pact although it did not join it, has become a full member. Dulles committed the American government without bothering promise will not hold back the But revolutionary pressure from about the Constitutional requirement of a Senate authorization. The other members of the Baghdad Pact are Britain, Turkey and Iran. The latter two are police states.

In addition, the U.S. maintains bilateral treaties with the Philippines, Japan, South Korea and the fake "Chinese government" of dictator Chaing Kai-shek on Taiwan.

To round out the bristling "free-world" alliance, the U.S. has agreements involving the maintenance of bases and the flow of arms and dollars to Franco's Spain, Emperor Haile Selassie's Ethiopia and King Saud's Saudi Arabia.

Is it any wonder that an American Secretary of State, patrolling these far-flung military alliances, should resemble something less than the emissary of the prince of peace?

"The Road to Peace"

How many people in the world want peace? The answer is about 2.500,000.000. With that many people wanting peace why is it so hard to get? Because there are many roads marked "peace" that lead nowhere or, still worse, take you on the road to war.

James P. Cannon considers two roads - one recommended by Stalin, the other by Lenin. In an easy-to-read series of articles, brought together in a 48-page pamphlet, he deals with such topics as "The Results of the Teheran-Yalta Agreement," "What Washington Wants," and "The Theory of 'Peaceful Coexistence.'" Written in 1951, this pamphlet provides the essential background for a better understanding of why Eisenhower landed Marines in Lebanon, what the Soviet government actually wants at a "summit conference," and what the realistic way is to win the struggle for peace.

Oil Imperialism

Two years ago Secretary of State Dulles held a secret meeting with the representatives of major U.S. oil companies with foreign holdings. The press was not informed and no records were supposed to be kept. But one eager beaver from Socony-Vacuum took notes, which he should have burnt in all good sense but instead put into his company's files as a memorandum. When the Senate Anti-Trust Subcommittee later happened to subpoena the company's files, the memorandum came to light. According to it, Dulles told the oil companies that nationalization of oil properties abroad (even with compensation) would call for military intervention. The accuracy of a recent N.Y. Times headline (July 18) may thus be appreciated. It was: "WEST TO KEEP OUT OF IRAQ UNLESS OIL IS THREATENED."

The State Department stands ready to defend the profits of the oil cartel with the blood of American soldiers. What are these profits? In an anti-trust suit initiated in 1952 and still pending in the courts, it was estimated that it costs 20 to 30 cents to produce a barrel of oil in the Mideast. The oil cartel charges the consumer anywhere from \$1.75 to \$2.16, reaping up to 700% profit. On these super profits the American oil companies pay almost no U.S. taxes, for a 27% depletion allowance reduces the oil companies' taxes to a tiny percentage of normal rates.

Thus the oil companies load on the backs of the taxpayers the expense of guarding and extending their private properties abroad. They extort from oil consumers all over the world unconscionable profits through monopoly control. Sen. Hennings of Missouri estimates these striking of his oils is a scene profits at \$3 billion a year. Democrats Thought of It First

The Republican Party was swept into power in 1952 because many Americans blamed the Democrats for Truman's reactionary "police action" in Korea. Now the Democrats can be expected to utilize Eisenhower's invasion of Lebanon for some hot campaigning in the coming months.

Capitalist politics are so divorced from the real world that the debate will go on in all seriousness despite the fact that foreign policy has been bi-partisan all along. Republicans supported Truman in Korea. And the Democrats have gone along with Eisenhower in Lebanon.

Even Secretary of State, John Foster

the atom bomb on Nagasaki and Hiroshima-after Japan had sued for peace. He rushed troops into Korea to prevent Koreans from ousting U.S. puppet Syngman Rhee and unifying their country.

When the Democrats disagree with the Republicans on foreign policy, aside from political expediency, it is usually on the grounds that the Republicans are not strong enough in their anti-Sovietism.

Last December, after the Soviet Sputnik flew into space, Eisenhower shrugged Annette T. Rubinstein, candioff a Soviet offer of peace negotiations. Senator Mansfield (D-Mont.) criticized the opportunity to hear Harold additional and the second states of the matrix opportunity to hear Harold by the second states of the matrix of th out "the sacrifices the people will be re-guired to make in the very altest of the lection fight in Campaign Committee, today re-"Your campaign in behalf of

Dulles, in advancing a new cause for war, "indirect aggression," didn't have to invent any new terms. In March of 1950, Dulles' Democratic predecessor, Dean Acheson, demanded that the Soviet Union "cooperate in efforts to prevent indirect aggression across national frontiers."

"Indirect aggression" of course is revolution. And the two capitalist parties are equally anxious to keep revolutions from starting and to crush them when they begin.

When U.S. troops were landed in Lebanon, Truman declared his full support of this military move of the Eisenhower administration. After all, Truman never hesitated on the brink. He dropped ator Sparkman (D-Ala.) of the Senate of the camp management. New York Reaches Out...

To Friends throughout the country

TO HELP PUT PEACE ON THE BALLOT OF OUR STATE

Last June in New York City a United Independent-Socialist Electoral Conference brought together more than 500 New York progressives-independents and socialists of all persuasions.

The Conference voted to seek to place independent candidates in the field for U.S. Senator and the top state offices to speak and work for peace, jobs, civil rights and liberties and for the consideration of socialist alternatives for America's future.

