Swindle **Planned On Rights**

Vol. XXIV — No. 5

Seek to Dupe Negro Voters

By John Thayer

Democrats and Republicans in Congress are jockeying fiercely on the civil rights issue. Each internal affairs.' party is accusing the other of not really wanting to pass an effective civil-rights law — and for once both are telling the truth. But a Presidential campaign is vote can be pivotal in a number of key states. Therefore each party is impelled to make enough of a pro-civil rights record in this Congress to enable its candidates to placate Negro

While no one in Washington sees any drastic or really effective legislation in the offing, most opservers expect passage of something with a civil-rights label.

Much of the jockeying is over timing. Democratic strategy is to get the depate over with and forgotten (they hope) as soon as possible.

Precisely to embarrass the Democrats, Republican strategists prefer the civil-rights debate to come in the latter part of the session.

Consequently, the Democrats rushed into this session of Congress with demands for immediately taking up civil-rights bills. In the House, Northern Democrats circulated a discharge petition to take civil-rights proposals out of the Rules Committee and directly onto the floor. Such a petition requires 219 signatures.

Northern Democrats denounced Republicans for "obstructing" civil rights by their slowness to sign; but this did not hurry the Republicans who relished pointing out that the Rules Committee, two-thirds of which is Democratic, could report the bills out immediately and that the 280 Democratic representatives were more than enough to fill the pe-

For decades Democratic liberals "made the record" cheaply on civil rights. They would introduce bills and let them die in committee or at the threat of a Southern Democratic filibuster. By 1957 Negro voters were onto this shell game and demanded a real fight for passage of the perennial bills.

Moreover, Republican leaders Nixon and Knowland were already bidding for Negro support in the 1960 elections. Under direction of Senate Democratic Leader Lyndon Johnson (Texas) a new tactic was devised: actual passage of a bill, but one so weak that Southern Senators would agree beforehand not to filibuster it. Thus in 1957 Congress passed the first civil-rights bill in 80 years.

Its coverage was cut down from civil rights merely to voting rights and it has been almost completely ineffectual since pas-

Northern Democrats raised a great outcry over Eisenhower's coolness to the Civil Rights Commission's proposal for federal voting registrars in areas where local officials refused to enroll Negroes. But the Nixon forces recouped on Jan. 26 by getting administration sponsorship for a somewhat stronger plan for federal judges to appoint voting supervisors and use contempt of court power in such areas.

Racists Cancel Brubeck Jazz

Jazz pianist Dave Brubeck has revealed that 22 Southern colleges have canceled concerts scheduled this spring by his celebrated quartet upon learning that his bass player, Gene Wright, is Negro.

"Don't blame the kids," Brubeck said. "Those kids know every jazz group in the country and they knew we had a Negro member when they asked us to come. It's the officials."

Three white Southern colleges which did not cancel the interracial combo's appointments are: the University of Jacksonville, Vanderbilt University in Nashville and the University of the

South in Sewannee, Tenn. The canceled concerts called for payments of \$40,000.

Return Guantanamo Franco's To Cuban People!

An Editorial

At his press conference Jan. 26 Pres. Eisenhower emphasized the official "no reprisal" policy of his administration toward the Castro government.

"The American people," said Eisenhower, "still have the greatest affection and the greatest interest in the Cuban people. We are not going to be party to reprisals or anything of that kind. At this moment, it is not our time to do it, and certainly we are not going to intervene in their

The Cuban people, however, continue to indicate profound distrust. The distrust is justified, in our opinion. The State Department has made it a major concern to represent the interests of American capitalists and landholder's fast approaching and the Negro who object to the social and economic reforms undertaken since the revolution swept Castro to power.

No doubt the Cuban people will listen to Eisenhower's friendly words with interest. But they will be inclined, we imagine, to demand that he match them with deeds.

If Eisenhower really has the interests of the Cuban people at heart and is "certainly" not going to intervene n their internal affairs, he might well demonstrate this by returning the Guantanamo naval base to Cuba.

This base was obtained when the U.S. intervened in Cuba's struggle for independence from Spain. From 1899 to 1902, the U.S. imposed its military rule on the island. When the Cuban constitution was drawn up, the U.S., with otic organizations. And 400,000 a bayonet at Cuba's throat, forced the new government to "lease" naval stations.

