the old tweedledee-tweedledum clear war either all-out or limited.' choice by the two major parties. In this case the similarity of the two candidates is even lously rich financiers and inparties.

The liberalism of Governor extension for another year of the "Security Risk" law which subjects New York state employees to screening for their political views. Harriman approved this thought-control measure over the protests of leading civil-liberties groups.

Neither candidate has opposed the H-Bomb armament drive or U.S. military intervention in the Middle East. Harriman has expressed his position on atomic arms by supporting Thomas K. Finletter, former Secretary of the Air Force for the Democratic nomination for Senator from New York. Finletter is one of the foremost proponents of atomic arms buildup. He was the principal sponsor of Dr. Edward Teller, the notorious "Father of the H-Bomb."

As Governor of New York Harriman recently appointed Myles J. Lane chairman of a fcur-member crime investigating committee. One of Lane's first acts in his new post was to jail two witnesses before his committee who invoked the Fifth Amendment. Lane was formerly an associate of Roy Cohn on the prosecuting or railroading of the Rosenbergs tc the electric chair and Morton Sobell to Alcatraz.

Rockefeller, in association with General Lucius Clay, Henry Luce of the Time-Life-Fortune empire, John W. Gardner of Carnegie Corp., Dr. Edward Teller and others, last January issued the Rockefeller report which, together with the secret Gaither report, called for even more intensive atomic

An urgent message to New Yorkers: REPORT ON THE INDEPENDEN SOCIALIST PETITION DRIVE

We have now reached a crucial stage in our effort to get on the ballot. We are close to completion of the drive to secure over the necessary minimum of 50 signatures in each of the 62 counties in the state. This part of the drive has exceeded our expectations by several thousand signatures.

In New York City, however, our problem is urgent. Twelve thousand signatures are required throughout the state. To insure that we have a sufficiently large number of valid signatures to withstand any challenge, we have set a goal of 20,000 signatures. With only two weeks remaining before the Sept. 9 filing deadline, we are far short of this goal. An emergency effort is required,

We are at a decisive point. We appeal to you for help. Attend the

WED. NIGHT PETITION MOBILIZATION AND CAMPAIGN WORKERS RALLY

Come to the rally, Aug. 27, 9 p.m. at Adelphi Hall, 74 5th Ave., for the latest reports on the status of the drive after you have gone out for signatures. Pick up a petition board and other petitioners at campaign headquarters, 799 Broadway or at the Young Socialist Alliance, 144 Second Ave. (at 9th St.) from 10 a.m. to 8 p.m.

(Dinner will be served for petitioners every night at the YSA hall from 5 p.m. So come right down from work.) Help is also urgently needed throughout the week. Report

to either 799 Broadway or 144 Second Ave. day or evening for petition gathering. Also needed: Volunteers to help, day or evening, at

campaign headquarters with the clerical work involved in processing the petitions.

And - Please send a contribution to help defray the heavy expenses. Send to:

then return to New York Sept.

14 for a mass rally.

Vacation-School **On West Coast** To Begin Aug. 30

The annual West Coast Vacation School will open on Labor Day week-end with three outstanding speakers, Sydney Hyam, journalist and a leader of the Victory for Socialism group in the British Labor Party; James P. Cannon, a founder and leader of the Socialist Workers Party, who will speak on "American Radicalism Tolay;" and William F. Warde, Marxist educator, who will speak on "Socialism and Humanism."

The school will be held this year at Palomar School, Perris, Calif., 70 miles southeast of Los Angeles. The inter-racial, family camp and school opens Aug. 30 and closes Sept. 7. The-West **Coast Vacation School can** be contacted for reservations, rates, or brochures at 1702 E. Fourth St., Los Angeles 33, ANgelus 9-4953.

What attitude should socialists have toward national unrest in the Soviet areas? This is not a matter of theoretical hairsplitting. As events in Yugoslavia, East Germany, Poland and Hungary have proved, the Kremlin has faced explosive situations. It can happen again!

An early discussion in the Soviet Union in pre-Stalinist days illuminates this difficult problem. Read Leon Trotsky's "On the National Question," translated into English for the first time, in the summer International Socialist Review. On newsstands, or send 50 cents for a copy.

