Congressmen are all members of committees. As such they make frequent "inspection" tours to interesting and sometimes romantic lands abroad all for free, naturally.

Much thought has gone into lightening the drudgery of their work. Special private dining rooms are provided. "Flowers galore" can be ordered free from the botanical garden for luncheons, receptions and parties. Senators get free haircuts; Representatives pay 75 cents, half the going Washington price. Low-cost beauty parlors are available for the women.

According to U.S. News & World Report, "Operating costs average about \$166,000 per member of Congress."

The magazine also notes: "The House of Representatives maintains a bank for convenience of its members.'

Socialist journalism has changed significantly in recent years. The eloquence, the stirring appeals to the emotions, the long strings of adjectives, which characterized the writings of Debs and the fiery proclamations of the Western Federation of Miners and the IWW, are now considered to be "passe."

In this society where human beings and their needs are subordinated to the Almighty Dollar, the distortion and perversion of human ideals - such as truth, brotherhood, equality, justice, love — have engendered a cynicism and a hypocrisy which have spread out like a fog over everything, and have even penetrated into the socialist movement Socialists shy away from talk about socialism itself, and how it will make these ideals a reality, for fear of provoking a scornful reaction among cynics.

Those of us who are relatively new to the socialist movement, who have become socialists during the Cold War period and whose memory even of World War II is pale, therefore miss a whole important aspect of socialist propaganda. It is this void which James P. Cannon's book, "Notebook of an Agitator," will help fill.

Respect for Others

It is strange that the years of greatest reaction in this country, in which a whole series of major defeats throughout the world isolated the radical movement, were precisely the years when Cannon wrote some of his most moving expressions of the human side of socialism. I am sure that some of these articles, when they appeared, must have put fresh hope and renewed courage into many a weary socialist fighter.

Every subject treated, whether it be the nature of capitalist "justice," the bureaucratic mentality, the propaganda machinery of the ruling class, the labor movement, religion, reflects a profound love and respect for people, people who get a raw deal, people who are struggling for something better, people who don't have half a chance to realize their potentialities as human beings. That includes the vast majority of people in the world.

The underlying philosophy which permeates each article is so simple it should be obvious to everyone, but it is a revolutionary idea: only the people, the exploited people, can emancipate themselves. No one can do it for them. As in the song: "You've gotta go down and join the union, you've got to join it for yourself. There ain't nobody gonna join it for you; you've gotta go down and join the union

To agree with this concept, one has to realize that ordinary, average people are really pretty decent, pretty intelligent, and if they took things into their own hands they could run the worl a lot better than it has been run up to now. Even in this cutthroat system, where everyone is out for himself, examples of human solidarity occur often enough to illustrate this; and some of these are in the pages of Cannon's book: the story of how white prisoners gave blood to save a Negro convict's life; of the aid given to the Minne-

apolis strikers by the farmers in 1934; of how fellow workers donated hunks of their own skin to save another's life in a skin-grafting operation; of the courage and nobility of Sacco cellor of the Hapsburg Emand Vanzetti as they met their death; of how Italian prisoners of war in Greece, captured while unwillingly doing Mussolini's dirty work, sang "Bandiera Rossa," the revolutionary song. These things give one an indication of what is to come. They give one hope.

But there is another side to Cannon's love of humanity. That is his implacable hatred of the oppressors, of those who make a buck (or millions of them) at the expense of others, by deceit, treachery, prostitution, and outright murder. These people are a necessary, built-in part of the profit system.

Cannon, with all his tolerance, does not pussyfoot around when it comes to the capitalist class and all its hangers-on, all its agents within the labor and radical movement. His great love and appreciation of people has nothing in common with the "humanism" of the Social Democrats, who sometimes mouth a few phrases from Marx about "alienation" but conveniently forget about the class struggle whenever it might embarrass them.

If Cannon believed in prayer, he would not pray for those who hit him and the rest of the working people over the head. Whoever tries to impose on workers anything against their will, whoever tries to limit their democratic rights and abilities to make their own decisions and run their own affairs - and that includes the Stalinist bureaucrats and the American labor bureaucracy — gets no mercy

The twofold nature of socialist humanism is reflected in Cannon's attitude toward the intellectuals, expressed in various articles. He does not write off the intellectuals and artists. He knows that they can give and have given valuable help to the working class. At the same time, however, he is highly critical of the large-scale flight of American intellectuals from the radical movement the minute that social protest began to be unfashionable and

"I Believe in People"

It is very seldom, even in socialist writings, that one comes across a statement which expresses what one really feels, but rarely says out loud, even to one's close friends. When you find such a statement, it makes the day worth while; it compensates for a lot of unpleasant things. Such a passage I found in head (Saturday Review of Lit-Cannon's "Sixtieth Birthday Speech:" "I believe in people and in their unlimited capacity for improvement and progress through co-operation and solidarity. I believe in freedom, equality and the brotherhood of man. That is what we really mean when we say socialism."