Two strategic harbors, bearing on the approaches to Panama, were taken. Of these, the U.S. still clings to

In the days of the intercontinental rocket missile, the base long ago lost whatever military value it once had in imperialist wars. For that matter the Panama canal has lost strategic usefulness. Even the Navy recognizes this. Some of its aircraft carriers are too big to go through it.

Thus Guantanamo can serve no purpose but to faciliate the landing of marines and armed intervention.

Isn't it high time that the government of our country ulled its military forces out of Cuba?

Let's give Guantanamo back to its rightful owners!

unions and the bosses?"

"Who will organize the labor

"How do you see the future

union political sentiment?".

If you prowl around the Bay Area asking questions among the workers, you get some interesting answers these days. Here are some of the things I was told:

A lithographer: "The bosses forced us out on strike and they are using the Kennedy-Landrum-Griffin law to try to drive us back to work like whipped pups. Wages are not the only thing involved. The bosses are shooting for bigger profits at the expense of our working conditions and for some of us at the cost of our

A longshoreman: "Day in and day out we have to fight employer attempts to cut the manpower used to handle cargo. Sometimes we win sometimes we lose; and the bosses keep whittling away."

A teamster: "Our contract says one thing but the boss says another and most often the union big shots go along with him. Many of us don't like it much, but we haven't figured out just what to do about it.'

An optical technician: "People in my line are pretty skilled, get good pay and don't always think like workers. Lately though they are getting uneasy about the attack on labor. They talk about it quite a bit and are more inclined to listen to everybody's ideas.'

Answers like these came from workers in response to questions about their immediate situation. An indication of broader issues disturbing them came through at a meeting of the Militant Labor Forum held in the new Longshoremen's hall on the waterfront.

What About Now?

I spoke there on some of the big problems facing labor today; and a number of questions came from the unusually large audience present:

"A labor party would be a good thing but we haven't got one: so what do we do now?

"How can we save our jobs in the face of automation? What about the bosses' answer that we will all find jobs as technicians? It sounds good but what would it really take to accomplish that?" "What must be done to re-

peal the Kennedy-Landrum-Griffin law? Meantime should labor knuckle under to the law or defy it?"

Emissary Cheer Ouster

By Lillian Kiezel

Cuban TV fans were given an unusual show Jan. 26. Juan Pablo de Lojendio, the Spanish Ambassador, burst into the studio during a speech by Premier Fidel Castro. He demanded 'equal time" to answer Castro's 'slanderous'' charge that Gen. Franco's Embassy has been aidng and abetting Cuban counterrevolutionaries.

Castro answered his Falangist neckler by noting that the ambassador was a "representative of tyranny" and of fascism. He declared him persona non grata and gave him "twenty-four hours to get out of Cuba.'

Thousands of telegrams, acclaiming Castro's action, poured into his headquarters the next day from labor, civic and patrimembers of the Confederation of Cuban Workers demonstrated before the Spanish Embassy. They cheered David Salvador, the Confederation's General Secretary, when he called upon the government to definitively break diplomatic relations with Spain. The ouster of the Spanish dip-

omat was supplemented with another diplomatic rift with the United States. Castro produced documents which he said linked both the U.S. and Spanish Embassies to counter-revolutionary activities. Ambassador Philip W. Bonsal went back to Washington for consultation.

Castro held that U.S. opposition to the progress made by the Cuban government in carrying out agrarian reform accounted for the hostile campaign waged against Cuba by American public officials and the American press, particularly the demand for revision of the Sugar Quota

He cited, as evidence, an "insolent" remark of Vice-President Richard Nixon threatening Cuba with "economic consequences" if its government persisted in pursuing a policy of "confiscation without compensation."

charges of U.S. "determination" to defeat the revolution were 'unwarranted."

Scoring Bonsal's visit to the Spanish Embassy to bid de Lojendio a bon voyage, Revolucion, official newspaper, of the Cuban government criticized U.S. relations with fascist dictator Franco:

"What an inconceivable alliance . . . what an embrace without decorum . . . Franco and Eisenhower. What an historic fraud! What deception! What democratic falsification! What 'Free World' slaves! What a monstrosity!"