Our candidate for Senator is Corliss Lamont, our state's leading advocate of peace, civil liberties and East-West understanding. Our state candidates are John T. McManus for governor; Dr. Annette T. Rubinstein for lieutenant-governor; Scott K. Gray, Jr., for attorney-general; and Capt. Hugh N. Mulzac for comptroller.

We reach out now to friends throughout the country to help us put these candidates on the ballot. As this appeal is written, volunteer crews are traversing our state from New York City to the far reaches of the St. Lawrence River, on the Canadian border. They will go to the industrial cities and the lumber camps of our forested Adirondacks. They must collect a required 12,000 walid signatures-at least 50 in each of the state's 62 counties and the rest at large.

We appeal to you, to your friends and shopmates and all who share your views, to help us with this historic task.

Funds are urgently needed NOW, to keep our petition crews moving throughout the state. They must complete their task this month-in August. Petitions must be filed the first week in September. There is no time to lose. Please help us now, as quickly and generously as you can. Your help can assure that peace will be on the ballot in our state and nation this year.

'Captain from Koepenick'

One day in 1906, an elderly German shoemaker, unable, much as he tried, to get work or a residence permit in any community because he had repeatedly been in prison for minor forgeries and similar transgressions, bought a secondhand captain's uniform, ordered a few soldiers he saw in the street to follow him and "arrested" the Mayor of Koepenick, a suburban town near Berlin, seizing the cash available at City Hall. Later he gave himself up and returned the money, of which he had spent only a few mark.

Naturally, this incident created a sensation. It was exploited politically by the Social-Democratic opposition and by numerous liberals. A man in an ill-fitting uniform, rather unmilitary-looking and with flat feet, too old to be a captain on active service under normal circumstances, the ex-convict Wilhelm Voigt, had succeeded in completely intimidating the top official of a town close to the capital. This official was himself a reserve officer and had a knowledge of the law that ought to have prevented him from believing he could be arrested by an officer without a warrant pretending to act under secret imperial orders!

Such was the prestige of the uniform in Prussia, that the sight of a "captain" and a handful of soldiers with fixed bayonets made a mayor forget the law and his rights! Voigt had often observed the adoration in which the Army was held, the sheep-like discipline of many Germans; and upon it he based his superb hoax. All Germany laughed. Emperor Wilhelm the Second, who did not lack a sense of humor, granted Voigt a pardon, and for his remaining years, the shoemaker lived quite comfortably, receiving gifts from various admirers . . .

Thirty years ago, Carl Zuckmayer, a distinguished German dramatist, wrote a hit play about this true story. Two movie versions were made before Hitler came to power. Then Zuckmayer had to seek refuge abroad. Now the third film version-in excellent color this time-produced in Germany two or three years ago, is being shown in New York; and it is definitely worth seeing, one of the fin-'est German post-war pictures, realistic, witty, faithfully reproducing even smallest details of life in pre-World War I Germany, with first-class actors in each part, above all Heinz Ruehmann, one of Germany's greatest actors, as the "captain." Helmut Kaeutner, one of the best German directors, is to be congratulated on this masterpiece.

Great comedy generally is close to tragedy insofar as it is another way of dramatically showing man's errors and folly.

The figures of great comedy, too, either represent those errors, or they are victims of other people's errors, of the world's folly. Thus, Voigt, the man without a job, without a residence permit or passport, not allowed to stay anywhere nor to emigrate, the sin of his youth unforgiven by Society, his life hopelessly enclosed in a vicious circle, is actually a tragic figure. The very culminating point of his life, so extremely hilarious, provoking the laughter of 60 million Germans including the Emperor, also was the symptom of a tragic distortion of human values in the age of imperialism, of militarism and the absence of solid democratic traditions in the German bourgeoisie.

This is the way Zuckmayer saw his comedy. This is the way Kaeutner has produced it. And this is the way Heinz Ruehmann plays the role of Voigt. The admirable actor fully understands and feels the ex-convict's tragic comedy; and so marvelous is his embodiment of the little shoemaker and false captain that we forget he is acting. No wonder he received Best Actor awards at the Berlin and San Francisco film festivals!

Socialist Candidates in Mich.

EVELYN SELL, Socialist Workers Party candidate for Senator from Michigan, LARRY DOLINSKI, SWP candidate for Lieutenant-Governor. Jointly with Frank Lovell, SWP candidate for Governor, they demanded the withdrawal of all U.S. troops abroad, and an end to brink-of-war policies.

In a widely-quoted interview Dolinsky proposed replacing U.S. troops abroad with Americans with tools and knowledge. "Nothing is ever taught with a gun," he said. Before UAW Local 600 unit meetings both Evelyn Sell and Frank Lovell called for an end to H-bomb tests and the withdrawal of U.S. soldiers from foreign countries. Quoting from a letter he sent to Eisenhower, Lovell said, "Only in this way can we win the friendship of peoples throughout the world even though we may lose the 'friendship' of feudal potentates, dictators and fascist-minded rulers."

But the Faubus victory is portentous not only for the Southern wing of the Democratic Party but for that party nationally. "Can you imagine," wrote Roscoe Drummond syndicated Washington columnist on Aug. 3, "more than two or three Southern Democratic politicians, after noting how the voters rewarded Mr Faubus, supporting even as moderate a civil-rights plank as appeared in the 1956 platform . . . ?" But even that plank was so evasive that Negro and labor circles assailed it as a sell-out.

Va. Integration Delayed 7 Yrs.

U.S. Federal Judge Sterline Hutcheson, ruling on the Prince Edward County school desegregation case, granted local authorities a sevenyear delay in beginning any integration.