That says in the most direct way what I consider the core of my own beliefs. That is PUT FBI IN POLITICS why I am a socialist; and it is that idea which keeps me and, I hope, others like me, going, though we have never known anything in our lives but war, the witch-hunt, and the relative

That's Why I'm a Socialist, Too How Roosevelt Fostered Political Police

By Henry Gitano (This is the sixth of a series.) Following the French Revolu-

tion, Prince Metternich, Chanpire, who organized an international coalition of princes in defense of feudal privileges, declared his political faith: "One of the most active and at the same time most dangerous instruments used by the revolutionists of all countries, with a success which is no longer doubtful [is] the secret societies

. . undermining all parts of the social body . . . Suppress Secret Societies, that gangrene of society. In short let the monarchs strengthen their union . . . menacing only the disturbers of public tranquil-

The "anti-revolutionary legislation" based upon Metternich's Carlsbad Resolutions of 1819, decreed: "The object of the Commission shall be a joint investigation, as thorough and extensive as possible relating to the origin and manifold ramifications of the revolutionary plots . . . In cases of unavoidable necessity such persons are to be arrested."

One hundred and forty years ater, J. Edgar Hoover echoes Metternich: "The Communist leopard frequently changes his spots, but the same blood bad blood — continuously flows through his veins."

The feudal aristocracy aimed the Carlsbad decrees against bourgeois democratic revolutions, they attempted - unsuccessfully, to place a road block in history's path.

During the 1930's with widespread unemployment, 'mass demonstrations and increased class consciousness among workers threatening American capitalism. Roosevelt saw the necessity for a strong political police to aid the ruling class. Allen Churchill in reviewing "The FBI Story" by Don Whiteerature, Dec. 29, 1956) notes: be FDR . . . It was FDR who ure upon the continuing critical took the ball that was the FBI need . . . in the field of se- he had carried out his orders: and really ran with it."

The greatest period of FBI growth occurred under the Roosevelt administration. Professor John W. Caughey in his recent book "In Clear and BUSY SNOOPERS Present Danger" concludes that "after about 1939 . . . dossier Federal Bureau of (Criminal) Washington correspondent of competence to make the con- Virginia by organization of a tion."

on their contact with the Socialist Party."

The FBI's development into political police was highlighted by a meeting on Aug. 24, 1936. Hoover was called to the White House by Roosevelt and asked to make a thorough confidential survey of "Communist and other subversive groups."

Hoover told the head of the Democratic Party, according to Whitehead, "Mr. President, there is no governmental agency compiling such a general inteligence. Of course, it is not a violation of the law to be a member of the Communist Party and we have had no specific authority to make such eneral investigations."

Roosevelt persisted: "There nust be some way this could e done, Edgar."

Hoover volunteered that to make it legal, the Secretary of State should make the request. The next day, Roosevelt, Hoover and Cordell Hull met. Hull 'turned to Hoover and said, 'Go ahead and investigate the —! The President threw back his head and laughed.'

Roosevelt had issued his secret directive empowering the

The Compromise of 1958

The battle for Southern school integration, it appears to us, has entered a new stage. Leading sections of the Southern ruling class seem to have accepted a compromise in which they end their flagrant defiance of the Constitution, grant token integration, yet maintain the pattern of segregation virtually intact. The compromise was put into the works by the Supreme Court last November when it approved the Alabama school "placement" law.

In that decision, the Court indicated that if the South's rulers would permit a handful of Negro students to transfer to previously all-white schools, thus adhering to the letter of the Court's integration decisions, then the most authoritative judicial body in the land would in return put the burden of legal proof on every individual Negro who contends that he has been barred from equal educational opportunities because of the color of his skin.

In accepting this formula, the leaders of the Democratic machine in Virginia and elsewhere have interpreted the compromise as a retreat to "second line trenches." But they are dug deep in those trenches and they have powerful reinforcements, since the Supreme Court, the White House, the Justice Department and Congress have joined them there.