Another resolution condemning the House Un-American "The hearings by the House

When — Not If

At a Los Angeles public meeting attended by more than 350 people representing virtually all tendencies in the socialist and independent political movement, Vincent Hallinan, 1952 Presidential candidate of the Progressive Party, urged nation-wide support for the United Independent-Socialist ticket in New York and organization of similar tickets elsewhere.

To the question "Can the Left Fuse?" Hallinan replied by asking those in the Communist Party who object to cooperating with the Socialist Workers Party in joint efforts: "What will you do when, and I don't mean if, Leon Trotsky is rehabilitated in the Soviet Union?"

On reading about this important meeting, which contributed \$200 to help get the New York ticket on the ballot, we felt that Hallinan's searching question was singularly appropriate.

 In the first place, it was made only ten days before the eighteenth anniversary of the day Trotsky was struck down by an agent of Stalin. August 20 is a poignant day for followers of Trotsky.

Interested in America

In the second place, Hallinan's remark came in support of an electoral action which we are sure Trotsky would have hailed as a promising step forward for the American socialist movement. Throughout his life, Trotsky displayed keen interest in the problems of the American socialist movement. He predicted that the fate of mankind would finally be forged in America. He saw the American socialists finishing what the Russian socialists began.

For example, we recall that in 1940, the year he was murdered by Stalin's secret political police, he pressed leaders of the Socialist Workers Party on their proposed policy in the Presidential elections of that year. And they, the representatives of a relative handful of revolutionary socialists, witch-hunted from all sides, too weak to run an SWP candidate, were hard-pressed for an answer.

Trotsky suggested that if no labor figure like John L. Lewis was running in opposition to the Democratic and Republican machines, then perhaps socialists should consider supporting Earl Browder, the Communist Party candidate for President. Some in the American delegation did not know at first whether to take it as an ironic joke. Stalin was then seeking Trotsky's death and an assassin gang had machine-gunned his bedroom a few weeks

leadership over questions of program, every effort must be made to approach them with proposals for common action against the Democrats and Republicans.

With Khrushchev's Help

Finally, Hallinan's remark struck us as timely because the first big obstacle to meetings is that never before Trotsky's rehabilitation in the Soviet has there been a great public Union has largely been cleared away. campaign carried on by one of Khrushchev did this at the Twentieth the powers to bring about such Congress when he confirmed the fact that a meeting. Heretofore summit Stalin was a paranoiac who had committed crimes of monstrous character, includ- The heads of state got together ing frame-ups and murders of countless without public pressure having revolutionary socialists.

It is true that Khrushchev and the other heirs of Stalin are not exactly rushing to make further corrections in the ent. The Soviet government the old-fashioned kind of topis another force which will eventually do the cold-war tensions and to the parties involved were there Soviet leaders stand to lose the job for them if they don't.

We refer to the workers in the Soviet in Poland and the revolution in Hungary, they have shown — and even said — that they want the benefits of planned economy but under workers democracy, not the dictatorial rule of a parasitic bureaucracy.

As the workers proceed with their political revolution they will surely recognize as their own the great socialist "SINCERE" SUMMIT leader who predicted their action correctly and gave his life to speed its development.

Here in the United States, we think that many members of the Communist Party - they were well represented at the Los Angeles meeting — will feel the truth in Hallinan's question. The fact is that many are reading Trotsky now to find out what he really stood for. They are rehabilitating Trotsky in their own minds in the only way he would want to be rehabilitated.

Not a New Cult

who read this, we want to say that we prevent any more nuclear mashold no special monopoly on Trotsky. In the Richest State

By Henry Gitano

On August 18th, the New York Times reported "the nation's first attempt to hurl a rocket around the moon." The same day, the NAACP released its report to New York's Governor Harriman documenting the terrible misery of Southern Negro farm labor in N.Y. where "the majority of the workers received \$1 or \$2 at the end of each week's work. . . One hundred workers live in a series of attached tar-paper and clapboard shacks, with paper-patched roofing and sides, with the most primitive sanitary facilities . . Frank Skinner has earned \$1 a week. When he asked for his wages, he was told he owed for transportation, room rent, food, etc."

The report was prepared following NAACP Labor Secretary Herbert Hill's investigation of 40 migrant labor camps in New York. Only three farm bosses were keeping payroll records and giving wage statements to the workers, as required by law. Describing virtual peonage, the NAACP report charges that "with some rare exceptions migratory farm workers throughout the State of N.Y. are the victims of a vicious system of economic exploitation. In many instances we found that after months of harvesting crops in N.Y. state, workers are returned in open trucks to their home communities in Florida, Georgia, Alabama and South Carolina, virtually pennyless."