Cubans could not be "prostiuted or destroyed," added Revolucion, "by dollars or bayonets." The State Department, representing U.S. vested interests in

Cuba, has been applying steady pressure on the Castro regime to nodify its Agrarian Reform Law. U.S. tycoons, after exploiting Cuban labor and land for 57 years, want to get paid in cash for their confiscated property. plants. Cuban officials have explained repeatedly that Batista drained the treasury dry and payment (Continued on Page 4)

Witch-Hunters Open Inquisition On Visitors at Youth Festivals

By Nora Roberts

JAN. 26 - Launching its first attack on young people, the House Un-American Activities Committee has subpoenaed five voung New Yorkers to testify before it in Washington, D.C. Feb. 3, 4 and 5. This is the witch-hunting group's first use of the \$327,000 appropriated for it by Congress four days ago. All five of the young people

have been called to testify because of their participation in World Youth Festivals held in Vienna, Moscow and Warsaw during the past five years. The five are Joanne Grant, aged 29, Fred Jerome, 20, Alan McGowan, 24, Paul Robeson, Jr., 32, and Jake Rosen, 21.

A group has been established, Youth Against the Un-American Activities Committee, to "protest this inquisition of American youth."

A protest rally will be held in New York Sunday night, Jan. 31 at 8 p.m., in the Fraternal Clubhouse, 110 W.

The rally is jointly sponsored by the newly formed youth defense committee, the Emergency Civil Liberties Committee, which has given its office as headquarters for the group, and the Religious Freedom Com-

The program will include Paul Robeson, Jr., speaking for the subpoenaed youth, Dr. Clark Foreman, director of the ECLC, Rev. Lee Ball of the Religious Freedom Committee, Mrs. Dorothy Marshall of the Los Angeles Citizens Committee to Preserve American Freedoms, and Dr. Otto Nathan.

Entertainment will be fursinging group.

De Gaulle's Regime Gets Boot Shaken by Uprising

Army Fraternizes with Mutineers

French Foreign Legion paratroopers in foreground (wearing berets) are supposed to be besieging insurgent French "colons," some of whom are shown standing in front of cobblestone and lumber barricade they erected in Algiers business district. But "besiegers" and "besieged" proved very chummy. The paratroopers, notorious for brutalities against Algerian Moslems, have become a fascist-minded elite corps similar to Hitler's SS troops. They are openly in sympathy with the insurgent French "colons" who oppose any concession to the Arabs by DeGaulle. Instead of sealing off the barricaded mutineers, many of whom belong to the local national guard, the paratroopers encouraged them; allowed them to be provisioned and supplied them with ammunition.

Strike Ranks Can They Tie a Knot Remain Solid In the Donkey's Tail? At Wilson Co. By Tom Kerry

Fascists Gain In Influence

By M. L. Stafford

An armed uprising by the reactionary French "colons" or colonists in Algiers, which the French army officers are unwilling to put down, threatens to topple the "strong man" regime of De Gaulle in France just as a similar uprising 20 months ago toppled the Fourth French Re-

Fascist-minded elements in France as well as Algeria were emboldened by the demonstration of armed force and defiance of the French government.

The chain of events immediitely leading to the "mutiny" in Algiers began Jan. 22 when De Gaulle removed Gen. Jacques Massu from the military and civil command of the Algiers

Massu, a candidate for the role of France's General Franco, is the darling of the "colons" and the fascists in France. Under his command the paratroopers became storm troops specializing in torturing and slaughtering Algerian freedom fighters.

Massu played a leading role in the 1958 army mutiny in Algeria that brought De Gaulle to power. Recently in a press interview he threatened to use force against De Gaulle's proposal to end the war in Algeria by granting concessions to the Algerian freedom fighters. For this insubordination De Gaulle relieved him of his command.

Massu's ouster was the signal for demonstrations and riots by the fascist organizations of the colons in Algiers. When pohours on Jan. 24, they were met fire. The police fired back.

Most of the demonstrators fled, George Meany on the numbers cluding many armed and uni-

> For the next 24 hours neither police nor army moved against the insurgents. This raised the colons' hopes and many more joined the "besieged."

When the army finally moved n, the rebels were joyous, for the generals had sent the paratroopers, their closest sympathizers, to guard them.

Continuation of the rebellion vas taken as evidence of De brass to carry out his orders. His prestige as a "strong man" sank daily.