White House approval of the odorous compromise was publicly indicated when Attorney General Rogers deleted a clause from the President's proposed civil-rights bill that would have authorized suits by the Justice Department to enforce inte-

The Justice Department registered its position when the same Rogers issued an unsolicited press statement Jan. 23 expressing the opinion that Supreme Court validation of the Alabama "placement" law eliminated the need for such federal intervention in the school fight as took place in Little Rock when Faubus provoked the use of federal troops.

The compromise is obviously agreeable to all wings of Congress. Dixiecrats control key committees and the pork barrel! The great "compromiser," Lyndon Johnson, did little more than crook his finger at the liberals to get agreement on killing a proposed anti-filibuster measure. Congressional approval of the infamous "placement" formula is underscored by the three civil-rights bills now in committee. The "strongest" of them, proposed by Senator Douglas, avoids the crucial "placement" decision.

This decision, upon which the compromise of 1958 has been shaped, is a formidable barrier to integration. But a breakthrough can be made. The first requisite is to appreciate that taking the first-line trenches, forcing such a racist as Gov. Almond to grant token integration, was a victory despite the compromise. The second requisite is to realize that this victory came primarily through the mass pressure of the Negro people and their allies; it was not a gift from the Supreme Court.

The conclusion to be drawn is that a mighty effort of the same kind can overcome even these bristling defense lines of the racists of America.

unemployed in the USA?

Worthwhile Reform

In his novel and movie, "The Grapes of Wrath," John Steinbeck painted an unforgettable picture of dispossessed Midwestern dirt farmers beating their way across the country in search of jobs in California. Federal and state authorities took the plight of these starving families with brutal lack of concern.

True, that was during the great depression of the thirties when no work was in sight in whole areas like the Oklahoma dust bowl. But there are blighted areas today, too; areas suffering from "sick" industries, permanent shutdowns, runaway plants. Workers there face a bleak future unless they can get out. But where can they get, help?

It doesn't have to be that way, even under capitalism; and certainly not in the richest country in the world. Last year in Sweden — which is a lot poorer than we are — the government relocated more than 50,000 workers in jobs.

McElroy Speaks

When Truman dropped the first two atomic bombs on Hiroshima and Nagasaki in 1945, a cartoonist depicted a cave man demonstrating the newly invented bow and arrow. The caption read, "This means the end of wars as we've known them."

Today some people cling to the illusion that nuclear weapons finally did make a qualitative difference — that the prospect of atomic warfare is so fearful that no major power will dare to use the newly invented nuclear weapons. Let them listen to Defense Secretary Neil H. McElroy.

Testifying before the House Armed Services Committee Feb. 4, this top Washington official — no one less, in fact, than the cabinet member in charge of the armed forces — declared that if the United States engages in another war like the one in Korea it will use atomic weapons. His statement came in direct response to demands for assurance by the committee that the U.S. is still prepared to wage "limited war."

McElroy said that while the Defense Department is continuing to build up Soviet government announced for party membership be screen-"conventional" weapons, a conflict like the one in Korea will no longer be considered a "limited war."

It would be "against our national interest." he asserted. "if any inference were given the Chinese Communists that we would fight the Chinese Communists without general war weapons."

McElroy was not simply rattling a hydrogen bomb. He was stating a fact, something that the top councils of the bipartisan Democrats and Republicans have agreed upon.

Insanity? No doubt. But such insanity happens to be a built in feature of the they were. We will change present procedure is for the re- ready for new systems," the decaying world capitalist order.

Let's End the Arms Race

Despite the higher rate of Soviet gains, America still produces a much greater mass of goods. The big-business policy makers use this advantage to hamper Soviet planning and the aspiration of the Soviet people for swift improvements in their living standards. The device is the arms budget.

In November 1957, Harry Schwartz, Soviet expert of the New York Times, wrote: " . . . greater United States military spending . . . undoubtedly will exert pressure on Moscow to keep up its own large effort in the arms race, thus diverting resources otherwise usable for capital investment."

Every hike in the bipartisan war budget forces an increase in Soviet armaments; but because of higher U.S. productivity, the Soviet Union is forced to spend proportionately more for an equal amount of arms.

Should this country, however, reduce arms production, then the trend that Schwartz noted would work in reverse.