Demanding enforcement of state laws to protect migratory farm workers, the NAACP refreshed Governor Harriman's memory of his "public statements regarding these grave social problems." As Herbert Hill of the NAACP stated at the N.Y. state legislature while discussing farm labor in Sept. 1953, the lack of vigorous law enforcement "is tantamount to tacit collusion" between the state government and the farm bosses.

Around 32,000 migrant farmers, mostly Southern Negroes, are brought to N.Y. each year to harvest one-third of the state's \$200,000,000 farm crop.

Allen Keller, vividly described the poverty and bondage of these forgotten people in a series of articles which appeared in the N.Y. World Telegram (Sept. 1953) and were subsequently reprinted in pamphlet form. "Torture is the word for picking beans and tomatoes in the sun. A harvester has to stoop over to within a foot of the ground or get down on his knees and drag himself along, pushing his bushel basket ahead of him. It goes on for hours and hours, often until the sun has been down so long it is hard to distinguish beans from branches.

"To feed the children the parents are virtually compelled to work in the fields. And what happens to the children? I saw them locked in old jalopies to keep them out of harm. I saw them crawling in and out of hovels 10 by 12 feet in size that are homes for entire families. . . Often there was no one to prepare a midday meal and the babies and little children go from breakfast to supper with nothing to eat.

"Many migrants take their children in the fields with them. Children seven to ten years of age work at harvesting the 'stoop crops' in the bitter sun. In N.Y. State - richest and supposedly most enlightened of all the 48 - I saw hovels that were not 'adequate' for storing empty baskets away from the weather, let alone human beings."

ence both came to the hall, surveyed the audience and then vanished, returning later for a second quick look. They then disappeared not to be seen

again. The conference was formally convened by Dr. Jay Friedman, chairman of the local American Forum - for Socialist Education. The first speaker was Jay Sykes, a civil liberties attorney, who called for a new party with a platform of "peace, equality and freedom." He explained that he was not a socialist, but since the two major parties were bankrupt and incapable of achieving progress, he would support a socialist party. He cited the great achievements of minority parties in past history despite their small size and resources. Jack Wright, a leading socialist and labor militant, called for a fight against Initiative 202, the "Right to Work" law and all anti-labor legislation. "A united independent-socialist campaign,' he said, "can act as an impulse to the labor movement to break with company-union politics and enter politics as an independent force." A PROBLEM One disputed issue at the

conference was the current local campaign of Alice Franklin Bryant who is taking advantage of Washington's open primary to conduct an energetic pro-peace, anti-nuclear weapons campaign in the Democratic primary against Senator Jackson, a notorious war-monger. The conference was presented with a resolution by the Presiding Committee which commended Mrs. Bryant's stand but urged her to continue her fight outside of the war parties and join with the united socialists as the only effective way to stop the bi-partisan war policy.

Two Presiding Committee members opposed it since they were for supporting both the united ticket and Mrs. Bryant's campaign as two different

What gay floor, but the resolution carried lunacy bubbles and sparkles in since no one wished to make a your mind? What happiness are big issue of it in view of its general support. The panel discussions revealed that the delegates were primarily concern-

ed with a strong anti-war plank and with the current assault against labor, civil liberties and civil rights.

The conference voted to hold a convention on Primary Day, September 9, to nominate candidates. Under Washington laws, at least 100 delegates to such a convention, who have not voted in the primary elections that day and who are properly registered voters, must sign a nominating petition to place candidates on the ballot. All Washington residents who want to help the united ticket get on the ballot are asked to attend this convention on Primary Day and to sign the nominating petition. Such a signature constitutes the individual's vote in the primaries.

The closing address at the conference was given by Richard Fraser, local SWP organizer. Pointing out that what was being witnessed was not only the dispersal of separate, old tendencies and ideas in the left, but the coming together and unification of other tendencies, he urged the conference to see itself as part of that process. "But we are only the beginning of that process," he said, "let us not confuse it with the end. We start out together on the common ground of opposing the rule of Big

Business. That is a good founconfident, to agreement on fur-