The generals claim they haven't disobeyed any orders because they weren't formally ordered to fire on the insurgents. If true, that means De Gaulle So you see it is not as simple was aware his orders would be as the COPE statement would disobeyed. He sent Michel Debre

He observes that many of the former CP intellectuals, "who remained Marxists joined with their predecessors the British Trotskyists in founding a new Marxist revolutionary organization, the Socialist Labor

Not Surprising

Naturally, such a complex process as the testing of revoluionary intellectuals is not easy, smooth and free of setbacks. How could it be? One has only flux of former Communists who to examine the rich experience of the Russian Marxist movethe Khrushchev speech and the ment to see this. In our times the suppression of the Hungarian relation between the Marxist movement and revolutionary intellectuals has become even more complicated, due to Stalinism. It is thus not surprising that the SLL should have lost a few of the intellectuals it gained when the fusion took place.

Marxist analysis can offer an illuminating insight into the attraction and repulsion which intellectuals experience in relation to Marxism. As we can see in the case of Britain, the final determinants are the ebbs and flows in world politics and behind them the alterations in class relations. Why did we witness a swing

to the left in 1956 among many intellectuals (as well as workers) in the British Communist party? The answer is well known. The Khrushchev revelations, the Poznan revolt, the subsequent Hungarian uprising and the broad workers' movement for democracy in Poland and Eastern Europe in general, precipitated an acute phase in the world crisis of Stalinism. For a moment the power of the bureaucracy seemed to waver, seemed ary workers. This is one of the even about to be shattered and by the blows of workers imbued with a program of anticapitalist, independent struggle for socialist democracy. doubtedly took note of how the Commun-

ist and Socialist party leaders acted in the

Second class postage paid

The Crisis in France

For the second time in twenty months, the French working class has received sharp notice of a deepening trend toward

The combination is much the same as in May 1958. It consists of (a) semi-military organizations among the French colons in Algeria; (b) the officer corps—spearheaded by the paratroop commanders — waging the imperialist war against the Algerian Arabs; and (c) right-wing politicians including several members of De Gaulle's

This is a determined combination. Its rallying cry is "L'Algerie Française" — "Algeria is French" — which means no compromise with the Arab national independence movement. But the "Algeria is French" crowd seeks more than military victory against the Moslems. It wants a "strong" government for France like that of Mussolini, Hitler and Franco.

The fascists seek to recapture the "glory" of the French empire and to avenge France's defeats at the hands of the colonial revolution in Indo-China and North Africa by punishing the "traitors" at home. Working-class militants head the list of those they consider "traitors." They thus threaten a blood bath of the workingclass organizations.

The "Algeria is French" party has already scored one success. Its uprising in Algeria and Corsica in 1958 smashed the parliamentary democracy of the Fourth Republic and substituted the "strong man" regime of De Gaulle. That was the first step toward a totalitarian government.

De Gaulle virtually stripped parliament of its powers. His constitution provided for elections easily rigged to return right-wing majorities. It armed the president — that is, De Gaulle — with the power to rule by decree whenever he chooses to declare an "emergency." De Gaulle's bonapartist rule, however, has retained a number of democratic trappings. These, together with his offer of "self-determination" (meager as it is) to the Algerian Moslems, have inflamed the colons and military.

Once more the fascists are seeking to advance. The resistance of the colons to De Gaulle's "self-determination" scheme, the fraternization between them and the paratroopers and the connivance of the army command in Algeria with the colon's rebellion — all these developments have again opened the door to further strengthening of the fascist tendency.

The French working class must cope with this danger without delay. For the paralysis of the French labor movementimposed by its Communist-party, Socialistparty and trade-union leadership — has been one of the principal causes of the recurring fascist threat.

Potentially, the workers are the stronger force in the situation. A mass demonstration of the workers' organizations, siding with the Algerian Moslems, and advertising labor's readiness to resist the colons and the army brass, can drastically alter the situation. The army officers and colons are reported to have drawn back in 1958 from attempting an invasion of France for fear of precipitating a civil war which they believed the workers would win.

The Germans Say 'Nazis Raus'

The outbreak of anti-Semitism in West Germany has served to call attention to the fascist tendencies that are again festering in the social fabric of that country. But insufficient attention has been given, we feel, to the fact that the vast majority of the West German people are opposed to neo-Nazism and are trying to find means to stamp it out.

In a Jan. 24 report from Bonn, New York Times correspondent Sidney Gruson writes that most observers there are agreed that the outbreak does not "signify . . . that the Germans as a people have retained the Nazis' racial teachings."