Such a move would take the pressure off Moscow to "keep up its own large effort in the arms race" and allow the Soviet planning commissions to put more resources into capital investments. A good share would flow immediately into the consumer goods industry. The Soviet could produce best results. We plenary meetings of district and workers would get this concession because | did not carry out the revolution the Kremlin is fearful of political revolution even though it does not recognize the will of the masses in the conduct of government.

The American people have no interest in slowing down Soviet economic growth or in keeping down Soviet living standards. Furthermore, the arms race, while enriching the monopolies, imposes inflation and a grievous tax load on the working people. It impoverishes the country. The money that goes into armaments is taken from schools, hospitals, flood-control

projects, highways and the like. Thus the American and Soviet working people have a mutual interest in ending the arms race and turning to production for peace.

Demand Punishment for Batista Henchmen

More than half a million Cubans massed in Havana Jan. 26 demonstrating approval of trials of Batista gunmen. One man held rope aloft as symbol of the penalty earned by torturers and assassins. Fidel Castro told rally that protests in Washington against executions were "infamous."

some. Groups of peasants have gone ahead and seized lands belonging to coffee planters and have divided them up without government sanction.

Castro has made many promises to various sections of the population always couched in fine-sounding phrases: "We do not intend to leave things as everything," or "We want to be economically free." But he is bidding for time. He claims that "disunity" now will open the way for a Batista counterrevolution.

He insists on the one hand that "we will not sacrifice liberty." On the other hand he says that the "strike is a weapon that should be used at an the cells and workers' assemappropriate moment - when it powerful, but of the humble." And in the same breath: "It is sacrifice now will be compensated with greater return at an-

Through such double talk Castro seeks to restrain the Cuban revolution. To Castro more time offers more opportunities for holding back the revolutionary aspirations of the workers and poor peasants to free themselves from the stranglehold of U.S. financial nterests. To the workers, time is of the essence if they are to push the revolution through to United States, capping a one-complete victory.

"Dead on Arrival"

By Evelyn Sell

DETROIT - The headlines in the capitalist press blared: "Steel Plant Shut by Death Protest" and "Call Police as 200 Picket Over Safety." Policemen equipped with tear gas and riot guns had been called out. McClouth Steel Corporation workers were demonstrating at the plant gates over inadequate safety precautions which had resulted in three deaths. the past 21 days.

The union newspaper took a different slant. "Steelworker Killed," said the stark headline. Brother Pranger was cleaning off some grates with an air hose when an engine, busy filling bins for the blast furnace, crushed

The union had asked for a minimum crew of two to operate the engine - one to drive. the other to guide him, for visibility from the cab was poor. The company refused. They discounted the repeated accidents in which the engine had been involved.

The accident was not noticed when it occurred, but when someone finally saw the injured man every attempt was made to rush him to a hospital. No stretchers were at hand. When one was finally located in a distant part of the plant and the bleeding worker was lifted on to it, the door proved too narrow for two stretcher bearers.

After Brother Pranger's death, the com- really comprehend or accept the pany conceded the union demand for an addi- full brutal meaning of the tional worker on the engine and another man treatment of Negroes in Amerto help clean the grates.

But they did nothing about a plant-wide safety program. One week later another work- came with a copy of a stateer was killed when oil from a severed hose came into contact with a floor heater and ex- Holland Jan. 22 by the United ploded.

At the plant gates they stopped several the boys being held incommuntrucks from leaving. That was when the company called the cops. The police dispersed the pickets so that the company could get on with its profit-making but they could not disperse the sentiment expressed by one of the workers in the union newspaper:

"... no matter what your wages are or how good other things may be at the plant where you work, it won't mean one thing, not one blessed thing, if you go to work and then later in the day are DEAD ON ARRIVAL AT SOME HOSPITAL."

Notes in the News

CALLING DR. FREUD - New York Republican legislators sat in glum silence when Gov. Rockefeller read his "sock 'em with taxes" message. "Only once . . . did his audience respond audibly, with a muffled titter." That was when he "misspoke and called the poor the rich." Rockefeller retained the same speech writer used by his Democratic predecessor Harriman. The slip can scarcely be ascribed to overwork of either the ghost writer or the speech reader as the budget message was only one-fifth as long as Harriman's.

BACKWARD FOREIGNERS? - In this country eligibility for old-age pensions is determined by the amount paid in social-security taxes while employed. In Canada, New Zealand, Denmark, Finland and Norway everyone above a certain age is entitled to a pension regardless of past employment or payments into the social-security fund.

CONCERN FOR N.J. JOBLESS - The New Jersey State Employment Council has recommended to Gov. Meyner that maximum benefits to the unemployed be increased from \$35 to \$50 a week. To qualify for the maximum an applicant would have to earn \$95 a week for 17 weeks before he lost his job. They also thought that the benefit period should be extended from 26 weeks to 30. They balanced this recommendation, however, by advocating that an employee must earn at least \$30 a week instead of the present \$15 before becoming eligible for the benefits.

KEEPING UP WITH THE TIMES - The Wyoming House of Representatives has approved a bill to give inmates of prison \$35 in cash upon release instead of the customary \$10. Lest this be thought to represent a concession to the view that greater help should be given prisoners in getting adjusted to the outside world, one representative made clear that the bill simply recognized "the higher cost of

PRISONERS WIN - New Jersey's state prison strike ended Feb. 2 when the 300 inmates involved decided to accept an offer of five cents a day increase. They had been paid 13 to 35 cents a day in manufacturing 3,500,-000 license plates. Prison officials made the concession after other shops joined in sympathy demonstrations.

TAX SLASH — The U.S. Internal Revenue ruled Feb. 6 that if your boss gave you a turkey or a ham for Christmas you don't have to pay income tax on it.

ROBESON WINS TAX SUIT - The Internal Revenue Service announced Feb. 4 that it was abandoning a five-year battle to force singer Paul Robeson to pay "income taxes" of \$9,655 on the \$25,000 Stalin Peace Prize he won in 1953. The government decided that the Prize was in the same tax-exempt category as the Nobel and Pulitzer prizes. Robeson is ill in a Moscow hospital. He went to the Soviet streets with 1959 car models at the official jobless figure will go Black (now a Supreme Court doors, windows, floor and miss-should we pay them?" This is a Union after winning a long struggle to obtain the peak of production.

OLD FILTH IN NEW COVER — Fascist- Michigan, with 194,000 of them minded Gerald L. K. Smith is pushing the notorious anti-Semitic articles that Henry Ford twenties. MAN BITES DOG - A holdup man walked out of a New York Branch of the Household Finance Corp. with \$300 Feb. 4.

SUSPECT DDT - The New Jersey Audubon Society is undertaking a year-long study to determine the reason for the infertility of bald eagles. The bird - America's national ment problem was reflected in symbol — is reported to be dying out in all the announcement that the drop sections of the country. It is suspected that in dues payments has made it for such a march at the present act as chairman. DDT, used indiscriminately in enormous necessary to eliminate 87 union time. amounts on American farms, is washing into jobs. Officers and employees of streams where it accumulates in the bodies of the union are taking a five per fish. Many of these are killed by the DDT and cent pay cut for the next four Economic Committee. He said Street in Manhattan. then picked up by the scavenger bird. There the poison, evidence seems to show, reacts on the reproductive organs.

BORING FROM WITHIN — America is headed for communism on roller skates and it may already be too late to do anything about it, a battery of alarmed speakers told the annual gathering of the Coalition of American Patriotic Societies in Washington Feb. 3. To help save capitalism, a representative of the Chamber of Commerce urged creation of "capitalist cells." These should not waste time on cussion, 8 P.M. Room 200. the masses, who wouldn't understand their message, he said, but should operate among editors and educators.

REST ROOMS NEXT? - A National Association of Manufacturers pamphlet includes a checklist of fringe-benefit "costs" which employers should be sure to note before going into negotiations. These include employee discounts; library, magazine and reading rack facilities; lunch period movies and entertainment; vitamins, salt tablets and other temperature or exertion medications; music during working hours: old timers dinners and entertainment; length of service awards; flowers for sick or deceased employees and dependents. Commented the editor of the Machinist: "Next thing they'll be charging us for 'fringe' benefits like rest room facilities."

Petition Against

Jim Crow Housing

NUMBER 7

BERKELEY, Calif. - The United Socialist Action group filed an initiative petition Feb. 5 aimed at ending segregation in housing. The petition, signed by 2,846 voters, makes it possible to place the measure on the ballot in the coming city election, should it be turned down by the City Council.

The proposed law would establish a three-man commission on equality in housing empowered to hold open hearings to initiate court action on complaints.

United Socialist Action, whose chairman is Vincent Hallinan, invites all those interested in getting this bill passed to help. The address is 2915-A Wheeler St.