Gruson continues: "At least to this reporter, the group in a Darnstadt bar who threatened to rough up a man shouting anti-Semitic slogans was more representative of the German people's feelings and attitudes than the muted voices of approval for the swastika painters and slogan

However this sentiment is not reflected in the actions of the Adenauer regime. It has sought to placate West German and international anger over anti-Semitism with pious pronouncements but stubbornly refuses to take any meaningful steps to strike at the sources of the outbreak.

Gruson's report confirms that the West German government has taken only "minimal" steps against those responsible for the anti-Semitic acts and that it has refused

crisis. The latter shrank from mobilizing the working-class organizations for united struggle. They relied on bourgeois liberals like Premier Pflimlin to preserve the Fourth Republic. And they presented the workers no proposals for struggle when Pflimlin handed the power to De Gaulle.

In the present crisis the working-class leaders are relying on De Gaulle to defeat the fascists. Vain hope! Given the army's "neutrality" in the conflict, De Gaulle cannot cope with the "Algeria is French" mob without calling on the workers to come to

De Gaulle is a faithful servant of big business and is unwilling or unable to take decisive action against the most determined partisans of capitalist reaction. That is why, in the current crisis, he seeks to get the colons and the army to back down voluntarily.

While the European population in Algeria is ranged against De Gaulle, the lines are not yet drawn clearly in the population in France. To offset the potential strength of the working class, the fascists must win significant backing from the petty-bourgeois masses in metropolitan France. This they lack at present.

If the workers manage to break the paralysis and dependence on De Gaulle foisted on them by their leaders, they can rally the petty-bourgeois masses or at least neutralize them and thereby cut the ground out from under their foes.

How the French working class tackles the fascist advance is of momentous importance to the working people through. De Gaulle not because his "selfout the world. The events in France foreshadow developments in all other major capitalist countries.

In every one of them, the army and police are shot through with killer types nursing their grievances against "traitors" and waiting for the time when they can settle accounts with the working class, the liberals, the Jews, the "enemy" abroad. In this country, Sen. McCarthy's campaign in the early 1950's against "twenty years of treason" made rapid headway among the about 10 million, about 12% traitor to socialism surrendered brass and the police forces as well as of which are French colonists among reactionary politicians. We may be sure that in West Germany, the Nazis, re- descent; the term is racial, turned to their posts, are biding their meaning any settler of European time for the most opportune moment to ancestry.

In addition, in several countries, entire sections of the population — such as the colons in Algeria — are steeped in racism and can be readily mobilized behind a fascist solution.

Conditions today favor the swift maturing of fascist tendencies and period- tion owners, corporations and ically create opportunities for them to bid wealthy farmers. The native Alfor power unless the working class moves gerians were reduced virtually ficers in Algeria constituted an just as swiftly to counteract them.

Even if beaten back by vigorous dem- low-paid wage workers. onstrations of workers' strength, the threat of fascism will be renewed in France as long as capitalism remains in power. The working-class struggle against fascism is thus synonymous in the final analysis with the fight for a socialist government.

They Brought De Gaulle to Power

Members of fascist groups in Paris marched on the French National Assembly in May 1958 shortly after the successful coup of the colons and the generals in Algeria. Though the police dispersed this particular demonstration, the pressure of the fascists in France and Algeria led the National Assembly to hand power to De Gaulle.

Why Algeria's "Colons" Want Nazilike Regime

By George Lavan

ers" in Algiers? Why have they Toms. aken up arms against the De Gaulle regime which they did so much to bring to power in France just a year and a half

The armed groups who have barricaded themselves in the government buildings in downtown Algiers can be likened on the American political scene to the Ku Klux Klan and White Citizens Councils - with the difference that in Algeria the whites (Europeans) are a small minority of the population.

They are fighting mad against determination" plan for Algeria gives the colony any chance of independence but because it is a cover for a compromise to end the war by giving the Algerians some concessions. And the extremist colons bitterly oppose any reform whatsoever of the political, social, economic and cultural oppression of the Algerian people.

Algeria is the oldest and most ism's colonies. Its population is or "colons." These are not necessarily French or of French

The standard of living of the native population - in terms of food shelter and clothing — is lower now than when French armies conquered the country a century and

Almost all the arable land was taken away from the Algerian people by French plantato serfdom in their own country, becoming sharecroppers and

They live in rural slums and urban shanty towns — victims of malnutrition and disease. In the few schools allowed them. Arabic, their own tongue, was declared a foreign language and the rulers carried on a persistent campaign to denigrate and destroy the native culture.

Constituting about 12% of the population, the colons owned 67% of the country's wealth at the outbreak of the independence revolt in 1954.

In violation of the people's will and the facts of geography this Moslem country in North Africa was declared by French the Algerian independence fighters' mistrust of De Gaulle's offer of elections sometime in were rigged so that the Algerian 88% of the population could not even elect their own representatives — the Algerians who

> Whenever the Algerians tried to build their own parties the French would declare them illegal and break them up with arrests, or as with the African North Star Party in 1946 by massacring tens of

The present war for independence broke out in November 1954. In France the war was as unpopular as the "dirty" war then being waged in Indo-

In the 1955 elections the Social Democratic and Communist parties campaigned on slogans for ending the war in Algeria. Both parties received big votes and right-wing Socialist leader, Guy Mollet, became premier. He soon made a visit to Algeria where the colons, infuriated by his intention to conciliate the Algerian freedom fighters with reforms, organized violent demonstrations against him.

Mollet's knees buckled after profitable of French imperial- he had been pelted with garbage during a speech. This completely to the colons and their semi-fascist organizations. Instead of negotiating with the independence fighters, he ordered the war of repression in-

> Emergency powers, making Algeria a police state, were given to the colon officials and army officers. Adding another page of betrayal to its record on freedom struggles in French colonies, the Communist party members of the French Chamber of Deputies voted for these bloody measures.

> From that moment the colons and the reactionary army ofindependent power. Not only was the Arab population in the big cities and coastal areas of the country ruthlessly purged of all suspected advocates of independence, but among the colons themselves all sentiment for granting independence or compromising was stamped out.

Government and army officials helped solidify the colons into the most extreme anti-Arab attitudes and encouraged the growth of fascist organizations among them

By 1958 this army brass-colon combination was strong enough to start the train of events that ended parliamentary democracy in France itself.

Like Nazis

French imperialism's war in Algeria is one of the most barbarous and brutal in history. Only the Nazi extermination of the Jews and treatment of the populations in Poland and the USSR exceed it in savagery. Torture of Algerian prisoners

is a standard practice and a leading recreation for the paratroopers who have evolved on lines similar to Hitler's SS units. One of the Nazi's most infa-

mous deeds in World War II was the reprisal shooting of the male population and burning of the Czech village of Lidice. This crime has been duplicated repeatedly by the French army in Algeria. A French priest, a colon himself, exiled from Algeria by the army, has estimated that a million Algerians have already been killed.

The great majority of these were not killed on the battlefield but were villagers, killed in reprisals or to set an example, and prisoners in jails and camps for suspects.

Drained by a war which had

the struggle.

At this point the army brass to the core, shook with terror. The leadership of the huge

working-class Socialist and Communist parties showed themselves impotent, their only "program" was to support the capitalist politicians, who in a matter of days sold

The French bourgeoisie, secions of the government bureaucracy, and the Catholic hierarchy decided to seize the opportunity to rid France of pariamentary democracy. They to power as a "strong man."

Thus ingloriously ended the Fourth French Republic and began the Bonapartist regime of De Gaulle.

Hipster Problem

Author Herbert Gold believes that American youth today don't see a cause worth identifying with. "When people my age and older were young, they could become young Socialists or young Communists or even young Fascists and really try to change the world."

But to a young man interested in politics today, "it might ap-pear that as between the two political parties he has a choice of tweedle-dum and tweedle-dee."

That's like a choice between being a square or a cube. The youth decides like, man, he's not with it. He becomes a hipster, a "non political expression of non politics."

According to Gold, "A hipster smokes a cigar, reads Life magazine and makes love all at the same time." That shows what he thinks of them and the system.

Until America is no longer Americans plunked down more offended at fighting types like than \$41/2 billion for cigarettes McCarthy, Gold believes, "we

Bellingham, Wash.

Ad Men, Too, Must Live

- By Herman Chauka

I was quite indignant when I first read the various exposes of television commercials. The idea that our leading corporations should try to hoodwink the public almost made me see red. But now I'm beginning to feel that maybe they have justice on their side, after all.

Take some of the recent complaints made by the Federal Trade Commission against leading American companies. These complaints, as I look at them more carefully, simply don't hold water.

For example, the commission says that the TV commercial for Palmolive Rapid Shave is phony. According to the FTC, a hand holding a razor is shaving what "purports to be a piece of dry sandpaper to which Palmolive has been applied."

The misleading implication, says the FTC, is that Rapid Shave's "moisturizing" action makes it possible to shave off the sandpaper. The truth is that the "supposed sandpaper" isn't sandpaper at all. It's a "mock-up" made of plexiglass to which sand has been applied.

The Palmolive people say they used a substitute only because of technical problems and that Rapid Shave will actually help you remove the sand from sandpaper. But even if this doesn't turn out to be true, there's no reason for all the fuss. How many people buy Rapid Shave in order to shave sandpaper?

Or take the commission's complaint against a Blue Bonnet margarine commercial. The advertisers show Blue Bonnet and a slab of butter. Both slabs appear to have drops of moisture on them while a sample of Brand X margarine, which is shown next, doesn't have a single drop of moisture.

The announcer tells the viewers: "Blue Bonnet is made by the new, exclusive 'flavor gem' process. When Blue Bonnet is spread like this you see 'flavor gems' just like on this 'highpriced' spread [the butter] . . . But no flavor gems appear on this other popular margarine and a margarine without flavor gems just doesn't taste like the 'high-priced' spread.'

The FTC worked up a sweat because those drops of "moisture" are really drops of a "nonvolatile" liquid like glycerine or cotton-seed oil that are added for the demonstration.

But again, I can't see where the Blue Bonnet people have done anything crooked. The FTC itself points out that moisture isn't what makes butter taste better. In fact, the commission says, "visible moisture in butter and margarine is undesirable and ought to be avoided by the industry."

Now, the ad men say they are confronted by many technical problems and even some moral ones in preparing their commercials, and I feel that the FTC isn't sufficiently sympathetic. TV columnist Marie Torre discussed some of the ad men's predicaments in a recent series of articles in the New York Herald Tribune. They are not to be dismissed lightly.

Last year, business firms invested more than \$1½ billion in TV commercials. Quite naturally they expect results.

How is an ad man going to get results? He searches his soul and asks: "Is it fraudulent . . . to put smoking cigarettes in the stomach of a turkey to make it appear as delectable as when it emerges from the oven of the average kitchen?" Well, is it?

I agree with Miss Torre that the ad men are a bit out of line when they add extra noodles to that "delectable bowl of beef noodle that suspects should be able to soup" they show on TV.

But she is being unduly harsh, I think, when she suggests that it's wrong for them to show comparative tests "in which the Brand X pill is coated with lacquer so that it doesn't fizz as the advertiser's pill does when deposited

Would Miss Torre or anyone else deny that the Brand X people probably do the same thing in their commercial?

Notes in the News

SENATOR HOLDS 'ON THE BEACH' IS INDISCREET - Senator Wallace Bennett (R-Utah) has vigorously condemned the film, "On the Beach," which depicts the destruction of humanity by nuclear war. The senator says this is "dangerously misleading" because there would be quite a few survivors in such a war.

IT'S GOT THAT HEALTHY LOOK - Five persons in two families suffered from a mild case of food poisoning in Portland, Ore., while eating hamburger patties bought at the same market. They developed sudden flushing and burning of the skin - especially in the face and neck. This disappeared after about an hour. The U.S. Public Health Service investigated and said the symptoms were probably caused by an overdose of a food chemical used to keep red meat looking red and appetizing. Treating meat with chemicals to keep it from fading is illegal said a Health Service official.

A HEAVY THUMB - Daitch-Shopwell, Inc., which operates a chain of 97 food stores in New York, recently paid \$10,325 in penalties for short-weighting customers. The settlement, for 413 violations dating back to 1958, was said to be the biggest sum ever collected by the city for this type of violation. Daitch was charged mostly with mis-marking prepackaged meats and delicacies. The penalties against Daitch came in the wake of a recent New York scandal involving a number of city weight-and-measure inspectors who allegedly took bribes from shopkeepers employing rigged scales.

ONLY IN AMERICA - R. Brinkley Smithers is prepared for possible war. On his fifteenacre estate at Mill Neck, Long Island, he has built a \$50,000 H-bomb shelter that will accommodate five of his relatives and three

NO FURTHER VALUE — George Lincoln Rockwell, of Arlington, Va., is head of the American Nazi party and an active purveyor of anti-Semitic literature. He is also a commander in the Naval Reserve. When originally queried about Rockwell by the press, Navy spokesmen replied there was no reason for action against him since his outfit was not on the Attorney

General's "subversive" list. Besides, the spokesmen said, the Navy doesn't believe in interfering with people's political beliefs. After further newspaper publicity, Navy officers announced that steps to discharge Rockwell have been taken. He has also been informed that his "mobilization potential has been reduced to a point where he is of no further value to the

At the present time West Coast yards are allowed contracts at a figure six per cent higher than competing eastern ship builders. The Metal Trades Council, the West Coast shipyards, the

VOLUME XXIV

dry other groups are trying to defeat this bill by organizing a well-financed lobby. To accomolish this they are out to raise \$25,000. The Metal Trades Council has pledged \$2,500 of this amount, the rest is to be raised by contributions from various unions, the Chamber of Commerce, employer groups, etc. Governor Rossellini has personally pledged \$1,000.

Chamber of Commerce and sun-

At first glance this might appear to some workers as a very worthy enterprise that would provide work for West Coast shipyard workers.

But widespread unemployment exists East, West, North and South, and this maneuver, even if successful, will not alter the over-all picture one iota. There will be only so many ships built, whether these ships are built in the East or the West. If the West Coast yards get more contracts, the East Coast yards will get less. Employment will rise slightly in the West and fall by the same amount in the East.

The answer to the problem of shipyard unemployment is no different from that of unemployment in general. To solve this problem labor, East, West, North and South must work together in unity for the sixhour day with no reduction in

Only then will the West Coast get its share of shipbuilding as well as other industrial work, because with the six-hour day all of the available nation-wide labor force will be utilized.

'Burglar'' Cops Hauled Plunder In Patrol Cars

Chicago's Democratic administration has a reeking new scandal on its hands — this one with a novel twist. Seventeen members of the city's police force have been suspended

on charges of participating in a worth of loot over a two-year period. Police Commissioner Timothy J. O'Connor has resigned his post because of "ill health" and has been handed the lower-paying position of As President

Discovery of the burglary ring came after the arrest of Charles Morrison, 25, a reported "master" burglar. According to State's Attorney Benjamin Adamowski, Morrison admitted he acted as a second-story man. breaking into North Side business places at night while police members of the ring cruised the area in their patrol cars acting as lookouts and then hauling off rison ruled on a constitutional he loot in the cars.

At least four truckloads of stolen goods were recovered from the homes of five of the cops said to be involved. The merchandise included television sets, radios, draperies, tires, revolvers, outboard motors, furniture and batteries.

The operation was so efficiently organized that cops were able o "order" specific merchandise that they needed at the moment such as antifreeze for their cars and other seasonal equipment, Adamowski said.

The scandal has been happily seized by the state Republican administration headed by Governor William G. Stratton, who is now demanding that Mayor Daly "clean up his city — or

Daly replied by telling newsmen to "ask the Governor about the Hodge scandal." Orville Hodge, a Republican, is doing a 15-year hitch in prison for helping himself to more than \$1½ million in 1956 while state auditor. An analysis of the police scandal in the Jan. 22 Christian

burglary ring that is reported to have accumulated some \$100,000 Rail Clerk Unit

Last month, Thomas Watkins became the first Negro president of an integrated lodge of the Brotherhood of Railway Clerks. He was elected by the predominantly white membership of Lodge 173, Haverstraw, N. Y.

In December 1958, the lodge elected William Scott, also a Negro, as president. But international president George M. Hartechnicality that Scott was not eligible to serve. The Scott case was then taken to the courts by the Urban League and the National Association for the Ad-

vancement of Colored People. Scott has charged that national union officers campaigned against him and raised anti-Negro issues in the election. They have not moved to unseat Wat-

On American Radicalism

Has socialism a future in America? Why is the socialist movement so small in this country? How can socialists help to rebuild it into a power greater than it was in the 1930's and in the days of Debs?

James P. Cannon, founder of the Socialist Workers party and active participant in the socialist movement for fifty years, attempts an answer. His examination of the ups and downs of the radical movement since 1900 makes illuminating reading. In the International Socialist Review. Send 35 cents for a copy.
